

SureColor SC-F2000 (5C)

DATASHEET

You can now print directly onto fabric, thanks to the SureColor SC-F2000's new ink, design software and printhead. With low total cost of ownership, it is reliable and productive and is ideal for printing directly onto t-shirts and bags. With its UltraChrome DG ink and new software, this fabric printer gives you the opportunity to start making money fast.

High quality

Its single platen makes it easy to print onto fabric and its height is adjustable to achieve precise results on fabric up to 25mm thick. The printed area on fabric is soft, making t-shirts comfortable and hard wearing. Featuring Epson's MicroPiezo TFP printhead, with a resolution of up to 1440x1440dpi for accurate dot shape and placement, its wide colour gamut produces vibrant colours and smooth gradations.

Fast print speeds

This DTG printer has fast print speeds for both light and dark garment printing.

UltraChrome DG ink

Epson's UltraChrome DG Ink comes in 250 or 600ml cartridges, it is ideal for printing on dark fabric, as its white ink is tough. The white ink is circulated within the system to reduce clogging.

Main Features

- Crisp color reproduction and smooth gradation.
- Compatible even color on stretch resistance.
- Tack-free feeling.

Flexible

The SC-F2000 prints on a wide range of media and a variety of textiles and comes with design software to easily create customised t-shirts.

Oeko-Tex Certified

Epson SureColor SC-F2000 is certified by the Oeko-Tex 100 (Product Class1). ¹
