

SureColor SC-T5200 MFP HDD

A highly productive multi-function printer with integrated 36-inch scanner that combines performance and value to save you time and money

The SureColor SC-T5200 MFP maximises performance in busy graphics, CAD and GIS production environments. The integrated 36-inch scanner, large-capacity ink cartridges and fast print speeds meet the market's need for maximum productivity and flexibility. Epson's PrecisionCore TFP printheads do not need replacing and deliver the highest level of performance, value and versatile media support.

Ideal for graphics, CAD and GIS

The SureColor SC-T5200 MFP is one of the SureColor SC-T series of high-speed, four-colour large-format printers, designed to produce a wide range of high-quality display graphics, CAD and GIS applications in design, commercial print, copy shop, architecture, building, engineering, retail and education environments.

Highly productive

To maximise productivity it features large-capacity ink cartridges and high-speed scanning and printing. With the versatile, integrated 36-inch scanner you can digitise large-format copies (from tracing paper to 1.3mm board) and scan-to-file, scan-to-email or scan-to-share with other SC-T printers.

Fast

It features 1GB of RAM for ultra-fast image processing, and an optional 320GB HDD for job caching and recall. Optional PostScript support with dual 1.6GHz CPUs enables printing of large data-rich files quickly and directly from leading design and CAD programs.

High-quality output

The combination of Epson's PrecisionCore TFP printheads and UltraChrome XD pigment ink delivers industry-leading output quality and precise, repeatable performance. UltraChrome XD pigment ink is smudge and water resistant and delivers deep blacks and crisp, dense lines — ideal for technical graphics — and the vibrant colours necessary for high-quality prints and posters, on coated and non-coated media — including board up to 1.5mm thick.
