

HD 651

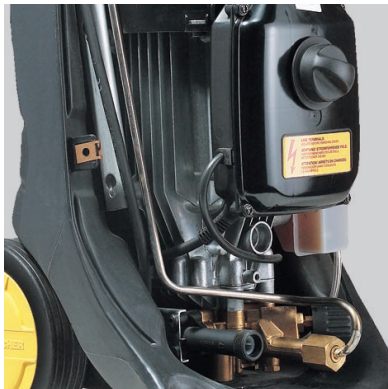

Commercial Cold Water Electric High-Pressure Washer

The HD 651 features an upright, durable design and large wheels for easy maneuverability, even over stairs. This pressure washer also incorporates Kärcher's direct-drive pump with high-grade hardened steel pistons and valve seats for outstanding efficiency and smooth, quiet operation. Industry-leading features such as the Triple Changeover Nozzle make this unit tough on dirt, yet user friendly. For your convenience, the HD 651 also has extensive storage facilities and easily accessible controls.

Air-cooled, single phase **electric motor with overload protection**

Patented Kärcher **direct-drive three piston axial pump** with brass cylinder head, high-grade hardened steel pistons and valve seats

Integrated 1.85 gal. detergent tank with metering valve

Low-pressure chemical injection and infinitely variable detergent metering

Ergonomic trigger gun with built-in pressure gauge and automatic shut-off when trigger is released

Upright, durable design with large wheels and extensive storage facilities for accessories

AVS: Anti-twist system - high-pressure hose is pivot-mounted in trigger gun to prevent hose from twisting during use

HD 651

Commercial Cold Water Electric High-Pressure Washer

Technical Specs

Part Number

1.150-110.0

Power Supply

110 V / 1~ / 60 Hz / 2.3 HP / 20 A

Operating Pressure

300 - 1500 PSI (Infinitely Variable)

Water Volume

1.1 - 2.3 GPM (Infinitely Variable)

Maximum Water Inlet Temp.

140°F

Machine Weight Without Accessories

58.4 lbs

Machine Dimensions

15.7" x 13.4" x 35.4"

Warranty

2 year limited

Standard Accessories

- Trigger gun with pressure gauge
- Stainless steel wand
- Triple Changeover Nozzle (0° HP pencil jet, 25° HP fan jet, 40° LP chemical injection)
- 50 ft high-pressure hose with integrated swivel
