Puig
Hi-Tech Parts

The logo features the word "Puig" in a bold, black, italicized sans-serif font. Below it, the words "Hi-Tech Parts" are written in a smaller, black, italicized sans-serif font. A red, curved swoosh element starts behind the "g" in "Puig" and extends to the right, partially overlapping the "Hi-Tech" text.

OUR PASSION FROM WITHIN.

For the second consecutive year, 2018 has been a year to include in our history books for the achievements reached by our brand. PUIG has accomplished double **WORLD CHAMPIONSHIP** on the most prestigious competitions on two wheels:

MOTOGP 2018: WORLD CHAMPIONS with HRC Team and rider **MARC MÁRQUEZ**.

SUPERBIKES 2018: WORLD CHAMPIONS with KRT Team and rider **JONATHAN REA**.

The technical collaboration with both teams throughout the year has allowed us to test/improve on product materials, shapes, and designs which have been already applied on products showing on this 2019 catalog.

Also, it has been a productive year for the addition of new products where we feature:

- **Aerodynamic line:** the Electronic Regulation System (ERS), aluminium frontal plate, and spoilers Downforce.
- **Protection line:** R19 Sliders and PHB19 front and rear axle sliders, which are evolutions of current products. Moreover, the nylon engine protectors will be introduced within the first quarter of 2019.
- **Illumination line:** High range antifog lights to mount on the engine guards or through supports specifically designed to fit each motorcycle. Also featuring a new set of turn signals sequential homologated at a very competitive price.
- **CNC aluminium line:** Levers and footpegs Heritage for retro-custom bikes.
- **CNC aluminium rear mirrors:** introducing three new models - Grand Tracker, Retro, and GTI. This last model with turn signal incorporated.

Once again, we appreciate the trust in our brand, which help us maintain our commitment to keep this catalog up to date, year by year.

HISTORIC AND UNFORGETTABLE YEAR FOR PUIG AS A
TECHNICAL PARTNER WITH 4 CHAMPIONSHIPS CROWNS
ON **MOTOGP**, **WORLD SBK**, **WORLD SSP**, AND **BSB**.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

2019
MODELS:
www.puigusa.com

STANDARD

Shape that duplicates the stock screen.

RACING

Derived of competition their double height diminishes the air effect on helmet.

NAKED NEW GENERATION

Designed exclusively for each naked bike model.

TOURING

Its superior height improves protection and rider comfort.

TOURING SCREEN WITH VISOR BOLT-ON

The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

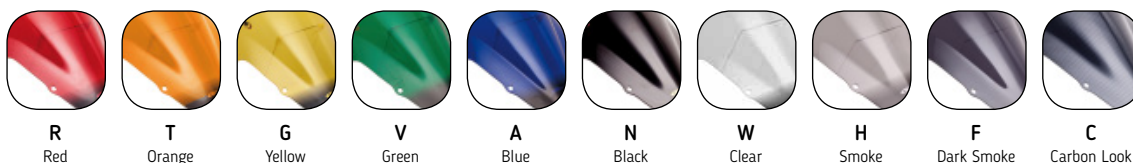

TOURING SCREEN WITH CLIP-ON VISOR

The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

WINDSCREENS FOR FAIRING BIKES

HI-TECH PARTS | TYPE OF WINDSCREEN:

2019
MODELS:
www.puigusa.com

STANDARD

Shape that duplicates the stock screen.

RACING

Derived of competition their double height diminishes the air effect on helmet.

NAKED NEW GENERATION

Designed exclusively for each naked bike model.

TOURING

Its superior height improves protection and rider comfort.

TOURING SCREEN WITH VISOR BOLT-ON

The multi-adjustable visor incorporated allows to vary the effect of air on the rider.

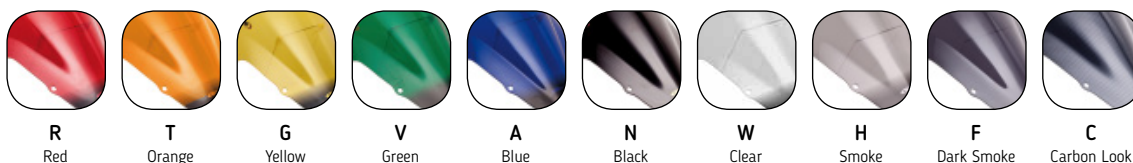

TOURING SCREEN WITH CLIP-ON VISOR

The multi-adjustable visor clip-on allows to vary the effect of air on the rider.

// E.R.S. (Electronic Regulation System)

Electronic mechanism, of easy mounting process, allows the windscreen to move up and down by actuating a switch even while driving. The range is 150 mm. to adjust at rider's taste, according to height and climate. Improves rider's comfort. It can be mounted with a Puig or OEM screen.

// SCREEN TESTED IN THE VIRTUAL WIND TUNNEL

The V-Tech design has been developed through our Virtual Wind Tunnel to improve stability and OEM aerodynamic penetration.

Its angulated shapes on its central and side sections esase the wind canalization redirecting it to both sides of the rider, minimizing turbulances and keeping the radical look of the pieces.

PUIG

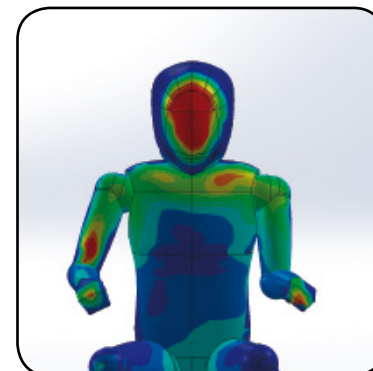

OEM

Improved aerodynamics and wind protection
on average +24%.

(TBA) Item under development. Check price on our website.

IMPORTANT: Indicate code color after part#. Example: 0973A.

// DOWNFORCE SPOILERS

Developed in collaboration with KRT team on several tracks from SBK championship. The "downforce" effect improves braking, the anti-wheelie and anti-shimmie on straights. Moreover, it provides more stability when changing directions.

Puig

MATERIAL

Manufactured in 4mm thick polypropylene for strength, durability and good appearance. The covers are simply bolt-on on the oem engine case.

Compact for a maximum distance to the ground, matt finished, and protecting one of the most vulnerable areas of the machine.

Previously verify any interference between our product and any other accessory (OEM or aftermarket) already installed on the motorcycle.

(TBA) Item under development. Check price on our website.

IMPORTANT: Indicate code color after part#. Example: 0973A.

Universal fog lights and aluminium case painted black.

LED technology with low electrical consumption, avoiding risking the battery due to excessive usage.

Supplied with instructions on our engine guards. Fit engine guards between 20.5 and 25mm diameter.

Equipped with a fuse and cables to connect directly to your battery and with a water proof switch to be installed on your handlebars.

Aluminium case designed to favor heat dissipation.

Optional metallic grill protections for offroad use.

Sells separately (Part# 9785N).

TECHNICAL FEATURES:

Low consumption: 40W (20W per light)

Voltage: DC 12-24V

Lumens: 4000L M(2000L M/light)

Material: PC lens / aluminium case

MOUNTING: To mount the auxiliary lights on the Puig engine guards use only one of the two spacers that carries the support and the allen screw M6x50.

MODEL	PART#	MSRP

FOLDS OUTWARD

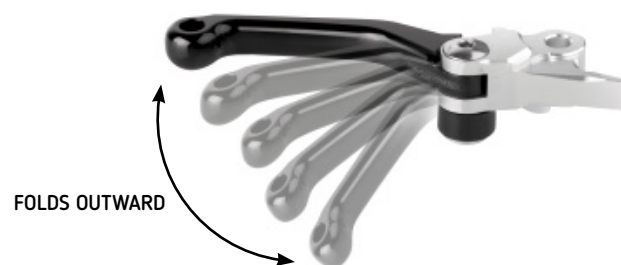

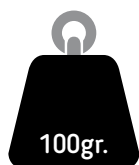

Adaptor designed with spring which allows the lever to swing forward to avoid the lever to twist or break.

DESIGN

Exclusive design: Clutch lever - length of lever for 4 fingers. Brake lever - length for 3 fingers.

REGULATION

The adjustable system allows the rider to customize it according to their need.

IMPORTANT: Due to the wide variety of original grips, some motorcycles may need to lower the edges of the gas throttle and the use of glue (such as Fischer MS Express) for a correct fixation. In motorcycle models where it is not possible to separate the rubber grip from the gas cane because they are one piece, it is not possible to install the grips.

TURN SIGNALS

HI-TECH PARTS

// TECHNICAL INFO TURN SIGNALS CONNECTIONS:

Most of the bikes use bi-metallic relay. Its frequency (which is the one that sets the pace of the turn signals) depend on the amperage circulating through the circuit. When replacing the turn signals from OEM to aftermarket ones which carry a difference power, consequently they vary the amperage circulating through the circuit and that causes a change on the frequency of the turn signals rhythm. If otherwise, the motorcycle uses electronic relay (which frequency works independently from the amperage circulating through the circuit) the change of turn signals from OEM to aftermarket, should not affect the frequency of the turn signals rhythm.

· **Note:** we recommend in case of doubt of what type of relay the motorcycle uses, to check the turn signal rhythm after switching from OEM to aftermarket.

If the OEM turn signals are replaced by aftermarket ones that use incandescent bulbs, it is needed to check they use the same power. In case is different, it is needed to replace the turn signals bulbs for other that uses the same power as OEM ones. On our catalog, we have available bulbs of different power.

If the OEM turn signals are replaced by LED ones (of much less power than incandescent bulbs), we have two options to balance the frequency of rhythm:

1. Incorporate a parallel relay in the right circuit and the other on the left circuit. If we replace four turn signals, it is needed to use a resistance Part# 42980.

If otherwise, only two turn signals are replaced (one on each side), it is needed to use a resistance Part# 58730.

The resistance are supplied with a scheme for a parallel connection.

· **Note:** On most of the bikes, the warning function of the bike is disabled if the resistance is used.

2. Identify the intermittence relay of the motorcycle (location and number of pins) and replace for its corresponding from the list supplied.

On most of the bikes, the warning functions works correctly when the relay is replaced.

· **Note:** it can be found on the market some motorcycles that do not have a intermittence relay; obviously, in this case it cannot be replaced. Moreover, if on the blinking function intervenes more than one relay, it is possible that replacing only one relay does not solve the problem.

(TBA) Item under development. Check price on our website.
IMPORTANT: Indicate code color after part#. Example: 0973A.

RETURN PROCEDURES

- No return will be accepted after 30 days from shipping note.
- The return must be accepted from Puig USA, after verification of the material by an agent in the area or, otherwise, through an email sent to returns@puigusa.com requesting the return along with detailed images.
- If the return is not Puig USA fault, 15% devaluation will be applied and material will need to be sent paid for.
- If the return is because of the transport, the customer will need to send us the transporter's shipping note where should be noted, at the time of the reception of the cartons, the disagreement of the condition of the material. Additionally, images of the cartons in bad condition will need to be sent to us.

BRAND AND IMAGES

PUIG® is a registered brand.

The images from this catalog and site www.puigusa.com are property of Puig USA and need authorization from Puig USA for its use.

Puig USA does not have any link with brands HONDA, YAMAHA, SUZUKI, KAWASAKI, APRILIA, BMW, BUJELL, CAGIVA, DERBI, DUCATI, HYOSUNG, PEUGEOT, TRIUMPH and others mentioned. All products registered brand, model or initials, are named with only purpose to cross part# with accessories of our own production.
