Smart Operation with special Program Key

Program Function

● Want an easy-to-use MFP

It is convenient that the MFP has many functions, however, I want to operate it in a simple way. It will be useless if I could not operate it even there are many functions.

- Program key allows compiling complicated settings into one single press
- For example, if the functions of "Combining 2 pages into 1 page, with 2-sided print in Eco Print format" is frequently used, you can have a simple press to perform all these functions by setting the program key

Example of Program Key setting (Eco Mode Setting)

- 2-in-1
- 2-sided print
- Eco Print

1-sided > 2-sided

Great! I could complete the task easily.

Multi-send function for easy business network

Multi-Send

● Send simultaneously

Lots of business contacts need to be sent separately! It is very troublesome to send the same document by Email, Fax and upload onto server separately every time.

- Not only Email, but also Fax and Scanned Data can be sent at the same time with one single press
- By using the Multi-send function, the MFP can deliver different tasks simultaneously, including Email, Fax and upload onto server. It is effective to avoid missing tasks!

Fax

FTP or SMB

Email

Sending once and for all, there will be no missing tasks.

Robust Security with advanced technology

Card Authentication & Prevent Fax to Wrong Recipient

● Want to strengthen the security needs for finance industry, hospital and government sector, etc

Industries, such as finance industry, hospital and government sector, need to deal with lots of personal data. So, it is very important to gain customers confidence for protecting personal data privacy. That is why security is so important.

- With this innovative security function, it supports your business in a perfect way
- The IC card authentication guarantees identity authentication and leverages network security.
- The Prevent Fax to Wrong Recipient function avoids sending fax to a wrong number.

1st Time   2nd Time

Fax No. xxxx xxxx   Fax No. xxxx xxxx

Secure access by IC card. We can double-check before sending fax.
