

X-TYPE

JAGUAR

JAGUAR

The X-TYPE 6-11. Engine choice 12-13. Driving experience 14-17.
Craftsmanship and versatility 18-23. TECHNOLOGY 24-27.
SAFETY 28-29. Choices and technical specification 30-47.
X-TYPE Accessories 48-51. Owning your X-TYPE 52-53.

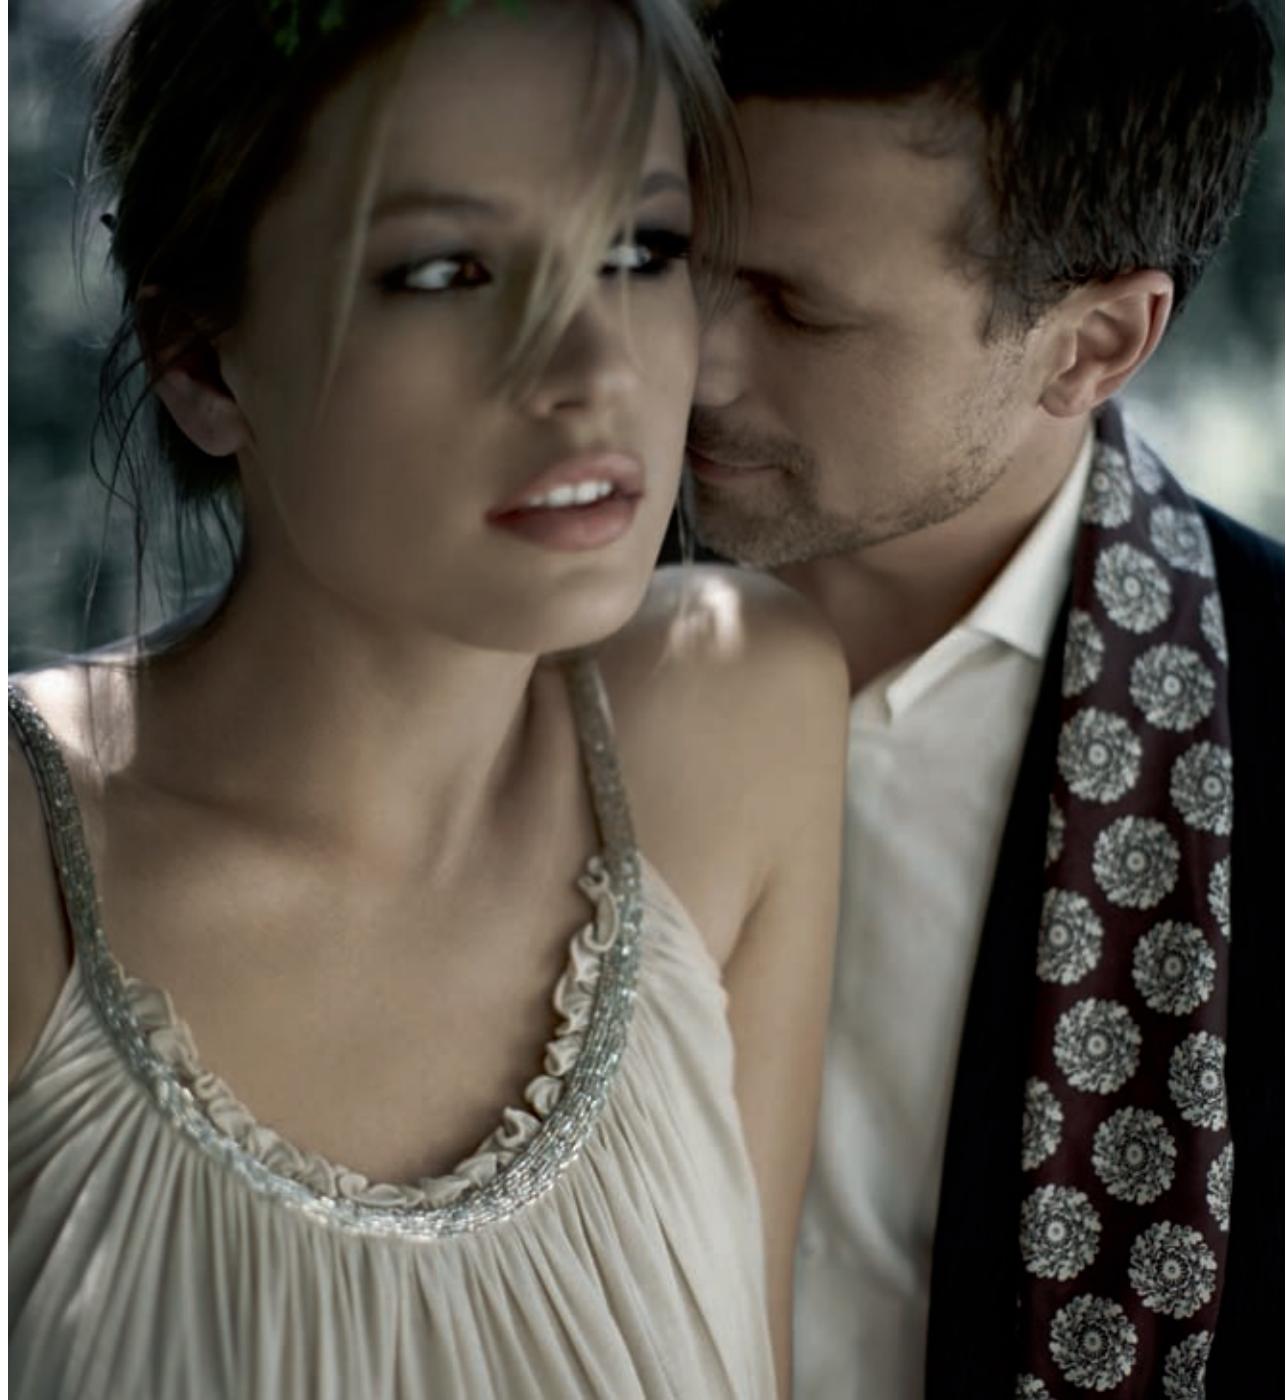

The X-TYPE from JAGUAR.
A distinctive range of premium
saloons and elegant estates
newly redesigned to offer
more style and even more choice.

Every model focused on delivering an outstanding driving experience; quality and refinement as standard; luxury that can be enjoyed, every day. The new face is bold and contemporary, the lines and stance more sporting, the signature detailing unmistakable. X-TYPE perfectly balances performance with versatility, a dynamic character with great looks, luxury and practicality.

III OHA

Power to suit purpose. PETROL OR DIESEL, manual or automatic. *A real choice.*

Newly expanded engine and transmission combinations mean an even broader X-TYPE range. Refined common rail diesels, or powerful 24-VALVE V6 PETROL ENGINES; 5 and 6-speed manual, automatic or one-touch sequential shift transmissions - there is an X-TYPE to match your needs and to exceed anything you might expect.

JAGUAR'S highly efficient turbocharged 2.0 LITRE DIESEL ENGINE is available with 5-speed manual transmission. It is quiet and responsive, delivers excellent fuel economy and, at 140g/km, has one of the lowest figures for CO₂ emissions in its class.

The 2.2 LITRE DIESEL is one of the most refined diesel engines in the world and now offers the choice of either 6-speed manual or the new 6-speed JAGUAR Sequential Shift™ automatic transmission with Diesel Particulate Filter (DPF). JAGUAR Sequential Shift™ has the dual capability of fully automatic or sequential manual gear selection - a combination that's smooth, flexible, economical and dynamic. It is specifically tuned to deliver sporting performance and relaxed cruising, and is unique to X-TYPE 2.2 LITRE DIESEL with DPF models. The 2.2 LITRE DIESEL ENGINE also features transient overboost - a few seconds at a time of increased turbo boost up to 400Nm of torque, for maximum overtaking punch whenever added performance is needed.

X-TYPE also offers JAGUAR'S superb 2.1 LITRE V6 and high performance 196 PS 2.5 LITRE V6 or 231 PS 3.0 LITRE V6 PETROL ENGINES, again with standard fully automatic transmission.

It's a range with a huge breadth of abilities - but every choice is designed to combine performance with refinement for maximum driving pleasure.

The X-TYPE, a JAGUAR with a *fine sense of balance.*

Luxury demands refinement, and dynamic excellence means smooth comfort as well as sharp handling. Balance is everything. Balance and personal preference. The X-TYPE saloon or estate, can offer Touring or Sport suspension tunes, and two-wheel drive or JAGUAR Traction[®] full-time All Wheel Drive (AWD). Whichever you choose, the X-TYPE's body architecture, its powertrain

installations and the way it covers the road are all tuned to deliver the most satisfying JAGUAR driving experience. Responsive, sporting and driver-focused. And, in diesel models, the X-TYPE's noise reduction technologies include tuned acoustic insulation and engine settings that fine tune three times every millisecond to preserve tranquillity and reduce vibration.

Being ahead is the *natural way* for the X-TYPE. Once again it opens *new horizons*, and all of it is underpinned by INTELLIGENTLY APPLIED TECHNOLOGY.

The X-TYPE has always been a leader - breaking new ground for JAGUAR with multiple first-time JAGUAR technologies. And the latest generation X-TYPES continue to use technology to achieve excellence.

To make their high-torque performance and driver-focused dynamics safer, even when conditions say tread gently, two-wheel drive diesel models have a range of sophisticated driver aids. Traction Control, and Dynamic Stability Control (DSC) with Emergency Brake Assist (EBA) can provide better grip, more balanced handling and improved stopping power, even when the road turns slippery.

The new X-TYPE 2.2 LITRE DIESEL with DPF automatic brings the sporting touch of electronically-controlled JAGUAR Sequential Shift™ to the X-TYPE for the first time - to combine refinement with dynamic performance and fine economy.

The JAGUAR Sequential Shift™ transmission offers the choice of two fully automatic modes - Drive mode for seamless response and relaxed cruising, or Sport automatic mode with more aggressive shift points and a more sporting feel.

For maximum driver involvement, Sports manual mode allows one-touch control of six perfectly spread gears - the shift quality specifically tuned to match exceptional response with optimum performance. In Sports manual mode, sequential up- and down-shifts are controlled simply by pushing the shift lever forwards or backwards, and sophisticated electronic logic does the rest.

2.5 and 3.0 LITRE V6 PETROL ENGINE X-TYPES feature DSC and JAGUAR Traction® full-time All Wheel Drive (AWD) as standard. JAGUAR Traction® gives exceptional road-holding and handling, for greater driver control and reassurance. In normal conditions it distributes engine power 40% to the front wheels and 60% to the rear wheels. However, if a wheel starts to slip, such as in wet conditions or under hard acceleration, more power is directed to the front wheels until full traction is regained.

Craftsmanship is a JAGUAR given, *contemporary luxury* is an X-TYPE signature.

Luxury is standard with the X-TYPE - contemporary luxury founded on thoroughly modern craftsmanship, every stitch a JAGUAR but with a new palette to reflect its bolder new look.

New seat designs feature horizontal or diamond twin-needle stitch patterns. There is a choice of sophisticated new trim colours with subtle contrasts or distinctive piping, and the availability of the highest quality materials and detailing, including Softgrain leather and contrast stitching. Dependant upon model, the powered front seats offer up to 10-way adjustment, two-stage heating for driver and front passenger seats, and memory function for the driver's seat with three settings that also include the exterior mirrors.

There's the elegance of the chic new Rosewood or signature Burr Walnut wood veneers, whilst Piano Black or stylish Carbon Fibre offer sporting alternatives. And the performance feel is enhanced by attention to detail. Within the instrument feel cluster, the redesigned dials have new surrounds with white pointer illumination inspired by the JAGUAR XK sports car range.

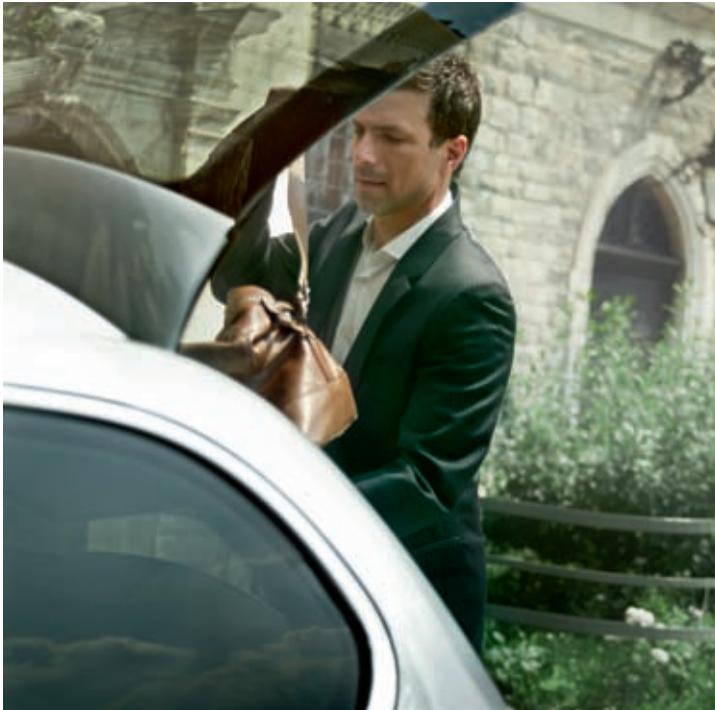

The X-TYPE isn't one car *but two*, saloon or estate.

A choice to support the way you live. The X-TYPE Estate has style, luxury, performance and refinement, plus even more space and versatility. One of the most elegant estate cars in the world, its practicality makes it a natural choice for anyone with an active lifestyle.

Space, accessibility and flexibility are the keys. A massive 1415 litres of usable volume with no need to remove head restraints when lowering the 70/30 split-fold rear seats. The rear load space has secure, concealed storage compartments, including one large enough to hide a laptop and charge it on the move from the Estate's standard 12-volt auxiliary power socket. And to keep everything where it should be, there's a removable luggage cover, and chrome-finished luggage tie-downs.

Usability is everything. The X-TYPE Estate's tailgate glass opens independently, so bags of shopping, a briefcase or a backpack don't mean opening the whole door. For bulkier items, the main tailgate aperture is tall, broad and uncluttered. Full carpeting to the waistline protects both interior and luggage. And the tailgate can be unlocked by its own button on the remote key - which can even be programmed to open the glass only.

Then if you do overspill even that huge capacity, roof rails in black or optional silver, add another level of load-carrying, as well as a neat styling signature.

The best TECHNOLOGY improves our motoring lives. JAGUAR technology is technology with the simple touch – *literally*.

JAGUAR believes in technology with a purpose, technology that's easy to use. The X-TYPE has features to look after your comfort, entertainment, information and safety, but no complex controls or clutters of switches to distract from the road – just user-friendly logic and elegant simplicity.

Cruise control is fitted as standard whilst hands-free Bluetooth® telephone connectivity, which includes the ability to pair up to five separate telephones, is also available. Both of these features, along with the audio entertainment system, can be operated using thumb wheels and buttons set into the steering wheel.

On Classic and SE models many of the most frequently used controls can be accessed from the 7-inch full-colour Touch-screen in the centre of the instrument panel. From there you can make your journey easier, more comfortable, better connected. You can find your way, search for local services and points of interest, with JAGUAR'S sophisticated Navigation system with DVD mapping. You can also control the audio entertainment, or access Phonebook listings and one-touch dialling functionality for the Bluetooth® telephone connectivity system.

And with JaguarVoice™ many functions can be operated simply by asking. The best technology really doesn't have to be complicated.

Bluetooth® compatibility depends on handset type – for full details go to jaguar.com

X-TYPE offers an array of models and features, each focused on meeting the differing needs and *requirements* of your *lifestyle*.

A comprehensive range of equipment is fitted as standard or available as individual options or option packs depending on which model you choose.

Cruise control, automatic headlamps, heated exterior mirrors, rain sensing windscreen wipers and automatic climate control are all standard across the range. Heated front windscreen, headlamp washers and power-folding exterior mirrors add even greater convenience.

High-intensity discharge Xenon headlamps with automatic levelling can help ensure the best possible night vision, whilst front and rear parking aids warn in advance of hidden obstacles like posts or low walls.

The JAGUAR premium sound system is acoustically tailored to the X-TYPE's interior, and features a single slot CD player and AM/FM radio with EON, RDS, PTY and TA. The system's power amplifier delivers 320W through ten direct drive speakers in the saloon, and nine in the estate. It can also be specified to include a 6-disc CD changer and where the 7-inch Touch-screen is fitted, there is even the option of a television tuner.

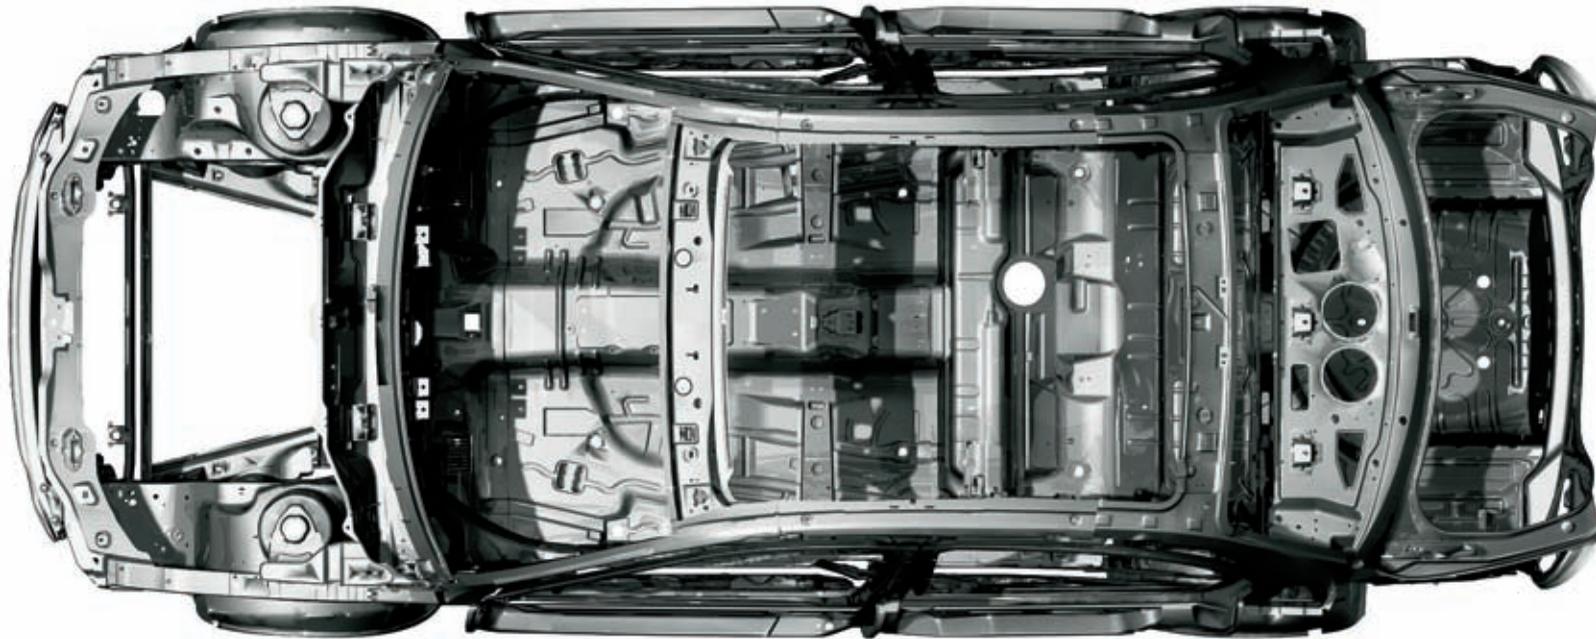

The X-TYPE has SAFETY at *its heart*, and SAFETY in depth and detail.

Safety in the X-TYPE begins with the inherent strength of its body structure. The passenger cell is protected by crumple zones that are designed to absorb energy rather than to feed it into the car, and the doors are reinforced to resist side intrusions. Inside that well-protected cell is the added protection of dual-stage front airbags, plus side bolster and curtain airbags - with the sophistication of occupant sensing systems to help ensure that if front airbags ever do need to deploy, they do it in precisely the best way to look after you. The X-TYPE's seat belts feature pyrotechnic pre-tensioners for front seats, along with three rear head restraints.

But long before any of that, the X-TYPE has the foundation of features that help avoid difficult situations: superbly balanced roadholding and handling, and for when you need maximum support, a powerful four channel Anti-Lock Braking System (ABS), Dynamic Stability Control (DSC), and Emergency Brake Assist (EBA) across the range. If EBA senses a rapid application of the brake pedal, which may indicate an emergency stop, the system is designed to automatically deliver additional brake pressure to bring the braking force into the area where ABS becomes active. This allows shorter stopping distances with improved steering control some time before the driver alone would have achieved the same effect. It is a very powerful defence system.

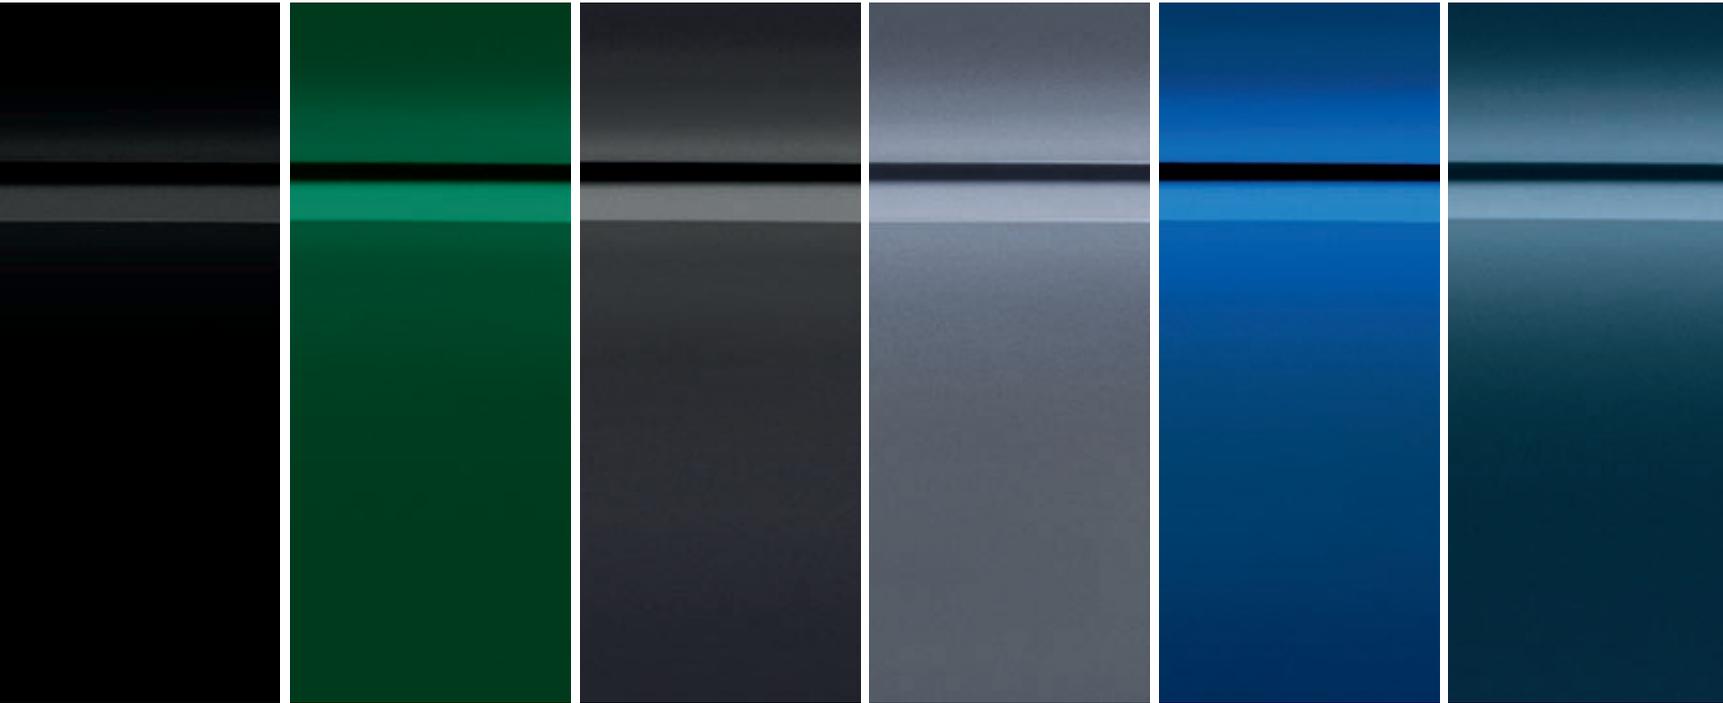

The *art* of making the X-TYPE your own – *a matter of choice.*

Your X-TYPE will be a central part of your life, and your family's life; and because your life has its own style and dynamics, you should choose the details to match.

Every X-TYPE can be an individual in almost anything you see and touch – from the wheels you ride on, to the detail of the seats you sit in and the trim that highlights the cabin around you. There is an extensive choice of exterior paint colours and alloy wheel designs. And with interior specifications that include five seat and trim colours and three seat styles, new horizontal or diamond twin-needle stitching on the leather upholstery, and four very different veneer finishes, it may be some time before you reach a decision.

Locking wheel nuts*
Remote control central locking with drive away locking intrusion and perimeter alarm with engine immobiliser

GLOSSARY

Jaguar Traction® full time All-Wheel Drive (AWD) – Standard 2.5L V6 and 3.0 V6 litre petrol models. Normally distributes power in a 40/60 front/rear split, redirecting power to achieve optimum traction the moment it senses a difference in grip between the front and rear wheels.

DSC (Dynamic Stability Control) with EBA – intervenes in demanding driving situations by applying braking to individual wheels and reducing engine torque. If it detects that the car is not turning in accordance with the steering input, it reduces engine power and gently applies the brakes so that

stability and full control are restored. The EBA system measures the rate at which the brake pedal is activated. If the system detects an emergency braking situation, EBA automatically initiates the full braking effect. This can reduce stopping distances in critical situations.

Twin needle horizontal stitch seat with leather and cloth seat facings (4/4 way) – Driver and passenger's electric recline and height adjustment.

Twin needle horizontal stitch seat with leather seat facings (6/6 way) – Driver and passenger's electric recline, height and lumbar support adjustment.

Twin needle diamond stitch seat with Softgrain leather seat facings and contrast stitching (10/10 way) – Driver and passenger's electric adjustment including fore/aft, recline, height, cushion tilt and lumbar support. Also includes 3 position memory function for driver's seat and exterior mirrors.

Twin needle horizontal stitch seat with leather seat facings and contrast piping (10/10 way) – Driver and passenger's electric adjustment including fore/aft, recline, height, cushion tilt and lumbar support. Also includes 3 position memory function for driver's seat and exterior mirrors.

Navigation system⁽¹⁾ – with DVD mapping, postcode entry, destination on the move entry and voice guidance, including 7" Touch-screen controls for audio and automatic climate control, Bluetooth® telephone connectivity and (where fitted) JaguarVoice.™

Jaguar sound system – with radio featuring EON, RDS, PTY, TA and single slot CD Player with automatic volume control and 6 speakers.

Jaguar premium sound system – With radio featuring EON, RDS, PTY, TA and single slot CD player with automatic volume control. This delivers 320W of total sound output, channelled through 10 unique Dual Direct Drive speakers (9 speakers in the Estate with the same 320W output) that through DSP (Digital Signal Processing) are acoustically tailored to the X-TYPE's interior.

Bluetooth® telephone connectivity⁽²⁾ – A Bluetooth® equipped Jaguar, enables hands-free use of your mobile phone at any time when the phone is in the car and up to 5 separate mobiles to be paired

to the car. Bluetooth® is compatible with a selected range of mobile phones from a number of different manufacturers.

JaguarVoice™⁽³⁾ – Voice control of audio, automatic climate control, Bluetooth® telephone connectivity and Navigation system.

Jaguar Sequential Shift™ – 6-speed electronic automatic transmission (2.2L D) with fully automatic Drive and Sport modes and one-touch Sport manual mode.

Diesel Particulate Filter (DPF)# – Catalysed Diesel Particulate Filter is a filter system that catches the very fine diesel soot particles that arise in combustion engines. The filter system reduces soot particle emissions to near zero, not only exceeding European emissions standards (EURO STAGE IV) but also helping to reduce the level of pollutants in the environment.

⁽¹⁾ Country mapping DVD covers: South Africa and Middle East.

⁽²⁾ JaguarVoice™ only available in Middle East.

⁽³⁾ Full size spare wheel is not available with 18" wheels or estate body style. In these instances, a space saver spare is supplied.

⁽⁴⁾ Leather gearknob for all 2.0L D / 2.2L D Leather gearknob with Piano Black inserts for all 2.2L D automatic transmissions Piano Black gearknob for all 2.5L V6 and 3.0L V6 automatic transmissions with Carbon Fibre Veneer Wooden gearknob for all 2.5L V6 and 3.0L V6 automatic transmissions with Rosewood or Burr Walnut Veneers.

Permitted trailer load, unbraked- ⁽³⁾ – kg	746	750	750	735	750	750

Permitted roof load – 75kg Permitted trailer load, braked⁽³⁾ – 1,500kg Permitted towbar download – 75kg Turning circle – kerb to kerb 10.84m Boot volume – 452 litres – VDA

⁽¹⁾ The fuel consumption figures were obtained in tests carried out in line with the Passenger Car Fuel Consumption Amendment Order 1996 (Reflecting EU Directive 1999/100/EEC fuel consumption test cycle). These figures were correct at the time of going to press.

⁽²⁾ Weights reflect vehicles to standard specifications. Optional extras increase weight.

⁽³⁾ Up to maximum 12% gradient.

*Catalysed Diesel Particulate Filter is an optional filter system that catches the very fine diesel soot particles that arise in combustion engines. The filter system reduces soot particle emissions to near zero, not only exceeding European emissions standards (EURO STAGE IV) but also helping to reduce the level of pollutants in the environment. Please consult your dealer for availability.

JAGUAR

Because you will always want the *finishing touch*...

Detail is everything, and JAGUAR Accessories are the perfect way to complete the picture. The comprehensive range offers the opportunity to personalise your X-TYPE's appearance and to add even greater functionality and convenience.

X-TYPE's Rear Screen Connectivity System allows rear seat passengers to connect DVD players, games consoles or camcorders and play them through two independently operating 5.6 inch LCD screens integrated into the front head restraints. The system also

includes two sets of dual band, infrared wireless headphones. It can help keep younger passengers happy on even the longest journey - so you might never again hear the old cry, 'are we there yet?'

...and because you like to be INDIVIDUAL...

you can also add individuality to your X-TYPE's exterior, with accessories such as the sporting boot-lid spoiler, chrome mirror covers or Proteus 18-inch alloy wheels. And there are accessories to support an active lifestyle such as the easy to load cycle/mountain bike carrier.

The X-TYPE ownership experience. SERVICE, ASSURANCE, and PEACE OF MIND are all part of the pride of *owning your* X-TYPE.

THE JAGUAR ACCESSORY RANGE

Enabling you to personalise your car, to create a driving experience that is even more individually rewarding. All JAGUAR accessories are tested rigorously for safety and durability in the most arduous of climates and conditions. A comprehensive range of styling options, interior and exterior accessories, enabling you to tailor your X-TYPE to suit your personal style.

BECAUSE ONLY THE BEST WILL DO

An official JAGUAR dealer or Approved Service Centre can ensure that JAGUAR trained, specialist technicians, with access to the full range of JAGUAR approved parts and tools, will always be on hand to guarantee that every fitting or repair is carried out exactly the way JAGUAR intended. Your JAGUAR dealer or Approved Service Centre can also supply and fit JAGUAR approved accessories to personalise and add to the practicality and style of your X-TYPE model.

SERVICE AND ASSURANCE

Complete peace of mind, as well as Standard Price Servicing. Total Tyre Care includes everything from checking tread depth to wheel alignment and competitively priced tyre replacement. Seasonal Health Checks guarantee that, 365 days a year, your X-TYPE stays in premium condition.

WARRANTY

3 year warranty together with a 3 year Paint Surface Warranty and 6 year Corrosion (Perforation) Warranty.

JAGUAR MAGAZINE

From travel to fashion, chic to champagne, JAGUAR magazine is an owner's publication like no other. JAGUAR articles touch on everything from exclusive holiday destinations to fine wines, art to architecture. As well as features and interviews bringing all the latest news from the world of X-TYPE and JAGUAR.

JAGUAR.COM

The interactive jaguar.com website features helpful tools such as the dealer locator, model specifications - allowing you to see the car tailored to your specification and colour - and price lists; the latest information on all the JAGUAR models and a fascinating look into the passion and legacy that infuse the JAGUAR name.

JAGUAR FINANCIAL SERVICES

Whether your requirements are business or personal, JAGUAR Financial Services offers maximum choice and flexibility with a wide range of financial and insurance plans tailored to your needs.

JAGUAR

IMPORTANT NOTICE

Jaguar Cars Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle.

Distributors and dealers are not agents of Jaguar Cars Limited and have absolutely no authority to bind Jaguar Cars Limited by any express or implied undertaking or representation. Illustrations in this brochure may include optional extras.

Comparisons are based on manufacturer's own data and testing.

ENVIRONMENTAL NOTICE

Jaguar Cars Limited has a vision of being amongst the world's leading companies in demonstrating progress towards sustainability. We aim to do this by contributing to a better quality of life, with corporate citizenship at the very heart of our company, and by reducing our environmental footprint through innovative design and manufacturing, minimizing resource and energy use. Environmental responsibility is a core value in Jaguar, and it is our policy to continually improve our environmental standards in all areas of business activity.

This brochure is produced using certified FSC mixed sources material from well managed forests and is manufactured under a strict ISO 14001 environmental system. 10% of this material is recovered fibre, diverting waste from landfill.
