Dealer's Stamp

Official Partner of Manchester United

Prints on black, coloured and white garments up to 25mm thick.

Easy-to-use Garment Creator editing software included.

High-quality, fast print speeds and reliable printing.

The SureColor SC-F2000 is the perfect t-shirt printing solution if you are looking to upgrade your equipment, complement your existing infrastructure with a digital DTG printer or if you are starting a t-shirt printing business.

Superb quality

The 1440x1440dpi resolution of Epson's Micro Piezo TFP print head and UltraChrome DG inks with white, deliver a wide colour gamut and smooth colour gradations.

High productivity

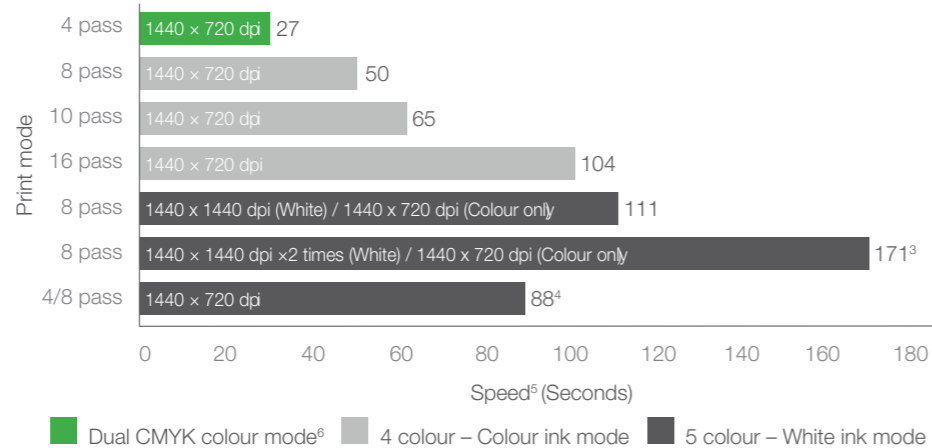

In its fastest print mode - dual CMYK - the SureColor SC-F2000 prints a t-shirt in just 27 seconds¹. A choice of high-volume 250 or 600ml ink cartridges allows you to print for longer.

Cost effective

In one affordable, fully-featured direct-to-garment solution we provide everything you need to produce t-shirts quickly, easily and very competitively.

Profit from the latest in high-speed, top quality t-shirt printing technology

The SureColor SC-F2000 is entirely designed and built by Epson. It delivers maximum quality, superb productivity, ultimate flexibility and total reliability - complete with low running and maintenance costs. Print directly onto material made of 100% cotton² or blended materials with a minimum of 50% cotton².

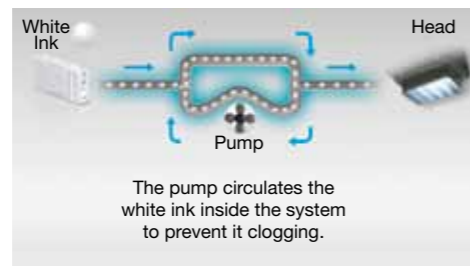

Ease-of-use

The SureColor SC-F2000 is easy to set up and operate so you, or anyone within your business, can use it. The height-adjustable garment platen is designed for fast, straightforward loading and access via a colour control panel at the front of the printer.

Easy maintenance

White ink circulation

The automatic printhead cleaning and white ink circulation system allows for excellent and consistent print output every time. The SureColor SC-F2000 requires minimum daily maintenance thanks to its automated maintenance.

Garment Creator software

The Garment Creator design software comes as standard with the SureColor SC-F2000. Using the Garment Creator's simple, intuitive user interface you can design and customise t-shirts. The software allows you to save predefined colour management and layout control presets, thus making it easy to deliver consistent results.

Using Garment Creator you can print on dark t-shirts using white ink without having to pre-edit the image, as the software automatically generates and prints a white under layer.

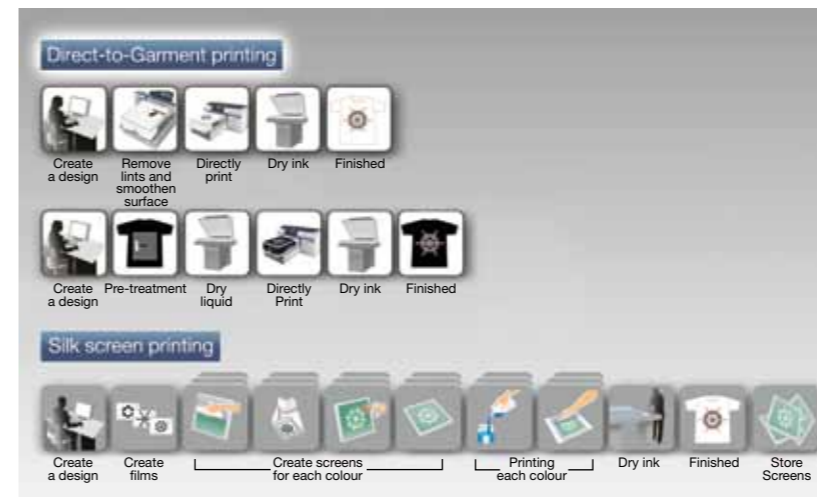

SureColor SC-F2000 at a glance

Platens: Four different sizes available

The printer is supplied with a medium platen (355x406mm), small platen (254x305mm), large platen (406x508mm), sleeve platen (101x101mm). Optional platen sizes can be purchased in addition.

Workflow Comparison

The SureColor SC-F2000 eliminates the need for preparation of screens and saves on time, without compromising on quality.

Key features

- Cost estimate: the approximate printing cost and ink usage can be calculated using the job estimate function
- White preview mode
- Job history and re-print
- Printer maintenance functions such as nozzle check and printhead cleaning
- Printer status
- Export files for USB direct print
- Editing functions such as scale, rotate and flip
- Colour replacement with white spot or transparency
