OUR RAILWAY EARNINGS ISSUE.

We send to our subscribers to-day the December number of our "Railway Earnings" Section. In this publication we give the figures of earnings and expenses for the latest month of every operating steam railroad in the United States required to file monthly returns with the Inter-State Commerce Commission at Washington.

This earnings Supplement also contains the companies' own statements where these differ from the Commerce returns or give fixed charges in addition to earnings, or where they have a fiscal year different from the June 30 year, as is the case with the New York Central Lines, the Pennsylvania RR. and others.

THE FINANCIAL SITUATION.

It is impossible to avoid a feeling of dejection at times, in view of the legislative happenings and the cynical attitude of so many men in pubile life. Unusually bounteous harvests have just been gathered and the trade of the country is in a state of great activity, and is also sound and prosperous. It ought to be the aim of every one to keep it so, and to encourage enterprise and continued development in every direction. Instead of this, many of those prominent in public life appear to think, or act as if they did, that the multiplying evidences of thriving trade, with the coincident growth of industrial undertakings and increase in wealth, are indications of something radically wrong in the country's social and economic system. They can see in expanding activity nothing but means for adding still further to the influence and power of those already prominent in that way, and accordingly they are agitating and investigating to see what methods can be suggested or devised for repressing the existing energies in the business and financial world.

Persons of this calibre are entirely oblivious of the fact that the wonderful progress the country is making and the advance that is taking place in every walk of life and every avenue of trade, are the result of energy, of skill, of wise forethought, of no little ingenuity, of close application and of the careful adaptation of means to the end. Such critics seem to imagine that the rearing of great industries, the creation of wealth, and the extending of our trade and commerce, come without effort, require neither talent or application and that the fruits of such endeavors must be looked upon as a species of uncarned increment which it is the duty of the public to take away from its possessors.

The country is blessed (or the reverse) at the present moment with investigations galore. Many of them no doubt have been undertaken in good faith. But they all seem to have a common purpose, namely to discredit accepted methods of business and to make it appear that trade is being conducted dishonestly and in disregard of the rights of the masses, Our great Clearing-House organizations, which have done such excellent work in facilitating banking operations and weeding out dangerous and unsafe practices, are treated as if they were clothed with an evil purpose, instead of being beneficent agencies. The Stock Exchange is held up to contempt and obloquy heaped upon it, when emphasis should be laid upon the important functions it performs and the generally high character of its membership, and the fact recognized that the single corrective necessary is to

remove any objectionable practices that may have grown up in connection with it.

This week the Money Trust investigators have had before them Mr. J. P. Morgan. Mr. Morgan has undoubtedly done more for the industrial development of the country and its transportation interests than any other single individual in the entire history of the United States. In every other country it would be the delight of the whole people to honor such a man and the national legislature would go out of its way to show in what high esteem he was held. Consider with what pride an Englishman will refer to Cecil Rhodes or with what satisfaction the Germans will name Krupp, the gunmaker. Both these acquired great wealth incidental to and as a result of their achievements. Yet neither was considered dangerous during his lifetime because of his wealth or of the possible use that might be made of the same. But in this country, in the case of Mr. Morgan particularly, but in the case also of numerous other industrial and financial leaders, we are asked to believe that they are a menace because of the power and influence they wield, and that some scheme must be devised for shearing them of these powers.

What Mr. Morgan has acquired is not so much wealth as power and influence, but he has never misused this power, or employed it for selfish ends, and it is for that reason that the power has come to him and remains with him. A not over-scrupulous cross-examiner has attempted to present him in an evil light and has signally failed. Mr. Morgan made a telling point when he indicated that credit is personal; that all depends upon character; that a monopoly of credit is out of the question, and that power is dangerous only when it is misused. The star crossexaminer gained nothing for himself in his examination of his star witness.

But the attempt to discredit and disparage Mr. Morgan is only a part of a general attempt on the part of the politicians to discredit everything and everybody, especially men of prominence in trade and finance. The harm done is twofold. First, in deceiving the public as to the moral tone prevailing in business circles, and, secondly, in discouraging our industrial and financial leaders from continuing their endeavors to promote trade and stimulate enterprise. If what these leaders are doing is reprehensible in the eyes of the public instead of commendable, then it is obvious that they should cease their What is worst of all is that iteration and activities. reiteration have created such a frame of mind that the great mass of newspaper readers at least are inclined to believe the bad and overlook the good.

Even the judiciary has not escaped coming under the pernicious influence which is so all-pervading. We had a signal illustration of this on Friday of last week, when Justice Goff, in the criminal branch of the Supreme Court, was called upon to sentence an unfortunate who had pleaded guilty to purloining \$350 of the funds of a local chapter of the Electrical Workers' Union. Said the Justice (according to the accounts in the daily papers): "You have made a great mistake, O'Donnell. Why didn't you go into Wall Street. You would have been rated as a high financier there and you would have had an air of respectability about you. But a man who steals small sums makes himself a common thief." Just think of a Justice of the Supreme Court thus joining in the general abuse, and libeling Wall Street by the intimation that in the fi-

nancial world to steal and to practice dishonesty is respectable. And to think of Justice Goff, of all others, a Judge to whom the whole community has become accustomed to look up to as the personification of judicial discretion and impartiality, being guilty of such a lapse and so sadly violating the proprieties.

This week President-elect Wilson has returned after a month's sojourn in the Bermudas, and has done his part to add to the prevailing prejudice and promote the spread of jaundiced views. The habits of the schoolmaster still cling to Mr. Wilson and he is unable to resist the temptation to lecture. On the present occasion he indulged in his favorite pastime. Just at the moment it would seem as if he were in no position to criticize any one. He has not yet resigned his office as Governor, and yet is persistently absent from his post. He undoubtedly had an arduous campaign, and in spending several weeks at the Bermudas took a well-earned rest. But that does not alter the fact that he has not been fulfilling his functions as Governor, though still holding the office. As a matter of fact, during the whole of the summer and fall, while prosecuting his campaign, he was able to give only perfunctory attention to his duties. Not only that, but long before he got the Presidential nomination. he was in quest of it, and spent much time in speechmaking tours away from home. Counting the entire period of abstention from official duties, it would probably be difficult to find a parallel to Mr. Wilson's case of absenteeism among the governors of the different States. Imagine how he would flay the political officeholders or bosses if they had been guilty of anything of the kind. The moment he returned from the Bermuda Islands Mr. Wilson at once served notice on the old-time politicians that a day of reckoning was at hand for them; that he did not like the scheming they had evidently been indulging in while he was enjoying his well-deserved vacation. As between the politicians and Mr. Wilson, public sentiment will of course always be on his side. But if the politicians have been getting busy again while he furnished them with the opportunity, who is most to blame?

The matter of chief concern, however, to the business and financial world, is that with his return Mr. Wilson not only lectured the politicians but he also had strong words of reproof for some assumed offenders in the business world. He delivered a speech on Tuesday evening at the annual dinner of the Southern Society of New York at the Waldorf-Astoria. In this speech he outlined the work ahead of him, as he conceived it. The occasion was such as to suggest the wisdom of reassuring words from the President-elect. He has already announced that there is to be an extra session of Congress next April for the purpose of revising the tariff. The Democrats will then be in control of all branches of the Government and be able to carry out the plans to which they stand committed by their platform and their professions. The revision, therefore, will mean an entire change in the country's economic policy in that respect-a policy under which business has been carried on for half a century with the exception of a brief period during one of Cleveland's administrations.

Accordingly, quieting words from Mr. Wilson would have been decidedly in order. Instead of that, strangely enough, he talked of the possibility of panics, and suggested the meting out of summary

to bring about such a calamity. After saying that "a panic is a state of mind," which is an absolutely accurate description, he added that there are also "unnatural panies," and woe to him who dares to use the machinery to create such a panic. Here are his words: "If any one attempts it, I promise you that I will build the gibbet for him as high as Haman's." For ourselves, we have not heard the slightest suggestion of a panic, nor can we discover any conditions that are working in that direction. It is undeniable, however, that the things that are happening in the legislative world and the frame of mind engendered thereby in opposition to accepted methods of business tend deeply to disturb confidence. If "a panic is a state of mind," as it undoubtedly is, Mr. Wilson's ill-advised utterances, by disturbing confidence, are calculated to bring about the very situation of which he seems to stand in fear.

We note that Mr. Wilson says that after his inauguration he is going to attend to business, but adds that this does not mean he is going to stay in Washington-that he intends "going about among my neighbors and find out" what the people want. If this week's speech is a sample of what to expect when Mr. Wilson travels about the country as President, and at the same time there is to be drastic revision of the tariff, it is quite conceivable that loss of confidence might become decidedly pronounced. If Mr. Wilson should repeat the Roosevelt performances and bellow at the business and financial world. as did Mr. Roosevelt, even a new currency system would not suffice to save the country from the ultimate consequences.

The foreign trade statement of the United States for November 1912, issued yesterday, indicates that in both the inward and outward movement of merchandise new records for the period covered were established and that the exports were even greater than for October, and, therefore, constitutes the highest total ever reached for any month of any year. The increase over the exports of November 1911 is participated in quite generally by the various articles, but most largely by cotton, which reached a heavier total, both as regards quantity and value (the latter in part due, as compared with last year, to higher prices) than in any former month, and exceeded 1911 by 41 million dollars. Breadstuffs, too, went out much more freely than a year ago, wheat in particular and mineral oils showed a gratifying increase but provisions and cattle were in restricted movement. The value of these leading articles reached nearly 154 million dollars for November this year, or 20 millions greater than in October, 5634 millions more than in November 1911 and 18 millions in excess of the previous high aggregate in December 1910. A gain in the value of the exports of manufactures is also to be noted.

Concisely stated, the total value of the merchandise exports for November 1912 was no less than \$277,898,681 and for the eleven months of the current calendar year \$2,148,563,324, these comparing with \$201,752,760 and \$1,867,619,610, respectively, in 1911 and \$206,620,377 and \$1,637,-256,221 in 1910.

Imports of merchandise for the month were also greater than ever before in November. They reached \$153,134,995, against \$126,162,022 in 1911 and \$129,785,537 in 1910, with the respective eleven punishment to anyone who might be desperate enough months' aggregates \$1,664,309,560 and \$1,391,-

684,958 and \$1,426,194,277—the latter the preceding high-water mark. The net balance of exports for November reaches \$124,763,686, or nearly 50 millions more than in the month last year and exceeds the mark set in January 1908, when, as a result of depression here, imports were of very restricted volume. For the eleven months the net outward balance is \$484,253,764, comparing with 476 millions a year ago, 211 millions in 1910 and the record balance of 559½ millions in 1908.

Building operations in November 1912, while showing the expected let-up in activity that comes with the approach of winter, were nevertheless of satisfactory volume, having exceeded the total for the corresponding period of any previous year. Much the greater number of the 92 cities included in our compilation disclose gains over a year ago and the aggregate intended expenditure at 67,850,207contrasts with 63,721,781. Compared with the month of 1910, there is a gain of moderate proportions. Operations in Greater New York (the Borough of Richmond not making monthly reports) record a small loss (3.8%), Queens alone showing any gain, and that slight.

Outside of New York every section of the country makes a better exhibit than a year ago, but greatest activity is reported in the Middle West. As regards the individual cities, such leading municipalities as Chicago, Cleveland, Kansas City, Omaha, San Francisco, Los Angeles, Pittsburgh, Philadelphia, St. Paul, Rochester, Atlanta, Detroit, Buffalo, Indianapolis, Milwaukee, Memphis, Minneapolis, Louisville and Worcester show more or less noteworthy gains. On the other hand, losses are reported at St. Louis, Boston, Newark, Seattle, Portland, Ore., Denver, Spokane, Cincinnati, Salt Lake City, Hartford, New Haven and Dallas. The aggregate result for the outside cities (91 in number) is a total of \$52,552,235, as against \$47,822,549 in 1911.

For the eleven months of the calendar year 1912 the aggregate for the identical 92 cities, at $847\frac{5}{8}$ million dollars, compares with $803\frac{1}{2}$ millions and contrasted with the previous record total of 1909 there is a satisfactory gain. Greater New York's operations at 199 millions exceed those of 1911 by $18\frac{1}{4}$ millions, a gain shared in by all boroughs. Outside of this city the combined total is well above any preceding year, the $648\frac{3}{4}$ million dollars of 1912 comparing with $622\frac{7}{8}$ millions in 1911 and $572\frac{1}{2}$ millions in 1910.

Returns from the Dominion of Canada month by month for some time have given evidence of activity and this the November results in no wise controvert. In fact, a very large increase over the corresponding months of 1911 is shown as is indicated by the respective totals for the 45 cities included in our compilation-\$14,205,732, against \$8,457,757. The combined aggregate for the eleven months for the 45 cities is \$181,834,546 (22 in the Western Provinces reporting \$110,749,162 and 23 in the East \$71,085,384), or 5334 millions more than for the like period of 1911 and not far from double the contemplated outlay of 1910. Only two cities show declines, and at such places as Edminton, Moose Jaw, Maissonneuve, Medicine Hat, Port Arthur, Prince Albert, North Battleford and Oak Bay the 1912 totals are more than double those of a year ago. At Calgary, Vancouver, Hamilton, Regina, Saska-

toon, Victoria, Winnipeg, Ottawa, Montreal and Toronto, moreover, heavy gains are also reported.

The Balkan peace conference in London began on Monday, and after three sessions, and incidental delays on the part of Turkey, adjourned on Thursday until Saturday without definite results. The attitude of Turkey, however, in treating with the Greek delegates, despite the fact that the latter have maintained their refusal to sign the armistice, seems to suggest that Turkey will accept peace on less favorable terms than at first expected. The situation at the end of the first week's negotiations, in fact, is not unlike similar conferences in the past, notably that in Portsmouth at the end of the first week, when nothing had been accomplished and each side was apparently maneuvering to gain a temporary advantage before beginning actual work in formulating a treaty. Greece, the only one of the allies which did not sign the armistice, has maintained that attitude, and is in the position of having peace delegates present urging her demands while at the same time she is fighting Turkey on land and sea. Turkey on Thursday, after a brief session, requested an adjournment until Saturday, so that dispatches being sent from Constantinople by special courier could be received. These, it is believed, will aid in hastening the work. The principal conditions of peace demanded by the allies, according to this week's press dispatches, comprise the immediate surrender of the Turkish fortresses of Scutari, Adrianople and Janina, to the garrisons of which full military honors will be granted; the evacuation of Eastern Europe by Turkey as far as East Chatalja, to a line to be definitely settled later; the cession to Greece of all the Aegean Islands; the annexation of Crete to Greece and the payment by Turkey of a war indemnity and of the expenses incurred by the allies on account of the Turkish prisoners. The allies, in return, are, it is said, prepared to grant complete amnesty to the Mussulman population in the territories they annex for any acts of hostility during the war; the return of all prisoners; the recognition of the spiritual sovereignty of the Sultan over Ottomans becoming subjects of the Balkan States, and the free administration by the Mussulmans of their pious foundations in the Balkans. To these conditions have now been added the taking over by the Balkan States of that part of the Ottoman public debt corresponding to the territories which they annex, unless the Powers controlling the Ottoman debt allow them to deduct that part from the war indemnity imposed upon Turkey, which would thus remain the only debtor. Turkey, on the other hand, is understood to have instructed her delegates that Adrianople and all the other besieged Turkish towns shall be revictualed, and, if the proposal is not accepted by the delegates of the Balkan allies, to break off negotiations. That these obstacles will be overcome is confidently expected.

While the delegates are delayed in reaching an agreement, all the belligerents are said to be strengthening their lines of battle and getting reinforcements in readiness for a renewal of the war. Turkey is said to be sending reinforcements to besieged cities and towns and the allies are concentrating greater forces along the Chatalja front, to enable them, if war is resumed, to arrive at Constantinople within a few days. The expected naval engagement between Greece and Turkey—the battle being fought, as Greece did not sign the armisticetook place on Monday off the Dardanelles. Reports, which are meagre and semi-official, tell of severe casualties and the loss of one or more battleships on each side, and the final retreat of the Turkish fleet to the shelter of the heavy guns of the Dardanelles forts. The Greek fleet, it is believed, was the victor, Admiral Koundouriotis' superior seamanship outgeneraling the Turks. The Turks, aside from the loss of many men, lost their principal commander, when Vice-Admiral Halil Pacha, formerly Minister of Marine, was killed. He was on board the flagship Kheyr-ed Din Barbarossa, which, according to the dispatches, was very seriously damaged. An unusual feature of the Turko-Grecian battles, showing the advancement of modern science, is reported from Yanina, where a Greek aviator flew over the city and dropped bombs into the Turkish fortification. The airman took a large supply of bombs with him, and a Greek officer, his passenger, hurled these explosives down on the principal buildings, to which they caused serious damage. The population is said to have been terrorized. The only other event of the week in which casualties occurred is reported in a Port Said dispatch. Turks are said to have massacred the Christians in Mitylene. The number killed is not known.

An agreement was reached on Wednesday by Austria and Servia whereby the possibility of war between the two countries now seems to have been averted. The points of dispute not only concerned the acquisition by Servia of a commercial port on the Adriatic, but the control of Albania. According to dispatches from Belgrade, Servia will recognize an autonomous Albania, receiving the use of a commercial port on the Albanian coast connected with Servia by a neutral railway. The question of a customs union between Austria, Servia, Bulgaria and Greece will also be arranged satisfactorily. What port will be used by Servia has not been decided. She will continue to do without Durazzo or Alessio but another will be accepted. It is reported that San Giovanni di Medua will be the port. As an evidence of the attitude of Austria, it is announced that she has begun the demobilization of her armed reservists, who were concentrated when war with Servia was threatened. Successful opposition to the Austrian war bill in the Lower House of Parliament by the Czechs and Slavs has prevented its passage. The opposition to the military bill believes it will be able to prevent its passage for an indefinite period.

Since the announcement of the Servian-Austrian agreement, representatives of the Powers have made public statements counseling peace and withdrawing the more threatening remarks of a short time ago. Russia's influence, which would have been on the side of Servia in event of war, is now on the side of peace. Mr. Kokovsoff, the Premier, in the Duma on Wednesday, explaining the desire for peace, said: "The Russian Government is glad it has not to change its calm attitude. There is no ground for suspecting Russia of selfish designs or of a desire to aggravate conflicts. The fundamental principles which will guide the Russian Government when the hour for final decisions has sounded are indicated by our past. Faithful to her alliance with France and to her friendly agreements with other great Powers. and sure of their support, she sees no use in setting up one group of Powers against another. Any Government which would abandon the ground of common

discussion of fundamental questions by obtruding its own immediate interests would be assuming the grave moral responsibility of possible international complications. The great Powers have too powerful reasons for endeavoring to prevent the development of complications which might menace European peace. The Russian Government hopes that the united efforts of the Powers will help them to arrive at an agreement which will reconcile their interests with the just demands of the Balkan States. Actuated by the sincere desire to co-operate with all the means in its power in the preservation of European peace, the Russian Government expresses the hope that, with the help of the Almighty, the efforts of the Powers will be crowned with success, and that events in the future will not harmfully affect the vital interests of Russia, which we are called upon to defend with all our strength in the name of the honor and dignity of our country."

Showing the attitude of the Triple Alliance-Germany, Italy and Austria-as against the agreements of Russia and France, Marquis di San Giuliano, Italian Foreign Minister, on Tuesday in the Chamber of Deputies defended the Dreibund and said it was the strongest guaranty of peace in Europe for thirty years. Speaking of its bearing on the Albanian question, the Foreign Minister said that Italy and Austria, whose mutual relations are to-day most intimate and cordial, and who are the two Powers most interested in preserving the situation on a footing of equality and liberty in the Adriatic, have been able to agree on the fundamental outlines of the solution of the Albanian problem in conformity with the principle of nationality and having due consideration for their own equal interests with regard to Albania. In other words, Albania, neutralized, with the guaranty of the great Powers, is to live as an independent State, with an opportunity for advancement and an open field to the free commerce of the world, and be at the same time a factor of political equilibrium in the Balkan Peninsula and in the Adriatic. He said that with these points in view, there was no reason to modify the Triple Alliance and none of the parties had asked to have it modified. It was not necessary, he added, to point out that the treaty was essentially pacific and defensive, and that its spirit entailed an obligation on each Power to do its utmost not to involve the others in complications unnecessarily and to maintain the most cordial relations with the other Powers. "The alliance between Italy, Germany and Austria," he concluded, "made fruitful by the closest and most cordial relations between the allies, must continue to be the fundamental pivot of the Italian foreign policy."

The official announcement has been made this week that the group of banks representing British interests in the Six-Power Group of bankers through whom an additional loan is being negotiated by China has been increased by the admission of Baring Brothers & Co., J. Henry Schroeder & Co., the London County & Westminster Bank and Parrs Bank. Heretofore the Hong Kong & Shanghai Bank has been the exclusive representative of British interests in the group. As we stated last week, the present negotiations contemplate a loan of \$125,000,000, payable in installments extending over a period of at least two years, but it is not likely that any immediate conclusion of the negotiations will be reached until the political situation in Europe has been finally

o://fraser.stlouisfed.org/

cleared. It is understood that the French group of banks will also be enlarged. C. Birch Crisp, head of the independent loan syndicate, has not been formally admitted to the British syndicate, but it is understood that through his banking connections he has established friendly relations with the larger banking group and that the Crisp loan will not be interfered with by the new negotiations. At a conference of representatives of the Six-Power Group which was held in London on Friday of last week the terms of the proposed loan which were the subject of the recent negotiation between their agents in Pekin with the Chinese Government were discussed and a number of minor details were disposed of. But the entrance of the new banking interests necessarily means a delay in the technical work of arranging details. A report cabled from Berlin states that the German group of the Six-Power syndicate has pledged itself to raise \$45,000,000 before the end of the year.

To-day, Saturday, will decide whether the doctors who are members of the British Medical Association will decide whether they will accept the terms the British Chancellor, Lloyd George, proposed under the Insurance Act. If the doctors do not accept, it will be necessary for the Chancellor to secure doctors who are not members of the Association, which, it is argued, will be the "riff-raff" of the profession, and consequently "the medical benefits" of the Act will be of questionable value. A canvass of the members of the Association shows clearly that the Association will not be able to obtain the desired twothirds vote to refuse to work on the terms named. Last year 27,400 doctors signed the Association's pledge not to accept the terms offered by the Chancellor. In the vote that was taken this week only 10,000 voted against working under the Act. Mr. Lloyd George is understood to have suggested that the Association's ballot is only a bluff and that the doctors will eventually accept his terms.

A formal closing of the Mexican Congress took place on Sunday, Dec. 15. The permanent commission has already made a move to call a special session. Senor Don Pedro Lascurrain, the Mexican Minister of Foreign Relations, is making a short unofficial visit to this city. When interviewed, he declared that the end of Mexico's internal troubles was in sight, and he added that cable dispatches telling of Madero's unpopularity in his army were unfounded; that the army was the strength of the Government and stood behind the President to a man. He characterized the men now in arms against the Government as outlaws who have no backing, financial or otherwise. He said that Americans could now travel through Mexico in safety. Senor Lascurrain does not believe that Felix Diaz, leader of the opera bouffe rebellion at Vera Cruz and a nephew of the former President, will be punished with death or even with a life imprisonment. The Minister is very sure that young Diaz is still in prison at San Juan de Ullea, the castle that defends the harbor of Vera Cruz. Senor Lascurrain's statement, however, does not agree with advices received by our State Department, and which have caused the Administration to make fresh representations to the Madero Government regarding the continuance of the rebellion and the extortions by the rebels from Americans who own plantations and mines in the southern republic.

VOL. LXXXXV.

It is announced that the three big steamship companies of Japan, namely the Toyo Kisen Kaisha, the Nippon Yusen Kaisha and the Osaka Shoesen Kaisha, will on the opening of the Panama Canal establish a joint direct steamship service from Yokohama, Kobe and Nagasaki to New York. Another instance that has come to light this week of foreign interest in our new waterway is reported from Paris, where several representatives in the Chamber of Deputies from the French Antilles on Monday called the attention of the Chamber to the approaching opening of the Canal and the importance of the event to their islands. The old French West Indian colonies, one of the speakers said, had up to the present time been generally regarded like the old customs official whose demand for a reward for long service was always ignored. Mr. La Grosilliere of Martinique said that he wished this attitude changed. The opening of the Canal, he added, meant great prosperity for the Antilles, and he offered a motion inviting the Government to adopt urgent measures to enable French commerce and the French colonies to obtain the fullest benefit from the new trade era.

The rights of American citizens in Russian territory after the present treaty expires Dec. 31 will be governed by the local laws of Russia, subject only to the commonly accepted principles of international law. This is the substance of a reply made by the Secretary of State to an American firm engaged in Russian business which had applied for information. No "favored-nation" treatment will apply between the two countries. The Secretary's letter added: "I am not without hope that it may be perfectly feasible to arrive at such an adjustment of the several questions involved as will obviate the possibility of the discriminatory treatment of American imports into Russia."

Whitelaw Reid, American Ambassador to England, died in London on Sunday after an illness of several days of asthma. His death caused unusual attention in both this country and England, and was the occasion of almost unprecedented display, for an American in London, and is a recognition of Mr. Reid's seven years' service in London and popularity with the English. Memorial services were held in Westminster Abbey on Friday. The body was later taken by special train, escorted by troops, to Portsmouth, where a British warship was waiting to carry the remains to New York. The plans provide for American battleships to meet the British vessel and later for a service in the Cathedral of St. John the Divine at New York. The remains will be placed in a vault at Sleepy Hollow.

The London Stock Exchange as well as the Continental bourses have shown a much better undertone this week, and towards the close distinct buoyancy. The main reason for the latter feature was the fact, to some extent unexpected, that the Bank of England did not raise its minimum rate of discount. Had it done so there appears every reason to believe that the Bank of France would have promptly followed with a 5% rate, which at the French capital is always regarded as a danger signal. Unless some unexpected demand for gold should force the Bank of England into a new policy, the indications are strongly in favor of the belief that the acute stage of the present world's stringency in money has been about passed and that with the release of funds that usually occurs with the New Year a more comfortable situation is not unlikely to prevail. This does not lose sight of the probability of a temporary twist in money rates at all the world's centres, especially Berlin, at the extreme close of the year.

The English money market may now be regarded as in a fairly comfortable position. The same is true of Paris, which, however, has been steadily withdrawing funds from Berlin and Vienna to fortify its own financial position. Both Germany and Austria-Hungary are still in a highly strained condition and St. Petersburg is only slightly less so. Of course Italy, Turkey and the Balkan States are feeling the financial effects of the war and present indications certainly favor the suggestion that the year 1913 will witness a demand for State funds on a scale virtually unexampled. New York will probably participate in financing some of these loans. One London correspondent estimates that the early New Year demands by Italy, Turkey and the Balkan States will run not far short of £70,000,000, while if Austria and Russia are taken into consideration the amount will approach very closely to £100,000,000. A large municipal loan by Paris is among the early probabilities. A rather amusing incident, from the New York standpoint, is contained in a cable dispatch that stock-brokers throughout Italy are on strike and no quotations are being issued. Premier Gioletti, it appears, made some uncomplimentary remarks in the Chamber of Deputies about stock brokers in general, and the brokers have, in retaliation, stopped business pending retraction, which the Premier says he will not make.

The London market is eagerly awaiting the terms for a large new Indian loan which it is understood will soon be announced and is expected to be offered on a 4% basis, which compares with 31/2% on the issues already outstanding. The results of recent small issues in London, as reported by cable. have been somewhat divergent. The city of Moosejaw (Canada) issue of £257,000 in 5% bonds has been oversubscribed at 98, but the city of Lethbridge loan, £128,000 in 41/2% bonds at 92, was not so successful, the underwriters themselves being called upon to take 65% of the offering. From this it is evident that a return of at least 5% on Canadian municipal bonds is necessary in London. This is a rather suggestive indication of the attitude of British capital. The railroad labor situation in England is showing improvement, but it is the prospect of peace that appears to be the chief stimulant at that centre. London cable advices state that the recent Austrian loan arranged by New York bankers and Vienna institutions has been offered at the British centre, but the subscriptions have been particularly disappointing. This loan was negotiated with full assurance by Austria that it would be a peace loan and not a war loan, but London, nevertheless, is obviously determined to do no State financing until peace has been officially reached. British consols closed last evening at 7434, which compares with 741/s a week ago, while French rentes (in Paris) were cabled last evening at 89.25, comparing with 89.60 francs last week, though the closing price represents a recovery from 88.571/2 francs, which was touched on Monday. Russian fours finished in London yesterday at 90, which compares with 891/2 a week ago; Turkish fours, after declining

gitized for FRASER //fraser.stlouisfed.org/ at 851/2; Bulgarian sixes have remained without quotable variation at 103 and Greek monopoly fours are also without change at 54. Servian bonds, however, have ruled weak, evidently reflecting the strained relations with Austria and closed at 78 for the unified fours, comparing with 81 a week ago. German Imperial threes finished 1 point lower at 76. British home railways, after moderate early week declines, sustained nearly full recoveries, the Great Eastern closing at 601/4, against 601/2 a week ago; the Great Western unchanged at 117; the London & Northwestern 1/4 higher at 1321/4, and Southeastern deferred shares 11/2 higher at 653/4. Money in London closed at 33/4@4%, which were last week's final figures and money in Berlin closed at 51/2%, which also is about last week's figure.

There have been reports of negotiations with New York bankers for another State loan similar to the Austrian loan placed last week. Investigation, however, fails to disclose any responsible basis for this report unless it be that German bankers have been inquiring for terms for funds to carry them over the quarterly settlements at the close of the year. It is learned that very close to 8% has been bid on German account for sixty-day money with foreign exchange rates guaranteed. Practically the same terms have also been offered for thirty-day money and 51/2% has been bid for sixmonths' money, but, so far as can be definitely learned, no engagements for Berlin have been made at this centre thus far. It is reported that while the French banks, as we have already noted, have been calling in funds from Berlin and Vienna, they have been indirectly re-loaning to Berlin in large amounts at close to 9%, which is certainly a striking indication of the current urgent requirements of the German centre. However, it is not unlikely that, as proved to be the case a year ago, the strain, having been so clearly recognized well in advance, the condition that is so greatly feared may not occur after all. On Dec. 29 of last year 20% was paid for funds in Berlin to carry over the year-end, while as soon as the New Year opened the money strain ended and during the first week of 1912 there was a decline to $3\frac{3}{4}\%$ in the private discount in Berlin, comparing with 5% at the close of the old year. The expectation in foreign banking circles here that are closely connected with the German centre is that history will repeat itself this year.

Neither the Bank of England nor any of the official banks of Europe have altered their official discount rates. Early in the week, as private bank rates in London, Paris and Berlin exceeded the Bank rates, there seemed a quite general expectation that the Government banks would be compelled to schedule advances. The fact that they did not do so produced the impression that the Bank of England, whose advance would have set the pace for the Continental institutions, had received certain assurances in regard to the political situation that encouraged the Governors to try to weather the financial strain that is in sight for the closing days of the year without advancing the official figure. Nevertheless, it is not unlikely that the Bank will exercise keen discretion as to the volume of bills it will take at the minimum figure. The Bank of France was importuned by a number of the large Paris banks to increase its rate in order that the marto 841/2, recovered and closed at 21/2 advance ket rate could also be advanced; but inasmuch as the

English Bank decided to retain its present figure during the remainder of the year (for that seems the general interpretation that has been given the decision not to change from 5%), the Bank of France followed suit. In Lombard Street short bills, as cabled last evening, were quoted at the close at 5%, no difference being made in the spot and to-arrive figures. Ninety-day bankers' acceptances were 4 15-16@5% for both spot bills and those to arrive. A week ago short bills in London closed at 415-16@ 5% and ninety-day bank bills at 4%@5%. In Paris the private bank rate for commercial bills remained unchanged at 4%, while finance paper is quoted $4\frac{1}{4}\%$, which is an advance of $\frac{1}{8}\%$ for the week. In Berlin the open market rate for all maturities closed without change at 6% for spot bills and those to arrive. Amsterdam remains nominally 31/8% for all maturities, although any actual business would be a matter for negotiation. Brussels is without change at 41/8% and Vienna remains at 6%, which is the Bank rate. The official bank rates at the leading foreign centres are: London, 5%; Paris, 4%; Berlin, 6%; Vienna, 6%; Brussels, 5%; Amsterdam, 4%; Bombay, 7%, and Bengal, 7%.

The feature of the weekly return of the Bank of England was the evidence of the desire of the Bank to help the market, which is suggested by the increase of £3,172,000 in the loans ("other securities"). This increase was responsible for a reduction of $\pounds 2,152,000$ in the total reserve, the remainder, in round numbers, being contributed by the increase of £903,000 in ordinary deposits. The gold and bullion holdings for the week ,as cabled by our special correspondent, indicated a reduction of £1,771,-659. The proportion of reserve to liabilities was reduced during the week to 42.98% from 48.07%, and compares with 41.55% at this date last year. Comparing with a year ago, the loans show a moderate contraction, the total outstanding according to this week's statement being £34,157,000. A year ago the total was £35,218,933, though two years ago it was only £28,064,600. The bullion holdings at the present time are £32,473,897. A year ago the amount was £34,140,332 and two years ago £32,-863,893. Meanwhile, the reserve is £22,167,000, against £23,304,432 in 1911 and £32,670,288 in 1910. Our special correspondent furnishes the following details of the gold movement into and out of the Bank for the Bank week: Imports, £192,000 (of which £65,000 from Constantinople, £20,000 from Ecuador and £107,000 bought in the open market); exports, £420,000 (of which £100,000 to Egypt, £275,000 to India and £20,000 to miscellaneous destinations, and £25,000 German coin sold), and shipments of £1,544,000 net to the interior of Great Britain.

The return of the Bank of France, issued on Thursday, while showing an increase of 1,725,000 francs in gold holdings and of 350,000 francs in silver holdings, was not quite as favorable in the items of obligations. Discounts were increased by the large amount of 124,625,000 francs, while there was also an expansion in the Bank's advances of 5,725,000 francs. Note circulation also showed a gain of 14,-975,000 francs. General deposits increased 96,250,-000 francs. Comparing with the figures of last year, the gold item of 3,211,745,000 francs records a decrease of 1,680,000 francs. Silver indicates a still heavier reduction from 811,600,000 francs in 1911 to 733,352,000 francs in the return of Thursday.

Note circulation has increased to 5,536,209,000 francs, from 5,225,746,910 francs a year ago and 5,151,983,675 francs two years ago. Discounts have increased markedly, the present figures of 1,653,-558,000 francs comparing with 1,356,724,641 francs in 1911. General deposits show a continued increase and now amount to 691,004,000 francs, comparing with 555,999,366 francs in 1911 and 562,541,185 francs two years ago.

Substantial increases in the holdings of gold and silver were recorded in the weekly statement of the Imperial Bank of Germany, issued on Tuesday. The gold stock registered an increase of 17,544,000 marks and gold and silver combined of 14,377,000 marks. There was a decrease in note circulation, however, of 1,705,000 marks. Loans again showed a decrease this week of 9,854,000 marks, but where discounts were reduced last week, the present report shows a large increase of 85,817,000 marks. Comparing the returns with totals for last year, a loss of 25,490,000 marks is indicated in the Bank's stock of cash (gold and silver), the total now being 1,050,-710,000 marks. Loans, discounts and note circulation continue to register large increases in the year's comparison. Loans and discounts are now 1,571,-239,000 marks, comparing with 1,344,620,000 last vear and 1,135,200,000 marks in 1910. Note circulation is at this date 1,954,456,000 marks, comparing with 1,701,960,000 marks in 1911 and 1,544,160,-000 marks in 1910.

The local money situation suggests a position of what may be termed superficial ease. Call rates on Stock Exchange collateral have steadily declined during the week, and time money also has shown an easier tendency, although rates are not quotably lower. Mercantile and industrial borrowers, as is usual at this season, are awaiting the New Year before attempting to satisfy their banking requirements. Thus the banking situation is more or less a nominal one, and the banks and other financial institutions are making preparations for the usual New Year distributions, which can hardly fail to produce a strain during the closing days of the year. The opinion seems to prevail quite generally, using the language of a prominent bank officer, that "we shall run into comparatively easy money about the middle of January." This does not fail to take into consideration the fact that there is in sight a worldwide demand for funds. But it does contemplate a more or less active return to New York of funds that have served their annual purpose in the agricultural sections of the country. The weekly statement of the Clearing House on Saturday indicated an increase of \$5,059,450 in the cash surplus above reserve requirements, bringing that item up to \$8,074,650. which compares with \$15,627,400 one year ago. These figures include the banks and trust companies in the Clearing House.

Referring to call money rates in detail, the extreme figures of the week have been $3\frac{1}{2}$ and $5\frac{1}{2}\%$. On Monday the range was $4\frac{3}{4}(0.5\frac{1}{2}\%)$ with $4\frac{3}{4}\%$ the ruling figure; on Tuesday $5\frac{1}{4}\%$ was the maximum, $3\frac{1}{2}$ the minimum and $5\frac{1}{4}\%$ the renewal basis. Wednesday's extremes were $3\frac{3}{4}(0.5\%)$ and the ruling rate was $4\frac{3}{4}\%$; on Thursday $4\frac{1}{2}\%$ was the highest and ruling rate and 4% the lowest; on Friday the highest was 5%, lowest $4\frac{1}{4}\%$ and renewal basis $4\frac{3}{4}\%$. The demand for time money has ruled quite

DEC. 21 1912.]

light, hardly sufficient, in fact, to test the market, as borrowers will naturally make every effort to work over to the normally easier period of the New Year before entering into extensive commitments. As yet the later maturities, as quoted by lenders, do not freely recognize easier conditions. Closing quotations are 6% for sixty days, $5\frac{3}{4}@6\%$ for ninety days, $5\frac{1}{2}@5\frac{3}{4}\%$ for four months and $5\frac{1}{2}\%$ for five and six months. Mercantile paper is offering rather more freely and is still quoted at 6% for sixty and ninety-day endorsed bills receivable and also for four to six months single names of choice character; others are quoted at $6\frac{1}{2}\%$.

The feature of the week in the sterling exchange situation was a sudden rise of about 40 points on Saturday, which accompanied a rather sensational and obviously exaggerated cabled account of European money conditions which appeared in one of the New York morning newspapers. The unsettled political conditions in Europe were sufficient to make this news effective. Since then the market has ruled somewhat irregular, though not weak. There has been a good supply right along of bills of all kinds. and there has also been present as a factor the usual year-end demand for remittances in conjunction with the yearly payments. Bankers do not, of course, await the formal arrival of the time for remitting on behalf of the New Year dividend and interest disbursements to foreign holdings of American securities. They make their preparations well in advance and are thus able to handle remittances as they are offered without unnecessarily disturbing the general foreign exchange situation. The official figures of exports of domestic products for November confirm the recent reports of the free offerings of grain and cotton bills. The merchandise exports are shown to have been of unprecedented dimensions. The imports were also of exceptional dimensions, and it is evident from this that the prospect of tariff revision has not yet begun to make itself appreciably felt in the form of a restriction of imports.

Sterling exchange at Berlin has declined this week from 20.45³/₄ marks to 20.43 marks, closing at 20.44 marks, indicating a trend of funds from London to the German centre. Sterling exchange in Paris, however, closes without quotable change at 25.20¹/₂ francs, comparing with 25.20³/₄ francs a week ago.

Compared with Friday of last week, sterling exchange on Saturday experienced a sudden and sharp rise of about 45 points, due chiefly to rumors predieting severe monetary strain abroad at the yearend; demand was quoted at 4 8550@4 8560, cable transfers at 4 86@4 8610 and sixty days at 4 8090@ 4 81. On Monday large offerings of commercial bills, accumulated over the week-end brought about weakness and a decline to 4 8530@4 8540 for demand and 4 8585@4 8595 for cable transfers; sixty days remained unchanged. Rates were firmer on Tuesday on the stiffening in English discounts and anticipation of an early increase in the Bank of England rate; demand advanced to 4 8540@4 8550 and cable transfers to 4 8590@4 86, although sixty-day bills receded to 4 8080@4 8090. On Wednesday the advance was continued, notably cable transfers, which were very firm on active buying by an important financial concern and the prevailing impression that the Bank of England would raise its official rate; the range was 4 8550@4 8560 for demand, 4 8615@4 8625 for cable transfers and 4 8085@

4 8095 for sixty days. Sterling rates receded on Thursday on the decision of the Bank of England Governors not to change their mininum rate from 5%; trading here was dull and inactive and demand declined to 4 8540@4 8550 and cable transfers to 4 8610@4 8620; sixty days showed no change. On Friday the movement of rates was rather uncertain, though closing rateswere 5 09@10 points higher Closing quotations were 4 8095@4 8105 for sixty days, 4 8545@4 8555 for demand and 4 8615@4 8625 for cable transfers. Commercial on banks closed at 4 787s@4 8034 and documents for payment at 4 801/2@4 811/2. Cotton for payment ranged from 4 801/2@4 8034; grain for payment from 4 811/4 to 4 811/2.

The New York Clearing-House banks, in their operations with interior banking institutions, have gained \$6,282,000 net in cash as a result of the currency movements for the week ending Dec. 20. Their receipts from the interior have aggregated \$13,474,000, while the shipments have reached \$7,192,000. Adding the Sub-Treasury operations and gold imports, which together occasioned a gain of \$1,000,000, the combined result of the flow of money into and out of the New York banks for the week appears to have been a gain of \$7,282,000, as follows:

| Week ending Dec. 20 1912. | Into | Out of | Net Change in | | |
|--------------------------------------|--------------|--------------|----------------|-------------|--|
| | Banks. | Banks, | Bank Holdings. | | |
| Banks' Interior movement | \$13,474,000 | \$7,192,000 | Gain | \$6,282,000 | |
| Sub-Treas, oper'ns and gold imports. | 31,500,000 | 30,500,000 | Gain | 1,000,000 | |
| Total | \$44,974,000 | \$37,692,000 | Gain | \$7,282,000 | |

The following table indicates the amount of bullion in the principal European banks.

| Banks of | Gold. | 100000 | | | | |

THE PEACE CONFERENCES.

The settlement of the Balkan War, the various details and conjectures regarding which have filled the newspapers for so many weeks, may now be said to be fairly in the hands of formal international conferences. It is plain that the terms of peace will not be adjusted, at present at any rate, as they were at the end of the Russo-Turkish war of 1877, when a congress, in which representatives of the belligerent States sat with representatives of the neutral Powers, decided the whole question. The Balkan States have on the present occasion manifested from the start, and with good reason, a jealousy and suspicion of any proposal of the sort. They take the ground that the Treaty of Berlin in 1878 not only shut off Russia from the larger part of her actual acquisitions in the war, but placed the smaller Balkan States in a position which they did not desire and which has caused trouble ever since. What has, therefore, been proposed at the present time is, first, a conference between the belligerent States themselves to arrange the terms of peace, and, next, what Sir Edward Grey has called "an informal and non-committal consultation" between the ambassadors of the neutral Power

of Europe. The first of these conferences began its session in London last Saturday; the second has not yet been formally arranged for, but may presently be held in London, or Paris, or elsewhere.

The conference of the delegates from Turkey, Greece and the Balkan States during the present week has chiefly served, as was natural, to emphasize the difficulties of mutual agreement. The territorial demands of the Balkan Powers have, as was to be expected, under the circumstances, been larger than Turkey was willing to concede. Therefore, rumor has flown back and forth regarding the differences of the conferees, and at times the newspapers have published dispatches actually intimating that the war would begin again. In the case of Greece, the fighting did actually continue during the sitting of the London conference.

This difference between the belligerent States is necessarily complicated by the well-known attitude of the neutral Powers. Beginning with what seemed to be a minor dispute between Austria and Servia, over the possession of an Adriatic port by the Balkan State as part of the terms of peace, the controversy, real or imaginary, has taken wide ground. No grievances have been stated by one neutral power, or one set of neutral Powers, against another. All that has actually happened is, first, the mobilization of troops on the borders of various Continental States, and, next, the open declaration by their foreign ministers as to the attitude of each Continental Power in the case of conceivable warfare. Thus, the German Minister has declared in the Reichstag that Germany holds absolutely to the Triple Alliance and would back up Austria in case of need. The French Minister has similarly notified the Deputies that France stands by its diplomatic allies of the Triple Entente. The Russian Government has publicly intimated that, though strongly desiring peace, it will at all times maintain its Continental friendships, including its affiliation with the Balkan Allies.

It was inevitable, while all this sort of thing was in progress, that Europe's financial markets should exhibit great nervousness. The mere discussion of international war in the newspapers seems to have led to repetition of that popular hoarding of actual cash in some of the Continental States which the people of those communities learned during the Morocco dispute of 1911. That has occurred at a moment when European money markets were under the exacting pressure of requirements for large and prosperous general trade, and when some of them were still more or less worried by caring for great, blocks of new securities recently emitted. The inevitable result of this has been that the bank position throughout Europe entered a period of considerable strain and that money rates were raised to an uncomfortable figure. That this situation, altogether irrespective of actual political apprehensions, should have increased as the end of the year and the extraordinary demands for financing the year end settlements approached, was quite inevitable. The two factors, political uneasiness and financial stringency, have in fact, reacted upon one another, as they usually do, and between them have been responsible for the jealous guarding of gold reserves by the European banks and for the recent intimations that the London Bank rate might go up to 6 per cent if New York continued to take the Transvaal gold arrivals.

We shall know more clearly, after the intense financial and business activity of December is out of the way, to what extent this condition of the markets is attributable to purely financial causes and how far to politics. It is the pretty uniform experience of markets that not long after the turn of the year the money market position throughout the world is apt to return to a comfortable status, so that apprehensions will, at all events, no longer be excited simply by stringent money. But as regards the political situation of the little belligerent States and of the neutral Powers, there are some things which experience also teaches and which bear on the present outlook. One of them is the fact that for any war to be resumed, after an armistice had been declared and consultation over the terms of peace begun, would be almost if not quite unprecedented in modern times. Such coming together of the delegates of belligerent States has invariably marked the termination of a war. The resultant conferences. whether between the belligerents alone or between them and the neutral Powers, have always been prolonged and sometimes bitter. Often some of the smaller European wars have been settled, after the preliminary armistice, only through a five or six months' continuous discussion. Actual agreement on peace following the Franco-Prussian war of 1870 was reached four months after the fall of Sedan and three months after the siege of Paris. But with all this delay in negotiations, renewal of hostilities after discussion of terms of peace had actually been begun nas been practically unheard of since the wars of Napoleon, and was an exceedingly rare occurrence even then.

There remain the difficulties between the European States, suggested by the mobilization of their troops and the speeches of their foreign ministers. Of these incidents the London "Spectator" makes the shrewd remark that the "rattling of the sabre" in public by a responsible European ministry is something which occurs, in the nature of the case, only when the government in question has no expectation of actual hostilities. That is to say, a modern State determined on war acts quickly, suddenly and, if possible, secretly. It would be difficult to imagine Russia threatening war against Russia in public speeches during the two or three months before it took action, or the Balkan States allowing their proposed invasion of Turkey to become the subject of newspaper comment for an equal time before hostilities.

The consideration as to what any such war would mean in the matter of the trade prosperity and public finances of such States as were engaged is too obvious to require discussion. A nation insulted or wronged by another State, as Japan conceived herself to be by Russia, or a nation covetous of a tempting bit of territory, as in the recent case of Italy, may be forced to war often by the excitement and enthusiasm of its citizens. But neither the popular excitement nor the motive for such excitement anywhere exists in the present case, and at best the motive for international conflict would be to go to war in order that one Power might gratify old grudges or blockade for its own advantage the desires of some one else. But people in another country will not grow excited over such considerations.

It is also an impressive fact that all the present intimations of trouble and all the veiled threats of warfare come from States in the Triple Alliance.

DEC. 21 1912.]

That diplomatic combination consists of Austria, Italy and Germany. If a general European conflict were to come, one or all of these three States must apparently begin it. But, as it happens, each one of these three Powers has particularly good reasons not to desire to provoke a conflict. Austria is confronted with a conglomeration of Slavic people in her outlying provinces and of the very serious problem of an empire held together by a thread as the death of the old Emperor draws nearer. Italy has just emerged from a trying war of its own and is, moreover, as far as the actual sympathies of her people are concerned, affiliated more with France and England than with Germany and Austria-the Italian feeling toward the last named State, indeed, being one of popular antagonism.

As for Germany, it is manifest that for her to engage in such a conflict would be to forfeit that advantage of organization, concentration and surprise which is dear to the German military heart. She would be confronted by antagonists on the East and West and on the sea-this at the moment when the ally for whom Germany is imagined to have invoked a war would herself presumably be engaged in a contest with the Balkan States, would possibly have its own hands full in dealing with the already mobilized Balkan armies, and would, therefore, be of little efficient help to Germany. The truth is, Continental war at the present juncture would be unthinkable unless provoked by the three States of the other European alliance-England, France and Russia. But nothing is more certain in the present situation than that these three States are openly and sincerely committed to peace. These aspects of the situation explain the remark made a few days ago by ex-Premier Witte of Russia: "In my opinion, the general position of Europe is such that peace is assured for many years to come."

THE VALUE OF THE CONSTITUTION.

What so competent, just and friendly a critic as James Bryce has to say concerning the United States ought to command our thoughtful attention at any time; but what he said on Saturday evening last ought to command that, especially because he is just about to take official leave of us and because he spoke at a dinner commemorating the completion of a century and a quarter of the existence of the American Constitution. He paid only a just tribute when he characterized the framers of the document as "an extraordinary group of men such as has seldom been seen living at the same time in any country and such as had never been brought together in any other country to undertake the immensely difficult task of framing a fundamental instrument of government for a nation." What they designed for three millions has proved fit to serve ninety-three millions, said Mr. Bryce, and "the whole of your history since 1789 is a record of the services which the Constitution has rendered to you."

As a means of establishing justice and securing individual rights, Mr. Bryce sees the largest service in this ancient document. Said he:

"Both the Federal Constitution itself and all the State constitutions which have been enacted on similar lines have had the effect of steadying the machinery of government, of slowing down sudden impulses, of securing respect for the rights of every man and every section of the people. Such services

not that you are so familiar with them. Look at other popular governments and see how they have suffered from the want of similar safeguards, if you wish fully to realize what your constitutions, Federal and State, have done for you.

Unhappily, we have somewhat lost appreciation of these services by familiarity which has gradually bred contempt. It is the fashion now to pretend a burning anxiety for individual rights and to assert that the old framework is non-progressive and incapable of securing them. "Sudden impulses" do not desire to be "slowed down" and denounce constitutions as obstructive, declaring that the Voice of the People is that of God and ought to be expressed in a shout at any time and executed in the same hour. This old friend and student and historian of our institutions tells us, on the contrary, that we "have shown the world how it is possible to reconcile national unity with the existence of local self-government in larger and in smaller communities over the immense spaces of a continent, a problem which, a century and a half ago, every one would have thought insoluble." Thus (he says) "the Consitution of the United States has become by the example of its working and the halo of the fame which now surrounds it one of the vitalizing forces of the world."

The demagogue scouts at and denounces what this impartial observer calls a world-vitalizing force, but unrestrained popular impulse is like an express train which has left its rails, a swollen river which has burst its banks; confinement, steadiness and direction are conditions necessary to usefulness of any machinery and its working becomes dangerous the instant they are gone. Undoubtedly there are problems before us. Undoubtedly "we are seeking to adjust the details of government to an industrial life of which the fathers never dreamed," but the lines they laid down had lasting soundness. "With political power in the hands of the majority, and wealth drifting more and more into the hands of the minority, the supreme test of the Constitution is still in the future," said a speaker who followed Mr. Bryce. Political power has always been and always must be in the hands of the majority; there is nothing new in that, and there is nothing dangerous in it except as the unthinking majority may be led into "sudden impulses" by such talk as "wealth drifting more and more into the hands of the minority." That is utterly untrue. The absolute number of very wealthy men is increasing but not the relative number. The amount of wealth in the hands of a few is increasing but not the relative amount. Wealth is going into the hands of the many and the majority. He who asserts otherwise is either reckless or ignorant.

RAILROAD REGULATION MUST NOT BE STRANGULATION.

At the annual dinner of the Railway Business Association on Thursday evening last, Mr. James J. Hill turned attention from deficiencies in rollingstock to deficiencies in terminals as a cause of slowness in transportation. Between 1909 and 1910, he said. freight ton-mileage grew eleven times as fast as trackage and five times as fast as equipment. It is the public assumption that if cars enough are provided they can be moved from the starting-point to any destination on schedule time, and Mr. Hill does not minimize the importance of ample rolling-stock; would seem to you much more wonderful if it were | yet the trouble, he said, is not in the number of cars

but in their "greater movement". To secure that, he said, the one possible remedy is enlargement of terminals and "the commerce of the country can escape disaster only by additions to and enlargements of terminals."

This takes us again to the financial problem. Ten or fifteen years ago, capital for railway improvements could be had at 4% but in ten years the rate has advanced 11/2 to 2%. Nobody proposes to give a road anything, or to turn generosity toward it, or to treat it on any better basis than that of cold, hard business. The sternest critic and the loudest complainant about the roads does not relax a hairbreadth when one of them comes into market as borrower; its present comparative credit and the prospective security of its obligations are scrutinized coldly. The rise in the borrowing rate of interest proves impairment of credit proceeding "from decreased earning power and increased expenses." The average freight rate per ton mile fell from 9.27 mills in 1890 to 7.53 mills in 1910, said Mr. Hill, obligatory expenses also increasing enormously. The number of employees in 1911 was 29,611 less than in 1910 but their wages increased \$64,741,164. Taxes in 1890 were \$31,207,469; in 1910 they were \$103,795,701; for 1911 they are estimated at 109 millions'and are likely to go a couple of millions more. The increase in ten years is 233%, each mile of line paying \$431 in 1910 against \$199 in 1890.

Furnishing capital to railways and criticising them involve different attitudes. When a borrower is seen to be declining in net income under the influence of increasing expenses which he is unable to control, his status inevitably suffers; moreover, when men are in the position of possible lenders, they cannot be expected to omit from their forecasts the factor of regulative commissions that have shown hostility.

As to whether the railroads have deserved ill of the country, Mr. Hill takes a positive stand, declaring them "entitled to both confidence and relief because they have not abused their trust in the matter of capitalization." Citing once more figures which should be quite familiar, he says that as a whole their capitalization per mile is only one-half to one-fifth that in European countries, partly because initial construction cost was greater there but largely because of a difference in policy. Capitalization here has been kept low-"by choice, not by legal compulsion, at a time when managements had a liberty of action denied to them now"-by putting into betterments millions of net earnings which in Europe would have gone to stockholders, in which case the cost of improvements would have been added to capital account.

This is squarely contrary to the common loose impression about "water", and Mr. Hill pushes his defense still farther. Not only is this policy in the public interest, as tending to keep down fixed charges, but the roads have displayed efficiency. The year's increase in traffic is about five times as great as in equipment and eleven times as great as in mileage; the work done has grown because efficiency in doing it has grown, through larger train-loads and fuller use of equipment. Traffic density in England, France and Germany should naturally be much greater than here; yet in 1910 the ton miles per mile of road were about double those in the United Kingdom and France and about one-fourth more than in Germany.

If the roads are to furnish the further equipment and the new terminals without which the traffic of the country must be halted, the money cannot be caught out of the air; "it must either be earned or borrowed". Further, "the people must realize that regulation must not be strangulation."

Here Mr. Hill leaves the case before the people. This is cumulative. It is reiteration. The "Chronicle" has pointed out over and over that there is no special arithmetic available for railways. They can take only 100 cents out of each dollar. As borrowers, they come under the same laws as the humblest man. They cannot serve this growing country unless they can grow with it. They cannot expend the money for growth without getting it. They must get it from the public for current services rendered, or they must borrow it of the world on the faith of services in the future. A plainer, more sharply-cut and more immovable alternative than that "they must either earn or borrow" is not conceivable. The present attitude of regulation tends to make it impossible for them to do either.

THE ANTHRACITE COAL DECISION AND THE ANTI-TRUST LAW.

Each new decision of the United States Supreme Court seems to give a wider application to the Sherman Anti-Trust Law. In the Northern Securities Company's case the Court laid down the doctrine that the mere power to restrain competition, whether or not the power be actually exercised or whether or not it be contemplated to exercise it, is sufficient to establish conflict with the anti-trust statute. In the Oil and Tobacco cases of last year the Court laid down the rule that all assailed contracts or agreements must be examined in the "light of reason" or "by the rule of reason". This meant not that the application of the law was to be restricted, but really that it was to be extended. Chief Justice White clearly showed in his opinion in the Tobacco case that, through the application of the "rule of reason", many transactions and many circumstances are brought within the provisions of the law which would fall outside of it if the Court adhered merely to the strict letter of the statute instead of interpreting the law according to its spirit and purpose. The Court did not say that there might be reasonable restraint of trade and that this would be legal, but simply that reason and common sense must be used in determining whether there had been a violation of the Anti-Trust Law.

In the decision in the Union Pacific merger case, three weeks ago, a step further was taken in the elucidation of the statute. If any one imagined that the "rule of reason" doctrine of last year meant the abandonment of the Court's earlier views as announced in the Northern Securities case, that the mere power to restrain competition resulting from a combination of different roads suffices to bring the combination within the condemnation of the statute, this Union Pacific decision served to correct such erroneous impressions. The Court took particular pains to reaffirm its earlier views and at the same time applied also the principle of the "rule of reason" and showed that under this principle an exceedingly wide latitude is furnished in forming a conclusion. For instance, the Court did not limit itself to a consideration alone of competition between the Southern Pacific and the Union Pacific.

It went beyond this and unearthed the fact, disclosed in the Northern Securities Company's case, that originally Mr. Harriman sought to get control of the Northern Pacific Railway system with its half interest in the Chicago Burlington & Quincythat even after the issuance of the decree dissolving the Northern Securities Co. he sought to have the decree amended so as to permit him to get back the Northern Pacific stock which the Union Pacific had put into the Northern Securities combination. The Court deduced from this and from the acquisition of dominating control over the Southern Pacific a general purpose to control the transcontinental transportation routes. It again indicated the wide latitude that the "rule of reason" gives when it announced that no obstacles would be placed in the way of the Union Pacific acquiring the Central Pacific as distinct from the Southern Pacific instead of as part of the same. It once more gave an interpretation of the "rule of reason" when, notwithstanding it saw in the acts of the defendants a general purpose to control transcontinental routes, it allowed the Union Pacific to retain its hold over the San Pedro Los Angeles & Salt Lake Railroadsaying it saw no reason for disturbing the action of the lower Court in that respect.

In the present week's decision in the Anthracite coal cases it is made evident that the Anti-Trust Trust Law is effective in reaching any kind of contracts and any kind of arrangements whose effect or whose tendency is to restrain trade. Between 20 and 25% of the total annual output of anthracite is controlled for shipment over the rail-carriers by what is known as the 65% contracts. By these contracts the independent producers in the anthracite regions have bound themselves to deliver the output of their mines, or of any other mines which they may acquire, to the railroad company for 65% of the average market price at tidewater. These contracts had been held by the lower Court as not being in conflict with the Sherman Law, but the Supreme Court reverses this decision and asserts that these contracts are plainly in violation of the Anti-Trust Act as illegal restraints upon inter-State commerce. Justice Lurton, who wrote the opinion of the Court, says it is not essential that these contracts, considered singly, be unlawful as in restraint of trade. So considered they may be wholly innocent. Even acts absolutely lawful may be steps in a criminal plot. But a series of such contracts, if the result of a concerted plan or plot between the defendants to thereby secure control of the sale of the independent coal in the markets of other States and thus suppress competition in price as between their own output and that of the independent operators, would come plainly within the terms of the statute and as parts of the scheme or plot would be unlawful. He then goes on to show that these contracts had this forbidden purpose, as follows:

"That these 65 per cent contracts were the result of an agreement through protracted conferences between the independent operators, acting through an authorized committee and officials of the carrier defendants, who were likewise officials of the coal companies subsidiary to the railroad companies, is plainly established. That they were designed by the defendants as a means of controlling the sale of the independent output in the market at tidewater points,

an inducement for the entry of competing carriers into the district, is a plain deduction.

Before these contracts there existed not only the power to compete, but actual competition be-tween the coal of the independents and that pro-duced by the buying defendants. Such competition was after the contracts impracticable. It is, of course, obvious that the law may not compel competition between these independent coal operators and the defendants, but it may at least remove illegal barriers resulting from illegal agreements which will make such competition impracticable."

Attorney-General George W. Wickersham appears to have tersely summed up the significance of the Court's declaration in this respect when he says it means that, although a contract may be innocent in itself, a bundle of contracts may constitute a violation of the law. That is the important new point definitely established on the present occasion.

It is to be noted that in this latest decision the Court takes opportunity to further elucidate a statement made by Chief Justice White last year in the Standard Oil case when he said that "the statute does not forbid or restrain the power to make normal and usual contracts to further trade by resorting to all normal methods, whether by agreement or otherwise, to accomplish such purposes." It was this declaration, among some others, that led to the mistaken assumption that the Court had ruled in favor of reasonable restraint of trade, and had thus amended the inter-State Act by judicial decision. Justice Lurton says that the 65% contracts are not within the class described, but, on the contrary, are abnormal in their character and directly tend to and were intended to illegally restrain trade and commerce, and therefore come within the statute as illustrated by the ruling in St. Louis Terminal Association and Swift & Co. vs. United States.

Acquisition by the different carriers of the stock of the Temple Iron Co. is also held to fall within the line of prohibited contracts as being not "normal and usual," but abnormal. The Court finds that the stock of the Temple Iron Co. and of the Simpson & Watkins collieries was acquired for the purpose of, and with the intent, not of normally and lawfully developing trade but for restraining inter-State commerce and competition in transportation which latter would have presumably come about through the construction and operation of the New York Wyoming & Western RR., aprojected independent competing line of railroad between the anthracite mines and tidewater. This projected new line, Justice Lurton says, "was successfully strangled and the monopoly of transportation collectively held by the defendant carrier companies was maintained." He contends that the combination by means of the Temple Co. still exists. "It has been and still is an efficient agency for the collected activities of the defendant carriers for the purpose of preventing competition in the transportation and sale of coal in other States." He then adds:

"That under the law of Pennsylvania each of the defendant carrier companies has the power to acquire and hold the stock of coal-producing companies may be true. That the Temple Iron Co. may under the same law have the power to acquire and hold the capital thereby preventing competition with their own coal, and as a plan for removing the great tonnage controlled by the independents from being used as freedom of inter-State commerce, either in the transportation or in the sale of anthracite coal in the markets of other States, and adopted, as a means for that purpose, the TempleCompany, and, through it, the control of the great Simpson & Watkins collieries, the parts of the general scheme, however lawful, considered alone, become parts of an illegal combination under the Federal statute, which it is the duty of the Court to dissolve, irrespective of how the legal title to the shares is held."

In this matter of the Temple Iron Co. the view of the Supreme Court is the same as that of the lower Court, and the decision of the latter is therefore affirmed. It is in these two particulars that the coal companies lose and the Government wins, and the victory is by no means a barren one for the latter. Through release from the 65% contracts the independent operators will be in position to resume active competition, since, as we have already seen, they control 20 to 25% of the annual supply of anthracite. It is an irony of fate that the immediate effect (whatever the ultimate effect may be) is certain to be an increase in the price of coal instead of the expected decrease. It is in this last sense that competition is advocated as being beneficial to the consumer. At the present time the de-mand for anthracite is in excess of the supply, but the anthracite-carrying companies always sell at fixed prices, and the independent operators must take 65% of what the coal carriers get for the coal at tidewater, the carriers keeping 35% as a carrying charge and a selling commission. The independent operators will be now in position to name their own prices, and we may be sure that in view of the demand existing they will not lower prices but get all they can. A few years ago at the time of a great strike the anthracite carriers held to a fixed price of \$5 a ton, but the independent operators, who pose as friends of the consumer, were getting \$13 a ton. Vice-President A. F. Law of the Temple Iron Co. is authority for the statement that the few independent operators not tied by 65% contracts have during the present shortage been exacting a premium of \$1 a ton.

The Government had also alleged the existence among the anthracite carriers of a general combination for an apportionment of total tonnage to the seaboard by an agreement in the nature of a pooling arrangement. In this the Government sustains defeat. for the Supreme Court holds, as did the lower Court, that the evidence on this point is not sufficient. Justice Lurton says: "The charge of such a combination is general and indefinite. The case is barren of documentary evidence of solidarity." The Government had contended, too, that the acquisition by the Erie RR. of the capital stock of the New York Susquehanna & Western RR. and of the Pennsylvania Coal Co. and the Delaware Valley & Kingston RR. was illegal under the Anti-Trust Act; likewise that the acquisition by the Reading Co. of the capital stock of the Central RR. of New Jersey was in conflict with the Anti-Trust law. The Supreme Court does not pass upon any of these questions. It says:

"As to the legality of the minor combinations, we therefore express no opinion. We affirm the action of the Court below in declining to enjoin them, because to construe the bill as directed against them as independent combinations, between some but not all of the principal defendants, would make the pleading objectionably multifarious. We therefore direct

that the bill be dismissed without prejudice in so far as it seeks relief against the three alleged minor combinations."

Thus the Government is left free to begin independent actions as against these separate instances of alleged restraint of trade. Whether separate suits of this kind will actually be brought it remains for the future to determine. For the present the different companies have gained a substantial victory in the particular referred to.

RAILROAD GROSS AND NET EARNINGS FOR OCTOBER.

Earnings of United States railroads have latterly been showing steadily improving results, and the tabulation for the month of October, which we present to-day, is the best monthly exhibit we have yet had in the current series. The particularly gratifying feature is that the gains are not confined to the gross earnings, but that there is also a very substantial increase in the net earnings. It is proper to state, however, that in part the extent of the additions to both gross earnings and net earnings is exaggerated, since an extraneous cause has served to swell the magnitude of these additions. We have reference to the fact that the month in 1912 contained only four Sundays whereas in the same month last year there were five Sundays. It follows from this that there were twenty-seven working days in October 1912, as against only twenty-six working days in October 1911. Taking that circumstance in conjunction with the fact that the country, as a whole, has been enjoying unexampled prosperity, that the Western grain movement, owing to this year's excellent harvests, was of exceptional proportions, and that the cotton movement in the South, west of the Mississippi, and particularly at the Texas ports, ran well above that of last year, it is not surprising that the country's rail transportation systems should have been able greatly to increase their traffic and that their earnings should have expanded correspondingly.

| | | Inc. (+) or Dec | ·· (). |
|---------------------------|---------------|-------------------|--------|
| October (448 roads) 1912. | 1911. | Amqual. | 2% |
| Miles of road | 233,545 | +3,672 | 1.57 |
| Gross earnings | \$258,473,408 | $\pm $35,264,683$ | 13.64 |
| Operating expenses | 165,248,632 | $\pm 20,442,655$ | 12.38 |
| Net earnings | \$93,224,776 | +\$14,832,028 | 15.90 |

Our compilations are based upon the monthly returns made to the Inter-State Commerce Commission, embracing all roads whose gross revenues in the latest fiscal year reached \$100,000 per annum, and comprise about 96% of the entire railroad mileage of the country-in exact figures, are based upon 237,217 miles of road in October 1912. On this mileage the gain, as compared with the corresponding month last year, reaches no less than \$35,264,683. Of this gain, \$20,442,655 was consumed by augmented expenses, still leaving, however, \$14,822,028 increase in the net earnings, or 15.90%. What is particularly noteworthy and encouraging is that the improvement extends to all classes of roads and to all parts of the country. It is important, of course, to hear in mind that comparison is with very indifferent returns last year and the year before, and, in the case of particular systems, with heavily diminished earnings. The normal condition of things in the United States is one of growth from year to year, but in 1911, owing to trade reaction and other unsettling causes, this

growth was arrested. Our compilations for October 1911 showed only very trifling gains, the increase in gross for the whole railroad system of the United States being only \$1,370,362, or hardly more than $\frac{1}{2}$ of 1%, while the addition to net was on the same slender basis, being no more than \$2,110,767, or 2.30%. In October of the year preceding (1910) the showing was even poorer. In that year the addition to gross was also relatively insignificant, being \$2,643,059, while at the same time there was a large increase in expenses, and as a consequence net earnings fell behind no less than \$10,489,004.

In October 1909, of course, there were large gains in both gross and net-\$28,560,921 in the former and \$15,360,538 in the latter. The large improvement at that time, however, followed mainly because of the poor statement for October 1908, when there was a decrease in gross in the large sum of \$18,196,-132; in the net there was then no loss; owing to the practice of the most rigid economy and the cutting down of expenses in all directions, the large loss in gross then was converted into a gain of \$5,176,453 in net. In October 1907, which was the month when the panic occurred, there was considerable improvement in the gross, but the net fell off, owing to the great rise in expenses, which was a noteworthy characteristic of that period. In the following we furnish a summary of the October comparisons of gross and net for each year back to 1896. For 1910, 1909 and 1908 we use the Inter-State Commerce totals, but for preceding years we give the results just as registered by our own tables each year-a portion of the railroad mileage of the country being always unrepresented in the totals because of the refusal at that time of some of the roads to give out monthly figures for publication.

| and the second | Gross Earnings. | | | Net Earnings, | | | |
|--|--|--------------------------|--|---|---|---|--|
| Year, | Year Given. | Year Preceding. | Increase or Decrease, | Year Given. | Year Preceding. | Increase of Decrease. | |

Note,—In 1896 the number of roads included for the month of October was 125; in 1897, 125; in 1808, 121; in 1800, 126; in 1906, 131; in 1901, 111; in 1002, 105; in 1903, 168; in 1904, 106; in 2005, 906; in 2005, 906; in 2005, 906; in 2007, 906

In the case of the separate roads this year's gains or losses are in large measure controlled by last year's losses or gains. In other words, the increase the present year is found as a rule to be larger where there was a decrease in 1911, it being in such cases in part a recovery of what was lost last year. And yet there are striking exceptions to this rule, where noteworthy gains the present year follow marked improvement in the preceding year, too. The Great Northern, for instance, adds \$1,624,797 to gross and \$706,211 to net the present year, after having reported \$533,425 addition to gross and \$569,326 to net in 1911, though, on the other hand, in 1910 this system suffered a considerable loss in both gross and net. The Northern Pacific adds this time \$1,062,127 to gross and \$457,629 to net, following an addition of \$236,038 to gross and \$552,541 to net, but in October 1910 that road fell behind for doubtedly follows from greatly reduced yield of

that month no less than \$1,424,194 in gross and \$1,044,278 in net. The Illinois Central furnishes an instance where the present year's increase represents merely a recovery of what was lost last year, at which time the craftsmen's strike seriously disarranged the traffic of this road and in smaller measure, also, of the other Harriman roads. The gain now is \$1,294,406 in gross and \$690,708 in net. Last year the Illinois Central had \$983,517 loss in gross and \$973,417 loss in net.

40

Among the great East and West trunk lines, the Pennsylvania this time makes an imposing showing, it having added, on the lines directly operated both East and West of Pittsburgh, \$3,926,495 to gross and \$1,005,207 to net; last year in October the Pennsylvania lines showed \$47,319 loss in gross and \$140,401 loss in net, while in October 1910 these lines reported \$68,532 loss in gross and \$1,073,949 loss in net. The New York Central the present year has \$948,698 increase in gross and \$303,690 increase in net and in October last year had \$375,923 increase in gross and \$289,985 increase in net. This is for the Central proper. Including the various auxiliary and controlled roads, the whole going to form the New York Central System, the result is a gain just about as striking as in the case of the Pennsylvania, the increase reaching \$3,561,171 in gross and \$1,767,595 in net. The Baltimore & Ohio has enlarged gross by \$1,148,540 and net by \$414,511; last year this road had \$91,006 increase in gross and \$405,311 increase in net.

Western roads almost without exception report heavily augmented revenues both gross and netin some cases after losses last year but in not a few instances after gains last year. The Atchison has \$1,649,540 increase in gross and \$489,068 increase in net, after very small losses the previous year. The Milwaukee & St. Paul has done strikingly well, having bettered gross by \$1,103,229 and net by \$826,-951; the previous year this system fell \$366,736 behind in gross and \$148,727 in net. Furthermore, the Pacific Coast extension of this system, namely the Chicago Milwaukee & Puget Sound, has \$582,633 gain in gross and \$378,650 gain in net, following \$262,700 gain in gross and \$123,903 gain in net in October 1911. Both the Union Pacific and the Southern Pacific have strikingly favorable exhibits the present year, the former showing \$968,522 gain in gross and \$331,940 in net and the Southern Pacific \$1,658,321 increase in gross and \$617,531 increase in net; in October last year the Union Pacific reported \$384,430 decrease in gross with \$20,116 increase in net and the Southern Pacific \$532,239 decrease in gross and \$57,040 decrease in net.

In the case of the Southern roads heavily augmented expenses are a feature in several instances. Thus the Atlantic Coast Line, with \$248,892 increase in gross has only \$9,630 increase in net and the Louisville & Nashville with \$208,128 improvement in gross has actually fallen \$311,446 behind in the net. In the following we show all changes for the separate roads for amounts in excess of \$100,000, whether increases or decreases and in both gross and net. It will be observed that in the gross the only decrease for that amount is that of the Georgia Railroad, while in the case of the net the Georgia and the Louisville & Nashville, together with the Western Maryland, form the only exceptions. With regard to the Georgia Railroad the loss un-

a These figures merely cover the operations of the New York Central itself. Including the various auxiliary and controlled roads, like the Michigan Central, the Lake Shore, the "Big Four," the "Nickel Plate," &c., the whole going to form the New York Central System, the result is a gain of \$1.707,505.

w These figures represent the lines directly operated east and west of Pittsburgh, the Eastern lines showing $330^{\circ}.298$ increase and the Western lines $570^{\circ}.2099$ increase. For all lines owned, leased, operated amd controlled, the result is a gain of \$1,431,074.

The general nature of the improved results the present year is well shown when the roads are arranged in groups or geographical divisions. In that case every section of the country without any exception is found to have an increase in gross and also every section an increase in the net. Our summary by groups is as follows:

Group III, includes all of Onio and Ingiana; all of Michigan except the northern peoinsula, and that portion of New York and Pennsylvania west of Buffato and Pittsburgh. Groups IV, and V, combined include the Southern States south of the Ohio and east of the Mississippi River. Groups VI, and VI, combined include the northern peninsula of Michigan, all of Mississippi River. Groups VI, and VI, combined include the northern peninsula of Michigan, all of Mississippi River. Groups VI, and VI, combined include the northern peninsula of Michigan, all of Mission north of St. Leuis and Kansas City, also all of Montana, Wyoning and Nerviska, fogether with Colorado north of a line parallel to the State line passing through Denver. Groups VII. and IX, combined include all of Kansas, Okiahoma, Arkansas and Indias Territory. Misseuri south of St. Louis and Kansas City. Colorado south of Denver, the who e of Texas and the bulk of Louisiana, and that portion of New Mex-iso north of a line running from the northwest corner of the State through Santa Fe and east of a line running from Santa Fe to El Paso. Group X. Includes all of Washington, Oregon, Idaho, California, Nevada, Utab and Arkana and the western part of New Mexico.

THE STATISTICS REGARDING BANKING CONTROL.

At the hearing on Tuesday of the sub-committee of the Banking and Currency Committee of the House of Representatives, which is inquiring into the so-called "Money Trust," elaborate statistics were presented purporting to show the relations, as to loans and deposits, between New York banks and their out-of-town correspondents. The facts were compiled from the statements of thirty-odd banking institutions in New York, and we print the figures as a matter of record and for what they are worth, though we do not see that they disclose anything new. In a statement accompanying the tables it is pointed out that the significant fact shown by the figures is "that when money rates are high the out-of-town banks loan on the Stock Exchange far more money than when rates are normal"-a result that seems axiomatic. The statistics were prepared and presented by J. B. Niven of New York, a member of the firm of Touche, Niven & Co., certified public accountants. The various tables comprised therein, and the memorandum introducing the matter, are furnished below:

MEMORANDUM OF AGGREGATES.

MEMORANDUM OF AGGREGATES. Memorandum of aggregate statistics, based on information presented by the representative "downtown" New York financial institutions (banks and trust companies), regarding their "out-of-town" correspondents and the loans made by them on "Stock Exchange" securities: "The data furnished give an indication of the vast number of out-of-town banks which carry deposits in the principal New York banks, being almost 19,000. There are, no doubt, however, some duplications in these figures of the number of banks where single out-of-town banks carry accounts in two or more New York institutions. The Comptroller of the Currency reported as of September 1911 the existence of 21,257 national and State banks and loan and trust companies in the whole United States. The mag-nitude of these out-of-town institutions is indicated by the amount of their combined capital, surplus and undivided profits, which is reported (includ-ing duplications, of course) to be considerably in excess of nine billion dollars.

combined capital, surplus and undivided profits, which is reported (including duplications, of course) to be considerably in excess of nine billion dollars.
 "These country institutions are shown to have practically continually on deposit in New York including both direct deposits in the New York institutions and loans made on their behalf upon security of Stock Exchange and the other behalf upon security of Stock Exchange and the transmade on their behalf upon security of Stock Exchange on their on their behalf upon security of Stock Exchange on their on their behalf and the amount varying from time to time, and recently exceeding seven hundred millions.
 "The data further show, although partially estimated, the amount loaned by these representative banks and trust companies, either on their own account or on behalf of their country correspondents, exclusively, upon Stock Exchange or similar collateral. The sum so loaned reported by these institutions is generally also in excess of \$600,000,000, but varies more than the former amount—and, on occasions, is reported at amounts approaching \$800,000,000. With one exception, the highest figures in this connection in each year are reported as of July 1.
 "It appears from the data furnished that on Jan. 1 1912 the out-of-town banks had on deposit with thirty-two banking institutions in New York City upwards of \$523,000,000, and on that date the New York City upwards of \$523,000,000 and on Nov. 1 1912 the total was upwards of \$523,000,000 and on Nov. 1 1912 the total was upwards of \$601,000,000 and on Nov. 1 1912 the total was upwards of \$723,000,000.
 "The significant fact shown by the compilation of these figures is that when the money rates are high, the out-of-town banks in these thirty-two two her estil of Nov. 1 1912, on which date the out-of-town banks loaned for Nov. 1 1912, on which date the out-of-town banks loaned is \$183,000,000 at thit we work through the high money rate.
 "The purpo

not now so available." Deposits of out-of-town correspondents, with their New York represen-tatives, and loans made on their behalf at or about Jan. 1, July 1 and Nov. 1 1908 to 1912: TANITADY I

At Wednesday's proceedings of the Committee, when the "concentration of money and credits" formed the subject of inquiry, voluminous charts prepared for the Committee in the Library of the Investors' Agency, Inc., 55 Wall Street, of inquiry, voluminous charts prepared for the Committee in the Library of the Investors' Agency, Inc., 55 Wall Street, by Philip J. Scudder, a statistician, were offered, these charts setting out lists of "interlocking directors" in a number of leading financial and industrial organizations, with a view to indicating the domination of certain in-terests. These statistics were introduced almost simul-taneously with the appearance on the witness stand on Wednesday of J. P. Morgan. The records presented in-eluded a table intended to show the "affiliations of J. P. Morgan & Co., the Guaranty Trust Co., The Bankers Trust Co., the First National Bank and National City Bank, and other corporations, through interlocking directorates." In a prepared summary of the table on interlocking directorates it is stated that the chart shows the affiliations of eighteen selected financial institutions, namely: J. P. Morgan & Co. New York. Bankers Trust Co., New York. Bankers Trust Co., New York. Mational Bank, New York. Chase National Bank, New York. Mational Bank of Commerce, New York. Mational Bank of Commerce, New York. Bank Co., Beston and New York. The summary adds: These are affiliated with the great banks, trust companies and insurance

Kidder, Peabody & Co., Boston and New York
 Lee, Higginson & Co., Boston and New York.
 The summary adds:
 These are affiliated with the great banks, trust companies and insurance companies, and transportation systems, and producing and irading corporations and public utility corporations. through representation upon their boards of directors.
 The firm members and directors whose affiliations are thus shown number 180. In the aggregate they hold 355 directorships in 41 banks and trust companies, having total resources of \$3, 532,000,000, and total deposits of \$2, 534,000,000; first directorships in eleven insurance companies having total assets of \$2, 146,000,000; 155 directorships in 31 railcoad systems having a total capitalization of \$12, 2133,000,000 and a total meteorships in one steamship company, with a combined capital of \$245,000,000 and gross income of \$97,000,000; 000; 186 directorships in 25, 535,000,000 and trading corporations having a total capitalization of \$3, 535, 535, 000,000 and trading corporations having a total capitalization of \$3, 535, 535, 000,000 and trading corporations having a total capitalization of \$3, 535, 535, 000,000 and trading corporations having a total capitalization of \$3, 535, 535, 000,000 and trading corporations having a total capitalization of \$25, 536, 000,000 and total gross annual earlings in excess of \$4, 545, 000,000; in all, 7,46 directorships in 134 corporations having total resources or capitalization of \$25, 500,000.
 Further details as to the directorships and the resources

Further details as to the directorships and the resources these eighteen concerns individually are furnished in the following table: No. of

...\$3,883,000,000 \$1,245,000,000 Total__ An explanation of the chart relating to J. P. Morgan & Co., the First National Bank, the National City Bank, the Guar-

anty Trust Co. and the Bankers Trust Co. says: 1. The table shows that J. P. Morgan & Co., the First National Bank, the National City Bank, the Guaranty Trust Co. and the Bankers Trust Co. together have: Date hundred and eighteen directors in thirty-fourfbanks and trust com-panies having total resources of \$2,679,000,000 and total deposits of \$2,93,000,000. Thirty directors in ten insurance companies having total assets of \$2,233,000,000. One hundred and five directors in thirty-two transportation systems having a total capitalization of \$11,784,000,000 and a total mileage (ex-cluding express companies and steamship lines) of 150,200. Bixty-three directors in twenty-four producing and trading corporations having a total capitalization of \$31,390,000,000. Thenty-five directors in tweive public utility corporations having a total repitalization of \$2,160,000,000. anty Trust Co. and the Bankers Trust Co. says:

itized for FRASER //fraser.stlouisfed.org/

2. That J. P. Morgan & Co., the Guaranty Trust Co., the Bankers rust Co. and the First National Bank together have: Eighty-nine directors in such banks and trust companies. Twenty-nine directors in such insurance companies. Seventy-eight directors in such transportation companies. Forty-nine directors in such producing and trading corporations, and Sixteen directors in such public-utility corporations. In all, 261 direc-trs. T

tors. 3. That J. P. Morgan & Co., the Guaranty Trust Co. and the Bankers Trust Co. together have: Seventy-eight directors in such banks and trust companies. Twenty-inte directors in such insurance companies. Sixty-four directors in such transportation systems. Forty-four directors in such producing and trading corporations, and Fourteen directors in such public utility corporations. In all, 229 direc-tors. tor

to

The following explanation relative to "directors in com- mon" is also submitted under the head of J. P. Morgan & Co.:
 mon" is also submitted under the head of J. P. Morgan & Co.
 The table shows further that J. P. Morgan & Co. and the Guaranty Trust Co. have three firm members or directors in common. Henry P.
 Davison, William H. Porter and Thomas W. Lamont, and the two first named, together with George F. Baker, a director of the First National Bank, are voting trustees of the stock of such trust company.
 That J. P. Morgan & Co. and the Bankers Trust Co. have three firm members or directors in common. Henry P. Davison, William H. Porter and Thomas W. Lamont, and the first named and Danid G. Reid are two of the three voting trustees of the stock of such trust company. George W.
 Perkins having also been one of such voting trustees until he retired from the firm of J. P. Morgan & Co.
 That Le First National Bank and the Guaranty Trust Co. have three directors in common, namely, George F. Baker and Henry P. Davison and Thomas W. Lamont; two of whem, George F. Baker and Henry P. Davison, are voting trustees of the stock of such trust company.
 That the First National Bank and the Bankers Trust Co. have first outing trustees of the stock of such trust company.
 That the Guaranty Trust Co. and the Bankers Trust Co. have and so the trustee of the stock of such trust company.
 That the Guaranty Trust Co. and the Bankers Trust Co. have and so the trustee of the stock of such trust company.
 That the Guaranty Trust Co. and the Bankers Trust Co. have and souting trustee of the stock of such trust company.
 <li mon" is also submitted under the head of J. P. Morgan & Co .:

Lawrence Seudder, another committee accountant, also submitted tables on Wednesday purporting to show that the four leading life insurance companies-the New York, the Equitable, the Mutual and the Metropolitan-would have, at the present rate of increase, assets totaling \$4,318,000,000 in 1931. These tables are reproduced herewith (cents being omitted):

| Dec. | N. Y. Life | Jutual Life | Equit, Life | <i>fetropol'n</i> | Total for Four |

BANKING, LEGISLATIVE AND FINANCIAL NEWS. The public sales of bank stocks this week aggregate 20

shares, of which 7 shares were sold at the Stock Exchange and 13 shares at auction. The transactions in trust company stocks, all auction sales, reach a total of 40 shares. Twenty-

five shares of Astor Trust Co. stock were sold at 395-400. The last previous public sale of the stock was made in Oct. 1910 at 325. Stock of the Bank of New York, N.B.A., of which 13 shares were sold this week at 399, shows an advance in price of 44 points, compared with the last previous sale, which was made in Sept. 1912.

-The Irving Savings Institution, which has been paying 31/2% on deposits, has increased its interest rate to 4% with the declaration for the six months to Dec. 31.

-The investigation this week of the Pujo Committee at Washington into the banking and monetary conditions brought out a mass of statistics bearing on the affairs of banking institutions in New York and elsewhere, which we present in extended form in the article immediately preceding. The principal witnesses before the committee during the week were J. P. Morgan, and Frederick Lewisohn of the banking firm of Lewisohn Bros. of New York.

Mr. Morgan was on the witness stand at both the Thursday and Friday sessions of the Committee, being the only one before it on the latter day, when, with the conclusion of his examination, the Committee adjourned until January 6. Mr. Morgan readily responded to the questions concerning his varied interests, propounded during the lengthy examination to which he was subjected. He disclaimed any knowledge of the existence of a "money trust". In his examination bearing on concentration and control the question was put to Mr. Morgan by Mr. Untemyer as to whether, assuming that he (Mr. Morgan) were the voting trustee for all of the great systems of railroads in the United States, it would concentrate control in him. This elicited the reply that "it would be a concentration in my hands, but the Board of Directors are the ones who control, and you do not put the same board in every company." Mr. Morgan also stated that it was his belief "that in the infancy of a corporation, or in its incipiency, a voting trust is necessary for the protection of the property". Along this line of the investigation the questions and answers were as follows:

Investigation the questions and answers were as follows: Q_{-} -You are an advocate of combination and co-operation as sgainst competition, are you not? A.—Yes. Co-operation I should favor. do not object to competition, either, I fike a little competition. Q_{-} -You like a little, if it does not hurt you? Competition that burts you you do not believe in? A.—I do not mind it. Now, another point. This may be a sensitive subject. I do not want to talk of ft. This is probably the only chance I will have to speak of it. Q_{-} -You mean the subject of combination and concentration? A.—Yes, the question of control. Without you have control you cannot do any-thing.

the question of control. Without you have controled the question of control. Without you have control everything? A.—I want to control nothing. Q.—Well, I guess that is right. Is that the reason you want to control everything? A.—I want to control nothing. Q.—What is the point, Mr. Morgan, you want to make, because I do not quite gather it? A.—What I say is this, that control is a thing, particularly in money, and you are talking about a money control—now, there is nothing in the world that you can make a trust on money. Q.—What you mean is that there is no way one man can get it all? A.—Or any of it, or control of it. Q.—He can make a try of it? A.—No, Sir; he cannot. He may have all the money in Christendom, but he cannot do it. Q.—Suppose you owned all the banks and trust companies, or controlled them, and somehody wanted to start up in the steel business, you understand, against the United States Steel Corporation. You would be under a duty, would you not, to the United States Steel Corporation to see that it was not subjected to rainous competition? A.—No, skr. It has nothing to do with it.

Q.—You would welcome competition? A.—I would welcome competition. O .- The more of it the better? A .--Yes

Q.—The more of it the better? A.—Yes. Q.—Your idea is that when a man has got a vast power, such as you have—you admit you have, do you not? A.—I do not know it, Sir, Q.—You admit you have, do you not? A.—I do not think I have. Q.—You do not feel it, at all? A.—No, I do not feel it at all. Q.—Your idea is that when a man abuses his power he loses it? A.—Yes, and he nover gots it back again, either. Q.—Do you think that a competitive condition in the backs and trust companies of New York is more or loss preferable than a concentrated control over those banks? A.—I would rather have competition.

Mr. Morgan was also asked whether if a man controlled the credit of a country he would have control of all of jits affairs. That, Mr. Morgan said, he might have, but he would not have the money, reiterating that "money cannot be controlled". One other declaration made by Mr. Morgan was that credit is personal and founded upon character. On that point he said:

"Credit is personal. Money can't buy credit. Men can borrow money who have most limited properties. The first thing they want is their record. Money is loaned on collateral, of course, but I would not lend a dollar to a man whom I could not trust, if he came to me with all the Government bonds in Christendom."

Mr. Morgan also stated, in answer to a query that he had never considered the question as to whether or not the Stock Exchange ought to be put under some sort of Governmental control, but answering the question offhand he expressed a negative opinion. He furthermore declared that he would not favor any legislation that would undertake to control speculation, which he maintained, should be allowed, provided the transactions are legal.

During the course of the testimony Mr. Morgan stated that neither James Stillman nor George F. Baker was associated with or interested in the purchase, as it stands to-day, of the Equitable Life Assurance Society, but that there is an agreement that they will take a half-interest in it whenever he wishes them to.

Mr. Lewisohn's testimony had to do with the formation of the California Petroleum Co. and the syndicates handling its stock. The purpose of this line of inquiry, according to the daily papers, was to bring before the committee a specific illustration of how new stocks may be placed on the New York Stock Exchange and how syndicate operations are handled. Mr. Lewisohn's testimony showed that the California Petroleum Co. was devised in May 1912 to take over properties owned by Doheny & Canfield. Incidental to its formation, the banking firms of William Salomon & Co., Hallgarten & Co. and Lewisohn Bros. arranged to take \$10,000,000 of the \$12,500,000 preferred stock of the company and \$10,000,000 of the \$15,000,000 common stock. For this, the testimony indicated, they agreed to pay \$10,-000,000 cash, leaving Doheny & Canfield \$2,500,000 pre-ferred stock and \$5,000,000 common stock. The three banking houses then formed two sub-syndicates, each with \$5,-000,000 preferred stock and \$2,500,000 common stock. This, Mr. Untermyer reasoned, left the bankers \$5,000,000 common stock as profit. One of the sub-syndicates formed for the United States and the other for Europe. It appeared from the testimony that these syndicates sold the preferred stock at 91 and the common stock at 40, and from this it was sought to show that there was thus a yield of \$5,550,000 in cash for each syndicate, or \$11,100,000 for the two. The inference was accordingly drawn that, after realizing the \$10,000,000 cash required by the bankers, there were profits of \$1,000,000 in addition to the \$5,000,000 common stock which was figured as profit by Mr. Unter-After these syndicate operations, Mr. Lewisohn tesmyer. tified, the stock was listed on the New York Stock Exchange early in October 1912, and the making of a market for the securities was undertaken. It was shown that while the total number of shares listed was 105,778, the shares dealt in on the Exchange in October totaled 362,270. A statement in explanation of the profits to his own and the other two firms in the transaction, which Mr. Lewisohn declined to give on Monday, was furnished by him on the following day. In answer to the question on this point, he filed with the committee a copy of the syndicate agreement and the letter of participation, and testified, according to the New York "Times," that the profits were about \$1,100,000 in eash, plus \$5,000,000 of common stock, which was marketed at 70, netting about \$3,500,000, thus making the cash profit about \$4,600,000-or about 46% on the \$10,000,000 which the syndicate had to raise.

The sub-committee of the House Committee on Banking and Currency, to which was referred the Levy resolution directing the Secretary of the Treasury to relieve the stringency in the money market by the deposit of \$50,000,000 in the national banks, unanimously decided on the 18th inst. to make an unfavorable report on the resolution.

A bill amending the "newspaper publicity" clause of the Post Office Appropriation Bill was introduced in the House of Representatives on the 14th inst. by Representative Luther Mott of New York. Under this bill publishers would be required to file a statement showing the names of their officers and owners, but would not be obliged to give the names of stockholders owning less than 5% of the stock. The requirement for a statement of the indebtedness of the newspapers and information as to the average number of copies issued is eliminated in the proposed bill, as is also the provision calling for the labeling as "advertisement" of paid reading matter. Religious publications would not be exempt under the amendment.

The Chicago Butter and Egg Board temporarily discontinued, on the 4th inst., the practice of having quotations on butter and eggs furnished by a committee. The action of the board is authorized under the following resolution, adopted by the members:

Besolved. That as an experiment, we do hereby suspend the butter and egg quotation committees for a period ending March 1 1913, and that no official quotations be established by this board in the meantime.

The discontinuance of the quotations was attributed in some quarters to the suit brought by the U.S. Government under the Anti-Trust Law, in which the board is charged with conspiring to fix prices. The evidence of the Government, it is stated, was completed before the Master in Chancery several months ago, but U. S. District Attorney Wilkerson has been awaiting the presentation of the evidence of the defence. John Mitchell, Vice-President of the Butter and Egg Board, is quoted as saying that the action of the board is not a development of the Government suit, He furthermore says:

We simply dissolved all quotations committees until March 1 1913. Prices will be established by the old method of receiving offers to buy and sell in the open board, as was done some years ago.

-Assistant Attorney-General Walthall of Texas, in been filed in Austin an action reported to have the 17th instant against five cement on companies. charges them with combination in restraint of trade and the "fixing of prices." The defendants are the Texas Portland Cement Co., with headquarters in Dallas; the Southwestern States Portland Cement Co., Dallas; the Southwestern Portland Cement Co., El Paso, and the Alamo Cement Co. of San Antonio. The penalties claimed in the suit are said to be \$7,600,000.

An opinion holding illegal the practice of the Fidelity & Casualty Co. of New York in paying commissions to the New York State Bankers' Association on insurance placed by members of the latter with the Casualty Company has been rendered by Attorney-General Carmody of New York. Mr. Carmody holds that such commissions are in the nature of rebates and discriminations as defined in the insurance law, even though the funds paid over are used for association purposes.

-In a statement issued by U. S. Representative Brous-The a statement issued by 0.1.0. Representative Brous-sard of Louisiana, those interested in legislation regarding the high cost of living, land credits and allied subjects are directed to study the "Louisiana plan" designed to meet existing conditions. Mr. Broussard says: The great trouble with the cost of living is that the farmer operates on credital which has no head that when the most heaven means on the

a capital which has no banking value. He cannot borrow money on the farm under the national banking system, and, while he may be ever so honest, yet the value of his land does not figure if he needs aid to produce something to help augment the food supply. He can obtain this assistance only upon his individual credit. * * * We of Louisiana have already solved, we think, the question which Am-

We of Louisiana have already solved, we think, the question which Am-bassador Herrick proposes to present. At the last general election we adopted an amendment to the constitution of Louisiana exempting from taxation for a period of twenty years companies organized for the sole pur-pose of loaning money on farm lands at interest not to exceed 6%, net to the borrower. These trust companies will be under the supervision of the State Bank Examiner, and will market Louisiana's real estate securities in the money centres of the United States and Europe by guaranteeing both principal and interest.

The National City Bank of this city has given out the following statement to the press relative to a system of pensions which it has adopted in the interest of its employees and officers:

The National City Bank of New York announces the establishment of a system of pensions, death benefits and gratuities for the officers and em-ployees of that institution, who now number more than 450. The bank has had a pension plan under consideration for more than a year, and the re-sult, as announced, shows that it differs in material respects from the plans previously adopted by American and foreign banks. Heretofore all the pension plans of financial institutions have included contributions by the comployees as well as the bank. The amount of each contributions by the employees as well as the bank. The amount of such contributions by employees of banks and trust companies in the United States has varied from 214 to 3% of the salary. In foreign banks the range is as high as 4 and 5%

In the plan announced by the National City Bank no contributions are to be made by the employees, the bank assuming the entire burden. The pension is calculated upon the basis of 2% of the average salary for

are to be made by the employees, the bank assuming the entire burden. The pension is calculated upon the basis of 2% of the average salary for the three years immediately preceding retirement, multiplied by the num-ber of years of service. The maximum pension is not to exceed 60% of such salary, or the sum of \$5,000. Provision, however, is made whereby the directors of the bank may reward, by an additional annual allowance, any officer or employee who has rendered expectally meritorious and valu-able service to the bank. Retirement is to be optional at sixty years of age and compulsory at the age of 65 unless an officer or employee is re-quested by the board of directors to continue longer in service. The death benefits provided by the plan are payable upon the death of an officer or clerical employee in active service or of a pensioner on the retired list. An amount equal to two years salary of such officer or clerical employee is to be paid to his family or dependents. The sum, however, is not to exceed \$10,000. Similarly, upon the death of a pen-sioner, twice the amount of the annual pension which he had been receiv-ing is to be paid to his family or dependents. Beddes the pension scheme now instituted for their benefit, the em-ployees of the National City Bank have a club called the City Bank Ohb. It has an endowment fund of nearly \$250,000. Last lune, on the occasion of the contential anniversary of the bank, Mr. James Stillman, Chairman of the board of directors, contributed \$100,000 to the dub and the direc-tors of the bank a similar amount. The club gives a monthly entertain-ment, publishes a magazine and maintains a summer home in the country. It is conducting an educational campaign among its members with classes not only for the teaching of the principles and technicalities of banking but for the study of modern languages. These courses are under the in-struction of college professors and are without expense to the students. —James E. Miller, herectofore Assistant

-James E. Miller, heretofore Assistant Secretary of the Columbia-Knickerbocker Trust Co. of this city, has been elected a Vice-President of the institution. Mr. Miller is located at the company's 34th St. office.

—As we reported in our issue of Nov. 30, Herbert P. Howell has been elected a Vice-President of the National Bank of Commerce of this eity and will take up his active work with the bank on Jan. 1. Mr. Howell has been at the head of the credit department of the Carnegie Steel Co. for the past eleven years. In that time he has come to be considered as a credit man possessed of great ability and of peculiarly accurate information. He has had only two employers. One was the proprietor of the country store in Westmoreland County, Pa., where he worked as a boy, while he spent his evenings carrying on the education which he had received in the district school near his home. All but sixteen of his thirty-nine years—he was born on April 3 1873—Mr. Howell has spent with the Carnegie Steel Co.

—Charles L. Bernheimer has been elected a director of the Citizens' Central National Bank of this city, to fill a vacancy. The bank has declared a quarterly dividend of 2%, thus placing its stock on an 8% basis, as against 6% heretofore.

—Nicholas Biddle, a trustee of the Astor Estate, was elected a director, yesterday, of the United States Mortgage & Trust Co. of this eity, to fill the vacancy caused by the resignation of Robert A. Granniss. The company declared the usual quarterly dividend of 6%, payable Dec. 31 to stockholders of record Dec. 21, and voted a bonus of 10% to the officers and employees.

—The Central Trust Co. of this city has declared an extra dividend of 5%, in addition to the regular quarterly distribution of 9%, both payable Jan. 2 1913 to holders of record Dec. 23 1912.

—An extra dividend of 4% in addition to the regular quarterly dividend of 5% has been declared by the Title Guarantee & Trust Co. of this city, payable Dec. 31 to holders of record Dec. 23, making the annual return for 1912 24%, comparing with 20% paid previously.

-The 258th consecutive semi-annual dividend declared by the Bank of New York, N. B. A., has been increased to 8% and is payable Jan. 2 1913. This places the stock on a 16% per annum basis, as against 14% paid previously.

—The First National Bank of this city declared the regular quarterly dividend of 7% and an extra dividend of 5%, the First Sceurity Company also declaring an extra distribution of 5% in addition to the quarterly dividend of 3%. Both are payable Dec. 31 to holders of record Dec. 30. This is the first extra distribution to be made on the First Security Co.'s stock, and makes the annual dividend for 1912 17%.

-An extra dividend of 2% in addition to the regular semi-annual dividend of 5% has been declared by the Fulton Trust Co., this city, both payable Jan. 2 1913 to holders of record Dec. 23 1912.

—The Bank of the Manhattan Company, New York City, has declared an extra dividend of 1% to be paid along with the regular semi-annual disbursement of 7% on Jan. 2 1913 to holders of record Dec. 27 1912.

—The International Bank of this eity, in declaring the semi-annual dividend to be paid Dec. 31 to holders of record Dec. 30, has increased the amount to 4%, as against 3% paid at each half-yearly period heretofore.

—The Greenwich Bank of this city will distribute on Jan. 1 1913 to holders of record Dec. 21 1912 an extra dividend of 2% in addition to the regular quarterly dividend of $2\frac{1}{2}\%$. This will increase the annual return to 12%, as against 10% heretofore paid.

—The Guaranty Trust Co. of New York distributed this week to its force of 350 employees a Christmas bonus of 10% of their yearly salaries.

-The organization of a new bank in Long Island City, under the name of the Commercial National Bank, is under way. The Comptroller of the Currency has approved the application to form the new institution, which is to have a capital of \$200,000. E. V. Connelly, at present Cashier of the Aetna National Bank of New York, has resigned that post to accept the Presidency of the prospective bank, to take effect Jan. 15. Those identified with the movement include J. A. Mollenhauer, President of the Mollenhauer Sugar Refining Co.; A. D. Seymour, President, and J. Henry Dick, Vice-President, of the Manufacturers' National Bank of Brooklyn; William K. Dick, son of the latter; Horace Havemeyer, Vice-President of the Brooklyn Eastern District Terminal Co.; L. N. Hine, son of Francis L. Hine; Charles G. Meyer, son of the late Cord Meyer. -At a meeting of the board of the North Side Bank of Brooklyn Borough on the 17th inst., Lewis E. Pierson, of Austin, Nichols & Co., and Horace Havemeyer were elected directors. The institution recently obtained consent from the State Superintendent of Banks to change its principal place of business from 33-35 Grand St., Brooklyn, to 227 Havemeyer Street. With this change the Grand Street office becomes a branch.

*

-A. Frederick Behre, President of the Riverside Press of this city and a director of the Nassau Trust Co. of Brooklyn, died on the 13th inst. He was 62 years of age.

—The proposal to increase the capital of the Second National Bank of New Haven from \$500,000 to \$750,000 was approved by the stockholders on the 16th inst. As stated in this department Nov. 30, the new stock is to be sold at \$175 per \$100 share, and the increased capital is to become effective on Jan. 1.

-George I. Bodine, senior member of the banking firm of Bodine Sons & Co., of Philadelphia, died on the 16th inst. Mr. Bodine, who was sixty-seven years of age, had been a partner in the firm ever since it was established, in 1866. He was one of the founders of the Young Men's Christian Association in Philadelphia and was President of the Chartered Fund of America.

-J. W. Van Dyke was elected a director of the First National Bank of Philadelphia on the 12th inst. Mr. Van Dyke is President of the Atlantic Refining Co.

-Jay Cooke Jr., son of the well-known financier, in whose firm he had been a partner, died at his Philadelphia home on the 16th inst., aged 67 years. After the failure of his father's house in 1873, Jay Cooke Jr. became a partner in the banking firm of Charles D. Barney & Co. of Philadelphia, but retired from active business several years ago. His son, Jay Cooke 3d, is a member of that firm.

-The proposal to increase the capital of the Fidelity Trust Co. of Philadelphia from \$2,000,000 to \$4,000,000, in accordance with plans indicated in our issue of Dec. 7, will be acted upon by the stockholders on Feb. 11.

—The directors of the Provident Life & Trust Co. of Philadelphia have declared a quarterly dividend of 9%, thus raising the yearly rate from 32% to 36%. The company is now paying the same rate as the Girard Trust Co. The Fidelity Trust pays a still higher dividend of 40% annually. It is expected, however, that the latter will reduce its rate when its capital is doubled to \$4,000,000.

-The surplus of the Frankford Trust Co. of Philadelphia has been increased from \$200,000 to \$225,000. The institution has a capital of \$125,000.

—Another Philadelphia institution to increase its surplus is the Land Title & Trust Co. That amount has now been raised to \$4,000,000 with the transfer of \$500,000 from undivided profits.

-Edwin W. Adams, Assistant Cashier of the National Bank of Baltimore at Baltimore, has been elected a Vice-President of the Title Guarantee & Trust Co. of that eity. John H. Duncan, Secretary-Treasurer of the Title Guarantee Co., has also been made a Vice-President. Mr. Adams will have charge of the banking department which the company will add to its functions when it removes shortly to its new building, at St. Paul and Lexington streets.

-Action on the proposed increase in the capital of the National City Bank of Cleveland, referred to in these columns Nov. 23, will be taken by the stockholders at their annual meeting on Jan. 14. The capital is to be raised from \$250,000 to \$500,000.

—The North West State Bank of Chicago has declared a quarterly dividend of $1\frac{3}{4}\%$, payable Jan. 2 1913 to stock-holders of record Dec. 24 1912. This raises the annual rate to 7%, previous distributions having been 6% in 1912, 5% in 1911 and 4% in 1910.

-George H. Richards has been elected Secretary of the Minnesota Bankers' Association, succeeding Charles R. Frost, who resigns to become Treasurer of the National Surety Company of New York. Mr. Frost's election to his new post was referred to in our issue of Nov. 9. Mr. Richards is Secretary and Treasurer of the Verac Motor Car Co. of Anoka, Minn. Before becoming associated with the latter two years ago, he was Assistant Treasurer of the Farmers' & Mechanics' Savings Bank of Minneapolis

-William C. Little, President of the Little & Hays Investment Co. of St. Louis, died on the 8th inst. of acute indigestion. With Albert Kelley, Mr. Little organized the firm of Kelley & Little in New York in 1883, but three years later established the firm of William C. Little & Co. in St. Louis. The firm name was changed several times up to 1896, and it was then given the present title of Little & Hays Investment Co. Mr. Little was a former President of the St. Louis Stock Exchange. He was 63 years of age.

-It has been announced that David H. McKee, Vice-President of the German Savings Bank of Davenport, Ia., will enter the management of the Iowa Loan & Trust Co. of Des Moines early next year. It is stated that Mr. Me-Kee's office in the Des Moines company will probably be that of Vice-President. He will be a large stockholder in the institution, whose control was recently acquired by George B. Hippee and Simon Casady, to which reference was made in our issue of Aug. 3 last. Mr. McKee was State Bank Examiner from 1892 to 1897; he has been Vice-President and President of the Iowa Bankers' Association and is at present a member of the executive council of the American Bankers' Association.

W. D. Moore has become Cashier of the City National Bank of Omaha, succeeding W. S. Hillis, resigned. Mr. Moore comes from the First National Bank of Joliet, Ill., of which he had been Vice-President.

The shareholders of the Bank of Charleston, N. B. A. of Charleston, S. C., are to receive a stock dividend of \$200,000 under the proposed movement to increase the capital stock of the institution from \$300,000 to \$500,000. The new capital is to be paid for out of the undivided profits of the bank, each shareholder being given two-thirds of a share extra for every share held at present. No fractional shares will be issued, but the bank will either buy from or sell to the shareholders the fractional parts at the rate of \$240 per share. The stockholders are to authorize the issuance of the new stock at the annual meeting on Jan. 14 1913. The institution has surplus and profits of about \$575,000.

-George B. Pendleton has been elected Secretary and Treasurer of the Trust Company of Georgia at Atlanta.

-In the seven months which elapsed between April 30 and Nov. 26 1912, the Pacific National Bank of Tacoma, Wash., made an increase in deposits of nearly half a million dollars, the exact figures being \$481,429. Total deposits at the last official call were \$4,557,332, against \$4,075,903 on Apr. 30 1912. This institution is now under the management of Ralph S. Stacy, who was for many years Vice-President of the National Bank of Commerce, Seattle.

-The Standard Bank of Canada (head office Toronto) has declared a dividend for the current quarter ending Jan. 31 1913 at 31/4%, being at the rate of 13% per annum. The dividend is payable on Feb. 1 to stockholders of record Jan. 21.

-The stockholders of the Bank of Nova Scotia (head office Halifax), at a meeting on the 11th inst., unanimously approved the purchase of the Bank of New Brunswick at St. John. It was also resolved at the meeting to increase the authorized capital of the Bank of Nova Scotia from \$5,-000,000 to \$6,000,000. The stockholders of the Bank of New Brunswick ratified the merger proceedings at a meeting on the 9th inst. The plan of the purchase was set forth in our issue of Oct. 26 last, and reference to it was also made in the "Chronicle" of Nov. 2. The Bank of New Brunswick has a capital of \$1,000,000. In addition to an exchange of stock, share for share, the stockholders of the Bank of New Brunswick are to get a bonus of \$10 per share. The merger is expected to go into effect on Feb. 1.

-At a meeting on the 13th inst. of the Banque d'Hochelaga' (head [office [Montreal), J. A. Vaillancourt was elected President to succeed the late J. D. Rolland, who died in November. As Vice-President, Mr. Vaillancourt is replaced by F. L. Beique. The vacancy on the board created by Mr. Rolland's death was filled by the election as a director of A. A. Larocque, Managing Director of the Sincennes-McNaughton Co. Announcement was made at the meeting of the intention to increase the paid-in capital from \$3,000,000 to \$4,000,000, the authorized amount, and this proposal was approved by the stockholders at the an-nual meeting on the 18th inst. The new stock is to be offered to the present shareholders at \$150 per share. The payments are to be made in installments of 10% a month. beginning Feb. 1 1913. Under action taken at the last 20.8%.

annual meeting, the paid-in capital was increased from \$2,500,000 to \$3,000,000. The present annual state-ment, for the year ending Nov. 30 1912, shows an addition of \$350,000 to the reserve fund, part of which represented the premium received on the new stock issued during the year. The reserve fund now stands at \$3,000,000. A special reserve fund of \$50,000 has also been created. The bank's assets aggregate \$30,697,263.

-The Knoxville Banking & Trust Co. of Knoxville, Tenn., was placed in the hands of a receiver on Monday the 16th inst., following the filing of a bill in the Chancery Court by representatives of the directors. It is reported that the bank's difficulties are due to an excess of long-term investments and the inability of the institution to realize quickly on the same in order to meet the demands of the Christmas season. John W. Green has been named as receiver. The institution was organized in 1888. It had a capital of \$150,-000 and its depostis are said to have amounted to about \$1.100,000.

+ Increase over last week. — Decrease from last week. Note.—"Surplus" includes all undivided profits. "Reserve on deposits" includes for both trust companies and State banks, not only cash items but amountadue from reserve agents. Trust companies in New York State are required by law to keep a reserve proportionate to their deposits, the ratio varying according to lo-eation as shown below. The percentage of reserve required its computed on the aggregate of deposits, exclusive of time deposits not payable within thirty days, and also exclusive of time deposits not payable within thirty drag represented by certificates, and also exclusive of deposits secured by bonds o obligations of the State or City of New York, and exclusive of an amount equal to the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the bank or held in trust gen is by any public department, The State banks are likewise required to keep a reserve varying according to lose-don, the reserve helm computed on the whole amount of deposits acclusive of time deposits not payable within thirty days, represented by certificates (according to the amendment of 1910), and exclusive of deposits exclusive of time deposits not payable within thirty days, represented by certificates (according to the amendment of 1910), and exclusive of deposits exclusive of the deposits not payable with the market value (not exceeding par) of bonds or obligations of the State or City of New York owned by the company of held in trust for it by any public department. —Trust Cov.— —State Banks—

The Banking Department also undertakes to present separate figures indicating the totals for the State Banks and trust companies in Greater New York not in the Clearing House. These figures are shown in the table below, as are also the re ults (both actual and average) for the Clearing

House banks and trust companies. In addition, we have combined each corresponding item in the two statements, thus af ording an aggregate for the whole of the banks and trust companies in the Greater New York.

a These are the deposits after eliminating the item "Due from reserve depositories and other banks and trust companies in New York City"; with this item included, deposits amounted to \$613,700,600, a decrease of \$7,254,000 from last week. In the case of the Clearing-House members, the deposits are "legal net deposits" both for the average and the actual figures. b Includes bank notes.

The averages of the New York City Clearing-House banks and trust companies, combined with those for the State banks and trust companies in Greater New York outside of the Clearing House, compare as follows for a series of weeks past:

Bankers' Gazette.

Gardiness' Gazactic. Wall Street, Friday Night, Dec. 20 1912. The Money Market and Financial Situation.—The disturbing influence of the late Supreme Sourt decision became practically extinct last week and business in Wall Street this week has been more nearly normal than for some time past. The volume of trading at the Stock Exchange declined from the largest in over a year to very small pro-portions. This is especially true in the bond department where the transactions have been much below the usual average, and in stocks, too, trading has been limited. A decision from the same source handed down this week in the anthractic coal case had little, if any, effect upon se-eurity values other than those directly affected. The decision was generally regarded as favorable to the coal arriers and Reading sold on Wednesday about 12 points in the affected outcome have had a favorable effect at all the financial centres of Europe, and, although the year-end requirements are liminent, official discount rates at the financial centres of Europe, and, although the year-end requirements are liminent, official discount rates at the financial centres of Europe, and, although the year-end requirements are liminent, official discount rates at the financial centres of Europe, and, although the year-end requirements are liminent, official discount rates at the financial centres of Europe, and although the year-end requirements are liminent, official discount rates at the financial centres of Europe, and although the year-end requirements are liminent, official discount rates at the fine spected outcome have had a favorable effect at all the financial centres of Europe, and although the year-end requirements are liminent, official discount rates at the fine spected outcome have had a favorable up to year. The base the the Bank of England reports a substantially maller proportion of reserve. The latter is, however, not year have the the basen of the sequence that all important centres money marke menced.

The open market rates for call loans at the Stock Exchange The open market rates for call loans at the Stock Exchange during the week on stock and bond collaterals have ranged from $3\frac{1}{2}(0.5\frac{1}{2}\sqrt[4]{0})$. To-day's rates on call were $4\frac{1}{4}(0.5\sqrt[4]{0})$. Commercial paper quoted 6% for 60 to 90-day endorse-ments and for prime 4 to 6 months' single names and $6\frac{1}{2}\%$ for good single names. The Bank of England weekly statement on Thursday showed a decrease in bullion of £1,771,659 and the percent-age of reserve to liabilities was 42.98, against 48.07 last week. The rate of discount remains unchanged at 5%, as fixed Oct. 17. The Bank of France shows an increase of 1,725,000 frances gold and 350,000 frances silver. NEW YORK CLEARING-HOUSE BANKS. (Not Inclusting Trast Comparise.)

Nate.—The Clearing House now issues a statement weekly, showing the actual condition of the banks on Saturday morning, as well as the above averages. The figures, together with the returns of the separate banks and trust companies, also the aumaary issued by the State Banking Department, giving the condition of State banks and trust companies not reporting to the Clearing House, appear on the second page preceding.

Foreign Exchange.—After an advance of about 40 points on Saturday, the market for sterling exchange was irregular during the week.

during the week. To-day's (Friday's) nominal rates for sterling exchange were 4.81 for 60-day and 4.86 for sight. To-day's actual rates for sterling exchange were 4.8095 604 8105 for 50 days. 4.8545 604 8555 for cheques and 4.8615 60 4.8625 for cables. Commercial on banks 4.753% 604 80% and documents for payment 4.801% 604 811%. Cotton for payment 4.801% 604 80% and prain for payment 4.811% 604 811%. The posted rates for sterling, as quoted by a representative house, were not changed for sight during the week from 4.86, while 60 day was reduced on Friday to 4.81 from 4.811%. To day's (Friday's) actual rates for Paris bankers' frames were 5.21% fees 1.32 models. 1.26 for long and 5.18% fees. 3.22 models 1.86 for short. Germany bankers' marks were 9.4.3-166.94% for long and 95 less 1.16 for short. Germany bankers' marks were 9.4.3-166.94% for long and 95 less 1.32 models. State and Railroad Bonds.—Sales of State bonds at the Board include \$1,000 N. Y. 4s, 1961, at 1011% and \$18,000 Virginia 6s deferred trust receipts at 521% to 55.

The market for railway and industrial bonds has been exceptionally dull. The par value of total sales on Wednes-day was less than \$1,000,000 (about 960,000) and for the week it was far below the average. Prices have been gener-ally firm and of a list of 22 active issues 14 are higher, 4 are unabaneed unchanged.

United States Bonds.—Sales of Government bonds at the Board include \$12,000 2s, reg., at 101 to 101½, \$500 3s, coup., at 102½ and \$3,000 Panama 3s, coup., at 101¾. For lo-day's prices of all the different issues and for yearly range see third page following.

range see third page following.
Railroad and Miscellaneous Stocks.—Daily transactions in the stock market steadily declined throughout the week until to-day. On Monday they aggregated 902,000 shares and on Thursday only 404,297.
To-day's market was more active and the tone was decidedly better than for several days past.
Reading and Union Pacific have been the active features of the week. Reading was strong on the decision mentioned above and on an advance of its dividend rate from 6 to 8 per cent. It covered a range of almost 12 points and closes with a net gain of 45%. Union Pacific has recovered over 10 points of its recent decline. Canadian Pacific, Lehigh Valley, Lackawanna and Northern Pacific have been notably strong.

notably strong. American Tobacco has fluctuated even more widely than usual, having covered a range of 25½ points and closing within a fraction of the highest. The copper stocks were all strong and U. S. Steel has recovered almost 3 points within the week. International Harvester has moved up 4 points. For daily volume of business see page 1675. The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Wet Marinad, ref. _______ 6sd & Dec 18 70 Dec 17 16 Dec 11 Apr Outside Market. __Trading on the "curb" for the most of the week was quiet and the movement of prices without definite trend. To-day there was a better market, with an upward tendency to prices. United Cigar Stores com., after an early advance from 10735 to 108, dropped sharply to 10412. After this it moved upward, though fluctuations were erratic, reaching 11032 finally. The pref. sold up from 11612 to 11734. Tobacco Products pref. was also erratic, and from 92 moved up to 95, down to 90 and upward again, touching 9832. The close to-day was at 9834. British-Amer. Tobacco declined from 2415 to 2355, reacted to 2412 and moved downward again, resting at 2335 finally. Emer-son-Brantingham com. sold down from 6615 to 65, the pref. gaining over half a point to 99. Honston Off com. fell from 2134 to 1834 and sold to-day at 2014. Manhattan Shirt pref. was off from 10335 to 10214. Standard Off N. J. improved 2 points to 397 and sank to 392. Willys-Overland com. receded from 69 to 6732 and recovered to 7045. The pref. sold down from 100 to 9934 and back to 100. In bonds principal trading was in Canada Southern new 5s, "w. i.," down from 10614 to 10635 and back to 10614. Braden Cop-per 6s weakened from 195 to 193, then sold up to 210, the elose to-day being at 208. The new 7s lost a point to 195, but rose to 210 and ends the week at 208. Copper stocks were steady. Braden Copper fluctuated between 932 and 935 and to-day moved up to 1054 a new high record. The close was at 1032. Greene-Cananea ranged between 835 and 9, closing to-day at the high figure. —

THE CHRONICLE

Investment and Kailroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be bia ned. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. The returns of the electric railways are brought together separately on a subsequent page.

| | Latest | Gross Earr | ings. | July 1 to | Latest Date. | | Latest Gross Earnings. | | July 1 to Latest Date. | | |

Net Earnings Monthly to Latest Dates.—In our "Railway Earnings" Section or Supplement, which accompanies to-day's issue of the "Chronicle," we give the October figures of earnings of all steam railroads which make it a practice to issue monthly returns or are required to do so by the Inter-State Commerce Commission. The reader is referred to that Supplement for full details regarding the October results for all the separate companies.

In the following we give all statements that have come in the present week covering a later or a different period from that to which the issue of the "Railway Earnings" Section is devoted. We also add the returns of the industrial companies received this week.

1912 1911 Incre

South Carolina Western Railway.

(Report for Fiscal Year ended June 30 1912.)

Pres. W. R. Bonsal says in substance:

Pres. W. R. Bonsal says in substance:
 At the time of your last annual meeting your property consisted of the Hartsville Division, comprising 36.69 miles of main line (Ploreace on Atlantic Coast Line, via Darlington and Hartsville to McBee on the Seaboard Air Line), with 6 miles of side tracks and spars. During the year the physical condition of the Hartsville Division has been great amount of ditching has been done and various additions have been made, as follows: Wye tracks at McBee and Florence, tracks at Hartsville to fertilizer factory and cotton warehouse; also prime house and passenger tracks, suft tracks at 7 points. Cotton shed at Hartsville; cotton platform at Darlington; steel bridge erected over Main 36... Darlington, 8. C.
 The Sumfer branch from Hartsville, via Bishopville and Lydia, to Sumfer Statistic, each and the and 1 mile of skings and spurs, has been completed in the last few days. The first 3 miles of track from Hartsville is an excessed to be share the statistic of tracks at structure the statistic structure of the statistic structure of the statistic structure of the statistic structure of the statistic structure is a structure from the statistic structure of the statistic structure of the statistic structure of the statistic structure of the structure of the statistic structure structure of the structure division, now the standing the fact that interest during construction and early operation was provided for by the creation of a special interest fund. The deficit is therefore in reality a technical or bookkeeping deficit which was reduced by surprise structure of a steem railroad business is necessarily a slow process. International Steam Pump Co., New York.

(Report for Fiscal Year ending Sept. 30 1912.) Chairman William Guggenheim, N. Y., Dec. 10, wrote in substance:

Chairman william Guggenneim, N. Y., Dec. 10, wrote in substance:
New President.—The sinking of the "Titanic," which occurred early in the year, visited a heavy loss on the International Steam Pump Co. in depriving us of the sublance of our President, Benjamin Guggenheim. The policies and plans originated by Mr. Guggenheim for the extension of the company's business have been steadfastly continued. On Nov. 19 1912
W. B. Dickson, formerly Vice-President of the United States Steel Corporation, was elected to the office of President of our company.
Taxial.—The first part of the year did not show the expected business may an elected to the office of President of our company.
Taxial.—The first part of the year did not show the expected business was small, and unduly severe competitions and additional cost in manufacture. These unusual conditions gradually became less severe, and during the later months of the first part of the year is policy of maintaining interases.
The company thorushout adhered to its policy of maintaining its plans.
The first part of first part of the year there was a encouraging increase in sales a timproved price.
The company thorushout adhered to its policy of maintaining its plans.
The first part of first part of the reserved price.
The company thorushout adhered to its policy of maintaining its plans.
The timp reserve and financial resources are fully taxed to nectornafing there are in sales in marked the second half of the first part of the team of the team of the second the second thalf of the first part of the year is continuing, with net carrings in line with those of the encouraging the team is in the substantial outlays made for additions to factories. With an increased volume of business, which is resonable to expect, the second part of such expenditures with the second balf of the first part of the year is continuing, with net carrings in line with those of the encouraging the period. Canadian Car & Foundry Co., Ltd., Montreal.

(Report for Fiscal Year ending Sept. 30 1912.)

<text><text><text><text><text><text><text><text><text><text>

Imits have been purchased which should be of value in years to come. General.—When the Fort William Works are finished, your company will own eight complete plants, in addition to the Rhodes-Curry building contracting business, extending from Sydney, Cape Bretton, N. S., to t William, Out., a distance of nearly 2,000 miles, and will be one of the most self-contained car-building companies in the world, manufacturing, as it does, nearly everything that enters into the construction of railway cars. The number of employees of the company and its subsidiaries at the present time is about 7,500, and the pay-rolls aggregate about \$500,000 per month. During the past year there has been added to our forces as a director and a vice President M. E. Duncan, formerly connected with the American Car & Foundry Co., who has had a long experience in the car business.

a Includes total issue of pref. and common stocks of Canadian Steel Foundries, \$1,350,000; advances on current accounts, \$348,714; capital stock of Pratt & Letchworth Co., Ltd., \$\$30,000, and miscellaneous, \$92,585. Note—The company guarantees \$3,650,000 Canadian Steel Foundries bonds which are not taken into account in the above balance sheet and has also a contingent liability on bills under discount, \$700,000.—V. 95, p. 1610, 752.

Houston Oil Co. of Texas, Houston, Texas. (Balance Sheet Sept. 30 1912—President's Letter Nov. 19 1912.)

Pres. S. W. Fordyce, Nov. 19, wrote in substance:

Pres. S. W. Fordyce, Nov. 19, wrote in substance: The plan (V. 93, p. 472) for the readjustment of the finances of the com-pany because fully operative on Feb. 1 last, having receive, i.e. co-operation of practically all the holders of the pref. and common stocks. As a result of this readjustment the management has, during the past 7 or months, been in position to take up actively the development of the com-pany's oil and land resources. The services of F. M. Hutchinson, geologist, have been retained, and he is now engaged in a thorough examination of the mineral resources on the property; his work will probably be completed within the ensuing 12 months. The practical field men in the company's employ, co-operating with Mr. Hutchinson, have already designated five or size points where indications are found which fully justify the expenditure of the funds necessary to a thorough exploitation of the oil possibilities; two wells are now in course of boring and a third will be started in the immediate future.

of the finites necessary for a minor state of the finite will be started in the immediate future. Plans have been formulated for clearing a tract of cut-over lands upon which a demonstration farm will be established next spring. It is believed that this farm will attract attention to the fartility of these lands, and facilitate their rapid sale for agricultural purposes. An organization for placing these lands on the market and securing a desirable class of softlers will be perfected as rapidly as possible. The commercial value of the stimps, indegrowth and wood-refuse on these cut-over lands is under examination, and a report will be made thereon by McGarvey Cline, at present director of the U.S. Forest Products Laboratory at Madison, Wis. While the time which has elapsed since the company has been placed in position natively to develop the property had mat been sufficient to produce field for steady and gradifying progress. (As to offering of new aeries timber certificates in Dec. 1911, see V. 93, p. 1670; V. 94, p. 1252.) Pat ances sufficient AS AT SEPT, 30 1912 (Compare V. 92, p. 1560).

Annual Disidend Record Since 1885. 1886, 1887, 1888, 58 to '96, '97 to '00, '01 to '06, '07 to '13. -V. 94, p. 1382. -V. 94, p. 1382.

-V. 94, p. 1382. Delaware Lackawanna & Western RR.—New Stock.— The directors, it is said, will probably at their next meet-ing on Dec. 26 take some action toward issuing a part (say \$3,000,000) of the \$12,000,000 new stock authorized by the stockholders in Feb. last (V. 94, p. 350). This would be safficient to provide for the work thus far done on the cut-off from Clark's Summit. Pa., to Hallstead, 38 miles (V. 94, p. 207, 1382). -V. 95, p. 480.

-V. 95. p. 480.
Denver Northwestern & Pacific Ry.—Sale—New Co.— The Central Trust Co. of New York, as trustee under the \$4,000,000 Colorado-Utah Construction Co. 6% notes, will sell at public anction on Jan. 15 the \$8,000,000 1st M. 5% gold bonds of the railway company, which are deposited thereunder, bearing Sept. 1 1912 and subsequent coupons. The Denver & Salt Lake RR. has been incorporated in Colorado with \$10,000,000 authorized stock as successor, per plan V. 95, p. 890.—V. 95, p. 1541, 1403.
Denver & Salt Lake RR.—Successor Company.—

per pian V. 95, p. 890.—V. 95, p. 1541, 1403. Denver & Salt Lake RR.—Successor Company.— See Denver Northwestern & Pacific Ry, above. Detroit United Ry.—Decision.— The Michigan Supreme Court on Dec. 17 rendered a decision affirming that of the Wayne County Circuit Court, which held that the company is compelled to carry passengers over the entire Jefferson-Grand River Avenue line for a single fare, on the theory that only a single fare can be charged on all lines at any time within the city limits as extended. Compare V. 95, p. 110.—V. 95, p. 890.

p. 110.-V. 95. p. 890. Grand Trunk Ry. of Canada.-Interest Payments.--The earnings (est.) of the Well. Grey & Bruce Ry. for the hait year end-ing Dec. 31 1912 applicable to meet interest on the bonds will, it is au-nounced, admit of the payment of £2 13s. 3d. per £100 bond, to be applied, £1 6s. 3d. In final discharge of coupon No. 58. due July 11899, and £2 7s. 0d. on account of coupon No. 59. due Jao. 1 1900. Payment will be made on and after Jao. 1 1913 at the offices of the Grand Trunk Ry. Co., 203 Dash-wood House. New Broad St., London, E. C.

Debenture Stock.—The company offered in London from Dec. 6 to 12 at 95% £1,000,000 perpetual 4% consol. deb. stock, ranking pari passu with the £20,371,942 of such stock already listed on the London Stock Exchange. Chairman Alfred W. Smithers says: "The balance of net revenue, after the payment of the interest on the debenture stocks, for the year ended Dec. 31 1911, amounted to £330,000, which amount, it is expected, will be considerably exceeded during the current year." Subscriptions are payable: 10 per 2100 stock on application; £20 on allotment; £30 Feb. 14 1913; £35 March 14 1913. A press report states that the underwriters took 38% of the £1,000,000 issue.—V. 95, p. 1607, 1403.

Metropolitan St. Ry., Kansas City.—Foreclosure.— Henry C. Flower and the New York Trust Co., as trustees for the \$10,200,000 Ist lien refunding bonds made by the Kansas City Ry. & Light Co., due May 15 1913, have made a demand on the receivers of the Metropolitan Company for payment of the principal, claiming that by reason of the receivership the principal became due at once, the \$10,500,-000 Metropolitan St. Ry. notes deposited thereunder being payable on demand. The receivers dispute the claim, but Judge Hook in the U. S. Dist. Court at St. Louis, Mo., on Dec. 16 granted permission to file a bill of forcelosure. — A suit to forcelose the consolidated mige. of 1895 (under which \$7,252,000 bonds are outstanding) is pending.—V. 95, p. 1808.
Minneapolis & St. Louis RR.—Financing.—An official denies the current newspaper reports that negotiations have been practically completed for the re-financing of the \$4,000,-000 5% collateral notes which mature on Feb. 1 next and are seeured by deposit of \$7,500,000 ref. & ext. M. 5% bonds. The noteholders will be given the privilege of surrendering their security and receiving cash. or of taking new notes, about the only point that has not been decided being the basis on which the new notes will be offered. ~V. 95, p. 1207, 238.

Montreal Tramway Co.—Bonds Sold.— SN. W. Harris & Co. and Perry, Coffin & Burr announce that the \$1,000.-000 first and refunding M. 5% bonds recently offered by them have all been sold.—Y. 95, p. 1608, 295.

Nashville Chattanooga & St. Louis Ry.—*To Replace Bonds with Stock.*—The committee appointed to arrange for the retirement of the \$6,300,000 1st M. 7s (due July 1 1913) through an issue of stock has recommended an increase of \$6,000,000 in the stock to be offered to the stockholders o

record at par. The stockholders will, accordingly, vote Feb. 12 on increasing the capital stock by \$6,000,000, thereby making the total cap. stock \$16,000,000.—See V. 95, p. 1123. New Orleans Ry. & Light Co.—2d Com. Div., ½%.— A dividend of ½ of 1% has been declared on the \$20,000,000 common stock, payable Dec. 31 to holders of record Dec. 19. An initial distribution of 1% was made July 31.—V. 95, p.298. Now York Now Hours & Hartford BP.—Official State

An initial distribution of 1% was made July 31.—V. 39, p.298. New York New Haven & Hartford RR.—Official State-ment.—Pres. Charles S. Mellen yesterday gave to the press a two-column article reviewing the New England railroad situation, expressing the belief that the good of the road and the proper development of the territory served can only be attained by co-operation between the company and the pub-lic, denying attempts at monopoly and stating that the peo-ple and the press have been misled by hostile agitation and false allegations.—V. 95, p. 1608, 1542. Norfolk Southern RR.—New Subsidiary.—

false allegations.—V. 95, p. 1608, 1542. Norfolk Southern R.R.—New Subsidiary.— The Carolina R.R. has been incorporated in North Carolina with \$175,000 capital stock as a consolidation of the Kinston & Snow Hill R.R. and Kins-ton-Carolina R.R. (the latter formerly owned by the Roper Lumber Co.). The stock will be owned by the lamber company. The Kinston-Carolina R.R. extended south from Kinston to Pink Hill, N. C., 20 miles, and the Kinston & Snow Hill R.R., north from Kinston, 15 miles, to Snow Hill, N. C. The merging of the two small roads affords the Norfolk Southern, with which connection is made at Snow Hill, a direct north and south line from Farmville, N. C., on its Washington-Raldgi division, via Snow Hill and Kinston to Pink Hill, about 45 miles. An extension of about 15 miles will be constructed from Pink Hill south to Chinquapin, N. C. C. I. Mil-and on Norfolk, Va., Pres. of the John L. Roper Co., is President of the andnew company Wm. Hayes, General Manager.—V. 95, p. 1208, 1123. Northern Securities.—Dividend Reduced.— A dividend of 2% has been declared on the \$3.954.000 stock, payable Jan, 11 to holders of pecord Dec. 24, comparing with 3% in 1912, 4% in 1911, 215% in 1910, 4% in 1900 and 5% yearly in 1906 to 1908.—V. 94, p. 205: Pittsburgh & Susquehanna RR.—Receivership.—The

the bill be dismissed without prejudice, in so far as it seeks relief against the three alleged minor combinations." *Two New Vice-Presidents Appointed.*— A. T. Dice and J. F. Auch, now General Manager and Freight Traffic Manager, respectively, of the Philadelphia & Reading Ry., have been made Vice-Presidents of that company, in charge of operation and freight traffic respectively.—V. 95, p. 1199, 1040. **Bichword** (Va.) & Henricon (Floatric), **Press**

respectively. -V. 95, p. 1199, 1040. **Richmond** (Va.) & Henrico (Electric) Ry. *—Franchise*. Mayor Ainslie of Richmond on Dec. 14 signed the ordinance which was passed by the Board of Aldermen, awarding the light and power franchise to the company at its bid of \$10. The franchise provides that the company must within 2 months file with the Committee on Streets a proposed route, which the latter may alter, enlarge or diminish, and that construction shall begin within 3 months after approval by the committee and be completed within 12 months. Thereafter extendions may be ordered by the City Council by additional ordinances, designating additional routes. Compare V. 95, p. 112.

V. 95, p. 112. Roscoe Snyder & Pacific Ry.—New Bonds Authorized.— The Texas RR. Commissioners on Dec. 14 authorized the company to make an issue of new first refunding 5% bonds in place of the outstanding debt, which is to be canceled. The valuation of the property is fixed at \$723.173, while the outstanding debt amounts to \$550.000. The order authorizes the issuance of \$500.000 of the new bonds and the registration at once of \$250.000 of the temporary bonds. The Texas & Facille Ry. is to receive \$158.000 bonds in payment for the outstanding note for \$157.511 held in payment for rails and other construction material—V. 91, p. 1006.

Sao Paulo Tramway, Lt. & Pow. Co., Ltd.—Deb. Slock. The London Slock Exchange has listed a further £221,917 5% perpetual nsol. debenture stock, making total listed \$521,917.—V. 95, p. 651.

The London Stock Exchange has listed a further £221.917 5% perpetual consol. debenture stock, making total listed \$221.917.5% perpetual scheme to the stock making total listed \$221.917.--V, 95, p. 681. Sedalia Light & Traction Co.—Sale.— The deed from receivers E. F. Swinney of Kansas City and W. H. Powell of Sedalia to transfer to Arthur E. Spencer of Joplin. Mo., representing Henry L. Doherty & Co. of New York, was passed on Dec. 12. The new company will be known as the City Light & Traction Co. Compare V. 95, p. 681, 419.

Sherbrooke Railway & Power Co.—Bonds.— The London Stock Exch. has granted a special settling day to \$300,000 5% 30 yr. consel. 1st M. sinking fund gold bonds of \$500 each. Nos. 1301 to 1900 (V. 94, p. 1120).—V. 95, p. 968.

South Jersey Gas, Elec. & Traction Co.—Ronds.— The N. J. State Public Utility Commission on Dec. 12 authorized the issuing of \$139,000 additional bonds under the \$15,000,000 mortsage for extensions. At last accounts \$12,753,000 were outstanding. For the cal, year 1911 the gross income, it is stated, was \$34,465,813; not earlings, \$1,208,217; int, on bonded debt, \$725,619.—V. 86, p. 1530.
 Southern Ry.—Payment of Noles.—The company declines to confirm or to make any statement in regard to the newspaper reports that it has decided to pay off from treasury cash a part of the \$10,000,000 5% notes which mature on Feb. 1 next, and extend remainder through sale of a new issue of \$5,000,000 3-year 5% notes.—V. 95, p. 1609, 1404.

of \$5,000,000 3-year 5% notes. -V. 95, p. 1609, 1404.
Terminal Railroad Assn. of St. Louis. -Argument. -The controversy between Attorney-General Wekersham and counsel for
the company over the form of the decree of dissolution as approved by the
fower Court was submitted to the U.S. Supreme Court without argument
on Dec. 16. Decision was reserved. -V. 95, p. 1208, 545.
Union Pacific RR. -Form of Southern Pacific Distribution Submitted to Supreme Court. --Judge R. S. Lovett, Chairman of the executive committees of the Union Pacific and
Southern Pacific systems, on Wednesday issued a statement
in which he said that Attorney-General Wickersham had
refused to approve any plan involving the distribution under
the decision of the U.S. Supreme Court on Dec. 2 last (V. 95,
p. 1543, 1502) of the \$126,650,000 Southern Pacific Co. stock
owned by the Union Pacific exclusively to the stockholders
of the latter in proportion to their holdings, whether by sale,
dividend or otherwise, and had declared that he would appeal
in case the District Court should approve a pro rata distribution. He further says:

in case the District Court should approve a pro r.t. distribution. He further says: "Wefind nothing in the opinion of the Supreme Court in this case to war-rant the Government in denying to stockholders of the Union Pacific the rights enloyed by the stockholders of every other corporation that has been required to dispose of stock held contrary to the Sherman Act, where a pro rata distribution was practicable, as it is in this case." "The matter was submitted to the Supreme Court on Thursday on briefs presented by both sides in order to avoid the delay which would follow an appeal from a decision of the lower Court contrary to the views entertained by one of the two parties in interest. This action was taken on the motion of the Attornay-General that the lower Court be instructed to insert a pro-vision in the decree to be outsed that the Southern Pacific stock should, to ensure a wider distribution, be offered pro rata not only to the Union Pacific stockholders but to the Southern Pacific stockholders as well. The briefs are given at length in the New York "Times" of Dec. 20.----V. 95, p. 1604, 1612, 1543. **Vera Cruz Terminal Co.**-Earnings.--

V. 95, p. 1604, 1612, 1543.
Vera Cruz Terminal Co. — Earnings.— The accounts for the year ended June 30 1912 show a balance at the exchange of 24.5101d., equivalent to FS.628, adding to this the amount brought forward, £2.313, there is an available sum of £10.941. After providing 245,000 int. on debentures to June 30 1912 and £4.038 for sinking and redeenption funds, and £1.792 for sindry interest on loans, there is a deficit of £39,889 to be carried forward.—V. 92, p. 528.
Wabash-Pittsburgh Terminal Ry.—New Receiver.—In the U. S. Dist. Court at Pittsburgh on Dec. 18 an order was made appointing Horace F. Baker receiver for the Wabash-Pittsburgh Terminal Ry. Co. and the West Side Belt RR. Co., to succeed Henry W. McMaster, who resigned.—V. 95, p. 1609, 1395.

INDUSTRIAL, GAS AND MISCELLANEOUS.

The floating debt includes a large sum due the Baltimore Trust Co. for advances under a pledge of \$1,250,000 3d M. bonds. The committee feels that satisfactory arrangements can be made with said trust company should sufficient responses be received from the stockholders prior to noon Jan. 4. This committee has regularly received detailed reports of each month's operations, and they show a gradual increase in earnings. We have also endeavored to make a conservative estimate of the value of the properties and are of the opinion that the equity in those properties belonging to the stockholders is well worth our best efforts to protect and secure. To avoid the considerable expense of an underwriting by bankers and others, the committee has decided to ask the stockholders to protect their own interests by subscribing the amounts named bolow. We have also secured a promise from one of the largest creditors to accept for its debt (about \$275,000) a like amount of new mortgae bonds, to be part of an issue not to exceed \$1,000,000, which shall be subject only to the first dest and the first consol. Es, agregating about \$2,000,000, and are necetiating with other creditors for similar arrangements. The property will shortly be offered for sale under a decree of the Bankrupi Court, and the committee extres to be able to purchase the same for the stockholders. To order to make such a purchase and to provide a working capital of stoke \$400,000. This amount will be subject to provide a working capital of stoke \$400,000. This amount will be subject to reduction to the extent that mortgage bonds are accepted by additional creditors in payment of the stoke the able. If any, greater than the total of the present capitalization and debit. Approximate Contemplated Continuities for sine payment of the test for bods are working to the present excepted by additional creditors in payment of the bask of the bankrupt trustoe. If the committee acquires the property, it will organize a corporation to own and operate the same with a capital

debis as above mentioned. If the committee acquires the property, 1 will organize a corporation to own and operate the same with a capitalization and debis.

the controlling interest in the stock issued to the promoters of the company. A press report says: Earnings for ten months to Oct. 31 are said to have been twice the pref. dividend requirements, but funds are tied up in the inventory and other quarters, so that working capital is needed. Instead of passing the pref. dividend, it is planned to issue scrip which will be convertible into pref. stock at par within a set period, probably a year. There is enough pref. for con-trologit cash payments will have to be suspended that long.—V: 94, p. 1122. (The) Interestional Nickel G. W. W. Divide 1000

(The) International Nickel Co., N. Y. - Dividend 21/2%. This new company (formed per plan in V. 95, p. 239, 682) has declared a dividend of 21/4% on its \$38,031,565 common stock, psyable Mch. 1 to

holders of record Feb. 10, comparing with 2% on Nov. 1. The regular quarterly dividend of 15% has been declared on the \$8,912,626,6% non-cumulative pref. stock, payable Feb. 1 to holders of record Jan. 13. These are the second dividend payments since the exchange of the old International common stock for 250% in the common stock of the new company, the exchange of the old pref. for new pref. \$ for \$\$ and the issue of \$3334 % new common at par for cash. The old company paid on its common stock in 1909, 235% (1910, 6%; 1911, 1034 %; 1912, to and incl. Sept. 3, 1734 %. Compare Y, 95, p. 240.—(V. 95, p. 752, 682.)

Kentucky Heating Co., Louisville, Ky.—Decision.— Judge Quartes on Dec. 13 held that the 20-year franchise under which the company has been supplying fuel gas expired Aug. 11 1908. The eity of Louisville is ordered within an agreed time to be specified in a indegment to be drawn to offer for sale a franchise similar to that heretofore held by the company, and should the company not become the purchaser, then such incider orders may be entered as may seem proper. The company claims that the franchise does not expire until 1936.—V. 78, p. 290.

A substantist modelitors were of any further bands of Seri

tion certificates. Present Condition of the Property and its Proposed Development. Additions.—We now have under construction a fleet of six steamers, two turs, two barres and other floating equipment, with a total carrying expactive of 275,000 barrels of oll, costing approximately \$2,000,000, and propose to also construct a topping plant for the production of naphtha and light gasoline distillate, costing approximately \$300,000. Of the new vessels, one tank steamer will be delivered this month, the four largest ones will be delivered before July next and the remainder of the fleet during the year 1913. Construction work upon the company's railroad from San Geronimo to Cerro Azul is being carried on with all possible dispatch, as is the pipe line from Casiano to Cerro Azul and the pipe line to Tres Hermanos. All of these improvements are expected to be completed by April 1913. The equipment for carrying on development, storing of oll, transporting the same by pipe line to Tampico and delivering on tank cars for Mexican con-round to any demand.

 Western Union Telegraph Co. — Favorable Decision. — Judge Evans in the U. 8. District Court on Dec. 18 granted a preliminary injunction restraining the Louisville & Nashville RR. from removing the company's poles and wires from the railroad company's property pending the determination of the proceedings brought by the telegraph company to condemn a right of way thereon. The Court says that an Act of the frentucky Legislature gives a telegraph or telephone company the privi-lege of condemning a right of way along the road of a common carrier. The matter of compensation, it is stated, should be left to a jury. The contract between the railroad and telegraph company expired on Aug. IT as, whereuron the railroad commany propared to erect its own telegraph and telephone lines on its right of way. Compare Louisville & Nashville item, V. 95, p. 1542 - V. 95, p. 1549, 1045.

 —For foreign and American investment, White, Weld & Co. of 14 Wall St., New York, and Chicago and Boston, are to-day advertising in the "Chronicle" four public utility bonds which the firm recommends for conservative investment. At the prices offered the investor will receive an income of 5.35 to 6%. See advertisement for general description. Complete circulars will be mailed upon request.
 —S. D. Williamson, since 1900 Division Engineer of the Pacific Division of Panama Canal Construction, has resigned his position to enter the services of J. G. White & Co., Ltd., international engineers and contractors of London and New York. Mr. Williamson was called to the Canal service by Col. Goethals in May 1907 as Division Engineer of the Pacific locks and dams. In his later position he had charge of the construction of the gigantic locks at Pedro Miguel and Miraflores, and was Col. Goethal's "right hand man." Previous to his work in Panama Mr. Williamson was engaged in railroad and general construction work in various parts of the United States. He was also in the service of the United States Government for some time and in 1900 was in charge of the fortification work at Newport, R. I. In his new field of work, with J. G. White & Co., Ltd., he will be associated with their London office in the capacity of Principal Assistant Engineer, directing construction in all parts of the word excepting the United States and its possessions.
 —The directors of S. W. Straus & Co., bankers, of New possessions

possessions.
—The directors of S. W. Straus & Co., bankers, of New York and Chicago, have voted to increase the capital stock to \$1,100,000 and have added several new names to their list of officers. Simon W. Straus remains President of the company, with S. J. T. Straus First Vice-President and Lawrence F. Storn Second Vice-President. The other officers are: Melvin L. Straus, Secretary; Sidney H. Kahn, Treasurer; Nicholas Roberts, Manager of the bond department; Charles H. Gokler, Auditor, and H. B. Matthews, publicity manager. The firm of S. W. Straus & Co. was founded in 1882, in Chicago. In 1910 the firm put up its own building in that city, and in November last opened an Eastern branch in New York City.

granulated

degrees test, 3.17e. Refined continues dull and unchanged; granulated 4.90c. PETROLEUM.—Refined firm; barrels 8.50c.; bulk 4.80c. and cases 10.40c. Naphtha slightly higher; 73 to 76 degrees, in 100-gallon drums, 23 ½c.; drums \$8 50 extra. Gasoline, 86 degrees, 27c.; 74 to 76 degrees, 24c.; 68 to 70 degrees, 21c., and stove, 19 ½c. Spirits of turpentine 43e. Common to good strained rosin \$6 25. TOBACCO.—Trade has been generally quiet, with prices firm for binder and steady enough for filler. The supply of binder is small. Manufacturers are believed to be carry-ing small supplies of filler and the trade look for greater activity after the turn of the year. Sumatra for the moment attracts no great attention. For the time being manu-facturers are pretty well supplied. Cuban meets with the ordinary demand. New crop is selling in a moderate way to manufacturers. COPPER has been firm though somewhat less active, with Lake 17 ½c. and electrolytic 17 ½@17 ¾c. European markets have latterly been rather firmer. Tin has been quiet but firm, at 50.10c. Lead quiet and rather weak at 4.30c. Spelter 7.30c., with small sales. Iron and steel have been generally firm, No. 2 Foundry East at Furnace \$17@\$17.50, however. Larger sales of billets have taken place at Pittsburgh. Further sales of rails have been made to South America. Australia is in the market for rails. In fact railroad buying has been one of the striking features of the week. Orders for cars have also been of notable proportions. Prices are not only firm as a rule but are expected to remain so. The Steel Corporation, it is stated, will have nearly 100,000 tons a month greater capacity by the end of March.

COTTON.

Friday Night, Dec. 20 1912. THE MOVEMENT OF THE CROP, as indicated by out telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 335,203 bales, against 380,202 bales last week and 437,010 bales the previous week, making the total receipts since Sept. 1 1912 6,526,032 bales, against 6,669,632 bales for the same period of 1911, showing a decrease since Sept. 1 1912 of 143,600 bales.

In the end, however, some de-elime took place, despite the smallness of the stock here, the large discounts already prevailing at New York and the note-worthy strength of December and January. January has latterly reached a premium of six points over March under the spur of more or less demand from prominent interests, including some of the spot houses. It is understood that straddles were made originally between New York and Liverpool by selling in this market and buying in Liverpool and that some of the buying here of late of various months, including January, has been for the purpose of undoing these straddles. The developments in January will be watched with interest, though judging from appearances and proba-bilities there is no likelihood of an actual corner, these not being the days when corners are popular. During the week there have been notable sales from the New York stock, certainly 7,000 bales. There have been rumors too, which, it turned out lacked foundation, that further important spot sales had been made here. What is certain is that the local stock is dwindling. Spot markets as a whole have to all appearance been firm, even though here and there evidences of rather more liberal selling have been apparent in the East-ering the days in usual rapidity and is now very gener-ally held at firm prices. These prices indeed are well above the New York parity. The fact is dwelt upon with some **on** phasis that the New York discounts are so great as to pre-vent any important shipments hither. It is stated that such shipments would entail a severe loss. Spot houses have bought more or less freely. The dry goods reports, in the main, are favorable, even if the trade is not quite so active as recently. Exports have been at tim as recently. Exports have been at times very liberal. The receipts east of the Mississippi are beginning to show some decrease, and although the movement west of the River is still large, the total port receipts begin to reveal a rather suggestive disparity between the figures of this year and those of a year ago. The exports, to revert to that subject, are well ahead of even the strikingly big total up to this time last year. On the other hand, the world's stocks are enormous, the receipts most of the time have been liberal and many look askance at the present price, regarding it as high enough, if not altogether too high. At times Liverpool and the Continent have sold here rather freely; also Waldorf-Astoria operators, Wall Street, the West and the South. Out-of-town traders are, for the most part, bearish on the big world's stocks and the high price; also they lay stress on the Washington investigation, tight money, the approaching tariff revision, the European situation and the possibility of a decrease in general trade in this country after the turn of the year. To-day prices declined sharply, despite what was regarded as a bullish ginning report, i. e., 570,312 bales from Dec. 1 to Dec. 13, against 953,920 from Dec. 1 to Dec. 1 to Last, against 13,770,727 last year. The ginning was comparatively small west of the Mississippi, and to some the Texas crop seems to have been overestimated by the Government when it put it at 4,850,000 bales. Spot cotton elosed at 13,10c. for middling uplands, showing no change for the week. The official quotation for middling upland cotton in the New York market each day for the past week has been: Dec. 14 to Dec. 20-

Dec. 14 to Dec. 20-Middling uplands Sat. Mon. Tues. Wed. Thurs. Fri. 13.20 13.20 13.10 13.10 13.20 13.10

NEW YORK QUOTATION FOR 32 YEARS.

United States ______12,424,853 13,770,727 10,695,443 The statistics in this report include 75,772 round bales for 1912; 92,790 for 1911 and 106,486 for 1910. The number of Sea Island bales included is 55,804 for 1912, 98,035 for 1911 and 75,228 for 1910. The distribution of the Sea Island cotton for 1912, by States, is: Florida, 19,505; Georgia, 34,537; and South Carolina, 4.762. The statistics of this report for 1912 are subject to alight corrections when checked against the individual returns of the ginners being transmitted by mail. The corrected statistics of the quantity of cotton ginned this season prior to Dec. 1 are 11,854,541.

WEATHER REPORTS BY TELEGRAPH.-Advices to us by telegraph this evening from the South denote that the precipitation has been light or moderate where rain has fallen during the week. The marketing of the crop continues fairly free.

Galveston, Tex.—Slight precipitation reported in some sec-tions of the State. Cotton movement is not so heavy. There has been no rain during the week. Average thermo-meter 57, highest 68, lowest 46. Abilene, Tex.—Dry all the week. Minimum tempera-ture 34.

Abilene, Tex.—Dry all the week. Minimum tempera-Abilene, Tex.—Dry all the week. Minimum tempera-ture 34. Palestine, Tex.—There has been rain on one day the past week, the rainfall being two hundredths of an inch. Low-est thermometer, 38, highest 50. San Anlonio, Tex.—We have had no rain during the week. Lowest thermometer 36, highest 48. Taylor, Tex.—There has been rain on one day of the past week, the rainfall being one hundredth of an inch. Mini-mum thermometer 32. New Orleans, La.—There has been rain on one day of the week, the rainfall reaching eighteen hundredths of an inch. The thermometer has averaged 53. Shreveport, La.—There has been rain on one day of the past week, the rainfall being twenty-four hundredths of an inch. The thermometer has ranged from 32 to 71. Vicksburg, Miss.—We have had rain on one day of the week, to the extent of fifty-six hundredths of an inch. The thermometer has averaged 50, the highest being 70 and the lowest 33.

Intermoneter has averaged 50, the inglest being 70 and the lowest 33.
Helena, Ark.—Rain has fallen on one day during the week, the precipitation reaching twelve hundredths of an inch. The thermometer has ranged from 27 to 51, averaging 42.1.
Little Rock, Ark.—Dry all the week. The thermometer has ranged from 27 to 64, averaging 45.5.
Memphis, Tenn.—We have had rain on two days of the week, the rainfall being fourteen hundredths of an inch. The thermometer has ranged from 25 to 60, averaging 44.
Mobile, Ala.—Rain has fallen on four days during the week, the precipitation reaching twenty-four hundredths of an inch. The thermometer has ranged from 36 to 66, averaging 52.
Selma, Ala.—There has been rain on each day of the week, the rainfall aggregating forty-eight hundredths of an inch. The thermometer has averaged 44.5, the highest being 64 and the lowest 28.
Madison, Fla.—We have had rain on four days during the week, the precipitation reaching ninety hundredths of an inch. The thermometer has averaged from 33 to 74, averaging 54.

54. Savannah, Ga.—Rain has fallen on three days during the week, the precipitation reaching sixteen hundredths of an inch. The thermometer has ranged from 39 to 64, averag-

Charleston, S. C.—There has been rain on two days the past week, the rainfall being ninteeen hundredths of an inch. The thermometer has ranged from 37 to 68, averaging 53. *Charlotte*, N. C.—Rainfall for the week nine hundredths of an inch on one day. Average thermometer 44, highest 61, lowest 28.

BREADSTUFFS.

BREADSTUFFS. Friday Night, Dec. 20 1912. Flour has been in only light demand. Buyers are decidedly averse to purchasing except on a hand-to-mouth scale. In fact, they are pursuing the same policy which they have fol-lowed for some time past. There are expectations of a better trade after the turn of the new year. Whether they will be realized or not remains to be seen. At the Northwest some mills report a better trade. Others state there has been no increase of business. The sales have been mostly in small or moderate-sized lots. Some mills are running on smaller capacity from a lack of directions. Others have more direc-tions than they can very readily keep up with. The export trade has been light, though there have been some sales of second clear to London at full prices. The production at Minneapolis, Duluth and Milwaukee last week was 403,260 bbls., against 428,100 in the previous week and 322,520 last year.

Minimapons, Diffuth and Miniwarkee has veck and 322,520 last bbls., against 428,100 in the previous week and 322,520 last year. Wheat has been rather firmer at times and in fact on the whole has been quite steady. Business, however, has been as a rule rather light. The foreign markets, however, have shown quite a little steadiness. It is said that only 75,-000,000 bushels of spring wheat remain to be marketed at Minneapolis and Duluth up to the next crop. The world's available supply statistics have also been of a somewhat bullish tinge. That is to say there was a decrease last week of close to 2,800,000 bushels, in sharp contrast with an increase in the same week last year of a little over a million bushels. The contract stock at Chicago fell off about 120,000 bushels during the week and at the opening of the present week was only 7.742,000 bushels, against 9,782,000 bushels a year ago. Also the total American available supply last week increased only 1,205,000 bushels, against an increase in the same week last year of 4,002,000 bushels. Export business has not been large as a rule, though in tho middle of the week some 400,000 bushels were reported, partly Manitoba and partly hard winter, to go out by way

DEG. 21 1912.] THE CHI United States and Canada, including flour, against 5,632,660 in the previous week and 4,530,000 last year. Bad weather also reported in Argentina.

THE DRY GOODS TRADE.

New York, Friday Night, Dec. 20 1912. As is to be expected, a slightly quieter tone has developed in drygoods with the approach of the holidays. Prices are firmly established in all divisions of the trade, but manu-facturers are conservative in accepting business for forward account at current levels. They are so well booked into the new year as to be indifferent to offers of new business for the time being, while on the other hand various influences are at work causing huvers to be more avyious to place their new year as to be indifferent to offers of new business for the time being, while on the other hand various influences are at work causing buyers to be more anxious to place their forward requirements. Among these are the pronounced shortage of spot supplies of all kinds, the firmness of raw ma-terials and the great difficulty experienced in getting de-liveries. Consequently, the situation is entirely within the control of sellers, and there is little likelihood of any reduction in prices in the near future, unless a further reduction in values should be made necessary through a revision of the tariff. Tariff changes are, however, too remote to be of immediate consequence to the trade. The raw material situation dominates the cotton goods market, the firmness here making itself felt through all branches of the trade. It is not very encouraging to spinners to see spot cotton above the 13c, mark, despite a pretty safe estimate of ap-proximately 14,000,000 bales. Large cotton goods buyers are making active inquiries for forward deliveries, but, owing to the conservatism of manufacturers, a very small volume of business is actually being put through. Jobbers are doing a good business for prompt shipment and are finding it diffi-cult to secure additional supplies. An active retail holiday season has drawn heavily against jobbers, and they will have a very small carry-over at the end of the year. The high prices continue to restrain buying for export account, al-though a fair volume of business has been placed on drills for India through March delivery. China has also taken these goods on a moderate scale for delivery as far ahead as April. Export business on sheetings, however, is quiet, a prices are too high to attract foreign buyers to this market. DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending Dec. 14 were 6,681 paekages, valued at \$736,012, their desination being to the prints specified in the table below.

| 1 | 912 | -1 | 911 |
|--|--|--|---|
| New York to Dec. 14— Week. Great Britain | Since Jan. 1. 3,832 1,868 58,531 26,930 48,236 27,255 44,012 | Week. 21 31 3.599 350 601 196 1.319 | Since Jan. 1. 1.049 1.442 102.858 23.900 24.278 12.816 42.871 |
| Mesico 60 Central America 398 South America 1,575 Other countries 1,338 | 3,387 19,753 69,083 69,671 | | $\begin{array}{r} 2,466\\ 19,461\\ 56.545\\ 42,972\\ \hline \end{array}$ |
| | | | |

....6,681 372,558 8,168 330,658 The value of these New York exports since Jan. 1 has been \$24,870,014 in 1912, against \$23,701,315 in 1911. Less activity is noted n domestic cotton markets, but the quietness is modified by reports that a lull is welcome.

Supplies in dealers' hands in most instances are light, mills are backward in their deliveries and a slackening in the demand will give an opportunity for conditions to become more nor-mal. The general-undertone of all markets, however, con-tinues firm, sellers, no doubt, being influenced by the decided strength of the staple, which, despite estimates of an abun-dant yield this season, continues to move upward. It is still claimed that prices on many lines of goods have not yet risen to a level of profit based on costs. For this reason there is little likelihood of any stocks being thrown on the market at a sacrifice, which usually takes place when "house-cleaning" at the end of the year. The tightness of the money market is restricting forward buying and is also putting a damper on any speculative purchasing. Merchants, however, are optimistic in their views and expect a good business after the holidays. Those dealing in wash goods are particularly looking forward to an active trade. At present there is little going on in bleached cottons, business being confined for the most part to small orders for prompt shipment. Mills manufacturing under-wear, hosiery and various descriptions of colored goods are well booked with orders, deliveries running well into spring. A good business is also reported in fancy blankets, job-bers showing a lively interest in many lines. Sheetings con-tinue in light supply and are firmly held. As regards print eloths, markets are quiet, with prices showing little change. Gray goods, 38½-inch standard, are quoted at 5³/₈ to 5¹/₂c.

Gray goods, 38½-inch standard, are quoted at 5% to 5½c. WOOLEN GOODS.—According to reliable reports, a large business is being transacted in men's wear for fall 1913 delivery. During the past week a number of lines were opened at advances ranging from 2½ to 12½c. a yard. The bulk of the new lines, however, will not be put on the open market until the first of the year. Dress goods are also active and duplicate spring orders continue to be received in fairly good volume. Business already booked is suffi-cient to guarantee the full operation of mills for some time to come. to come

FOREIGN DRY GOODS.—No particular change has taken place in linen markets during the past week. Business generally is good and prices are well maintained. It is evi-dent that the tariff question is not disturbing buyers, as several substantial orders have been booked for the next fall several substantial orders have been booked for the next fall season. Dress linens are in active request, with repeat or-ders numerous, and as a result of the sold-up condition of mills, buyers are compelled to accept later dates for delivery than desired. Burlaps, after ruling quiet during the early part of the week, developed activity during the latter part. There is little change in the general situation, however, stocks remaining light and the undertone steady. Lightweights are quoted at 6.60c, and heavyweights at 3.75c.

Importations and Warehouse Withdrawals of Dry Goods The importations and warehouse withdrawals of dry goods at this port for the week ending Dec. 14 1912 and since Jan. 1 1912, and for the corresponding periods of last year,
