## WIDER THAN EVER, EXPERIENCE WHAT'S NOW POSSIBLE FOR A MONITOR

The LG 29EA73 monitor makes multi-tasking super easy with its UltraWide screen and 4-Screen Split feature. You can divide your screen into 4 customizable segments making it simple to have the information you need right in front of you. Have files on two separate devices? With Dual Link-up you can connect both devices to the monitor and view a file from each at the same time.

### 21:9 ULTRAWIDE

Wider than ever, UltraWide 21:9 makes movies and games more immersive than ever. Trying to get some work done? The UltraWide screen makes it easy to view multiple documents at the same time, so you don't need to flip back and forth between documents.

### 4-SCREEN SPLIT<sup>1</sup>

Multitasking should not mean flipping back and forth between windows. The 21:9 UltraWide monitor is not just wide - it's smart. With a single click, the 4-Screen Split feature divides the screen into up to four customizable segments.

### DUAL LINK-UP

The Dual Link-up feature allows two compatible portable devices, like a computer, camera, phone, or Blu-ray player, to be connected to the monitor and viewed on a single screen simultaneously.

<sup>1</sup>Screen split software runs on Windows Vista/7/8 and Mac OS. (download latest software from lg.com)

<sup>2</sup>To use Dual Link-up, one device must be connected to the DisplayPort the other must be connected to either the HDMI or DVI port
