565 CANDY MEADOWS FARM ROAD  
LEXINGTON, TENNESSEE 38351

On behalf of the entire Candy Meadow Farm Family, I would like to welcome each of you to the 26th Annual Cowman's Kind Bull and Female Sale.

Candy Meadow Farms is a multi-generational operation that has been in continuous forward motion for over 70 years. We are grateful for everyone who has been a part of our journey and we are thankful to all the people we have been able to do business with and build friendships with.

For decades we have maintained a strong desire to be the best that we can be in all areas that we touch, as people, as cattleman, as representatives and as friends. We do not want to give our reputation the need for second chances, so we aim to do the right things every time, and that's how we aim to do business with you.

As for the cattle we're offering, it is our goal and desire that you would find them to your liking. It's our life, we do not row crop, or have any thing else to take away from our focus on the cattle. We hit the floor every morning starting the day after this sale to make a constant evaluation of what we can do to improve on each sale offering. We try to make them problem free, build the best EPD profile and individual performance into each animal. We want that animal to be docile and have the ability to thrive in any environment that's thrown at them.

Your attendance means everything to us, come early, look the cattle over and have lunch with us. If you have any questions that we can help you with do not hesitate to ask. Thank you so much for being a part of our story.

Sincerely,  
Rob Helms

**Practical Bull Development:** At Candy Meadow we pride ourselves in producing professional bulls. Among other things this has to do with how the bulls are developed. We feed a high roughage ration in huge runs that insure the longevity, structural soundness, and fertility of our bulls.

Some of our seedstock development strategies:

1. We run our seedstock under the same conditions as any top commercial producer would. Result: Our cow production records are honest and reflect their true genetic potential.
2. The only calves that receive creep feed are on first calf heifers. Result: Production and Performance records are more meaningful for both us and customers.
3. We feed a high roughage ration designed for 3 pounds per head daily gain. Result: Bulls do not get over fat and maintain their body condition better when turned out and are ideally suited for grass consumption.

**"Order Your Choices Sight Unseen":** If you can't attend the sale and you want to buy, call Rob Helms (731) 571-8213 or Mark Sims (585) 595-0901 and let us select your genetics, or bid online through DV Auctions!

- We will call you after the sale, and then you mail a check.
- All sight unseen sales are made with a satisfaction guarantee.

**Semen Interest:** Candy Meadow Farm will retain a 1/3 semen interest in every bull selling. CMF reserves the right to collect semen at CMF's cost and at the buyers' convenience. CMF retains 1/3 of the semen revenue rights for each bull. The buyer owns 100% possession and 100% salvage value.
