# Fan Shaped Backboards

**Our backboard hole pattern fits all of our goal rings!**

## MODEL -01 AND -02 STEEL PLATE

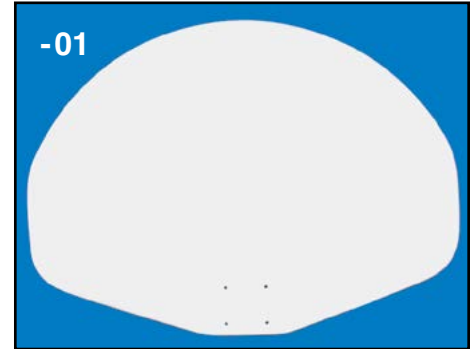

**Model -01-** Electrostatic White Powder Coat, as shown. 115 lbs.

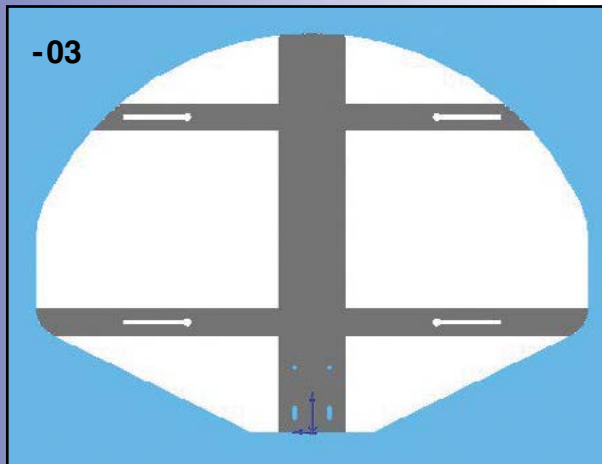

**Model -02-** Hot Dipped Galvanized version. 115 lbs.

One piece, solid 1/4" thick mill flat steel, A36 steel, roller leveled after plasma cutting, with 2 welded 1" X 2-1/4" brace attachment flanges. Front mount 5" X 5" goal mounting pattern. 54" x 35"

**LIFETIME LIMITED WARRANTY**

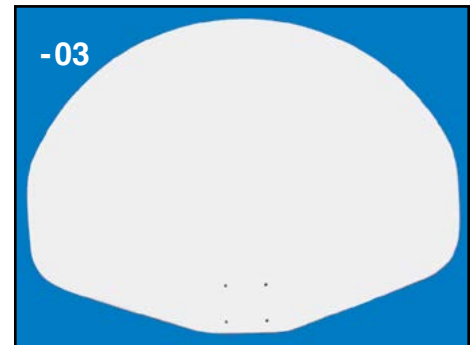

## MODEL -03 13 GAUGE STEEL

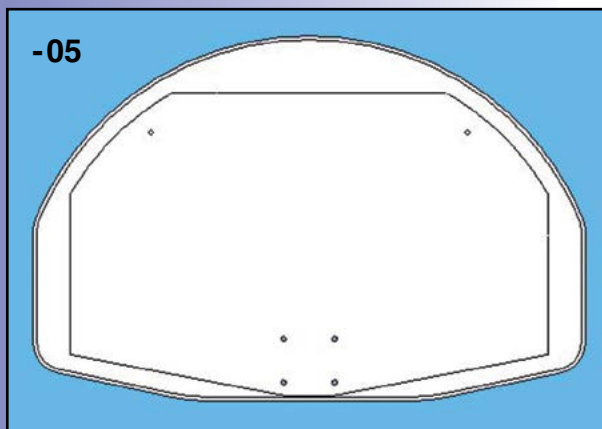

**Model -03-** White Powder Coat Fan. 80 lbs.

Formed from a single sheet of 13 gauge steel with 1-3/8" flanged edges. Reinforced with 12 gauge and 10 gauge vertical and horizontal channels for vibration-free action and a vertical strongback channel reinforcement that strengthens the critical rim area. Specially designed bolt keeper "keyway" system which allows for easy installation. Front mount 5" x 5" goal mounting pattern. 54" x 36"

**LIFETIME LIMITED WARRANTY**

## MODEL -04 AND -05 FIBERGLASS

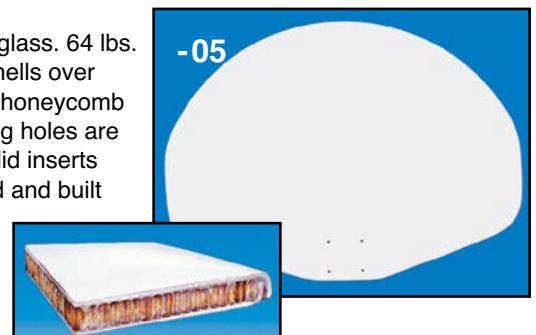

**Model -04-** Standard Fiberglass. 61 lbs.

Single 3/16" shell over 5/8" striated O.S.B. core. The back is then sprayed over with our special mix of resin and fiberglass to seal unit. 54" x 39"

**Model -05-** Deluxe Fiberglass. 64 lbs.

Opposing 3/16" sealed shells over resin impregnated 1-1/8" honeycomb core. All goal rim fastening holes are made through custom solid inserts (1-1/8" thick) pre-installed and built into the honeycomb.

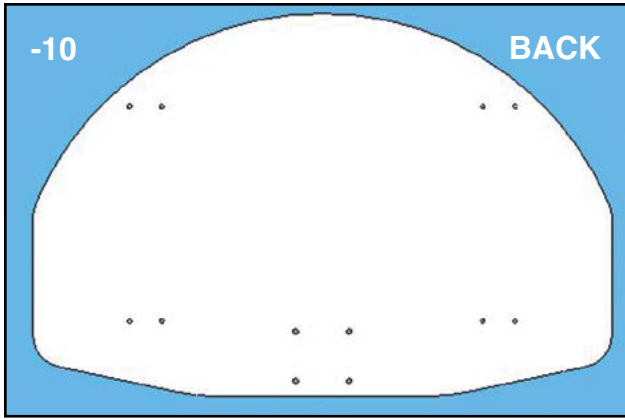

These backboards are designed for outdoor exposure and will not be affected by moisture.

**LIFETIME LIMITED WARRANTY**

THE -05 BACKBOARD RESIN IMPREGNATED 1-1/8" HONEYCOMB CORE LASTS A LIFETIME!

## MODEL -10, -11 AND -11X ALUMINUM

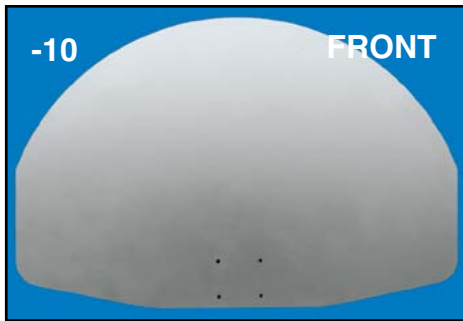

**Model -10-** Satin Finish, as shown. 72 lbs.

Permanent mold casting guarantees consistent quality. 12 board mounting holes are reinforced with cast in threaded steel inserts. Extra heavy reinforcing ribs. 12 mounting holes allow board to be mounted on many types of systems: Direct mount, retrofit to existing center or dual post systems. 36-1/2" x 54"

**Model -11-** Electrostatically Powder Coated White. 72 lbs.

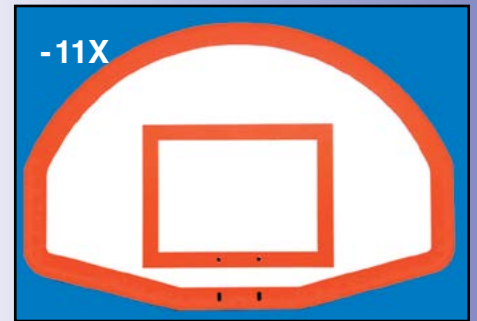

Solid one piece cast aluminum with 1-1/2" flanged edges and extra-heavy duty ribbing. 12 mounting holes with cast-in threaded inserts accommodate a variety of mounting systems. 54" x 36".

**LIFETIME LIMITED WARRANTY**

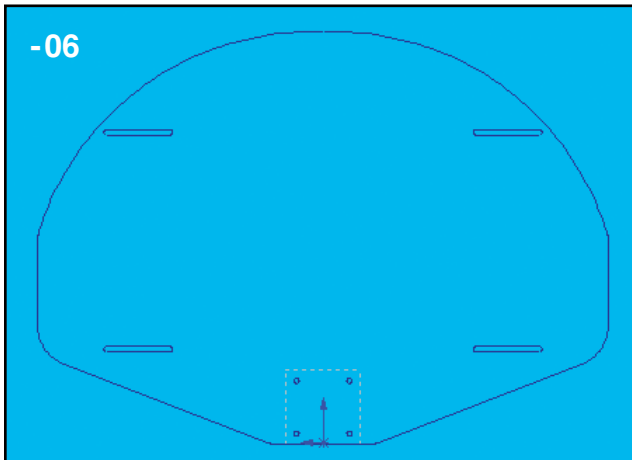

**Model -11X-** Model -11 with Orange Target and Border. 72 lbs.

**LIFETIME LIMITED WARRANTY**

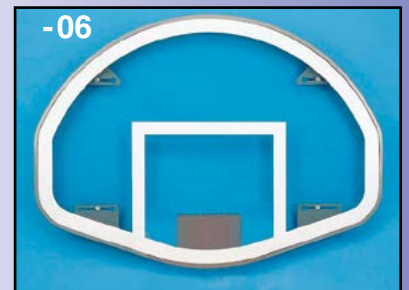

## MODEL -06 TEMPERED GLASS

**Model -06-** Tempered Glass. 125 lbs.

Institutional quality glass backboard. These glass boards have NCAA compliant rim-restrainers plus target and borders fire etched into the glass. Maintenance free brushed aluminum frame. 1/2" glass thickness. 5" x 5" goal rim mounting pattern. 54" x 39"

**TEN YEAR WARRANTY**

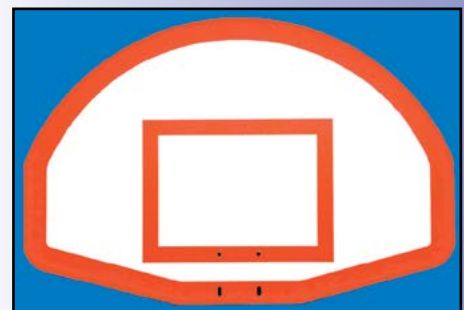

**NOTE: We do not encourage using fixed rims on glass backboards. We recommend Goal Rim: Collegiate 2K.**

## ORANGE TARGETS AND BORDERS

For Fan and Rectangular Boards. Black targets and borders available for international regulations.

# Rectangle Shaped Backboards

**Our backboard hole pattern fits all of our goal rings!**

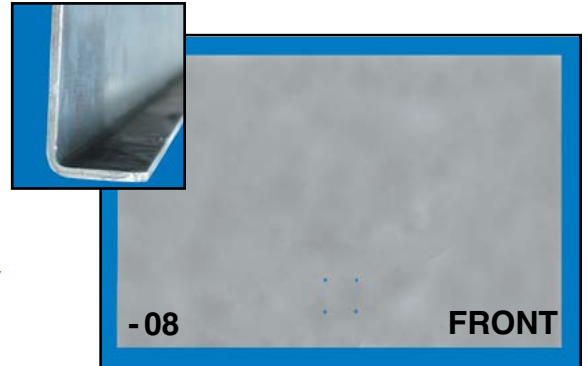

## MODEL -07 AND -08 STEEL PLATE

**Model -07-** Electrostatic White Powder Coat. 275 lbs.

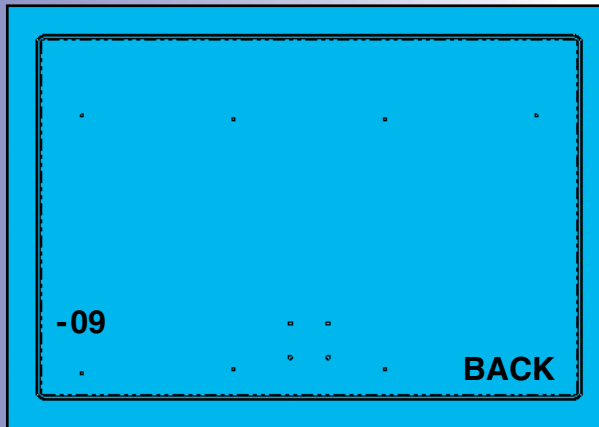

**Model -08-** Hot Dipped Galvanized, as shown. 275 lbs.  
**SPECIAL ORDER ONLY**

Made from A-36, 1/4" mill flat steel plate, roller leveled after cutting. 2-1/2" flanged top and bottom edge adds strength and reduces warpage. 48" x 72"

**LIFETIME  
LIMITED  
WARRANTY**

## MODEL -09 AND -09X FIBERGLASS

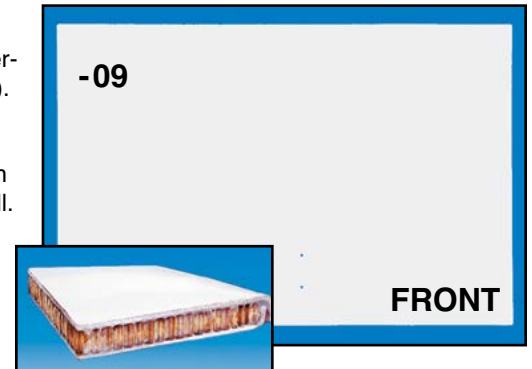

**Model -09-** Deluxe Fiberglass (standard size). 90 lbs.

Double 3/16" shell over resin treated honeycomb core. All goal rim fastening holes are made through custom solid inserts (1-18" thick) pre-installed and built into the honeycomb. All components are bonded together at the same time to form a unitized construction. These backboards are designed for outdoor exposure and will not be affected by moisture. White Gel Coat Finish. 48" x 72".

**Model -09X-** Deluxe Fiberglass Shortboard (NCAA). 90 lbs.

NCAA recommended with our exclusive double shell. 42" x 72"

**LIFETIME  
LIMITED  
WARRANTY**

**THE -09 BACKBOARD RESIN IMPREGNATED 1 1/8" HONEYCOMB CORE LASTS A LIFETIME!**

## MODEL -12P PERFORATED STEEL

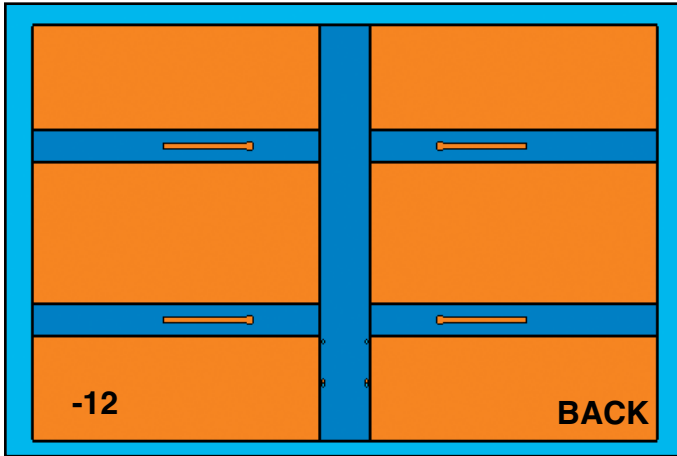

**Model -12P-** Perforated Steel. 170 lbs.

Rugged 11 gauge steel face has 1/4" diameter perforations to provide an open area to minimize windresistance. Rear support frame allows for multiple mounting conversions. Durable white powder coated finish with a silk screened orange target and border. 5" x 5" goal mounting pattern. Goal ring and net not included. 42" x 72".

## MODEL -12 12 GAUGE STEEL

**Model -12-** White Powder Coat Rectangle. 147 lbs.

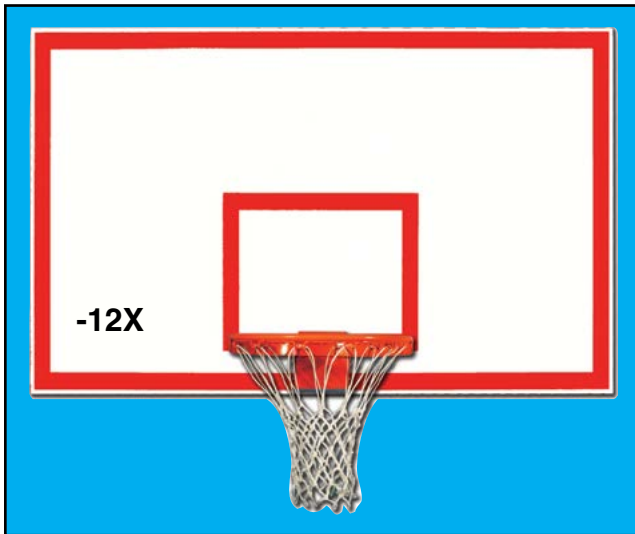

Formed from a single sheet of 12 gauge steel with 1-1/2" flanged edges. Lighter weight and less expensive than our Steel Plate Boards. All 4 edges are drawn back to increase strength. Vertical and horizontal reinforcement channels make for a rigid, durable board with reduced vibration and noise.

12 & 10 gauge vertical & horizontal reinforcing channels make a vibrations free unit.  
48" x 72"

**LIFETIME  
LIMITED  
WARRANTY**

## MODEL -12X 12 GAUGE STEEL - SHORTBOARD

**Model -12X-** White Powder Coat Rectangle. 131 lbs.

Same as Model -12 but 42" x 72"

**TEN YEAR  
WARRANTY**

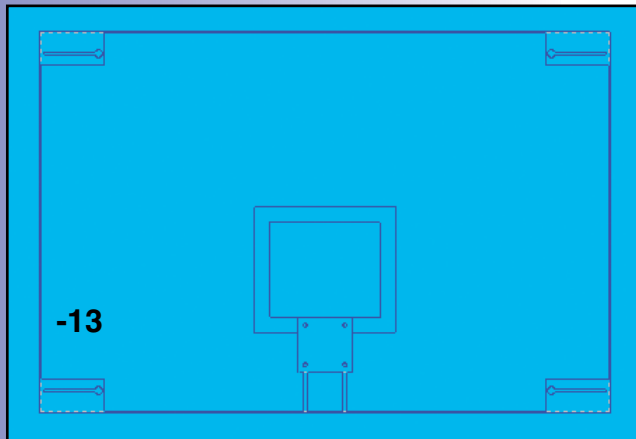

## ORANGE TARGETS AND BORDERS

For Fan and Rectangular Boards. Black targets and borders available for international regulations. Replacement Shooter's Square for existing backboards. Ready to apply without messy adhesive or paint. Official size. Utilizes H-D self adhesive vinyl used for exterior automotive detailing. Installs in about 5 minutes- instructions and applicator included.

# Endurance Playground Basketball System

Developed for hard-hitting, demanding players. Designed after months of rigorous testing by our team of engineers to match those players strength and stamina. 6" x 6" x 1/4" thick schedule 40 square steel upright post. Exclusive heavy-duty triangular extension arm (4', 5' or 6' available). Protected by galvanizing the post, extension arm and braces first, then baking on a black powder coat finish for a longer life.

Available with our new model 12X steel backboard with target and border and with our UPGN (Ultimate Playground Goal Rim and Net) or also available with our new acrylic backboards with a breakaway goal rim and net.

**LIMITED LIFETIME  
WARRANTY ON POST,  
EXTENSION ARM AND  
BRACING COMPONENTS**

**Shown with optional backboard  
and post padding.**

# Goal Rims With Nets

ALL L.A. STEELCRAFT GOAL RIMS ARE MADE IN THE U.S.A. OF THE FINEST MATERIALS. THE RANGE OF TYPES SHOWN COVERS EVERY APPLICATION AND SITE WE'VE SEEN IN 58 YEARS OF MANUFACTURING BASKETBALL SYSTEMS. ALL GOAL RIMS INCLUDE NETS.

### MODEL HD-600

High alloy carbon steel 5/8" diam. rim. Consistently true rebounds. Broader bar/rim weld contact, adds durability. 1/2" diam. bracer bars add strength. Goal rim will withstand 800 lbs. before sustaining permanent bend. Universal mounting pattern. Uses nylon net. 18 lbs.

### MODEL 600-N

This rugged double goal rim uses two 5/8" cold roll steel rings welded together and double braced with 1/2" and 5/16" Bracer Bars for extra rigidity. Nylon Net slips easily over 12 "net ties". Goal rim will withstand 800 lbs. before sustaining permanent bend. Universal mounting pattern. 20 lbs.

### MODEL TITAN 775

### MODEL TITAN 775-C (with chain net) not shown

Originally designed for New York Park & Rec. Handles static load of 1000 lbs. 2 steel rims 3/4" and 1/2" with a 3/16" wing plate. 5/8" braces and 8" x 7" backplate reinforced with 1-1/2" plate. Powder coated official orange enamel. Comes with nylon net or chain net and mounting hardware.  
25 lbs.- TITAN 775  
27 lbs.- TITAN 775-C

## LIFETIME WARRANTY

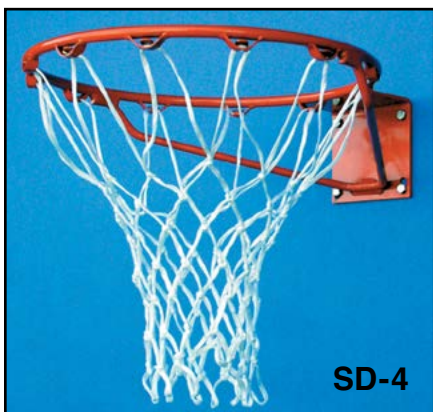

### MODEL COLLEGIATE 2K

Most popular break-away on the market. Damper prevents fly-back. Positive lock, continuous no-tie rim. NCAA and high school specifications. Use on backboards with 5" x 5" mounting holes. Nylon Net. 27 lbs.

### MODEL 600 DOUBLE GOAL RIM

Two 5/8" cold roll steel rims accommodate "s" hooks for a steel chain net. Double braced for extra rigidity. Chain net is especially designed for use with double-ring goal. Goal rim withstands 800 lbs. Universal mounting pattern. 20 lbs.

### MODEL SD-4 ROUGHNECK GORILLA

For heavy use courts. Single 5/8" rim with 1/2" alloy steel bracer bars and special "T" ties. Ring will withstand over 1400 lbs. of force before bending. Double ring available. Net ties take over 2000 lbs. of force before breaking. Long lasting baked on powder coat finish. The #1 choice of prisons and extreme high use courts throughout the country. Comes with heavy duty nylon net and zinc mounting hardware.

SD-4S Single Roughneck Gorilla - 17 lbs.

SD-4D Double Roughneck Gorilla II - 21 lbs.

### LIFETIME LIMITED WARRANTY

### MODEL UPGN

With unconditional lifetime replacement warranty. Double 5/8", solid rim design. 3/16" x 1" "No Fail" net locks add strength and eliminates netlock breakage. 3/16" Thick "Box" design back-plate and rim supports. Durable baked-on powder coated finish. Nylon or chain net available on this model. Add N for nylon or C for chain to model number when ordering.

UPGN - 27 lbs.

UPGC - 34 lbs.

### REMOVABLE GOAL RIM BRACKET

Guard against unauthorized use or theft of goal rims. Remove the goal when finished playing. Goal back plate slides tightly into universal adapter plate. Universal hole pattern will bolt to most backboards. Works with most front mount goals with 5" to 7" back plates. Not for use with goals with mechanism housing. Heavy gauge steel with welded flange. Orange powder coated finish. The GSUAP has a quick removal goal adapter and weighs 6 lbs.

## GOAL RIM NETS

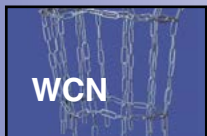

Nylon nets are easy to replace and very resilient. Nylon nets come standard with most of our goal rims. See pages 12-13 for all of our goal rim models. Chain net is especially designed for double-rim goals. Our TITAN775 and Model 600 goal rim works well with chain nets. Indoor/Outdoor Zinc coated regulation size 13 gauge steel chain net. Will not stretch, shrink or tangle. Attaches with provided "S" hooks.

**GAW:** The GAW Anti-Whip basketball net is the net of choice for professional play. 120 count nylon hourglass design. Stiffened upper loops help keep net from whipping up.

**WN:** The WN Nylon Web Playground Basketball Net offers a safer alternative to chain nets or playgrounds. Nylon web design. Fits all 12 loops, not the goals. Won't rot or decay. Includes "S" hooks for rim attachment.

**WCN:** Welded steel chain net for double ring goal rims only.

Model	Description	Weight
BCN -12	Chain Net	1-1/2 lbs.
BNN -120	Nylon Net	8 oz.
GAW	120 Count Nylon	1 lb.
WN	Nylon Web Design	3 lbs.
WCN	Welded Steel Chain Net	1 lbs.

## Basketball Extensions

### EXTENSIONS ONLY FOR EXISTING BASKETBALL POST

Extensions are 3', 4', or 6' offset from post. ZE Extensions are for FAN boards and have 2 braces. RZE Extension are for Rectangle boards and have 4 or 5 braces depending on backboard. Curved Posts are one piece and do not require extensions. Wall mount extensions are also available. Wall mount channels are: 5" x 1-3/4" x .190". Extension pipes are 2-3/8" OD galvanized. Braces are 1" OD galvanized pipe. **Extension length measured from front of face plate to facing edge of post.**

# Junior Backstops

## JUNIOR SIZED BASEBALL BACKSTOPS

Great for softball or where space is limited. These heavy-duty backstops are available with or without Hoods, in portable or direct bury types. One is permanently installed in concrete footings, the other is freestanding and portable. Backstops are furnished complete with all parts necessary for assembly. No field welding needed.

The hood corners are pre-fabricated and wired at the factory, on 810 models with hoods.

	810J-3S	810JH-4S	810KD	810JH-4C	1024KD	1024-4C

Weight	680 lbs.	1000 lbs.	575 lbs.	855 lbs.	575 lbs.	1115 lbs.

Model 1024-4C requires corner fabrication, similar to Full Size Backstops.

## WHEEL ASSEMBLY

Our 810J-3S and 810JH-4S can be fitted with wheels for easy adjustments and movement. The wheel assembly slips easily onto the front uprights and the pneumatic tires roll across grass with minimum impact. The backstop's bottom frame is extended to provide a place for a hand transporter or manual move.

For backstop anchors and transporter see page ?

We suggest ordering with Portable Backstop.

Model	Weight
BB-WA	30 lbs.

# Baseball Racks

**POWDER COAT OPTION AVAILABLE ON POSTS-SEE PAGE 88**

## BATTING HELMET RACK

Dugout space saving Helmet Rack is made of 2" x 2" square structural steel upright with 12 each formed 3/8" hot rolled steel helmet holders, welded to upright and hot dipped galvanized finish. Approx. 72" high x 18" wide x 12" deep. SM = Surface Mount model.

Model	Description	Weight
BHT-12	18" W x 72" H	25 lbs.
BHT-12-SM	18" W x 72" H	30 lbs.

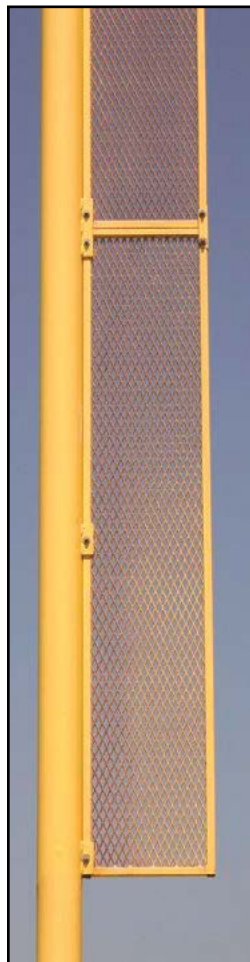

## BAT RACKS

All galvanized steel welded unit with cold galvanizing compound treated welds. Approx. 20" high by 6" deep. Powder coating available at additional cost. SM = Surface Mount model.

Model	Description	Weight
BR-15	Galv. holds 15	140 lbs.
BR-8	Galv. holds 8	75 lbs.
BR-15SM	Galv. holds 15	140 lbs.
BR-8SM	Galv. holds 8	75 lbs.

## Baseline Foul/Fair Poles

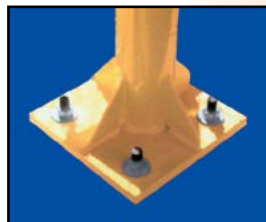

### SLEEK CONTINUOUS LOOK.

A steel foul line pole available in three heights, with frames of 1" tubing and wing panels filled with 3/4"-9 gauge expanded metal. The entire unit is sandblasted then electrostatically powder coated yellow. Exclusive continuous outside diameter, non-stepped pole.

Can be installed In Ground, or Surface Mounted (see models below ending with SM). **SOLD IN PAIRS.**

**FLP model Foul Poles bottom starts 8 ft. above grade. All measurements are "above grade". CUSTOM DESIGNED FOUL POLES AVAILABLE WITH OR WITHOUT WINGS.**

FPS-N	6' x 7'	50 lbs.

Galvanized steel pipe, 2" mesh 11 gauge H.D.G. = (M) or 2" Knotted Latex Netting = (N).

# Baseball Netting

## BACKSTOP BASEBALL NETTING

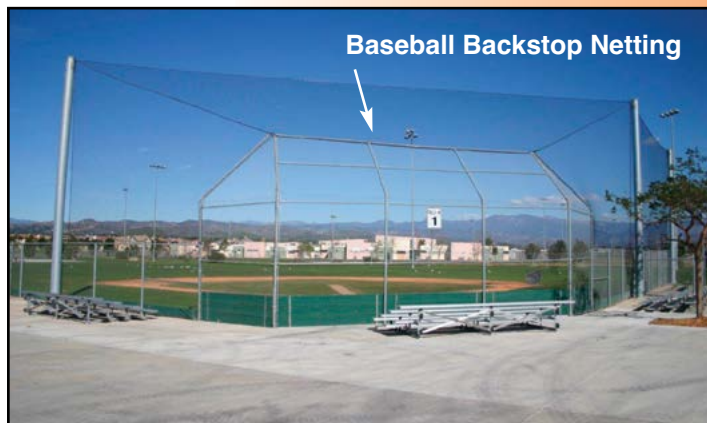

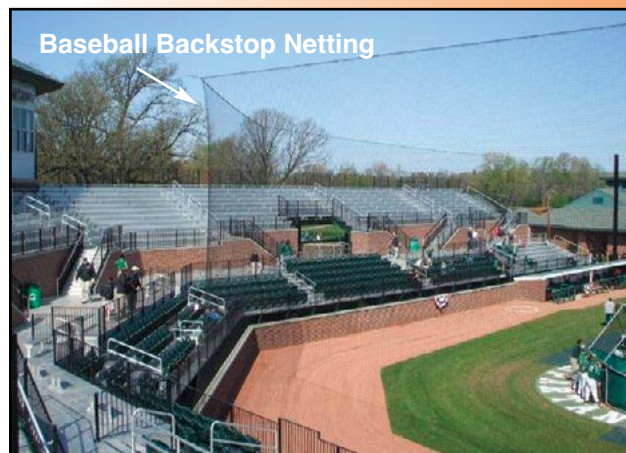

We are proud to provide quality baseball and softball netting, canopy netting and dugout netting used for professional, collegiate, municipal and local stadiums.

Our protective netting is manufactured using polyester, which is stronger, more abrasion resistant and UV-resistant than nylon netting. Polyester netting is an ideal material for outdoor use and provides long lasting performance. We manufacture 5 different knotted netting sizes (thicknesses) in our standard 1-3/4" mesh, ranging from light duty to heavy duty netting. Framing and hardware is also available.

We offer custom sizes and configurations to fit your field and facility. We also offer installations of cable suspended backstops systems to ensure maximum protection for your ball field.

Our baseball netting is manufactured in the USA and offers a low cost, high quality product for your facility.

Call us and we can help you with designing, manufacturing and installation of any special baseball project that you want to complete.

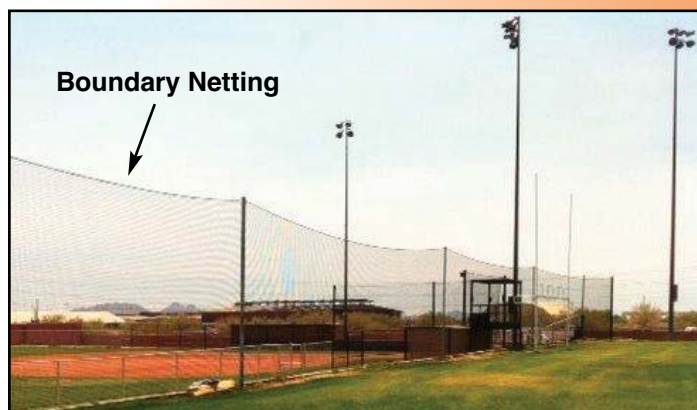

## PROTECTIVE BARRIER NETTING

Often sports fields are situated close to locations such as parking lots, roadways and housing where ball containment is desirable and also necessary for safety.

Our barrier netting (available for all sports and various sizes) can help provide spectator safety, personnel, property and injury protection at a cost effective solution for all type of sporting and recreational areas.

Our custom barriers nets are built with top quality materials in the USA and can be crafted with accessories including posts and hardware. We can also offer installation services. Please contact us with your requirements.

# Dugout Seating

Aluminum planking end caps used for seat benches are 2" x 12" (9-1/2" x 1-3/4" ) extruded aluminum alloy 6063T6 with a clear anodized finish as per AA-M10L22A31 Class II (204R1) 0.4 mil minimum thickness to resist corrosion and stains. The aluminum planks weighs 1.98 pounds per foot and come with end caps.

## PLANK PLAYER/LOCKER ROOM BENCH

Perfect for dugouts, locker rooms or sidelines. Surface Mount or In Ground install available. All Galvanized Frames. Add SM to model number for surface mount option.

## FOOTBALL GOAL POSTS (PAIRS)

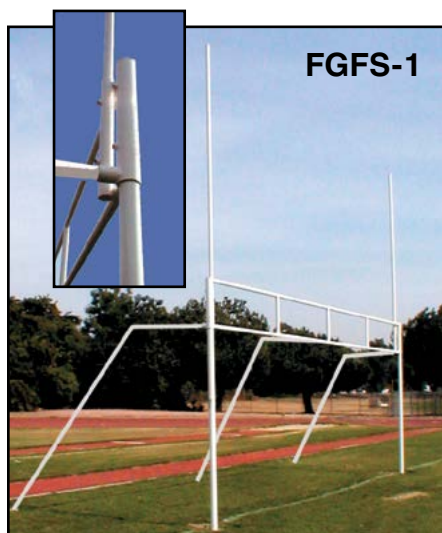

NCAA official and national rules compliant. We offer four models each for college or high school. Goals feature: A single bent center post with a welded steel lift ring formed from standard wall galvanized pipe; A cross beam of 5" OD tube; and the 20 foot uprights are 2-3/8" OD pipe. **Installs in provided adjustable centering ground sleeves.** The uprights and the cross arm are capped to protect against corrosive elements. Center posts extend 4', 5' or 6' with radius bend. 30' uprights also available at additional cost.

Specify if goal is for high school or college with model numbers ending in **HS for High School - C for College.**

Priced in pairs (two goals). Includes 2 Self-Centering Ground Sleeves, without caps.

## Net Game Posts

Our **COMBINATION NET POSTS** are fabricated from galvanized pipe **complete with moveable fittings**. Post sizes 2-3/8" OD to 4-1/2" OD. All models adapt to volleyball or badminton, with top and bottom cable or rope tie downs at regulation heights. Sold in pairs (except center posts).

These virtually indestructible combination net posts easily and quickly convert from volleyball to badminton by loosening the hardware and sliding them to any height or position, then re-tightening. Posts can be installed in any surface including sand.

**Sand installation requires you to extend posts, see information on page 34 and in price list.**

*Powder Coat finish available on all posts at additional cost.*

## WIMBLEDON SERIES - PREMIER TENNIS POSTS

Our **WIMBLEDON SERIES** features sleek steel posts coated with green or black acrylic urethane. The chrome and stainless steel winding mechanisms utilizes a rust-resistant internal worm-gear winder that is jam-resistant and self-locking to prevent recoil during tightening. The handle is removable and the net lacing rods are welded to the posts. Complete with Special Ground-Sleeves and Center Net Anchor. Available in Black or Green.

Model	Description	Weight
CTR-3	3" OD x 11 GA.	63 lbs.
ATA-3W	3" x 3" x 3/16"	68 lbs.

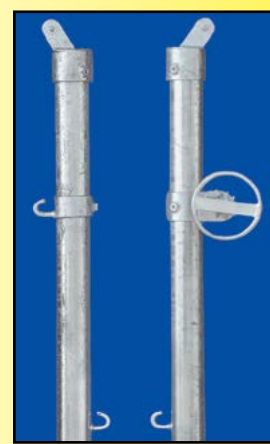

## TENNIS POSTS

Galvanized posts supplied with heavy duty hardware. Sold in pairs. Powder coating available for an additional fee.

NOTE: Models come with net anchors, but without center tie down straps or sleeves (sold separately).

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

Model TP4S (not shown) Post set for use with steel nets. Neatly capped and predrilled to receive steel net draw bolts. (Bolts come with NTS steel nets.) Galvanized. For use only with NTS nets seen on page 39.

Model	Post Size	Weight
TP3-ZT	3-1/2" OD	106 lbs.
TP4-ZT	4-1/2" OD	180 lbs.
TP3-2ZT	3-1/2" OD	117 lbs.
TP4-2ZT	4-1/2" OD	180 lbs.
TP3-ZS	3-1/2" OD	111 lbs.
TP4-ZS	4-1/2" OD	178 lbs.
TP4S (For Steel Nets)	4-1/2" OD	138 lbs.

## PRO-QUALITY TAMPER PROOF TENNIS SYSTEM

Pro-quality tennis system includes posts, tensioning hardware, nets-NT-42W, adjustable filler-panels, and features a unique net-tightener that is fully enclosed to prevent tampering or vandalism. Our exclusive "NET-GUARD" Adjuster is the heart of this system. The mechanism is completely enclosed and permits positive net tightening that absolutely will not slip. There are no protruding pulleys or wheels. The ratchet action adjuster is accessible only to authorized personnel.

Posts and tightener are galvanized, but available in blue or green powder coat for additional fee.

NT-42-W Net is 3 mm braided black polyethylene cord, 285 lb. break strength with vinyl covered aircraft top cable rated 3000 lbs. tensile strength.

BBC-15	15' L	Galvanized	100 lbs.
BBC-30Z	30' L	Powder Coat	201 lbs.
TC-AJB	15' L	Powder Coat	250 lbs.
BBT-10Z	10' L	Powder Coat	67 lbs.
BBC-15P	15' L	Powder Coat	125 lbs.

Portable Balance Beam Model BBC-15P(Not Shown): 15' L, 3" W steel channel beam. Supported 12" above ground by three 2-3/8" OD steel pipe portable uprights. Powder Coated with non-skid beam surface.

## STRETCHING EQUIPMENT

L.A. Steelcraft offers a series of events to build muscle and flexibility. These items are special order and are not shown in this catalog. They all come galvanized or with a powder coat finish.

Model	Description	Weight
LSS-4	Leg Stretch Station	85 lbs.
SJT-8	Standing Jump Touch	140 lbs.
LL-2	Leg Lift	84 lbs.

# Fitness Courses

## POLICE/MILITARY ACADEMY TRAINING FITNESS & OBSTACLE COURSES

Over the 64 years LA Steelcraft has worked to develop various pieces of physical fitness apparatuses that have been used for a full range of police, military and school obstacle courses. We designed and built the Los Angeles Police Department S.W.A.T. Team obstacle course. LA Steelcraft has worked in conjunction with various high school academy personnel to design courses.

We also have two options for the Thoreson Fitness Course (150 & 75 meters), which were designed for elementary schools and high schools, with educator and world record holder in the decathlon, Dave Thoreson. These courses were designed to develop complete physical fitness and mental stamina, advance self-awareness and increases self-esteem. Or, you can create your own obstacle course by selecting any of the obstacles in this section, to put together a custom course for your specific requirements. Please contact us for more information and details about our Thoreson Fitness Courses.

## COMBINATION CLIMBERS

This main event comes with your choice of poles or ropes. Incline ladder and horizontal ladder with four each attached horizontal bar workout stations. 11'-6" high rope/pole climb in combinations of 2 or 4. 6' or 8' high ladder, with 2 chinning bars per side. Ladder unit in 20' or 30' lengths.

Replacement parts are listed below..

Model	Description	Size	Weight
TFG-S-20/2	2 rope/ pole climber	20' L	675 lbs.
TFG-S-30/2	2 rope/pole climber	30' L	900 lbs.
TFG-D-20/4	4 rope/pole climber	20' L	1,250 lbs.
TFG-D-30/4	4 rope/pole climber	30' L	1,700 lbs.

## “MUSCLE BEACH” TRAVEL RINGS

The LA Steelcraft Travel Rings, featured on many YouTube videos and TV programs, are one of the main attractions at the historic Muscle Beach in Venice Beach/Santa Monica. Our “Muscle Beach” Travel Ring apparatus is based on LA Steelcraft’s standard physical fitness items manufactured out of galvanized pipe.

Available in 2 standard styles(Doomed & Gabled) and heights and lengths to suit your particular needs.

Site specific, call for more information.

### VAULT WALLS

Steel reinforced thermo plastic roto-molded vault walls, 8' wide. Available in 4', 5' and 6' heights for added difficulty. Wall sections (tongue and groove) are slid together (2 sections make up 1 wall). Red/Green directional labels included.

Model	Description	Size	Weight
VW4	4' Vault Wall	8' W x 4' H	255 lbs.
VW5	5' Vault Wall	8' W x 5' H	295 lbs.
VW6	6' Vault Wall	8' W x 6' H	315 lbs.

### BALANCE BEAMS

We offer several lengths and styles of balance beams. Available in 10', 15' and 30' lengths. Straight and Z-shaped formations. Powder coated or galvanized steel. Top sand strip for traction. Most models set at 12" above grade.

Model	Description	Size	Weight
TC-AJB	Standard Balance Beam	4" x 4" x 15' L	250 lbs.
AJB-21	Standard Balance Beam	4" x 4" x 21' L	350 lbs.
BBC-15	Steel Balance Beam	3" x 3" x 15' L	100 lbs.
BBC-30Z	Z-Shaped Beam	4" x 4" x 30' L	201 lbs.
BBT-10Z	Z-Shaped Beam	4" x 4" x 10' L	67 lbs.
PBB-10	Junior Balance Beam	3" x 4" x 10' L	90 lbs.

For additional photos of other Balance Beam models, see page 42.

### CARGO CLIMBERS

Cargo Chain Net Climber- A chain link Cargo Net 8' H x 6' W, fabricated from 3-1/2" OD uprights and top horizontal top bar, galvanized proof coil chain with graphitic steel post fitting.

Chain Link Climbing Fence- 6'-3" H x 8' W, fabricated from 3 1/2" OD uprights, 2-3/8" OD horizontal rails (top and bottom), 2" mesh x 9 gage galvanized chain link with knuckle/knuckle salvage.

Model	Description	Size	Weight
CCN	Cargo Climber w/ Chain Net	8' H x 6' W	250 lbs.
CCF	Climber w/ Chain Link Fence	6'-3" H x 8' W	225 lbs.

### ZIG ZAG RUN

Incorporates Balance Beam and Slalom Posts with sharp cut-back and leap maneuvers.

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

Model	Description	Size	Weight
ZZR-1	Zig Zag Run w/ 3 Slalom	15' L	400 lbs.
ZZR-2	Zig Zag Run w/ 5 Slalom	30' L	430 lbs.

**NOTE: YOU MAY WANT TO CONSIDER UTILIZING "PIT AREAS" WITH ENGINEERED WOOD FIBER TO BE USED UNDER/IN FRONT OF/BEHIND CERTAIN OBSTACLES AS A PROTECTIVE RESILIENT SURFACING.**

### TURNING BARS

Polyurethane powder coated steel. 1-7/8" OD or 2-3/8" OD uprights. 3', 4' or 5' high by 8' long.

Model	Description	Size	Weight
TB3-1	Turning Bar- 1-7/8" OD	3' H x 8' L	61 lbs.
TB4-1	Turning Bar- 1-7/8" OD	4' H x 8' L	71 lbs.
TB5-1	Turning Bar- 1-7/8" OD	5' H x 8' L	78 lbs.
TB3-2	Turning Bar- 2-3/8" OD	3' H x 8' L	80 lbs.
TB4-2	Turning Bar- 2-3/8" OD	4' H x 8' L	91 lbs.
TB5-2	Turning Bar- 2-3/8" OD	5' H x 8' L	99 lbs.

### PARALLEL BARS

We offer several lengths and heights of this classic obstacle. 3', 4' and 5'-6" heights and 8' and 10' lengths available. Powder coated or galvanized steel. Bars 1-7/8" OD, spaced 21" apart at top. Bars angled for leg movement. Add PC to any model to have powder coat added. Additional cost for powder coated models.

Model	Description	Size	Weight
PLB3/8	Parallel Bars	3' H x 8' L	122 lbs.
PLB4/8	Parallel Bars	4' H x 8' L	142 lbs.
PLB5/8	Parallel Bars	5'-6" H x 8' L	151 lbs.
PLB3/10	Parallel Bars	3' H x 10' L	128 lbs.
PLB4/10	Parallel Bars	4' H x 10' L	134 lbs.
PLB5/10	Parallel Bars	5'-6" H x 10' L	157 lbs.

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

### HURDLE JUMPS

These jumps are made of steel reinforced thermo plastic roto-molded, 24" high x 8' long. Excellent in sets of three for endurance training, spaced approx. 8' to 10' apart, as space permits. Jump sections (tongue & groove) are slid together ( 2 sections make-up 1 jump). Sold individually. Brown only.

Model	Description	Size	Weight
LJ	Hurdle Jump	34" H x 8' L	100 lbs.

### DECLINE LADDER AND CLIMBER

This event builds upper arm strength. Available in swinging ring or fixed bar models. Declines from a height of 8' to 7' . 9 hand loops, 2-7/8" OD uprights and header, with 1-3/8" OD ladder start step on IL models. Approx. 8' H x 11' L x 2'x6" W with powder coat finish.

Model	Description	Size	Weight
DHRC	Declining Ring Climber	8' H x 11' L	330 lbs.
IL-9	Incline Ladder- 9 Ring	8' H x 11' L	280 lbs.
IL-13	Incline Ladder- 13 Ring	8' H x 13' L	310 lbs.
SL-09	Serpentine Loop- 9 Ring	8' H x 11' L	280 lbs.
SL-13	Serpentine Loop- 13 Ring	8' H x 13' L	310 lbs.
DHRC-L	Leveled Ring Climber	8' H x 11' L	330 lbs.
IL-9-L	Leveled Ladder	8' H x 11' L	280 lbs.

LCB

### CRAWL UNDER BARS

Set of Crawl/Roll Under bars, totaling 2' H x 4' L x 8' W, fabricated from three each 1-5/8" OD formed steel posts and flat bar, spaced 24" apart and finished with a polyurethane powder coated finish. Also provided is a 6' long padding for the entrance header area.

Model	Description	Size	Weight
LCB	Crawl Under Bars	2' H x 4' L x 8' W	150 lbs.

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

### TIRE STATION

A wonderful event to include in a course. 5, 7 or 9 interlocking tire combinations. Tire sections with interior ground anchors. Length and width vary with number of recycled tires.

TS5

Model	Description	Size	Weight
TS5	Tire Station	5 Tires	200 lbs.
TS7	Tire Station	7 Tires	280 lbs.
TS9	Tire Station	9 Tires	360 lbs.

### SLALOM POSTS

Steel reinforced beige thermo plastic roto-molded Slalom Posts, 3' and 5' high. Designed for course marking and running obstacles. Steel post is inserted into roto-molded post and secured into place with supplied hardware.

TSP

Model	Description	Size	Weight
SSP	Short Slalom Post	3' H	20 lbs.
TSP	Tall Slalom Post	5' H	30 lbs.

### WINDOW WALLS

Window Wall, 8' H x 8' W, fabricated from steel and wood, with 1/2" M.D.O. Duraply exterior plywood surface. Window area opening to be 4' x 3' and have special padding around inside of opening. Painted finish to be done by others.

WWC

Model	Description	Size	Weight
WWC	Window Wall, Plywood	8' H x 8' W	550 lbs.

**NOTE: YOU MAY WANT TO CONSIDER UTILIZING "PIT AREAS" WITH ENGINEERED WOOD FIBER TO BE USED UNDER/IN FRONT OF/BEHIND CERTAIN OBSTACLES AS A PROTECTIVE RESILIENT SURFACING.**

# Playgrounds

## BALL WALLS

Precheck construction of Ball Walls pre-approved for safety of structural design and fire and life safety, for use on school grounds, by the state of California- Department of general Services- Division of the state architect under it's own PC number, in conjunction with Title 24, California code of regulations.

Sets of signed prints and building specifications are on file with the division of the state architect at their area offices in Los Angeles, Sacramento, San Diego & Oakland, California.

Support Posts- 4" square steel-tube, 3/8" wall thickness, extends 4' into 6' concrete footings.

Internal Frame- Horizontal steel studs 2" x 4" "C" channel, spaced 16" horizontally.

Weatherproof Panel Sheets- 1/2" M.D.O. plywood is permanently bonded with overlay of phenol-type resin impregnated fiber. This superior plywood forms a smooth playing surface on both sides of the wall.

Frame Capped- with galvanized sheet metal, sides and top, preventing moisture from penetrating wood.

Assembly- All parts are factory pre-cut. Installation instructions included to simplify assembly. Steel reinforcements for footings not included.

Painting not included. It is recommended that the owner apply one primer coat and two coats of outdoor enamel after the ball wall is installed.

**An appropriate fee is charged for calculations to be submitted to a regulatory agency for approval.**

Custom sizes available in 8' or 12' high by 8' multiple lengths.

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

Model	Description	Weight
BW24-12S	24'L x 12'H 4 supports	2,600 lbs.
BW16-12S	16'L x 12'H 3 supports	1,800 lbs.
BW16-8S	16'L x 8'H 3 supports	1,300 lbs.

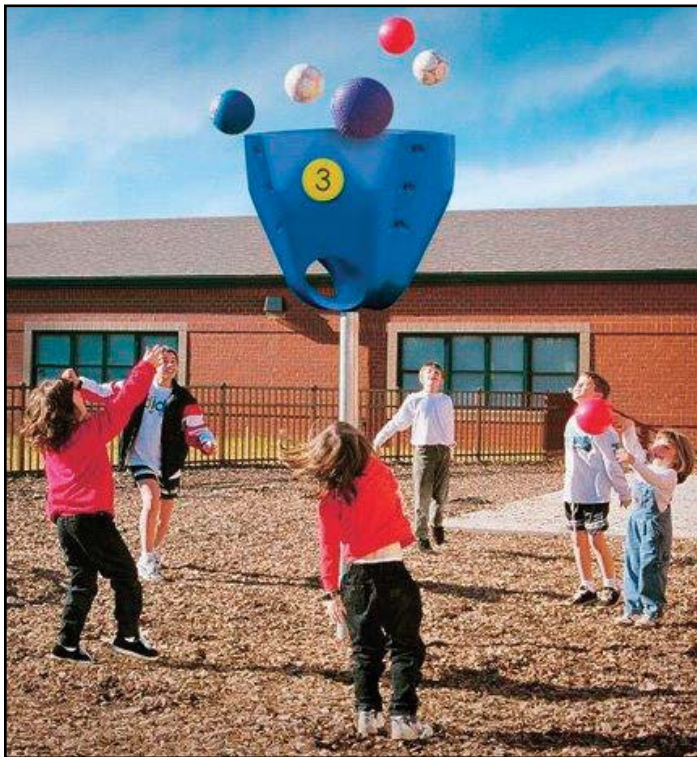

# Play Essentials

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

## FUNBALL

Funball is a unique way for children to develop hand-to-eye coordination while having fun. One piece Roto-Molded "Top Basket" with colorful molded-in colors and number graphics. 3 funnel openings with 12" OD exit holes accommodate most playground balls. Top basket can be set at 9' or lower on the 2-7/8" OD galvanized post. Post can be powder coated at an additional charge. Ships from North Carolina, 28117, class 250. 2-7/8 " OD E Sleeve included in FB-100S model.

Model	Weight
FB-100	61 lbs.
FB-100S	82 lbs.

## TETHERBALL

Our model TBPCB is a complete outfit: Post, red foul marker, cap, chain, swive snap, ball and rope. 2-3/8" OD post allows 10' from footing to rugged 3/8" eye bolt. Installation in concrete or optional sleeve. Galvanized steel proof coil chain is 38" long and fastened to the welded eye with heavy duty "S" hook. Heavy duty quick-snap allows for easy removal of ball. Post can be powder coated at an additional cost. Optional ground sleeve 238E included with model TBPCBS. Replacement parts available as per table below.

Model	Description	Weight
TBPCB	Post, cap, chain, snap and ball	48 lbs.
TBPC	Replacement Post, cap, chain, snap	47 lbs.
TBB	Replacement Ball with Rope	1-1/4 lbs.
TBCS	Replacement bolt, chain and snap	2 lbs.
TBPCBS	Tetherball Complete Set w/ E Sleeve (2-3/8" OD)	62 lbs.

## PEDESTAL SANDBOX

**Fiberglass top allows sand box to be used as a table!**

Our pedestal Sand Box allows all children to play in sand without tracking it back inside. It is made of 100% rotationally molded, industrial strength plastic and will not chip or crack. Includes custom tailored vinyl cover with velcro fasteners.

Pedestal base fills with water or sand to stabilize unit and help prevent tipping. Colors available: Green, Blue, and Beige.

**With Vinyl Cover**

**With Fiberglass Top**

Model	Description	Weight
SBX100	47-1/4" Diam. x 30" H	68 lbs.
SBX101	47-1/4" Diam. x 24" H	64 lbs.
SBX54F	54" Fiberglass Table Top (optional)	44 lbs.

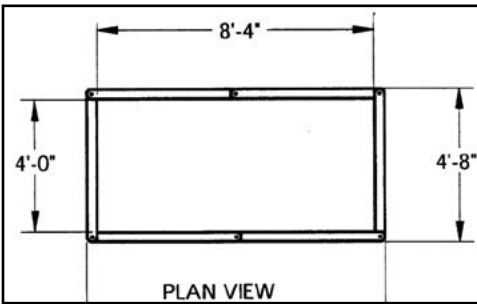

## CHILDREN'S TABLES

Along with our traditional tables set at junior height, L.A. Steelcraft now offers three new models designed just for children. For more details see Page 73. Ships from: IL., 62278

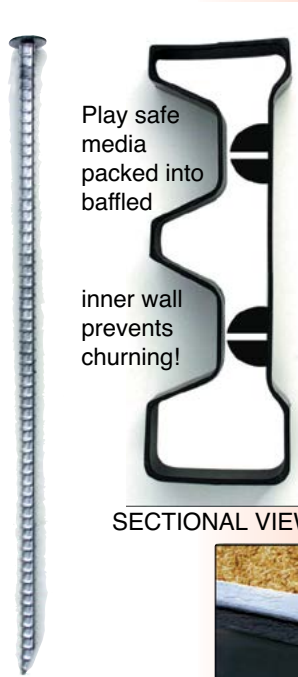

## PLAYCURB BORDERS

Note: Each dimension is increased by 4'-4" (52") for each length added in any direction.

Rotosteel Playcurb Border has been designed to contain wood chips, sand and other loose play-safe media. Our wall thickness and density is among the highest in the industry. Baffled inner-wall prevents wood fiber and other play-safe media from churning. UV-stabilized, will never fade or splinter. Held in place with a 3/4" x 30" galvanized steel stake with flush cap-included.  
**Model PCB4, 10 lbs. each, class 100**

## TRADITIONAL SLIDES

### Slide Chute

Surface is 16 gauge stainless steel type 304 and 2b finish w/ a 19-1/2" wide sliding surface. The side rails are fabricated from 4-1/2" x 1-1/2" 14 gauge welded seam tubing with ends capped, hot dipped galvanized after fabrication. The sliding surface is attached to the slide rails with welds and steel blind pop rivets every four inches. The exit region is sandwiched between the structural tube and a 3/16" thick x 3" wide x 23" long galvanized steel strip on the underside of the chute.

Model	Chute Height	Chute Length	Overall Length	Req'd Area	Weight
SL510RMH	5'	10'	13'	27' x 14'	400 lbs.
SL612RMH	6'	12'	15'	30' x 14'	480 lbs.
SL816RMH	8'	16'	20'	33' x 14'	575 lbs.
Replacement Hoods & Chutes					
SLHD	Hood with rail only- Indicate rail length				30 lbs.
SL510-SSC	-	10'	-	-	158 lbs.
SL612-SSC	-	12'	-	-	191 lbs.
SL816-SSC	-	16'	-	-	240 lbs.

# Climbers

## GEOCLIMBER

This lightweight climber is easy to install. Each piece is color coded and bolts together with standard tools. Our Button-Hub was designed for safety and strength. It has no sharp edges, is smooth and completely eliminates the possibility of entrapment of little arms and legs.

**ASTM Designation F-1487-9.2.1** The Use Zone for stationary play equipment shall not extend less than 72 in. (1830mm) from the perimeter of the play structure.

Model	Base Diam.	Dome Height	Use Zone Perimeter	Weight
BC-10-4	10'	4'	22'	215 lbs.
BC-12-5	12'	5'	24'	238 lbs.
BC-14-6	14'	6'	26'	288 lbs.

## CONICAL CLIMBER

The sloped sides of our *Conical Climber* makes climbing safer and offers more play area. Two sizes to meet the requirements of any age group.

	CB101B	CB301
Overall Height	10'	8'-4"
Diameter of Base	12'-2"	10'-8"
Sloping Side Height	6'-8"	5'-2"
Leg Size	1-5/16"	1-1/16"
Climbing Pole	1-1/16"	1-1/16"
Side Rungs	1-1/16"	1-1/16"
Use Zone Perimeter	24'-2"	22'-8"
Weight	370 lbs.	260 lbs.

## DOME CLIMBER

Our Dome Climbers come in various sizes and climbing pole configurations that build upperbody strength and agility.

KD= Knock Down, W= Welded, A= Assembled

All welded or assembled units for delivery/Will Call Only

Model	Ht.	Base Diam.	Climb Poles	Legs & Rungs	Rung Spacing	Use Zone Parameter	Weight
CD48	8'	6'	4	1-1/16"	20" x 26"	18' diam.	263 lbs.
CD47-KD	7'	4'	1	1-1/16"	15" x 24"	16' diam.	136 lbs.
CD47-W	7'	4'	1	1-1/16"	15" x 24"	16' diam.	156 lbs.
CD47-A	7'	4'	1	1-1/16"	15" x 24"	16' diam.	146 lbs.

COAT OPTION  
AVAILABLE ON  
POSTS - SEE  
PAGE 88**

## HORIZONTAL LADDER

Fun and body-building exercise. Heavy duty galvanized pipe. All rungs are 20" wide, welded 12" on centers. All models have two step rungs on the end ladders except Model 716 which has three.

Model	Height	Length	Rungs	Ladders & Rails	Required Area	Weight
716PW	7'-6"	16'	1-1/16" OD	2-3/8"	28' x 14'	310 lbs.
616PW	6'-6"	16'	1-1/16" OD	2-3/8"	28' x 14'	300 lbs.
612PW	6'-0"	12'	1-1/16" OD	2-3/8"	24' x 14'	260 lbs.
510EPW	5'-6"	10'	1-1/16" OD	1-7/8"	22' x 14'	183 lbs.
508PC	5'	8'	1-5/16" OD	2-3/8"	20' x 14'	275 lbs.

## RAINBOW ARCH

Rainbow Arch Climbers offer fun and exercise in various sizes.

\* Crossed arches, T-Shape.

Model	Ht.	Span	Width	Use Zone	Weight
CA48	4'	8'	2'	14' x 20'	115 lbs.
CA510	5'	10'	2'	14' x 20'	130 lbs.
CA613	6'	13'	2'	14' x 25'	187 lbs.
CA816	8'	16'	2'	14' x 28'	220 lbs.
CSA615	6'	15'	5'	17' x 27'	291 lbs.
*CDA620	6'	20'	15'	27' x 32'	516 lbs.

# Swings

**Swing Sets - strongest, safest materials available.**

All Headers and Legs are made of galvanized pipe and all fittings are hot dipped galvanized. Every swing comes with our 624-VB Seat, which has a vandal-proof stainless steel insert and heavy-duty rivets. All chains are hot dipped proof coil.

Specify galvanized or powder coat on order. For powder coat options see color page at back of catalog.

L.A Steelcraft swing set models are complete packages with all the accessories!

**POWDER COAT OPTION AVAILABLE ON POSTS - SEE PAGE 88**

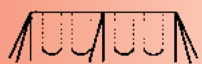

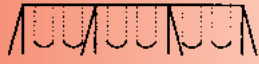

It is required that an acceptable impact absorbing surface pursuant to CPSC guidelines and ASTM standards be used under and around all playground equipment.

# Swing Accessories

**FULLY ENCLOSED INFANT SEAT W/ HEAVY DUTY RUST PROOF STAINLESS STEEL INSERT:**  
Vandal proof, 70 DURO EPDM rubber with .020 Stainless Steel insert, rust proof hardware.  
National Test Lab Results: 5000 lbs.

IS-100-B	Black	10 lbs.
IS-100-X	Blue	10 lbs.
IS-100-G	Green	10 lbs.

**COMMERCIAL POLYMER HALF BUCKET SEAT:**

Colors resist fading better than rubber, .020 one-piece stainless steel insert, tab and ring with safety chain.  
Galvanized triangle hardware.

34B-VB	Black	5 lbs.
34B-VX	Blue	5 lbs.
34B-VG	Green	5 lbs.

**VANDAL PROOF SWING SEAT W/ STEEL INSERT:**

Galvanized triangle hardware, 70 DURO EDPM rubber, with a .020 Stainless Steel insert to prevent vandalizing, and measures 6" x 24" x 5/16" thick. National Test Lab Results: 5573 lbs.

624-VB	Black	4.5 lbs.
624-VX	Blue	4.5 lbs.
624-VG	Green	4.5 lbs.

**NON-TILT SWING HANGERS:**

3/8" Galv. non-tilt hanger available only on the 624 and 34B series swing seats.  
Sold in pairs for one full seat. Not available as retrofit item.

**Must be ordered with seat.**

NTH	2 lbs.

*309-MB	Aluminum	Round	2 lbs.

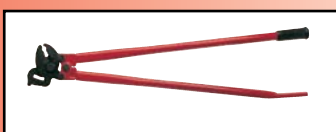

\*Note: Not for school use.

**ZINC PLATED STEEL "S" HOOKS:**

336A connects chain to swing hangers. 336B connects chain to swing seat. 336C connects to swing seat.

336A	3/8"	3 oz.
336B	5/16"	2 oz.
336C	3/8" x 4"	4 oz.

**S-HOOK PLIER & CHAIN CUTTER:**

Will close and open S-hooks and features a chain cutter for cutting up to 5/16" chains.

T-100	16 lbs.
-------	---------

**STAMPED GALVANIZED STEEL PIPE SWING HANGERS:**

Feature an "oil-lite" bronze bearing and axle bolts with lock tight nuts. Requires special allen wrench.

GH-20	2-3/8"	3 lbs.
GH-30	3-1/2"	4 lbs.
GH-45	4-1/2"	5 lbs.

**REPLACEMENT IRON PENDULUM:**

1" wide replacement pendulum with oil lite bronze bearing.

SPB	12 oz.
-----	--------

**REPLACEMENT SHACKLE:**

Saves the cost and hassle of installing an S-hook. Bolt ping has a tamper proof head.

SSB	1 lb.
-----	-------

**"S" HOOK REPLACEMENT - H172**

Double shackle with bolt.

H172	6 oz..
------	--------

**SWING SHACKLE - H170**

With bolt.

H170	4 oz..
------	--------

**REPLACEMENT SAFETY CHAIN:**

Covered with a plastic cover, has a snap hook and two S-hooks for fastening to half-bucket seats.

S-1	8 oz.
-----	-------

**COATED CHAIN:**

**CC8** 8-1/2 ft. chain with 4 ft. coated.

**CC5** 5-1/2ft. of 3/16" chain with 4 ft. coated.

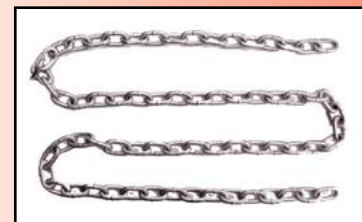

Colors: Red, Blue, Green and Yellow

CC5	spec. color	3 lbs.
CC8	spec. color	4 lbs.

**CHAIN:**

Straight Welded links, proof-coil, hot dipped galvanized.

333A	3/16"	8 oz./ft.
333B	5/16"	1 lb./ft.
333C	1/4"	11 oz./ft.

# Bleachers

BL0315SA

BL0515SA

## PORTABLE BLEACHERS

L.A. Steelcraft bleachers meet all current uniform building codes. Engineered to eliminate expensive aisles and hand rails. Individual galvanized steel frames are welded into one solid structure, then Hot Dipped Galvanized. Guardrails have a H.D.G. finish. All bolts, nuts and washers have anti-corrosion protection. All bleachers have 6" seat rise and 24" back spacing. First seat is 11-7/8" high. 5-row bleachers are provided with our vertical guardrail system. Our 3-row and 4-row bleachers do not require guardrails. Our 5-row Bleacher with Guardrail System utilizes a 12" nominal aluminum seat plank that qualifies as a step. Only the 5th row is above 30". The front row is 11-7/8" above grade. Footboards are 10" nominal aluminum plank.

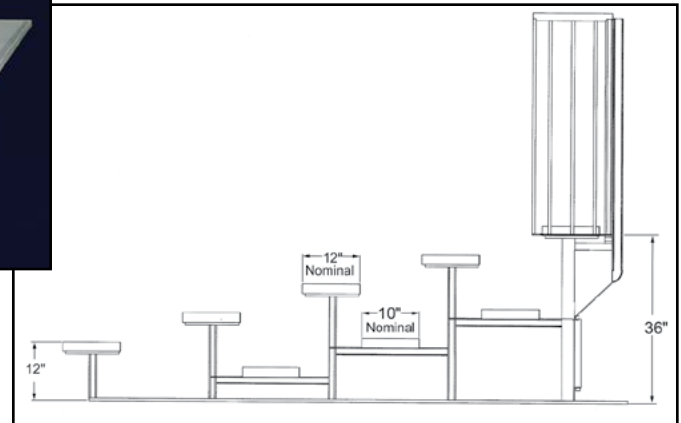

**Bleacher Transportation System available for these models on page 58.**

Model	Description	Weight
BT-PN500	Transport	100 lbs.

## CUSTOM SEATING

Our All Aluminum custom bleachers fit virtually any application. From unusual architectural designs that fit perfectly into unusual spaces, to stadium seating for thousands. We build the finest seating structures from the best materials. Elevated style bleacher and grandstands are available: Provided with front walkways, stair systems, ramps, handrails and special railing applications.

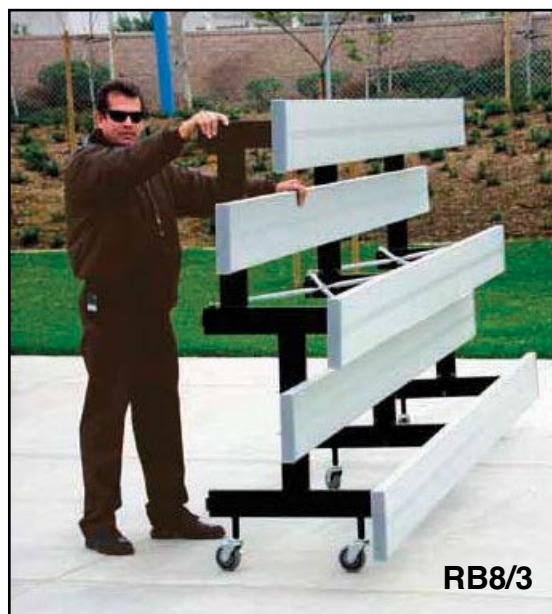

# Rolling Bleachers & Bleacher Accessories

## ROLL-A-BLEACHERS

Sturdy, lightweight L.A. Steelcraft Roll-A-Bleachers are equipped with anodized aluminum seats and footboards by rectangular STEEL TUBING finishes in black enamel. Available in 3 or 4 row configurations. First row is 11-7/8" from grade.

The 5" diameter non-marking, rubber wheels with ball bearing swivel casters make them extremely easy to move. Bottom casters lock for safety. Frames can be powder coated in school colors for additional fee. Guardrail systems not required on these 3 and 4 row models.

Rows	Model	Length	Seat'g Space	Depth	Height	Weight

CAP10

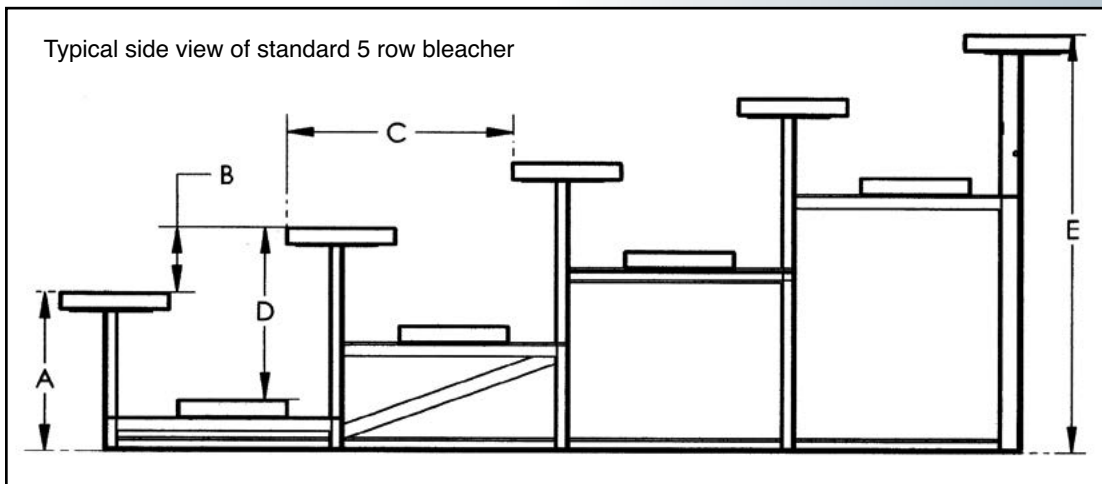

## TRANSPORTER SYSTEM

Transporter system available for all of our BL Model bleachers on page 56.

Model	Description	Weight
BT-BL500	Transport	100 lbs.

The U.S. Consumer Products Safety Commission has responded to fatal and serious injuries due to falls from bleachers by issuing guidelines to help prevent these incidents. We have engineered a guardrail system that can be installed on most bleachers and comply with the CPSC guidelines.

The system discourages climbing as all the rails are vertical. Openings in the guardrail are small enough to prevent a child from falling from a height that could result in a serious injury. All of the materials are rigid and very durable. **NO CHAIN LINK FENCING IS USED.** With basic dimensions, we can configure our system to fit your guardrail requirements.

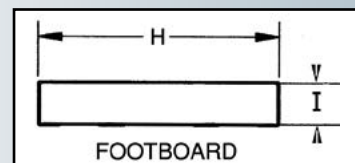

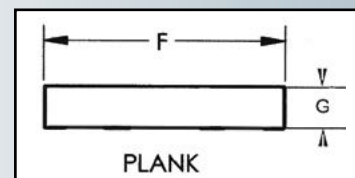

**Easy To Assemble:**

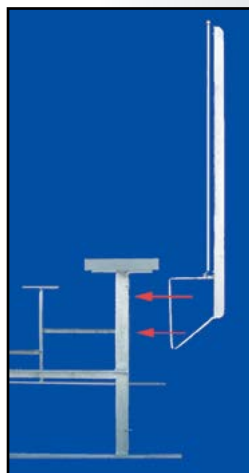

This system has been carefully designed and engineered to allow anyone who wants to bring their bleachers up to current CPSC guidelines to do so quickly and easily. The combination of our exclusive fittings and panels along with your specific dimensions, lets us customize your retro-fit with an easy to use and affordable system.

For a quote, fill in Dimensions below and return to L.A. Steelcraft.

Item	Dimensions	Description
A		Height of 1st Row
B		Rise From Row to Row
C		Row Spacing
D		Height From Seat to Footboard
E		Height of Last Row Seat
F		Seat Plank Width & Length
G		Thickness of Seat Plank
H		Footboard Width & Length
I		Footboard Thickness

**Brace Band:**  
The Guardrails are fastened to the Back Supports with sturdy Brace Bands.

**Back Support Post:**  
Our Back Support Post mounts to any existing bleacher's back row brace. Locate the post under the seat support, then mark and drill holes in your support. The railing will be fastened to these supports with bracebands on top, and a convenient clip and channel attachment on the bottom.

**Corner Sections:**  
The Corner Sections are bolted together, and the top rails are held fast with another of our exclusive Roto-Steel inserts.

**Guard Rails:**  
The 36" x 45" Guard Rail Sections bolt together, and the top rail is held in place by our exclusive Roto-Steel insert that reveals only a smooth contoured abutment.

## Board & Scooter Racks

### IDEAL LOCATIONS:

**Schools**  
**Skate Parks**  
**Retail Areas**  
**Teen Centers**  
**Public Spaces**  
**Community Buildings**  
**Any place bike racks are found!**

### GENESIS 7 - WALL MOUNT

Designed for skateboards and scooters, this Boardloch Brand™ board rack functions just like a bike rack. Board racks for this equipment allow riders to be responsible for their own property. Meets the needs of your skateboard and scooter riding population. The rack is constructed of heavy gauge steel, and is zinc plated for added durability in harsh outdoor environments. Each rack secures up to five skateboards or scooters. The rack is designed to mount to concrete, brick, or other durable surfaces. The dimensions of the rack are 24" L x 12" W x 10" D. Padlocks not included. Locks are provided by owners of skateboard or scooter. Anchoring hardware not included. Pedestal model also available.

## PEDESTAL BAR-B-QUES

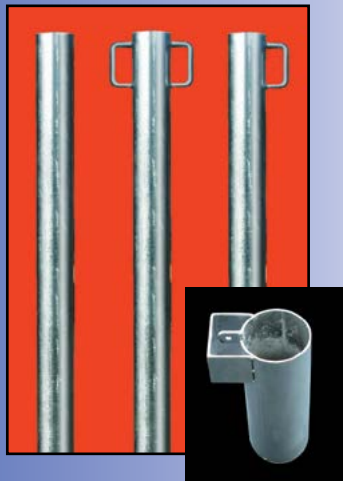

Heavy-duty design for parks and campgrounds. Four position adjustable grill captive to stove. Spring-type handgrip prevents burns. Stove rotates 360° on post for draft control, while locked on post to prevent removal. Front lip reduces ash spill-out yet provides easy clean-out. Walls are formed from a single sheet of 12 gauge steel sheet. The grills have an all welded construction of 3/8" diameter steel round with outside frame of 1/2" steel round. Firebox is made from 7 gauge steel, is welded between sidewalls and has corner openings for drainage. Stove and accessories are painted with temperature/rust resistant black paint. Support post is 3-1/2" OD galvanized steel pipe x 35" long.

Dimensions: Stove size: 20" wide x 15" deep x 10" high.

Installed Height: 34" above grade to top. **Rear Utility Shelf option available at additional cost.**

Model	Description	Weight
630	Single Pedestal Bar-B-Que	75 lbs.

# Flagpoles

## ARCHITECTURAL SERIES- EXTERNAL HALYARD GROUND SET CONE TAPERED ALUMINUM FLAGPOLES

Our cone tapered ground set aluminum flagpoles are precision fabricated from new, 6063-T6 tubing, utilizing the industry's most sophisticated, state-of-the-art manufacturing processes. The conical portion tapers appx. 1" in every 5" - 6". Poles with overall lengths of less than 38" - 6" are shipped in one piece. Longer lengths are shipped in sections and will be factory fitted with a self-aligning sleeve which requires no field welding. Upon proper assembly a hairline joint will occur. All poles are double spiral wrapped with protective paper and shipped in a hard fiber tube. **Ships from factory in Wisconsin 53154.**

## FEATURES

- GOLD ANODIZED ALUMINUM BALL ORNAMENT
  - CAST ALUMINUM REVOLVING TRUCK WITH PULLEY
  - SOLID BRAIDED POLYPROPYLENE HALYARD
  - SWIVEL FLAG SNAPS WITH VINYL SNAP COVERS
  - CAST ALUMINUM CLEAT WITH MOUNTING SCREWS
  - SPUN ALUMINUM FLASH COLLAR
  - GALVANIZED STEEL FOUNDATION SLEEVE
- FLAGS SOLD SEPARATELY

**OPTIONAL FLAGPOLE FINISHES** All flagpole shafts are highly polished with fine grain aluminum oxide cloth resulting in a high quality, deep satin luster finish. The elegant soft sheen remains maintenance free. In addition to the satin, the following Anodized Finishes are available as **Optional Finishes at an additional cost:** Clear, Light Bronze, Dark Bronze, and Black. Please specify which finish on orders.

## DELUXE IH SERIES- INTERNAL HALYARD GROUND SET CONE TAPERED ALUMINUM FLAGPOLES

These deluxe internal halyard flagpoles contain a winch, mounted inside the flagpole shaft, operable only with a removable crank handle. As the stainless steel cable unwinds from the winch it passes through the inside of the flagpole shaft, over the truck sheave to the outside of the shaft, where the retaining ring provides a sliding anchor. A counterweight, heavily coated with neoprene, attached to the retaining ring, allows the halyard to be lowered for fastening or removing the flag. The halyard is then raised completely out of reach of vandals. The improved winch is gearless and self-locking at any point, eliminating the need for a separate brake. This direct drive winch provides rapid raising or lowering of the flag with little effort. This new, improved design does not require any welding. No monthly lubrication is needed.

**Ships from factory in Wisconsin, 53154.** Flags sold separately, see page 67.

### OPTIONAL FLAGPOLE FINISHES

All flagpole shafts are highly polished with fine grain aluminum oxide cloth resulting in a high quality, deep satin luster finish. The elegant soft sheen remains maintenance free. In addition to the satin, the following Anodized Finishes are available as **Optional Finishes at an additional cost:** Clear, Light Bronze, Medium Bronze, Dark Bronze, and Black. Please specify which finish on orders.

# Flags & Accessories

**NYLON FLAGS**

**POLYESTER FLAGS**

Recognized as America's #1 choice of U.S. Flags. Expertly crafted using heavy weight bunting made of 100% nylon or polyester with vertical stitching and reinforced corners. These nylon flags offer lustrous beauty, superior wear plus excellent flyability, even in the slightest breeze. Beautifully embroidered snow-white stars are standard on all flags through sizes 8' x 12'. All seams are double and vertically stitched and fly ends have either 2, 4 or 6 rows of double-stitching for added durability. Reinforced corners are found on all flags and are finished with heavy-duty, no-shrink white header material for the strongest headers in the industry. Flags through sizes 6' x 10' feature strong, durable solid brass grommets. Flags 8' x 12' and larger are finished with super strong nylon rope sewn into the header with galvanized metal thimbles securely attached. Nylon flags 8' x 12' and larger with printed fields have chrome plated metal D-Rings sewn into the header.

Model	Size
NF5	3' x 5'
NF6	4' x 6'
NF8	5' x 8'
NF10	6' x 10'
NF12	8' x 12'

Model	Size
PF5	3' x 5'
PF6	4' x 6'
PF8	5' x 8'
PF10	6' x 10'
PF12	8' x 12'

**Outdoor nylon state flags, custom corporate flags and religious flags (Christian, Israel (Zion), Papal and Episcopal) are also available. Call for pricing.**

Engraved brass plaques are available and are curved to fit the butt diameter of the flagpole. Letter styles available: Block and Roman. Plaques are attached to the flagpole with matching rivets which are included. Call for pricing.

## CLEAT COVER BOXES

Model	Fits Pole Diameter	Type of Lock
CB	4" - 12"	Padlock

Cast aluminum with stainless steel hinge pins. Design allows for easy installation utilizing the cleat holes to mount the cleat cover box. Comes complete with padlock. Padlock style subject to change. Satin finish supplied unless stated. **Clear, Bronze or Black optional finishes available at additional charge.**

## BALL ORNAMENTS

Optional gold anodized aluminum ball ornaments for internal halyard flagpoles.

Model	Diameter
SB103	3"
SB104	4"
SB105	5"
SB106	6"
SB108	8"
SB110	10"
SB112	12"

## HALYARD COVERS

This 1-03/4" wide by 1" deep aluminum channel must be used with the cleat cover box (as shown) by providing additional protection 5" or 10" above the cleat cover box. Satin finish supplied unless stated.

Model	Length
HC-5	5'
HC-10	10'

## SHOE BASE MOUNTING PLATE- OPTION

Flagpoles can be adapted for shoe base mounting. Our shoe base is cast from A-356 aluminum alloy and is heat-treated to a T-6 condition. Base is joined to pole with a continuous circumferential weld at outside top and inside bottom of shoe base. Anchor bolts have double nuts, two flat washers and one lock washer. **Ships from our factory in Wisconsin, 53154.**

Add SB to model# for shoe base option.

**If Shoe Base option is selected, Foundation Sleeve is not furnished.**

**Nautical and Vertical/Diagonal wall mount flagpoles also available.**

**Architectural Series Flagpoles shown-Budget Series- External & Internal also available.**

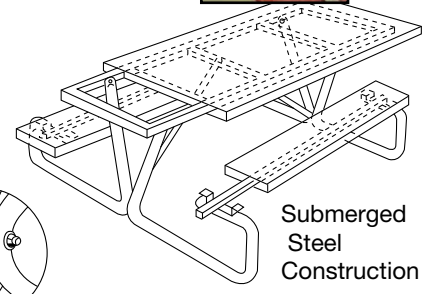

# Tables & Benches

## Fiberglass Tables

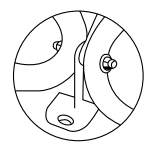

### TRADITIONAL RECTANGLE TABLE WITH ATTACHED BENCHES

Optional Umbrella available - see page 87- 88

Submerged Steel Construction

Optional Anchor Strap Model No. TP-A , 2 required for this model

Fiberglass top and seats with steel spine for no sagging. Easy access, no frame interference for seats. Seats 6 to 8 people.  
 OPTIONAL: Adding Recta-Brella, requires 2 umbrella holes at additional charge.  
 OPTIONAL: If anchoring, 2 anchor straps (TP-A) are required at additional charge.

TP-30FW	Frame Only					85 lbs.
Indicate Height desired 26" or 30"						

# Double Plank Tables & Benches

## THE ORIGINAL "4 LIVES" DOUBLE PLANK TABLE

Planks can be rotated to four surfaces when needed. Steel end caps prevent plank end damage and gives extra long life. Planks can be furnished natural or stained redwood finish. 2-3/8" OD galvanized steel pipe frames with 3" x 2" x 3-1/16" angle supports and steel top and seat caps. 2" x 10" nominal planks.

Model	Description	Top Size	Top Size	Seat Height	Overall Width	Weight
DW-6	Dbl. Plank	30" x 72"	29-1/2"	17-1/2"	65"	350 lbs.
DW-8	Dbl. Plank	30" x 96"	29-1/2"	17-1/2"	65"	420 lbs.
DW-F	Frame and Braces Only					140 lbs.
Indicate Table Length 6' or 8'						

## "4 LIVES" DOUBLE PLANK PARK BENCH

(For permanent style, add "PS" to model #) Utilizes combination of 2-3/8" OD galvanized steel pipe and 2" x 6" double Southern Yellow Pine to make a rugged park bench that will withstand years of heavy use. All frames, braces and end caps are black powder coated finish.

Model	Description	Length	Frames	Ground Space	Weight
DW-PB-6	Dbl. Plank	6'	2	2' x 6'	148 lbs.
DW-PB-8	Dbl. Plank	8'	2	2' x 8'	197 lbs.
DW-PB-P	Portable Frames Only				55 lbs.
DW-PB-PS	Direct Bury Frames Only				53 lbs.

## "4 LIVES" DOUBLE PLANK YARD BENCH

Utilizes 2" x 6" double planked Southern Yellow Pine along with a heavy duty 4" x 4" square tubing leg with a 12" x 12" x 1/4" steel plate, with a 3" x 2" x 3/16" angle seat support. Frame and end caps are black powder coated finished.

Model	Description	Length	Frames	Ground Space	Weight
DW-YB-6	Dbl. Plank	6'	2	1' x 6'	87 lbs.
DW-YB-8	Dbl. Plank	8'	2	1' x 8'	116 lbs.
DW-YB-P	Surface Mount Plate Frame Only				40 lbs.
DW-YB-PS	Direct Bury Frame Only				45 lbs.

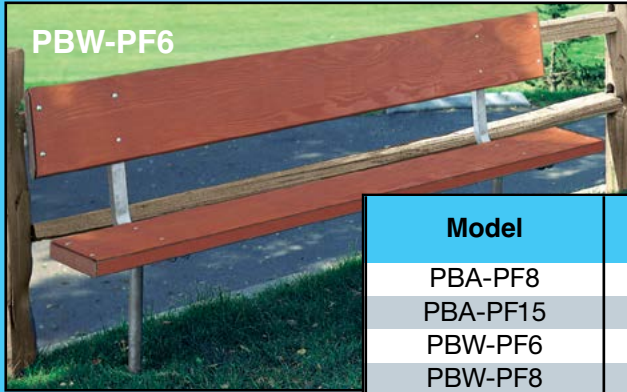

Top, seats and end caps are 3" x 2" x 3/16" steel angle iron with black powder coat finish.

Steel end caps are removed to allow for the double planks to be rotated and then easily re-assembled to protect plank ends from cracking or damage. This feature, along with the double planking, gives you "4 lives" from our tables and benches.

3" x 2" x 3/16" steel end caps provide ultimate protection to the plank ends and prevents warpage.

# Aluminum/Wood Site Benches

Aluminum planking used for seats and tops on both tables and benches are 2" x 10" (9-1/2" x 1-3/4") extruded aluminum alloy 6063T6 with a clear anodized finish as per AA-M10L22A31 Class II (204R1) 0.4 mil minimum thickness to resist corrosion and stains. The aluminum planks come with roto-molded end caps. 2" x 12" aluminum seats available at additional cost. L.A. Steelcraft uses 60% recycled aluminum in our aluminum benches and tables.

## PLAYER BENCH

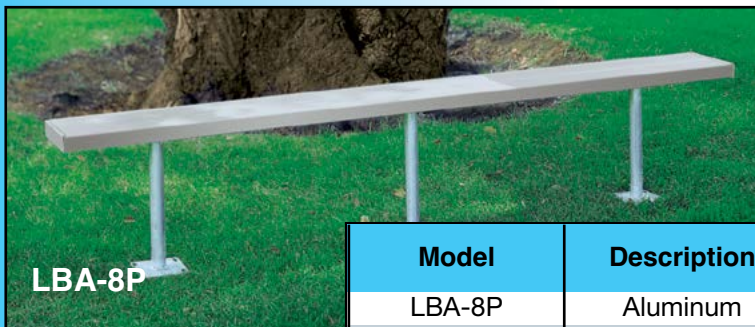

2" x 1" x 3/16" frame, channel welded to 1-5/8" OD galvanized steel pipe. This bench is for direct bury application used for dugouts and as Permanent player benches.

Model	Description	Length	Frames	Ground Space	Weight
PBA-PF8	Aluminum	7'-6"	2	2' x 7-1/2'	52 lbs.
PBA-PF15	Aluminum	15'	4	2' x 15'	104 lbs.
PBW-PF6	Wood	6'	2	2' x 6'	64 lbs.
PBW-PF8	Wood	8'	2	2' x 8'	78 lbs.
PBW-PF15	Wood	15'	4	2' x 15'	149 lbs.
PBA-PF	Formed Channel and Pipe Frame (Aluminum)				22 lbs.
PBW-PF	Formed Channel and Pipe Frame (Wood)				22 lbs.

## PLANK YARD BENCH

Each bench has a single plank on hot dipped galvanized frames made from 3" x 3/16" thick steel with 1" OD galvanized pipe braces.

Model	Description	Length	Frames	Ground Space	Weight
YBA-8	Aluminum	7-1/2'	2	15" x 7-1/2'	36 lbs.
YBA-15	Aluminum	15'	4	15" x 15'	74 lbs.
YBW-6	Wood	6'	2	15" x 6'	42 lbs.
YBW-8	Wood	8'	2	15" x 8'	49 lbs.
YBW-15	Wood	15'	4	15" x 15'	95 lbs.
YBF-A	Frame for Aluminum Planking per pair				21 lbs.
YBF-W	Frame for Wood Planking per pair				21 lbs.

## PLANK PLAYER/LOCKER ROOM BENCH

Comes with 2 styles of pedestal frames. (For Direct Bury frames, add "FC" to model #). Direct Bury, or with a 6" x 6" plate for attachment to existing decks. Frames are 1-5/8" OD galvanized pipe.

Model	Description	Length	Frames	Ground Space	Weight
LBA-8P	Aluminum	7-1/2'	2	1' x 7-1/2'	33 lbs.
LBA-15P	Aluminum	15'	4	1' x 15'	66 lbs.
LBW-6P	Wood	6'	2	1' x 6'	39 lbs.
LBW-8P	Wood	8'	2	1' x 8'	46 lbs.
LBW-15P	Wood	15'	4	1' x 15'	89 lbs.
LB-FP	Frame only with Plate per pair				18 lbs.
LB-FC	Frame only for Direct Bury per pair				8 lbs.

60%  
RECYCLED  
ALUMINUM

## PLAYER BENCH WITH BACK

(For Direct Bury Frames, add "FS" to model #) Mounted on 2-3/8" OD frame of galvanized pipe. Braces are 1" OD galvanized pipe. Ideal for dugouts and team benches.

Shown with our two types of wood available. Stained or untreated.

Model	Description	Length	Frames	Ground Space	Weight
PBA-8P	Aluminum	7-1/2'	2	2' x 7-1/2'	77 lbs.
PBA-15P	Aluminum	15'	4	2' x 15'	148 lbs.
PBA-36P	Aluminum	36'	7	2' x 36'	355 lbs.
PBW-6P	Wood	6'	2	2' x 6'	89 lbs.
PBW-8P	Wood	8'	2	2' x 8'	103 lbs.
PBW-15P	Wood	15'	4	2' x 15'	193 lbs.
PBP-FS	Direct Bury Frame per pair				45 lbs.
PBP-FP	Portable Frame per pair				47 lbs.

## PORTABLE PARK BENCH

2" x 1" x 3/16" frames, channel welded with 1/2" rod support. Hot dipped galvanized after fabrication. Braces are 1" galvanized pipe. This portable park bench is great for tennis courts and site furnishings.

Model	Description	Length	Frames	Ground Space	Weight
PBA-C8	Aluminum	7'-6"	2	2' x 7-1/2'	65 lbs.
PBA-C15	Aluminum	15'	4	2' x 15'	130 lbs.
PBW-C6	Wood	6'	2	2' x 6'	77 lbs.
PBW-C8	Wood	8'	2	2' x 8'	91 lbs.
PBW-C15	Wood	15'	4	2' x 15'	165 lbs.
PBA-CF	Bent Channel Frame (Aluminum)				35 lbs.
PBW-CF	Bent Channel Frame (Wood)				35 lbs.

## SKATE STOPPERS FOR WOOD & ALUMINUM BENCHES

Skate Stoppers protect your benches from the damage skateboarders can do. These Stoppers

are specially designed for wood and aluminum surfaces. Suggested to be used every 6" inches along the rails of seats. For additional information see page 70. Sold in kits of 20, 60, 100 or 250. All kits include application hardware.

# Aluminum/Wood Site Tables

## PRESTIGE RECTANGLE TABLE

This unit is for direct bury application. Frame: 3" x 3" pedestal with 2" x 2" bench pedestal. Black powder coat finish. 2 benches per frame.

# Expanded Metal Tables & Benches

Heat treated Plastisol is the toughest finish on site furnishings. It is permanently bonded to the expanded metal and structural steel to a thickness of 1/4" (25-30 times thicker than paint). Open weave design discourages standing water, graffiti and carving. Seat planks are 2" thick x 10" wide. Tops are 2" thick x 32" wide. All frames powder coated: Blue, Black, Green or Brown. Plastisol colors: Blue, Green, Brown Red and Beige. Expanded Metal ships from Indiana, 46982.

## SUPER RUGGED EXPANDED METAL TABLE

This is a super rugged table with all welded end frames of 2-3/8" OD pipe and 1-1/4" OD steel pipe braces. Powder coated frames and braces.

TPP-28

BPP-8SM	Surface Mount	8'	2	8' x 30"	140 lbs.

**“ULTRACOAT”** thermoplastic coated steel tables are the new choice in coatings for steel tables and benches. The application of **Ultracoat** by a fluidized powder bed, causes the powder to melt to the steel at 500 degrees Fahrenheit. The coating, **which is PVC free**, is approximately 50 MILS and ideal for site furnishings. The process allows bonding of the coating to steel that is nearly indestructible and the smooth gloss finish makes a very good looking product that is easy to maintain. Tops, seats and frames offered in: Green, Blue, Red, Brown, Black, Beige and Burgundy. Tops and seats have **Ultracoat** finish and the frames have a baked on powder coat finish. The open weave diamond pattern expanded metal material for the tops and seats is 9-gauge with 3/4” openings and comes standard with an umbrella hole on round and square tops. Frames utilize a 1-5/8” heavy wall tubing for the portable style tables and 4” x 4” square tubing for the surface mount or direct bury styles. Ships from: IL 62278.

# Umbrellas

## FIBERGLASS ROUND UMBRELLA

Made of maintenance free fiberglass, with heavy duty anodized aluminum staff (1-1/2" OD) and adjustments for time-of-day shading. Colors to match all L.A. Steelcraft standard fiberglass colors, not polished granite finishes. (Colored background with white star as shown). Pipe mast locks into furnished PVC ground sleeve. Requires 1 hole in table top.

Model	Diameter	Weight
FRB-6 Fiber	6'	67 lbs.
FRB-7 Fiber	7'	73 lbs.

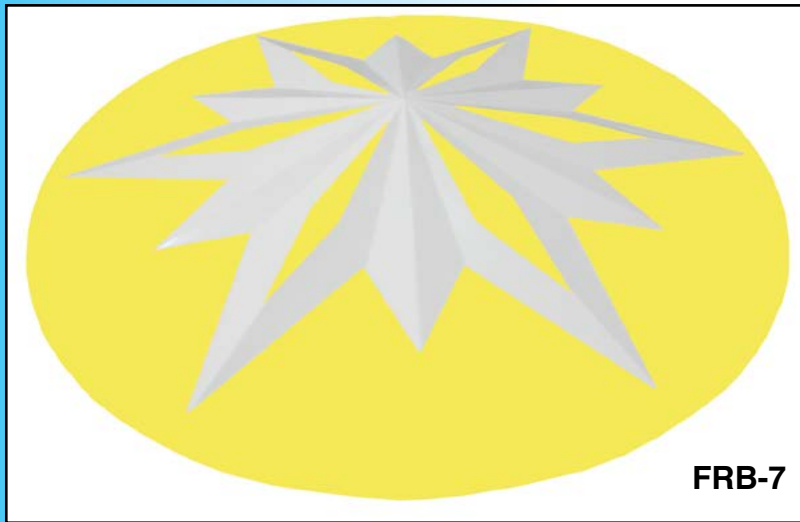

Table sold separately. See page 69 for table.

## ALUMINUM ROUND UMBRELLA

Aerodynamically designed, these umbrellas feature swivels that make them virtually topple-proof. The swivel permits easy turning of the umbrellas for maximum shade. Umbrella has a sturdy 7' diameter frame with aluminum braces and ribs for lasting durability. Designed to fit any standard table with one center hole, the umbrella's 1-1/2" OD mast pipe locks into a furnished PVC ground sleeve.

Panel Colors Available: White, Royal Blue, Camel, Red, Vanilla, French Blue, and Seafoam. Note: Aluminum umbrella colors do not match fiberglass colors but are complimentary. Aluminum Umbrellas ship from factory in Arizona, 85019.

Model	Diameter	Weight
SCU-7	7'	70 lbs

### FIBERGLASS- RECTANGLE “RECTA-BRELLA”

Now you can have shade for your traditional rectangle tables. Available in all L.A. Steelcraft colors (mix and match). The poles are 1-5/8" OD galvanized pipe. Shown with model TP8-FA. Requires 2 holes in table top.

Table sold separately. See page 69 for table.  
Not available for 6' table.  
Recommend anchoring at a fixed location.

Model	Dimension	Weight
RB-F	6' x 8'	153 lbs.

### GARDEN UMBRELLAS

The Garden Umbrella adds the needed protection from the sun for all of the round and square expanded metal tables. Works with expanded metal tables only. With all the color options available you can match the colors of the tables to suit your taste. Includes manual or crank opening, aluminum poles, and textiline closed weave fabric. Available solid or alternating color options: Blue, Green, Yellow, Red, Burgundy and Beige

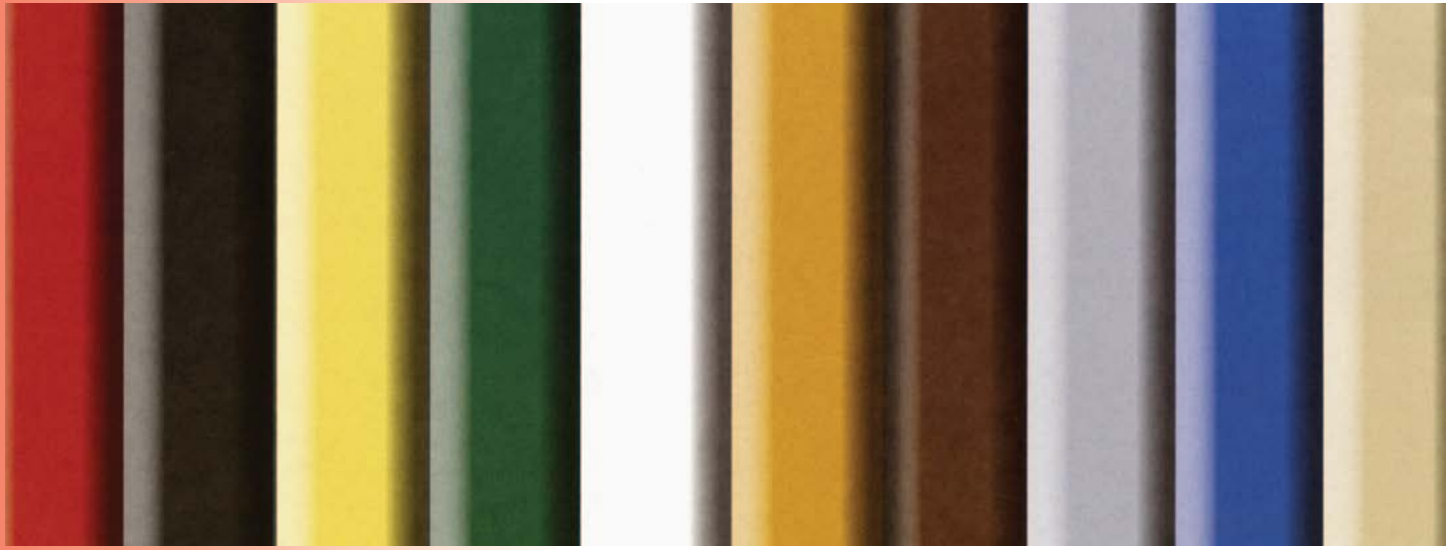

Textiline Closed Weave Fabric

Model	Diameter	Weight
GU75CWT-C (Crank Open)	7-1/2' Diameter with Closed Weave	20 lbs.
GU75CWT-M (Manual Open)	7-1/2' Diameter with Closed Weave	20 lbs.

## PRODUCT WARRANTY

L.A. Steelcraft Products, Inc. (the "Company"), warrants **all Company built products** (the "Equipment") against defects in material or factory workmanship for a period of **ONE YEAR (against mfg. defects)** from the date of substantial completion (the "Warranty Period").

**Steelcraft's Lifetime Limited Warranty** (on certain product lines) means the "lifetime" of that particular product, piece or part. It does **NOT** mean your or the customers lifetime. The wording "Lifetime Limited Warranty" or "Lifetime of a Product" varies not only product to product but state to state. In California, to use the words "Lifetime Limited Warranty" the product must have a minimum of 3 years of product life.

Our Lifetime Limited Warranty Basketball Equipment has been designed for an expected "lifetime" *of at least 20 years* and is valid only if the product has been subjected to normal use for the purpose in which it was designed; has not been subjected to vandalism, misuse, neglect, or accident or an "Act of God"; has not been subjected to addition or substitution of parts; and has not been modified or altered. In addition to this information all of the other warranty factors of Steelcraft's Standard Warranty also applies to Steelcraft's "Lifetime Limited Warranty" on certain product lines.

If you discover a defect in the materials or factory workmanship of the Equipment during the Warranty period, you must promptly notify the Company in writing. You must include proof of purchase and purchase date, installation date or date of substantial completion. The Company will, at its discretion, repair the defective Equipment at no cost to you, except for the shipping, insurance and installation costs, which shall be your responsibility.

This warranty does not cover any loss or damage caused by (a) improper installation of company, (b) use of the Equipment for purposes other than that which it was intended, (c) disaster such as fire, flood, wind, lightning, or other "Act's of God", (d) Cosmetic considerations, (e) unauthorized alterations or modifications to the Equipment. Your sole and exclusive remedy against the Company shall be for the repair or replacement, at the Company's discretion, of any defective Equipment as provided herein.

**\*IN NO EVENT SHALL THE COMPANY BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES RELATING**

**TO, ARISING OUT OF THE OR IN CONNECTION WITH THE USE OR PERFORMANCE OF THE EQUIPMENT, INCLUDING AND WITHOUT LIMITATION, ANY LABOR AND/OR OTHER INSTALLATION EXPENSES INCURRED IN CONNECTION WITH THE REPLACEMENT OF THE DEFECTIVE EQUIPMENT WARRANTED HEREUNDER, OR ANY OTHER INDIRECT DAMAGES WITH THE RESPECT TO LOSS OF REVENUE OR PROFITS.** \*Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

**\*ALL IMPLIED WARRANTIES WITH RESPECT TO EQUIPMENT, INCLUDING AND WITH OUT LIMITATION, THE IMPLIED WARRANTIES OR MERCHANTABILITY AND FITNESS OR A PARTICULAR PURPOSE, ARE HEREBY LIMITED IN DURATION TO THE WARRANTY PERIOD.** \*Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

**ANY REVISION OR MODIFICATION TO THIS WARRANTY SHALL BE SOLELY BY THE WRITTEN AUTHORIZATION OF THE COMPANY'S CHIEF OPERATING OFFICER.** This warranty gives you specific legal rights. Additional legal rights may vary state to state.

## A WORD ABOUT ENGINEERED DRAWINGS & WET STAMPED CALCULATIONS

This section is regarding the "origination" or "reuse" fees charged for wet stamped and signed calculations that are being requested to be completed by an engineering company.

When L.A. Steelcraft is requested to provide wet stamped and signed calculations both the engineering company and L.A. Steelcraft shares the assumed liability for that item. As such, the engineering company must show responsible "charge", which may require independent verification of local site conditions, etc., this may require contacting the local jurisdiction to verify wind, snow, seismic or soil conditions, etc.

A file for each job may be established and is maintained by the engineer company for a period of ten years. Therefore, a reuse fee is charged to help cover the cost of insurance and office staff time for each set of specific items that wet stamped and signed calculation are requested for.

Every time wet stamped and signed calculation are requested ours and the engineers liability and office staff time is increased without benefit unless some type of origination reuse fee is charged.

L.A. Steelcraft adds on only a modest charge to the charges that L.A. Steelcraft is invoiced by the engineering company for origination calculations. If the product has been already been "engineered" the current reuse fee is \$700.00 per set of wet stamped and signed calculations requested. If the product has NOT been "engineered" the current fee will be quoted by the engineering company per set of wet stamped and signed

**NOTE: POST INSTALLATION MAY REQUIRE STEEL REINFORCEMENT IN FOOTING-CHECK WITH LOCAL BUILDING CODES IF REQUIRED IN YOUR AREA.**

calculations requested AND UP TO AN ADDITIONAL \$600.00 per "back check" by the engineering company, as requested by DSA.

Unless stated in our Quotation Attachment A, any actual samples, calculations, engineered drawings, welding specifications, etc. are not included unless specifically requested in writing by customer/contractor prior to bid date or issuing of purchase order. The costs for these special submittal requirements will be added to the base price of the quotation/bid or purchase price. Please note that any material changes required by the structural engineering will be reviewed by L.A. Steelcraft and may result in additional charges added to the price of the product.

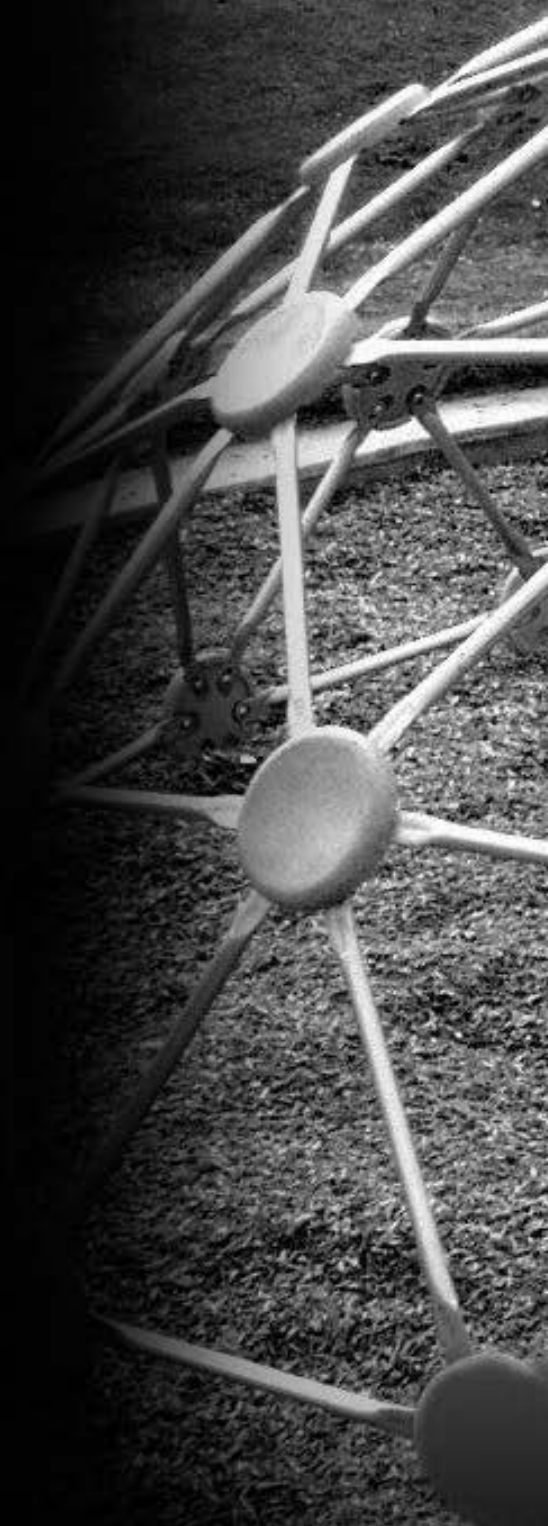

#### POWDER COATING OVER GALVANIZING

One of the most durable protective coatings for steel is provided by applying a polyester powder coating over hot dipped galvanized steel to provide a high grade architectural finish to the steel items.

Polyester powders are thermosetting resins that are applied electrostatically to the steel surface and "stoved" at temperatures around 180 degrees Celsius. This technology produces very uniform coatings that have an attractive architectural finish with excellent atmospheric weathering characteristics. In combination with hot dipped galvanized coatings, the powder coated product ensures maximum durability for steel components, which will generally provide years of rust free life in most architectural applications.

Powder coating by L.A. Steelcraft Products, Inc. includes a light commercial sand blasting of the steel surface, a four stage power alkaline wash and rinse, a power phosphate wash and rinse and drying and prepping to receive an electrostatically applied thermoset, baked on powder coat finish of Dupont's TGIC-Polyester powder with a smooth finish and a 90 degree or above gloss. This powder is rated as having excellent exterior durability, stability and flexibility and as well as having very good corrosion protection, hardness and chemical/solvent resistance.

**For over 55 years  
L.A. Steelcraft has been a major  
manufacturer of  
quality equipment for  
sports, playgrounds, schools  
and industry, servicing  
the entire nation.  
Our corporate offices and  
main fabrication plant  
is in Pasadena, California  
with over 200  
local representatives  
nationwide.**
