Pro 4900

ENGINEERED FOR BUSINESS

Maximise colour expansion

Epson UltraChrome® HDR 10-colour ink includes Orange and Green to achieve 98% coverage* of the Pantone+ solid colour range

Enjoy ease of media loading and cutting

Flexible roll and cut-sheet media handling for added convenience

Print faster without compromising image quality

Up to 2x faster throughput with MicroPiezo TFP® print head

Save time and money with automatic features

Achieve quality output on different media types with auto switching between Photo Black and Matte Black to minimise operation time and wastage of media and ink

*For details, please refer to specifications

MicroPiezo TFP® high-performance print head, with 360 nozzles per channel, handles ten separate ink channels to deliver superb professional quality prints every time. A revolutionary 17" compact A2 printer with spectrophotometer capabilities, Epson Stylus® Pro 4900 offers a distinct colour gamut to produce exquisite professional-quality prints at rapid print speeds.

MAXIMISE COLOUR EXPANSION

Wider colour range

Our new generation of large format printers brings you award-winning Epson UltraChrome® HDR inks which allow an even wider range of expression thanks to the 10-colour ink set inclusive of Green and Orange inks. The wider range of vibrant colours gives you more accurate spot colour simulation and smoother tonal gradations throughout the colour spectrum to deliver true-to-life prints in warm rich tones.

EPSON UltraChrome® HDR ink

Added vibrancy and improved colour matching with 98% Pantone coverage

Epson UltraChrome® HDR ink breaks new ground with 98% coverage* of Pantone+ solid colours, ensuring vivid colour rendering and more precise colour matching.

* 98% coverage of PANTONE+ FORMULA GUIDE solid coated palette based on Epson Proofing Paper White Semimatte printed with Epson printer driver at 2880x1440dpi. PANTONE coverage may vary when printed with a third-party RIP. PANTONE® and other Pantone trademarks are the property of Pantone LLC.

ENJOY EASE OF MEDIA LOADING AND CUTTING

Dual media capability eliminates need for reloading

Operations are easier with Epson Stylus® Pro 4900 as roll media does not have to be unloaded before loading cut-sheet media and vice versa, thus saving valuable time in the printing process.

Faster cutting speed and efficiency

The new rotary paper cutter is faster than previous models, allowing you to cut roll paper, cloth, canvas and adhesive paper smoothly and cleanly in less than 2 seconds.

Roll Paper Feed Slot
Paper feeding and back tension are automatically controlled. Handles paper from 8" to 17" (203 mm to 432 mm).

Rear Paper Feed Slot
For automatic feeding of individual sheets. Handles paper from 0.08 mm to 0.79 mm thickness.

Front Paper Feed Slot
8" to 17" sheets up to 1.5 mm thick can be fed in manually from the front.

High Capacity Paper Cassette
The paper cassette holds up to 250 sheets of A4 - A2 size plain paper. This reduces downtime while replenishing media.

PRINT FASTER WITHOUT COMPROMISING IMAGE QUALITY

With the use of MicroPiezo TFP® print head, throughput is improved – up to twice the print speed within its range. Capable of delivering well-defined dots with virtually no misting or satellites, this cutting-edge printhead uses Epson's proprietary Variable-Sized Droplet Technology (VSDT) to produce droplets as small as 3.5 picoliters, delivering precision in every printout.

SAVE TIME AND MONEY WITH AUTOMATIC FEATURES

The Epson Stylus® Pro 4900 is a productive workhorse that switches automatically between pre-installed Photo Black and Matte Black inks, depending on driver setting.

The SpectroProofer, incorporated with industry-standard X-Rite™ technology, enables automated colour management workflow with RIP application, producing high quality remote proofs.

038 - 006
ENERGY EFFICIENT, LOW OZONE / NOISE EMITTING, RECYCLABLE - MULTIFUNCTIONAL DEVICE / PRINTER

The Singapore Green Label administered by the Singapore Environment Council (SEC) is a sought-after accreditation for products that meet international eco-friendly standards. Epson Stylus® Pro 4900, certified with the Singapore Green Label, helps reduce the burden on the environment while offering improved operational flexibility and efficiency.

Eco Features

- Save power and cost with "Auto Off Mode" that automatically turns off printer (less than 0.5W) when there is no print operation for a long time.¹
- Save time, paper and cost with "Automatic Paper Loading" that switches between cut sheet or roll media loading automatically.
- Save workflow time, cost, materials and energy with the optional SpectroProofer which automates colour certification and calibration, producing high quality remote proofs.²

¹ Default setting time for Auto Off Mode is 8 hours. User has the option to self-define setting from 1hr to 24hr.

² Colour management workflow automation, subject to RIP selection.
