# The Parrfect Combination of Products & Services!

- ✔ **Quick fulfillment and shipping** - Large in stock product selection.
- ✔ **Extensive product selection** - Thousands of products available.
- ✔ **One stop shop** - Equipment as well as professional installation services.
- ✔ **Complete vehicle package options** - Save money through vehicle packages.
- ✔ **Expert advice** - From years of parts and installation experience.
- ✔ **Multiple markets** - Police, fire, DOT, utility, towing, construction, agriculture and more.

- Fast & Easy account setup!
- Easy to order! Phone, fax, mail, email or order online
- Open M-F 8:00 – 4:30 EST or online 24/7 at [www.parrpse.com](http://www.parrpse.com)
- Knowledgeable, friendly and experienced sales and service team
- New Products added continually

**Vehicle and product demonstrations:**  
 If you're within a manageable distance we can come to your site with one of our fully equipped demo vehicles to show you some of the latest product options.

Authorized flashlight repair center.

Stay connected and learn about new products and special promotions.  
 We'd love to hear about your unique needs.

# WARNING LIGHTS

## LED Beacons

L31HRF Pictured

### WHELEN L31 SERIES SUPER LED® 360° BEACONS

This 360° LED beacon is the brightest in the industry! High-performance Super-LED® optics provides warning like a strobe, plus all the performance characteristics of LEDs. Rugged and reliable, the L360 Series features a built-in flasher, cast aluminum base, Hi/Low Intensity, built-in cruise lights and synchronization ability.

- Model L31 - SAE Class 1 and CA Title XIII Certified
- Model L32 - Amber is SAE Class 1 Certified, Class 2 for all other colors
- 28 selectable Scan-Lock™ flash patterns including 4 simulated rotating patterns
- Alternately or simultaneously flash multiple patterns (Cross-Link™) with up to eight Whelen Super-LED® 360° beacons
- 5 Year Warranty

Item #	Description	Price
L31H*F	Super LED®, Tall, Red, Blue or Amber	\$469.00 ea
L32L*F	Super LED®, Low Profile, Red, Blue or Amber	\$290.00 ea
MMK	Magnetic Mount Kit	\$29.00 ea

L32 Series

### WHELEN L22 SERIES SUPER LED® BEACONS

The L22 Beacon with SignalAlert™ and 13 other effective flash patterns. L22 models feature generation 3.5 LED technology that rivals strobe in power, but with significantly lower amp draw. LED has a rated life which exceeds that of comparable flash tubes by more than 50:1.

- 100,000 hour rated life
- Low current draw: only 0.26 amps (average), 0.65 (peak) @12.8V DC
- Amber model is SAE Class 2 Certified
- 5 Year Warranty

Item #	Description	Price

### WHELEN L41 SERIES SUPER-LED® BEACONS

L41 Series beacons are medium profile Super-LED® beacons that feature ultra high intensity LED technology that rivals strobe in intensity with a fraction of the amp draw. Both models feature encapsulated electronics for moisture and vibration resistance and 25 selectable flash patterns.

- The L41 is SAE Class 1 Certified
- Encapsulated electronics for moisture and vibration resistance
- Five year warranty
- Permanent mount model supplied with five 6" pigtailed
- Magnet mount model supplied with a 10' straight cord and cigar plug with LED indicator On/Off and pattern control switches

Operates on  
12 or 24VDC

Item #	Description	Price

### ACARI™ ROOF TOP MOUNTING PLATFORM

The ACARI™ allows various devices to be installed on a vehicle that would otherwise be attached directly through the top of the truck cab. It has clamps that enter the cab roof through the center high mount brake light opening and tighten down on the vehicle to form a rigid, rugged platform without drilling holes or marring the vehicle's finish.

- Gasketing system allows all wiring to run into the vehicle in an enclosed environment
- Manufactured from 6063 aluminum alloy with a durable clear anodized finish

\*Specify vehicle when purchasing

Item #	Description	Price
RTM-101	22" Rooftop Platform	\$269.00 ea
RTM-201	28" Rooftop Platform	\$289.00 ea
RTM-301	34" Rooftop Platform	\$299.00 ea

Lights not included.

## JUSTICE® SUPER LED® LIGHTBAR

Everything you need, nothing you don't. The Justice® Series was designed for simplicity and flexibility. Each section of the bar can be accessed by simply removing four lens screws - making upgrades, color changes and service a breeze. Packed inside its sleek exterior are Whelen's proven Super-LEDs®, providing maximum lighting protection and reliability.

- Utilizes compact, high-output LR-11 Takedown and Alley lights to maximize space for LED lighting
- Center section available with either a single CON3™ or two LTR3s™ (for split color center section)
- Built upon a black poly carbonate base on an extruded aluminum platform for exceptional durability
- Clear outer lens standard with a moisture resistant compression fit gasket
- Corner modules available with 6 or 9 Super-LEDs®
- 12" wide and only 2-1/4" high (without mounting feet)

**Two series available:** WeCan™ and Competitor™

**WeCan™** offers built-in Traffic Advisor™ control, independent flash pattern plus phase control of each individual lighthouse and optional flashing Takedowns and Alley lights.

**Competitor™** Series offers front, rear and all bar operation control, optional Scan-Lock™ flash patterns, Alley lights, Takedowns or flashing Takedowns, low power operation and optional Traffic Advisor™ with control head.

### WHELEN LIBERTY™ II LOW PROFILE SUPER-LED® LIGHTBAR

Designed with Whelen's Collimator™ patented optic design which provides unbeaten light output. Plug & Play into Whelen or vehicle manufacturer controllers. Photocell automatically dims the lightbar at night and still meets SAE Class 1 requirements in low power mode. Options include rear single color or DUO+™ Traffic Advisor™. Take-downs are available in 3, 6, or 12 Super-LED® modules. The aluminum top repels hail and other environmental damages and each model has one or two sealing points, assuring lightbar integrity in all weather conditions.

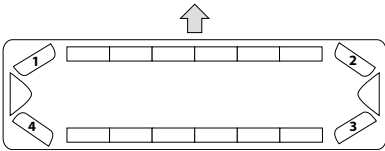

- 30% more illuminated surface area on all warning modules, including corner and inboard modules
- 5 Year HDP® Heavy Duty Professional warranty on LEDs and internal electronics
- LEDs rated for an incredible 100,000 hours of operation!
- Built-in flasher function for Takedowns and Alleys, and control for Traffic Advisor patterns
- Extruded aluminum chassis, providing superb strength and stability
- Lower profile feet for a stealth appearance, with standard clear lenses, making it almost undetectable - until you want to be seen
- Colored filters available for full customization
- Alternate center options are available: color domes for center and end sections with alley window and more
- Dimensions: 2-3/4"H x 12"D x 48.5 or 54"L . Available with standard or low profile mounting feet

## WHELEN DUO LIBERTY™ II LIGHTBAR

The Duo Liberty is Whelen's next big step in lightbar technology. It has all the great features of the standard Liberty, but takes light output one step further: its modules are able to flash different colors, making it multiple lightbars in one. This allows you to use those lighthoods as, for example, a sequential amber Traffic Advisor when on the side of the road and then those same lighthoods as red and blue warning when in pursuit mode.

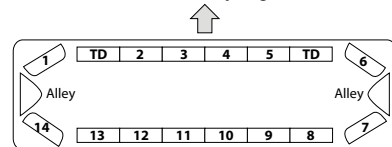

- 30% more illuminated surface area on all warning modules, including corner and inboard modules
- 5 Year HDP® Heavy Duty Professional warranty on LEDs and internal electronics
- Built-in flasher function for Takedowns and Alleys, and control for Traffic Advisor patterns
- Extruded aluminum chassis, providing superb strength and stability
- Lower profile feet for a stealth appearance, with standard clear lenses, making it almost undetectable - until you want to be seen
- Alternate center options are available: color domes for center and end sections with alley window and more
- Dimensions: 2-3/4"H x 12"D x 48.5 or 54"L
- Available with standard or low profile mounting feet

# WARNING LIGHTS

## Lightbars

**NEW**

The Legacy LED Lightbar was designed from the rugged extrusion up to maximize the performance of the hottest LED on the market.

### WHELEN LEGACY™ ALL DUO+™ SUPER-LED® LIGHTBAR

All warning lighthoods are True DUO+, whether one color or two. Each segment can be operated independently or at the same time, creating the first true DUO lightbar, without the loss of intensity. Ideal when you want to run a Traffic Advisor™ and rear warning at the same time, giving the performance of two lightbars in one.

Newly designed, high-output one-piece linear combo “Multi-Angled” corner modules produce light forward and rear at the critical 45° angles. The four combo modules produce 360° warning signals.

- Lower profile than Liberty but with increased intensity
- New Diamond Optix™ (Patent Pending) linear reflector optic design
- Optional take-downs are available in a 3-LED or 6-LED modules
- Optional alley or DUO+ integrated alley and warning light module ensures no dead spots, no gaps... 360° of continuous light
- Only DUO+ lets you operate the alley and the warning at the same time, full intensity

DUO+ lets you flash the lightbar in multiple colors

Legacy lightbar molds to the vehicle's roof

Complete light coverage with no dead spots between modules

**One piece** UNI-DOME construction with a single sealing point. Each dome slides onto the aluminum extrusion and wraps around all internal components while the wiper seal protects your lightbar from the worst elements.

**Legacy is the first lightbar** with a photocell to automatically dim at night and still meet SAE Class I requirements in low power mode.

Standard lengths: 44", 48" and 54". Height without mounting feet is only 1-5/8".

Multi angled combo corner modules produce light straight out and to front and critical 45° angles

## Lightbars

### CODE 3 DEFENDER® LIGHTBAR

The Defender™ lightbar features the truly unique, patent-pending TriCore™ technology which constitutes a quantum leap forward in signal brightness - far exceeding the intensity and quality of any system.

- 2-2.5 times brighter than any lightbar at key 45 and 60 degree intersection angles
- Far brighter alley and takedown lights than traditional halogen or LEDs
- 2 times brighter signal from rear of the lightbar
- Improved central control circuitry and thermal management
- Improved control of signal brightness - dimming mode meets SAE safety standards
- Universal lighthouse and modular lens design makes service simple
- Unique gasket sealing system and solar barrier keep the bar looking like new
- Dimensions: 47" L x 13.5" D x 2.25" H

Meets all applicable SAE, NFPA, California Title 13 and ECE65 specifications when properly configured.

Item	Description	Price

### CODE 3 RX2700™ CC LIGHTBAR

This lightbar Code 3's PriZm™ II lighthoods, which are a custom designed, full-size parabolic reflector offering a premier fill, straight on and off-angle warning signal. They also include the Central Controller for simplified lightbar control.

- Powerful alley and takedown lights don't interrupt the primary warning signal
- New IMPAXX™ LED takedown and alley lights provide officer safety during traffic stops
- Colored IMPAXX LED lights offer additional off-axis warning if takedown or alleys are placed in the main lightbar
- The HotFoot takedown and alley lights can be adjusted horizontally based on officer preference

## FEDERAL SIGNAL LEGEND® LPX LIGHTBAR

Legend LPX is a low-profile lightbar that is populated with Federal Signal's Solaris® LED reflector design which utilizes powerful LEDs to provide 360-degrees of coverage plus superior off-axis light output. The LPX series utilizes the patented ROC (Reliable Onboard Circuitry™) technology for solid-state construction. This rugged design is engineered to supply extended service life by utilizing fewer parts.

- Solaris® LED reflector technology
- Patented ROC (Reliable Onboard Circuitry™) technology
- LEDs offered in Amber, Blue, Green, Red, and White
- Built-in SignalMaster, front/rear cut-off, intersection warning and "dimming" functions
- Same flash patterns and controller options as standard Legend lightbars
- Available in 45", 53" and 61" lengths

**NEW**

## FEDERAL SIGNAL LEGEND® LIGHTBAR

Legend uses the patented ROC (Reliable Onboard Circuitry™) technology for solid state construction. ROC eliminates 85% of potential failure points found in a typical lightbar. This rugged design is engineered to reduce repair costs and increase the hours your emergency vehicle stays on the road.

- Low-profile, linear LED lightbar
- FS Convergence Network provides "plug-n-play" installation
- Lightbar can be reconfigured on the vehicle
- Three-button and six-button serial controller available for light control only
- 24", 45", 53", 61" and 70" lengths fit a wide variety of vehicle sizes
- LEDs offered in Amber, Blue, Green, Red and White

## Undercover Lighting

### INNER-EDGE™ UNDERCOVER LED LIGHTING SYSTEM

Whelen blazes a path, again, with the latest addition to their lightbar family: the Inner-Edge™. This lightbar features a low-profile design, rugged housing, and, most importantly, superior LED technology. Available for a variety of late model Ford, Chevy and Dodge police vehicles.

- Easily installs to visor anchor points without drilling holes
- Full featured lightbar that is virtually undetectable when not in operation
- Super-LEDs® are low current and vibration and moisture resistant for reliable, long-life operation
- Scan-Lock™ feature provides multiple flash patterns
- Available with LED Takedowns or additional warning LEDs instead at no cost on most models
- Furnished with both TIR3™ & LIN3™ optics inserts that can be installed over 3-LED heads to provide a greater variety of light production

Item #	Description	Price

### INNER-EDGE™ LOW PROFILE FORWARD FACING SERIES

**NEW**

NEW XLP extra low profile, 3 LED models with low current switching, removable lens for spot pattern, and low power. XLP housing is shorter and thinner, mounting closer to headliner and windshield for more interior room. Mirrored shroud on driver's side, is available on split models with eight and ten lamps, making it easy to view traffic lights and overhead signs.

- Meets SAE and California Title XIII specifications
- Low profile two piece housings with 3-LED or 6-LED series lighthoods
- Housings are available as single units, slit two piece sets with individual driver and passenger side units or as a single passenger side unit
- Each section houses either five lighthoods or four lighthoods and one Super-LED flashing take-down
- Additional TIR3™ and LIN3™ lenses are supplied with 3-LED models for customizing light dispersion

The Inner Edge fits late model Ford Expedition, Explorer, Police Utility Interceptor, F150/250/350, Fusion, Taurus and Police Interceptor Sedan; Chevy Caprice, Impala, Suburban, Tahoe, Silverado, Dodge Charger, and Durango police vehicles. One piece version fits Ford Expedition, Chevy Suburban, Silverado and Tahoe.

### PREMIUM INNER-EDGE™ UNDERCOVER LED LIGHTING SYSTEM - REAR FACING

Premium Inner-Edge lightbars share all the same characteristics of the standard lightbars: a low-profile design, rugged housing, and easy installation. What sets them apart is their enhanced light output capability. They utilize the LINZ6™ Super-LED®, the latest compact lighthouse design from Whelen, which packs 6 diodes into a head that used to hold 3. The optics are also designed to produce light 180° around the face of each lighthouse.

- Easily installs to visor anchor points without drilling holes
- Super-LEDs® are low current and vibration and moisture resistant for reliable, long-life operation
- Scan-Lock™ feature provides multiple flash patterns
- Available with LED Takedowns or additional warning LEDs at no cost on most models

### FLEET RACK™

Designed for mounting emergency and auxiliary lighting without wire clutter or holes in your truck body!

And because you do not have to pre-drill any holes in the rack, fleet managers will appreciate the well thought out design of this rack for functionality, ease of up-grade and/or transfer from vehicle to vehicle.

- Mounts full size or mini lightbars, beacons, Traffic Advisors™, auxiliary lighting and flood or spot lights
- Pre-drilled access holes accommodate full size lightbars to single beacons
- Advanced design with four vehicle specific models to ensure a perfect fit on your truck
- Slim design takes up minimal bed cargo space
- Black powder coating protects against corrosion, scratches and dings
- Rugged heavy-duty 11 gauge steel tubular framing
- Impervious to weather extremes
- The bolt on system moves easily from vehicle to vehicle
- Models available for Chevrolet Silverado and 2500; Ford Super-Duty, and Ford F150, specify upon ordering
- Heavy-duty screens and window guards protect the driver and passengers of the vehicle
- Window screen is designed not to block the visibility through the rear view window
- \*Lightbar not included\*

### WHELEN VERTEX™ 360 LED LIGHT

Only 7/8" height, this small hemispheric LED lighthouse is perfect for most applications where size and intensity are critically important. Self-contained unit using an in-line combination lamp driver/flasher. This new self-contained LED Hideaway requires only a one inch hole in any composite style head light, cornering light or tail light assembly to deliver true wide angle warning to the front, side and rear of your vehicle... without interference to your vehicle computer and warning equipment! Less than 1" tall, it may also be surface mounted to outside surfaces anywhere on the vehicle!

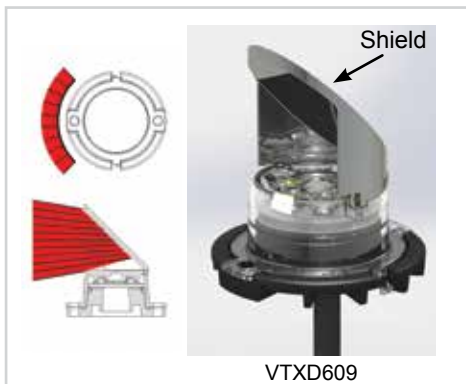

- Ultra small, self-contained, hemispheric LED light, for surface mount or internal mount within composite head-light, cornering lights and taillight assemblies
- Flange kit options in Black or Chrome allow easy surface mounting anywhere on your vehicle
- 25 Scan-Lock™ flash patterns, includes synchronize feature for alternating and synchronous flashing of multiple lamps
- New lens technology enhances light distribution for optimum dispersion and intensity of the warning signal at critical angles
- Includes pre-wired and sealed 4-C/22 gauge 9' cable to the lighthouse and lamp driver, with power, pattern and synchronize wires
- Lamp and in-line lamp driver are fully encapsulated for moisture and vibration resistance
- Omni-directional lighthouse mounts in any position (orientation), vertically or horizontally
- 10-16 VDC.
- Virtually no RFI/EMI noise emitted, meets SAE J1113-41 Class 5
- Two screws hold the lamp securely in place
- 1" hole makes this LED module backwards compatible to HA238 and standard 1" Hide-A-Way style lamps
- Simple installation with no separate lamp drivers, flashers, ballast or power supplies to install

Available in red, amber, white and blue and split colors. LED color must match color of the lens it is installed behind, except for Clear lens and split colors.

## Switch Controls

### WHELEN 9-POSITION SWITCH CONTROLS

4 position, 3 function slide switch and 6 push buttons combined to provide a single source for lighting control. Both models offer a momentary contact switch on the 6th push button for low power, trunk lock or gun lock control. Includes bail mounting bracket and 72 stick-on function labels.

Model specific features:

**PCCS9NP:** programmable, progressive slide switch. For use with Whelen's low current style lightbars ONLY (each switch rated for 1/4A).

**PCCS9RW:** 9 built-in 30 amp relays. Can be used with any manufacturer's lightbar.

Item #	Description	Price
PCCS9NP	9 Position Switch Control	\$239.00 ea
PCCS9RW	9 Position High Current Switch Control	\$215.00 ea

### 6-SWITCH CONTROL CENTER

- One 40 amp master and five 20 amp SPST switches
- Backlit legends for nighttime visibility
- Black epoxy-finished steel housing
- Includes 72 stick-on legend tabs and bail mounting bracket
- Dimensions: 2-1/2" H x 6" W x 4-3/4" D

Item #	Description	Price
PCC6W	6 Switch Control Center	\$129.00 ea
PCC6W1	5 Switch + 1 Momentary	\$129.00 ea

### 10-SWITCH CONTROL CENTER

- Ten 25 amp SPST switches
- Backlit legends for nighttime visibility
- Black epoxy-finished steel housing
- Includes 72 stick-on legend tabs and bail mounting bracket
- Dimensions: 2-1/4" H x 6" W x 3-9/16" D

Item #	Description	Price
PCC10W	10 Switch Control Center	\$159.00 ea
PCC10W1	9 Switch + 1 Momentary	\$176.00 ea

### HIGH CURRENT SWITCH BOXES

- Fully-enclosed switch box has four or six lighted, single-pole-single-throw rocker switches
- Durable, black powder-coated steel housing
- Switches are individually fused and pre-wired for easy installation
- 4 Position switch box includes one 40 amp primary switch and three 20 amp switches. Dimensions: 2-1/4" H x 4-1/2" W x 3-7/8" D
- 6 Position switch box includes one 40 amp primary switch and five 20 amp switches. Dimensions: 2-1/2" H x 6" W x 5" D

Item #	Description	Price
05.4000	4 Position Switch Box	\$69.00 ea
05.6040	6 Position Switch Box	\$159.00 ea

### 8 FUNCTION KEY PAD CONTROL CENTER

**WHELEN**

This control center features a compact key pad controller that connects to a remote relay box, allowing you to control multiple lighting devices without a bulky control head taking up usable space under the dash or elsewhere in the cabin. The key pad controller can be mount virtually anywhere, ensuring it is within quick, comfortable reach.

- Eight function control center with three 20 amp relays and five 10 amp relays
- Push-On/Push-Off or momentary activation switches
- LED back lighted membrane switches are designed with a solid rubber overlay for moisture resistance
- Key pad controller dimensions: 2-1/2" H x 4-3/16" W x 7/8" D
- Relay box dimensions: 1-1/4" H x 7-1/4" W x 4-3/4" D

Item #	Description	Price
PCC8R	8 Function Controller w/ Remote Relay Box	\$269.00 ea

### FEDERAL SIGNAL SWITCH CONTROLS

SW400SS switch control provides switching for seven separate lighting or auxiliary functions. Each unit has a three position slide switch and four auxiliary switches.

The slide switch can quickly activate functions or combinations in a progressive sequence. Slide switch positions 1 and 3 each have a 20 amp relay and are fused at 20 amps. Position 2 has a 40 amp relay and a self-resetting 40 amp circuit breaker. The four 20 amp auxiliary switches enable users to activate additional functions from the same panel. Plastic legends can be easily popped out and replaced when control functions change.

Model SW300 has six lighted single-pole, single-throw (SPST) rocker switches for control of virtually any type of lighting function. Switch 1 controls rotating lights and comes prewired to a 40-amp relay and self-resetting circuit breaker. Switches 2-6 have 20-amp capability and are fused on a 20-amp circuit. These five blade-type fuses are mounted on the back of the switch control housing and correspond in sequence to the switches they control. This makes it easy to find any blown fuse for replacement.

Item #	Description	Price
SW400SS	Controller w/ Slide Switch and (4) 20A Switches	\$239.00 ea
SW300-012	Controller w/ Six Rocker Switches	\$189.00 ea

# VEHICLE ACCESSORIES

Sirens

## 200W PROGRAMMABLE SIREN/LIGHT CONTROLLER

The most customizable, user-friendly siren that Whelen offers.

It shares all of the same great features of the 295SL series plus more!

**WHELEN**

- 9 switch light control: progressive three function slide switch & 6 rubber push buttons
- Slide switch is programmable
- Push buttons are programmable for use as Push On/Off, Momentary, or Timed Output
- 17 Scan-Lock™ siren tones to choose from
- Programmable siren and override tones in any rotary switch position
- Master switch programmable for On/Off operation of the siren only, or siren and switch function. Park kill and timed out relay.
- High current switching: slide switch activates 20A output, each push button activates one 10A output
- LED backlighting
- Dimensions: 3-5/16" H x 6" W x 7" D

**Hands-Free. Most customizable siren on the market!**

Item #	Description	Price
295SLSA6	200W Programmable Siren w/ 9 Switch Light Control	\$499.00 ea

## CENCOM SAPPHIRE™ SIREN AND LIGHT CONTROL SYSTEM

Convenience, reliability and practicality all merge to form this one-of-a-kind controller. Eliminate clutter in your console by controlling your entire warning system from one keypad. Many of its functions can be modified through a user-friendly program, for complete customization, right from your PC!

- Control head includes 3 position slide switch (one 40A and two 20A outputs) and 18 programmable, backlit rubber push buttons with bright LED On/Off indicators
- Operates two 100W speakers
- The single Amplifier/Relay Module (ARM) provides a centralized power point with externally accessed fuses and connectors for ease of service
- Easy to configure using Windows® XP application program (included) that features "drag and drop" programming
- A USB port in the ARM provides easy access for programming
- On/Off, momentary, eight second timer and security double-tap eight-second timer can be programmed through seven switches individually
- Single 20 foot, 8-conductor, 22-gauge cable connects Control Head to AMR for heavy duty service and decreased installation time

**NEW**

**WHELEN**

- Three models to choose from for compatibility with Traffic Advisors™:
  - CCSRN3: operates 2-wire TAs that *do not* require external controls
  - CCSRNTA3: for interface with TAs that *do* require external controls
  - CCSRNT3A: Same as CCSRNTA3, Except with 8 (Positive or Negative) Input Expansion Module, 12 Total Inputs
- 2 year warranty on the system, 5 year on the amplifier
- Includes 136 function labels, twenty foot power and input/output cabling with connectors and bail mounting bracket
- Control head dimensions: 3-1/2" H x 6-7/8" W x 1-5/16" D
- Amp dimensions: 3" H x 8-1/4" W x 3/4" D

CCTRIM	Trim Ring Option (for semi-flush mounting)	\$46.00 ea

### PA640 100 WATT SIREN W/ LIGHT CONTROL

Crystal controlled microprocessors, integrated circuits, and silicon based output transistors work together to make the PA640 the most reliable, most versatile, totally enclosed siren/light controller available. Wail, Yelp, Priority or Hi-Lo, Manual Peak-and-Hold and Air Horn are all standard tones and can be enabled by a heavy-duty five position rotary switch.

- 100-watt output and 80-amp total switching capacity
- Public Address with volume control
- Meets Class A and SAE J1849 sound output requirements
- Internally programmable tones, switch functions and relay outputs
- Reversed polarity and "dynamic" short circuit protection
- Horn Ring Transfer (HRT) and two built-in flashers included
- Dimensions: 3" H x 6.8" W x 7.75" D

Item #	Description	Price
PA640	PA640 100 Watt Siren/Light Control	\$499.00 ea
PA300	PA300 100 Watt Siren w/o Light Control (Not Pictured)	\$339.00 ea

### XCEL SIREN

Designed and Manufactured in the USA, the XCEL siren offers a host of new features that were designed to make it easy for the officer to use as well as for the installer and service technicians to install.

- 3-Level slide switch can be programmed as independent, semi-progressive, or progressive giving you more options when configuring your siren
- Unique programming features including latching of Auxiliary buttons to level outputs allow the officer to keep their eyes on the road for longer periods of time
- Backlighting on buttons can be adjusted to the officer's preference
- Program CA T13 compliance with the flip of a switch
- Positive or Negative Park-Kill and Horn-Ring Transfer triggers allow for easy installation on all vehicle types

Item #	Description	Price
3492L6S	Full Featured 12V XCEL Siren with Light Controls	\$499.00 ea

**NEW**

### EPSILON™ 200 WATT SIREN

The Epsilon Siren Series provides a wide range of features in a low cost siren that meets SAE Class A sound requirements and is California Title 13 compliant. It features hands-free operation/override through the horn ring, public address and multiple selectable Scan-Lock™ warning tones. It provides lighting control through one 3-function slide switch and six rocker switches.

Item #	Description	Price
EPSL2S9	200 Watt Siren Amplifier w/ 9 Outlets	\$399.00 ea

### 200 WATT MASTERCOM B SIREN/LIGHT CONTROLLER

This MasterCom B siren features built-in lighting control with a 3-level progressive slide switch and 6 push-on/push-off buttons.

- Wail, Yelp, Hyper HiLo, HiLo, Hyper Lo, Air Horn and Radio Rebroadcast
- Instant On
- Adjustable backlighting
- Selectable Hit-N-Go or horn ring scroll mode
- Park Kill, for both lighting & siren
- Includes mounting bail and legends for push buttons
- Automatic short circuit protection

## CODE 3 H2 COVERT™ REMOTE SIREN SYSTEM

This Code 3 siren comes with eight ear-busting tones that will be heard from miles away. With its programmable features, it becomes much more user friendly.

- Sirens: wail, yelp, hi-lo, hyper-lo, hyper-yelp, whoop, manual wail & air horn
- PA with built-in noise canceling mic
- Radio rebroadcast
- Stand-by
- Siren scroll
- Siren park kill with level 3 Drop-Out option\*
- Horn ring transfer
- Vehicle light control buttons (3 progressive, 4 auxiliary)
- All buttons are backlit with on/off color change
- Push button programmable siren tones
- (2) programmable airhorn pitch tones
- 25' extension cable
- Volume control thumbwheel on hand-held controller
- Siren lock – level 3
- Timed output functions for gun lock operations
- Additional dip switches for optional functions via special order

**NEW**

Item	Description	Price
3599L5	8 Siren Tones, Programmable	\$429.00 ea

## HAND HELD SIREN/LIGHT CONTROLLER

Now you can easily control all light and siren functions from this compact, hand held controller with built-in microphone. Moisture-resistant controller features twelve rubberized, backlit push buttons including progressive three-position push button lighting operation. The amplifier is microprocessor controlled and rated for one or two 100W speakers. The compact controller is ideal for multiple applications including undercover vehicles and vehicles with limited cabin space.

- Hands free siren control through the horn ring
- Twelve easy-to-use illuminated push buttons feature green backlighting that turns to red when activated
- User selectable switch labels
- Progressive three position push button replaces slide switch for lighting control
- Wail, Yelp, Piercer, Manual Siren and Airhorn tones, standard
- Adjustable preset microphone and radio repeat volume
- Mechanical siren tone option
- Nine 10 amp outputs
- Includes 6' coiled cord microphone cable and 20' interconnect cable and programming software

### AS124 ECONOMY SPEAKER

The Federal Signal AS124 series speaker uses advanced housing material and a field-replaceable neodymium driver to provide effective, high quality sound at an affordable price.

Its housing is made from a revolutionary material known as P.E.T. (polyethylene terephthalate) making it lightweight and corrosion and heat resistant.

The speaker can be mounted horizontally or vertically by using supplied stainless steel bolts an associated hardware and is compact enough to mount in a wide variety of locations around your emergency vehicle.

- Meets or exceeds SAE/CCR sound requirements
- Dimensions: 7.7" W x 5.7" H x 4.45" D
- Weight: 6lbs, without mounting hardware

Item #	Description	Price
750501	AS124 Economy Speaker	\$147.00 ea

### DYNAMAX™ SPEAKERS

Federal Signal is making changes to improve the overall design of our popular DynaMax® speaker product line. The most noticeable change is to its housing. DynaMax speaker models currently incorporate an aluminum housing. Soon, DynaMax (ES100C) models, will incorporate a composite plastic housing. As a result, the new ES100C will be lighter in weight and have less depth than current ES100 models. The ES100C has the same impressive 100-watt neodymium driver and produces an increased dB rating.

- Dimensions: 5.8" H x 5.8" W x 2.6" D
- Weight 5.5lbs
- Composite plastic housing

Item #	Description	Price
ES100C	Dynamax™ 100 Watt High Output Speakers	\$199.00 ea

### CODE 3 C3100 SERIES 100 WATT SPEAKERS

- Compact, low profile design
- Neodymium magnet driver for maximum efficiency
- Glass-filled nylon housing makes the C3100 lightweight, yet rugged and weather resistant
- Impedance: 11 ohms @ 100 watts
- Compliant with SAE J1849 and CA Title XIII when used with Code 3 sirens (except models 3000 or 3050)
- 120 dB @ 3 meters
- Dimensions: 6-3/8" H x 6-3/8" W x 3-3/16" D
- Weight: 6.1 pounds

Mounting brackets available for most vehicles.

Item #	Description	Price

### ALPHA™ 12R REMOTE SIREN

- Meets Class A requirements with most 100W speakers
- “Hands-Free” operation allows tone selection through horn ring
- 4 siren tones: Wail, Yelp, Piercer, Air Horn
- Controlled by Whelen switches (Alpha1-4, purchased separately) or customer supplied switches
- Easy to install, service or transfer with quick disconnect plugs
- 2 Year Warranty
- Dimensions: 7” W x 4” D x 2-1/4” H

Item #	Description	Price
ALPHASL	Alpha Remote 100W Siren Amplifier	\$189.00 ea

### REMOTE SIREN SWITCH CONTROLS

**WHELEN**

Item #	Description	Pricing
ALPHA1	Single On/Off Switch for “HF” Operation/Tone Control	\$26.00 ea

ALPHA3	Single On/Off/On Switch w/ Air Horn Button	\$26.00 ea
ALPHA4	1 On/Off and 1 On/Off/On Switch w/ Air Horn button	\$47.00 ea

Includes “L” mounting bracket.

### WHELEN COMBINATION SIREN/SPEAKER

- Heavy-duty compact 30-watt amplified siren ideal for use on motorcycles, ATV’s, snowmobiles, etc.
- Hands-free operation for wail and yelp tones
- Two way “L” mounting bracket
- Rugged aluminum housing plus water-resistant connectors
- Dimensions: 4-5/16” H x 5-7/16” W x 4-5/8” D

Item #	Description	Price
WSSC30	30 Watt Siren & Speaker Combination	\$169.00 ea

### IDLERIGHT2™ IDLE REDUCTION SYSTEM MODULE

The new generation Idleright system is designed to reduce engine wear, greatly extending the service life of vehicles. Ideal for vehicles that run light bars for extended periods of time while the vehicle is parked. The system is designed to reduce fuel consumption, greatly reducing operation expenses up to 80%

- New universal approach works with existing aftermarket starter technologies
- Installation is greatly simplified, reducing cost and complexity
- Not compatible with vehicle manufacturer (OEM) remote start systems

IR-1002 system is compatible with aftermarket remote starters that are equipped with a negative or positive “activation input”. Some manufactures for reference: Avital, Clifford, Python and VIPER. Contact your remote start installer to determine if a interface module is available for your specific vehicle. If interface is not available, then an additional aftermarket remote start system is required.

Item #	Description	Price
IR-1002	IDLERIGHT2 Idle Reduction System	\$129.00 ea

### THE GRIP IDLE MANAGEMENT SYSTEM™

The GRIP (Governor to Reduce Idle and Pollution) Idle Management System has been created to manage the time that a vehicle spends idling. By using the GRIP system to transfer operation from the engine to the battery when idling, you can: save fuel, reduce carbon emissions, reduce overall operation and engine maintenance, and extend the life cycle of the engine. The Grip system works in conjunction with the vehicle's Controller Area Network (CAN) and receives real-time data on the vehicle's function, making decisions to shut the engine on and off via the GRIP's PLC (Programmable Logic Controller).

**NEW**

#### GRIP SYSTEM KEY FEATURES

- Interior vehicle temperature and battery voltage monitored and maintained during shutdown
- GRIP will only power off the engine while the vehicle is in park or neutral gear position, never while stopped temporarily
- Operator sets and controls climate comfort level
- Optional anti-theft allows vehicle to be monitored securely while operator is out of vehicle
- All vehicle safety systems and auxiliary equipment such as airbag remain active while GRIP shuts vehicle down
- Programmable to meet your fleet's needs
- Easy, non-invasive installation
- Improved environmental metrics for your fleet and business
- The CanFox Cable connects GRIP controller to a computer, allowing for use of the GRIP Diagnostic System (GDS) as well as the Electronic Management Analysis Tool (EMAT).
- GDS allows technicians to see GRIP functions in real time which assists in troubleshooting
- EMAT system converts vehicle metrics collected by GRIP into simple charts for better analytics and function monitoring
- Recycling program allows GRIP to be re-installed on another vehicle
- The basic system contains the following: Controller, Screen, Hood Pin and Temperature Sensor

#### HOOD PIN

The hood pin is a safety feature for servicing the vehicle. The hood pin needs to make contact with a magnet installed on the hood in order for the GRIP system to control the vehicle. This is very important as service can be performed on the vehicle with the hood up. The GRIP will not be able to start the vehicle. The only way to start it at this point would be manually with a key. An icon will appear on the screen when the hood is up for additional safety.

#### TEMPERATURE SENSOR

The temperature sensor transmits the temperature of the cabin to the controller. It is positioned in the vehicle to obtain an optimal reading to ensure accuracy for increased operator comfort.

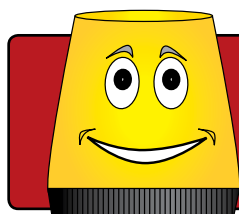

#### OPTIONS & ACCESSORIES

- Coolant Pump Kit
- Auxiliary Heater (Gas or Diesel-Fired)
- Anti-Theft Features
- Remote Start Kit
- Solenoid
- High Current Kit
- Audible Alarm Kit
- Auxiliary Air Conditioning
- CanFox Cable

#### Big Benefits!

- Save Fuel
- Reduce Co2
- Reduce Operation

Contact us to learn more about this robust system and for configurations and pricing.

# VEHICLE ACCESSORIES

## Throttle Control & Power Control

VoltGuard Low Voltage Actuator Model 70-VG

### VANNER AUTOMATIC THROTTLE CONTROL

Vanner's Automatic Throttle Control System increases engine RPM, only while in park or neutral, in order to provide higher output of the alternator under heavy electrical loading conditions. Autothrottles can be used on many types of vehicles and are an excellent choice for applications using DC to AC inverters.

Item #	Description	Price
70-VG	VoltGuard® Low Voltage Autothrottle Actuator	\$214.00 ea
73-46	Heavy Duty Automatic Throttle System, includes solenoid/cable assembly and control module assembly	\$360.00 ea
73-48	Accessory Kit, includes ON/OFF toggle Switch, 02264 diode, 8 amp slo-blo fuse and holder	\$40.00 ea

### VANNER BATTERY ISOLATORS

Vanner battery isolators are designed to allow dual battery systems to be charged from a battery charging source while preventing one battery from discharging the other. This protects the engine battery from being discharged by an auxiliary battery operation. Silicon Diode and the low voltage Schottky Diode isolators are available in several current ratings.

- Dimensions: 2-1/2" H x 4-1/2" W x 8" D

Item #	Description	Price
50-140	Silicon 2-leg Isolator, 180 amp alt/165 amp per leg	\$138.00 ea
51-140	Schottky 2-leg Isolator, 250 amp alt/200 amp per leg	\$199.00 ea

### VANNER AMBULANCE INVERTER/CHARGER

- 1050 watts of precisely regulated AC power and a 55 amp battery charger when plugged into shore power
- Meets new GSA K-spec for charging and DC power
- Operates DC loads and check-out lights with a built-in 20 amp power supply, eliminating the need for a secondary DC power source
- Fully-integrated interface module (IFM1) for simplified wiring and reduced labor time & space
- Output wave form: modified sine wave

Item #	Description	Price
20-1050CUL-DC	Ambulance Inverter/Charger, 1050 Watts	\$1,299.00 ea
20-1000TUL-DC	Ambulance Inverter w/out Charger, 1050 Watts	\$1,399.00 ea

### WARNING LIGHT FLASHERS

Vanner's heavy-duty electronic flashers are designed to meet the demanding needs of emergency response vehicles. These flashers are short-circuit protected, provide silent operation and are sealed for protection against the elements and vibration. They produce a variety of lighting patterns and sequences and are available in a broad range of amperage ratings.

Item #	Description	Price
3250GCPE	2 Outlet, 100 Amp Output Alternating Electronic Flasher	\$119.00 ea
3840GCPE	Flasher, complies with AMD and GSA KKK-A-1822 B/C Specs	\$139.00 ea
3860GCPE	Flasher, complies with AMD and GSA KKK-A-1822 C/D/E Specs	\$149.00 ea

### D&R PDU42WB

The Power Distribution Unit with built-in Watchdog shutdown timer is designed to provide a safe and central power point for all electrical devices, reducing the need for independent wire runs within the vehicle. Each circuit can be individually fused, further reducing risk of damage to sensitive electronic devices, and has a red LED to indicate a blown fuse or equipment problem. The PDU provides constant ignition and timed outputs to meet all operational requirements. The timed outputs provide the ability for automatic shutdown of devices such as mobile radios, modems and computers before they drain the battery dangerously low. The time is user-selectable and ranges from 2 minutes to 13 hours (after ignition key is removed).

Dimensions: 5" W x 1-1/2" H x 12" L

Item #	Description	Price
PDU42WB	PDU w/ Watchdog Shut Down Timer	\$275.00 ea

### D&R PDU-8S

This power distribution unit provides you with the power inputs and the power outputs that will enable you to have an organized and reliable display of powered equipment.

- Monitors battery voltage
- Preserves enough charge to start your vehicle
- Automatically disconnects battery
- Simply press button to reconnect

**NEW**

Item #	Description	Price
PDU8S	Power Distribution Unit	\$325.00 ea

### THE BATTERY BRAIN™

The Battery Brain™ from Smart Energy Solutions protects your vehicle's battery from overdraw to ensure there's always enough charge to start the vehicle. Plus, with its automatic disconnect feature, the Battery Brain™ doubles as an anti-theft device!

- Monitors battery voltage
- Preserves enough charge to start your vehicle
- Automatically disconnects battery
- Simply press button to reconnect

Item #	Description	Price
BB412S	Battery Brain Battery Protector	\$99.00 ea

### CHARGE GUARD AUTO SHUT-OFF TIMER

ChargeGuard works by automatically turning mobile equipment on when you start the engine. When you turn the engine off, the equipment stays on for an adjustable period of time, then is automatically disabled.

- Self-contained unit that provides intelligent circuit protection for a vehicle's power system
- Protects mobile electronics from voltage anomalies
- Programmable timer cuts power to electronics to prevent dead batteries
- Regulated by a programmable timer
- Prevents dead batteries
- LED indicates under and over voltage conditions

**NEW**

Item #	Description	Price
CG-X	Chargeguard Auto Shut-off Timer	\$89.95 ea

## Power Control Systems

### POWERVERTER ULTRA-COMPACT INVERTER

Harness your vehicle's battery to efficiently power small appliances, electronics and office equipment on the road. Continuously supplies up to 700 watts of 120V AC power to 3 AC outlets from any 12V DC power source. Featuring an ultra-compact, lightweight design and an all-metal housing, the PV700HF is among the smallest, most rugged inverters available. Provides a quiet alternative to generator noise and fumes.

- 700 Watts continuous output power; 1400 Watts peak output power (instantaneous)
- 3 AC outlets
- Ultra-compact extruded aluminum housing stands up to the toughest environments
- Cooling fan lengthens inverter service life and maintains cool operation
- Integrated mounting feet assure safe, fixed installation
- Low battery alarm/shutdown detects low battery voltage and shuts down inverter
- Overload alarm/shutdown detects wattage overload on inverter outlets and shuts down inverter as a protective measure
- DC input terminals provide a solid connection to battery with user-supplied cables
- Lighted on/off switch shows inverter operations in cramped or dark environments

Item #	Description	Price
PV700HF	700W PowerVerter Ultra-Compact Inverter	\$129.00 ea

### POWERVERTER® 375 WATT ULTRA-COMPACT INVERTER

Harness your vehicle's battery to efficiently power office equipment on the road. Continuously supplies up to 375 watts of 120V AC power to 2 AC outlets from any 12V battery or automotive DC source. Convenient cigarette lighter DC input jack with 3-ft. cable provides 1-step installation. Portable and compact, the inverter's design is among the most rugged available due to its all-metal housing.

- Ideal for laptops, portable electronics, cell phone chargers and personal printers
- 375 watts continuous output power; 600 watts peak output power (instantaneous)
- 3-ft. cord with cigarette lighter plug
- Low battery alarm with auto-shutoff preserves vehicle battery
- Overload alarm with auto-shutoff prevents wattage overload
- Replaceable fuse protects inverter from overload
- 1 year manufacturer's product warranty

Item #	Description	Price
PV375	PowerVerter® 375-Watt Ultra-Compact Inverter	\$72.00 ea

### VANNER VLT POWER INVERTER

The Vanner VLT inverter is equipped with a 15A ground fault indicating circuit breaker receptacle, providing convenient and safe AC power. Clear, easy-to-read LEDs and bar graphs let you know that the unit's working right, or if something's wrong - no guessing necessary. Over and under voltage LEDs let you know if you have battery or charging system problems. Over temperature and overload LEDs will indicate that either a condition has occurred that must be corrected by removing air restricting material from around the inverter, or excessive load. Quiet, reliable and convenient power to run televisions/monitors, power tools, test equipment, pumps/lights/motors, medical equipment, microwaves and more!

Dimensions: 4.13"H x 10.83"W x 15.35" D

Item #	Description	Price
VLT12-1000	1000W Continuous Output Inverter	\$955.00 ea
VLT12-1500	1500W Continuous Output Inverter	\$1,055.00 ea

### AUTO CHARGE® BATTERY CHARGER SYSTEMS

The Auto Charge 12 is a fully automatic battery charger for vehicles with a single battery system. Unique electronic sensing circuits sense the true battery voltage while eliminating the need for external sense wires. When the battery is fully charged, all charging stops. There is no overcharging and no water boil off. It is ruggedly constructed for mounting in the vehicle. (Multiple battery systems also available- call for details)

Item #	Description	Price
091-165-12	Auto Charge 12, 12 Amp, 12 Volt	\$395.00 ea
091-170-12	Auto Charge 12 High Output, 20 Amp, 12 Volt	\$475.00 ea

### AUTO CHARGE® 1200 BATTERY CHARGER

This is a 40 Amp, high output charger for faster battery recharge. There is no "trickle charge" and therefore no danger of overcharging and water boil-off. It features remote electronic voltage sensing, which eliminates sense wires. It is available with either a built-in or remote bar graph battery charge level indicator.

Item #	Description	Price
091-187-12	Auto Charger 1200 w/ Built-in Bar Graph	\$727.00 ea
091-187-12-REMOTE	Auto Charger 1200 w/ Remote Bar Graph	\$727.00 ea

### AUTO EJECT

- Automatically disconnects shore line power
- Designed specifically for emergency vehicles
- Eliminates broken shore line connections
- 2 year warranty
- Super series are fully sealed for maximum dirt and grime protection

Item #	Description	Price
091-18WP-120*	Auto Eject, 15 Amp, 120 Volt Weatherproof	\$160.00 ea
091-20WP-120*	Auto Eject, 20 Amp, 120 Volt Weatherproof	\$184.00 ea
091-55-15-120*	Super Auto Eject, 15 Amp, 120 Volt	\$249.00 ea
091-55-20-120*	Super Auto Eject, 20 Amp, 120 Volt	\$230.00 ea

091-18

091-55

### USB DUAL PORT

**NEW**

- Dual USB Charging Ports
- Quick and easy way to recharge electronic devices in a vehicle
- 3 Amps max output allows charging of both an iPad and iPhone at the same time
- Built-In LED Indicator indicates device is powered
- Designed for easy installation in vehicle switch panels
- Reverse polarity protected
- Can be connected to 12V switched ignition or directly to battery
- 3 Year Warranty

Item #	Description	Price
091-219	USB Dual Port	\$49.00 ea

### VEHICLE SPECIFIC CONSOLES

The most practical addition to the Consolidator® family. Vehicle specific consoles attach directly to the OEM console, or use the existing mounts to replace it all together, for a snug fit and custom appearance. Plus, without any permanent modification required, the resale value of the vehicle is maintained.

- Precision laser-cut steel contours to the OEM interior
- Lifetime warranty
- Excellent for undercover applications
- Extruded aluminum top frame provides substantial base for mounting equipment and accessories
- Includes enough equipment mounting brackets and filler plates to completely enclose the mounting area, less accessories

## Vehicle Specific Consoles

### HAVIS 20" TAHOE/SUBURBAN CONSOLE

- 12.5" wide 20" vehicle specific console for 2015 Chevrolet Tahoe police pursuit vehicle (ppv)
- This Angled console is vehicle specific and mounts cleanly between the bucket seats and fits to the dash contour for a custom look to your vehicle
- Includes 20" of internal control head and accessory mounting space
- Includes accessory pocket (13" long x 2.5" wide x 8" deep) for single ream of 8 1/2" x 11" paper storage
- Front top panel includes two (2) 12 volt sockets and cutout for OEM 12 aux input module
- Console includes provisions for internal or external side mount poles C-HDM-204 or C-HDM-214 (sold separately)
- Intended to be used for laptop on pole mount applications

**NEW**

C-VS-2000-TAH-2

C-VS-2000-TAH-1

- Compatible with internal cup holder (C-CUP2-I-A06 ) and external cup holder (C-CUP2-E-C) sold separately
  - Only works with side mount arm rest part number C-ARM-102 (sold separately)
  - Includes filler plates (FP) and/or equipment brackets (EB) to completely enclose mounting area less internal mount options
  - Includes internal front electrical equipment mounting shelf with removable front side trim panels for easy access
  - Passenger side front trim panel includes cutout for OEM 120 volt socket (blank plate also included if 120 volt socket is not used)
  - No additional vehicle mounting kit required
  - If using console with a vertical gun rack between seats, a partition with gun alcove is recommended
- Dimensions: 11.87" High Front / 10" High Rear x 12.5" (W) x 23" (L)

Item #	Description	Price
C-VS-2000-TAH-1	2007-2014 Tahoe/Suburban 20" Console	\$520.00 ea
C-VS-2000-TAH-2	2015 - '16 Tahoe/Suburban 20" Console	\$520.00 ea

### HAVIS 10" TAHOE/SUBURBAN CONSOLE

- Fits 2015 Tahoe & Suburban with OEM console only
- Easy to install
- No vehicle mounting kit required
- Only modification required is four (4) 1/8" holes inside storage compartment (see install instructions)
- 8.75" maximum depth
- Includes filler plates (FP) and/or equipment brackets (EB) to completely enclose mounting area less internal mount options
- Due to minimum internal space available, equipment bracket mounting requires drilling (see install instructions)
- Mount control head cutout is only 9.5" inches, however in most applications you will be able to use 10" inches of equipment brackets when using one piece (1P) brackets or filler plates in accessory pocket under OEM arm rest

### HAVIS INTERCEPTOR INTEGRATED CONTROL SYSTEM

The Havis Integrated Control System is designed for saving space, creating police officer comfort, and the ability to integrate on-board technology.

- 12.1" touchscreen display
- Bright, in-dash touch screen, that provides officers with a seamless interface for equipment
- Control all functions of the car
- Includes GPS, radar detection, inputs, and much more
- Available for the Ford Interceptor SUVs and sedans only

**Vehicle Integration:** The Integrated Control System is designed to fit the Ford Police Interceptor Utility and Ford Police Interceptor Sedan dash without permanent modification.

**Safety:** By relocating computers and video sources to the trunk, the Integrated Control System allows for a flush profile of the OEM dash and a clean cockpit while ensuring OEM safety systems are unobstructed.

**Ergonomics:** The placement and orientation of the Touch Screen Display has been approved by the Los Angeles Police Department, one of the largest police forces in the country with over 10,000 officers.

**Display Visibility and Durability:** The ultra-wide viewing angle of the Touch Screen Display gives the driver or passenger full control of the system. The chemically strengthened glass face is also sunlight readable.

Touch screen display with two modes of operation. Video Mode 1 allows you to control the built-in Integrated Control System vehicle applications, and Video Mode 2 allows remote control of an externally mounted computer, laptop or tablet.

- Designed specifically for the 2013-2014 Ford Police Interceptor Utility and Sedan with and without OEM SYNC®; system (not compatible with interior upgrade code 65U)
- Co-developed with Ford to replace and mount in factory dashboard location, providing a professional and clean cockpit layout
- Sunlight readable LCD display with wide viewing angle for driver or passenger operation
- High resolution image with four different illumination levels ranging from dim for night time use to bright for use in the sun
- Integrated Control System vehicle applications include AM/FM radio, NTSC camera viewing, image viewer and real time diagnostics that include system status and vehicle battery levels
- Tactile feel HVAC controls replace factory controls
- Tactile mode button to switch from the two different display options
- Remote mounted A/V extender to simplify laptop/tablet connection
- Steering wheel control buttons can be configured to control the video mode, illumination level and AM/FM radio functions (band, tune, seek, volume)
- System is compatible with a wide range of laptops and tablets and can be connected through VGA or HDMI
- Single Cat6A cable connects the remote mounted A/V extender to the embedded processor and the embedded processor to the touch screen display reducing installation complexities
- Multiple audio sources (AM/FM radio, computer audio or auxiliary input) can be heard through the vehicle speaker system
- Bright, in-dash touch screen, that provides officers with a seamless interface for equipment
- Includes GPS, radar detection, inputs, and much more
- Available for the Ford Interceptor SUVs and sedans only

## Anti-Theft Systems

**NEW**

### PRO-GARD SAFESTOP VEHICLE ANTI-THEFT SYSTEM

Vehicle maintains functionality of all electronic functions including: air-conditioning and heat; surveillance equipment (cameras, radar, etc); radios; lights; sirens; computers, and more without leaving the vehicle vulnerable to theft. The key is the KEY – once activated, anytime the key is removed from the ignition the anti-theft protections are engaged

Theft protection prevents the vehicle from driving off as well as, activates the “Gun Lock Secure” and “Trunk Lock Secure” features. The Gun Lock Secure feature prevents access to the weapon rack via the momentary switch when theft protection is activated, there is a built in 8 second delay initially to give officers time to grab a weapon if necessary

- The Trunk Lock Secure feature prevents access to trunk contents via the trunk latch release when theft protection is activated
- Once the system is activated, the anti-theft functions allow the vehicle to remain running even after the ignition key is removed; with the ignition key removed, the shifter is locked
- Anti-theft functions cannot be overridden by switching the toggle switch to off once the system is activated, system can only be turned off if the ignition key is reinserted
- Brake Pedal Override option will kill the engine instantly for use with the “Always On Protection”
- The module connects to the ignition system and offers addition connection for protecting gun racks and trunk contents
- Extremely low amp draw means that the system can remain activated 24/7 (Always On Protection) without worries of battery drain
- Available for many vehicles

### TREMCO ANTI-THEFT SYSTEM

There are no keys to lose or codes to forget. Deactivation becomes “second nature” to the officer and after a week or so, they don’t even realize they’re using it. This system is 100% reliable, convenient for the user, simple plug-in installation and inexpensive.

- Now Police can leave their cruisers running unattended for emergency situations
- Allows emergency lighting ... computers, radios, heaters, air conditioners, and defrosters to operate while maintaining needed battery current
- Inexpensive. Fast and easy to use with our patented camouflaged system.
- Easy installation in less than ten minutes
- Available for many vehicles

Item #	Description	Price

### SECURE-IDLE ANTI-THEFT SYSTEM

One Secure-Idle device can prevent unwanted liability suits. Police cruisers are stolen on a daily basis and departments face liability suits that could cost them millions.

- Completely Hidden Anti-Theft System for all vehicles
- Keeps your engine running without a key in the ignition
- Superior, fail-safe STARTER OVERRIDE protection
- Secure-Idle will NEVER leave you stranded
- Made in the United States of America
- Quick & easy installation
- 1-year total replacement warranty
- Engineer on-staff to assist in tailoring our product to your application!
- Available for many vehicles

### COMPUTER DOCKING STATIONS

Havis docking stations provide safe, reliable mobile computer mounting solutions. They allow users to charge their laptop, access external peripherals and secure the laptop to protect against theft and injury, while the optional antenna pass-through improves wireless performance. The intuitive connections, port replicators and quality construction materials make them easy to use and usable for years to come.

### PANASONIC TOUGHBOOKS

- Available for the CF30/31, 19, 52 and U1
- The DS-PAN Series is the only unit with a spring mechanism in the docking head, maximizing device uptime
- The smallest footprint of any comparable product, weighing less and taking up less cabin space than any other dock currently available
- Threaded power input connector ensures no disconnects
- Wear and corrosion resistant stainless steel for all structural and mechanical components

Additional models available. Call for availability.

## Computer Mounting

### HEAVY DUTY COMPUTER MOUNTS

Havis Heavy Duty Mounts are rugged, professional grade computer mounts that combine the perfect balance of strength, safety, and ultra-smooth operation, making them worthy of your most mission critical computer devices.

#### Stout.

Heavy gauge steel poles, welded, rigid seat bases along with its universal support arms virtually eliminate wobble and vibration that can make reading difficult.

#### Safe.

A standard stop collar allows the installer to adjust the height and limit the computer from telescoping below desired height. Order the optional top lock

and the entire rotation can be positively locked in place to prevent the unit from spinning in a collision or air bag deployment.

#### Smooth.

Designed with a unique precision machined aluminum clamp and lever along with a PVC split sleeve for no metal-to-metal contact when adjusting the pole. All moving parts have a glossy, ultra smooth e-coat finish which further reduces friction. Order the optional "lift assist" gas shock kit that you can drop in the pole assembly and it will help you do the lifting and prevent heavy equipment from slamming down.

Heavy Duty Mounts are designed to be a modular system with components purchased as individual items.

### HAVIS COMPUTER/MDT MOUNTING PLATFORMS

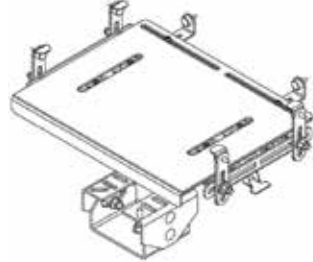

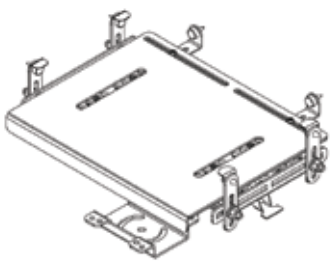

These mounting platforms are designed to accommodate a variety of computers and are available with multiple tilt and swivel combinations, making them incredibly flexible and practical. Side support tabs clamp the computer to the platform so that it stays in place while driving or working, and the rubber pad over the mounting surface suppresses noise and vibration.

- Side support tabs extend up to 2.25" off the platform (0.80" minimum)
- 0.04" thick stainless side tabs make closing the lid easier
- Width: 11.5" min., 16.75" recommended, 17.5" absolute max
- Mount to TCB and Heavy Duty (see page 72) series bases
- Airbag compatible when properly installed

### PRO-GARD™ TRUCK BED ORGANIZER

The Pro-Gard Truck Bed Organizer converts the entire truck bed into a storage system that can be accessed entirely from the tailgate. Eliminates the looming openness of the truck bed by creating an easy access storage system. Quickly find any equipment from the tailgate.

- Heavy Duty construction - HDPE deck and drawers with steel sub frame
- 2,000 lbs. deck load rating
- 12" overall height accommodates additional storage space on top of unit
- Each drawer can hold up to 200 lbs.
- Easy installation - No holes drilled installation utilizes existing OEM tie down locations to secure unit
- Snug fit is specific to contours of each OEM make/model truck bed
- Customizable organization
- Two large storage drawers: 61.4" x 18" x 8.5"
- Optional single or dual weapon racks are available
- Removable storage trays and dividers help organize smaller equipment in the oversized drawers
- Water-resistant system sheds rain and downward flow of water from car wash
- Will not work with the RamBox® Cargo Management System

### READY BUCKLE SEAT BELT SYSTEM

The Ready Buckle is a patented ELR/ALR retractor seat belt system, mounted to the center top of the rear deck.

This patented system helps prevent the officer from needing to lean over the prisoner to seat belt them into the rear seat. Once the officer buckles the prisoner in, the officer can easily pull the belt back until it ratchets, which will automatically tighten the belt if the prisoner struggles. This minimizes the risk to the officer of being injured and keeping the prisoner secure.

- The original outboard buckling system for police vehicles
- A certified seat belt system, not a police strap or lap belt
- Road tested for nearly a decade
- Tested and documented by an approved national research lab for FMVSS 207/209/210
- Ready Buckle nearly doubled the safety standards in its latest 2013 testings

Laguna furnishes you all parts built and tested for the manner it was designed for. Laguna will never advise you to relocate or reuse OEM parts in a manner not used or indicated by the vehicle manufacturer.

Available for Dodge Chargers, Chevy Caprice, Chevy Impala, Chevy Tahoe, Ford Police Interceptor Utility & Sedan. Contact us for other vehicle options.

### K9 TRANSPORT SYSTEMS

K9 transport kits from Havis are single-compartment units that provide safety and comfort for you and your canine partner. They must be assembled in the vehicle.

- Include aluminum side door panels, interior hinged window guards, rubber matting and dome light with switch
- Constructed of heavy gauge aluminum for superior, long-lasting durability
- Radius corners, molded edges and proper-sized ventilation holes that maximize airflow while maintaining safety
- White powder cot finish eliminates discoloring of fur
- Designed to maximize officer room and visibility

### K9 TRANSPORT SYSTEMS FOR SEDANS

- Available for the Caprice, Ford Police Interceptor Sedan, Impala and Charger
- Includes single compartment housing with one sliding front door and aluminum fold-down interior window guards and door panels
- Rear guard folds down to allow easy access to the rear window deck
- Sedan kit dimensions: 27" D x 59" W x 35" H

### K9 TRANSPORT SYSTEMS FOR SUVs

- Available for the Trailblazer, Durango, Explorer, Suburban, Tahoe, Yukon, Yukon XL, Ford Interceptor Utility, F-250, Expedition and Excursion
- Includes housing with one front sliding door, two side door panels, aluminum fold-down interior window guards and door panels
- Small SUV kit dimensions: 42" D x 38" W x 33" H
- Large SUV kit dimensions: 48" D x 47" W x 34" H
- Available 32" Deep SUV kit has the same height and width dimensions, but its more shallow design frees up space in the cargo area

### K9/PRISONER TRANSPORT SYSTEMS FOR SUVs

- Available for Tahoe, Yukon, Suburban, Excursion and Expedition
- Feature K9 space on the driver side and prisoner space on the passenger side

### STREAMLIGHT® LITEBOX®

When an ordinary flashlight just won't cut it, the LiteBox® gives you what you need to penetrate the blackest night, densest smoke and thickest fog. This versatile rechargeable flashlight is now better than ever. It's been given a tougher, weatherproof housing made of ABS thermoplastic and an innovative swivel neck that allows 360 degree rotation of the lamp head. A zero-maintenance battery provides up to 8 hours of reliable lighting and recharges up to 500 times. Available with a high-intensity halogen beam in either spot or flood. The Fire System includes a flashlight and hard-wire charger/mounting rack that is easily secured with only four screws. The Industrial System includes the same but can be charged using AC or DC power for maximum versatility. Shoulder strap is standard.

### STREAMLIGHT® E-SPOT LITEBOX

An industrial-duty, rechargeable, portable lantern featuring C4® LED technology that provides incredible brightness, runtime and reliability.

#### 2 levels of lighting:

High – 55,000 candela peak beam intensity; 540 lumens

Low – 32,000 candela peak beam intensity; 330 lumens

#### Runtime:

High – 7 hours to the 10% output level    Low – 15 hours to the 10% output level

- Jumper selectable high or low setting to allow selection of more light output or more runtime
- 3 C4® LEDs and deep dish parabolic reflectors to produce a large spot pattern
- LEDs are impervious to shock with a 50,000 hour lifetime
- Zero-maintenance 6V, 12Ah sealed lead acid battery. Rechargeable up to 500 times
- Rubberized impact bumper
- Rack meets requirements of NFPA 1901-14.1.11.2 (2003) mounted in any position
- Limited lifetime warranty

Item #	Description	Price
45851	E-Spot Litebox Standard System w/ 120V AC & 12V DC Charge Cords, Orange	\$199.00 ea
45855	E-Spot Litebox Vehicle Mount System w/ DC Charge Cord and Mounting Rack, Orange	\$199.00 ea

### STREAMLIGHT® FIRE VULCAN® LED

Combines all the great features of the halogen Fire Vulcan® with the power and reliability of LED technology!

- C4 LED is impervious to shock with a 50,000 hour lifetime
- Up to 80,000 candela peak central intensity; recharges in 5 hours
- Deep-dish parabolic reflector produces a tight beam with optimum peripheral illumination
- Run times: steady high LED & taillights: up to 3 hours to the 10% output level; low: up to 6 hours

Item #	Description	Price
44451	Fire Vulcan LED, 12V DC, Vehicle Charger	\$199.00 ea
44450	Fire Vulcan, 12V/120V, Standard Charger	\$209.00 ea

# FLASHLIGHTS

## Streamlight Flashlights

LED

### STREAMLIGHT SURVIVOR®

- Featuring the latest in C4 LED technology with microprocessor controlled high and low intensity modes and emergency flash
- High Beam: up to 21,000 candela peak beam intensity; 100 lumens - Low Beam: Up to 7,500 candela peak beam intensity; 32 lumens
- Runtimes: NiCd - High: 3.5 hours; Low: 10+ hours; Flash: 7+ hours - Alkaline - High: 4 hours; Low: 14+ hours; Flash: 7+ hours
- Unbreakable polycarbonate with silicone anti-scratch coating is assembled in a heavy duty bezel

90757

### STREAMLIGHT KNUCKLEHEAD®

Shockproof C4® premium LED technology combined with a deep dish parabolic reflector produces a focused beam for longer distances – 210 meters on high beam. Features a 210 degree articulating head that rotates a full 360 degrees 4 modes: High – 11,000 candela peak beam intensity, 180 Lumens, 3.5 hour runtime, Low – 3300 candela peak beam intensity, 55 lumens, 16 hour runtime, Moonlight – 20 day runtime, Flash – 8 hour runtime

- Dual power source: accepts rechargeable NiCd battery pack or 4 "AA" alkaline batteries
- Removable magnet with 135 lb pull strength features a replaceable rubber boot
- Optimized electronics provide regulated intensity
- High-impact, super-tough nylon polymer construction for exceptional durability

### STREAMLIGHT® PORTABLE SCENE LIGHT

- C4 LED Technology
  - Three user-selectable outputs
  - Selectable diffuser settings for two beam widths
  - Lead acid batteries rechargeable for up to 500 times
  - Batteries continue charge while operating directly from 12V
  - Integral D-rings allow attachment of the included shoulder strap
  - Pole extends up to 72"
  - Cord built into the pole to avoid snags
  - Stabilization legs provide balance on uneven surfaces
  - 25 lbs provides weight stabilization
  - High-impact thermoplastic housing
  - Limited lifetime warranty
- Size: 22" (L) x 6.5" (W) x 6.7" (H)

## Work Lights & Compartment Lighting

**WHELEN**

### PERIMETER ENHANCEMENT LIGHT, SUPER-LED®

Multi-purpose design for illuminating the work area around emergency and utility vehicles. The Perimeter Enhancement Light can also be used in a wide range of other applications such as hose beds, walkways, under-body ground illumination, pick-up truck beds and utility vehicles where white illumination is needed. Super-LED lightheads provide reliable, bright light which will stand up to harsh environments and vibration.

- Downward projected, reliable, ground lighting for the perimeter of your vehicle
- Six diode Super-LED module in a rugged polycarbonate housing; available in Chrome or Black
- Steady-burn, White light is projected downward at a 40° angle to illuminate a large area
- Mounts to vertical surfaces and may be mounted inverted
- Supplied with 6" pigtail connector, customer supplied switching required
- Molded rubber gasket protects body panels
- 5 year HDP® Heavy-Duty Professional warranty

### FLUORENT PLUS™ SUPER-LED® COMPARTMENT TUBE LIGHTING

Fluorent Plus™ are the brightest LED tube light assemblies in the business. Designed for compartment lighting in increments of 9" for a custom fit with off-the-shelf convenience.

- Fluorent Plus Series utilizes two diodes per inch for greater illumination
- Clear light tubes
- Rugged 120° Super-LED light assemblies provide light without taking up valuable compartment space.
- Light tube can be rotated to direct light where it is needed when using the "C" clip mounting
- Standard sizes available in 9" increments up to 63"
- Custom lengths available
- Includes both "C" clips for snap-in mounting and "P" clips for fixed mounting
- 5 year HDP® Heavy-Duty Professional warranty

### PIONEER NANO™ NP SERIES WORK/SCENE LIGHTS

Rugged, heavy-duty tiny light with a giant attitude.

- Three and six diode models
- Three diode models produce 1100 Lumens, 6 diode produces 1800
- Rugged, die-cast aluminum housing, powder coated Black or White
- Solid-state electronics are rugged and reliable, built for the long haul
- 12 VDC, 24V models available for 6 diode models
- Heavy-duty housing, electronics and mounting
- 8° spotlight pattern, comes standard
- Includes an additional 40" x 20" floodlight lens
- Optic lens changes easily via four screws in picture frame fixture
- Rated to last thousands of hours with remarkable bright light
- Nano Pioneer Series is rated IP67 for dust and water resistance
- Five-year HDP® Heavy-Duty Professional warranty

## Floodlight Pole Assemblies

### POLE ASSEMBLIES FOR PIONEER™ SERIES

Whelen took their knowledge and expertise of LED technology and applied it to scene lights, creating the Pioneer Series. Upgrade your halogen or HID lighting and save on amp draw and eye strain!

- Extruded aluminum pole assemblies
- 12" outer body, 57" adjustable pole assembly
- Outer body luminescent strips that glow in the dark after exposure to light
- Outer body certified to NFPA
- Cradle and sensor available with certain models
- With a cradle to stop/hold it securely and a sensor to insure its safely seated for travel
- 15.8" access handrails or handhelds
- Optional electromagnetic sensor indicates if the pole has been seated properly into the cradle for travel
- Requires pole/pedestal mount adapter. (purchased separately)
- Silver stand-off mounting brackets available in 3" to 5" and 5" to 7" adjustable, and 2" non-adjustable

# SPOTLIGHT & SCENE LIGHTING

## Floodlights

### PIONEER™ & PIONEER PLUS™ SUPER-LED® FLOODLIGHTS

Whelen took their knowledge and expertise of LED technology and applied it to scene lights, creating the Pioneer Series. Upgrade your halogen or HID lighting and save on amp draw and eye strain! Floodlights are instant On/Off eliminating the ramp up time and high current in-rush required by high intensity discharge and other light sources.

- Available in 12- and 24VDC and UL® approved 120VAC
- Pioneer LEDs are remarkably efficient, operating at a high lumen to watt ratio
- Rugged die cast aluminum, powder coated housing, available in white or black
- Pioneer Plus lights are designed for greater output and produce more than twice the number of usable lumens than standard Pioneer lights

## NO INSECTS

Pioneer Floodlights produce NO ultra violet rays that attract insects during nighttime operations! (Pioneer lights emit no EMI based on SAE 1113-42, Class 5 testing.)

300W Halogen

PFP1

Traffic cones are at 25' intervals up to 200' from the light source and a width of 75'

### Lighthouse Output

### EVOLUTION LAMPHEAD

The lamphead has an unique parabolic reflector that projects the light directly onto the action area and also illuminates the immediate working area around the vehicle. The long life rugged LEDs allow for low maintenance and expense over the operational life. The LED light output is instant-on at full intensity and provides immediate restarts with no warm-up time required.

- Low Power: 13 Amps at 12 VDC Generates 15,000 Lumens
- Long Operating Life - LEDs Rated at 50,000 Hours
- Full Brightness at Power On - Instant Restart

### SPECTRA LAMPHEADS

The advanced lens design generates a uniform flood and spot combination light pattern. This light pattern provides enhanced work area visibility as well as illuminates objects at a farther distance. Lamphead is available in a surface mount configuration. The slim body design keeps the lamphead closer to the vehicle.

- Combination of Flood and Spot LEDs
- Unique Lens Design and LED Array Provide More Light
- Available in 15k or 20k Lumens, 12/24 VDC and 120/240 VAC
- Innovative Cooling Fins Provide Higher Efficiency
- Long Operating Life - LEDs Rated at 50,000 Hours
- Instant-On at Full Intensity

### THROW-LIGHT TACTICAL

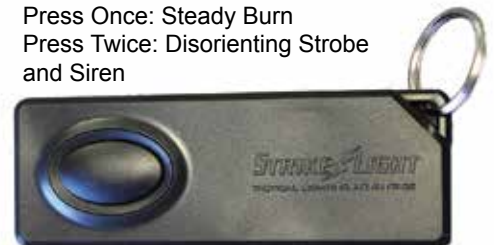

This is a non-lethal device that can provide you with 360° of steady illumination. Along with that comes a disorienting strobe and siren. The Throw-light can be used to light up a room, distract, and much more. Also, for your convenience, there is a Combination Kit that will allow you to carry up to three of these lights at ease in a durable, hard-sided case, along with three chargers and remotes to match.

- Over 100 db of deafening sound
- Disorienting strobe
- Remote activation
- Rechargeable LiPo battery
- 360 degree illumination
- Safe and effective alternative to flashbangs and other tactical products
- Can be rolled or thrown into the most demanding situations
- Keeps law enforcement out of harms way
- Waterproof

# EVIDENCE COLLECTION

## Evidence Collection Bags & Tape

### KEEPSAFE® TAMPER EVIDENCE BAGS

**NEW**

Evidence Collection bags allow forensics laboratories, law enforcement officials, and security professionals to fulfill their tamper-evident and forensic packaging needs. We understand that collecting and preserving evidence is an important part of criminal investigation so our bags include advanced sealing technology made from durable performance films designed to excel in any forensic application or laboratory. Bags offer tamper evidence and chain-of-custody. Protect evidence in these easy-to-seal, tamper-resistant polybags. Pre-printed bags have all the information fields required for proper evidence and chain of custody tracking for submission to the crime laboratory.

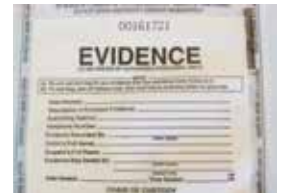

- Clear material allows viewing of contents
- Easy-to-seal, tamper-resistant, void closure seal
- Sequential numbers and bar code for traceability
- Available in three stock sizes. 6 x 10, 10 x 13 and 12 x 16
- Available 100 per package

Item #	Description	Price
PPSE-EVD0610	KeepSafe Tamper Evidence Bags, 6" x 10"	\$16.50 pk
PPSE-EVD1013	KeepSafe Tamper Evidence Bags, 10" x 13"	\$21.00 pk
PPSE-EVD1216	KeepSafe Tamper Evidence Bags, 12" x 16"	\$27.50 pk

### EVIDENCE TAPE

**NEW**

Unique packaging size is ideal for evidence collection and other forensic kits. Protects the integrity of your collected evidence! This tamper evident tape features sawtooth edges and unique adhesive properties that cause the tape to tear, break or leave behind small pieces when an attempt is made to lift or remove.

- With tape in place, it's very evident when an unauthorized attempt is made to remove
- Unique blister packaging is compact and easy to store
- Bold and prominent repeating EVIDENCE message
- Small roll sizes easily allow multiple colors to be used in an economical fashion
- Can be written on with a fine tip permanent marker
- Available in Blue, Red and Yellow - 1/2" W x 50 ft per roll

Item #	Description	Price
500029	Evidence Tape, Red, 50 ft. roll	\$3.95 rl
500030	Evidence Tape, Blue, 50 ft. roll	\$3.95 rl
500031	Evidence Tape, Yellow, 50 ft. roll	\$3.95 rl

Other colors and messages are available. Contact us for details. Customize with your facility name for very low minimum order quantities.

Attempt to remove or lift causes tearing.

### TAMPERBLOCK™ REUSABLE TAMPER EVIDENT COLLECTION BAGS

**Eliminate waste and save per use versus tamper evident poly bags.**

These durable tamper evident reusable bags provide security for forensic evidence collection, controlled substances and other important supplies during transport and handling. Bags help prevent tampering and fraud by providing instant awareness of attempted access and provide quick verification of a use when a seal is broken.

Unique tamper evident seal snaps into a chamber, preventing the bag zipper from opening without breaking the seal. Enables tracking by the barcoding and consecutive numbering on the breakable seals. Accountability is created from point of origin to use.

Utilize a barcode scanner system to eliminate time consuming paperwork and create an audit process. Eliminate waste with a reusable secure solution that lasts many uses, eliminating tons of discarded one-use poly bags from landfills annually. EMI21112 and EMI1413 TamperBlock Premier are made of a durable 16 mil water resistant vinyl material. These bags are a bit more rugged than the standard TamperBlock bags.

- Features internal access only windows for important documents or routing information. Fits 4" x 6" card.
- Four bags available: 8-1/2 x 4, 10 x 10, 12 x 10, and 16 x 12. Contact us if you have a need for a different size.
- Bags are sold individually with 10 starter seals. Seals have a Code 128 barcode.
- White or Red tamper evident numbered and barcoded seals are available 50 per package.

Item #	Description	Price
EMI11112 (A)	TamperBlock, 10" x 10", Clear PVC	\$13.00 ea
