ASUS - TOP 2 GLOBAL CONSUMER NOTEBOOK BRAND

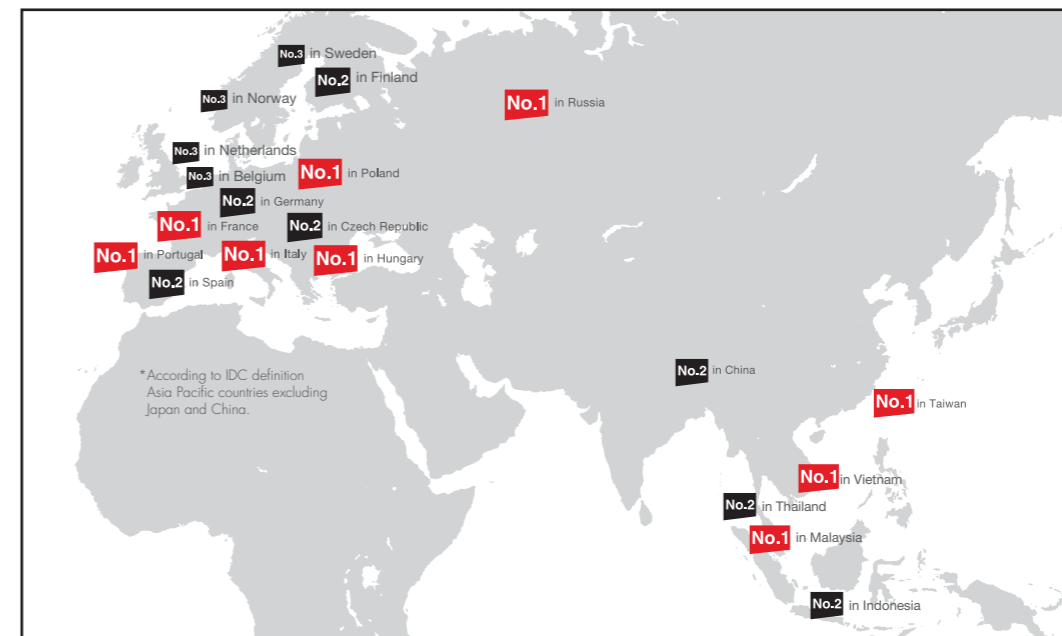

ASUS is the world's top 2 consumer notebook brand, and maker of the best motherboards available. ASUS designs and manufactures a diverse range of products as part of our relentless search for incredible, including desktop PCs, displays, graphics cards, netbooks, networking devices, servers, smartphones and tablets. Design thinking and a commitment to putting user needs first drive everything ASUS creates. We've revolutionized the PC industry with the Eee PC™, and our products won **4,256** awards in 2013. ASUS employs more than 12,500 people around the world and our leading R&D team has some 3,800 engineers. Company revenue for 2013 was approximately US\$14billion.

According to the recently-released IDC Q4 2012 report, ASUS reached the top 2 spot in consumer notebooks, and is top 3 in overall notebook PC sales, if counting commercial and organizational segments.

TOP 1 Notebook Brand in Central and Eastern Europe

TOP 1 Notebook Brand in China and Southeast Asia

TOP 3 Notebook Brand in Western Europe

TOP 2 CONSUMER NOTEBOOK BRAND
IDC (Q4, 2012) Worldwide in unit shipment

NO. 1 QUALITY AND SERVICES
The Wall Street Journal Asia

TOP 2 ANDROID TABLET BRAND
IDC (Q2, 2013) Worldwide in unit shipment

Malaysia's NO.1 BIGGEST NOTEBOOK BRAND

ASUS has achieved an incredible milestone being ranked No.1 leading notebook brand for Malaysia market in accordingly to the recently released IDC (Q3 2013) and GFK (Q4 2013) report. This is a major achievement for ASUS as a leading, quality-assured and reliable PC brand in the market.

WORLD'S NO.1 MOTHERBOARD BRAND

ASUS has shipped more than 420 million motherboards since 1989. One in every three PCs sold worldwide in 2010 had an ASUS motherboard. As motherboards are the very foundation of PC quality and reliability, you can be sure that ASUS always offers the best.

TOP-RATED IN QUALITY AND SERVICE

ASUS strives for perfection in all products, and we consistently win awards for quality and innovation. This is reflected in the top ranking we attained for product quality and customer service from the Wall Street Journal Asia.

ASUS GREEN TECHNOLOGY

ASUS continues to lead the industry in the adoption of greener technology, and was the first IT enterprise in the world to achieve EU Flower certification for desktops and EUP Certification for notebooks.

ASUS WINNER OF 4,256 AWARDS IN 2013

The ongoing ASUS search for perfection delivers incredible products. Our commitment to performance, innovation, and quality are recognized by worldwide media, as we received 4,256 major awards in 2013.

iF Design Awards

ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

Innovations International CES Awards

Six ASUS products have been selected for the CES 2012 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation. Persistent Perfection has resulted in such wide recognition for our products.

<http://awards.t3.com/categories/tech-brand-of-the-year/asus>

ASUS has enjoyed something of a breakout year in the laptop and tablet world, with some beautifully designed and innovative offerings in both sectors.

Malaysia November 2014
CHIP Online

Fonepad 8 (FE380CG) ASUS have once again created a device that offers consumers a good balance between price and features.

Malaysia September 2014
CHIP Online

For a mid-range smartphone and a very attractive price tag, the ASUS ZenFone 6 is definitely one of the best money can buy out there thanks to its great balance of features and performance.

Malaysia March 2014
CHIP Online

All in all, we liked the ASUS Transformer Pad TF701T for reasons such as the upgraded processor and added RAM that allowed it to multitask brilliantly. Then there's also the fact that it has good battery life and its high-resolution display is great for work and play and that gives it extra brownie points. However, at the end of the day, it can't be denied, that this is a good device for work and play.

Malaysia March 2014
CHIP Magazine

Transformer Book Trio In our books, the Transformer Book Trio TX201LA is actually quite a good solution for those of you who can't figure out whether you want an Ultrabook or tablet. But it does come with a costly price tag and we're only talking about the version with Intel's Core i5 processor here, for the Core i7 version, you will have to pay RM300 more. But do keep in mind, you are sort of getting a 3 in 1 device.

Malaysia February 2014
CHIP Magazine

The ASUS ROG G750J gaming notebook is one of the company's more ambitious moves in the gaming notebook space. Leveraging on their knowledge of gaming components and peripherals, it seems they have struck gold here with a machine that is both masculine and powerful to boot.

Malaysia February 2014
CHIP Online

So it seems like we really have only good things to say about the ASUS Zenbook UX301 and who could blame us, it looks good, has solid performance and nice extra features like the Bang & Olufsen and SonicMaster technology. The only little thing that might hold a user back from picking this up in a heartbeat is its price.

Malaysia December 2013
CHIP Magazine

ASUS Transformer Book T100 for everything that it comes with, it is actually quite a steal for the price that ASUS is offering it for. It may not be the most powerful tablet out there but its versatility, portability, affordability and usability makes up for it.

Malaysia November 2013
CHIP Magazine

N550LF that looks great, performs well and it's pretty affordable for what it has to offer. We had our gripes with it but the good thing is ASUS gives you the choice to customise the device to your liking.

Malaysia November 2013
HWM Magazine

The Transformer Pad TF701T fits the bill as the ultimate productivity tablet. Its included keyboard dock not only enables you to work on documents comfortably, it also extends the battery mileage of the tablet. Boasting a higher resolution display and comparable build quality as the iPad Air, the ASUS slate is both versatile and value for money.

Malaysia December 2013
HWM Magazine

ASUS MeMO PAD FHD 10 - a powerful Intel Atom-based tablet that delivers balanced performance in work and play

Malaysia November 2013
HWM Magazine

ASUS Fonepad 7 is quite the performer for its price. It may not win an endurance race with other tablets, but makes up for it with amazing bursts of speed while it lasts.

Malaysia May 2013
HWM Magazine

ASUS Taichi is everything which defines the company's design model: it's incredibly well-designed, having fused both, the concept of tablet and an Ultrabook and once again, redefining the very concept of the Ultrabook concertible into something else.

Malaysia January 2013
HWM Magazine

Although the Windows RT platform may be fairly new, the ASUS Tablet shows that there is definitely much potential yet to be discovered and explored.

A fetching, decently specced entertainment rig with great speakers though its upgunned N550JV sibling has better specs for just a bit more dosh."

Malaysia September 2013
T3 Magazine

The U38DT offers good value for money, blending great looks and decent performance into one fetching chassis

and many more....

EXTREME TEST ENSURE TOP-QUALITY NOTEBOOK

Take a look at what makes ASUS notebooks the most trustworthy in the business. If we listed every test and step our engineers actually use to make sure you get the best notebooks possible, this would go on forever — so consider this a taste!

KEYBOARD TESTING

Express yourself confidently thanks to keyboard durability tests, where special robots punch each key to check its feedback and lastability even in the face of some brutal input!

ABRASIVE TESTING

Abrasive resistance test subjects ASUS notebook exteriors to friction, indicating colors and surface materials stay at prime condition even after extensive and demanding usage.

NOISE TESTING

Abrasive noise tests check for loud fans, storage, even power delivery buzz, hushing them to create quiet notebooks. The entire chassis then passes audio tuning to deliver the best sound possible.

PRESSURE TESTING

Premium panels must handle limited spaces such as suitcases, and allow you to touch them without causing damage or distortion, so panel pressure testing ensures ASUS notebooks only use the best.

ENHANCED HINGE TESTING

Notebook lid hinges are weak spots. Use cheap materials and they'll snap. Vigorous hinge testing conducts thousands of open/close cycles, making sure hinges last the life of your notebook.

VIBRATION TESTING

Riding on bumpy roads, some PCs may start falling apart. Not ASUS notebooks. Harsh vibration testing ensures parts stay put and performance remains consistent even when the shaking starts!

SHOCK TESTING

Shock test takes notebooks and simulates incidents that occur during shipping. With a big smile on their face, engineers make sure the notebooks survive these with no performance penalty.

TWIST TESTING

Twist test checks chassis rigidity. Grabbing the notebook with one hand? No problem, this trial checks for uneven twist force endurance to give you the flexibility you need.

HIGH ACCELERATION TEST

Halt test stands for «Highly Accelerated Life Test», and expressmoves notebooks through their typical life cycle to ferret out problems, with extensive analysis conducted by engineers.

PORT TESTING

Port test ascertains contacts and plugs are solid for frequent plugging / unplugging and can handle cable quality variations without data transfer and fidelity degradation.

TEMPERATURE TESTING

Tough temperature tests verify diverse operating conditions, from every low temperatures to high heat, including humidity for accurate results. Whatever the mercury shows, ASUS notebooks can take it.

DROP TESTING

Drop test proves notebook free fall resistance. ASUS quality means notebooks handle drops with no damage to internal components or external design, far beyond industry standards.

ASUS Customer Happiness 2.0

ASUS Customer Happiness 2.0 evolves around the concept of optimizing your usage experiences. More than just offering industry-leading products technically, we are committed to providing you with stunning visuals with our focus on design aspects, incredible sound experiences with exclusive audio softwares and hardware, intuitive touch experiences, not forgetting increasing your ease of computing with 2-second instant on from sleep and providing you with cloud storage for additional storage needs.

With you in mind, ASUS is motivated to keep pushing our boundaries to meet your ever-changing computing needs.

Marks in History:ASUS Notebooks

ASUS notebooks have proven themselves in harshest conditions and locations, becoming the stuff of legend. The embody the ASUS search for incredible experiences and technology, mempowering courageous and adventurous people everywhere. Let's take a look at several feats that have left an incredible mark on computing history.

| | |
|--|---|
| In outer space Zero defects during 600 days in orbit! Two ASUS notebooks were selected by R&K, a major computers and electronics supplier to the aerospace industry, to provide astronauts with dependable computing hardware. "ASUS notebooks never overheated", said Sergei Avdeev, one of the Russian cosmonauts. "Only notebooks with the best cooling can survive continuous operation in space, and our ASUS notebooks worked problem-free." |  |
| In the air Helping the NRMA CareFlight Helicopter rescue unit save lives! NRMA CareFlight uses ASUS notebooks in different fields, including aviation, medical treatment, and administration. ASUS notebooks play a critical role in improving survival rates in severe head trauma incidents. They help medical teams arrive on-sit faster than ambulances, with fatalities lowered by 33%. "Our pilots are very impressed with ASUS notebooks and amazed at their durability," said Mark Lees, Community Relations Manager of CareFlight. |  |
| At the ends of the earth Conquering Antarctica A December 2003 expedition with acclaimed mountaineers Shi Wang and Jian Liu set out to reach the summit of Mount Vinson, the tallest peak in Antarctica at 16,000 feet, where temperatures drop below -100°F. Wang and Liu brought ASUS S200N notebooks, which met their need perfectly, being light and compact and designed to handle the rigors of exploration. "It was great having notebooks we could count on in situations where malfunctions are unacceptable," said Shi Wang. |  |
| On the Road Flawless performance during grueling off-road racing ASUS notebooks performed critical tasks at the PATAGONIA 2000 race, used in hot deserts and on snowy mountains. They acted as navigation devices, exceling due to their built-in GPS and dynamic maps. They were also mobile communication centres, enabling email and video conferencing. "ASUS computers survived severe conditions without a single flaw," said race organizer Aviv Shweky. |  |
| On the world's highest peak First notebooks to scale Mount Everest Conditions at the world's tallest mountain may faze other notebooks, but ASUS U5/S6, W7, and U1 notebooks were chosen to accompany an expedition to the top at Mount Everest. The U5 even made it to the peak at a height of 8848m, with expedition leader Captain Wang YongFong carrying it as a tribute to eco-friendly technology and making ASUS the world's first notebooks at the top of Mount Everest. |  |
| Braving the desert Survival of the fittest at Lop Nor The ASUS search for incredible goes on, with the ASUS team taking ASUS Zenbook to Xinjiang's Lop Nor dry lake in China, which has a reputation for being one of the most challenging parts of the world. Located in the Kumtag desert, the region has extreme temperature changes with high heat during the day and freezing cold at night, a nearly complete absence of moisture, and dangerous wind gusts. This barren and has been used in the past for nuclear weapons testing, and today few people live there. ASUS notebooks made it through the trek, helping capture incredible experiences and moments. |  |

and history will be continued ...

ASUS Pick-Up & Return Service FROM YOUR DOORSTEP

Still trying to find the closest service centre? Too busy to send your notebook for service by post or courier?

ASUS provides the service you need. Beyond our 2-year global warranty, we offer a premium PICK UP & RETURN SERVICE for customers and dealers.

For customers, this allows you to request door-to-door service, or you may just drop your ASUS notebook or tablet at your nearest retailer.

Dealers can place a quick call or write us an email, and we will instantly send a specialist to pick up the notebook or tablet from your location to save your time and effort. Our lead time is 1-4 days, and service quality is always assured.

5 simple steps to apply ASUS Pick Up and Return Service.

How to apply Pick Up & Return Service?

Information required when submitting Pick up & Return Service request:

Terms and Conditions:

- The Pick-Up & Return service applies to ASUS Notebook and Tablet only.
- The Pick-Up & Return service for defective unit within warranty period will be free of charge.
- Out-of-warranty, non-defective or customer-induced damage units are not covered by Pick-Up & Return service. In such cases, dealer or end user needs to carry in for repair.
- Pick-Up & Return service only applies to RMA repairs and does not apply to DOA claims.
- Any Location/City/Town not falling in any zone listed in zone table will be considered non-service area. Any shipment to non-service area is subjected to additional service rate or charge.
- Additional service charge is applicable for delivery to any Island (e.g. Langkawi, Redang, Pangkor and etc) except Penang Island.

ASUS 2 Years Global Warranty

ASUS 2 years global warranty cover everything 100%, with no hidden costs. This warranty applies equally whether you are right here at home or in any of the 57 regions and countries where ASUS products are sold.

***Only for selected notebook are covered for 1 year global warranty.

ASUS Transformer Book T100

One Laptop, One Tablet, One Device!

Windows 8.1

Touch Screen

Instant On

SonicMaster

Bundle with Microsoft Office Home & Student 2013 (T100TA only)

Powerful mobility

Small and light, with an Intel® Atom™ quad-core processor

Smart productivity

Full Microsoft Office Home and Student 2013 bundled

Long battery life

Up to 11 hours battery life for all-day mobile use

The ultraportable transformed

ASUS Transformer Book T100 is a compact ultraportable that combines the productivity features of a laptop with the easy portability of a tablet — and you can switch between the two in an instant. At just 1.07kg, T100 is one of the lightest laptops around, but detach the 10.1-inch display from the keyboard and it becomes an equally lightweight multi-touch tablet you can take anywhere. The sleek design features a durable finish, too, so T100 will always look its best.

High-performance productivity

ASUS Transformer Book T100 is powered by the latest Intel® Atom™ Z3740 quad-core processor for perfect balance of multi-tasking performance and outstanding energy efficiency. With up to 11 hours battery life, T100 can last for more than a full working day before it needs to be recharged and with Microsoft Office Home & Student 2013 supplied preinstalled, your productivity will know no bounds. 32/64GB eMMC storage makes launching apps and saving files speedy, too, while USB 3.0 supports next-generation SuperSpeed storage devices for turbo-charged data transfers.

Serious sound quality

Developed by the team of experts in the ASUS Golden Ear team, SonicMaster audio technology uses a tailored mix of hardware and software to enhance sound quality to a level far above what you might expect from so small a laptop. Big two speakers with large resonance chambers give rich, rounded bass and sophisticated audio processing tools boost the frequency range to make music, movies and games sound fantastic.

A screen that's easy on the eyes

Taking a tablet to bed is one way to catch up on some reading, but it's not always advisable. Bright light can dazzle in a dark environment and the high-energy visible light emitted by traditional computer displays has been linked to age-related macular degeneration. T100 features a special 'reading mode' to help avoid this. When activated, it automatically adjusts the screen settings to reduce the amount of high-frequency blue/violet light to create a more comfortable reading experience.

Enhance your entertainment

ASUS Transformer Book T100 features a beautiful 10.1-inch IPS HD display that brings all your photos, videos and games to life. Its clarity, detail and multi-touch support are a perfect match for the updated Xbox entertainment apps in Windows 8.1, which give you instant access to millions of songs, videos and games. And thanks to T100's amazing sound and incredibly light weight, it's absolutely perfect for entertainment on the move.

ASUS G SERIES

UNLEASHED POWER TO REDEFINE GAMING

ASUS G Series ships with Windows 8.1, so you can browse the web faster and utilize more powerful computing to do more wherever you are.

Gaming-grade power

Superb performance from 4th-gen Intel® Core™ i7 processor and NVIDIA® GTX 860M graphics!

Armed and ready

Stylish gaming with an adjustable-backlight keyboard and gorgeous spun-finish touchpad!

Wide detail in Full HD

Remarkable detail and 178-degree viewing on a 15.6-inch Full HD IPS panel!

Bass that hits back

Thumping deep-bass audio from SonicMaster and an exclusive external subwoofer!

Power to perform

ASUS G series is buzzing with newest and very best processor and graphics technologies. Exceptionally powerful 4th generation Intel® Core™ i7 processors team up with dedicated graphics from NVIDIA® - all the way up to GeForce® GTX 860M series graphics. With such awesome power at its disposal, G series delivers an unrivalled notebook-gaming experience. With no need to compromise you can crank up resolutions to the max and watch the graphics fly. Be dazzled by amazing frame-rates that never stutter from a notebook that doesn't lose its cool in the heat of the battle. Cool, quiet and fast as fast can be - ASUS G series is notebook gaming as you've never before experienced.

ROG audio total solution

Where many gaming notebooks treat sound as an afterthought, ASUS G series puts it front and center. It features exclusive ASUS SonicMaster and ROG AudioWizard, designed by a dedicated team of audio engineers as a careful balance of hardware and software towards the best notebook sound. Sure, with G series your games look their best, but they also sound fantastic. Every effect and note comes out with increased power, range, and clarity. This is more than enjoyment: as any gamer knows, sound is critical to success play, giving you the edge with sonic awareness and positioning.

Stable performance with a silent cooling system

The G Series has been designed to withstand marathon gaming sessions, with a powerful thermal solution that ensures system stability in the heat of the action. It's silent too, so it won't distract you from your game.

14.1"

15.6"

A classic, timeless design

Reliable and comfortable to use, the new ASUS A Series notebook has a spun-circle finish for a classy, elegant feel. Its slim profile is 5% thinner than the previous A Series notebook, and still houses a large touchpad with intuitive multi-point Smart Gesture input, multiple USB 3.0 ports for fast data transfer and IceCool technology to keep your palm rests cool.

Providing a smooth computing experience

Value-packed with all the essentials, the new ASUS A Series reinvents your daily computing experience. Whether you are using it for work or for fun, this is an ideal machine for both productive computing and entertainment. It features up to an Intel® Core™ processor and graphics card, Instant on that resumes your computer from sleep mode in 2 seconds and USB 3.0 for 10 times faster data transfer speed. New ASUS A Series gives you everything you need for a truly satisfying multitask computing and multimedia experience.

A notebook with smartphone-like accessibility

The A450 features the exclusive ASUS Super Hybrid Engine II with instant on to provide you with smartphone-like levels of accessibility. It can resume from sleep mode in just two seconds and has up to 14 days of standby time. It automatically saves your data when battery levels drop below 5%, so your documents are kept safe and secure.

Resume in 2 Seconds

ASUS A·SERIES

Expressive colors. Exceptional performance.

ASUS A Series ships with Windows 8.1, so you can browse the web faster and utilize more powerful computing to do more wherever you are.

Incredible Beauty

Sophisticated texture finish in several colors

Incredible Performance

True 2-second Instant on and up to Intel® Core™ i7 processors

Incredible Sound

SonicMaster technology for clear and powerful sound experience

Precise, crystal clear audio to complete the cinematic experience

On most notebooks, all sound frequencies originate from small onboard speakers. The resulting audio comes from a single source and lacks distinctiveness. Like other notebooks in the ASUS range, the new ASUS A Series comes equipped with SonicMaster technology and ASUS AudioWizard to bring you high fidelity audio. Experience omnidirectional sound and hear each individual instrument's nuances with the new ASUS A Series.

ASUS X-SERIES

Bold colors, classic style

User-centric 11.6" and 14" notebooks for everyday use

ASUS X Series ships with Windows 8.1, so you can browse the web faster and utilize more powerful computing to do more wherever you are.

IceCool technology

For a cool, comfortable typing experience

Smart Gesture

For intuitive touchpad input

Multiple colors

Pick a color to suit your style

Incredible Beauty

A classic, timeless design

The ASUS X Series is the perfect all-round laptop for work and play. Stylish concentric circle finish and durable design with a choice of fashion colors, black, white, passion pink, or lavender purple provide self-expression. ASUS Splendid and SonicMaster technology give you immersive visuals and pitch-perfect sound.

Incredible Performance

Providing a smooth computing experience

Value-packed with all the essentials, the X Series reinvents your daily computing experience. Whether you are using it for work or for fun, this is an ideal machine for both productive computing and entertainment. It Instant on that resumes your computer from sleep mode in 2 seconds and USB 3.0 for 10 times faster data transfer speed. ASUS X Series gives you everything you need for a truly satisfying multitask computing and multimedia experience.

Incredible Sound

Precise, crystal clear audio to complete the cinematic experience

On most notebooks, all sound frequencies originate from small onboard speakers. The resulting audio comes from a single source and lacks distinctiveness. Like other notebooks in the ASUS range, the X Series comes equipped with SonicMaster technology and ASUS AudioWizard to bring you high fidelity audio. Experience omnidirectional sound and hear each individual instrument's nuances with the X Series.

Incredible Touch

Precise input

The ASUS Golden Finger team puts natural interfaces first, developing standards far beyond industry average. This assures ASUS provides the most comfortable and responsive experiences in every application and at all times. The X Series has a large touchpad equipped with Smart Gesture technology for quick and precise response across a wide range of touch inputs. The ergonomic seamless one-piece keyboard is designed to provide you the most comfortable typing experience.

1 Legendary history-making

Flawless performance even in extreme conditions

ASUS notebooks have been tested in the most punishing of conditions and the most remote locations. Many of these incredible feats have become the stuff of legend, accomplishments that have left an indelible mark on history.

3 Extra reliable

Strictest testing proven to exceed the US MIL-STD 810G military standard

Business and organizational users demand greater reliability, so ASUSPRO BU401 notebooks go beyond the demanding US MIL-STD 810G military standard. They prove very durable in shock tests, drop tests, hinge cycle tests, and panel pressure testing, so your business benefits from steadfast reliability even in extreme conditions.

5 Eco-friendly

Leading in green technology with the highest environmental standards

ASUS has been leading the industry in eco-friendly processes, minimizing its environmental impact with an initiative dubbed Green ASUS. This covers green design, green manufacturing, and green procurement. The ASUSPRO Series succeeds in combining lower total cost of ownership with the highest environmental standards, certified EPEAT, Energy Star, and RoHS-compliant.

7 Seamless security

Complete protection through hardware and software features

Data safety is very important for businesses, so the ASUSPRO Series provides total security using multiple hardware and software layers. This includes onboard anti-shock hard drives that secure data against shocks and drops, fingerprint scanning that takes access authorization to a higher level, and smart card-based identification for logins and online transaction approval.

2 Worldwide services

ASUS guarantees all notebooks with free repairs and component replacement as needed within the 2-years warranty period. In addition, ASUS international warranties make sure your investment is protected even if you relocate, with support centers in 55 countries. This is the ASUS pledge of quality and customer satisfaction, wherever you might be.

4 Designed professional

World-class award-winning design

Starting with people and understanding what users think, feel, and do is how we design ASUSPRO Series notebooks. We believe business should be more mobile, powerful, easier, and comfortable to use, so ASUSPRO BU401 combines a variety of great functions into one Ultrabook™ at just 1.64kg. It measures a slim 21mm, is highly durable, and reinforced with tough carbon fiber construction, a metal frame structure, and anti-shock hard drives that secure data against damage. It features a true-comfort keyboard, adding to the many reasons ASUSPRO is best for business. ASUSPRO BU401 has secured awards from iF Design, Red Dot (Germany), Good Design (Japan), and an Excellence Award (Taiwan).

6 Long lifecycle

Good for the environment with three times the battery longevity

The ASUSPRO Series uses long-life batteries as a standard feature, lasting three times longer than traditional li-ion batteries. Power packs are eco-friendly and money-saving due to a lower replace rate, plus ASUS Xpress Charge technology can even charge your ASUSPRO Series notebook to 90% in just 90 minutes.

8 Worry-free

Trace and locate services for lost or stolen notebooks

When you lose your work notebook, a serious concern is confidential data being accessed by external parties. The ASUSPRO Series provides trace and retrieval services of lost or stolen notebooks, with each model pre-installed with Intel® Anti-Theft Technology to remotely disable access to the operating system, which means the notebook is locked and cannot be used by others. Computrace® LoJack® for Laptops software is included, and can also remotely lock and delete data before it falls into the wrong hands. The LoJack® for Laptops dedicated theft recovery team then works with local law enforcement to track down and recover lost or stolen notebooks.
