ASUS recommends Windows 8.

aboutASUS

ASUS is a worldwide top-three consumer laptop vendor and maker of the world's best-selling, most award-winning, motherboards. A leading enterprise in the new digital era, ASUS designs and manufactures products that perfectly meet the needs of today's digital home and office, with a broad portfolio that includes motherboards, graphics cards, optical drives, displays, desktop and all-in-one PCs, laptops, netbooks, servers, multimedia devices, wireless solutions, networking devices, tablets and smartphones.

Driven by innovation and committed to quality, ASUS won 4,168 awards in 2012 and is widely credited with revolutionising the PC industry with its Eee PC™. ASUS has more than 12,500 employees around the globe with a world-class R&D team of 3,800 engineers. Company revenue for 2012 was approximately US\$14 billion.

ASUS is the No.1 Laptop Brand in Southeast Asia

According to the latest IDC report (2013 Q2), ASUS notebooks are climbing the worldwide sales charts at an unprecedented pace, with sales outstripping those of companies who once dominated this market.

The No.1 consumer laptop brand in APAC (excluding China & Japan)

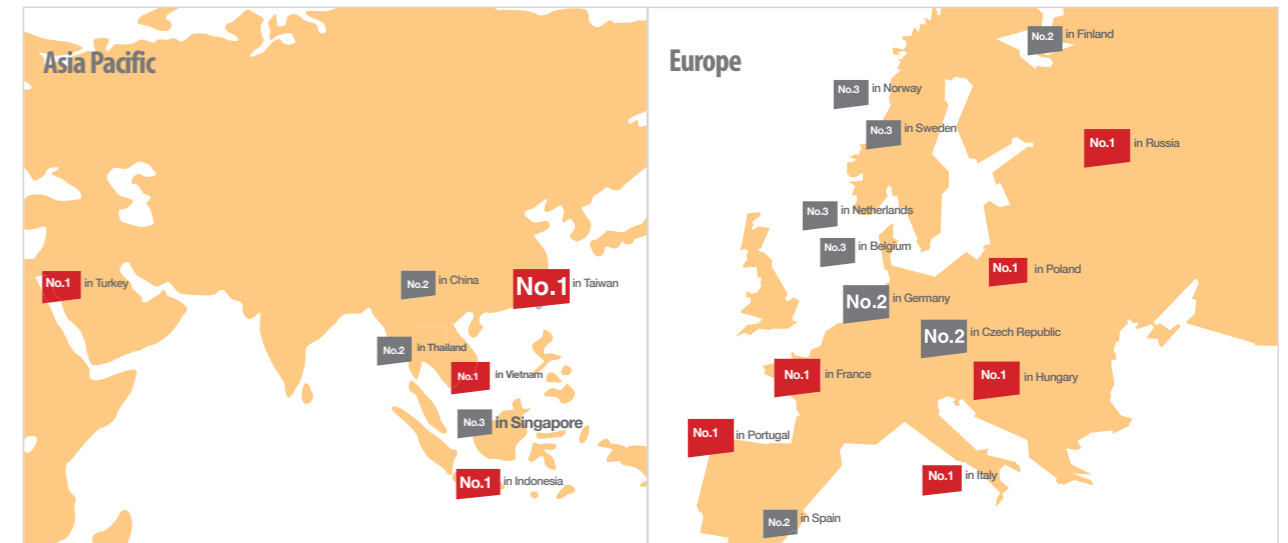

The Top 1 laptop brand in Central and Eastern Europe

The Top 2 laptop brand in China

The Top 2 laptop brand in Western Europe

The Top 3 laptop brand in APAC (excluding China & Japan)

The Top 3 Android Tablet Brand in the World

ASUS is the No.1 Motherboard Brand in the World

- ASUS had shipped 420,000,000 motherboards since 1989
 - One in every 3 PCs sold worldwide in 2010 was equipped with an ASUS motherboard
- The mainboard is the key to the quality and reliability of the notebook PC, so you can be sure that ASUS' notebooks have the best quality and are reliable.

ASUS is a Top Information Technology Company in the World

ASUS is ranked top 10 in the Consumer Electronics category of "The World's Most Innovative Companies 2010" by Fast Company, a media publication that tracks the pulse of the web and tech industry.

ASUS is No.1 in Quality and Service

ASUS strives for perfection in all of our products and we consistently win awards for quality and innovation. This is reflected in the No.1 rank we have attained for product quality and services from the Wall Street Journal Asia.

ASUS received 4,168 awards in 2012

A testament to your commitment to innovation, design and quality, ASUS garnered a total of 4,168 awards from prestigious technology organisations and IT journalists worldwide.

ASUS Green Technology

ASUS continues to lead the industry in the adoption of greener technology, and is the first in the world to achieve EU Flower Eco Certification for computers and EuP Certification for portable notebooks.

Marks in History: ASUS Notebooks

ASUS notebooks have been tested in the most harsh conditions and the most exotic locations. Many of these incredible actions have become the stuff of legend. We detail the accomplishments that have left an indelible mark on history here.

In outer space

Zero defects during 600 days in space!

Two ASUS notebooks were selected by R&K, a major computer and electronics supplier to the aerospace industry, to provide astronauts with dependable computing hardware.

"ASUS notebooks never overheat like those made by other companies," said Sergei Avdeev, one of the Russian cosmonauts. "Thermal flow in space and on Earth is completely different. Only notebooks with the best cooling can survive continuous operation. We used our ASUS notebooks all day without a problem."

In the air

Helping the NRMA CareFlight helicopter rescue unit save lives.

NRMA CareFlight, an emergency medical and rescue helicopter unit serving New South Wales in Australia, uses ASUS notebooks in different fields, including aviation, medical treatment, and administration. ASUS notebooks play a critical role in CareFlight improving survival rates in severe head trauma incidents. They help medical teams arrive on-site faster than ambulances, with fatalities lowered by 33%.

"All our pilots are very impressed with ASUS notebooks and amazed at their ability to withstand aircraft vibration," said Mark Lees, Community Relations Manager of CareFlight. "We are ready to install ASUS notebooks in all our aircrafts and link them to onboard navigation computers."

On the road

Flawless performance during grueling off-road racing.

ASUS notebooks performed critical tasks at the PATAGONIA 2000 race, which saw them used in hote deserts and snow-covered mountains. They acted as navigation devices, exceling due to their built-in GPS functionality and dynamic map displays. They were also mobile communication centers, enabling email and video conferencing.

"Needless to say, ASUS computers survived the severe conditions of this strenuous voyage without a single flaw," said race organiser Aviv Shweky.

At the ends of the earth

Conquering Antarctica.

Perfect performance records in freezing temperatures at the South Pole have been achieved. A December 2003 expedition that included acclaimed mountaineers Shi Wang and Jian Liu set out to reach the summit of Mount Vinson, the tallest peak in Antarctica at 16,000 feet, where temperatures drop below -100°F. Wang and Liu brought ASUS S200N notebooks to record and share their experiences.

On the world's highest peak

First notebooks to scale Mount Everest.

Conditions at the world's tallest mountain may faze other notebooks, but several ASUS models, including the U5/S6 leather and bamboo editions, W7 and U1 were chosen to accompany an expedition to the top of Mount Everest, know locally as Qomolangma. Upon reaching base camp at 500m, only ASUS notebooks continued to operate. Other notebooks failed to boot due to extremely low ambient temperatures. The U5 even made it to the peak at a height of 8848m, with expedition leader Captain Wang Yongfong carrying it as a tribute to eco-friendly technology and making ASUS the world's first notebooks at the top of Mount Everest.

ASUS Customer Happiness 2.0

ASUS Customer Happiness 2.0 evolves around the concept of optimizing your usage experiences. More than just offering industry-leading products technically, we are committed to providing you with stunning visuals with our focus on design aspects, incredible sound experiences with exclusive audio softwares and hardware, intuitive touch experiences, not forgetting increasing your ease of computing with 2-second instant on from sleep and providing you with cloud storage for additional storage needs.

With you in mind, ASUS is motivated to keep pushing our boundaries to meet your ever-changing computing needs.

ASUS received 4,168 awards in 2012

A testament to our relentless innovation and the result from years of research in design and manufacturing techniques, ASUS garnered a total of 4,168 awards from prestigious technology organisations and IT journalists worldwide. This can only be achieved by a company with vision and mission to pursue the best innovation.

ASUS is increasingly placing emphasis on tablets and smartphones to stay ahead with consumers' changing lifestyle needs, and once again our innovation and persistence in perfection leads to a total of 798 awards for tablets and smartphones!

iF Design Awards
ASUS products have won numerous international industrial design awards and have once again demonstrated their outstanding design quality and innovation by taking home no less than 10 accolades at the iF Design Awards 2012.

2013

Innovation International CES Awards
Six ASUS products have been selected for the CES 2012 Innovations Design and Engineering Awards honoree program. The awards have become a hallmark for the best-designed products in consumer technology and our brand promise of Inspiring Innovation • Persistent Perfection has resulted in such wide recognition for our products.

JAN 2011
STUFF

Without a doubt, this year's CES is wall-to-wall with tablets, but ASUS Eee Pad Slider caught our eye with its combination of a sliding keyboard and power on paper.

Extreme Test Ensure Top-Quality Notebooks

ASUS notebooks are subjected to stringent tests that ensure each and every model is robust and reliable. Notebooks are placed under stresses not normally seen in everyday life to ensure they continue to deliver unparalleled performance, even in the most extreme conditions.

Keyboard Test

ASUS tests the keyboard to check the comfort and durability, especially on keys that are more frequently used.

Abrasive Test

Abrasive resistance test subjects the exteriors of ASUS notebooks to friction, making sure that the colors and surface materials stay at prime conditions even after extensive and demanding use.

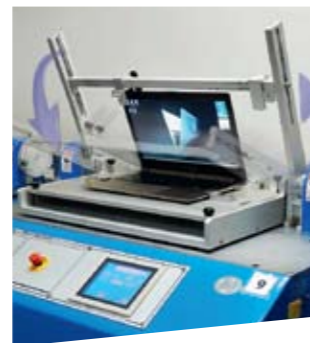

Noise Test

ASUS notebooks undergo meticulous noise testing to help promote a quiet and pleasant computing environment for consumers. Noise mitigation, quiet cooling and component seals are all put to test in this set of trials.

Pressure Test

Notebook LCD screens are fragile and need to be protected by a sturdy lid. ASUS ensures that each display is well protected by subjecting lid designs to high pressure tests, and ASUS commercial panel pressure tests exceeds the requirements of normal notebook standards by 20%.

Hinge Test

Screen hinges are a potential weak spot on any notebook, so ASUS tests its designs by opening and closing its notebook lids at least 20,000 times to ensure their robustness. ASUS Commercial Series notebooks exceed industry standards in this area as well.

Vibration Test

Vibration test puts the notebooks on multiple frequency vibrations to ensure that the frame construction outside and the inside of the notebooks are always attached securely.

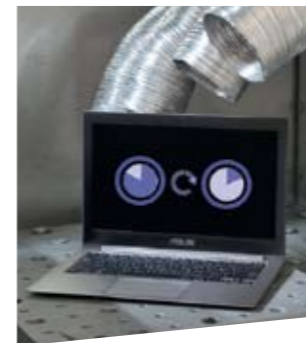

Shock Test

Notebooks are likely to experience shocks during shipping and day-to-day use. This is why ASUS performs a variety of shock tests to ensure that each model can handle the rough and tumble of everyday life.

Spin Test

Most of the notebook covers can be opened with one hand and this means that the screen has to be flexible. Spin tests are carried out to measure how well the lid is able to protect the notebook by testing it with a twist on the overall framework to an extreme degree.

High Acceleration Test

HALT test (Highly Accelerated Life Test) tests notebooks in high speed stimulations to simulate the movement of a mobile notebook, with an extensive analysis of our engineers to reduce the problems that may occur during transportation.

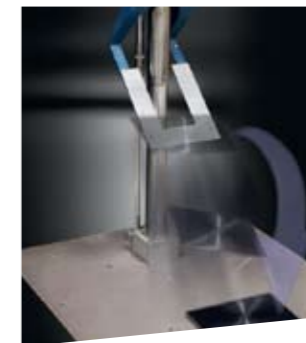

Port Test

Each port is tested to ensure that it remains strong and solid despite the continuous plug and unplug actions.

Temperature Test

Each ASUS notebook went through many trials to be able to continue to operate in diverse climates. One of the tests is to stimulate an environment of high humidity and low, and also in extreme temperature conditions. Each weak point in the material and framework is strengthened. This is the reason ASUS notebooks have high durability.

Fall Test

A dropped notebook shouldn't mean a broken notebook and ASUS puts its notebooks through a series of drop tests to measure how well they cope with life's little accidents. ASUS commercial notebooks surpass industry standards at more than double the drop height.

ASUS 2 Years International Warranty

ASUS guarantees you with no repair and component charges within your 2 years warranty period for notebooks. For tablets, 1 year international or local warranty is offered depending on the models. ASUS's international warranty makes sure that you are protected even if you are stationed abroad, with our centers established across 55 countries.

This is ASUS's commitment to deliver quality and customer satisfaction to you, wherever you might be.

ASUS. Made Intuitive for You

PRODUCTIVITY

ASUS Instant On

Resume from sleep in 2 secs with ASUS Instant On to eliminate irritating reboot waiting time. In addition, when the battery level is below 5%, data will be automatically backed up.

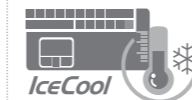

Larger Smart Gesture Touchpad

Larger smart gesture touchpad with screen matching proportions allow more intuitive control, easier and more comfortable usage.

SuperBatt Technology

ASUS laptops comes with a longer battery recharge cycle longevity of up to 3 times. Now you can be rest assured that the percentage of fully charged capacity will be kept high even after long-term usage.

IceCool Technology

IceCool technology ensures that your palm rests stay below body temperature, so they feel cool even during the longest typing session or even after long periods of usage.

ASUS Miracast

ASUS Miracast is a WiFi certified groundbreaking solution for displaying personal and online content on a big screen with a simple wireless connection. It enables content mirroring from your tablet to other display screens.

ASUS CloudStorage

With ASUS CloudStorage, you can access all your documents, photos, music and videos from any device you're on, with instant file synchronization so you're always on the latest version. Tight security is maintained while ensuring greater convenience.

ENHANCED ENTERTAINMENT

SonicMaster

ASUS SonicMaster technology combines both software and hardware enhancements to give you high audio quality, with crystal clear, true-to-life surround sound, deeper and richer bass, distinct vocals, a more powerful volume, and a wider sound range.

SonicMaster speakers are constructed from metal with increased hardness to enhance audio balance with large resonance chambers for your unforgettable enjoyment.

ORGANIZATION APPS

ASUS Story

Create stunning presentations or simply organise your photos in albums with ASUS Story and its page-turning animations. Add a map or text if you like, and adjust to a layout or reposition your photos to how you would like them to be.

PRODUCTIVITY APPS

SuperNote

Taking notes have never been this easy, with ASUS SuperNote. Just scribble, draw or type your notes. What's more, you can even insert photos, videos or audio clips of your lectures or meetings into them!

WebStorage Online Office

Need to edit a document urgently? Just open the document in your WebStorage and you can edit directly from there, with WebStorage Online Office. Not only that, you can also create new documents and presentations, and share them instantly.

Floating App

Now with ASUS multitasking app, you can easily switch between your apps. Supports Browser, Calendar, Calculator and other ASUS apps.

Instant Dictionary

Instantly translate words, phrases and sentences in emails, pages or apps with a single touch. Simply highlight to translate instantly.

ENHANCED PRODUCTIVITY

One-Finger Mode Switching

Want to switch from your laptop mode to tablet mode? Just use one finger to close the lid of TAICHI. Instantly it transforms from a laptop into a tablet interface. It's that simple.

TAICHI Stylus

Use TAICHI Stylus to sketch or to write notes in Tablet or Extend mode. Expand the scope of work achievable with ASUS TAICHI and its Stylus. Now you can enhance your productivity regardless of the nature of tasks with TAICHI.

TAICHI™ SHARING : 4 Display Modes

It's a laptop. It's a tablet. More than that, the unique function of TAICHI which enables you to switch to 4 different display modes gives you the unparalleled flexibility of sharing with your boss, colleagues to friends and family, giving you your desired privacy with the 4 different modes.

INCREDIBLE BEAUTY

Dual High-Definition Display Screens

The ASUS TAICHI™ gives a spectacular high-definition view with apps, games and movies thanks to two 1080p Full HD displays. IPS technology ensures a brilliant image with accurate colours and crisp contrast, while the 178° wide viewing angle keeps each screen crystal-clear even when seen from the side. TAICHI can capture incredible images too, thanks to HD camera in both notebook and tablet modes.

[3mm / 9mm / 1.25kg]

Thin and Light

Even with two screens, ASUS TAICHI is able to maintain its sleekness with a front profile of 3mm and rear profile of 16.5mm. Besides that, the 1.25kg light weight adds to the ease of mobility.

TAICHI™ SHARING

Lift the lid with one smooth motion and TAICHI becomes a fully featured laptop. The Full HD 11.6" screen features IPS technology for a vibrant image with wide viewing angles. The backlit keyboard with ambient light control and large multi-touch touchpad make light of productivity tasks too.

Close the lid and TAICHI instantly becomes a tablet. 10-point multi-touch Full HD screen gives complete fingertip control and the included stylus works just like a pen on paper for accurate handwritten notes and sketches, plus IPS technology keeps the image bright and clear. Built-in motion sensors also make TAICHI the ideal for mobile gaming.

Only TAICHI gives you 2 display screens with its Mirror mode. With the lid open and Mirror mode enabled, the 2 screens are able to display the same image which makes TAICHI perfect for sharing your favourite movie or software demonstration. IPS display technology ensures a bright, vibrant image with wide viewing angles on both screens too.

In Extend mode, TAICHI is no longer one computer - it's two. When enabled, the 2 screens can be used by 2 people concurrently, as a laptop and as a tablet. Extend mode is ideal for presentations and the Screen Share app lets the presenter see the script on one screen while the audience views the slides on the other.

TAICHI Exterior Interface

Use TAICHI as a tablet with the lid closed, or utilize TAICHI's Mirror or Extend modes for sharing your content.

TAICHI Interior Interface

Use TAICHI as a fully featured notebook with the lid opened.

INCREDIBLE AUDIO & VISUAL

5MP 1080p Exterior Camera

With 5MP exterior camera and HD interior camera, now you can take premium quality photos with TAICHI, as well as have high quality visuals during video conferences.

Premium Audio Quality

Co-Developed with Bang & Olufsen ICEpower®

TAICHI features ASUS SonicMaster audio technology, developed with the world-renowned Bang & Olufsen ICEpower®. SonicMaster takes sound quality to a whole new level, with a wider frequency range for clearer vocals and resonating bass.

High Quality Conferences with background noise suppression

Array microphones with positional audio detection and background noise suppression ensure spoken communication is always loud and clear, too.

ASUS INTUITIVE DESIGN

Backlit Keyboard

In dim light, the keyboard is highlighted with a back light, which enhances your productivity even with an absence of light.

Large Gesture Pad

The large Smart Gesture touchpad makes apps in notebook mode just as intuitive to use.

ASUS Transformer Book Trio

It's a Laptop. It's a Tablet. It's a Desktop PC.

1 Device. 2 Operating Systems. 3 Working Modes.

ASUS Transformer Book Trio is the world's first 3-in-1 laptop, tablet and desktop PC, with dual operating systems. Switch between Android and Windows 8 easily and with its dual CPU, you can play games as a tablet in Android mode, and attached the keyboard to a monitor to work as a Windows desktop PC concurrently.

DUAL
OPERATING SYSTEMS

INCREDIBLE PERFORMANCE

One Button Switch between Android & Windows

With both Android and Windows platforms in one device, you can enjoy the best of both platforms in a device. Switch between Android and Windows easily as a notebook, enjoy your games and entertainment as a tablet, and work productively in Windows as a desktop PC by connecting to a monitor.

Dual Processors

Featuring the latest 4th generation Intel® Core i7 processor, the Trio is a powerful laptop that instantly transforms into a multi-touch Android tablet running on Intel® Atom™ dual-core processor and a separate desktop PC that is ready to connect to a monitor.

Dual Storage Capacities

With the display docked, not only can the Trio switch instantly between Windows 8 and Android 4.2, you can also access the data between both operating systems via the tablet storage!

Up to 13 hours usage

Separate batteries are found in both the tablet and PC Station keyboard dock to maximise mobility by extending the battery life. Now you no longer have to worry about not being able to finish your work on-the-move, or missing your favourite TV show!

INCREDIBLE TOUCH

Intuitive Small Touch Points of 6mm.

Experience completely new touch experiences with its all-glass panel. The responsive touchscreen means your fingers can slide edge to edge naturally and unhindered. This flowing motion makes swiping, scrolling, and all other gestures quicker, more intuitive, and incredibly rewarding. With small touch points of 6mm, what it means is even the small fingers of toddlers are able to operate the ASUS touchscreen notebooks smoothly.

3 WORKING MODES

Notebook Mode

Powered by 4th generation Intel® Core™ processor for seamless multi-tasking performance and outstanding energy efficiency, you can get more done in laptop mode with both Windows 8 and Android when you are on the move.

Tablet Mode

Detach the Trio's 11.6-inch display and it instantly becomes a responsive multi-touch Android tablet with an Intel® Atom™ dual-core processor.

Desktop PC Mode

When the Trio's tablet display is used in tablet mode, the PC Station keyboard dock does not need to sit idle. Connect a monitor or HDTV and it becomes a fully functional desktop PC with a built-in keyboard and multi-touch touchpad.

INCREDIBLE BEAUTY

Premium Full HD IPS panel

ASUS Transformer Book Trio features a 1080p Full HD display with IPS technology for an incredibly crisp and detailed image with 178° wide viewing angle. IPS display technology gives vivid and accurate colors that keep the images bright and clear, even when seen from the sides of the screen.

High Performance Detachable Laptop

One Computer, Two Ways of Working

Meet the powerful convertible Windows 8 laptop. Powered by Intel® processors, ASUS Transformer Book is two computers in one. One one hand, it's a fully featured laptop, while on the other hand it's a multi-touch tablet.

Enjoy the best of both mobile worlds with ASUS Transformer Book.

2 WORKING MODES

Laptop Mode

When it comes to productivity, ASUS Transformer Book TX300 is a full featured laptop with powerful 3rd generation Intel Core processor, Intel GMA 400 graphics and 4GB RAM. The mobile dock has a wide range of ports, built-in battery and a SATA hard drive.

Tablet Mode

When it's time to relax, TX300's Full HD display quickly detaches from the mobile dock and can be used as a lightweight multi-touch tablet with built-in 128GB SSD.

ENHANCED PRODUCTIVITY

Battery Up Technology

The Battery Up mode in ASUS Transformer Book enables extended mobile usages by disabling everything in the dock except for keyboard and touchpad so that the dock's battery can power the tablet for longer usage hours.

128GB SSD + 500GB SATA HDD

Dual Storage Capacity

Connect ASUS Transformer Book TX300 to its notebook dock and it instantly becomes a fully functional notebook with 500GB SATA storage in addition to the 128GB SSD capacity in its tablet mode. Exclusive ASUS high-speed bridge technology ensures blisteringly fast 5GB/sec transfer speed from the SATA hard drive too - even faster than USB 3.0!

INCREDIBLE BEAUTY

[4mm / 11mm / 950g]

Ultra-Slim Profile

Detached from the dock, TX300 is the world's thinnest tablet that is powered by Intel Core i7 with a slim profile of 4mm.

Premium Full HD IPS panel boosts display details

ASUS Transformer Book TX300 features a 1080p Full HD display with IPS technology for an incredibly crisp and detailed image with 178° wide viewing angle. IPS display technology gives vivid and accurate colors that keep the images bright and clear, even when seen from the sides of the screen. In addition, ASUS Splendid technology enhances the display of ASUS notebook panels, reproducing richer and deeper colors for visually stunning experience in any viewing scenarios.

INCREDIBLE AUDIO

SonicMaster

Powerful Audio with 4 Speakers

Co-Developed with Bang & Olufsen ICEpower®

ASUS Transformer Book TX300 boasts of a total of 4 speakers, delivering an incredible and immersive listening experience, in addition to ASUS SonicMaster technology. SonicMaster takes sound quality to a whole new level, with a wider frequency range for clearer vocals and resonating bass.

ARRAY MIC

High Quality Conferences with background noise suppression

Array microphones with positional audio detection and background noise suppression ensure spoken communication is always loud and clear, too.

ASUS VivoBook Intuitive Touch Screen Laptops

The World at Your Fingertips

Inspired by the Latin verb for "to live", ASUS VivoBook is a personal companion that blends the unique elegance of ASUS notebook design with Windows 8 touch-friendly operating system. ASUS VivoBook embodies the spirit of touch to maximize intuitive interaction, offering naturally enjoyable user experiences that enhance every aspect of your lifestyle. It has been designed with stand-out aesthetics, true-to-life sound and instinctive touch.

They are ideal for the increasingly cloud-based nature of computing, supporting seamless connectivity and usage on the go.

INCREDIBLE BEAUTY

All-Glass Touchscreen. Intuitive Small Touch Points of 6mm.

ASUS VivoBook S400 ushers in completely new touch experiences with its all-glass panel. Smooth throughout, the responsive touchscreen means your fingers can slide edge to edge naturally and unhindered. This flowing motion makes swiping, scrolling, and all other gestures quicker, more intuitive, and incredibly rewarding. With small touch points of 6mm, what it means is even the small fingers of toddlers are able to operate the ASUS VivoBook touchscreen laptops smoothly.

ASUS Intuitive Instant Functions

ASUS has developed a range of Instant Functions especially for Windows 8, enabling fuller immersion in the new operating system. With just one key press, engage and load up Instant Functions for more customization options and more personal interaction with your computing environment.

INCREDIBLE PERFORMANCE

ASUS VivoTab™ Smart 10.1" Windows 8 Tablet for the everyday user

A Brand New Start to Stylish Mobility

Productivity and entertainment on the move has never been this simple. With ASUS VivoTab Smart's light weight of 580g and a long battery life of up to 9.5 hours, the device is more than sufficient to last through your all-day classes. Using Windows 8 platform also means that you can also install Microsoft Office programs to work on your assignments and work, and connect to a printer to print them out just from ASUS VivoTab Smart.

ULTRA MOBILITY

Slim and Light

With a slim profile and a light weight of 580g, ASUS VivoTab SMART enhances the ease and mobility enabling you to just bring the device along with you to just about everywhere.

Long Battery Life

ASUS understands your need for a long battery life, especially for mobile devices such as the VivoTab SMART. That's why you can get up to 9.5 hours* battery life on the move.

ON-THE-GO HUB

Crystal Clear 8MP Camera

Take high quality photos on-the-go with ASUS VivoTab Smart's 8MP camera. It comes with built-in LED Flash for dim light situations too. Its 2MP front camera with LED indicator gives you high clarity video images when doing video chatting with your friends!

178° Wide Viewing Angle

With an IPS panel with 178° wide viewing angle, even your friends sitting further to the sides of you are able to share the excitement of your favourite movie. Get yourself surrounded with your friends and your entertainment!

Sharing made easy with NFC

Want to share some files with your friends, just use NFC (Near Field Communication) and transfer to your friend's device wirelessly within a distance of 4cm. It's that easy.

Free 32GB WebStorage for 3 years

Cloud-based WebStorage lets you access all your documents, photos, music, and videos from any device you're on, with instant file synchronization so you're always on the latest version. ASUS WebStorage maintains tight security while ensuring greater convenience – it uses easy link-based sharing to get you and your family or friends connected via one unified cloud life.

ULTRA PRODUCTIVITY

Supports Windows Desktop Applications

With a Windows 8 tablet, what it means is the thorough integration with your Windows devices, be it your desktop or your laptop. Now you can run the same applications on your Windows 8 tablet. Besides, you can also connect to any PC peripherals such as your printer or scanner with ASUS VivoTab SMART, just like how you connect with your laptop.

Pre-installed Microsoft Office(2013 H&S Ed.)

Working on your office documents such as Excel, Powerpoint, Word has never been easier. Now you can work on your documents on VivoTab Smart and sync easily with your laptop for transferring of files.

ACCESSORIZE

Accessorize with ASUS Transleeve

INDEFINITELY GORGEOUS

Clarity down to minute details

Be awed by the clarity of minute details such as hair textures with the ultra high resolution 2560 x 1600 and 300ppi display. With its Full HD 1080p video playback, watch your high definition videos in their full clarity and vibrancy, and share them with your friends around you with its 178° wide viewing angle. Want a bigger screen? You can just connect to a larger screen such as your TV or monitor with its HDMI output.

[8.9mm / 585g]

Slim & Light

With its beautifully crafted design, a slim profile of 8.9mm and light weight of 585g, you can just about carry ASUS Transformer Pad TF701 everywhere!

INDEFINITELY PRODUCTIVE

Latest NVIDIA Tegra 4 Processor

ASUS Transformer Pad TF701 comes with the latest NVIDIA Tegra 4 quad-core processor with 72-core GeForce graphics, which give you faster web browsing, gaming experience and multitasking.

Up to 17 hours* all-day usage

With up to 17 hours* of all-day usage with the dock, you can be rest assured that ASUS Transformer Pad TF701 gives you more than sufficient battery life to last through your meetings and classes!

Wireless Sharing

With Miracast support, now you can share your presentations, photos, videos and even play games wirelessly.

ENHANCED CAMERA

Capturing photos while recording videos

Have you ever wished that you could take quality photos while shooting a video concurrently? Now you can take 5MP high quality photos while shooting a 1080p HD video concurrently!

The quality of night shots is also enhanced with 3D noise reduction, and when using burst mode, the best 5 photos are automatically chosen.

Zero Shutter Lag

With the newly implemented zero shutter lag, you can take photos instantly at the exact moment the photo is taken.

High Dynamic Range

You can also choose High Dynamic Range (HDR) mode for taking objects in bright settings so your photos are not affected by high-contrast lighting. In this way, your photos are always captured with optimum exposure.

7.0"

nexus 7

STUNNING PERFORMANCE

1080P

The sharpest 7" tablet screen ever

The world's highest-resolution 7" tablet puts over 2.3 million pixels in the palm of your hand. With 323 pixels packed into every inch, you can read text that's sharper than the printed page, see images more vivid than the highest quality photo magazine, and watch videos come to life in vibrant 1080p HD.

Fast and smooth

Nexus 7 is made by ASUS and packs a serious punch. With a quad-core Qualcomm Snapdragon™ S4 Pro processor and 2GB of RAM, everything runs faster. Plus, high-performance rendering ensures 3D graphics are smooth and dynamic.

Powered by Android™

Nexus 7 is the first tablet to ship with Android 4.3, the latest version of the world's most popular mobile operating system so its fast, fun and easy to make your own. Share your tablet with friends and family - each person has a separate customizable space, including personal homescreen, wallpaper, apps, storage, and more. You can also manage access to apps and content to create an experience that's appropriate for each member of the family.

Connect from anywhere

With dual-band Wi-Fi and optional 4G LTE, including support for hundreds of networks worldwide, you'll stay entertained - and connected - wherever you are.

Wireless charging supported

Nexus 7 supports wireless charging! Now you can charge conveniently without adding to your clutter of cables.

Besides, with its Miracast support, you can share your presentations, photos, videos and even play games wirelessly!

STUNNING BEAUTY

Smart, thin and gorgeous

The clean, simple design features a slim body, a thin bezel and a soft-touch, matte back. So it sits comfortably in the palm of your hand while the bright, beautiful 7" display brings your entertainment to life.

Up to 10h*

Light than ever, lasts longer

At just 0.64lbs (290g), the all-new Nexus 7 is light enough to take anywhere and fits easily in bags, backpacks, and even back-pockets. With up to 9 hours of HD video playback and 10 hours of web browsing or e-reading, there's plenty of juice to get you through the day, and built-in wireless charging means you can charge, grab, and go.

Sound that surrounds

Nexus 7 features stereo speakers and Surround Sound powered by Fraunhofer¹ (the MP3 inventors) so you get rich and immersive audio. Hear it all more clearly with finely tuned volume boost technology that makes dialog and sound crisp and easier on the ears.

Best of Google™

Nexus 7 comes with all your favourite Google Apps -- like Chrome™, Gmail™, YouTube™, Hangouts™ and Google Now™ - so you can browse, watch, share and stay connected wherever you go. And because Google apps are designed for the cloud, everything is simple and works seamlessly across your phone, tablet and computer. Now you have all the stuff you need, when you need it.

NEXUS 7 (2013)

- Android 4.4 Jelly Bean
- Qualcomm Snapdragon S4 Pro 8064 1.5GHz, L2 2MB Quad-core

ASUS Fonepad™ 7.0" Multimedia Tablet with Full Phone Functions

The Incredible Fusion of Phone & Tablet

We now spend more time looking at the screen on our smartphones than we do making calls, so why are their screens still so small?

Fonepad is perfect for people who value both voice communicator features of a smartphone and the increased entertainment opportunities afforded by a big-screen tablet, but prefer the convenience of carrying just one device.

Asus Fonepad is the one device for everything you do.

FULL PHONE FUNCTIONS

HD IPS PANEL

SonicMaster

DUAL FUNCTIONALITY

Tablet with Full 3G Phone Functions

With full 3G phone functions, now you have the flexibility to use ASUS Fonepad according to your different needs. Its dual microphone with noise cancellation lets you have a crystal clear calling experience. When you are on the go, use a headset or just speak through the receiver with the tablet directly.

INCREDIBLE PERFORMANCE

The next generation Intel Atom Processor

Equipped with Intel Atom processor, now you can enjoy all-day computing with its power saving feature.

Long Battery Life

ASUS understands your need for a long battery life, especially for mobile devices. Now you do not have to worry about charging with up to 9 hours of all-day usage.

Expandability with Micro-SD Card Slot

If you need more storage for your entertainment, ASUS Fonepad supports up to 32GB micro-SD card storage.

Free 5GB Lifetime ASUS WebStorage

With free 5GB ASUS WebStorage for life, now you can upload, sync and share your files easily with your friends and family, no matter where they are, and data can be synchronised easily from PC to Pad and vice versa.

QUALITY VISUALS

Wide 178° Viewing Angle IPS Panel

With a wide 178° viewing angle, even your friends sitting near to you are able to have undistorted views of your photos and videos.

3MP Rear Camera & 1.2MP Front Camera

Capture and share every moment with ASUS Fonepad's front and rear cameras. It features a 3MP rear camera with auto-focus for taking photos, and 720p video recording. Besides, enjoy lively video calls with its 1.2MP front camera.

ASUS INTUITIVE SOFTWARES

WebStorage Online Office

Easily view, create, edit and share your Microsoft Office files online using your WebStorage account. Now you can work on your projects no matter where you may be.

Floating App

Now with ASUS' multitasking app, you can now easily switch between your apps. Supports Browser, Calendar, Calculator and other ASUS apps.

ASUS Story

ASUS Story automatically creates realistic-looking albums of photos, with page-turning animations. Create stunning presentations with ASUS Story easily and impress your clients and friends.
