

NEW AUTO-ORDNANCE STAINLESS 1911

NEW PRODUCTS
2022

The American made Auto-Ordnance 1911TCAC6N model incorporates a variety of upgrades popular with modern shooters. It features an adjustable trigger, skeletonized hammer, full-length recoil guide rod, extended beavertail grip safety, and extended magazine release. Frame, slide, and barrel are forged from stainless steel. The slide, sear, and disconnect are machined from solid bar stock, then heat treated properly for durability over many thousands of rounds. The slide has decorative cuts, and front cocking

serrations. Both mainspring housing and front strap are machined checkered at 20 lines per inch. The gun is finished in Savage Stainless Cerakote®. The match grade barrel is 5" in length, and chambered in .45 ACP. Two models are available, one with TruGlo® night sights and the other with combat day sights. Grips are black rubber. The pistol has a thumb safety, grip safety, and firing pin block. Each Auto-Ordnance stainless steel 1911 ships with one 7-round .45 ACP magazine.
