Surface Finishing Solutions

New from 1st of April 2020

About Mirka

Mirka Ltd is a world leader in surface finishing technology and offers a broad range of groundbreaking sanding and solutions for the surface finishing and precision industry.

Decades of experience and a strong commitment to product development has seen us become a pioneering specialist in flexible abrasives and revolutionary, patented products which allow customers to enjoy a truly dust-free surface finishing process.

Mirka develops and manufactures advanced sanding and polishing machines, providing outstanding ergonomic and functional benefits to users. These innovatively designed tools combined with a range of effective, high-quality accessories, give Mirka's customers unmatched access to a complete sanding solution to meet their individual needs.

Mirka is a globally expanding company with 18 subsidiaries located in Europe, Middle East, North and South America as well as Asia. More than 97% of our products are exported and sold in over 100 countries.

Headquarters and production are located in Finland.

Our mission

"To give people the opportunity to perform better."

Mirka® DEOS 663CV Electric delta sander

The new Mirka® DEOS Delta makes sanding corners faster and easier than ever before. This sander has all the great features that our Mirka sanding machines are known for: easy-to-use, great ergonomics, low weight and low profile. The Mirka DEOS 663CV sander has the largest orbital movement of all delta sanders on the market, making it the perfect partner for effective and fast stock removal.

Mirka® DEROS 325/350CV Electric 77mm sander

The award-winning Mirka® DEROS is not just one sander, it's a family. The latest member, Mirka® DEROS 325/350CV, is a real problem solver and it has all of the great features of the DEROS including: Lightweight, low profile, ergonomic, low vibrations, brushless motor and either 2.5 mm or 5 mm orbit for fast stock removal. It's a smart sander with Bluetooth connectivity.

Mirka® AROP-B & ARP-B Cordless polishers

Experience worry-free polishing with the new cordless polishers Mirka® ARP-B and Mirka® AROP-B. Light, ergonomic and optimized for spot repair polishing, the polishers are perfect for polishing bumpers and spoilers, but can also be used for paint rectifications, polishing of small areas on both cars and wood.

Novastar® SR Spot repair discs

The Novastar SR spot repair disc is a unique finessing solution, made with a new manufacturing technology which enables a precise grain distribution and thus a consistent scratch pattern. They are easy to use, with minimal loading and pilling. These durable, flexible and long-lasting discs gives an excellent surface finish, making the polishing faster and easier.

Novastar® Flex Hand sanding sheets

Ultra-flexible hand sanding sheets for dry sanding. With the Novastar Flex hand sanding sheets you get the perfect balance in cutting and scratch pattern. Features colour coded grits and grip backing. The sheets has centre perforation for tearing in half. They are easy to clean from dust, thus last long and gives a superior finish, helping you save both time and money.

Polarshine® 45 Polishing compound

A coarse and fast cutting polishing compound that helps you save time and still achieve a perfect deep gloss finish. Removes sanding scratches from P600 and finer, quickly and permanently. Designed for hard surfaces and coatings, especially within the marine sector. Used in both production and restoration processes, Polarshine® 45 is ideal for one-step polishing of white and light-coloured gel coat surfaces.

Abrasives highlights

Abralon® J3

- Suitable for all materials
- 3 mm thick foam product
- Gives a superior finish

Abralon J3 is a unique multifunctional Abralon abrasive for an ultrafine surface finish for both smooth and profiled surfaces. Abralon J3 has a higher density foam layer which is only 3 mm thick. Recommended for high gloss applications, leaving a very smooth surface prior to polish. Abralon J3 is suitable for all kinds of material, both smooth and profiled surfaces. The flexible weave allows water and air to pass freely, and makes it suitable for both dry and wet sanding.

Abranet®

- Dust-free net product
- Results in cleaner work environment
- High performance and long life-span
- Fits all tools on the market (no hole to fit)

The multifunctional and classic Abranet is especially developed for sanding putty, primers, lacquers, composite materials and a wide range of other materials for industrial use. Abranet combines high performance and a long lifespan, making it a cost-effective solution. Designed for dry sanding, by hand or with a machine, the true dust-free sanding characteristics result in a cleaner work environment, as well as a better surface finish.

Gold

- Allround durable product
- Available in many different dimensions and hole patterns
- Aluminium oxide grains
- Grit range from P80-P800

This durable, all-round paper abrasive is very well suited for high speed sanding in a multitude of applications. Gold features a semi-open and special stearate coating designed to prevent clogging and pill forming, which helps achieve optimal sanding results. Mirka has now developed multihole pattern for Gold, which delivers superior dust extraction – compared to traditional paper abrasives and other multihole patterns on the market. Better dust extraction translates into productivity growth. Less clogging of the abrasive surface not only increases speed and durability, it improves the quality of the surface finish.

Iridium®

- Premium paper abrasive
- Mix of grains with precision coating
- Prevents clogging and reduces pilling
- Multihole pattern makes good dust extraction

Iridium is a premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains on a flexible paper with precision coating that prevents clogging and reduces pilling. It practically repels dust and lifetime is increased as the grains stay sharp for longer. Dust extraction is optimised with multihole patterns for discs and strips. Iridium delivers amazing results on both soft and hard surfaces, making it the ideal paper abrasive choice for professionals in any industry.

Novastar®

- For demanding applications
- Dust-repellent thanks to its mix of grains
- Great durability and excellent edge wear resistance.
- Fully waterproof

Novastar is a premium film abrasive that tackles demanding applications with unexpected ease. It has a mix of ceramic and aluminium oxide grains on a flexible film backing, with a precision coating that practically repels dust. The grains stay sharp as clogging is prevented. Great durability and excellent edge wear resistance. Dust extraction optimised with multihole pattern. Fully waterproof. Novastar delivers remarkable results, especially on hard surfaces. Outstanding performance makes it the ideal film abrasive choice for professionals in any industry.

Novastar® Flex

- Ultra-flexible sheet for dry sanding
- No wrinkles and easy to clean from dust
- Color coded grits
- Center-perforated sheets

Novastar Flex tackles all kinds of shapes and complex contours. The abrasive surface does not wrinkle or break, and there are no sharp edges even when folded. With the Novastar Flex hand sanding sheets you get the perfect balance in cutting and scratch pattern. Features colour coded grits and the grip backing, as well as centre perforation for tearing in half. Both full and half sheets can be used with or without a hand pad. The sheets are easy to clean from dust, thus last long and gives a superior finish, helping you save both time and money.

Abralon®

| | |
|------------------------|---|
| Grain | Silicon carbide |
| Bonding | Special resin |
| Backing | Knitted fabric on foam |
| Grit range | 180, 360, 500, 600, 1000, 2000, 3000, 4000 |
| Characteristics | Extreme flexibility Quickly creates a smooth surface finish even on contours Accelerates polishing operations |

Abralon® J3

| | |
|------------------------|---|
| Grain | Silicon carbide |
| Bonding | Special resin |
| Backing | Knitted fabric on foam |
| Grit range | 360, 500, 600, 1000, 2000, 3000, 4000 |
| Characteristics | Consistent sanding pattern Flexible 3 mm foam thickness |

Abralon® J5

| | |
|------------------------|--|
| Grain | Silicon carbide |
| Bonding | Special resin |
| Backing | Knitted fabric on foam |
| Grit range | 360, 500, 600, 1000, 2000, 3000, 4000 |
| Characteristics | Flexible Particularly suitable for uneven surfaces 5 mm foam thickness |

Abranet®

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyamid net |
| Grit range | 80, 100, 120, 150, 180, 240, 320, 360, 400, 800 |
| Characteristics | Practically dust-free sanding Cleaner and healthier work environment Longer lifetime Great profitability |

Abranet® Ace

| | |
|------------------------|--|
| Grain | Ceramic |
| Bonding | Resin over resin |
| Backing | Polyamid net / Polyester net |
| Grit range | 80, 120, 150, 180, 240, 320, 400, 500, 600, 800, 1000 |
| Characteristics | Practically dust-free sanding Cleaner and healthier work environment Long lifetime even on hard surfaces |

Abranet® Ace HD

| | |
|------------------------|---|
| Grain | Ceramic |
| Bonding | Resin over resin |
| Backing | Polyamid net |
| Grit range | 40, 60, 80, 120 |
| Characteristics | Practically dust-free sanding High aggressiveness and removal rate Very long lifetime |

Abranet® Max

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyamid net |
| Grit range | 80, 100, 120, 150, 180, 220, 240 |
| Characteristics | High removal rate thanks to hardened aluminum oxide grains Cool touch |

Abranet® NC

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyamid net |
| Grit range | 80, 100, 120, 150, 180, 220, 240 |
| Characteristics | Developed for sanding of material that must not be contaminated with corrosive agents Lower heavy metal content than the corresponding traditional products. |

Abranet® SIC NS

| | |
|------------------------|---|
| Grain | Silicon carbide |
| Bonding | Resin |
| Backing | PA net |
| Grit range | 80, 100, 120, 150, 240, 320, 400 |
| Characteristics | Developed mainly for glass sanding Also suitable for primers, clear coats and composites |

Alox

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Cotton cloth |
| Grit range | 60, 80, 100, 120, 150, 180, 240, 320, 400 |
| Characteristics | High aggressiveness Robust material |

Autonet

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyamid net / Polyester net |
| Grit range | 80, 120, 150, 180, 240, 320, 400, 500, 600, 800 |
| Characteristics | Practically dust-free sanding Cleaner and healthier work environment High performance and a long lifespan |

Avomax Antistatic

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Antistatic T-paper/F-paper |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 200, 240, 320 |
| Characteristics | For soft materials Long lifetime Sturdy anti-static paper |

Coarse Cut

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin/Progressive Bond™ |
| Backing | Specially reinforced F-paper |
| Grit range | 36, 40, 60, 80, 100, 120, 150 |
| Characteristics | Very durable edges High stock removal Optimal grain adhesion |

Gold

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | D-paper/C-paper |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 220, 240, 280, 320, 400, 500, 600, 800 |
| Characteristics | Flexible and aggressive All-round high quality product Very good price-performance ratio |

Gold Max

| | |
|------------------------|---|
| Grain | Blue fired aluminium oxide |
| Bonding | Resin over resin |
| Backing | Antistatic E-paper |
| Grit range | 240, 320, 400, 500, 600, 800 |
| Characteristics | Good strength and stability in paper High cut rate even on harder paints Offers a smooth surface finish |

Gold NC

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | D-paper/C-paper |
| Grit range | 80, 100, 120, 150, 180, 220, 240, 280, 320, 400, 500 |
| Characteristics | Flexible and aggressive High quality all-round product Very good price-performance ratio |

Gold Soft

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | C-paper with PE foam |
| Grit range | 320, 500, 800 |
| Characteristics | Flexible Soft edges For profile grinding Optimal foam strength |

Goldflex Soft

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | A-latex paper, PE foam |
| Grit range | 150, 180, 220, 240, 320, 400, 500, 600, 800, 1000 |
| Characteristics | Flexible thanks to foam backing Specially suitable for edges and profile sanding |

Hiflex

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin/Progressive Bond™ |
| Backing | C-latex paper |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 220 |
| Characteristics | High stock removal Particularly tearproof |

Hiolit JF

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | J-weight cotton cloth |
| Grit range | 60, 80, 100, 120, 150, 180, 240, 320, 400 |
| Characteristics | Flexible cloth backing Optimal for profile sanding and edges Universal abrasive, well suited for soft and clogging materials |

Hiolit XO

| | |
|------------------------|--|
| Grain | Blue fired aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyester cloth, X-weight cotton cloth |
| Grit range | 36, 40, 50, 60, 80, 100, 120, 150, 180, 240 |
| Characteristics | Universal abrasive for belt sanding Excellent edge wear resistance and durability |

Iridium®

| | |
|------------------------|---|
| Grain | Ceramic/Aluminium oxide |
| Bonding | Low VOC resin system |
| Backing | Latex paper, /C-Paper |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 220, 240, 320, 400, 500, 600 |
| Characteristics | No clogging Long lifetime Great dust-extraction Noticeably sharper grain |

Jepuflex Antistatic

| | |
|------------------------|--|
| Grain | Aluminium oxide/Silicon carbide |
| Bonding | Resin over resin |
| Backing | Antistatic T-paper/F-paper |
| Grit range | 36, 40, 50, 60, 80, 400, 100, 120, 150, 180, 240, 320, 400 |
| Characteristics | Optimal for sanding hard wood Very durable product All-round product that works well on metal, plastic and lacquer |

Microstar

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyester film |
| Grit range | 800, 1000, 1200, 1500, 2000, 2500 |
| Characteristics | Produces a fine scratch pattern Intended for dry sanding only Designed for matting and paint rectification |

Mirka Yellow Abrasive

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | C-paper with PE foam |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 240 |
| Characteristics | Ideal for plaster sanding High stock removal and long lifetime Optimized suction |

Mirkon

| | |
|------------------------|--|
| Grain | Zirconium oxide |
| Bonding | Resin over resin |
| Backing | Polyester cloth |
| Grit range | 24, 36, 40, 60, 80, 120 |
| Characteristics | Very aggressive and durable Suitable for both wet and dry sanding |

Mirlon®

| | |
|------------------------|--|
| Grain | Aluminium oxide (GP, VF)/Silicon carbide (UF, MF) |
| Bonding | Resin |
| Backing | Non-woven |
| Grit range | General Purpose - 320, Very Fine - 360, Ultra Fine - 1500, Micro Fine - 2000 |
| Characteristics | High flexibility More power through innovative spreading For both wet and dry sanding Strong and long-lasting |

Mirlon Total®

| | |
|------------------------|--|
| Grain | Aluminium oxide (VF)/Silicon carbide (XF, UF, MF) |
| Bonding | Resin |
| Backing | Non-woven |
| Grit range | Very Fine - 360, Xtra Fine - 800, Ultra Fine - 1500, Micro Fine - 2500 |
| Characteristics | High flexibility More power through innovative spreading For both wet and dry sanding Strong and long-lasting |

Mirox

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | D-paper/C-paper/B-paper |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 240 |
| Characteristics | Suitable for both flat and profiled surfaces All-round and economical product |

Novastar®

| | |
|------------------------|--|
| Grain | Ceramic/Aluminium oxide |
| Bonding | Low VOC resin system |
| Backing | Polyester film |
| Grit range | 80, 120, 150, 180, 240, 320, 400, 500, 600 |
| Characteristics | Grains stays sharp as clogging is prevented Great durability and excellent edge wear resistance Fully waterproof |

Novastar® Flex

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyurethane film |
| Grit range | 400 (blue), 600 (green), 800 (yellow), 1200 (peach), 1500 (pink) |
| Characteristics | Perforated in the middle Long lifetime Ultra-flexible sheets Colour coded grits |

Novastar® SR

| | |
|------------------------|---|
| Grain | Aluminium oxide (SR3), Silicon carbide (SR5) |
| Bonding | Low VOC resin system |
| Backing | Polyester film |
| Grit range | 3 micron (eqv. to 5000) and 5 micron (eqv. to 3000) |
| Characteristics | Excellent finish Durable and flexible Minimal loading and pilling |

Polarstar®

| | |
|------------------------|---|
| Grain | Aluminium oxide/Silicon carbide |
| Bonding | Resin over resin |
| Backing | Polyester film |
| Grit range | 320, 400, 500, 600, 800, 1000, 1200, 1500 |
| Characteristics | Great durability due to an excellent resistance to clogging Tackles demanding coating applications |

Polarstar® SR

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Polyester film |
| Grit range | 3 micron (eqv. to 5000), 5 micron (eqv. to 3000), 7 micron (eqv. to 2500) |
| Characteristics | Fast, constant results Achieves a very fine sanding pattern |

Q.Silver®

| | |
|------------------------|---|
| Grain | Aluminium oxide P80 - P500, Silicon carbide P600 - P1500 |
| Bonding | Resin over resin |
| Backing | D-paper/C-paper/B-paper |
| Grit range | 80, 100, 120, 150, 180, 220, 240, 320, 400, 500, 600, 800, 1000, 1200, 1500 |
| Characteristics | Optimal aggressiveness Fast removal Long lifetime |

Sica Closed

| | |
|------------------------|---|
| Grain | Silicon carbide |
| Bonding | Resin over resin/Antistatic |
| Backing | Antistatic F-paper |
| Grit range | 80, 100, 120, 150, 180, 220 |
| Characteristics | For belt sanding and sanding of MDF and other materials containing mineral debris Fully antistatic |

Sica Open

| | |
|------------------------|--|
| Grain | Silicon carbide |
| Bonding | Resin over resin/Antistatic |
| Backing | Antistatic F-paper |
| Grit range | 80, 120, 150, 180 |
| Characteristics | For sanding soft, resin-rich wood types Limit dust loading and prevent clogging Fully antistatic |

Sica Fine Stearat

| | |
|------------------------|---|
| Grain | Silicon carbide |
| Bonding | Stearate-coated resin over resin/Antistatic |
| Backing | Antistatic E-paper |
| Grit range | 240 - 320, 400 - 800 |
| Characteristics | Produces minimal dust load High-quality surface finish Fully antistatic |

Ultimax®

| | |
|------------------------|---|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Antistatic T-paper/F-paper |
| Grit range | 40, 60, 80, 100, 120, 150, 180, 240, 320 |
| Characteristics | Low heat development Particularly suitable for hardwood and veneer Long lifetime Very even sanding pattern |

Unimax®

| | |
|------------------------|--|
| Grain | Aluminium oxide |
| Bonding | Resin over resin/Antistatic |
| Backing | Antistatic F-Paper |
| Grit range | 80, 100, 120, 150, 180, 220 |
| Characteristics | For soft and hard wood types Fully antistatic |

WPF

| | |
|------------------------|--|
| Grain | Aluminium oxide (P80–P360), Silicon carbide (P400–P3000) |
| Bonding | Resin over resin |
| Backing | C-paper/B-paper |
| Grit range | 60, 80, 100, 120, 150, 180, 220, 240, 320, 360, 400, 500, 600, 800, 1000, 1200, 1500, 2000, 2500 |
| Characteristics | High quality waterproof Achieves a very fine sanding pattern |

Ultimax®

- Patented coating: Selective Coating™ Technology
- Great results on hard wood
- Achieves higher grinding pressure and therefore a very high level of aggressiveness
- Very even and constant sanding pattern
- Long lifetime
- Low heat development

| | |
|-------------------|--------------------------------|
| Grain | Aluminium oxide |
| Bonding | Resin over resin |
| Backing | Antistatic T-paper/F-paper |
| Coating | Closed with Selective Coating™ |
| Color | Brown |

Abranet[®] Max

- The net structure ensures low heat development during grinding (cool sanding)
- High stock removal thanks to the hard aluminum oxide grains
- Efficient removal thanks to the symmetrical net structure
- The belt has no predetermined direction of way
- Features a long lifetime, and thus save you both time and money

Iridium has a mix of ceramic and aluminium oxide grains on a flexible paper with precision coating that prevents clogging and reduces pilling. It practically repels dust and lifetime is increased as the grains stay sharp for longer.

Iridium®

- Premium paper abrasive for universal sanding
- Precision coating that prevents clogging and reduces pilling
- Practically repels dust and lifetime is increased as the grains stay sharp for longer
- Dust extraction is optimised with multihole patterns
- Amazing results on both soft and hard surfaces

Mirka® Optimized Surface Preparation

A fast and cost-effective repair solution

- A truly unique optimised surface preparation system for the automotive aftermarket
- An innovative dust-free combination of high-tech abrasives, tools and processes
- Increased sanding speed and efficiency saves time on every job which boosts productivity and profitability
- Standardised, step-by-step processes mean predictable, consistent quality on every repair
- Enables a healthier workshop environment for the bodyshop staff

What is OSP?

Mirka's Optimized Surface Preparation System is truly unique thanks to an innovative combination of high-tech abrasives, tools and processes that cannot be compared to anything else on the market today. The focus on speed, control, simplicity and repeatability instantly makes traditional methods inefficient and obsolete.

Standardized repair process is one of the keys to get the smooth workflow in the body shop. With the OSP system it is a clear and simple process which impacts to keep the focus and achieve the goal for the day – correct accomplished repairs on time.

Some of the benefits include:

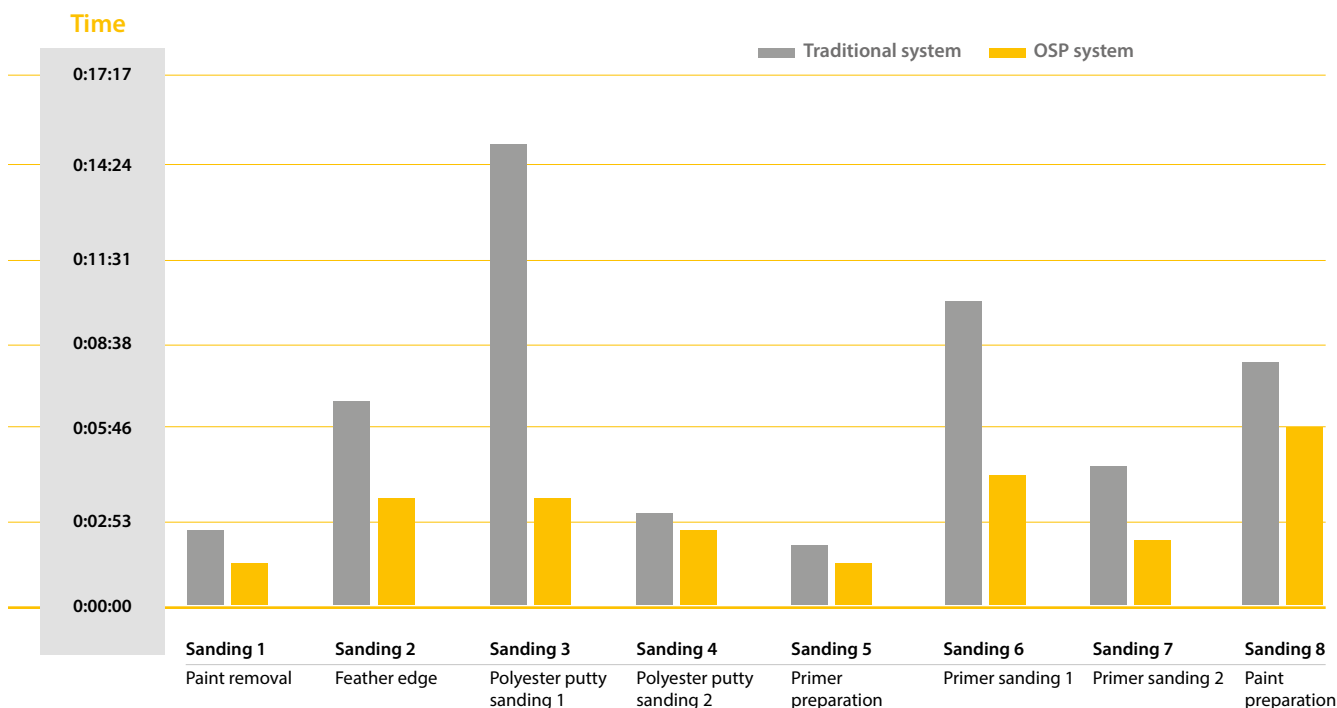

- Increased sanding speed and efficiency saves time on every job which boosts productivity and profitability
- Standardized, step-by-step processes means predictable, consistent quality on every repair
- 'Dust free' – the workshop stays cleaner which helps reduce the risk of dust inclusions in paintwork and minimizes the need for de-nibbing
- Healthier workshop environment for staff

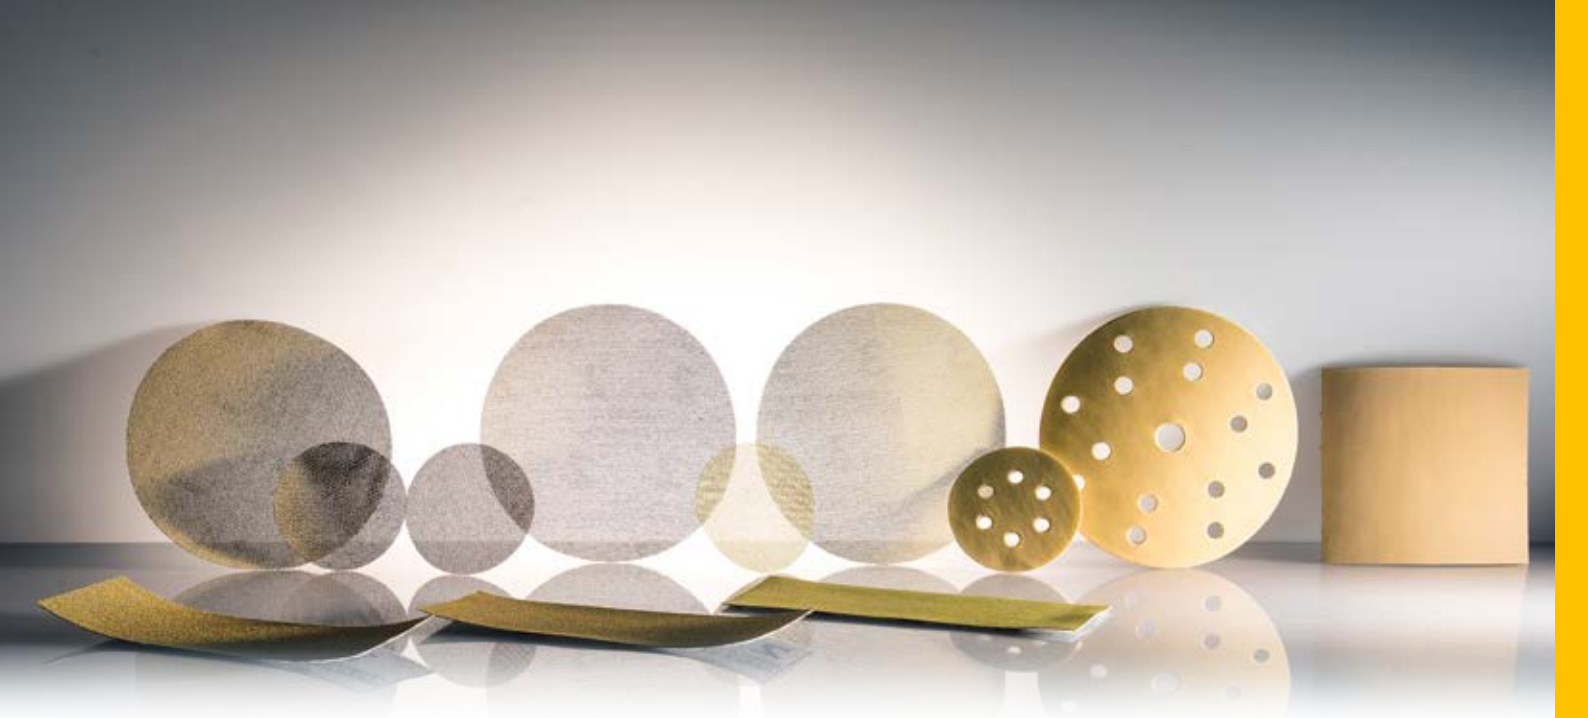

Time studies performed in body shops show a time saving in sanding process of 30% thanks to the OSP system.

Sanding time comparison

OSP vs. Traditional system

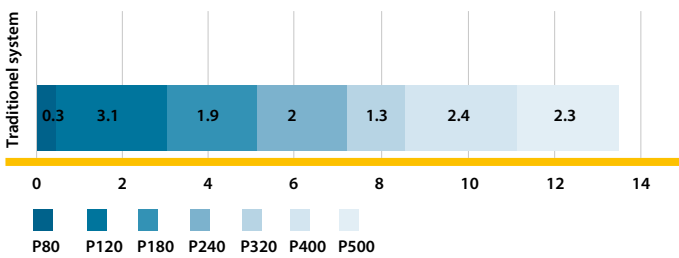

The simplified OSP system gives a reduced abrasive material consumption. Facts based on studies in body shops show an abrasive material decrease of 32%.

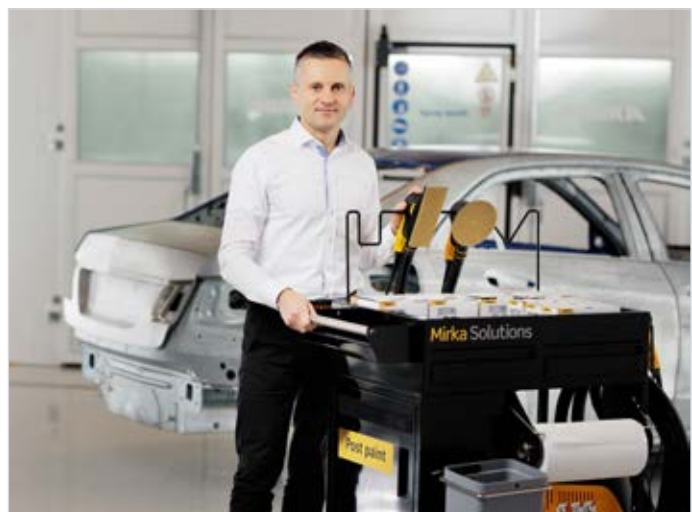

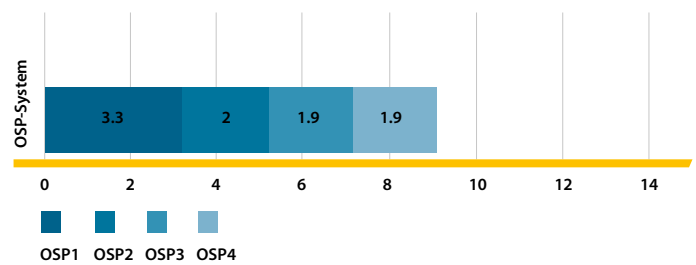

Abrasive consumption

– Traditional system Average 13,3 pcs

Abrasive consumption

– OSP system Average 9 pcs

Preparation is key!

To achieve a good paint adhesion, make sure that the substrate is clean.

The OSP **Small to Medium** Repair Process

Paint removal / Feather edge

OSP PRODUCT

USE:

- Disc or strip No 1 for paint removal.
- Disc or strip No 2 for feather edge.

Polyester filler

USE:

- Strip No 1 to level polyester filler.
- Strip No 2 for final leveling and as first step on fine polyester filler.

Primer preparation

OSP PRODUCT

USE:

- Disc No 3 to prepare the repaired area for primer by reducing scratches and expanding the feather edge.

Finishing

USE:

- Disc or strip No 3 to level structure on primer.

USE:

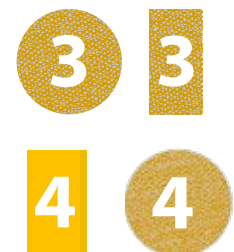

- Soft pad No 4 for hard-to-reach areas.

USE:

- Finalize the sanding with disc No 4.

OSP PRODUCT

- **Mirka OSP-1:** 150 mm, 77 mm paint removal disc, 70 x 198 mm body filler strip, 70 mm x 10 m and 115 mm x 10 m rolls
- **Mirka OSP-2:** 150 mm, 77 mm feather edge disc, 70 x 198 mm body filler strip, 70 mm x 10 m and 115 mm x 10 m rolls
- **Mirka OSP-3:** 150 mm, 77 mm primer preparation disc, 70 x 198 mm primer and body filler strip, 70 mm x 10 m and 115 mm x 10 m rolls
- **Mirka OSP-4:** 150 mm, 77 mm finishing disc and Mirka OSP-4 115 x 125 mm hand finishing pad

Preparation is key!

To achieve a good paint adhesion, make sure that the substrate is clean.

The OSP **Spot Repair** Process

Paint removal and Feather edge sanding

OSP PRODUCT

USE:

- Strip* or disc 77 mm No 2 and 3

Polyester filler

USE:

- Strip* or disc 77 mm No 3

Primer preparation

OSP PRODUCT

USE:

- Disc 77 mm No 4

Primer Sanding

USE:

- Disc 77 mm No 4

Paint preparation sanding

OSP PRODUCT

ABRALON®

USE:

- Abralon 77 mm grit 1000 for feather edge and grit 2000 for fade out

- **Mirka OSP-2:** 77mm feather edge disc, 70x198 mm body filler strip, 70mm x 10 m and 115mm x 10 m rolls
- **Mirka OSP-3:** 77mm primer preparation disc, 70x198 mm primer and body filler strip, 70mm x 10 m and 115mm x 10 m rolls
- **Mirka OSP-4:** 77mm finishing disc and Abralon 1000 and 2000

*OSP Strip cut in half.

Breathe easy at work

Mirka's abrasives for dust-free sanding

- **Efficiency** – When dust is removed from the space between the abrasive and the sanded surface, the abrasive grains cut the surface much more efficiently.
- **Lifespan** – Keeping the abrasive and the sanding surface constantly dust-free extends the lifespan of the abrasive.
- **Finish** – Reduces dust pills and clogging, because dust no longer collects in lumps on the abrasive. Sanding is more even and efficient, improving the quality of work.

Dust-free benefits with Abranet

In order to keep your work space as free from dust as possible, you need the right abrasives. Dust-free sanding is not only better for your health, it makes plenty of sense time and money wise.

Abranet is a completely even sanding net. A Mirka original innovation, the first net abrasives were introduced to the market in 2000. Its thousands of holes provide phenomenal dust extraction. The maximum distance from each sanding particle to the closest dust extraction hole is just 0.5 mm. The Abranet family consists of several products, with aluminium oxide, ceramic or silicone carbide grains in very coarse to fine grits.

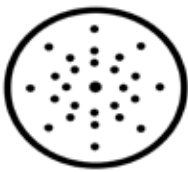

Our multihole sandpaper and sanding film, **Iridium** and **Novastar**, with hole patterns optimised for efficient dust extraction, provide the best experience for those who prefer paper or film backed abrasives. Tried and tested by over 300 users before they were introduced to the market in 2018, the dust extraction from the 121 holes (150mm disc) is considered best-in-class in paper and film categories.

Mirka® Golden Finish System

A unique, fast and simple post paint solution

- Standardised step-by-step process ensures consistent high quality
- Sanding in two steps for a smooth, uniform surface
- Polishing in two steps for the perfect high-gloss finish
- Includes microproduct for sanding small defects and micro fiber cloth for finishing touches
- Recommended tools: Mirka DEROS 650CV for sanding, Mirka AOS-B 130NV for spot repairs and Mirka PS 1437 for polishing
- The special elastic foam gives a high cut performance and a long lifetime
- The waffle shape removes all remaining haze and leaves a very high gloss

SANDING & POLISHING – DUST NIBS

DEFECT REMOVAL

USE: Golden Finish SR disc. Apply water to both disc and surface. Use Mirka finessing damper. Sand 3–5 seconds, wipe and check visually. Repeat operation until defect is removed.

POLISHING

USE: Remove sanding scratches in first polishing step with Polarshine 20 in combination with Golden Finish Pad-1. Remove holograms and to achieve a high gloss finish use Polarshine 5 in combination with Golden Finish Pad-2.

TOOL AND TECHNIQUE: For sanding use Mirka cordless sander AOS-B or AROS-B. Keep tool in a straight angle with light pressure against surface during sanding. For polishing use Mirka polisher AROP-B 312NV or AP 300NV. Adjust polisher to medium speed. Use circular movement for both sanding and polishing.

PRODUCTS

SANDING & POLISHING – LARGE & SMALL AREAS

DEFECT REMOVAL

USE: Golden Finish Disc-1 to remove defect. Use 5 mm interface pad to reduce cutting force and for contoured areas.

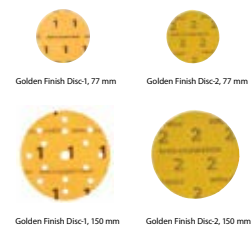

CONDITIONING OF SCRATCHES

USE: Golden Finish Disc-2. Damp sanding. Spray water on both disc and surface. Sand over surface 3–4 times to achieve a uniform scratch pattern.

TOOL AND TECHNIQUE: Use DEROS 650CV to sand large areas and DEROS 325CV for small areas. For gentle sanding use tool at speed 6.000 rpm. Keep tool flat on surface during sanding operation.

PRODUCTS

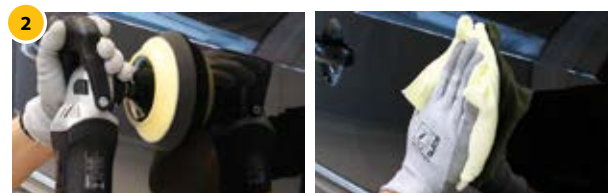

POLISHING / SCRATCH REMOVAL

USE: Polarshine 20 in combination with Golden Finish Pad-1.

POLISHING / HOLOGRAM REMOVAL

USE: Polarshine 5 in combination with Golden Finish Pad-2. Polish until most of compound residue is removed. Keep pad flat against surface. Final wiping with a clean Mirka yellow micro fiber cleaning cloth.

TOOL AND TECHNIQUE: Use Mirka PS1437 rotary polisher. Adjust tool speed at maximum 1.300 rpm. Use small amount of compound which is consumed on a focused area. Add more if needed or if starts to dry out during operation.

Tips before usage

Apply pad

Shake well before use

Apply polish to pad or paint surface

Spread out compound and polish at 1200-2000 rpm

Clean the surface

Silicone free

Keep out of reach of children

15°-25° C
59°-77° F
24 months

Do not polish in direct sun

Keep from freezing

Heavy cutting power, High gloss finish.

NEW!

Polarshine® 45

Save time and achieve that perfect deep gloss. Now it's possible with Polarshine 45. Mirka's professional coarse polishing compound is ideal for marine and industrial gelcoats, both in production and restoration processes. Easily remove scratches after sanding with P600 or remove heavy oxidation even without sanding. Polarshine 45 water-based and silicone-free compound restores colour and shine to faded surfaces. Thanks to the glossy finish, it can be used for one step polishing on white and light colours.

Pad Washer Universal

The Mirka® universal pad washer is a professional system for cleaning all kind of pads. It is designed to be used both with a circular and orbital polisher. The pad washer is a versatile and durable product. A clean pad ensures a good polishing result and extends the life of the polishing pads.

SERVICE & TOOL REPAIR

After Sales – Service Repair

We hope you love your new Mirka power tool! To get the most out of your tool, support is available for your tool throughout its lifetime. Mirka offers repair and maintenance for Sweden and Denmark through our service centre in Belgium, and for Norway we have a authorized local service centre.

For service and tool repair in Belgium you can easily create your repair request by filling out the form at our website (Sweden/Denmark). Order pick-up or drop-off for your power tool, and you'll have it back within five days from pick-up (when responding directly to the quotation request if relevant). The form can be used both by private individuals and retailers. If the service is not covered by the guarantee, we offer you a cost proposal. For more information and full warranty terms, visit our website.

If you have any questions or concerns, you are always welcome to contact our customer service at sales.se@mirka.com or +46 54-69 09 50.

Mirka® Electric Polishers – PS 1437 & PS 1524

Mirka PS1437 Polisher 150mm

Mirka PS 1524 Polisher 180mm

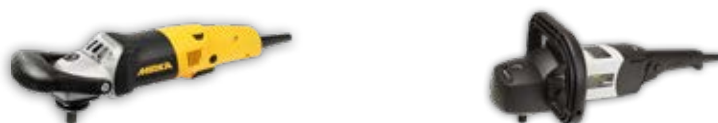

| Product Name | Mirkacode EAN Code | EAN Code |
|------------------------------|-----------------------------|---------------------|
| Mirka PS 1437 Polisher 150mm | 8991300111 6416868929553 | 6 416868 929553 |
| Mirka PS 1524 Polisher 180mm | 8991400111 6416868929560 | 6 416868 929560 |

Key features

» Mirka® PS 1524 Polisher is ideal for all kinds of polishing tasks, from compounding and polishing & fine polishing to buffing larger surfaces. This polisher has a powerful motor with good cooling properties. The electronic variable speed maintains constant speed under load for consistent performance. Mirka® PS 1524 Polisher has a spindle lock for quick and easy pad changing.

» The Mirka® PS 1437 Polisher features a powerful, high torque electric motor. The rotational speed can be pre-selected and precision adjusted with a step-less switch. The bail handle and a side handle ensure a better grip and a spindle lock makes pad changes easy. It's an excellent tool for polishing smaller surfaces and is designed to be used with a maximum 150 mm pad.

Mirka® LEROS – Long Electric Random Orbital Sander

The most innovative Wall Sander on the market – Perfection from any angle.

| Product Name | Mirkacode EAN Code | EAN Code |
|--|-------------------------------|--|
| Mirka LEROS 950CV Wall Sander 225mm pad+screws Bag | MIW9502022BA 6416868583816 |  6 416868 583816 |

Key features

- » The lightest brushless wall sander in its class, **weight only 3.5 kg**
- » Thanks to **180° flexibility** on the sanding head the operator can reach the surface from a better angle and use more ergonomic working positions
- » The **random orbital movement (5 mm orbit)** contributes to a smoother finish without leaving any deep visible scratches as with rotating movement
- » **T-shaped handle** allows the operator to use different working positions and this puts less strain on the operator's back and shoulders
- » The special sanding head and backing pad design permits the operator to **sand very close to corner**
- » The fixation point of the sanding head is close to the surface and contributes to more stable sanding

| Technical data | LEROS 950CV |

Mirka® Miro – Electric powerful partner

Included in Miro kit:
Carry bag and hose 4 m

Key features

- » Choose long or short neck depending on application (1.5 m or 1 m)
- » Powerful and strong wall sander which achieves excellent results when sanding filler on walls and ceilings
- » The easy-to-use Miro 955® has been designed with a range of special features, including a flexible 225 mm sanding head
- » Variable speed control makes it suitable for a wide variety of sanding tasks

Mirka® Deco Sander – Telescopic sanding tool

Key features

- » Makes the sanding of walls and ceilings faster, more effective and dust-free
- » Package includes the sanding tool and a telescopic tube which extends up to 2.3 metres
- » The tool is attached to the telescopic tube via a flexible joint which lets it adjust in any direction to sit flat against the sanding surface
- » The tool is drawn towards the surface when sanding so the operator only needs to apply light pressure
- » Dust is removed through holes in the sanding tool directly to a Dust Extractor cleaner which makes the job easier and quicker because time isn't spent protecting the surroundings from dust contamination

EASY WARRANTY 2+1

MIRKA

2+1
YEAR WARRANTY

2+1 year warranty

Mirka power tools have a two-year warranty starting from the date of purchase and covering defects in material and workmanship. By registering your Mirka power tool within 30 days from purchase you will obtain an additional one-year warranty.

NOTE! If the tool is continuously used in industrial applications, the warranty period is one year.

To keep your tool warranty valid the tool needs to be used, maintained and operated in compliance with the safety and operating instructions. However, if a problem occurs with your Mirka power tool, caused either by a manufacturing defect of the material or by workmanship, Mirka will repair your power tool free of charge in accordance with the warranty terms and conditions.

Key features

- » Small, light and ergonomic. In other words, very comfortable to use.
- » Gives you full freedom of movement as there are no disturbing cables or hoses.
- » Economic to use; energy efficient with a quick-charging intelligent lithium-ion battery.
- » Very low noise levels. Practically silent polishers.
- » Bluetooth connectivity offers additional features via the myMirka app, such as vibrations measurement, RPM range management and auto-stop function (some are in-app purchase).

Mirka® Dust Extractor 1242 M AFC

Easily accessible flat filter

Filter can easily be reached through an opening in the back.

Cable storage

Durable strap keeping the cable in place during transportation.

M-class

Proven performance for higher user protection.

Automatic Filter Cleaning

Keeps the filter automatically clean for better performance and longer lifetime.

Hose storage

The hose is always ready for use.

High volume container

42 litres for applications where a lot of material is extracted.

Air intake filter

Longer lifetime of motor.

Large wheels

Easy manoeuvrability on uneven surfaces.

AutoStart function

Dust extractor runs only when the power tool is running.

High performance motor and turbine

1200 W motor and 1-stage turbine creates 250 mbar pressure and 4500 l/min airflow.

Airflow sensor

Indicates when airspeed is below 20 m/s.

Hose inlet plug

Eliminates the risk of dust leaking out during transportation.

Advantages with automatic filter cleaning:

- Less maintenance
- Constant performance
- Possibility to work without dust bags

Dust class L

Dust class L (low risk). For professional users who only vacuum low risk dust such as household dust, soil or sand, sanding dust from soft wood or solid surfaces (such as corian). The occupational exposure limit for this kind of dust is $> 1 \text{ mg/m}^3$. The dust extractor must be able to retain 99% of the dust.

L class dust extractors may not be used for:

- Hazardous dust with OEL values $< 1 \text{ mg/m}^3$
- Hot materials (burning cigarettes, hot ash, etc.)
- Flammable, explosive, aggressive liquids (e.g. petrol, solvents, acids, alkalis etc.)
- Flammable, explosive dust (e.g. magnesium or aluminium dust etc.)

Dust class M

Dust class M (medium risk). For professional users within collision repair, construction, and woodworking that sand for instance hard wood, plaster, putty, latex and oil paints, etc. that cause medium risk dust. The occupational exposure limit (OEL) for this kind of dust is $> 0.1 \text{ mg/m}^3$. This means that the dust extractor must be able to retain 99.9% of the dust. The air flow has to be minimum $V_{\text{min}} = 20 \text{ m/s}$ in the suction hose.

M class dust extractors may not be used for:

- Hazardous dust with OEL values $< 0.1 \text{ mg/m}^3$
- Hot materials (burning cigarettes, hot ash, etc.)
- Flammable, explosive, aggressive liquids (e.g. petrol, solvents, acids, alkalis etc.)
- Flammable, explosive dust (e.g. magnesium or aluminium dust etc.)

Mirka Dust Extractors have been tested to meet the requirements of each dust class according to IEC 60335-2-69 (worldwide) and by EN 60335-2-69 (European wide) standards. Further health and safety regulations may apply in different countries. Please follow applicable laws regarding dust collection and disposal in your country. It is the responsibility of the purchasing customer to ensure that any dust extractor is suitable for the type of dust being collected. Please ensure that you use a dust extractor that is fit for your intended purpose. Read the safety labels on the extractor. The dust extractor must be protected from rain and wet conditions – other than picking up liquids – and against UV radiation.

Service and repairs must be done at Mirka authorised service centers for warranty to remain valid. Mirka does not accept liability for damage caused by improper use of a dust extractor nor for the use of a dust extractor that is not suitable for the intended purpose.

NEW!

Please observe that the dust suction hose is ordered separately.

Key features

- » Professional dust extractors with high performance motors and turbines
- » AutoStart function increases the lifetime of the motor and reduces noise
- » 1230/1242 range has flat tops with space for storage and large wheels for manoeuvrability
- » Top-of-the-range models have Automatic Filter Cleaning for convenience and consistent performance
- » Hose and cable storage for more comfortable transportation
- » Wide range of accessories; for instance HEPA filter for optimal air filtration (purchased separately)

NEW!

Mirka's pad savers are designed to protect the backing pad from wear and tear, when sanding aggressively and continuously with net products. These cost effective pad savers, placed between the backing pad and the sanding disc, should be changed regularly. The pad savers prolong the life of the backing pad.

USER INSTRUCTION:

1. Match the pad saver hole pattern to the backing pad by locating the matching holes on the pad saver to the locating spots on the backing pad.
2. Apply and press the pad saver firmly to the backing pad. Fasten the abrasive to the pad saver.
3. Place the sander on the object to be sanded and then start the sanding machine.

Clean-Up Kit without Hose

• Option No. 1

Hose 27mm x 4m + Connector (MIN6519411). Note that you need to use the adapter that comes with the hose.

• Option No. 2

Hose 27mm x 5,5m with Integrated Cable CE 230V (MIE6514511). Note! Place the cleaning kit directly against the adapter, and leave the hose stump in the machine.

Hose with option No. 2

* electrical conductive (≤ 10⁶ Ω/square)
** not static (≤ 10¹¹ Ω/square)

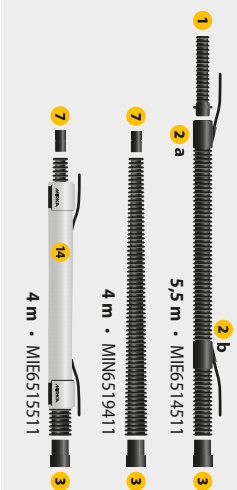

| Adapter | Description |
|--------------|---|
| 8999804111* | 1 Hose Ø 27 mm x 0,5 m + Connector. This conductive adapter enables a quick change in-between Mirka power tools. Fix the adapter on each tool and connect/disconnect from any Mirka hose assembly with a Mirka branded adapter, both pneumatic: 8992514511, 8992514711 and electric: ME6514511, ME6514711. |
| 8992515811* | 2 Mirka Connector for Air+ Electric Hoses. Comes with hose ME6514511, ME6514711, 8992514511 and 8992514711. |
| 8992515911* | 2 Connector for Air+ Electric Hoses with threads. This adapter is close to the dust extractor, where the pneumatic tube/electrical cable comes out. Comes with hose ME6514511, ME6514711, 8992514511 and 8992514711. |
| 8992515611* | 3 Hose adapter Ø 32 mm / 54 mm for Mirka® Dust Extractors. Comes with hose ME6514511 / ME6514511US, ME6514711 / ME6514711US, MIN6519411, MIN6519211, 8992514511 and 8992514711. This adapter goes from the hose into the dust extractor. |
| 8394020311** | 4 Hose Connector Kit No. 3-1 and 3-2 for Miro 955® & 955®-S. Adapter for both ends on the hose for Miro. Connector 4b: Ø 54 mm. |
| 8391111111** | 5 Adapter Ø 20 mm / 28 mm for Mirka® Hand Sanding Blocks. Enables using the Ø 27 mm hoses (MIN6519411 and MIN6519211) together with the blocks. |
| 8992515411* | 6 Soft Connector Ø 25,4 mm. Delivered together with hose MIN6519411 and MIN6519211. Enables connecting MIN6519411 and MIN6519211 hoses to Mirka Decosander®, Mirka Dust Suction Hood and sanders of other brands. Note! Not suitable for Mirka® CEROS or Mirka® ROS. |
| ME6511111 | 7 Quick connector Ø 25,4 mm. Delivered together with hose MIN6519411 and MIN6519211. Enables connecting MIN6519411 and MIN6519211 hoses to Mirka DEROS, DEOS, LEROS and Dust Suction Hood. Note! Not suitable for Mirka® CEROS or Mirka® ROS. |
| 8993022011 | 8 Hose Swivel Connector Ø 20 mm / 20 mm. Enables connecting two Ø 20 mm hoses. For example: 2 x Ø 20 mm hose x 4 m hose (8391112011). |
| 8992515711* | 9 Hose Connector Ø 32 / 32 mm. Delivered together with extension hose MIN6519711. Enables connection with hose MIN6519411 and MIN6519211. To be discontinued. |
| 8393001511* | 10 Adapter Ø 30–48 mm for Dust Extractor. Can be cut to fit dust extractors of other brands. |
| 8993022911 | 11 Hose Swivel Connector Ø 20 / 25,4 mm. Enables connecting a Ø 20 mm hose with Ø 27 mm hose MIN6519411 and MIN6519211. |
| 8999814111* | 12 Hose 20 mm x 0,5 m + Connector. This conductive adapter enables a quick change between Mirka power tools with 19/20 mm dust extraction fittings. Fix this adapter on each tool and connect / disconnect to / from any Mirka hose assembly. |
| 8391112111 | 13 Connector Air Inlet for Hand Sanding Block 20 / 20 mm. When fixed on a Mirka 20 mm dust extraction hose, this new connector enables a quick and smooth change of the hose from one Mirka hand sanding block to another. This connector enables adjusting the airflow. |
| ME6515911 | 14 Mirka Sleeve for Hose and Cable 3,5 m |

**Solution Trolley**

Mirkacode: 9190129001
 EANcode: 6416868912470

The Solution Trolley houses the Mirka Dust Extractor, abrasives, tools and polishing bottles. Abrasives can be put on the top level for easy availability. There are also two drawers and a locker for storage of tools and abrasives. There is a handle for a few polishing bottles and a holder for two random orbital sanders and one orbital square sander. The trolley has also a holder with space for three hoses. In addition to this the package contains assemble instructions, a tool and keys for the locker. The package size is 92x56x54 cm.

**Work Station for Dust Extractor 1230/1242**

Mirkacode: 9190148011
 EANcode: 6416868929164

The Work Station is a compact shelf and hook system with dedicated space for Mirka cases, hoses and abrasives as well as hooks for machines. The functional work station mounts on top of the Dust Extractor 1230/1242 with fastening accessories. It should be fastened to the Dust Extractor with the case fastening accessory for DE 1230/1242, that needs to be ordered separately (8999110411). Note that pneumatic machines also need the pneumatic box for DE 1230/1242 230V.

Trolley for Dust Extractor 1230/1242

Mirkacode: 9190310111
 EANcode: 6416868925074

A stable trolley with adjustable height and two hollow sheet metal shelves, the lower for the Dust Extractor and the other for products. A hook and loop strip is also included on the right side to attach hand blocks to and an adjustable hanging device on the left side for hanging tools on. Two hooks on the back side to hang the dust hose on is also included. This trolley is also suitable for a Dust Extractor together with the Miro 955 wall sander.

Mirka LEROS Display

Mirkacode Swedish: 91908001SV EAN: 6416868935967
 Mirkacode Norwegian: 91908001NO EAN: 6416868936025
 Mirkacode Danish: 91908001DK EAN: 6416868935981

Floor display in steel with four sides. The "LEROS Display" has a hook for Mirka LEROS and shelves for three more tools, for example: Mirka DEROS, DEOS and DEOS Delta. The tool shelves has an anti-theft systems with one common padlock and cables. Display a Dust Extractor with systainer on top, under the poster. The big poster has print on both sides. The display has one document-holder dedicated for leaflets/brochures (A4). Space for both industrial and store packed abrasives.

NEW!

Store Rack Display Alex

Mirkacode Solo: 9190129200 **Mirkacode Extension:** 9190129201
EAN Solo: 6416868944303 **EAN Extension:** 6416868944310

This brand new Mirka Store Rack Display "Alex" is the perfect way of fronting your Mirka products for the store. The start section (Store Rack Alex Solo) includes 2 pieces of L-stand, crossbar, backplates, LED lightbox and a Mirka top sign. It has socket box on wheels, a bottom shelf and socket gables. The follow section (Store Rack Alex Extension) includes 1 piece of L-stand, crossbar, backplates, LED lightbox and a Mirka top sign. It has socket box on wheels and a bottom shelf. Build the Alex Display and choose number of sections after your needs. Note that all accessories are ordered separately.

What is myMirka?

myMirka is the brand for our digital services. Through our unique digital platforms we provide digital services and connectivity solutions that deliver features and benefits throughout the value chain, from distribution to the operators who use our products.

The starting point of myMirka was to offer a simple way of looking after your hands when sanding and polishing. We have added an integrated vibration sensor and Bluetooth® low energy technology to our most popular electric sanders and cordless polishers and developed an app to follow-up the measurements. Measure vibrations and track your daily vibration exposure, get the latest news, register your tool for 2+1 warranty, download manuals and brochures and a lot more. Don't forget to download myMirka app to get the most of your Mirka products.

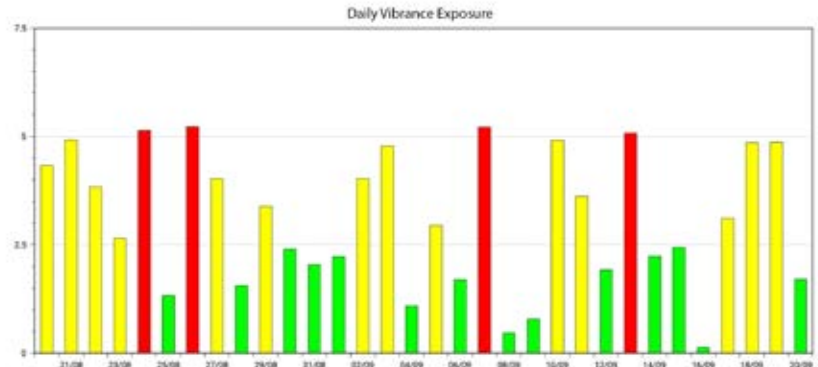

Measure vibration in real-time

Once connected, you can easily follow the vibration levels while using your tool. Select "Vibration" from the myMirka menu and the vibration of the tool will be displayed on a colour graded scale. If you are in the red, click on the info button for advice on how to lower vibrations. You can also follow your speed in a separate graph. The vibration is measured according to the ISO 5349-1:2001(E) standard.

Track long-term vibration exposure

Take care of your most valuable tools, your hands. Vibration Exposure is an additional feature available as an in-app purchase. It allows you to track your daily vibration exposure. The gauge turns yellow when you have been exposed to more than 50% of the maximum daily vibration exposure according to the European directive, 2002/44/EC Article 5. Once the gauge turns red, you have reached the maximum level and your hands need to rest.

Vibrations from sanding for very long hours can cause vibration white finger (hand-arm vibration syndrome). At Mirka we want to put your health in focus, so we've made it easier for you to take the necessary steps to avoid this injury. Measuring daily vibration exposure is key to improving occupational health.

Connect your power tool

Mirka® DEOS, DEOS Delta, DEROS* & LEROS

1. Connect the power cord to a mains outlet.
2. Press and hold the + button while switching on the power button.
3. The left LED lights up (green), to indicate that Bluetooth is active.

Mirka® AROS-B, AOS-B, ARP-B & AROP-B

1. Press and hold the + button while pressing the trigger button
2. The middle LED light is flashing, to indicate that Bluetooth is active

Download myMirka

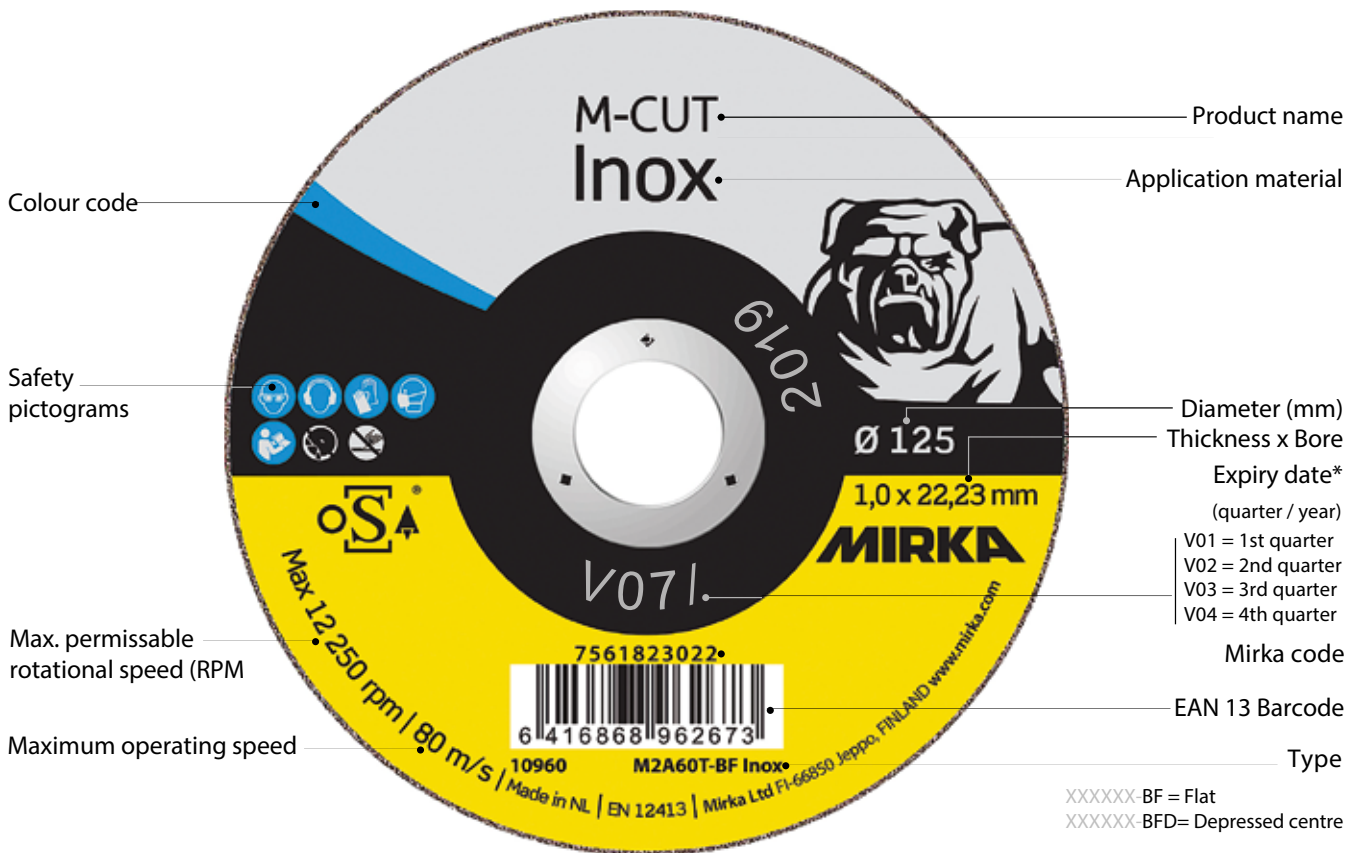

Pair your device

1. Press the Scan-button on myMirka
2. Select the tool that you have activated and "Connect". You are now ready to start exploring myMirka features!

Please note that Bluetooth is automatically deactivated when the tool is disconnected from the mains outlet or battery. If you have disconnected the tool, you need to activate Bluetooth and pair your device again next time you use it.

*Older models of Mirka DEROS, produced before September 2016 (no product name printed in black on the side of the tool), are not equipped with Bluetooth.

XXXXXX BF = Flat
XXXXXX BFD = Depressed centre

Type

- M-FIX** = **Good**
 - ✓ Do it yourself
- M-CUT** = **Better**
 - ✓ Do it yourself
 - ✓ Professional
- M-PRO** = **Best**
 - ✓ Professional

Color codes

-  Carbon steel and cast iron
-  Stone, concrete, plastic synthetic materials
-  Stainless steel / Inox
-  Aluminum

Safety pictograms

-  Wear safety glasses
-  Wear a dust mask
-  Use ear protection
-  Observe the minimum blade angle on grinding
-  Do not use side grinding (BF41 and BF42 > 4mm)
-  Wear safety gloves
-  Read Safety Instructions

*Cutting wheels should be used before the expiry date. Bakelite bonded wheels may harden and become brittle when aging resulting in breakage and damage to the user and machine.

Dry sanding paper for wood, plastic, paint and lacquer.

NEW!

Mirka® DEOS 663CV Delta

A flawless surface from corner to corner. The new Mirka® DEOS 663CV Delta makes it possible, faster and easier than ever before. Sand without strain, even when reaching overhead, as the Mirka DEOS Delta weighs less than 1 kg. Reach comfortably into tight spaces with a sander that is just 10 cm high. Sanding is 50 % more effective* thanks to the powerful brushless motor and 3 mm orbit. Smarter, too, with integrated vibration sensor and Bluetooth connectivity that gives you vibration, speed and usage data available at your fingertips. This new addition to the Mirka DEOS family takes corner sanding to the next level.

Read more about DEOS 663CV Delta at page 104.

*Compared to main competitor delta sanders.

Jepuflex Antistatic

- A high class abrasive with a wide application area
- Especially good for sanding of hard wood such as beech, birch and oak
- Very durable thanks to full resin bonding and aluminium oxide grain
- Silicon carbide grain used in the coarsest grit gives extra strength
- A genuine all-round product that works well also on metal, plastic and lacquer

DELIVERY TERMS & CONDITIONS

INCOTERMS • Delivery terms

Terms of delivery are in accordance with Incoterms 2010

EXW (Ex Works...)

The buyer is at risk when the goods have been placed at his disposal at agreed time and place.

→ Insurance to be covered by the buyer. The buyer bears the risk during the whole transport.

FCA (Free Carrier...)

The buyer is at risk when the goods have been delivered to the first carrier or terminal at agreed time and place.

→ Insurance to be covered by the buyer (the seller up to the named point).

FAS (Free alongside ship...)

The buyer is at risk when the goods have been delivered alongside the ship at the port of shipment.

→ Insurance to be covered by the buyer (the seller up to the ship).

FOB (Free on board...)

The buyer is at risk when the goods have been delivered onboard the ship at the port of shipment.

→ Insurance to be covered by the buyer (the seller up to the ship).

CFR (Cost and freight...)

The buyer is at risk when the goods have been delivered onboard the ship at the port of shipment.

→ Insurance to be covered by the buyer (the seller up to the ship).

CIF (Cost, insurance and freight...)

The buyer is at risk when the goods have been delivered onboard the ship at the port of shipment.

→ Insurance must be covered by the seller (in favour of the buyer) to the port of destination complying with at least Institute Cargo Clauses (C) or similar clauses (further transports by the buyer).

CPT (Carriage paid to...)

The buyer is at risk when the goods have been delivered to the first carrier or terminal.

→ Insurance to be covered by the buyer.

CIP (Carriage and insurance paid to...)

The buyer is at risk when the goods have been delivered to the first carrier.

→ Insurance must be covered by the seller (in favour of the buyer) to the place of destination complying with at least Institute Cargo Clauses (C) or similar clauses (further transports by the buyer).

DAP (Delivered at place...)

The buyer is at risk when the goods have been placed at his disposal at agreed place of destination ready for unloading.

→ Insurance to be covered by the seller to the place of destination (further transports by the buyer).

DAT¹⁾ (Delivered at terminal...)

The buyer is at risk when the goods have been placed at his disposal at agreed terminal unloaded.

→ Insurance to be covered by the seller to the terminal (further transports by the buyer).

DDP (Delivered duty paid...)

The buyer is at risk when the goods have been placed at his disposal at agreed place of destination cleared for import and with duties paid ready for unloading.

→ Insurance to be covered by the seller. The seller bears the risk during the whole transport.

1) "Named terminal" includes such as quay, warehouse, container yard, road-, rail or air cargo terminal at named port or place of destination.
