Canton fire chief rescues 2-year-old boy

Kay George, a neighbor, stands near the mobile home from which the child was rescued.

A 2-year-old toddler - who was left with two youngsters while his mother ran a quick errand - was rescued from a smoky mobile home after it was believed everyone was evacuated.

"We got the call from the fire and the dispatcher said everyone was out of the mobile home," said Canton Fire Chief Mel Paulen. "When I got there someone said the baby was still there.'

THE BOY was in the bedroom of the College Park home on Mott and Denton when it began to fill with smoke about 2 p.m. on Thursday,

"I heard a wimper and went in and found the baby on the floor," He said he scooped the boy up, but

when he turned around he lost sight of the door in the room filled with thick smoke.

"I got to a door and it turned out it was a closet. I saw a light and went there and it was a window.

Paulen struggled to hold the boy and break through the window. Paulen, the boy and two baby-sitters ages 12 and 13 - were treated for

smoke inhalation and released, according to Canton fire reports. The Observer was unable to con-

tact the boy's mother. GiGi Hill, park manager, said she wasn't sure the boys were actually baby-sitting or whether the mother just asked them to keep an eye on the toddler while she ran an errand.

"There was a lot a smoke," said Kay George, who lives next door almost 25 feet from the fire. "When we broke the windows it all came rushing out. We were looking in and we couldn't even see. The one boy who was watching him had forgotten all about him (the boy) and said he was

AFTER THE rescue, while a neighbor cleaned the boy, the mother returned and began screaming: "Where's my baby?" said Hill, adding that the neighbors were unsympathetic to the mother.

Landfill delays may affect trash removal

By M.B. Dillon staff writer

Michigan's largest landfill operator has been unable to get permission from the state to open a new facility in Salem Township - a situation that has area trash haulers

Arbor Hills East Sanitary Landfill at Six Mile and Napier, which accepts refuse from 400 customers a day including Canton and Plymouth townships, is nearly out of space. The neighboring, new Arbor Hills West "has been ready to go since January," but differences of opinion between the landfill operator and the Michigan Department of Natural that extends for nearly a mile

Resources have held up licensing, said Dan Nelson, Arbor Hills district manager

Arbor Hills is on a DNR list of contaminated sites. Liquid containing low levels of benzene and vinylidene chloride has seeped into groundwater in a field east of Napier Road. Benzene is a known carcinogen. Vinylidene chloride has been found to cause cancer in some animals.

Cynthia Noble, senior environmental engineer with the DNR's waste management division, said Browning Ferris Industries, which operates the landfill, has taken steps to address

the problem, but more must be done. BFI built an underground

around three sides of the landfill that is containing the source of contamination, "but contamination that currently exists in the field east of Arbor Hills East needs to be addressed," said Noble.

A myriad of different chemicals have been found in groundwater that flows into the Johnson Drain, said Noble. "Some are human carcinogens, and some are suspected carcinogens. It's not something you'd want to be drinking, that's for sure." No drinking wells draw water from the contaminated area. Noble said.

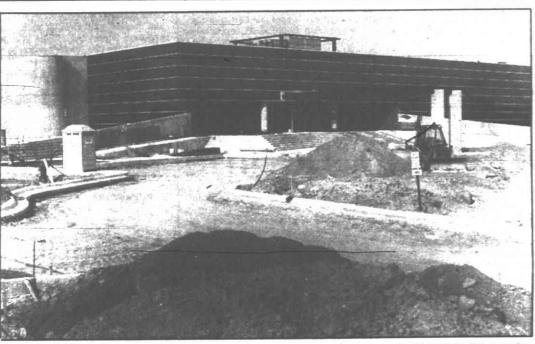

SAID NELSON: "We want to sign an agreement we can accomplish. We have had difficulty implementing an agreement because of what we feel was an inappropriate discharge standard that couldn't be technically supported."

The wall, three feet wide and 89 feet deep in spots, was finished in early June, and BFI "is doing more tests right now in different locations. making sure we know the extent of the problem.

We are trying to get the best information possible to make this assessment so that we can negotiate those things which need to be modified." said Nelson, "We're also trying to obtain data to design a solution. So obviously there is some frustration

DAVE DENSKI, OWNER OF Canton Recycling, Inc. said local communities "are looking at a severe potential problem. Everyone has said it's coming, but it could be right around the corner," said Denski, contracted by Plymouth and Canton townships to haul 12,000 cubic yards of compressed refuse per month.

Livonia businesses like Canton

By Diane Gale staff writer

Growing pains and tax benefits are pushing Livonia businesses to the limit - the Canton Township limits that is.

"There are lots of businesses that relocate here that got their start in Livonia," said Dave Nicholson, Canton community and economic development director.

"Of all the original home communities for business that have moved to Canton, Livonia is far and away the original incubator. I can't think of any other community that has so significantly affected our development than Livonia."

NICHOLSON ESTIMATED that between 15 and 20 companies moved from Livonia to Canton in the past 10 years.

Two factors play a big role in drawing businesses: Available land in Canton for building expansions and 12-year tax abatements of up to 50 percent.

State law allows communities to award abatements to industrial companies at the discretion of local officials. And Canton has had a reputation of easily approving full 50 percent abatements.

In tax dollars the transplanted companies bring in more than half a million dollars annually for Can-

Livonia assistant planning director H.G. Shane said the Livonia businesses were unable to expand and the entrepreneurs decided against finding new land in the city. In most cases, Shane said, the companies didn't buy enough prop-

Plymouth begins manager search

"To be able to communicate with people — that's our biggest need," said commissioner Mary Childs.

"I just want somebody who will carry on, use vision for the future and keep the services we have in the community," she said. "You need people who have been around, who know what's available and, if you need help, who's available."

"The person has to be a good man-ager," Kenyon said. "He's got to be able to organize, direct, coordinate and analyze. He has to be pretty skillful in financial planning and budget making.

Eleven million people in the U.S. have diabetes. But almost half of them don't know it.

Untreated, diabetes can lead to heart disease. kidney disease, blindness and gangrene.

And for 150,000 people each year, it leads to death.

That's why you should be aware of the symptoms of diabetes: blurred vision, excessive thirst and frequent urination are just some of the warning signs. Because the sooner you find out if you have diabetes, the more likely you are to get it under control, before complications set in.

Hot to try cooking with chilies

Janes

I could be sitting here telling you how great a big, cold dish of ice cream would taste. I could be envisioning cool salads, icy beverages and chilly desserts, but instead, I'm hot to trot, having been enjoying the taste of chilies in my air-conditioned kitchen.

My fingers are still tingling from splitting a few Serranos and the chili pepper plants are going wild in the garden after all the rain and sunshine. So now's about as good a time as any to fill you in on (excuse the pun) what's hot.

There are many forms of chilies from which to choose. From their origin in Mexico and Central America, chilies have encircled the globe, becoming a part of the culinary cultures of Spain, Italy, Hungary, Asia, Africa, India, China and Japan.

The few original chili varieties changed with each new soil and climate so that today there are between 1,000 and 1,500 individual types of chilies. Anything goes, from sweet to mild to hot to fiery. Chilies are abundant just about everywhere, either fresh, dried or

When shopping for fresh chilies, look for firm, brightly colored, shiny pods with no signs of bruising or rotting. Fresh pods can be wrapped in paper towels and stored in the crisper section of the fridge for up to five days. They also can be roasted and fro-

ROASTING IS done to remove

the skin and heighten the flavor. To roast, first time and dry the chiles. Spread in a single layer on a cookie sheet and with a small knife, pierce each chile near the stem. Place the chiles under a preheated broiler and cook on all sides until they blister. Don't let them char or you'll get a burnt

After blistering, place them immediately in a paper or plastic bag and allow them to steam for 15 minutes. Skin, seed and de-vein before using. As previously warned, use plastic gloves when working with hot chiles.

Chiles can be frozen whole after roasting. Do not skin. Simply let cool and pack in plastic bags. After defrosting, skin, seed and e-vein. Another trick I like to use is simply to pack them (after roasting) in jars and cover with

Here's a beginners' list on what's available locally in most good groceries and produce shops. Prices will begin falling soon because of the summer glut, so freezing and or storing now will save dollars and time later.

ANAHEIM: Mild to bot, with mild flavors prevailing. Lightgreen color, subtle flavor.

CAYENNE CHILE: Hot to very hot. Green color, subtle flavor JALAPENO: Hot, dark-green

color bound meaty flavor POBLANO: Mild to hot, darkgreen color, with sweet over-

SANTE FE GRANDE: Medium hot to hot, yellow-green to yellow,

with a lively, tingling flavor. SERRANO: Hot to very hot, green, with a bright flavor

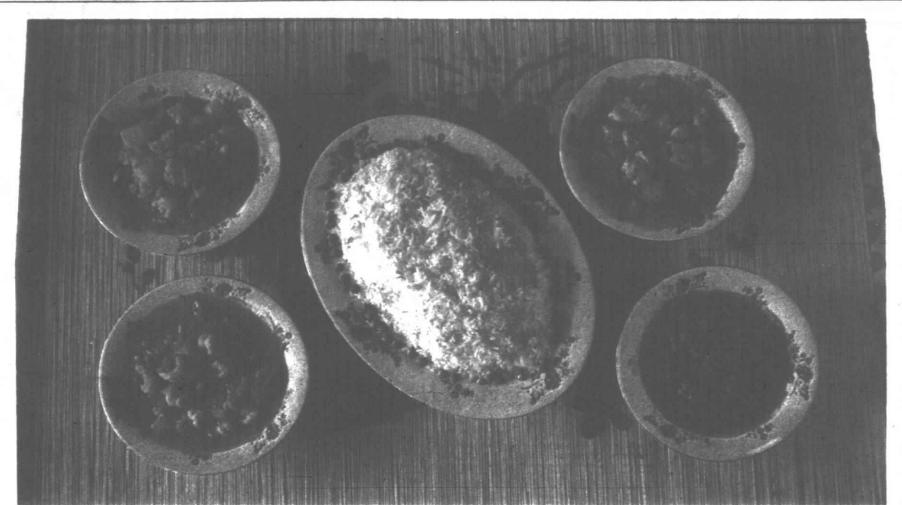

In addition, you can buy a fair amount of dried whole chiles in most good markets and ethnic food stores. Look for dried whole chiles with even color and no dark or yellow spots. Hang in open air or place in moisture-free

YOU CAN slightly temper the fiery flavor of dried chiles by deveining and removing the seeds.

For mild effects, add the whole dried pod to chiles and recipes, then remove the pod before serving. For the full impact, crush the entire pod and stir into the dish.

Varieties range in sweetness and fieriness, with most dried chiles being medium hot to hot. And if you are looking for some-thing to blow off Uncle Mike's toupes, look for the fieriest chiles around, either Pequins or Tepins.

At Star of India restaurant in Troy, a variety of curry entrees is available. Bowl of rice is surrounded by (clockwise, from left) shrimp curry, mixed vegetable curry, chicken curry and lamb curry.

Curry a very special spice

By Katie McBride special writer

URRY MAY BE one of the most misunderstood and multifaceted - flavor agents around. The average American places curry in the same class as cinnamon, ginger and other fragrant spices conveniently offered in cans or jars. But curry is much more complex than your basic bay leaf or basil.

Examine the label on your curry container and you will see it's a blend of numerous herbs and spices. Curry dishes are part of the daily diet in India, where people shun commercial preparations and grind their own spices to

Local Indian restaurants rely on experienced chefs from their native country to concoct the special blends.

"The chefs make up their own recipes for curries," said Mohammed Amin, co-owner of the Star of India restaurant in Troy. "They have to practice," he said, which makes the blends "more perfect.

CURRY HAS HELD an important place in Indian cooking for centuries. Research reveals more than one possible explanation for the origin of the word.

Some say it derives from "turcarri," a Hindustani term that was shortened to "turri." English-speaking people mispronounced it as curry, and the name stuck.

A more common explanation is that curry is the Westn way of saying the Indian word "kari the leaves of the kari plant used in regional Indian dishes or a cooking technique for preparing star-fried vegeta-

Indians call the spice blend for kari dishes "kari podi." or curry powder. The combination of herbs and spices in South Indian cooking varies by region, but Julie Sahni, author of "Classic Indian Cooking" (William Morrow and

It's more than you imagined

Company, Inc., 1980), says the typical mixture usually contains black pepper, coriander, cumin, fenugreek, kari leaves, mustard seeds, red pepper, turmeric and sometimes cinnamon and cloves. Indian cooks concoct their

own special blend, roasting and grinding it into a powder. Sahni suggests curry came to the West through British merchants and the East India Trading Co. The traders lived along the southeastern coast of India and quickly became fond of the fragrant, flavorful kari dishes. Unable to master the Indians' culinary creativity in combining spices, they added kari podi to stews and casseroles, creating dishes with the golden cast and spicy flavor they

NEW HERBS and spices were added to the curry blends when the British expanded to the north and east of India. For example, Chinese curry dishes have a flavor all their own. Unlike Indian chefs, who refuse to use commerical blends, the Chinese restaurants often use brand-name powders to prepare their curries. Additional spices and different cooking techniques make the dishes

Shen Yu, manager of New Peking Chinese Restaurant in Garden City, said they offer customers two kinds of curried chicken: shrimp or beef, stir-fried or with gravy. The stir-fried shrimp and chicken curry dishes are most

"We cook individually Everything is fresh," Shen Yu said. Our curries are very different. Indian diales are orange-brown in color. Our curries are more yellow."

In addition to curry powder, New Peking chefs use garlic, ginger, green onions and rice wine to flavor their curries. While Indian restaurants often use red pepper or chile powder to make a dish more potent, Shen Yu said they use white pepper instead.

'It has a different taste - still hot, but special," he

CUSTOMERS CAN order hot, medium-hot and mild curries at the Passage to India restaurant in Berkley. "Karhai" chicken, lamb, shrimp or vegetables is their curried specialty, served tableside in an iron skillet.

"Few people know how spicy Indian food is," said Kazy Moin Uddin, manager of Passage to India. "It's our job to ask them how they like it. If you've never tried our curry, we suggest the mild."

Matching the heat of the spices to customers' tastes is a relatively easy task for Indian chefs, who grew up eating a wide variety of curries.

"In India, we eat curry every day, but in different ways," Amin said. Varying the spiciness and the ingredients means they "can eat it for lunch and dinner," and not grow bored with their diet.

vided by a harpist wasn't enough to

allay our impatience as we waited

OUR DINNER SALADS were fresh and crispy, and the vinaigrette dressing was good. But those who chose the Caesar salad were disappointed

The menu focuses on fresh fish veal dishes and pasta. While the main menu ranges in price from \$13.95 to \$24.94, the daily specials were less pricey (\$11.95-\$16.95). Our group ordered a variety of entrees, from grilled tuna or salmon to filet mignon and veal française. While the entrees were nicely flavored and generally well-prepared, they were lukewarm upon arrival - which is why we think the service was the main problem, not the chef.

The veal medallions were sauteed in a seasoned egg wash with mush-rooms, lemon butter and a touch of sherry. Two of three medallions were delicious. But the third was tough and overcooked. The filet mignon was truly tender, and the bearnaise sauce served with it was light

We found the grilled fish dishes especially well done, the grilled tuna as cooked to perfection, neither undercooked nor overdone, and was served with an interesting pepper sauce. Ditto for the salmon.

We finished up with an excellent cup of coffee, skipping the lineup of desserts because of the lateness of the hour. The restaurant features a dessert tray with flans, tortes, brownies and fruits. Selections range from \$2.95 for Haagen Dazs ice creams on up.

IN ALL FAIRNESS to the restaurant, we visited shortly after the change in menu and the problems we encountered may have been part of the transition. But we wonder whether the challenge of feeding large parties in the ballroom next door (the fourth largest one in the state) detracts from the hotel's ef-

taurant. We had the distinct feeling our courses were interspersed be tween meals being served at the high school prom next door

The restaurant relies heavily upon hotel guests for its clientele. But it draws also from the western suburbs those people who know how to find the hotel despite the fact that the M-14 freeway passed it by without an exit.

Those who do find it enjoy the comfort. The harp music (on Friday and Saturday nights only) provides a special ambience to an already easant atmosphere. The menu "up grading" no doubt relates to the hotel's transition into a Radisson. With better coordination between the kitchen and service staff, The Park may yet become a memorable place to eat. We'll have to wait and see.

Berry-picking season means summer fun

Berries, berries abound! Mmmm It's heavenly biting into freshly picked Michigan berries at this time

I'm sure you've noticed the produce department at your local supermarket: Strawberries, raspberries, blueberries and cherries are displayed and kept in constant supply. Berries are the best. They're healthy - rich in vitamin C, potassi-

um and fiber. Summertime dieters will love the fact that berries are also low in calories - less than 100 calories per one-cup serving. Yet, you don't have to rely on the

supermarket to provide a variety of berries. You can grow your own, shop at a farmer's market or visit a pick-your-own farm. You'll know that you're getting fresh produce this way, plus saving yourself some mon-

Time's up — collegiate stars are out

Members of the Livonia Collegiate Baseball League all-star team (facing) exchange post-game congratulations with their opponents from the Detroit Adray League.

By Brad Emons

Maybe the Livonia Collegiate Baseball League All-Stars can petition for a two-hour time limit next season

In the annual Adray Collegiate Baseball League All-Star Game, played Wednesday at Tiger Stadium, Detroit scored 11 runs in the bottom of the eighth inning to drub Livonia, 16-2, in an arduous affair which stretched beyond the 2½-hour time limit.

The game, featuring the area's top collegians (ages 20 and under), began at 9:30 a.m. and ended at 12:08 p.m. when Detroit Adray Sound's Andy Fairman parked a Ron Makowski pitch over the right field screen, just inside the foul pole at the 325-foot mark, for a grand slam homer.

And with the Lansing-area All-Stars due to play Detroit at 12:30 p.m., the umpires had seen enough, calling for an adjournment.

The grand slam was made possible by the liberal All-Star substitution rules.

Fairman, a left-handed batter from the University of Michigan, batted twice in the eighth inning, when Detroit sent 13 batters to the plate.

IRONICALLY, Fairman started the game as the designated hitter, batting in the No. 3 slot before being removed. He returned later to the Detroit lineup as the right fielder, hitting in the No. 9 slot.

Detroit Adray Appliance manager Bob Atkins, who is also director of the Detroit Adray League, said he lost track of his substitution pattern.

"All I am is a glorified secretary," said Atkins. "My job was to get all the kids in the game. Of the 21 players we needed to get in, 16 had already played the sixth inning. The only ones who didn't play were the pitchers we were going to use in the second game (against Lansing).

"We was just wanted to get the game over with. I was hoping the umpires would call somebody out (in

the eighth) because we were over the time limit."

Livonia Little Caesars manager John Moraitis was confident his All-Stars could compete against Detroit, but was bit concerned about the depth of his pitching staff.

"We wanted to pitch everybody," he said. "And it seemed like when the pitching went sour, the defense fell apart."

THE LIVONIANS made six errors and were outhit 14-6.

Of the seven Livonia pitchers, Derek Darkowski, a left-hander from Hines Park Lincoln/Mercury, proved why he is Livonia Collegiate League's winningest pitcher (6-1 record).

The Michigan State hurler held Detroit scoreless over the third and fourth innings after starter Ron Kurlinski (Caesars) allowed a second-inning run. Darkowski also picked off two runners at first base.

Detroit scored four times in the off Steve Witt (Caesars), but he was

the victim of three outfielder errors.

Chris Kloc (Caesars) and Randy Buchler (Walter's Appliance) held Detroit scoreless in the sixth and seventh innings, respectively, before John Storm (Duffy's) and Makowski were roughed up in the eighth.

"The last inning was not indicative of what type of game it was," said an almost apologetic Atkins. "It was a good ballgame until the clock said

It took just a few mid-tournament adjustments to take Schoolcraft College's AAU 19and-under team from comic relief to championship status at last weekend's AAU-USA National Junior Volleyball Tournment at Illinois Benedictine in Lisle, Ill.

The comedy came early from SC. The team dropped its first four games before rallying to finish its Friday schedule with a 4-4 mark.

"In pool play, there were teams that were just laughing at us," said SC coach Tom Teeters. "When we came back through the tournament, they weren't laughing anymore."

After splitting with Miami-Dade in Saturday's pool-play opener, SC started to put it all together. A sweep of University of Michigan-Dearborn followed to give SC a 7-5 pool record and the No. 3 seed.

Six lopsided games later, SC had three match wins and a national championship in just its second year of AAU competition.

TEETER'S ADJUSTMENTS helped turn

the tide for SC. "We went from one setter to a two-setter system," he explained. "And that let us go to a middle-man-up defense. It's a much simpler system that allowed us to be more consistent. It let us get Nikki (Stubbs) outside, where we could get more sets for

Stubbs, who spurred SC's college team to the National Junior College Athletic Association title last November, was another major factor in capturing the AAU crown. After moving outside, the 5-foot-8 hitter could not be stopped.

JoAnn Kolnitys, a Wayne Memorial grad who will be a sophomore at SC this fall, moved into the middle and provided solid blocking, and Kari Domanski, who will be a senior at Livonia Ladywood in September, went from setter to outside hitter and did both

Stubbs (headed for Eastern Michigan this fall on a volleyball scholarship) and Domanski were two of the four players selected to the all-tournament team.

SC's slow start began on Friday against teams from Hawaii and Southern Missouri.

The 0-4 slate got turned around with sweeps against Peoria (III.) — thanks to 11 blocks by Sarah Adzima (from Ladywood, going to Western Michigan) — and Lansing

Western Michigan) — and Lansing.

After winning three-of-four pool games Saturday, SC went against sixth-seeded UM-D and won 15-1, 15-8, to advance to the semifinals on Sunday.

IN THE SEMIS, SC had a rematch with Southern Missouri, which had defeated SC 15-6, 15-4 in pool play and was the heavy favorite to win the title. Instead, SC clubbed Southern 15-4, 15-5.

That left a rematch with Miami-Dade for the championship. There was no splitting this time; SC won easily, 15-5, 15-7. The rest of the nine-person SC champion-

ship squad was setter-rightside hitter Jennifer Sproul, from Livonia Churchill (going to SC this fall); outside hitter Angellette Love, from Detroit Henry Ford (also going to SC); outside hitter Anjanette Lankford, from Garden City (a sophomore at SC); outside hitter Kirstin Stelzer, from Woodhaven (another SC soph); and serve-and-defense specialist Cathy Coak, from Wayne (an SC soph).

Teeters was assisted by Alisha Love and

A week earlier, SC entered teams in the 18and-under and 16-and-under AAU tournaments, also at Illinois Benedictine. The 16and-under team won seven of eight pool games, but was eliminated in the second round of tournament competition. It finished with an overall record of 9-3.

The 18-and-under SC squad was 5-3 in pool play, but also lost in the second round of tournament competition to finish 7-5. Both teams placed among the top 28 in their respective 60-team tourneys.

SC NOTES: Teeters announced the signing of another volleyball recruit: Tricia Lukas, a 6-0 middle blocker/outside hitter from Dearborn Heights Crestwood.

"She'll help us running our quick middle-set offensively," said Teeters.

Lukas was actually recruited by SC basketball coach Jack Grenan. She plans to play both sports at SC. Lukas was a two-year starter for Crestwood's volleyball team.

'In pool play, there were teams that were just laughing at us. When we came back through the tournament, they weren't laughing anymore.'

Errors hasten Elks' downfall

Opposing pitcher Mike Orr was tough enough as it was. The Plymouth-Canton Elks didn't have to help him.

Orr pitched a four-hit shutout as Wyandotte blanked the Elks 5-0 Thursday in a Little Caesars Connie Mack game in which host Canton made four errors.

"We give up too many extra outs," Elks coach Mark LaPointe said. "We give (opponents) second chances."

The Elks helped put Wyandotte's first run into scoring position after Kevin Hebda hit safely. An error allowed him to go from first to third, and he then scored on a

ground ball.

Canton was down 2-0 in the fifth inning with a Wyandotte runner at third. The Elks had the infield pulled in, hoping for a ground ball—which they got—but an overthrow at first allowed the run to

Krafchak named to coach Salem

By C.J. Riesk staff writer

It took about 15 years and a bit of soul-searching before Mike Krafchak was able to merge ambition with reality.

He finally combined the two when he was hired as Plymouth Salem's girls cross country coach.

"When I was originally at Redford Union, something about the Salem program always interested me," he said. "I said if something ever happened and I had an opportunity to coach there, I would."

The opportunity arrived when John Gravlin stepped aside as the Rocks' girls coach. Krafchak, who assisted in coaching Salem's girls track team last spring, was the logical choice as replacement.

HIS EXPERIENCE is extensive. He started at RU in 1973-74 as boys cross country coach and established the school's girls program. He stayed there for seven years before moving on to Garden City, then to Livonia Ladywood, staying at each

place for a season.

Krafchak mit o

Krafchak quit coaching for a couple of years to "reassess some things," then decided to take over Schoolcraft College's struggling program. But — after several years of trying — he grew disenchanted at

"You don't get a lot of time to coach in the college ranks," Krafchak said. "It's more administrative. Runners are more set in their ways and are less receptive to

"It took going to the college ranks for me to realize that."

What Krafchak also realized was that he "liked coaching high school better. I like working with younger bide."

And that revived his old ambition, regarding Salem. "The attitude at Salem I always thought was top-notch," Krafchak explained. "I liked the way the kids handled themselvis, the way the coaching staffs worked together, and I thought the purents

Is this avid exerciser getting enough protein?

Dear Myrna: I am a thin man who loves to work out. I spend my lunch hour working out rather than eating lunch. I generally eat one piece of toast and juice for breakfast. I eat a light, well-balanced dinner. I'm concerned that I don't get enough protein in my diet. Am I eating enough by the two meals a day? P.S. My workout at lunch is important. I won't give it up!

I do understand your lunchtime workout being important. It's a great stress releaser during the day and also will help rejuvenate your brain for better productivity

As far as your diet is concerned, if you eat a well-balanced dinner, I can assume there is some protein in your daily diet. Most Americans consume significantly more protein than their bodies require. You probably are getting enough protein.

But the real question is: Are you consuming enough calories all

Rotisserie Leagues: Baseball by numbers

By Larry O'Connor staff writer

Monday, July 10, 1989 O&E

The postman doesn't ring twice at the O'Connor household. He calls more than Los Angeles Dodger manager Tommy Lasorda phones for piz-

"It's Steve," says the wife, flinging the receiver at her couch bound husband.

'Steve'' is Steve Smith of Wayne, a postal carrier by day, is the owner and general manager of the Wayne Newton's, a member of the Immigrant Rotisserie Baseball League. He phones under the general pre-

tense of friendly conversation. You know, like "how's the wife?"

massive object that sticks in your craw like a lump of coal. "How's your team?" he asks.

Understand. Steve Smith is no dummy. He knows full well how the beleagured Berville Batmen are doing. We're in the hurt bucket, the basement, last place, Rostisserie League hell.. You see, Steve Smith is concerned.

He cares. He wants to help me. He wants Tony Gwynn.

Steve Smith uses the strategy of

attrition. He figures he can wear me down with numerous phone calls, perhaps catch me at vulnerable moment, like while I'm watching the "Gorgeous Ladies of Professional Wrestling," and I'll fork over the All-Then comes the needle that cuts Star San Diego Padre centerfielder like a sword, the ultimate dig, the for two bullpen catchers and a third base coach to be named later

NO WAY, Jose Such is the madness inspired by the latest craze, called Rotisserie League Baseball. What is Rotisserie Baseball you may ask?

Some 500,000 to 750,000 people are estimated to be participating in the game, which involves owning your own major league team. Some present Rotisserie League owners include New York governor Mario Cuomo, David Eisenhower and Bryant Gumbel.

The game is simple in theory. You construct a team of 23 actual players in the major leagues.

Based on their performances, you are rated in categories, such as batting average, stolen bases, home runs, earned run average, runs batted in, pitcher's wins, hit/walk ratio and saves. You can make trades and you even have a farm system.

'It's a way to own your own major league team without paying \$50 milsaid Glen Waggoner, who coedited the book on the game "Rotisserie League Baseball" (Bantam). "It's for anyone who has sat in the bleachers and watched a million dollar slugger not run out a pop fly and said to themselves, 'If I ran this team I'd get that burn out of here.' If you own your own team, you can get that bum out of there."

Rotisserie League baseball gets you thinking like a general manager. You start to take a liking to fat Cuban cigars, plaid polyester pants and green golf shirts.

A Rotisserie League owner scours the daily box scores religiously; watches the Atlanta Braves and Chicago Cubs on cable TV (though scientific studies indicate enduring thousands of "Holy Cows!" from Harry Carey over a period of time causes laboratory mice to eat their young) and develops a keen sense about the ability of phenoms named Juan out of countries with military-backed re-

THE ROTISSERIE owner laughs. He cries. He swears, especially when Jack Clark strikes out with the bases loaded. Wives and girlfriends become co-dependents, spending moon-lit nights with their lovers on the front porch listening to the Cincinnati Reds game on the radio.

"When one of my pitchers gets bombed, I'm miserable for the whole day," said Keith Stone, 25, of Westland and owner of the Keystone Cops in the Lower Great Lakes Baseball Union. "Likewise when they pitch a shutout, I'm estatic."

Stone is commissioner of the Lower Great Lakes Baseball Union and a rabid baseball fan. The nine-team league is made up of college friends and serves as a social outlet.

There is a golf outing and a league party at the end of the season. Trophies are handed out, including the "Donkey's Ass" to the last place finisher. The difficult part is trying to explain the game to people who are unfamiliar with it. "It's getting better," Stone said.

"People are beginning to hear about it. Before when you told people you're in a Rotisserie league, they thought you were going out in the backyard and cooking some chick-

In Rotisserie League Baseball, you play chicken. It's called making trades, certainly one of the more attractive features of the game.

Every owner can tell you their best swap . . . and their worst.

FRANCIS WHITE, 36, of Southfield names his best trade without hesitation: Minnesota Twins third baseman Gary Gaetti for Seattle Mariners Ken Griffey Jr. and Erik Hanson along with Texas Rangers Bobby Whitt. White's philosophy is to trade experience for youth.

"I'm willing to sacrifice a year to build for the following year," said White, who is an associate professor of psychiatry at Lafayette Clinic in

A look at the Bad News Batmen

BERVILLE BATMEN - Larry O'Connor, general manager

Jack Clark, 1B: He looks like Paul Bunyon, but he's hitting like Tom Thumb.

Jeff Treadway, 2B: Pete Rose said you can bet this guy will be the Cincinnati Reds' second baseman of the future, which is why Treadway is playing in Atlanta.

Shawon Dunston, SS: He has an Uzi for an arm, but a cap gun for a bat. Matt Williams, 3B: The Giants told him he'd hit

20 home runs and knock in 60 RBIs . . . except he'd be doing it in Phoenix (the minors). Darrell Evans, 1B-3B: Sure, he's sentimental

choice. My heart tells me that there was no one else Rey Quinones, 2B-SS: This year, he went from the Mariners to the Pirates. On the Batmen, he should Bruce Benedict, C: Heard ole' Bruce say once that sportswriters were the lowest life forms on earth. Ya, about as low as his batting average.

Rick Dempsey, Utility: This guy is great at entertaining fans during rain delays with belly sliding across taurpolins. He's equally humorous swinging

Dale Murphy, OF: He's such a clean, cut All-American guy, signing autographs for everyone and participating in numerous civic functions. Well, we don't care if he joins Hell's Angels and kicks sand in Girl Scouts' faces. We want home runs

Tony Gwynn, OF: He does it all. He hits, runs and fields better than anyone. He even accomplishes something previously deemed impossible looks good in a Padres uniform.

Randy Ready, OF: Another Philly phenom, which means he's probably better at the race track than at the ball park.

Dion James, OF: Atlanta Braves are like orphans at Christmas, you can't leave without taking a couple home with you. Bob Dernier, OF: He's a former Cub, which al-

At the Garden Bowl, a venerable bowling center in Detroit, the beat of the drum has to compete with the crash of the pins. The "Rock'n'Bowl" features live local bands on Thursday nights while on Fridays and Saturdays people can roll for strikes while a dee jay spins some tunes.

The interesting mix of sport and music brings out an equally diverse audience. Needless to say, this is not a stop on the Professional Bowlers Association Tour.

Otherwise, Kim Gruely of Farmington and her friends wouldn't be dancing in one of the lanes after

Film breaks new ground

special writer

The Omnimax films at the Detroit Science Center have taken us on space missions, swooping rides by airplane and roller coaster, and into the mouth of an erupting volcano. "Beavers" - the Space Theatre's summer offering - breaks new ground by telling a simple but fascinating story. the 31-minute film.

The Omnifax concept asks you to relax in comfortable reclining seats and view films in the Space Theatre planetarium. Instead of constellations, a high-resolution film image lluminates the domed ceiling.

Breathtaking wilderness opens the film - great trees and sparkling blue water untouched by man. Pardon me while I crow a bit. I've just returned from a weekend at the Stratford Festival in Ontario.

How were my seats? I don't want to sound boastful but the seats for "The Merchant of Venice" were so close you could almost smell Shylock's breath and whiff Portia's sweet perfume. That's fourth row center orchestra.

And for the double bill of "Titus Andronicus" and "Comedy of Errors" just a tad back, still orchestra seating of course. So close that the rape and mutilation scene forced the woman next to me to head for the

The accommodations? Glad you asked. How about a room with a sitting room, skylight and loft at the Jester Arms Inn, you know the quaint little inn on Ontario Street with only 13 rooms. That's 13. Count

Now of course your next question is how far in advance did I make reservations. Six months? Nine? Last

Would you believe this Stratford trip was made without any reservations? Not play tickets, not hotel, not

dinner. Zip.

Granted the trip was made two days before the traditional May 29 festival opening, but Stratford Festival office personnel, inn operators and Stratford Information booth staffers all agree, a spur-of-the-moment jaunt to Stratford is absolutely possible. Without reservations you can still get a room, play tickets and a meal.

HERE'S HOW:

To get to Stratford, Ontario, from Oakland County will take about three hours. Cross into Canada at Sarnia and take 402 east. Wayne County residents will want to go via Detroit/Windsor on 401 and link up to the 402 at London. Exit at Highway 126 north also known as Highbury Avenue (exit 189B). Go north 20 miles to Highway 7 and east to Strat-

First stop should be the Tourist In-formation Booth along the Thames River, on the west end of York Street east of Huron Street. The booth is staffed from 10 a.m. to 8 p.m. Tuesday-Saturday and 10 a.m to 5 p.m. Sunday. (The theaters are dark on Monday.

Two full-time staffers paid by the city, a few students and other volunteers dispense information about accommodations availability for hotels, bed and breakfasts and campgrounds in the area.

On Sunday or Monday of each week area hotels call the booth to give an availability count. That checklist is posted on a bulletin board just above a scrapbook showing pictures of the establishments. While booth tenders will not make reservations for you, they'll allow you to use a telephone placed there for just that purpose. Local calls only, please.

IF YOU strike out on hotels or if you'd just prefer a bed and breakfast arrangement, the booth has a list of 84 to choose from, all inspected and approved for listing.

get them a room," said staffer Lau-

How to visit without reservations

You can also get information about area recreation and outdoor activities including surrounding fairs, golf courses, attractions, festivals and arts and crafts shows. You'll also find out about area restaurants and their menus, churches, galleries and specialty stores.

Now about the tickets. That's one thing the information booth does not

help with.

There are three theaters: the Festival, Avon and Third Stage in decreasing order of prestige and price. The main box office is located at the Festival Theatre on Queen's Park. Reserved tickets are held at the Stratford Festival Box Office until 11/2 hours before curtain. The Avon and Third open one hour before curtain and sell tickets for that day's performance only. You can call the main box office from the information booth to find current ticket

IF YOU'RE given the "all sold out" spiel, pay attention here: unclaimed, unpaid for tickets are released for sale one hour prior to curtain. Chances are you'll be able to cash in on a "no show." If you don't score then, wait for the scalpers. Just before curtain they'll appear in front of the theater trying to resell unneeded ducats.

Then again if living on the edge, i.e. spontaneous traveling, makes you nervous, you can always follow the tourist industry's most quoted advice, "Call ahead for reserva-

A couple tips for the festival

Here's some miscellaneous tips on

seeing Stratford:

• If you'd like a one-hour guided walking tour of early Stratford, stop by the Tourist Information Booth on York at 9:30 a.m. Monday through Saturday "on all nice days in July and August" or pick up the map guide for your own tour.

Another self-guide tour map is provided by the Local Architectural Conservation Advisory Committee, and naturally leads you to architecturally significant buildings.

· Be sure to ask at the booth about the parks surrounding Lake Victoria, "the largest park system per capita in Canada." Paddle boats and canoes can be rented by the hour at the information booth and Stratford Parks and Recreation maintains three tennis courts on a firstcome basis.

· Take a quick walk through the Shakespearean Gardens (a brief stroll from the information booth) near the Perth County Courthouse along the Thames. It features flowers and herbs mentioned in Shakespeare, including rue, lavender.

Q: Last year, you did a story that followed Highway 22 around the Leelanau Peninsula in west Michigan. Can you do the same thing with the coast of Lake Huron in East Michigan?

When I think of east Michigan, I picture daybreak over Lake Huron. The rising sun transforms the Tawas lighthouse into a glearning silo and filters through curtains of marsh grass to reveal the nests of geese. Tawas Point State Park is one of a thousand places along Lake Huron's upper coast where morning can be

seen and felt in all its glory.

The "quiet" corner of the state is not all nature walks, beaches and boats, however. As you drive north from Standish to Mackinaw City, you'll find shopping centers, new motels, and every fast food chain known to traveling appetites. You can find golf before breakfast and hot tubs after canoeing if you want

Q. I love fishing but it seems whenever I want something it's either nowhere to be found in the boat or it's the one item I never bought. How can I prevent play from being as complicated as work?

A. Fishing is meant to be fun, but it can be an exercise in futility if you aren't outfitted properly — not only with the right equipment but also by organizing it for easy (and non-frustrating) use.

Grabbing your fishing net to land that lunker can be an upsetting experience if it's tangled amid stray coils of monfilament with triple hooks. Having to reach out to the end of a downrigger could cause a chilling plunge without swivel mounts and cannon-ball retrievers.

Advance planning is the key to your success. A permanent set of basic tools (screwdrivers, etc.) is invaluable. Secure your downrigger balls in holders made to cradle them properly so they don't roll relentlessly with each dip of the boat. Make sure your mooring cover/canvas is in good shape so a missing snap or small rip doesn't leave your boat filled with water.

Keep a pad and pen on your boat and write down missing items as you need them. Then buy only what you need — not 20 of the same lures while forgetting the insect repellent and suntan lotion. Create a checklist of everything you need each time, laminate it and keep it in with your equipment.

Three time-saving strategies include: creating a specific place for each item and returning it there after each use; leaving as much equipment on your boat as possible, either in lockable storage or by mounting it; and using an accessible well organized dock box or cart for the rest.

If you need more boat storage space, look around for seemingly unusable space. For extra lures, try cutting slots in dense foam and attaching it into a recessed spot. For easy access, slide a small set of utility drawers into a side pocket to hold paraphernalia like hooks, sinkers, rubber bands, etc.

When installing new electronic equipment, leave room for that Loran C you'll eventually want and put your LCD graph on a swivel mount to move away from the direct sun.

You're probably heard these ideas before but the acid test is whether you have followed through.

condo queries Robert M.

Meisner

Q. In our condominium, we are having a number of water leaks in the roofs and there is a debate on the board as to what we should do. Some wish to go to the township building inspector for help. What has been your experience in that regard?

A. Unfortunately, building inspectors and/or township officials are not generally in a position to force the developer to make repairs to correct defects and deficiencies in condominiums and other multi-family residences, particularly if the condominium developer has completed the project and is no longer seeking certificates of occupancy from the municipality.

Moreover, building inspectors rely on the minimum code of requirements of the municipality to determine the adequacy of the construction by the developer and in some instances, there are no code requirements with respect to various problems at the con-

do.

Finally, assuming that the building inspector is willing to do something and the developer fails to do anything in response to the building inspector's request, the only real recourse that the complainant has is to file a complaint with licensing and regulation in Lansing against the builder's license. It is a time consuming, frustrating and arduous task that rarely results in a builder losing its license and, then, only after administrative hearings which are generally more lengthy than actual litigation. Don't

hold your breath for a prompt resolution.

Q. Does an apartment owner have to provide special parking spaces for handicapped persons?

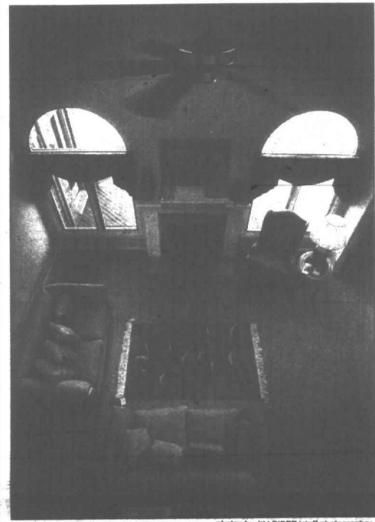

A. The regulations of the Fair Housing Amendments Act of 1988 clarifies that it is part of the landlord's obligation to make reasonable accommodations for handicapped persons. A landlord may be required to provide special parking spaces to individuals when the accommodations are necessary to afford the person an equal opportunity to the use and enjoyment of his or her dwelling. Keep in close touch with your counsel on the new regulations being pro-

mulgated in this burgeoning area of the law.

Flexibility is key in Oakland Farms homes

photos by JIM RIDER/staff photographer

An overview of the living room in an Oakland Farms subdivision model.

By Becky Eminger special writer

HINK OF options, package deals, exciting trim packages, and custom engineering amid luxurious surroundings. Do images of Detroit's finest automobiles come to mind? Think again. We're talking about new homes that incorporate the latest trends but offer flexibility to the buyer to make it his dream castle.

On Rochester Road, two miles past downtown Rochester, Harbor Oaks Development Corp. offers one-half to three-quarters acre lots upon which to build your own home design or one of the four basic models they offer in a subdivision called Oakland Farms. Some of the lots border protected wetlands. A total of 96 lots will be available in phases.

Two types of colonial homes are offered, each with four bedrooms and library. The ranch home has three bedrooms and a gathering room. The newest style is the three-bedroom raised ranch.

ACCORDING TO PAUL Sanderson, sales manager, the models incorporate some of the latest trends. The raised ranch, a story-and-a-half home, revamps the old Cape Cod style. The master suite is on the main floor and two bedrooms and a bath make up the upper level. Three-bedroom homes are gaining popularity due to smaller families. Three-car garages are also a popular choice, affording storage for boats

or extra vehicles.

But don't think that fewer bedrooms means smaller living space.
The 2,500- to 3,000-square foot
homes allow ample room to entertain. The space is further enhanced
by decorator accents the builder offers. Rounded corners installed with
the drywall give a soft curvilinear
line to the interior walls. Because
the most popular choices in this
community are traditional exteriors
and contemporary interiors, such

touches make a difference.

Sanderson believes they are one of the few builders offering panelized drywall, another stylish option for interesting walls. The drywall fentures inset panels molded into the wainscot areas of the wall, allowing for easy decorating and color accents. This is especially popular in dining rooms. Both drywall options are included for a short time at no additional cost.

NEW SPACES ARE a surprise in

the raised ranch. A butler's pantry adjoins both the kitchen and dining room. While the concept comes from past lifestyles, this adaptation works well for '90s style entertaining. Leaded glass doors hide anything from barware to linens. Additionally, a walk-in pantry provides everyday storage.

The upper level begins with a bridge gallery, an over-sized landing at the top of the stairs that lends itself to office space, a playroom or a study. A windowless "whatsis" room, also on the upper level, could serve as a cedar closet or a storage room.

The builders put a lot of thought into the package of options offered. Sanderson says, "They walk through the houses and think how people will live in them."

The current package includes the following items at no additional cost to enhance the home: hardwood floors in the front entry, kitchen and breakfast nook; a marble floor in the first floor powder room; Brass faucets in the vanity.

Two skylights and a ceiling fan add light and air to the main living space. The library has french doors inside and stone facing outside.

A jacuzzi is situated in the master bath, which is separated from the bedroom by a dressing room area. The bedroom also has a private entrance to the deck.

The focal point of the great room is the marble fireplace. However, any style fireplace can be built to suit the owner.

All the lighting fixtures in the model are included. The first floor laundry room has premium flooring and built-in cabinets.

The package is offered, just as with cars, to give the homeowner special upgraded details that make the difference between a bread-and-butter home and a luxury showplace. The models are open Monday through Sunday, 1-7 p.m. and are closed Fridays.

Get award

Harbor Oaks Development Corpreceived a beautification award from the Waterford Township Parks and Recreation Department for excellent utilization of existing greenery in connection with the new multi-family condominium complex in Waterford. Cited in the award was the project's extensive landscaping with ornamental and native plants and a lovely walkway to nearby Esrie Lake.

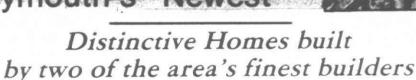

One of the models offered in the Oakland Farms subdivision is a three-bedroom

raised ranch in which the master bedroom is on the first floor.
