

1994 MERCURY CAPRI

*"It's like owning your own
amusement ride."*

Capri's 2+2 interior is pictured here with Black Cloth seat trim.

"Capri instantly puts a smile on any road."

Driving a Capri or its more powerful twin, the turbocharged Capri XR2, is like owning your own amusement ride. Simply put down

the easy-to-operate soft top, turn the key and Capri instantly puts a smile on any road.

Capri ponies up all the wind-blown fun that only a convertible can generate. And it brings even more to the party with such performance features as a 16-valve, dual-overhead-cam engine, five-speed manual overdrive transaxle, four-wheel disc brakes and a road-hugging four-wheel independent suspension. For an added kick, you can choose Capri XR2 with its 132-horsepower turbocharged engine and sport-tuned suspension.

Both Capri and Capri XR2 offer a surprisingly spacious interior for convertibles in their class. They even include a back seat capable of

holding an additional friend or two, an extra suitcase, or perhaps a cooler for the perpetual picnic you'll feel like having.

And, since these Capris are also Mercurys, they come well-equipped with a host of deluxe standard features. Things like power rack-and-pinion steering, power windows, dual power mirrors and reclining sport bucket seats. You'll find a complete list in the back of this brochure.

Of course, the real reason most people want a Capri or Capri XR2 is that it's incredibly fun to drive. And for most people, that's reason enough.

1. Capri provides added reassurance for both driver and front passenger with a standard dual air bag Supplemental Restraint System. Of course, it can't properly perform its vital task

unless you perform a simple one first: buckle your safety belt.

2. A day in the sun can work up quite a thirst. To help you quench it, Capri includes this thoughtful cupholder for your

favorite beverage.

3. When the top is up, the rear seatback can be folded down to create extra storage space for longer items.

4. Capri's standard power windows make it even easier to

open yourself up to the great outdoors.

5. Capri's convertible top is so easy to operate, one person can put it down in about as much time as it takes to find your sunglasses.

Capri XR2 pictured in Magenta Clearcoat.

Capri pictured in Reef Green Clearcoat Metallic.

CAPRI STANDARD FEATURES INCLUDE:

- Air bag Supplemental Restraint System for the driver and front passenger
- 16-valve DOHC 1.6-liter engine
- Front wheel drive
- Multi-port electronic fuel injection
- 5-speed manual overdrive transaxle
- 4-wheel power disc brakes
- P185/60R14 steel-belted radial tires
- 4-wheel independent suspension
- Front and rear stabilizer bars
- Power-assisted rack-and-pinion steering
- Leather-wrapped steering wheel
- Analog instrument cluster
- Dual reclining front sport bucket seats
- Driver-side adjustable lumbar support and height adjustment
- Lockable fold-down rear seatback
- Electronic AM/FM stereo radio
- One-piece soft vinyl top
- Power side windows
- Variable intermittent windshield wipers

Drive what you really want to drive.

More and more people are choosing a Red Carpet Lease from Ford Credit as an alternative to buying a

new Mercury. That's because a Red Carpet Lease allows a qualified customer to drive a brand-new Mercury more often for a lot less than you'd think. Which means you can afford to drive what you

really want to drive. When you fulfill your lease, you can return the car and lease another brand-new vehicle all over again. Ask for all the benefits of a Red Carpet Lease at your Lincoln-Mercury dealer.

Assurance that travels with you.

Every new Mercury includes the assurance of an emergency Roadside Assistance Program provided by Ford Auto Club, Inc. during the 3-year/36,000-mile bumper-to-bumper warranty period. Help is a toll-free phone call away 24 hours a day, anywhere in the continental United States should you need any towing assistance, fuel delivery, tire change, a jump start or even help when you've locked yourself out of your car. Ask your Lincoln-Mercury dealer for complete details on the Ford Roadside Assistance Program and a copy of the limited warranty.

Capri is equipped with a standard AM/FM stereo radio (1), while an AM/FM stereo radio with cassette (2) is standard in XR2 and available in Capri. Or step up to the optional High-Level audio system (3) which includes an AM stereo/FM stereo radio with cassette and an 80 watt premium amplifier.

PRODUCT CHANGES

Following publication of this catalog, certain changes in standard equipment, options, prices and the like, or product delays, may have occurred which would not be included in these pages. Your Lincoln-Mercury dealer is your best source for up-to-date information. Lincoln-Mercury Division reserves the right to change product specifications at any time without incurring obligations.
