500 STORIES. WITH YOU.

# Introduction

Hi, pleased to meet you. The way you're looking at me, I'd say you can't wait to go out with me. It's only natural, mind you: how could you resist me? I'm colourful and attractive, but also cool, elegant or sporty – however you want me – fashionable, but beyond fashion at the same time. Just like a true icon. Are you ready to explore all my facets? This year, I'm even more high-tech and alluring, with an innovative TFT liquid crystal digital display, all-new interior, three brand-new body colours and three types of alloy wheels never seen before. What more could you possibly want? It's no coincidence that the new trim level I'm offering in the 2014 range is called Cult... that really says it all! Come on, let's get going: you'll see that you couldn't wish for a better travelling companion. You have my word as a 500.

# Cult

## “That’s me: 0% imitation, 500% Cult.”

Do you like things that are beautiful, sophisticated, with a touch of refinement? I do. For example, I adore the smooth feel of the leather that I’ve chosen for my seats and the way that the chrome plating on my details and alloy wheels plays with the light. Not to mention my exclusive glossy black roof (über-chic!) or the innovative 7" digital colour display, stylish enough to make me the envy of all. Because – let’s be clear – of all the 500s, I’m definitely the one with a little bit more. Otherwise, why would they call me Cult?

# Sport

## “With me, life has added S.”

**Sporty, sassy, seductive, sociable. There's always something special hiding inside an S.** With my aerodynamic spoiler, **my new hi-tech fabrics, my new Italia Light Blue**, my gritty 16" alloy rims and my sports steering wheel, you certainly won't go unnoticed. But what makes me truly sexy is that I make everything fun. I think you're just like me, and that's why together we're going to be something big. Ready to eat up the road?

# Lounge

## “A special outfit with a touch of elegance.”

**This is the story of an exceptional day.** Let's celebrate my birthday, or yours, or both together with an exclusive evening. An aperitif with friends, a live jazz concert, or maybe dinner at a bistro in Paris. Why not? And maybe then, when we're tired of worldly pleasures, we can go for a ride in the moonlight, just the two of us. But we have to do things right if we want to be true aristocrats: always behave with style while being at our ease. This is why I chose elegant attire. It is classic but not obvious, and above all it is comfortable. It's called **Lounge. 15" alloy wheels, fine new Prince of Wales check fabrics.** A touch of class that suits me to a T and that I'm sure you're going to love. Come on and tell me, "How pretty you are this evening..."

# Colour Therapy

White mirrors and aerial, hub caps or alloy wheels with an entirely unusual design. These are the exclusive details of the 500 Colour Therapy.

“As far as I’m concerned, joy consists of all of Italy’s colours.”

**What is the shade of joy?** And of happiness? I wouldn’t know what to choose. Perhaps the blue of a clear sky or the yellow of the sun, so warm and full of life. Maybe the colour of a delicious cappuccino that sweetly wakes you in the morning, or perhaps the red of the bricks of the house where we will live together... But one thing is certain. For my part **joy contains all of Italy’s colours:** it’s up to you to decide which is best-suited for us, of all those of my new **Colour Therapy.** Of course, if you want our story to be brimming with passion, red would be ideal. Matching the sunsets we’ll experience together. As for the details, I’ve already decided: **white details that will amaze you with a slight touch of vintage.** What do you reckon?

Colour Therapy is also the 500C, with its fold-away soft top in perfect vintage spirit and super technological solutions: double ply that ensures excellent insulation from the outside, plus glass rear window and spoiler that doubles as a third brake light.

Volare Light Blue, Carrara Grey,  
Sole Yellow, Passione Red,  
Cappuccino Beige. Strokes  
of colour and joy that shoot  
throughout the city.

“...you get the  
urge to colour  
the whole world.”

Here are my five colours. How I do like to see them all together... It's like having a box of new felt-tip pens. You get the urge to colour the whole world. But the colours and surprises are not just on the exterior. Climb into the passenger compartment. Have you already noticed it? **The gear lever knob is matching too, with the centre white. The cherry on the cake.**

# Pop

“Pop spirit and details befitting a star. I like being this way.”

Do you want to know how our first date will go? I already know. **You won't be able to take your eyes off my chrome plating.** That's normal. Everyone looks at what sparkles. No one looks me straight in the headlights. Don't worry, you won't hurt my feelings. I know they're irresistible. I like them, too. **They make me feel like a real Pop Star...** especially when they reflect the flashes of photographers. And if we arrange to meet downtown one Saturday night **with my new Houndstooth interior,** you'll see we'll have plenty of photographers surrounding us. Have you already decided where we'll go for dinner? You choose the place. I'm sure you'll amaze me. I'm thinking about the soundtrack of our trip instead. **My radio CD and MP3 player knows all of today's up-and-coming groups.** It's fantastic. You'll see.

# Technology

“Every journey with me opens up a world of connections.”

Did you feast your eyes on my 7" TFT digital display? It's new! You can try it if you want: as well as being really cool, it keeps all the information you need when driving under control, like the information from the speedometer, the rev counter, the temperature or the Gear Shift Indicator, which suggests when to change gear, and the trip computer, which allows you to alter my set-up in different ways according to distance, instant fuel consumption, range, and so on. Naturally, everything is perfectly integrated with my tried-and-tested Blue&Me TomTom 2 LIVE navigation system, so that you can also see the media player telephone and navigator on the same screen. I took you by surprise, didn't I? But I told you: you can't take your eyes off me ...

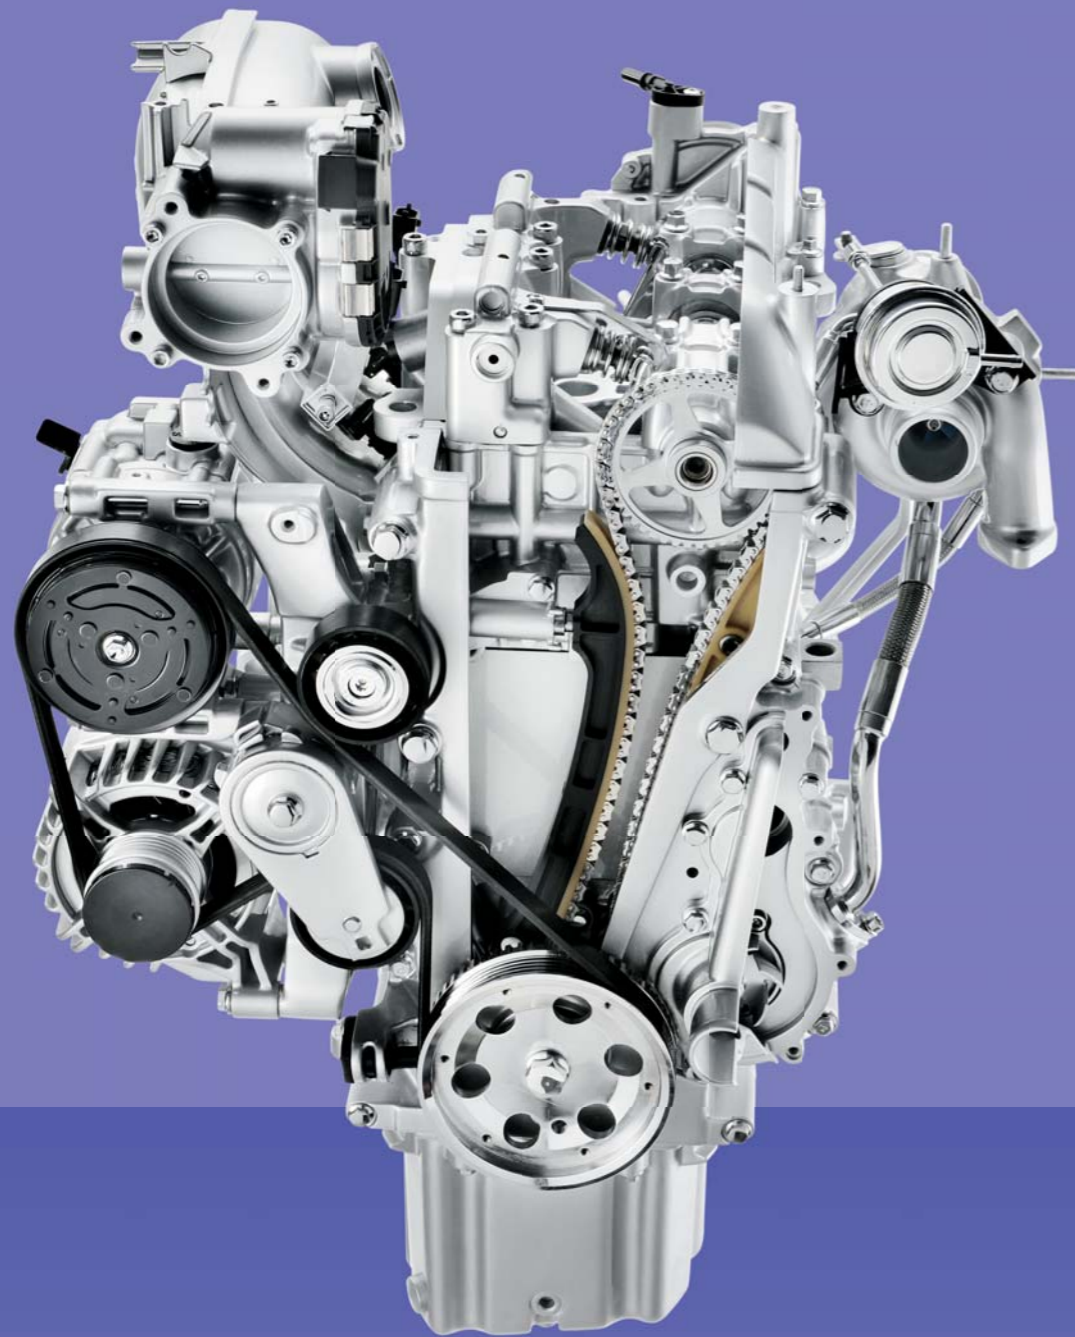

It is some time that I have been thinking about my next trip. I want to cross vast plains and forests, and visit Europe's most beautiful cities. You choose the people to take along. I'll take care of everything we need to get started. First of all, there is the Blue&Me TomTom LIVE, a next-generation portable touchscreen navigation system so you have all the maps you need, with information about traffic, weather forecasts and Local Search in real time. You'll see that you can't do without it. All of the functions are inside of it and it lets you access music, use your mobile phone and navigation system in three different ways: voice commands, steering wheel controls or multitouch display.

Then we need the Interscope Sound System Hi-Fi that will give us top quality sound reproduction. I value listening to my favourite tracks at full volume and in excellent quality. What's missing? A great system for saving on fuel consumption and for respecting the environment is my eco:Drive Info function. This way our drive will be more cost-efficient and eco-friendly.

# Engines

“In addition to style,  
substance counts.”

Now it is time to talk about heart. And I have lots of hearts. Who knows with which one you will fall in love.

First and foremost is the revolutionary, multi-award-winning 0.9 TwinAir (Engine of the year 2013), Fiat's two-cylinder engine that has taken the philosophy of down-sizing to the highest levels: size, reduced emissions and fuel consumption, with greater performance and incredibly satisfying driving pleasure. Now the TwinAir Turbo 85 HP is joined by the powerful new TwinAir Turbo 105 HP, which adopts refined technology like supercharging via high-efficiency turbocharger, the integration of the exhaust manifold in the cylinder head and the brand-new MultiAir 2 intake valve control system. All this means a decidedly spirited character together with low consumption.

Then there are my other three treasures: the 1.2 69 HP, 1.2 EasyPower (LPG/petrol) and 1.3 MultiJet 16v 95 HP engines. I can't say which one is my favourite, even if it should be said that in town the TwinAir pulls out the truly best in me. I become agile, light and responsive, and I'm able to cut fuel consumption up to 15%.

# Safety

## “I’ll admit it: I’m very protective.”

For me, the first rule for a good trip is to make sure it’s a safe trip. So I’ve made sure that I have all the best protection systems myself: 7 airbags, ABS + EBD to stay on top of things when you need to slam on the brakes, ESP + Hill Holder to stay on track in emergencies and set off more easily uphill, HBA boost sudden braking and Hazard device to set the hazard warning lights flashing when you need to stop unexpectedly.

# Customisations.

“I have a real passion for accessories.”

Finally, it's time to talk about Mopar accessories. It is one of the things I like best: personalising my look with a more exuberant, sportier or more feminine touch, depending on the way I feel. And on how you feel. I have a wide range of components that we can characterise together according to our tastes, choosing totally coordinated lines, which is a very chic solution, or single parts.

There is space everywhere for you to run wild and make me more your own: body stickers, key covers, side badges, make-up holders, iPod holders, and even fragrance dispensers for the passenger compartment. I bet you have already stopped reading and are now studying the best combinations.

Mind you, don't forget to take a look at my rims. I have a real collection of them. You know, it is a bit like shoes. The more you have, the more you would like to have.

More care for your car

# Financial services.

**Purchasing your Fiat 500 is a chance to act freely. With SAVA you can choose a payment method which best suits your needs from a wide and appealing range of finance solutions.**

**Instalments.** This is the financial solution that allows you to spread the payment of all or part of your new FIAT over a period ranging from 12 to 72 months, or a part of the purchase of a used car for a period ranging from 12 to 60 months.

**FiatPiù.** This is a sales programme which allows you to have your new Fiat and only pay for what you actually use. At the end of the agreement, you are free to choose between three options: replace your car and buy a new one, keep the car by paying the last remaining instalment or return it after only paying for what you actually used.

**Leasing.** If you are a professional, freelance worker or run your own business, this solution offers you the option of using your car without tying up your capital. You have a choice of contract term (from 24 to 60 months) and advance, plus a flexible final redemption value.

**Sava**, together with the financing, offers a comprehensive range of services that protect you against the unknown; Indelible marking on key vehicle components as a maximum deterrent against theft, the special Fire&Theft, Collision (protection against collisions with other vehicles), Kasko (fully comprehensive insurance) and Prestito Protetto protected loan (e.g. instalment repayment if you lose your job) policies and three types of StradaFacendo Warranty with different coverage for keeping your car in shape.
