WROUGHT IRON FRAME

Elevate curb appeal with **Masonite's Wrought Iron Frame**. Perfect for Mediterranean, Southwestern and Spanish-Modern homes, this frame adds a hint of rustic charm to exterior doors with glass. It's an authentic detail that has a big impact on the overall look and feel of a door—yet it requires little effort to install.

The Wrought Iron Frame is bonded to the glass and door with a special adhesive and finished with powder coating, which means no additional painting or finishing is needed. To ensure years of beauty and performance, Masonite also utilizes a thermal break spacer to prevent extreme exterior temperatures from transferring to the inner surface of a door via the metal frame.

- ▶ Arrives ready to install—no sealant or finishing required
- ▶ Fits all Barrington, Sierra, 2-panel fiberglass doors
- ▶ All sizes available in Tanglewood, and Iron Springs, Decorative Glass
- ▶ 22x36 (106), 22x64 (122), 8x64 (151), 22x48 (404) and 8x80 (852) sizes. Also available in textures: Pear, Chord, Pearl, Double Water, Cross Reed and Quill™.

A dual durometer cap seal overlaps the high dam. Both combine to provide a barrier to air and moisture even in the most extreme weather conditions.

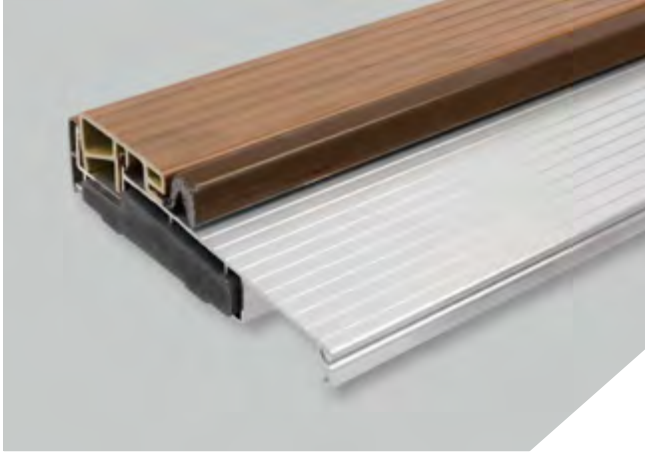

SEALED ADJUSTMENT SCREWS

Dirt and water can get into the exposed screws of other adjustable sills. Patented sealing plugs hide unsightly screws and keep water and dirt away from the adjustment mechanism, maintaining adjustability of the sill cap over time.

FRENCH DOOR SOLUTIONS

ULTIMATE FLIP LEVER ASTRAGAL

Patented Flush Bolt and Floating Boot system eliminates traditional sealing issues, forming a tight seal against the sill cap no matter what.

FLIP LEVER UP

In the upright position, the Floating Boot and Flush Bolt are lifted clear of the sill, allowing for easy operation of the door.

FLIP LEVER DOWN

As Flip Lever is lowered, Floating Boot forms a tight seal against the sill cap while the Flush Bolt secures the unit in place.

MULTI-POINT ASTRAGAL (MPA)

Stop fearing French doors and start experiencing what smarter installations, smarter performance and smarter savings can do for you. Auto-performance, lasting sealing power and ongoing savings come standard.

ACTIVATE FLIP LEVER, ENGAGE FLOATING BOOT

Activating the Flip Lever with a single motion provides easy system sealing - no reaching or bending. The spring-loaded Floating Boot auto-seals to fight infiltration regardless of drill hole depth.

ENGAGE DEADBOLT, ACTIVATE MULTI-POINT LOCK

The Multi-Point Astragal combines the added strength and protection of three secure sealing points to fight against infiltration and deflection. MPA also works with most standard deadbolt packages for enhanced savings.

Many transom shapes exist. Please see Masonite's glass price guide for a complete list with full dimensions.

All dimensions shown are for inswing doors. Deduct 1-1/8" from the actual door unit size, the rough opening size and the outside brickmold size height for outswing. For handicap accessible doors, see product selection detailed in the catalog to determine if the entry door style you have selected is available. Recommended rough openings for the Entry Fit™ adjustable steel frame offering are different than the dimensions shown in this chart (See rough opening chart titled Entry Fit™).

Floor covering can affect rough opening heights. *Height dimensions shown are for 79" and 95" tall doors with 1-3/8" sills. For variations, adjust accordingly.
