DO MORE WITH ORE!

From razor blades to railcars, there's no telling where steel made from these loads of taconite will end up. The engineer on the lone SD9 notches up, a steady hand is a must, and the ground shakes as the engine digs in and shoves empties back to the pellet loader. One track over a road freight pumps up the air on 100 or so rebuilt cars, which will soon be headed to the docks with ton after ton of the marble-sized pellets. With a wide range of power, unique rolling stock and intense operations, the iron ore country holds a special fascination for model railroaders. Bring it to life on your HO layout in minutes with ready-to-run Walther'sProto® locos, Taconite Cars from Walther'sMainline® and loads from SceneMaster™.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

Introducing the **WALTHERSPROTO**

SANTA FE 1954 EL CAPITAN

An all-new version of a legendary name train

Santa Fe's *El Capitan* was the first choice for travelers between Chicago and Los Angeles, reaching new levels of luxury as a conventional streamliner in 1954 when the first "Big Domes" arrived. Capturing the spirit of the 1954 *El Capitan*, our newest HO name train includes four new cars – six authentic models in all – that later served on other Santa Fe streamliners. New 300-Class F7s in full Warbonnet® colors will also be available for an authentic model from start to finish.

Santa Fe 300-Class F7 Diesels – Based on post-1953 engines #300-305

- April 2017 Delivery for all models
- Limited edition – one-time run of these configurations
- Detailed to match post-1953 cosmetic upgrades featuring:
 - Vertical "Farr" type etched stainless grilles

- Door-mounted headlight & Mars light
- 36" dynamic brake fan
- 2 single-chime air horns
- Plated metal & painted finish
- Complete scale fuel tank with skirting, hangers, battery box & underframe detail
