**CANADIAN GREENHOUSE
GROWERS' DIRECTORY
& BUYERS' GUIDE**

Growth like never before

Philips GreenPower LED Toplighting

Light need not be the limiting factor in your growing process. Because the right light—Philips LEDs—can accelerate rooting of your bedding plants. See what Dave Redoutey at Bordine's Farm experienced growing Petunias, Begonias, Geranium, and Dianthus under Philips LED toplighting.

Are you ready to accelerate the rooting process and grow like never before?

innovation ✨ you

2016

**CANADIAN GREENHOUSE
GROWERS' DIRECTORY
& BUYERS' GUIDE**

Flowers Canada Growers Inc. is pleased to present the 2016 edition of the Canadian Greenhouse Growers' Directory & Buyers' Guide. This Directory is designed to help you source Canadian flowers, plants, services, and products from a wide array of flower growers, wholesalers, wholesale distribution centres, and service companies located across Canada.

In this 23rd edition of the Directory, the tools listed below will help you to find the right service you need faster than ever:

• **Regional Listings** – Canadian growers and wholesalers are listed in geographical sections: British Columbia, Alberta, Ontario, and the Maritimes.

• **Export Logo** – Companies exporting to the USA are clearly identified with the dual flag logo.

• **Alphabetical Indexes** – Preceding the listings, indexes will help you quickly find company names listed in alphabetical order along with the page numbers of their listing location.

• **Visual Product Indexes** – We've done our best to improve the Product Index by cross-referencing all floral products, supplies and services listed by each company in the back of the Directory. For your convenience, each category contains the name of the company supplying that product or service, and the page number of their listing.

• **Tagged Maps** - Beginning on page 42, you will find eight pages of maps showing the geographical location of each of the Ontario growers listed in the directory. *The maps are intended to be used as a guide in locating these listings, and are not claimed to be absolute in their accuracy.*

Please mention this directory when contacting or purchasing from these companies.

Flowers Canada Growers Inc. gratefully acknowledges funding provided by Agriculture and Agri-Food Canada through the AgriMarketing Program and the participants of this directory.

The Ontario Greenhouse Alliance

TOGA

The Ontario Greenhouse Alliance (TOGA) works for the common interests of vegetable and floral greenhouse farmers in Ontario.

By providing current information and analysis on sector trends and issues, TOGA contributes to the development of public policy in collaboration with governments.

TOGA seeks outcomes that enable Ontario greenhouse growers to be globally competitive and profitable while contributing to a healthy society.

Did you know that the Ontario greenhouse sector:

- Contributes \$2.6 billion to the Province's economy each year?
- Employs over 20,000 workers in greenhouses and associated packing facilities?
- Generates exports of \$920 million?

www.theontariogreenhousealliance.com

Unit 6, 76 Main St. West, Grimsby, ON, L3M 1R6

the Cecil Delworth Foundation

- Provides grants for specific studies and to education institutions for the benefit of all fields of floriculture: production, wholesale and retail.
- Combines contributions from the floriculture industry for research
- By focusing the areas and direction of studies, the research becomes more valuable to the industry because it meets the priorities determined by members of Flowers Canada Growers Inc.

For more information on Floriculture Research, please contact the Flowers Canada Growers office at 1-519-836-5495

Become an Associate Member and *Promote your company* to **over 325** Canadian floral greenhouse growers!

what it can mean for you

- The ability to represent your company at a variety of FCG events.
- Have one on one conversations with greenhouse owners.
- Learn relevant information in the industry

membership includes:

- A customizable profile on the FCG website
- An invitation to attend a variety of events hosted by FCG which includes AGM's, pest management conferences, workshops, & the annual golf tournament
- Access to a robust statistics resource on flower production in Canada
- Industry information relevant to greenhouse growers and suppliers
- Direct promotion at all FCG events

Annual membership fee : \$575.22 + HST = \$650

The membership that keeps on growing

Flowers Canada Growers Inc.'s mission is to enhance the profitability and competitiveness of Canada's floriculture sector by helping members address common issues, challenges and opportunities to retain and enhance Canada's pre-eminent position in the floriculture industry internationally.

COHA ACHO

Canadian Ornamental
Horticulture Alliance
*Alliance Canadienne de
l'Horticulture Ornementale*

The Canadian Ornamental Horticultural Alliance (COHA) is the unified voice that represents and promotes the sustainable priorities of Canadian Ornamental Horticulture. It is COHA's mission to coordinate industry action, contribute to effective public policy and speak with one voice on issues of concern to the sector as a whole.

COHA is a strategic alliance of three organizations:

- the Canadian Nursery Landscape Association (CNLA)
- the Fédération Interdisciplinaire de l'Horticulture Ornementale du Québec (FIHOQ)
- Flowers Canada Growers Inc. (FCG)

Working together to overcome obstacles and create opportunities for the industry to grow by creating partnerships with the Government of Canada.

pickOntario

Freshness. Quality. Local.

pickOntario is a marketing initiative aimed to raise awareness, interest and demand for Ontario-grown cut flowers and potted plants on behalf of the flower growers of Ontario.

Over 200 floriculture greenhouses are located in Ontario, which employ more than 7,000 staff, and produce over 1000 different varieties of cut flowers and potted plants. These greenhouses use the latest in technology & growing techniques to ensure their products are delivered fresh to local retail establishments, daily.

What can pickOntario do for you?

In today's market, more and more people are making the conscious choice to buy local. By labeling your pots and sleeves with the pickOntario logo, you are helping consumers identify and choose fresh, local, quality product.

Help us spread the word

Growers can co-brand with pickOntario on their packaging and labels.

Retailers can use pickOntario branded materials in their stores.

Greenhouse Size: 72,000 sq. ft., 6,700 sq. meters

Product/Service: CosMic Plants produces quality Phalaenopsis Orchids in various sizes and shapes, for floral wholesalers, flower shops, garden centers, event planners, interior scapers and high end chain stores. With production all year round in greenhouses, equipped with the latest technologies, CosMic Plants is your preferred supplier of Phalaenopsis Orchids. We believe in sustainable business practices and in producing close to our markets (local for local). In that sense we consider Toronto, Montreal, Quebec City, Boston, New York, Detroit, Chicago and everything in between as our backyard. We do not import half-grown plants from Taiwan or Florida, but grow our Orchids from a small rooted cutting to a flowering plant right here in Beamsville, the heart of Niagara wine country. In doing so we have better control over the quality and colour assortment. Our Orchids are ideal for events and interior scapes as their gorgeous and massive display of flowers lasts for months.

ONfloriculture
www.onfloriculture.wordpress.com

With contributions made by OMAFRA specialists, the ONfloriculture blog is an excellent resource for Ontario greenhouse floriculture growers, providing timely, technical information to produce the best crops.

ONfloriculture covers information on:

- Integrated management of insects and diseases
- News on the latest research and pest issues
- Production issues and solutions
- Industry events
- Links to other resources

Relations Manager

Year Established: 1988

Product/Service: Ag Energy is an independent farmer-owned co-operative formed in 1988 to provide energy management and procurement services for producers and processors of agricultural products in Ontario. The co-op is well positioned to service your natural gas and electricity needs. Economies of scale in purchasing allow the co-op to offer flexible natural gas and electricity programs to all medium and large volume consumers.

Product/Service: Argus provides advanced climate control systems that are customized to each grower's requirements and are adaptable to their changing needs, enabling them to operate their facilities exactly the way they want. With over thirty years of innovation in controls technology, Argus systems are used throughout the world to control complex facilities for horticulture and agriculture and biotechnology research. Our control solutions feature comprehensive realtime monitoring and historical trend analysis designed to provide growers a full understanding of their facility and growth processes. We provide intuitive and intelligent control of climates, irrigation and nutrients that help optimize plant production. With a modular component design that ensures unlimited expansion options, clients never outgrow their Argus system. In addition to using only greenhouse hardened components proven for long-life and trouble free operation, our organization is configured to provide full service support and rapid response times - whenever it's needed.

Website: www.philips.com/horti

Mailing Address: 281 Hillmount Road
Markham ON, L6C 2S3

Contact: Ron DeKok, Business Development Director,
North America

Product/Service: Light is an important horticultural production tool and a key factor in plant research. LEDs (light-emitting diodes) are set to play a major role in horticultural lighting. With LED lighting, the growth light - spectral output - can be tuned, which makes it possible to apply the optimum 'light recipe' at every stage of a crop's growth. This capability, together with effective heat management, long lifetime, high luminous efficiency and energy efficiency, opens up tremendous opportunities for growers and breeders. For the commercial horticulture market this means increased yield, early flowering, faster (root) growth, and more economical use of space. Philips can design a tailored LED growth light that is most suitable for the growth of a particular plant. While producing light, LEDs generate less heat, making temperature control in the plant space easier and more economical. At the same time, LEDs can be installed near plants, to increase planting area in limited spaces. LED lighting- bringing new opportunities to horticulture.

Year Established: 2007

Product/Service: Located in the Niagara Region, Vineland Research and Innovation Centre is a world-class research centre dedicated to horticultural science and innovation. Our researchers in Applied Genomics, Consumer Insights and Horticultural Production Systems deliver innovative products and production solutions that address the needs of the horticulture industry and advance Canada's research and commercialization agenda. We are an independent, not-for-profit organization, funded in part by Growing Forward 2, a federal-provincial-territorial initiative. Vineland's new pre-commercial greenhouse will create a space that brings companies, industry and researchers together to foster collaboration and drive economic growth by bridging the gap between innovation and commercialization.

Discover the many paths to innovation at
Vineland Research and Innovation Centre.

New pre-commercial greenhouse opening soon.

Improve Data Collection
Improve Communication
Improve Your Business

Let's face it, running a greenhouse is hard work. Between monitoring the crops, scheduling deliveries, hunting down your carts, and even worrying about the product's success in-store, there's no spare time and certainly no room for error. Let ET Grow simplify your life. Our horticultural-based software takes care of all these headaches for you by tracking all of this data in one central solution.

Easy to use and accessible by computer or smartphone, you can check in on your business anytime, from anywhere.

Start your 30-day trial today!

Proudly brought to you by
