TELEPHONE DIRECTORY

MARCH 1, 1910

NEW YORK TELEPHONE COMPANY

17 EAST AVENUE, ROCHESTER, N. Y.

ADDRESS ALL COMMUNICATIONS TO THE COMPANY

COPYRIGHT 1910 BY NEW YORK TELEPHONE COMPANY

RULES AND REGULATIONS.

1. If the service is interrupted otherwise than by the negligence or wilful interference of the subscriber, a pro rata rebate shall be made for the time such interruption continues, but no other liability shall in any case attach to the Company.

2. The instruments and lines shall be carefully used, and no instrument or appliance not furnished by the Company shall be attached to or used in connection with them.

3. For the purpose of inspecting, repairing or removing the instruments or lines, the Company and its agents may have access thereto at any reasonable time.

4. A local message shall be a personal communication of five minutes or less in duration, from the subscriber's station to another station connected with the Exchange of the Company in same city. The Company reserves the right to discontinue a local connection at the end of five minutes.

5. A foreign message shall be a personal communication of such duration as is now or may be established from the subscriber's station to a station connected with any exchange outside of the city in which the subscriber's station is located.

6. Either party may terminate the contract under which telephone service is furnished at or after the expiration of the first year, by not less than thirty days' previous notice in writing to the other party.

7. The Company shall not be liable for any error or omission in the official directory of its subscribers.

8. No profane or obscene language will be tolerated over the lines of the Company and the Company reserves the right to remove the lines and instruments without notice for any violation of this rule.

9. Upon non-payment of any sum due, the abandonment of the station, or any violation of these rules and regulations, the Company may, without notice, terminate the subscriber's rights, sever the connection and remove the instruments without prejudice to its rights to receive any and all sums due from the subscriber.

IMPORTANT ANNOUNCEMENTS.

LOCAL CONNECTIONS.

Please give the name of station as well as the number wanted in a clear and distinct tone, thus — *Main-one-four-seven-two-party-R*. The operator will repeat number back to you and immediately connect you with the number, or notify you if the line is busy.

PARTY LINE NUMBERS.

The operator is compelled to ask your number when you call from a party line telephone. In replying it is important that you always designate the accompanying letter, thus — *Main-one-four-seven-two-party-R*.

HOW TO GET YOUR TELEPHONE MOVED.

If you wish your telephone moved, please write or telephone the Company. Ten days' notice of intention to move is respectfully requested.

IDENTIFICATION OF EMPLOYEES.

Employees who are authorized to install, examine, exchange, or remove any of the Telephone Company's apparatus, are furnished with a metal badge showing the Company's name and number. Subscribers are earnestly requested to refuse access to their premises to applicants unable to furnish proper identification.

All employees of this Company authorized to make *collections*, are provided with photographic passes bearing the number and the signature of the District Manager of the Company. Please admit no one claiming to be a collector of this Company if he fails to produce his pass upon request.

TOLL LINE CONNECTIONS.

To the operator's answer to your call, please say "Toll Operator." You will then be given the Toll Operator who will say; "Toll Operator." Please give "Toll Operator" the name of person and place you wish, with your own name and telephone number, and the connection will be given as soon as possible.

When a particular person is desired, the name should be given with the call as charge will be made from the time station asked for is connected.

For rates and information regarding toll connections call "Information Operator."

OFFICIAL LOCAL CALLS FREE.

Complaint or other official *local* calls from an exchange station to any department of this Company may be made without charge.

TELEGRAMS BY TELEPHONE.

Subscribers will be connected with the local offices of the Telegraph Companies for the purpose of sending despatches, but they must first arrange with the Telegraph Companies, by personal application at the latter's offices, for the reception and transmission of telegrams and payment of the charges.

Messages received by the Telegraph Companies, addressed to local subscribers of the Telephone Company, can be transmitted to such subscribers from the telephones placed in the Telegraph Company's offices, without additional charge to the subscribers. If subscribers desire that telegraph messages addressed to them be delivered by telephone, they should make application to the Telegraph Companies for such delivery. The Telephone Company assumes no responsibility for the correct transmission of the messages, and does not collect the telegraph charges.

REPEATING MESSAGES.

This Company furnishes its facilities for personal communication between parties. All repetition or assistance by the operator is made only upon the distinct understanding that the Company will not be responsible for error, and that the person repeating or assisting does so as the agent of the sender of the message.

FIRE AND POLICE CALLS.

It is not necessary to give the number for calls to the "Fire Headquarters" or "Police Headquarters."

INSTRUCTIONS FOR USING THE TELEPHONE.

Subscribers can facilitate the telephone service by observation of the following suggestions:

USE THE TELEPHONE DIRECTORY. An attempt to remember a telephone number frequently results in a wrong number connection. Telephone numbers found on letter heads and cards are often erroneous, and should be verified by reference to the current issue of the Telephone Directory.

WHEN CALLING a Telephone Number give each figure separately. For example—Main 1472 should be given as *Main-one-four-seven-two*.

SPEAK DISTINCTLY, in a moderate tone and directly into the transmitter with the lips close to the mouthpiece.

WHEN THROUGH TALKING hang up the receiver, large end down. A receiver left off the

IMPORTANT ANNOUNCEMENTS—CONTINUED.

hook keeps the line busy and causes "Busy" or "Out-of-Order" reports to be made to calling parties.

ANSWER ALL CALLS IMMEDIATELY. Delay in answering may result in the loss of business or in annoyance and inconvenience to the person who is making the call.

If difficulty is experienced with the instrument or service, notify the **DISTRICT TRAFFIC CHIEF**, using another telephone if necessary.

COMPLAINTS AND INQUIRIES.

Operators are required to be courteous in their dealings with subscribers, but are forbidden to hold any conversation beyond that necessary to complete the connections. To make inquiries concerning telephone numbers of new subscribers or other matters directly related to the telephone service, call for the "Information Operator."

Complaints of service, etc., should be communicated by telephone to the **DISTRICT TRAFFIC CHIEF**.

Written communications should be addressed to the Company.

EXTRACT FROM PENAL CODE.

Extract from Section 641 of the Penal Code, in effect May 3, 1901:

"A person who either wrongfully obtains or attempts to obtain any knowledge of a telegraphic or telephonic message by connivance with a clerk, operator, messenger, or any other employe of a Telegraph or Telephone Company * * * or, being such employe willfully divulge to anyone but the persons for whom it was intended, the contents or nature thereof of a telegraphic or telephonic message or despatch intrusted to him for transmission or delivery, or of which contents he may in any manner become possessed, * * * is punishable by a fine of not more than one thousand dollars or by imprisonment for not more than two years, or by both such fine and imprisonment."

Classified Directory

MARCH, 1910

COMPLETE CLASSIFIED LISTS OF ROCHESTER BUSINESS HOUSES WHO ARE SUBSCRIBERS TO THE NEW YORK TELEPHONE COMPANY'S SERVICE, ARRANGED IN ALPHABETICAL ORDER UNDER THEIR RESPECTIVE BUSINESS HEADINGS

REUBEN H. DONNELLEY, PUBLISHER

32 ST. PAUL STREET

TELEPHONE MAIN 568

Telephone Directory Advertising

Compare it with other mediums and
you will find that its
Unique Value

is founded on the fact that it gets inside the office door, and into the home, reaches the business man and the housewife. Magazines and newspapers do this—but they are short lived. The telephone directory gets there and stays there—is on duty day and night and every day in the year.

This telephone directory is given free of charge to the subscribers now connected with the Rochester Exchange, and is used not only by them, but thousands of messages are sent annually by non-subscribers from public pay stations.

If you are interested apply to

Adequate Telephone Facilities or Mere Telephone Connection

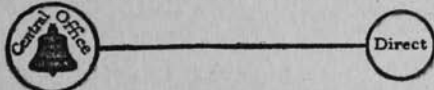

So much business is being done today by telephone that it is not sufficient for a merchant simply to be connected with the telephone system. He must have sufficient telephone equipment so that buyers can reach him promptly by telephone. Orders will be lost if customers frequently find it difficult to reach him on account of his telephone lines being constantly busy. It is not a question as to whether the merchant's telephone equipment is sufficient for his own outgoing messages. It is a question of the gain or loss of trade because customers can or cannot always give him orders when they wish. Following are simple explanations of the various classes of telephone service which are designed to help you in selecting the form of telephone service best suited to your needs.

The above is a simplified diagram of a 4 party telephone circuit. The plain fact in regard to 4 party service is that there are four telephones on one line and only one telephone can be used at a time. If party L is making or receiving a call, parties J, R and W can neither receive nor make calls. Party line subscribers have the same telephone equipment as all other subscribers, and receive the same attention at the central office. This service is designed for people who have but little use for telephone service. It is intended mainly to be used in residences and, as a rule, is not an adequate service for a live business establishment.

The above is a diagram of a 2 party telephone circuit. It can be seen that this service is an improvement over the 4 party service, although there are still two parties sharing a telephone circuit.

The above is a diagram of direct line telephone service, which is a good form of telephone service for the average business house. With direct line service, the line is never busy unless the subscriber uses it himself. A direct line will carry a considerable number of messages each day without frequently being found busy by customers desiring to give orders.

The above is a diagram of Private Branch Exchange telephone service. This is the best telephone service available. Incoming and outgoing messages can be sent and received simultaneously. As business increases, extra lines can be added (see dotted lines). This service can be increased to handle any quantity of business without delay. For complete information regarding this type of service, ask for our Private Branch Exchange booklet.

It is very easy to lose a customer because he is told repeatedly that "the line is busy." Business houses with "adequate telephone facilities" are constantly taking customers away from concerns with "mere telephone connection." The difference in cost between party line and direct line telephone service, or even Private Branch Exchange service, is so little that no merchant can afford to run the risk of losing customers through neglecting to provide the proper service for his business. On request we shall be glad to watch your line and inform you as to the number of times it is "busy" each day. It will do no harm to have this information, and it may prove of great value to you. In asking for this information, you will place yourself under no obligation to us. Call our nearest contract or business office.
