## PROGRAM OF ADVANCES FOR PUBLIC WORKS PLANNING

## TERMS AND CONDITIONS

JULY 1960

1. The applicant shall not use the advance, or any portion thereof, to defray the cost of any part of the plan preparation which, prior to the date borne by the offer to which these Terms and Conditions related, has been performed or has been included in any contract in which the applicant has agreed to finance such plan preparation with any specific funds other than those to be supplied by the Government.
2. The plan preparation to be paid for with the advance shall be limited to the project for which the advance is made, and the applicant shall cause the plan preparation to be such as will permit of the construction of the work contemplated thereby at a cost which is within its ability to finance and which bears a reasonable relation to the estimate of cost therefor contained in its application for an Advance for Public Works Planning.
3. If data obtained during plan preparation indicate that unforeseen conditions will increase the cost of the public work substantially beyond the original estimate, the applicant shall suspend plan preparation and notify the Government as soon as possible.
4. The applicant shall not perform the plan preparation with its own forces except (A) as shown in its application, or (B) as may be approved by the Government at the applicant's request prior to performance of the work.
5. In the event the Government has approved the use of the applicant's own employees to accomplish the plan preparation, only those costs incurred by the applicant for the plan preparation which would not have been incurred except for the undertaking of the plan preparation shall be paid from the Government's advance.
6. The applicant shall keep accurate accounting records of all costs involved in connection with each advance. The accounts and records of the applicant, together with all supporting documents, must be open at all times to inspection by authorized representatives of the HHFA, and copies furnished when requested. The applicant shall furnish a copy of any contract entered into

in connection with plan preparation immediately upon execution thereof.

7. The applicant shall establish a separate planning account into which shall be placed all Federal funds estimated to be required for plan preparation, together with any of the applicant's own funds to cover that portion of the plan preparation cost not covered by the Federal advance.

8. The advance may be requisitioned when plan preparation is completed and presented to the Government, together with evidence of the applicant's approval thereof, including specifically the then estimated cost of constructing the public work contemplated by plan preparation, and any other approvals required by Federal, State or local law. Upon receipt of such data, in satisfactory form, and if the Government is satisfied that the applicant has complied with all its obligations under the said Agreement, the full advance but not exceeding the actual plan preparation cost will be paid.

Interim payments may be made if the Government finds such interim payments are justified to insure prompt completion of plans.

9. The Government may elect to terminate all or any of its obligations under the said Agreement:

(a) If any representation of the applicant, in its application or in any supplement thereto or amendment thereof, or in any documents submitted to the Government by the applicant in connection with such application, shall be incorrect or incomplete in any material respect;

(b) If the applicant shall fail to commence promptly or complete the plan preparation within the time provided therefor in the Agreement or within the limits of any extension of time as may be approved by the Government, or if the applicant shall fail otherwise in the performance or fulfillment of any of its obligations to be performed or fulfilled under the Agreement;

(c) If the applicant shall fail to submit or cause to be submitted to the Government any reports, data, plans, drawings, specifications, contracts, estimates, approvals, or other documents pertaining to the plan preparation contemplated by the Agreement, that may be requested by the Government;

(d) If any official of the applicant shall become directly or indirectly interested personally in any contract or subcontract in connection with the aforesaid plan preparation.

(10) In the event the applicant has employed or shall employ any person, firm, or corporation, excepting bona fide employees and persons, firms, or corporations employed under a bona fide contract to render professional or technical services only, to solicit or secure the advance covered by the Agreement to which these Terms and Conditions relate, or any other contract right under such Agreement, upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, the Government shall have the right to annul said Agreement without liability or in its discretion to deduct from the advance otherwise payable under the Agreement the full amount of such commission, percentage, brokerage, or contingent fee.

(11) The advance shall be repaid promptly upon the start of construction of the public work contemplated in the planning report. Construction shall be considered as undertaken or started when the first construction contract is awarded or the applicant begins construction with its own forces. If construction of only a portion of the planned work is undertaken, repayment is required of such proportionate amount of the advance related to the work as the Administrator determines to be equitable.

(12) In the event the applicant should, for any reason, fail to repay promptly the advance in full in accordance with its obligation under this Agreement, whether such obligation shall arise by operation of law or under the said Agreement, such unpaid sum shall bear interest at the rate of four per centum from the date of the Government's demand to the applicant for the repayment to the date of payment thereof by the applicant.

(13) The Government shall not be obligated or liable under the Agreement to any party other than the applicant.

(14) No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of the government's advance or in any benefit arising therefrom.

76711-KETCHINGS, NATCHEZ

15. The applicant may terminate the Agreement at any time prior to the Government's payment of any portion of the advance by written notice to the Government of such termination. In such event, the Government will be relieved of all its obligations under the Agreement. If the applicant terminates the Agreement after receiving any portion of the advance, it shall promptly refund to the Government the portion of the advance that has been paid by the Government unless the abandonment is concurred in by the Government.

The following petition was presented to the Mayor and Board of Aldermen:

909 Buchanan Avenue  
Oxford, Mississippi  
March 1, 1963

Honorable Mayor and Board of Aldermen  
Oxford  
Mississippi

Gentlemen:

This is to request that you convey unto me a quit claim deed for that part of 7th Street lying between the north line of Lincoln Avenue and the north line of Buchanan Avenue and being between Lots 57 and 52. Said part of 7th Street is undeveloped and there appears little likelihood that it ever will be developed due to the roughness of the terrain. I own the property on both sides of said street between Buchanan Avenue and Lincoln Avenue.

It is my understanding that part of this street has been previously deeded to individuals.

Very truly yours,

/s/ J. Barry Brown

RESOLUTION APPROVING THE COMPLETED PLANNING DOCUMENTS PREPARED WITH AN ADVANCE FROM THE UNITED STATES OF AMERICA UNDER THE TERMS OF PUBLIC LAW 560, 83RD CONGRESS OF THE UNITED STATES, AS AMENDED.

WHEREAS, the City of Oxford, Mississippi accepted an offer from the United States Government for an advance for preparation of planning documents pertaining to a public work described as water and sewer facilities improvements; and

WHEREAS, Allen and Hoshall, Consulting Engineers was engaged to prepare the planning documents for the aforesaid public work, and said architect and/or engineer has completed documents and submitted them for approval; and

NOW, THEREFORE, be it resolved by the Mayor and Board of Aldermen, the governing body of said applicant, that the planning documents submitted by Allen & Hoshall as the basis for detailed planning of the improvements in the City of Oxford water and sewerage facilities dated March 8, 1963, and the statements in Form CFA-430, Request for Review and Approval of Planning Documents, in connection with Housing and Home Finance Agency Project No. P-Miss-3062

be and the same are hereby approved; and that certified copies of this resolution be filed with the Housing and Home Finance Agency.

Motion was duly made, seconded and passed unanimously that the Mayor is hereby authorized and directed to execute the following easement in behalf of the City of Oxford:

STATE OF MISSISSIPPI  
COUNTY OF LAFAYETTE

#### EASEMENT

Whereas the United States of America owns certain property in the Southwest Quarter of Section 29, Township 8 South, Range 3 West, in the County of Lafayette, State of Mississippi known as the Ayles property and shown on the attached plat marked exhibit "A" which is incorporated herein, by reference which property is indicated on said map as "proposed Troop housing site;" and,

Whereas, Charles C. Hathorn owns a certain water line or water system that crosses the Illinois Central Railroad right of way at a point north of Chambers Manufacturing Company and then runs along the Northern and Western portion of the Illinois Central Railroad right of way; and,

Whereas, the United States Government plans to temporarily house about 300 troops on their property above referred to and it is necessary that they secure water facilities for this area; and,

Whereas, the water system above referred to as belonging to Charles C. Hathorn is connected to the water system of the City of Oxford, Mississippi; and,

Whereas, it would be necessary to obtain the permission of both Charles C. Hathorn and the City of Oxford to use said line and to obtain water from the City of Oxford; and,

Whereas, the City of Oxford, is agreeable to furnishing water to said area on the strict understanding that the water supply system of said city is now in a critical condition, and the furnishing of such water may overload said system under certain circumstances; and,

Now, therefore, for and in consideration of the premises and \$10.00 cash in hand paid, and other good and valuable considerations, the said Charles C. Hathorn does agree that the United States of America may attach a 2-inch line to a "T" connection already in place at a point adjoining the property belonging to the United States Government, and that the government shall pay all expense of connecting said line and installing same to its troop area; and,

The City of Oxford does agree for the connection to be made upon the express condition that a water meter be installed by the City of Oxford at the point of connection, said meter and installation to be paid for by the government at the usual rate charged for such installation and connection and said water to be sold to the United States at the regular commercial water rates plus 25% which is the usual fee outside of the City of Oxford.

This agreement is executed upon the understanding and it is a condition precedent to the execution of this agreement that such service is of a temporary nature or character and that said facilities are to be used only by the Military installation and by no other agency of the United States of America or anyone else and if said installation should be substantially increased in size or said installation is no longer maintained then this agreement is to become null and void.

MINUTE BOOK No. 20, CITY OF OXFORD

76711—ETCHINGS, NATCHEZ

It is also understood and agreed by and between the parties hereto that the duty of the City of Oxford and of Charles C. Hathorn is to their regular customers and in the event the system should at any time become over loaded, the city reserves the right to discontinue the furnishing of water.

It is also understood and agreed by and between the parties hereto that if the use of the water by the United States of America results in a lowering of pressure or otherwise interferes with flow of water to regular customers beyond the point where the connection is made that the government will take such steps as are necessary to rectify the situation.

The installation of said facilities is to be by Powell Brothers, Inc., who are to be paid for their services at a price to be agreed upon between the Powell Brothers and the Government.

If any additional right of way other than that already granted to Charles C. Hathorn must be secured then the responsibility for securing permission from the Illinois Central Railroad to use their right of way from the "T" connection above referred to the land of the government is the responsibility of the government.

This agreement entered into this the 7th day of March, 1963.

ASSISTANCE IS NOT RECEIVED FROM THE HOUS-

WHEREAS, the Housing and Home Finance Agency, through its Regional Director, Mr. James A. Adkisson, has requested the Mayor and Board of Aldermen of the City of Oxford to pass a resolution reciting when Project No. APW-Miss-72G, or any portion thereof, would be constructed without grant assistance and if the project or any portion thereof, would be constructed on the same schedule as presently proposed (during fiscal year ending 1964) stating in what respect the City's capital improvement expenditures will be increased during the fiscal year in which this project will be constructed.

NOW, THEREFORE, be it resolved that in the event the City of Oxford does not receive such a grant that none of the proposed work is contemplated as being constructed during fiscal year ending 1964, and in the event a final determination is made denying a grant to the City of Oxford, then at that time a study will be made as to which, if any of said improvements can be made by the City which improvements, if any, will be on a much smaller scale and over a much longer period of time,

Therefore, if the subject grant were made available to the City of Oxford, the City's capital improvement expenditures for Water and Sewer Facilities during fiscal year 1964 would be increased by the total cost of the proposed project (including grant and matching funds), or approximately \$1,104,000.00.

WHEREAS, on the 2nd day of April, 1963, at a regular meeting of the Mayor and Board of Aldermen of the City of Oxford, Mississippi, a resolution was duly passed declaring the grading, graveling, paving and laying of curbs and gutters and sanitary and storm sewers, water mains, drains and covered ditches and lead pipe water connections on the following streets or parts of streets located in the City of Oxford, Mississippi, particularly described as follows, to-wit: Bramlett Boulevard from the South boundary of Part I of Bramlett Gardens Subdivision to Jackson Avenue, Jackson Avenue from Bramlett from Bramlett Boulevard to South 18th Street, South 18th Street from Jackson Avenue to University Avenue, all of

the Streets in Avent Park Hills Subdivision, all of Haley Street, Lawson Street and Short Street in Southern Hills Subdivision and Jeff Davis Road and Thomas Street, all in the City of Oxford, Mississippi; necessary and finding that such improvements required an unusual outlay for which the general improvement fund should not be used, and;

WHEREAS, the City Clerk published said resolution in the Oxford Eagle, a public newspaper having a general circulation in the City of Oxford, Mississippi once a week for three successive weeks on the following dates, to-wit: April 11, 18 and 25th, 1963, and;

WHEREAS, the said governing authority now finds that only the following streets in Avent Park Hills Subdivision should be improved at this time: Webb Street from Thomas Street to its intersection with Murray Street, Murray Street from its intersection with Webb Street to its intersection with Sisk Avenue, and does further find that the plans and specifications prepared by the City Engineer for the construction of Bramlett Boulevard from the South Boundary of Part I of Bramlett Gardens Subdivision to Jackson Avenue should be revised to provide for a 36 foot street instead of a 40 foot street except that part of said street in front of the new high school which shall be 40 foot in width at that point; and,

WHEREAS, said Governing Authority adjudges that said special improvements be made as provided in said resolution declaring necessary except as set forth in the immediate preceding paragraph and adjudges that the property owners whose property abuts on said streets shall pay the entire cost of all curbs and water and sewer connections and two thirds of the cost of the other improvements herein authorized to be constructed; and that the City of Oxford, Mississippi shall pay one-third of the cost of the special improvements herein authorized to be constructed except the cost of curbs and gutters and water and sewer connections which are to be paid for by the abutting property owners, and except that the City shall pay the entire cost of the sanitary sewer and water mains, and except that the City shall pay the entire cost of the sidewalks on Bramlett Boulevard.

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND BOARD OF ALDERMEN OF THE CITY OF OXFORD, MISSISSIPPI, AS FOLLOWS:

tion or provision, and the taxing power of said City is not pledged to the payment of any of the bonds authorized, either as to principal or interest.

SECTION 6. That the City of Oxford, acting by and through the Mayor and Board of Aldermen thereof, its governing authority, hereby covenants and pledges with the holders of said bonds as follows:

(a) That it will enlarge, improve, and extend the electric distribution system of said City of Oxford, as described in the preamble hereto, and that as long as any of the bonds or interest coupons authorized hereby are outstanding it will operate and maintain said electric distribution system as so extended and improved.

(b) That, during the life of said bonds, the City of Oxford will fix and maintain rates and make and collect charges for the services and facilities of said electric distribution system as so extended and improved, without regard to the user thereof, sufficient to provide for the payment of the principal of and the interest on said bonds as the same shall mature and accrue, to provide for the operation and maintenance of said system in good repair and working order, and to provide a reasonable sum for depreciation. The rates in force at the time of the issuance of the bonds authorized hereby shall be revised promptly if the revenues of said electric distribution system shall be insufficient at any time to provide all sums required by this ordinance.

(c) That, as long as any of said bonds or the interest coupons shall remain outstanding, the said City shall carry and maintain fire and windstorm insurance upon all of the buildings forming a part of said electric distribution system, shall further carry and maintain adequate public liability insurance, and shall further carry and maintain upon all property and equipment of said electric distribution system other than buildings, which may be of an insurable nature, insurance of the type and kind carried and maintained by utility companies, privately or municipally owned, rendering services of a similar character in similar communities in the State of Mississippi. All such insurance shall be taken for the benefit of the holders of the bonds of said City which are payable from the revenues of said electric distribution system and shall be in such amounts as are customarily carried by public utility companies in similar circumstances. The proceeds of all such insurance, except public liability insurance, shall be deposited, when received, in the ELECTRIC LIGHT FUND referred to in Section 7 of this ordinance, and shall be used only for the maintenance and restoration of said electric distribution system, or for the payment of the principal of and the interest on the bonds above mentioned.

(d) That as long as any of said bonds are outstanding, the City of Oxford shall not issue any additional bonds payable from the revenues of said system, except upon one of the following conditions:

(1) Unless such bonds expressly shall be made junior and subordinate in all respects to the bonds herein authorized to be issued; or

(2) Unless the actual revenues of the electric distribution system for the last three (3) completed fiscal years prior to the issuance of such additional bonds shall have been sufficient, after the deduction of all expenses of operation and maintenance, to provide an average annual sum equal to or exceeding the total of the following amounts: (i) 120% of the greatest amount that will come due in any fiscal year as principal of and interest on all then outstanding bonds of said City which are payable from the revenues of said electric distribution system, plus (ii) 120% of the greatest amount which will come due in any fiscal year as principal of and interest on such additional bonds during their term, in which event additional bonds may be issued on a parity with the bonds herein directed to be issued.

(e) That proper books of records and accounts (separate from all other records and accounts) shall be kept, in which complete and correct entries shall be made of all transactions relating to said electric distribution system, and said City shall furnish to any holder of any of said bonds, upon written request not more than thirty (30) days after the close of each fiscal year, complete operating and income statements of said system covering such period.

(f) That any holder or holders or any purchaser of not less than twenty-five per centum (25%) in principal amount of said bonds then outstanding shall be permitted to inspect at all reasonable time said electric distribution system and all records, accounts, and data relating thereto.

(g) That any holder or holders or any purchaser of twenty-five per centum (25%) in principal amount of said bonds then outstanding shall be furnished all data and information relating to said electric distribution system which reasonably may be requested.

SECTION 7. That from and after the delivery of any bonds issued hereunder, and as long as any of said bonds shall be outstanding, the said electric distribution system shall continue to be operated on a fiscal year basis, commencing on the first day of July in each year and ending on the last day of June in each year, and the income and revenues of said system shall continue to be set aside and deposited in a Fund which is designated the "ELECTRIC LIGHT FUND". Moneys in said Fund shall be set aside for, allocated to, and deposited in the following separate and special funds:

(a) Into a Fund designated the "ELECTRIC INTEREST AND BOND REDEMPTION FUND" sums sufficient for the payment of the principal of and the interest on said bonds which will accrue during such fiscal year. Such allocation and deposit shall be in addition to the allocation and deposit required to be made for the payment of principal of and interest on the Electric Revenue Bonds, Series 1950, and the Electric Plant Revenue Bonds, Series 1958, and said Fund shall be used only for the payment of the principal of and the interest on the bonds herein authorized to be issued and the said Electric Revenue Bonds, Series 1950 and the said Electric Plant Revenue Bonds, Series 1958.

(b) Into a Fund designated the "ELECTRIC OPERATION AND MAINTENANCE FUND" sums sufficient to provide for the payment of reasonable expenses of operation and reasonable expenses of maintaining said electric distribution system in good repair and working order.

(c) Into a Fund designated the "ELECTRIC CONTINGENT FUND" the sum of One Thousand Dollars (\$1,000) per annum until such time as the amount so deposited in said Fund shall aggregate the sum of Ten Thousand Dollars (\$10,000), at which figure the said Fund thereafter shall be maintained by such future deposits as from time to time may be necessary to maintain said balance of Ten Thousand Dollars (\$10,000) in said Fund. The said Fund shall be used for the purpose of providing for major repairs, replacements, extensions, additions to, and improvements of said electric distribution system. Any sum or sums so withdrawn from said Fund shall be restored thereto out of revenues thereafter received.

(d) Into a Fund designated the "ELECTRIC BOND RESERVE FUND" the sum of Five Thousand Dollars (\$5,000) per annum until such time as the amount so deposited in said Fund shall aggregate the sum of Fifty Thousand Dollars (\$50,000), at which figure the said Fund thereafter shall be maintained by such future deposits as from time to time may be necessary to maintain said balance of Fifty Thousand Dollars (\$50,000) in said Fund. The said Fund shall be used solely and only to supplement the Interest and Bond Redemption Fund if and when necessary promptly to pay the bonds herein authorized to be issued and the interest thereon when due. Any sum or sums so withdrawn from said Reserve Fund shall be restored thereto out of revenues thereafter received.

26711—KETCHINGS, NATCHEZ

Any surplus remaining in the Electric Light Fund, after making the allocations and deposits above provided for, and after the Contingent Fund and the Reserve Fund shall have been established to the maximum amounts above required, shall be allocated to and deposited in a Fund designated the "ELECTRIC BOND RETIREMENT FUND" and sums credited to said Fund shall be used solely and only for the purpose or redeeming bonds which may be called for redemption prior to maturity.

Provided, however, that after all of the electric revenue bonds dated July 15, 1950 and May 1, 1958, now outstanding, shall have been paid and redeemed, both principal and interest, any surplus remaining in the Electric Light Fund, after making allocations and deposits above provided for, and after the Contingent Fund and the Reserve Fund shall have been established to the maximum amounts above required, may be used for any lawful municipal purpose as may be directed by the Mayor and Board of Aldermen, including the redemption of bonds prior to maturity, or the extension and improvement of the electric distribution system of said City.

SECTION 8. That deposits into said Electric Light Fund shall be made as the revenues of said electric distribution system are received, and that payments therefrom into the separate special funds provided for by the next preceding Section shall be made in approximately equal monthly installments on the first business day of each calendar month throughout the year, and if the revenues derived from the operation of said electric distribution system shall be insufficient to make any such time, the deficiency shall be made good by additional payments to be made out of the first available revenues of said electric distribution system received during any succeeding months. And, in like manner, if during any fiscal year the revenues received from said electric distribution system shall be insufficient to maintain said funds, the additional payments sufficient to make up such deficiency or deficiencies shall be made in succeeding years out of the first available revenues of said electric distribution system. Whenever the sums actually on deposit in the Electric Interest and Bond Redemption Fund, the Electric Bond Reserve Fund, and in the Electric Bond Retirement Fund shall equal the principal amount of all outstanding bonds payable therefrom, together with the amount of all interest due thereon until the respective maturity dates of all such bonds, then no further payments need be made into said Funds. All sums in the Funds hereinabove referred to shall be kept on deposit in a bank or banks which are members of the Federal Deposit Insurance Corporation and at all times shall be continuously secured, as provided by the Laws of Mississippi for other funds of municipalities.

SECTION 9. There came on for consideration the matter of whether or not an unopened portion of South 8th Street between University Avenue and Tyler Avenue should be abandoned. The discussion brought forth the fact that other portions of South 8th Street north of the portion between University Avenue and Tyler Avenue had been abandoned and that no useful purpose could be foreseen in the opening of the portion of South 8th Street between University Avenue and Tyler Avenue. Therefore, on motion of Alderman Owens, duly seconded by Alderman Boatright, and passed unanimously, it was resolved that that unopened portion of South 8th Street between University Avenue and Tyler Avenue (which is all of South 8th Street between University Avenue and Tyler Avenue, bounded on the west by lot number 79 and on the east by lot numbers 469 and 471) be, and the same is hereby, abandoned, the City of Oxford releasing and relinquishing any and all right and title which it has in said portion of said street.

Further, there came on for discussion and consideration the fact that there appears to be some question as to whether or not there is an unopened city street, running east and west between South 8th Street and South 13th Street, such street being bounded on the south by Lots 471 and 470 and Lots 35 through 47 and being bounded on the north by Lots 469 and 468 and Lots 25 through 37. It was called to the attention of the Board that this street does not appear on the official map of the City of Oxford, but that such street has appeared on an unofficial map of the City of Oxford. The Board believing that the City has no interest in such street or that such street ever existed in fact, on motion made by Alderman Owens, seconded by Alderman Boatright, and passed unanimously, be it, and it is hereby, resolved that the street above described is hereby abandoned forever, the City releasing and relinquishing any and all right and title which it might have in said street.

Came on for consideration the matter of a parking problem on Pierce Avenue caused by Southern Bell Telephone Company employees parking on both sides of the street. Motion was made by Alderman Owens, seconded by Alderman Belk and passed unanimously, that a letter be sent to the local manager of the Southern Bell Telephone Company concerning this problem. Pursuant to this resolution the following letter was written:

November 12, 1963

Southern Bell Telephone Co.  
Oxford  
Mississippi

Attention: Mr. L. C. Daniels, Manager

Dear Mr. Daniels:

When your company petitioned the city to have the property now occupied by you as your main office zoned from residential to commercial, your agents represented to the Mayor and Board of Aldermen and to the surrounding property owners that you would provide sufficient off-street parking to meet the needs of your employees.

It has been brought to our attention that the streets around your office have become almost impassable because of excessive parking while your parking lot is not being used. We hope that you will comply with your representations and promises, and that you will take the necessary steps to relieve this situation without it becoming necessary for the city to take action.

Very truly yours,

/s/ Richard W. Elliott  
Mayor
