THANKSLIVING

Among other things, Webster defines tradition as something that is handed down or a long-established way of thinking or acting. As we celebrate the Christmas season, most of us will be putting up trees, buying gifts, sending cards, singing carols, baking sweets, and the list goes on. We just celebrated another traditional holiday, Thanksgiving, where turkey and dressing, cranberry sauce, and pumpkin pie are traditional household foods. But in order to have a tradition someone has to start it!

The Pilgrims set ground at Plymouth Rock on December 11, 1620. Their first winter was devastating but the harvest of 1621 was a bountiful one. The colonists decided to celebrate with a feast, more of a traditional English harvest festival than a true "thanksgiving" observance. It lasted three days. Many years passed before the event was repeated. It wasn't until June 29, 1676, that another Day of thanksgiving was proclaimed to express thanks for the good fortune that had seen the colonies securely established.

A hundred years later, in October of 1777, all 13 colonies joined in a thanksgiving celebration. It also commemorated the patriotic victory over the

British at Saratoga. But it was a one-time affair. George Washington proclaimed a National Day of Thanksgiving in 1789, although some were opposed to it. In 1863, President Lincoln proclaimed the last Thursday in November as a national day of Thanksgiving and it was recognized by every president after Lincoln. The date was changed a couple of times, but in 1941, Thanksgiving was finally sanctioned by Congress as a legal holiday to be held the fourth Thursday in November.

The Peachtree Road Race has now become a tradition, an event important in Atlanta

culture, something you do the morning of July Fourth. The race was started in 1970 by the Atlanta Track Club and approximately 110 runners participated. The next year the race increased to 198 runners. By 1975 there were over 1000 runners; the race had caught on and a tradition was born! In 1979 the race attracted over 20,000 runners. In 1980 the number of participants was limited to 25,000 runners, which continued through 1989 when the popular race reached capacity in only 9 days.

Frequent Runner Number

By Peggy Olive

Do you participate in two or more local races produced by the Port City Pacers or Little Red Hen? Do you get writer's cramp when filling out applications for friends, family, and multiple races? Want to save time when registering for a race? Do you want to reduce the possibility of your name being skipped when the Grand Prix or Corporate Cup points are being assigned? Have you ever noticed that your penmanship worsens as the closing of day of race registration nears?

Apply for a Frequent Runner Number (FRN). It's FREE. The mission of the FRN is to reduce errors and save time. Once you have been assigned your unique FRN, all you will need to do when registering for a race is fill in your last and first names, write your FRN on the address line, mark your event, and sign the waiver. Yes, of course, you will still need to pay the race entry fees. Give it a try. If you don't want a FRN, or if you forget your FRN, no harm – no foul – you can still fill in all the info as usual

Dr. Brian Montgomery

By Ben Harris

The Atlanta Track Club increased the limit to 40,000 in 1990 and in 1992 it expanded to 45,000 runners; in 1995 it expanded to 50,000 runners; and in 1998 it was expanded to 55,000 runners which remains the current limit. In addition to the 55,000 participants there are approximately 150,000 observers who line both sides of the entire course to cheer and support the runners

A similar tradition may have started this past Thanksgiving Day when Camp-Rap-A-Hope organized the Run For Hope 5K Race and Fun Run. It was held at 8:00 AM on the certified course starting and finishing near USA's Intramural Fields Pavilion. Some 337 participants were timed in the 5K and more participated in the Fun Run. Melissa McNichol and Susan Duffey gave leadership to the event and expressed a desire that it might "catch on" and grow larger with each passing year. And why not? It is on a holiday when most folks are not working. It raises money for a great cause. It is on a weekday meaning the following Saturday is available for another activity, maybe another race! It provides the exercise needed to remove those guilt feelings of eating too much turkey and all the trimmings. It is early enough to let you eat your meal from noon on, watch the football games, and prepare for Black Friday! It is just a good way to start the day and give thanks to God for being alive. The event has been started; let's keep it going.....and growing.

Dr. Brian Montgomery, one of the founders of the Azalea Trail Run, died on December 15, 2010. Brian along with Richard Overbey and Jeff Beard came up with the idea for the Azalea Trail Run on a trip back from Birmingham in 1976. Brian was born in Liverpool, England, in 1926, received his medical degree in London, followed by an internship in Vancouver, Canada, and a residency in clinical pathology at the University of Alabama Medical School. After serving as a Lieutenant in the U. S. Navy, he moved to Mobile and spent his professional as a pathologist at Mobile Infirmary. Brian was an avid runner, and for many years, ran with the group that met daily at Murphy High School. His running included a number of marathons, including Boston. Brian is survived by his wife Kay, sons Tom (Susan) and John, daughter Pam Bryant (Jay), four grandchildren, stepchildren Ed Odom (Pam) and Mike Odom (Leigh), and three step grandchildren. Brian was among the first runners to venture out running the streets of Mobile and inspired many others to do likewise. Brian had many interests and was a man for all seasons. The Port City Pacers expresses its best wishes at this time to Kay and all of Brian's family.

Corporate Cup

By Will Wright

We had the largest number of participants to date in the Senior Bowl Run, 154. Because of the large number of runners in the 10K, we allow the team captains to submit their respective team results and give them two weeks to comply. I regret we did not get replies from all the teams. This same process is used for the Azalea Trail Run next March also. As I prepare this update, the results of the Jingle Bell Run are not yet available.

We continue to have good overall participation averaging 124 runners per race. Standings after seven races along with Participation Leaders are as follows:
