# WHY A FIRE ENGINE?

by DAVID LIPPITT, PH  
 Chairman, Delta-Kappa Alumni Advisory Board

◆ How many times has your chapter spent anywhere from \$300 to \$500 on dances, rush parties and entertainment?—Several times a year probably. How long are these functions remembered?—Seldom more than a few weeks probably. What makes your chapter of Pi Kappa Alpha stand out from all the other fraternities on campus?

Maybe what your chapter needs is a Fire Engine.

Pi Kappa Alpha is an organization of men, but what is it that makes an organization strong? You'll have to agree it is "top notch personnel with a resounding esprit de corps." You and I and every IKA want a strong fraternity—of which we can be proud. But how do we attract the top newcomers

to our ranks? How do we build and maintain an esprit de corps? Maybe we've been using the same bait as all the other fraternities on campus. Is IKA just another fraternity?

Let's change that!

To the children of today who'll be our rushees and members of tomorrow, college fraternities mean little or nothing. Some of them hear their dads speak of "their" fraternity or some of them hear a certain sweetheart song, but outside of that college fraternities are nebulous. How can we get to the kids of today so they'll never forget IKA? A fire engine is the world's greatest answer. If every chapter of IKA across the country owned "a fine old, well kept" fire engine, every kid would know us. They'd never forget "that fraternity with the big red fire engine." Here at San Diego State College the IKA fire engine delivers Santa Claus, officiates at birthday parties of the children, and goes to political rallies and civic parades as well as campus functions. IKA is being sold to the coming generation, its identity is being strengthened, and we're building an esprit de corps in our present chapter all at the same time.

An organization needs someone and something to "rally around." That someone—a top notch leader—without question gives an organization its greatest strength. Sometimes a physical asset becomes a rallying point. It too can give pride of membership and the desire to work and play together. A fire engine can be that rallying point; it can be one of the top means of building a resounding esprit de corps.

Good operating fire engines that have retired from service can frequently be purchased from fire departments throughout the country. Prices range from \$200 to \$700. Our 1924 Seagraves at Delta-Kappa was purchased for \$350 from the Seagrave-Hirsch factory agency in Vernon, California. It was a one owner fire engine having been owned and operated by the Los Angeles Fire Department until one month before we bought it when it was traded in on a new one. Six alumni from Gamma-Eta Chapter, University of Southern California, who now live in San Diego and one alumnus from Delta-Kappa each donated \$50.00. The active chapter supplied approximately \$100 for paint and hours of time to refinish the engine under the direction of the chapter's newly appointed Fire Marshal Pierre Ney. The truck was not allowed out until the engine was completely restored. With big brass IKA letters stretched diagonally across the front of the radiator, it is IKA's greatest salesman. The first rushing after the emergence of the fire engine showed our best percentage of bid acceptance in the past four and a half years.

Just one word of warning. The use, insurance and maintenance *must* be properly handled. Reread that last sen-

tence again. It makes the difference between asset and liability.

We at Delta-Kappa hope the day comes when every chapter of IKA has its fire engine—when we can have "IKA Fire Engine Meets" where two, three, four, five or more different chapters can bring their engines and their chapters together.

We believe, today, that Delta-Kappa has the finest operating and best maintained fire engine of any chapter in Pi Kappa Alpha.

Want to challenge us?

## Vive La France

by James M. Hight, Jr.  
and William Tighe

◆ In 1955, Gamma-Mu Chapter purchased from the Somersworth, New Hampshire Fire Department, a 1923 American LaFrance ladder truck. In the estimation of the brothers, the fire truck was well worth the \$225.00 spent for its purchase. Its value as such can best be shown by a detailed account of one of our more famous escapades, that of our trip to the District Convention on the weekend of the twenty-ninth of March, last.

With a roar of the engine and an enormous cloud of smoke, fourteen brothers and pledges of Gamma-Nu were off for the District I Convention at Syracuse University. The send-off committee was composed of the remaining brothers of "Pike" and a large delegation of Chi Omega's. Facing the four hundred mile drive, Brothers Seerup and Publicover, with one at the helm and the other the co-pilot, set out to put their driver education courses to good use.

Gas and oil were added every hour at the rate of 10 and 2 gallons respectively. At 10:00 a.m. Friday, with bells ringing and trumpets blaring, a staunch group of traveling "firemen" arrived, and took a grand tour of the Syracuse campus. After signing in at Alpha-Chi for the Convention, the group set out to see if the Chi Omega's at Syracuse were as friendly toward "Pikes" as our neighbors back at the University of New Hampshire. Upon receiving an affirmative report, the Chi Omega house was secured and dates were gotten by all.

When the Convention activities permitted, the truck was put to good use providing the brothers and many Syracuse coeds with ample hours of enjoyment. The truck provided cold but adequate transportation for the Saturday night dance, giving the high-heeled, be-gowned coeds something to talk about for many years to come. The only difficulty encountered over the weekend was a polite request from the local gendarmes to "please stop ringing the bell." After a most enjoyable weekend, a group of tired but satisfied Pikes packed up and headed for home.

Although the Syracuse caper was by far the best, other shorter trips, such as football games, beach parties, and so on, have provided us with many hours of unequaled enjoyment.

When on the road, our truck is always greeted with curious stares and looks of awe by passers-by. It never fails to get waves from the children and envious looks from other students. It has also been known to bring about nostalgic memories from the old-timers, reminiscent of their own college days.

Without a doubt, the purchase of our fire engine, back in '55, was by far the best investment Gamma-Mu has made. Its dividends, both rushing-wise and pleasure-wise, have more than paid for the original cost. Now that our engine is listed among our deceased alumni, we at Gamma-Mu are looking forward to the day when we can again be the proud owners of another ladder truck. "Til then, on the lips of every man, remains our motto, "young men's marching, chowder-chewing, and fire-fighting society."

## "The Big Red Beast"

by Rich Thompson

◆ Nicknamed "The Big Red Beast," Gamma-Eta's fire truck has become a legend on the row at the University of Southern California. The 1924 Seagraves is the third engine owned by the chapter. The first met its untimely end on the return trip from the SC-Stanford football game at Palo Alto. The second died of a "heart attack" after being driven 55 miles per hour on the Pasadena Freeway.

The latest addition to the family was acquired by Gamma-Eta's Mothers Club and presented to the chapter this fall. It was purchased from the Seagraves Company here in Los Angeles for approximately \$400. At the present time the "Beast" is being rehabilitated under the direction of Fire Chief Hugh Holbert. The donation of a paint job by alumnus Bob Yeakle along with a re-chroming of all accessories will transform its weather-beaten exterior into the most beautiful engine in the country.

On the functional side, the "Beast" takes another first prize. Its pumping system delivers water at a rate of 1,000 gallons per minute through four nozzles and propels it well over 100 feet. Needless to say, we have yet to lose a water fight!

The pleasures gained from owning a fire engine are enormous. In rushing, there is no better ice-breaker; at parties, no livelier means of transportation. We heartily recommend that all chapters of Pi Kappa Alpha look into the possibility of owning an engine.

# Merrily, We Roll Along

by Robert D. McClure

◆ What is a fire truck? No, it is not an implement for extinguishing fires as many uninformed people would have you to believe. Instead, it's a source of fun; it's a personality with a temperament common only to it. To be sure this metallic mass undergoes a transformation when a group of fraternity men such as the Pikes at the "Hill" in Knoxville lay their hands upon it.

From an old and forgotten relic a 1914 model pumper can become a source of pride and pleasure, a method of producing envy in competitive groups. Chance usually governs so great an event as the purchase of a fire engine. So it was with Zeta. One brother happened to notice the deteriorating old warrior at the town hall of a nearby town, and being of the imaginative sort, he envisioned a spectacular future for it.

Indeed, the old boy was to see a great increase in activity, and the change was quick. The coeds really put the idea over with their immediate acceptance. The campus, the town, and even the police department recognized the Pike symbol after asking that the hand-cranked siren be operated with a little less enthusiasm.

Not to be overlooked was the attention it brought. A must for any sort of parade, the pumper always publicly proclaims its proud owners with its huge gold script IKA emblazoned on the shiny red hood. A truly versatile piece of equipment, it enhances everything from worthy fund raising drives to victorious football parades.

However, the utility of a fire engine to a fraternity group does not end with parades and hauling coeds around the campus. Transporting vital homecoming display materials, P.A. systems for parties, and visiting dignitaries fall into the scope of operations. This means good management as well as upkeep on a sturdy but sometimes temperamental old engine. It takes talent to maintain and drive a 1914 LaFrance fire engine! Fortunately a fraternity is a collection of diversified interests; consequently, energy to maintain and manage it is never lacking. Often it is a good project for the pledge class, if they have mechanics among their ranks. Usually they ask to be allowed to tinker with it, so the old fellow gets plenty of attention.

What a feeling it is to ride around the campus at the risky speed of 25 miles per hour attracting attention from all sides. A great feeling of fellowship is strengthened during a welcome diversion from studies.

If a fire truck is well managed, it will provide much to the brotherhood. To be

(l. to r.)

sure it is only a piece of metal that is useless for its original purpose. But for a fraternity it is a means to work together and cooperate, and to gain the identification and recognition so necessary for the fiber of the fraternity.

## A Prayer For Founders' Day

by Dr. John McSween

*Almighty God, our Heavenly Father: we bow before Thee in warm gratitude for all the tender ties which bind us to Thee and to our fellow-men.*

*Especially do we give Thee grateful thanks for the noble souls who have left us a glorious heritage in the bonds of our beloved Fraternity.*

*We thank Thee for the privilege of fellowship in the high ideals which they set before us, and all who would follow them.*

*Grant that their memory, being enshrined in our hearts, may inspire us to finer living. May their dreams come true in us and those who come after us.*

*As we think over the past with pride in our heritage, give us faith to see visions of an even greater future.*

*Let Thy rich blessing rest upon the leaders of our Fraternity that they may truly guide us to higher heights of friendship and fraternalism.*

*We make this prayer through Jesus Christ, our Lord.*

Amen.

— I K A —

## Why Outlaw Hazing?

◆ Another fraternity hazing incident has led to adverse publicity through the nation's newspapers.

An Associated Press report from Evanston, Illinois, reports that all 27 pledges of a prominent national fraternity at Northwestern University, have been put on disciplinary probation for their part in the abduction-hazing of another student.

Four pledges were put on probation for the remainder of their college careers. The others were put on probation for one year by the university's Disciplinary Committee. The freshmen "in retaliation for hazing" took one sophomore for a ride, covered him with molasses and feathers, and abandoned him in the woods near Lake Mills, Wisconsin.

The pledges should not have done this, but had there been no unreasonable hazing on the part of upperclassmen, they would have had neither the idea nor the inclination to do so.

Pi Kappa Alpha leaders through the years have learned from experience that a prohibition of hazing is necessary, but every year a few members feel that "they are the exception" and have the right to haze, regardless of national or university regulations. Disaster can strike members of Pi Kappa Alpha, as well as other fraternities. It is for our own good that such laws prevail.

Joe Jennings, ΠI (Mississippi), of Atlanta, Georgia, regional manager of Sandoz Pharmaceuticals, won a month's tour of Europe for two in a sales contest conducted by his company.

# 500 Footsore Acres

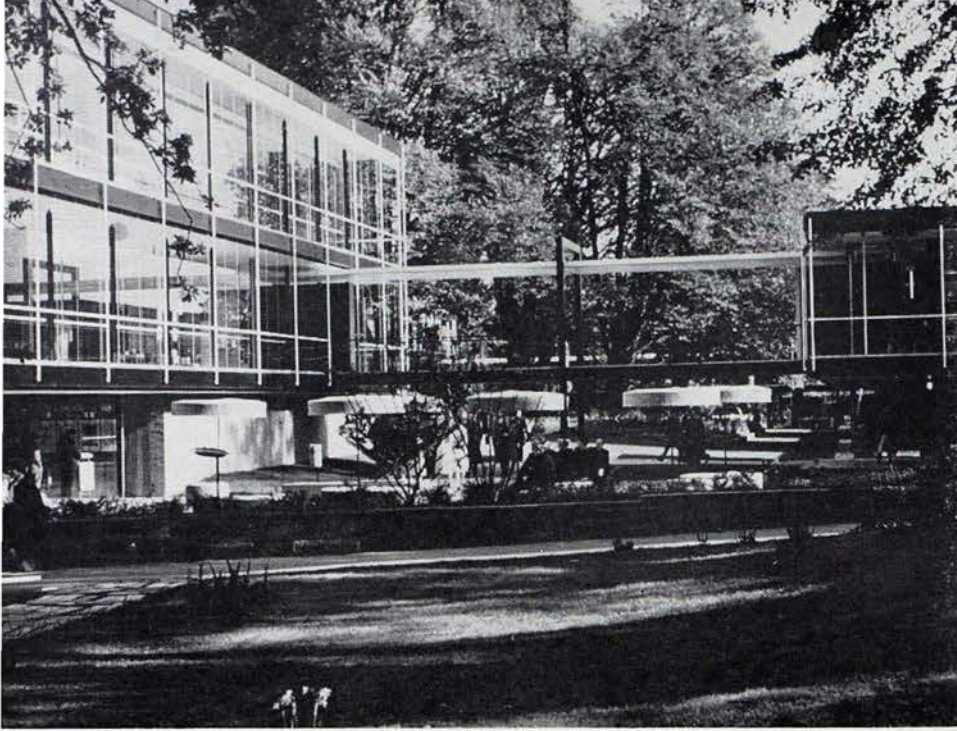

*A special pictorial report of the least published views of the widely publicized Brussel's World's Fair by Richard N. Bills. Reprinted from July, 1958, issue of SKYLINES, monthly publication of the Kansas City chapter, American Institute of Architects.*

Five miles from the center of Brussels, the Belgian Government is playing host to the world with its World's Fair, the Brussels Universal and International Exposition. An estimated 35 million visitors are expected to walk, ride the Swiss loaned aerial tramways, or be propelled in mechanical wicker chairs over at least a portion of the 500 acre fairgrounds before the exhibition closes in mid-October.

*Unquestionably one of the finest and most elegant buildings of the Fair, the pavilion of the United States draws large crowds to its 360 degree exhibit. Admittedly and successfully softsell, the U.S. displays its way of life in an orderly and relaxed fashion. The visitor is more likely to recall the pavilion as an experience rather than an exhibition. Biggest attraction is the voting booths, and the biggest mystery is the location of the rest rooms.*

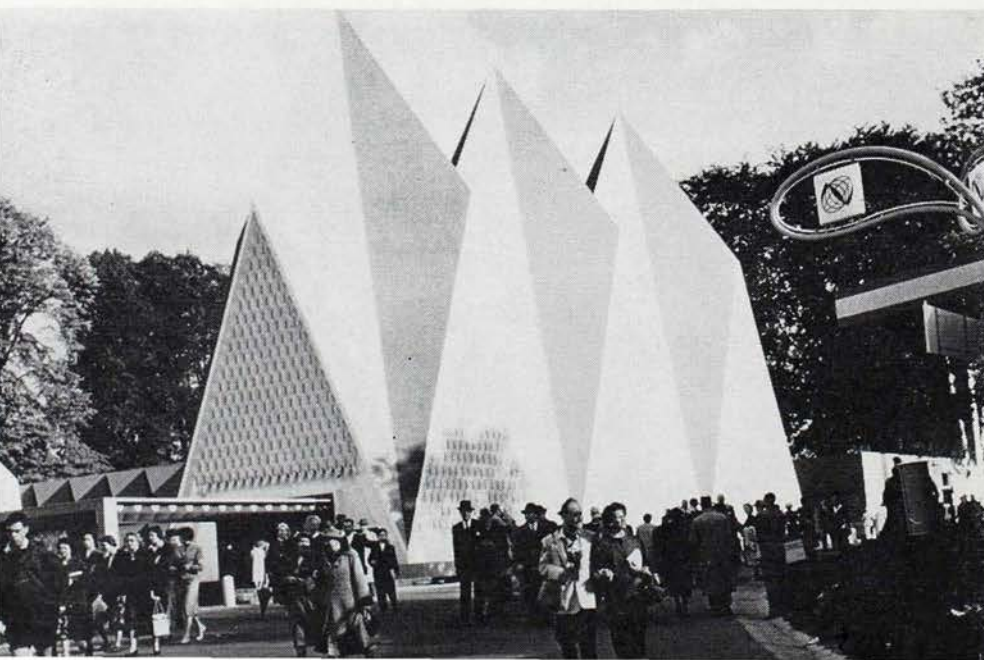

*Spreading over a large site, the German Pavilion is perhaps the most precisely detailed building at the Fair. The light curtain wall enclosure, the airy bridges and the beautiful polished wood floors display a degree of craftsmanship seldom seen. One thing of interest at the Fair is the many pools of water at walk level and the many panes of glass with no visible support. Either somebody has a lot of insurance, or the matter of public safety is more closely watched in Europe than it is in this country.*

Not since the New York World's Fair in 1939 has there been such an interesting and varied assemblage of contemporary architecture in one area. The best architects and engineers of Belgium and the 47 participating nations have done an excellent job of presenting their architecture to a world audience.

To see the Fair at night is an adventure in itself. Whether you walk along the Belvedere Bridge or take a ride in one of the many little blue Mercedes busses, clever lighting everywhere brings new character and excitement to the pavilions and many government buildings.

In stark contrast to the many large, glass encased buildings of the Fair, the British Government Pavilion, greatly reminiscent of a contemporary cathedral, utilizes very little natural light in its displays of time-honored tradition and peaceful uses of nuclear energy. Adjacent buildings display cultural and industrial progress.

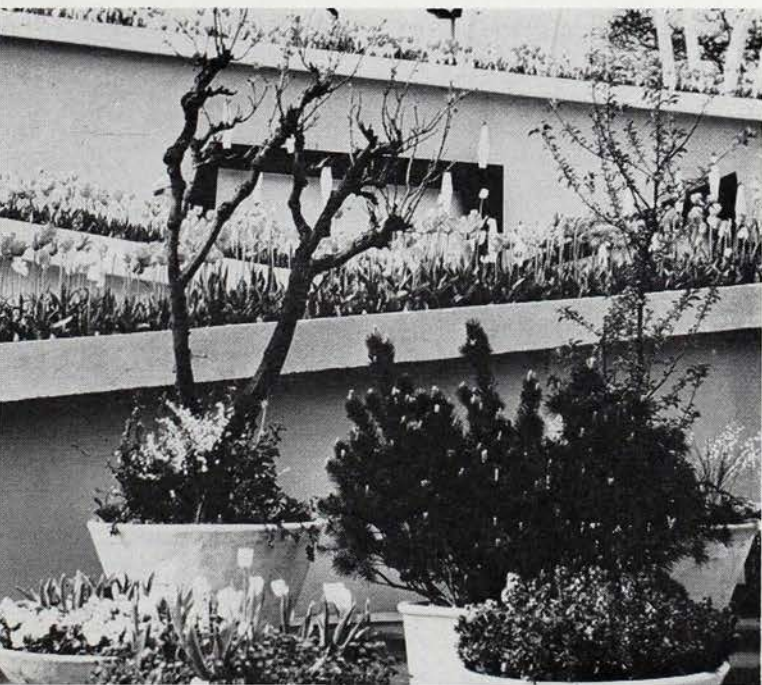

*The attractive and picturesque formal entrance to the Flemish Gardens, a highlight of the Belgian section of the Fair.*

*Each Pavilion has an eating place, where favorite foods of the country may be enjoyed. Perhaps the most pleasant of these was the outdoor cafe of the Swiss Pavilion, overlooking a small lake. Part of the British Pavilion is seen in the background.*

There is a serious gaiety about the Fair as men, women, and children from all over the world visit the pavilions of theirs and other countries. They see a gigantic exhibit of culture and science, past, present, and future. At Brussels, as shown in history, architecture proves to be a most profound mirror that reflects the various peoples and cultures represented. It seems a necessary pity then, that by Christmas time this gathering will be dispersed, with only the Atomium remaining to remind Brussels and the world of its 1958 Fair.

*Richard N. Bills, BT (Kansas), architect with the firm of Donald R. Hollis, A.I.A., Kansas City, Missouri, shares his trip to the World's Fair with Pi Kappa Alpha readers. Brother Bills is president of District 9.*

# Pi Kappa Alpha Establishes Leadership Award

◆ Would you like to see this trophy on display in the leading high school in your town?

It would be a fine thing if Pi Kappa Alpha had these trophies placed in leading preparatory schools in the nation such as Culver Military Academy, Woodberry Forest, St. Paul's School, Exeter

**Program Director George C. Beacham (r.) and District President John Wheeler with the first award purchased by the Chicago Alumni Association.**

Academy, Darlington School, McCallie School, and New Mexico Military Academy.

The Pi Kappa Alpha Fraternity Leadership Trophy program has been developed to enable you as an individual, chapters, and alumni associations to have a part in stimulating the development of leadership among high school men and informing the public of the positive values of our Fraternity.

The Supreme Council has named George C. Beacham, Jr. as director of the program which was approved by the 1958 National Convention. Brother Beacham, an alumnus of Alpha-Alpha Chapter at Duke University, is associated with the firm of Arthur Anderson and Company, nationally prominent accounting firm. Individuals and associations should write directly to Brother Beacham at 726 Wesley Avenue, Evanston, Illinois, for detailed information and suggestions.

An individual, chapter or association desiring to participate in the program should confer with the administrative officials of the high school or boys' preparatory school of their choice. If the officials agree to participate, you will then make arrangements for the purchase of the trophy and its presentation to the

school. Cost of the trophy is approximately \$125.00. The winner will be selected by a committee appointed by the principal or headmaster. The selection from among the graduating male seniors will be based on high moral character, a strong faith in God, in country and self, demonstrated leadership ability, satisfactory scholastic record, integrity, and dependability.

Each year the winner's name will be engraved on the trophy which will be permanently displayed at the school. He will receive a Leadership Key for his personal possession.

The Chicago Alumni Association has already voted to place a trophy in one of the leading high schools in the greater Chicago area. It hopes to place an additional trophy in one of the other high

schools each year.

This is an excellent opportunity for chapters and alumni to emphasize among high school students the positive values which Pi Kappa Alpha teaches. Your Director solicits the participation of alumni in seeing that trophies are placed in the outstanding preparatory schools throughout the United States.

Executive Secretary Lynn, Kansas State College President McCain, Kansas State Alumni Assoc. President Patterson, SMC Henderson (above rear), National Treasurer Freeman, National House Commissioner Miller, and Kansas State House Corporation President Walker.*

## Kansas State Occupies New Home

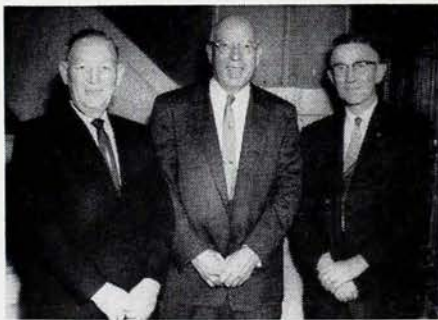

◆ Smiles of satisfaction and pride wreathed the faces of the several hundred student and alumni members of Pi Kappa Alpha and friends on November 22, 1958, as they inspected the facilities of the new Alpha-Omega chapter house at Kansas State University. SMC R. James Henderson introduced District President Bills, who presided over the dedication ceremonies, which were highlighted by words of inspiration and challenge from Dr. James A. McCain, President of Kansas State University. H. E. "Pat" Patterson, alumnus of Alpha-Omega Chapter and current President of the Kansas City Alumni Association, unveiled a tablet in the foyer which is a gift of his association. Introductions included charter members, Harold Goble and Harry C. Baird, who were brought into the bonds June 9, 1913, and Roy M. Phillips, the first initiate of the chapter.

Chapter II of the big weekend was the dedication banquet held Saturday evening. Garth Grissom, attorney of Denver, Colorado, and outstanding alumnus served as master of ceremonies. Challenging and inspiring remarks were brought by Herbert Miller of Des Moines, Iowa, a member of the National Chapter House Commission, Robert D. Lynn, Executive Secretary, Charles L. Freeman of Bloomington, Illinois, National Treasurer, and Joe C. Scott of Oklahoma City, National Alumni Secretary.

An open house and reception Sunday afternoon presided over by Mrs. William Bensing, gracious housemother, found every member and pledge doing a magnificent job as hosts to the many friends from the University and the entire city.

The 64-man, red brick structure is situated on a 1½-acre sloping lot conveniently located to campus in the new fraternity housing area. Brother Arthur M. Scott, architect of Pittsburg, Kansas, incorporated beauty and utility. There are 23 bedrooms plus a dormitory sleeping

room on each floor. Maximum utilization of space is provided by having built-in study, clothing, storage and dressing facilities in each bedroom, plus two beds. The third man sleeps in the dormitory. ⅔ of the men sleep in the bedrooms and ⅓ sleep in the two dormitories. This satisfactorily takes care of those men who have a preference for one or the other facility. In addition to the spacious living room and dining room, there are excellent facilities for the housemother, plus two playrooms and a special

*A happy reunion for three of Alpha-Omega Founders (l. to r.) Harry Baird, Roy Phillips, and Harold Goble.*

chapter room. The cost of the structure was approximately \$170,000.00 exclusive of furnishings.

This day of fulfillment was made possible by the dreams and hard work through the years of both student and alumni leaders of Alpha-Omega Chapter. Current officers of the Kansas State House Corporation are: Otis H. Walker, President; Hal J. McLaughlin, Vice President; and Reuben C. Lind, Secretary and Treasurer.

The campaign for funds was led by Fred M. Huey, Harvey Langford, Merton Otto, and Kenneth Chappell.

Those present included Lowell Kelly and his mother, two of Alpha-Omega's most loyal supporters.

## Ole Miss Dedicates Southern Mansion

◆ The air was chilly but the spirit was warm and the smiles broad as the Gamma-Iota clan gathered to inspect, admire and dedicate their new home on the University of Mississippi campus at Oxford, just prior to the annual Homecoming game between Ole Miss and Mississippi State.

Walter Dell Davis, charter member, State Insurance Commissioner and current President of the House Corporation, presided over the happy event. Words of commendation were brought from representatives of the administration, the alumni and the student chapter. Introductions included former District President and former National Vice President James V. LeLaurin, former District President Darcey Tatum, who served as architect, Brother Richard C. Stockett, President of Jackson Lumber Company who had a major share in the planning and construction of the house, and Chapter House Commissioner P. D. Christian, Jr., of Atlanta.

The dedication address by Executive Secretary Robert D. Lynn challenged the coming generations of Gamma-Iota members to familiarize themselves with the heritage they have in Pi Kappa Alpha and to live up to the challenges and opportunities which are theirs.

Tribute was paid to several alumni leaders including Dr. C. M. Murray, Jr., Eugene H. Neill, Joe H. Daniel, and Thomas M. Garrott who had contributed outstandingly of their time, talent and funds to make the new chapter house possible. Special recognition was given to Fred A. Anderson, Jr., of Gloucester, Mississippi, former National Secretary of Pi Kappa Alpha and Lyle Bates, of Jackson, Mississippi, two-time President of the University of Mississippi student body and recently president of its alumni association, whose portraits now hang in the spacious living room. The recreation room was dedicated to the Graham Fam-

ily—Sanford Graham, charter member of Alpha-Iota Chapter, Millsaps, and his two sons, the late Judge Jesse Graham of Meridian, Mississippi, and Hardy Moore Graham of Union City, Tennessee. Pictures of the three were presented to the chapter.

A surprise feature of the occasion was the announcement that the chapter had voted unanimously to name the chapter room in honor of Brother Earl Watkins, who directed the highly successful campaign for funds. Brother Watkins is Administrative Assistant in the National Office.

Gamma-Iota Chapter was chartered May 27, 1927. Charter members present for the occasion were Edgar H. Nation and Walter Dell Davis.

The impressive colonial home and the new Sigma Chi house are the first two structures on the new fraternity row at the University of Mississippi. Both Gamma-Iota Chapter and the National Fraternity appreciate the splendid cooperation of the administration which made the erection of this house possible. The building contains eighteen two-man bedrooms, an apartment for the house-mother, spacious social and dining areas, and a private chapter room. The total cost was approximately \$100,000.

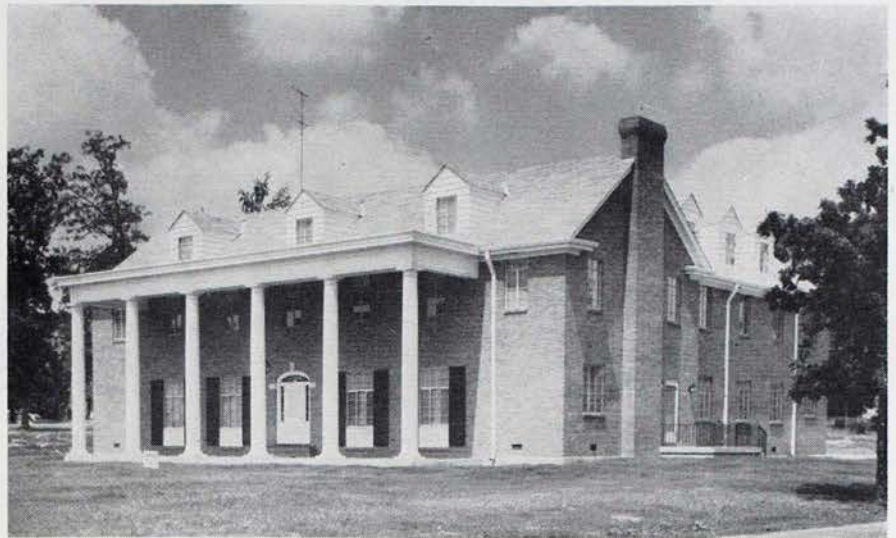

Over one thousand alumni and friends enjoyed an elaborate buffet luncheon presided over by Gamma-Iota's lovely housemother, Mrs. Lucile Plumlee. Special guests included members of Gamma-Theta Chapter, Mississippi State, accompanied by their housemother, Mrs. Kathleen Claiborne.

## Fenner Directs Ohio State House Dedication

By Richard L. Furry

◆ By 11 a.m. on Saturday, October 25, 1958, quite a crowd of Pi Kappa Alpha alumni and undergraduate members, pledges, wives, sweethearts, and friends of the fraternity had gathered and

*The University of Mississippi dedicated its beautiful forty man house November 29, 1958. Gamma-Iota and Alpha-Omega both provided spacious chapter meeting rooms in their buildings.*

inspected Alpha-Rho's new house at 200 East Fifteenth Avenue, Columbus, Ohio.

Dedication Chairman G. Ray Fenner called the group to order from the podium in the big new living room. From that point, he could see and be seen by the more than 100 people who sat, stood, leaned and kneeled in the living room, and perhaps 100 more who did likewise in the connecting hallways, library, and dining room. Most everyone had been treated to a guided tour by a "Pikette," souvenir ashtray, and elaborate garnet and gold printed programs for the day.

In the seats of honor were six 1912 initiates who recalled some of Alpha-Rho's early history for the assemblage—Milo J. Warner, Elton M. Kile, Ray B. Hugus, Bormuth F. Renkert, James N. Helpringer, and Frederick W. Cowles. They were introduced by Karl B. Pauly. The house was dedicated by H. Thomas Hance, Jr., McCormick Hall Association President, and accepted by Alpha-Rho S.M.C. Samuel F. Angus, Jr.

Ohio State Dean William S. Guthrie spoke briefly on the importance of strong fraternities at the University. Other officials present were Dean Mylin E. Ross, Fraternity Advisor George J. Caronis, and

Dean of Women Christine Conaway.

Executive Secretary Robert D. Lynn of Memphis gave the main dedication address. Also present was National Treasurer Charles L. Freeman of Bloomington, Illinois.

## A House or a Home

By Samuel F. Angus, Jr., AP, S.M.C.

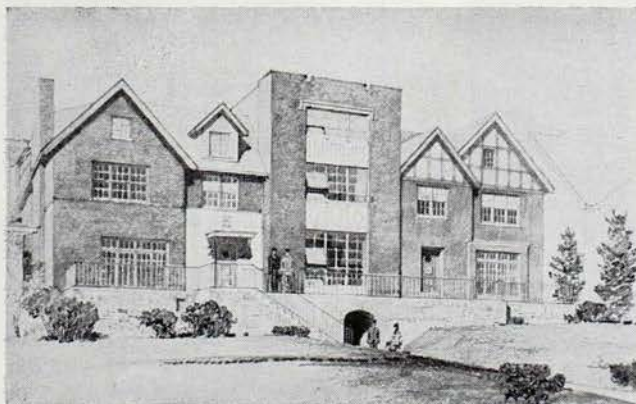

◆ Alumni have made our new house a reality. It is a new house, composed of our two old houses joined together in a spectacular fashion to form one fine new house. We are all so proud of the house. It overwhelmed everyone who attended the Dedication with its spaciousness.

But what is a house? It is a structure suitable for providing shelter. Then, the men of Alpha-Rho returned in the fall to their new house. What happened? The inanimate structure, of brick, wood and mortar came alive as the breath of fellowship and fraternalism was breathed into its every corner.

This was a new life, a new spirit, with a new zest and vitality the result of a new high in morale. We are all glad for this wonderful feeling that makes us so inspired and active. Again we wish to pay tribute and express our gratitude to all those who have made our new house possible.

— II K A —

Davidson College President D. Grier Martin announced the appointment of John R. Horton, B (Davidson) and AP (Ohio State) as Acting Director of Alumni and Public Relations at Davidson College in September. John served as Field Secretary of IIKA for seven years. He returned to Davidson from West Lafayette, Indiana, where he was Manager of the Stewart Howe Alumni Service.

*The new addition at Alpha-Rho gives them a \$200,000 chapter house plant.*

# 1958 All Pi Kappa Football Team

By **DILLON GRAHAM,**  
Washington Associated Press  
Correspondent

**Dan Fronk, Center  
Ohio State**

◆ California's Bears, the Pacific Coast representative in the Rose Bowl game on last New Year's Day, was the only team to place two men on the Pi Kappa Alpha 1958 All-American football team.

And the South, as has been the case in recent years, led all other sections of the country with five selections.

Perhaps the fraternity's highest-ranking player on a national basis also was from Dixie—Alex Hawkins of the University of South Carolina.

Hawkins, a swivel-hipped halfback, and Hugh Ed Rutsch, George Washington University tackle, were the only three-time selections.

Hawkins was named on the Associated Press's third All-America team and was a unanimous choice for the Atlantic Conference team. He led South Carolina to an upset win over Clemson, which almost beat Louisiana State, the nation's No. 1 ranked team, in the Sugar Bowl.

The fraternity's honor team this year also has a lot of youth, with two sophomores and four juniors to go along with the five seniors.

The big universities—California and Ohio State—and the small colleges, such as Hampden-Sydney, are represented.

Here is your Pi Kappa Alpha All-America football team for 1958:

**Ends:** Jerry Lundgren, California, and Pete Manning, Wake Forest.

**Tackles:** Ed Rutsch, George Washington, and John Michael, California.

**Guards:** Don Nelson, Beloit, and Ken Peterson, Utah.

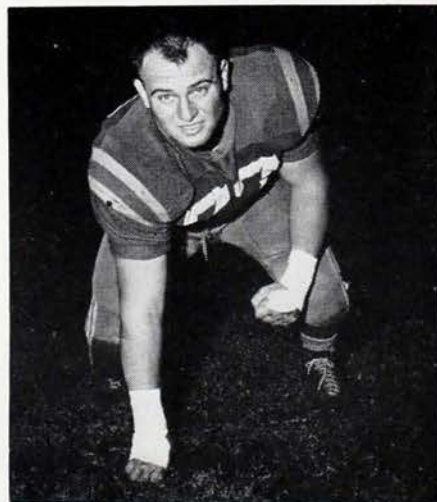

**Center:** Danny Fronk, Ohio State.

**Backs:** Alex Hawkins, South Carolina; Jack Lee, Cincinnati; Wade Smith, North Carolina, and Bill Benson, Hampden-Sydney.

Fronk, Hawkins, Rutsch, Nelson and Michael are seniors. Lundgren and Peterson are sophomores and Lee, Smith, Benson and Manning are juniors.

Hawkins had two nicknames: "Mr. Clutch" and "The Hawk". He was named on the All-America team selected by Paul Williamson, whose weekly rating system of teams is used by newspapers from coast to coast.

An Atlanta sports writer, viewing

**Ed Rutsch, Tackle  
George Washington**

Hawkins for the first time, wrote:

"One has to see this Alex Hawkins to believe him. He hits so hard on offense and defense, and is such a threat every time he lays hand on the ball, that he cannot be contained in statistics any more than he can by South Carolina foes."

Hawkins raced 45 yards with an interception, scored two two-point conversions and passed for a third to lead the Gamecocks to victory over Georgia. His 36-yard touchdown run gave South Carolina its edge in a 12-7 win over North Carolina State.

Describing this run against North Carolina State, a sports writer wrote:

"Hawkins, running like a country boy on the way to the supper table, broke around left end, cut back behind a key block and outran a half-dozen pursuers into the end zone."

He threw three touchdown passes in the Gamecock's win over Wake Forest and led the way to a triumph over Virginia. Two key plays by Hawkins gave Carolina a half time lead over Virginia. He intercepted one pass for a touchdown and ran another pass for good yardage in another Carolina drive.

Hawkins was drafted by the Green Bay Packers of the National Football League and has also been offered a contract by Montreal of the Canadian League. He was one of the stars in the Senior Bowl game at Mobile, Alabama last January 3.

Bill "The Bullet" Benson of Hampden-Sydney was named to the Associated Press Second Little All-America team.

He's regarded as the greatest back in the college's history.

A Richmond writer said: "Benson was the target of every team Hampden-Sydney played but few found a way to keep him from breaking away on a long distance scoring run."

He has been named to Virginia's All Little-Eight team for two successive seasons. And for the last two years he has been the leading scorer among all Virginia colleges, with 66 points each year.

He carried the ball less than 29 per cent of the time and, with all defenses geared to stop him, averaged 7.6 yards per carry. He gained 856 yards, 51 per cent of Hampden-Sydney's total yardage. In his three years, he has gained 2,000 yards.

Benson ran 53 yards for a touchdown against Emory & Henry and passed for another. He scored three times against Western Maryland, including a 42-yard run. Benson scored twice on Johns Hopkins, including a 53-yard dash, and threw the key block that shook loose Tommy Davis, a Pi K A pledge, on an 86 yard fake kick. He took a pass from Davis and ran 21 yards for the touchdown that beat Guilford College. Benson ran a kickoff back 85 yards to give Hampden-Sydney victory over Randolph-Macon.

Wade Smith, North Carolina scatback was selected, along with Alex Hawkins, on the Atlantic Coast Conference all-star team.

Writing about the North Carolina-Wake Forest game, a Durham, N. C. sports writer said:

"Diminutive Wade Smith, a running fool, endeared himself in the hearts of the Carolina football faithful by cutting and slicing and driving in and out of the Deacons to roll up an amazing 123 yards in 14 carries. He's the darling of the Tar Heels."

Smith's running highlighted North Carolina's triumph over Maryland. One writer said:

"Electrifying pass plays from Cummings to Wade Smith, one for 34 yards and one for 39, paved the way for Carolina's first two touchdowns. The big play was that 34-yard pass and the c hasn't been a flashier run here since Choo Choo Charlie Justice left the Carolina campus. Cummings passed from his 49, Smith caught it in the flat, faked two Maryland defenders out of position, and ran to the Terp 17.

Smallest man on the field at 170 pounds, Smith set up the only score against South Carolina with a 23-yard burst to the one-yard line. He also caught two passes in that game, recovered two fumbles and made several key tackles.

He scored Carolina's winning touchdown against Southern California. The

workhorse of the Carolina backfield, Smith also is a good student.

Rounding out the backfield is Jack Lee, a fine quarterback and one of the country's finest passers.

This Cincinnati junior led the Missouri Valley Conference in total offense and was second in passing. He made a 164 yards rushing and 951 yards passing for 1,115 yards. Lee completed 71 of 130 passes.

He was named to United Press International's All-Missouri Valley team as quarterback.

A Cincinnati writer said: "Jack Lee, a 168-pounder, can thread a needle with passes, he's a decided threat running and he's a rugged customer defensively. The way Lee runs the team is brilliant."

One of his best games was against the College of the Pacific, which had beaten the University of California and was a heavy favorite over Cincinnati.

"Cincinnati's Wildcats," a sports writer reported, "twisted two knots in the College of the Pacific Tigers' tail, scoring a 12-6 upset. The home club was all set to put Dick Bass, leading ground gainer in college football, on display. But the Bearcats' Jackie (General) Lee stole the show right away from Mr. Bass."

Lee aggregated 155 yards for the evening, including more than 100 yards on passes.

It was Lee's passes—two for touchdowns—that brought Cincinnati its first victory in five years over its neighborhood rival, Miami of Ohio.

These four—Hawkins, Benson, Lee and Smith—were selected on the honor team backfield but there were others just about as good, particularly Walt Arnold of California and Carl Smith of Tennessee.

Danny Fronk, veteran on a powerful Ohio State team, gets the nod at center. He was a starter also in the East-West Bowl game.

Ed Rutsch, at 270 pounds one of the biggest players in the country, and John Michael, a three-year letterman at California, are named tackles. Rutsch was chosen for the second year on the All-Southern Conference team, although George Washington's team was not strong. He is student body president.

The guards are Don Nelson of Beloit and Ken Peterson of Utah. Nelson, a three-year veteran played the full 60-minutes of every game for Beloit. Peterson, although a tackle, was too good to leave off the team and so has been placed at guard.

Jerry Lundgren of California and Pete Manning of Wake Forest are the wingmen. Lundgren, a sophomore who started the year as a fifth-string guard, soon became first string end. An "A" student in engineering, he won California's "most

improved player" award. Manning was named to the Atlantic Coast Conference's second all-star team.

While California received two places on the fraternity team, it might well have received four. Walt Arnold at fullback and Jib Green at Guard were worthy of selection.

There were several exceptional pledges, not eligible for honor team selection. Some of these will be heard from next season. They included Cleve Webster of Auburn, All-Southeastern Conference guard; Ron Miller, Vanderbilt end; Dick Brantley, Florida tackle; Gene Etter, Tennessee halfback and Tommy Davis, Hampden-Sydney halfback.

Etter probably was the only player of the year who caught his own pass. It was deflected by a Mississippi lineman and Etter snagged it for a short gain. Etter came along famously late in the season, when injuries to veterans gave him a chance, and engineered the three touchdowns that gave the Vols a surprise win over Mississippi.

A few chapters could brag that their men made up a sizable portion of their school's football squad. The Presbyterian chapter had nine men on the varsity squad, Wake Forest had eight, and Hampden-Sydney ten. Three Pi K A's were named co-captains at Hampden-Sydney for next year—Bill Benson, halfback; Marshall Ebert, tackle and pledge Tommy Davis, quarterback.

Honorable mention goes to these players:

Ends: Jerry Frye, South Carolina; Jim Felty, Hampden-Sydney; Ron Miller, Vanderbilt (P); Billy Bundrick, Louisiana Tech (P); Roy Goodman, Texas (P); James Coman and Ed Hickman, Howard (P); Tim McLaughlin, California (P); John Johnson, North Carolina State; Smiley Ratcliff and Walt Davis, Millsaps; Ted Leahy, Presbyterian; Bob Williams, Virginia; John Byrd, New Mexico; Jimmy Kolb, Presbyterian (P), and Maynard Rice, Virginia.

Tackles: Harvey Herrman, Ohio State; Dick Brantley, Florida (P); Darvin Estes, Georgetown; Marshall Ebert, Hampden-Sydney; Frank Kessler, John Marlow, Irvin Shendon, Jim Smulki and Dave Wisler, Virginia; Don Burleson, New Mexico (P); Jim Towne, Georgetown (P); Billy Michaels, Arkansas; Allen Stone, Beloit; Bobby Hinton, Louisiana Tech; Eddie Ladd, Carey Hedgpeh, Jim Goodyear and Bruce Nations (P) Wake Forest; Tillman O'Brien, Texas (P); Bob Robinson, Howard; Arthur Grob, Kansas State; and Robert Tooke, Missouri Mines (P).

Guards: James Green, California; Cleve Webster, Auburn (P); Bob Gardner, Marshall College; John Firby, Presbyterian; Tom Fletcher, Hampden-Syd-

ney; Dick Bright, New Mexico (P); Jimmy Pearce, Wake Forest; Gary Lund, Utah State; Billy Trail, Arkansas State (P); Bob Vash, Western Reserve; Cy Swakta, Howard (P); Spence Clark, Utah; James Teske, Missouri Mines (P); and Max Miller, Millsaps.

Backs: Carl Smith, Tennessee; Walt Arnold, California; Ron Mendel, Cincinnati; Sam Sirianni, Richard Jackson, Ronald Meredith and Harry Underwood, Marshall College; Bob Waters, Bob Matthews, Ron Isger, Pat Malone and Fred Stanley, Presbyterian; Bill Wilson (P) and Lawrence Kuhl, Georgetown; Gene Etter, Tennessee (P); Tommy Davis (P) and Jimmy Slaughter, Hampden-Sydney; John Barger, Jim Fox and Fred Russell, Virginia; Gary Wells, Linfield College; Terry Robinson and James Billings, Arkansas State; Pat Garret and Sonny Sumlin, Louisiana Tech; Kenny Ferrell, Wake Forest; Wayne Peterson, Utah State; Andy Farless (P), George Rhea (P) and Jack Lestage (P), Louisiana Tech; Herbie Brown, Wake Forest (P); John Coffee (P) and Don Miller (P) Arkansas State; Joe Milazzo, Pete Hanna, George Raley (P) and Jimmy Smersgha (P) Howard College; Dale Evans and Kent McConnell, Kansas State; Paul Liston, Utah; Wayne Boswell (P), Missouri Mines; John Gatewood, Millsaps; Daley Goff, Moyer Smith (P) and Russell Hoppers, North Carolina, and Wayne McLean (P), Fred Johnson (P) and Joe Wood, Hampden-Sydney.

Centers: George Gill, New Mexico; Norm Mullins (P) Marshall; Ray Moss, Tennessee; Bill Richmond, Hampden-Sydney; Billy Ware (P) Louisiana Tech; Phil Kardasz, (P) Purdue; William Kruger, Missouri Mines; Jack Case, Missouri and James Markham, North Carolina State.
