## WELCOME TO OUR SCENERY EDITION

**Scenery** is a vital component of the **model train** layout.

Model Railroading is much more than rolling stock and locomotives running on carefully laid track. Adding scenery challenges your artistry as trees, grass and dirt begin to transform your rough base into a living layout. You don't need to be an experienced artist to tap into your natural creativity – you just need to open your eyes and look at the world around you, and then use the tools and products at your disposal to mimic what you see.

**Our February Flyer focuses on Scenery.** Starting on page 10, we are proud to bring you Walthers own Brand Spotlight focusing on SceneMaster™ and Chooch. Together, both lines offer a comprehensive line of scenery products to complete your layout transformation.

**COVER STORY:** The National Model Railroad Build-Off, Walthers annual competition to celebrate the artistry of model railroading, kicks off March 1st with entries due July 1st. In this, our scenery edition, we thought it only fitting to showcase some of the excellent work submitted by the talented modelers who entered the 2023 contest. Our cover features the work of Robert Hansen, and his 2023 NMRBO entry into the Freestyle category. We loved his expressive modeling of a waterfall, and the surrounding scenery. Above, and to the right, are detail shots from Galen Gallimore's Adult HO entry. Galen meticulously captured the charm of 1920s Florida. For more information about this year's NMRBO contest see page 4.

FREESTYLE	HELPFUL TIPS AND INFORMATION FOR FREESTYLE CLASS
Open to all ages, individuals or teams	<p><b>BACKDROPS</b></p> <p>Backdrops are not required. However, a thoughtfully designed backdrop that enhances the theme and brings a scene to life could count towards the overall appeal and creativity. Should you decide to include a backdrop, there are no specifications or requirements for size or construction.</p>
Open in all 50 states	<p><b>FASCIA</b></p> <p>A fascia is not required. It is recommended that you think about how you finish the edges of your scene so as not to detract from the overall presentation.</p>
<p>ALL SCALES</p> <p>The Freestyle Class does not require purchase of a kit - entrants build a scene using materials of their choice.</p>	<p><b>BASE</b></p> <p>We are not specifying, nor recommending base requirements or construction. A simple foam insulation base is adequate as is a sheet of plywood cut to size. There is no need for elaborate bench work as this is an area that will not be judged. The entry does not require electrical work or a functioning train, however the inclusion of a train is highly recommended and encouraged. Your entry must be a standalone display, and not part of a larger or existing layout.</p>
