## U.S. & World News

### [National Security Letters Reform Act introduced](#)

Bipartisan legislation was introduced in the U.S. House of Representatives July 26 that will provide crucial checks against the National Security Letters authority expanded under the USA Patriot Act. At an event in the Cannon House Office Building, the National Security Letters Reform Act of 2007 was introduced by Reps. Jerrold Nadler (D-N.Y.), Jeff Flake (R-Ariz.), William Delahunt (above, D-Mass.), and Ron Paul (R-Tex.). ALA Washington Office Executive Director Emily Sheketoff (right) said the legislation would "minimize this unconstitutional intrusion into library patrons' records."...

### [Senators hear arguments for internet safety education](#)

The U.S. Senate Committee on Commerce, Science, and Transportation held hearings July 24 to review steps that Congress could take to protect children from online predators. The hearings were called to solicit input on a revised version of the Protecting Children in the 21st Century Act (S. 49) that Committee Vice Chairman Sen. Ted Stevens (R-Alaska) said his staff is working on, following the bill's failure to come up for a vote....

### [Strike closes Vancouver's 22 branches](#)

Some 790 employees of the Vancouver (B.C.) Public Library went on strike July 26, the first such walkout in the library's 77 years as a unionized workplace. The action shut down the system's 22 branches as well as its online services....

### [Michigan man loses nonresident lawsuit](#)

A resident of Bloomfield Hills, Michigan, has lost an appeal to the state Supreme Court of his claim that Michigan public libraries must sell nonresidents library cards on request. The July 26 decision ended plaintiff George Goldstone's quest to regain borrowing privileges at the Bloomfield Township Public Library, which ceased offering those services to Bloomfield Hills residents in 2003 after the municipality

### [Toronto cuts Sunday hours, cancels purchases](#)

The Toronto (Ont.) Public Library board voted July 25 to eliminate Sunday service at 16 of its more than 100 branches, including the downtown reference library (right), and cancel the purchase of 14,000 items. The actions were among measures taken to cut \$1.2 million from the library budget as part of a citywide effort to make up a \$575-million shortfall....

### [Pepper spray likely cause of sickened patrons](#)

Seven people were treated at two local hospitals July 25 after a mysterious substance caused many patrons of the Ann Arbor (Mich.) District Library branch in the Westgate Shopping Center—as well as those at a neighboring Kroger supermarket—to complain of a strange smell, nausea, burning eyes and skin, and difficulty breathing. After receiving a call from the library around 9 p.m., emergency crews arrived at the shopping center and treated as many as 25 people....

### [Sibel Edmonds at Annual Conference](#)

During the 2007 ALA Annual Conference in Washington, D.C., the ALA Intellectual Freedom Committee and Committee on Legislation cosponsored a program that featured Sibel Edmonds, president and founder of the National Security Whistleblowers Coalition. Edmonds gained worldwide attention in 2002 after she was fired by the FBI for reporting shoddy work and security breaches that may have prevented the 9/11 attacks. Also speaking was Stephen Kohn, president of the National Whistleblower Center....

## Harry Potter and the censor's flames

Office for Intellectual Freedom Director Judith Krug (right) writes: "Harry Potter snuck up on me. In 1999, I'd yet to read *Harry Potter and the Sorcerer's Stone* when a South Carolina librarian reported that parents were seeking to remove the book from school libraries and classrooms. Naturally, I was curious as to what was behind this attempt to censor a popular children's book that, by all reports, was encouraging even reluctant readers to settle in for hours of reading."...

astonishing, though, is Dale's ability to imbue each character with an unforgettable identity and personality. The verbal acrobatics he employs as he moves between voices and narrative passages are equally amazing. ### [Listening to audiobooks critically](#)

Mary Burkey writes: "Many facets beyond mere re-creation of the text are considered when evaluating audiobooks. The interplay between content and technical production is a balancing act between two sides of a seesaw. An award-winning book might result in a poorly produced audio with lackluster narration and poor technical qualities. On the other hand, a marginal print title might find a quirky interpretation featuring a gifted narrator who raises the quality and reinvents the work. A truly effective audiobook maintains a perfect balance between meaningful content and faultless production values."...

### National Security Letters Reform Act introduced

[<http://www.ala.org/ala/pressreleases2007/july2007/nslreformact.htm>]

Bipartisan legislation was introduced in the U.S. House of Representatives July 26 that will provide crucial checks against the National Security Letters authority expanded under the USA Patriot Act. At an event in the Cannon House Office Building, the National Security Letters Reform Act of 2007 was introduced by Reps. Jerrold Nadler (D-N.Y.), Jeff Flake (R-Ariz.), William Delahunt (above, D-Mass.), and Ron Paul (R-Tex.). ALA Washington Office Executive Director Emily Sheketoff (right) said the legislation would “minimize this unconstitutional intrusion into library patrons’ records.”...

### Senators hear arguments for internet safety education

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/july2007/senatehearings.cfm>]

The U.S. Senate Committee on Commerce, Science, and Transportation held hearings July 24 to review steps that Congress could take to protect children from online predators. The hearings were called to solicit input on a revised version of the Protecting Children in the 21st Century Act (S. 49) that Committee Vice Chairman Sen. Ted Stevens (R-Alaska) said his staff is working on, following

the bill's failure to come up for a vote....

#### Strike closes Vancouver's 22 branches

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/july2007/vancouverstrike.cfm>]

Some 790 employees of the Vancouver (B.C.) Public Library went on strike July 26, the first such walkout in the library's 77 years as a unionized workplace. The action shut down the system's 22 branches as well as its online services....

#### Michigan man loses nonresident lawsuit

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/july2007/bloomfieldsuit.cfm>]

A resident of Bloomfield Hills, Michigan, has lost an appeal to the state Supreme Court of his claim that Michigan public libraries must sell nonresidents library cards on request. The July 26 decision ended plaintiff George Goldstone's quest to regain borrowing privileges at the Bloomfield Township Public Library, which ceased offering those services to Bloomfield Hills residents in 2003 after the municipality declined to renew a 39-year contract with BTPL by rejecting a proposed \$187,550 fee increase....

#### Toronto cuts Sunday hours, cancels purchases

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/july2007/torontocuts.cfm>]

The Toronto (Ont.) Public Library board voted July 25 to eliminate Sunday service at 16 of its more than 100 branches, including the downtown reference library (right), and cancel the purchase of 14,000 items. The actions were among measures taken to cut \$1.2 million from the library budget as part of a citywide effort to make up a \$575-million shortfall....

#### Pepper spray likely cause of sickened patrons

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/july2007/pepperannarbor.cfm>]

Seven people were treated at two local hospitals July 25 after a mysterious substance caused many patrons of the Ann Arbor (Mich.) District Library branch in the Westgate Shopping Center—and as well as those at a neighboring Kroger supermarket—to complain of a strange smell, nausea, burning eyes and skin, and difficulty breathing. After receiving a call from the library around 9 p.m., emergency crews arrived at the shopping center and treated as many as 25 people....

During the 2007 ALA Annual Conference in Washington, D.C., the ALA Intellectual Freedom Committee and Committee on Legislation cosponsored a program that featured Sibel Edmonds, President and Founder of the National Security Whistleblowers Coalition. Edmonds gained worldwide attention in 2002 after she was fired by the FBI for reporting shoddy work and security breaches that may have prevented the 9/11 attacks. Also speaking was Stephen Kohn, President of the National Whistleblower Center....

#### Harry Potter and the censor's flames

[<http://www.ilovelibraries.org/news/topstories/potteroped.cfm>]

Office for Intellectual Freedom Director Judith Krug (right) writes: "Harry Potter snuck up on me. In 1999, I'd yet to read Harry Potter and the Sorcerer's Stone when a South Carolina librarian reported that parents were seeking to remove the book from school libraries and classroom. Naturally, I was curious as to what was behind this attempt to censor a popular children's book that, by all reports, was encouraging even reluctant readers to settle in for hours of reading."...

Rowling, J. K. Harry Potter and the Deathly Hallows. Read by Jim Dale. July 2007. 21hr. Listening Library, CS (978-0-7393-6040-8).  
British actor Jim Dale, who is cited in the Guinness Book of World Records for creating more than 200 voices for the Harry Potter books, turns in another virtuoso performance in this series finale. As in previous Harry Potter recordings, the sheer number of characters is astonishing; even more astonishing, though, is Dale's ability to imbue each character with an unforgettable identity and personality. The verbal acrobatics he employs as he moves between voices and narrative passages are equally amazing. A single word of "Silence!" uttered in Voldemort's menacing hiss will evoke shivers of terror, and even minor distractions—a song sung by Peeves the poltergeist, for example—are highly memorable....

Mary Burkey writes: "Many facets beyond mere re-creation of the text are considered when evaluating audiobooks. The interplay between content and technical production is a balancing act between two sides of a seesaw. An award-winning book might result in a poorly produced audio with lackluster narration and poor technical qualities. On the other hand, a marginal print title might find a quirky interpretation featuring a gifted narrator who raises the quality and reinvents the work. A truly effective audiobook maintains a perfect balance between meaningful content and faultless production values."...

Ithaka report on university publishing

[<http://www.ithaka.org/strategic-services/university-publishing>]

In American colleges and universities, access to the Web is ubiquitous; consequently nearly all intellectual effort results in some form of “publishing.” Yet universities do not treat this function as an important, mission-centric endeavor. The result has been a scholarly publishing industry that many in the university community find to be increasingly out of step with the important values of the academy. University Publishing in a Digital Age argues that a renewed commitment to publishing in its broadest sense can enable universities to more fully realize the potential global impact of their academic programs....

Possessed Books a bit lame [<http://blog.wired.com/gadgets/2007/07/possessed-books.html>]

These “Possessed Books” might be an economical (\$25) way to freak out your youngest patrons during

the Halloween season. Looking like a standard set of Victorian-era staples, the set contains a motion detector to spot passers-by, and slides Silas Marner toward them as if moved by a ghostly hand. What actually happens, however, is that a loud servo whirs as the book clunks in and out, accompanied by a badly-cropped 8khz sample fizzling like potassium in a bucket. Semi-postal stamps helped Philippine libraries in 1949 [<http://www.libraryhistorybuff.org/>]  
Larry Nix writes: “World War II devastated public libraries in the Philippines. On April 1, 1949, the Philippine postal administration issued a set of three semi-postal stamps to raise funds to help rehabilitate the public libraries. Semi-postals have two values assigned, one to pay the postage and the other to go to some charitable activity. This set of stamps included the first semi-postals for the Philippine Republic.”...

### [National Security Letters Reform Act introduced](#)

Designed to counter Justice Department abuse of National Security Letters as reported in an internal FBI audit in March, the National Security Letters Reform Act of 2007 (H.R. 3189) was introduced July 26 by a bipartisan group that included Reps. Jerrold Nadler (D-N.Y.), Jeff Flake (R-Ariz.), William Delahunt (D-Md.), and Ron Paul (R-Tex.). The Justice Department's handling of NSLs in libraries has been controversial, most notably in the case of the "Connecticut John Does."...

### [Tax reform measures have Florida libraries bracing for major cuts](#)

A property-tax rollback passed by the Florida legislature in June is sending libraries scrambling to prepare for significant cuts; but even worse consequences loom if voters approve a constitutional amendment on the January ballot. The June measure, which goes into effect at the start of the next fiscal year on October 1, is a tax cut and cap that requires cities and counties to roll back their annual tax rates to 2006–07 levels, as well as mandating additional cuts....

### [Patron abuse prompts trial of social-network filtering](#)

One branch of the 18-facility Kent District Library system, which serves greater Grand Rapids, Michigan, began blocking access July 23 to the popular social-networking sites MySpace, Facebook, and Bebo on 34 of its 40 workstations. The six unfiltered machines face the reference desk, and so facilitate adult supervision of online users, including a number of alleged gang members who, police claim, have been using the social-networking sites as a means to intimidate rivals....

### [UCLA report proposes Taser policy changes](#)

The University of California at Los Angeles released August 1 an independent report that found that a university police officer violated the university police department's guidelines for acceptable use of force in using a Taser on a student in November 2006. The student, Mostafa Tabatabaiejad, is suing the university, the campus police,

Mules are too tough to bother being sweet. They do a hard job that no other animal or human invention can do as well. But these mules are rather special. They are known as *bibliomulas* (book mules) and they are helping to spread the benefits of reading to people who are isolated from much of the world around them. The idea of loading mules with books and taking them into the mountain villages was started by the Universidad Valle del Momboy in Valera, Venezuela....

### [D.C. library patrons indignant at lack of classic titles](#)

D.C. Public Library officials say they're reinventing the neighborhood library by culling their shelves, restocking with popular titles, and focusing on digital media and self-help books. But some activists say the library is dumbing down its collection in a city where cultural standards and literacy rates are already shameful....

### [Millions in state funds released for Hawaii library](#)

For years, Baldwin High School students in Wailuku, Hawaii, have squeezed into a 3,500-square-foot library without air conditioning. On August 1, Gov. Linda Lingle released \$9.5 million for a new 13,000-square-foot library at Baldwin, much to the excitement of students and staff. "We're just ecstatic about it," said librarian Sande Trenholme. "We're very thankful it's finally happening." The governor also released \$8.7 million for a new eight-classroom building at Maui Waena Intermediate School....

### [Senators take another stab at shielding kids online](#)

Here's another bill to add to the heap of congressional proposals offered in the spirit of combating child pornography and keeping kids safe from predators on the internet: It's called the Protecting Children in the 21st Century Act. If the 11-page bill seen by C|Net on August 3 becomes law, ISPs would face tripled fines for failing to report child pornography on their servers—up to \$150,000 for failing to report child pornography the first time, and up to \$300,000 for each subsequent failure....

Janice Raspen, a librarian at Conway Elementary School in Fredericksburg, Va., came clean with her book club a couple years ago. They were discussing *A Fine Balance*, a novel set in India in the 1970s by Rohinton Mistry and an Oprah's Book Club pick, when she told the group—all fellow teachers—that rather than read the book, she had listened to an audio version. Is it acceptable, they debated within and among themselves, to listen to that month's book rather than read it? Or is that cheating, like watching the movie instead of reading the book?...

Q. I just started a new job and can't believe the library doesn't have a policy about parents leaving their children in the library! Where can I find resources to develop one... quickly?

A. As stated in ALA's 2000 publication, *Unattended Children in the Public Library: A Resource Guide* [<http://www.ala.org/Template.cfm?Section=viewallbooks&template=/ContentManagement/ContentDisplay.cfm&ContentID=58176>]: "Research is the first step in developing your policy. Start with your own library by reviewing any current policies to see if they adequately address unattended children. You may have a policy on disruptive behavior that does not refer specifically to unattended children but does define unacceptable behavior. In order to have a policy that is internally consistent and easy for staff to use and patrons to understand, it is helpful to cross-reference similar parts of the policy. The unattended children policy should be consistent with other sections of policy dealing with patron behavior." ### [Iraq National Library director resists military intrusions](#)

Saad Eskander, director of the Iraq National Library and Archive in Baghdad, issued a plea to the international library community August 9 for support in his efforts to resist the unlawful entry of Iraqi National Guard troops, which, he believes, endangers the INLA's staff and collections.

According to Eskander, a group of guards forced their way into the main building August 8 as the government declared a four-day curfew, which kept the director in his home....

### [Senate committee passes TV content-blocking legislation](#)

The Senate Commerce Committee passed August 2 the Child Safe Viewing Act of 2007 (S. 602), which requires the Federal Communications Commission to assess new blocking technologies similar to the television V-chip for use in broadcast, pay TV, internet, and other media delivery systems. The bill would give the FCC approximately one year to review developing technologies and give Congress recommendations to help parents navigate indecent or violent content....

### [Spokane schools halve K-8 librarians' hours](#)

Despite two months of protest and negotiations from parents and teacher-librarians, the board of the Spokane (Wash.) Public Schools unanimously approved August 8 the reduction to part-time status of librarians serving 10 elementary schools as part of the district's 2007-08 budget. Culminating several years of cutting other elementary-school librarians' hours, the action leaves the second-

"I did everything I could here," Ted Stark, interim director of the shuttered Jackson County (Oreg.) Libraries, told *American Libraries* about his resigning effective August 17 to head the Menomonie (Wis.) Public Library. Stark succeeded Ronnie Budge, who retired just before the 15-branch system was shuttered in April due to lack of operating funds....

### [Colorado man investigated in massive theft scheme](#)

A Denver man is being investigated for allegedly checking out more than \$45,000 worth of materials, largely DVDs, from four area library systems with the intent to sell them online. Thomas Pilaar, 33, is suspected of getting seven library cards under different names from Denver Public Library, checking out 300 items per card, and selling at least some of the borrowed materials....

### [Bishop's name removed from university library](#)

The board of directors of St. Ambrose University in Davenport, Iowa, voted to remove the name of the late Bishop Gerald F. O'Keefe from the university's library August 3. The board acted after considering the request of Mark Powell, a St. Ambrose alumnus and a victim of sexual abuse by priests in the Davenport Diocese in the late 1970s, when O'Keefe was bishop there....

### [Search engines and privacy](#)

C|Net News.com recently polled the five leading search engine companies to see how long they retain search data, how they eventually dispose of it, whether they engage in behavioral targeting, and whether they use information they have from user sign-ups to guide which ads are displayed. The answers suggest that Ask.com was the most protective of user privacy. And Google, Microsoft, Yahoo, and AOL? [Results](#) were mixed....

### [Law librarians like their jobs, but vendors are a problem](#)

Today's law library is tightly integrated with the rest of the firm. It's vital for finding case law and for finding new business. LawFirmInc.'s sixth annual survey of law-firm librarians reveals that they're continuing to move beyond legal research and into marketing and competitive intelligence, computer training, and knowledge management projects. But while job satisfaction rates remain high, headaches come from the vendors who sell access to electronic research tools....

## [Judging the covers of books](#)

Covers—a website maintained by a graphic design group in Portland, Denver, Cupertino, and Brooklyn called Fwis—is dedicated to the appreciation of book cover design. Anyone can submit a book-cover critique or post comments about those already on the site. About this cover of *Gulag*, Ben Pieratt writes: “A well-done call back to Russian constructivism without the usual cheese that comes with it. I especially like the fold in the ribbon of the white Nobel Prize bar.”...

## [How do students conduct academic research?](#)

Alison J. Head used student discussion groups, content analysis, and a student survey to find that students may not be as reliant on public internet sites as previous research has reported. Students in her study at Saint Mary's College of California used a hybrid approach for conducting course-related research, and a majority leveraged both online and offline sources to overcome challenges with finding, selecting, and evaluating resources and gauging professors' expectations for quality research....

## [Book circulation per public-library user since 1856](#)

FCC Senior Economist Douglas A. Galbi reviewed existing studies of library circulation statistics to show that from 1856 to 1978 users borrowed an average of 15 books per year from U.S. public libraries, but the rate has since dropped by 50%. He writes: “The growth of audiovisuals circulation, estimated at 25% of total circulation in 2004, accounts for about half of this decline. These figures depend on estimates and disparate samples of libraries with varying circulation and user accounting methods. Nonetheless, it suggests that historically established institutions significantly stabilize borrowing behavior.”...

### Iraq National Library director resists military intrusions

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/august2007/eskander.cfm>]

Saad Eskander, director of the Iraq National Library and Archive in Baghdad, issued a plea to the international library community August 9 for support in his efforts to resist the unlawful entry of Iraqi National Guard troops, which, he believes, endangers the INLA's staff and collections. According to Eskander, a group of guards forced their way into the main building August 8 as the government declared a four-day curfew, which kept the director in his home....

### LC announces digital preservation partnerships

its new Preserving Creative America initiative, which targets the digital preservation of creative media, including movies, sound recordings, digital photography, and video games....

#### Senate committee passes TV content-blocking legislation

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/august2007/tvcontent.cfm>]

The Senate Commerce Committee passed August 2 the Child Safe Viewing Act of 2007 (S. 602), which requires the Federal Communications Commission to assess new blocking technologies similar to the television V-chip for use in broadcast, pay TV, internet, and other media delivery systems. The bill would give the FCC approximately one year to review developing technologies and give Congress recommendations to help parents navigate indecent or violent content....

#### Spokane schools halve librarians' hours

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/august2007/spokane.cfm>]

Despite two months of protest and negotiations from parents and teacher-librarians, the board of the Spokane (Wash.) Public Schools unanimously approved August 8 the reduction to part-time status of librarians serving 10 elementary schools as part of the district's 2007-08 budget. Culminating several years of cutting other elementary-school librarians' hours, the action leaves the second-largest school district in Washington without a single full-time K-8 teacher-librarian....

Kerouac's first wife, Edie Parker, played a pivotal role in his literary evolution, but her side of the story hasn't been fully known until now. A pampered and venturesome 17-year-old when she first spies handsome Jack pushing Cole Porter in a wheelchair near Columbia University, she falls madly in love. Against her family's wishes, she valiantly marries Kerouac in 1944 in order to spring him from a Bronx jail after he was arrested as an accomplice to their friend Lucien Carr's murder of the stalker David Kammerer....

EBSCOhost improves usability

[<http://www.epnet.com/thisTopic.php?topicID=844&marketID=1>]

EBSCO Publishing has teamed with accessibility experts to make it easier to search EBSCOhost using screen readers and keyboard controls. Working with the EBSCO Accessibility Interest Group, led by the Illinois Center for Instructional Technology Accessibility at the University of Illinois at Urbana/Champaign, EBSCO was able to determine that Text Only interfaces (aka 508 compliance), the industry standard for web accessibility, were no longer enough....

Report refutes claims of social networking dangers

[<http://www.pcworld.com/article/id,135687-c,techindustrytrends/article.html>]

A study (PDF file [<http://www.nsba.org/site/docs/41400/41340.pdf>]) released this month by the National School Boards Association debunks the common assumption that MySpace and other social networking sites are breeding grounds for sexual predators seeking to harm students. The study, which surveyed students between the ages of 9 and 17, parents, and school-district leaders, found that less than 3% of students said that unwelcome strangers have tried repeatedly to communicate with them. On the other hand, 60% of the students report using social networking to discuss education-related topics. The study goes on to recommend that school districts reconsider the common practice of restricting student access to social networking tools....

Invade the "Answer" sites!

[<http://answerboards.wetpaint.com/page/Slam+the+Boards%21>]

On Monday, September 10, librarians are invited to be a little bold and have a little fun by going to online "Answer" sites—such as Yahoo Answers, Amazon's Askville, and the Wikipedia Reference Desk—and answer queries all day. Make it clear that your answer was provided by a library professional. Add a link to your own library, and suggest that readers should consider finding answers in their own libraries, too....

Web users read more, say less

[<http://www.online-publishers.org/?pg=press&dt=081307>]

Internet users are spending nearly half their online time reading content, a 37% increase in share of time from four years ago, according to the Online Publishers Association. According to the OPA's Internet Activity Index, conducted by Nielsen/NetRatings, communications accounted for 46% of consumers' time online in 2003. A dramatic shift has taken place since then, with consumers now spending 47% of their time with content, compared with 34% four years ago....

A new web tool called Wikipedia Scanner

[<http://wikiscanner.virgil.gr/>]<sup>1</sup>—the brainchild of CalTech computation and neural-systems graduate student Virgil Griffith—offers users a searchable database that ties millions of anonymous Wikipedia edits to the organizations where those edits apparently originated. Inspired by news that Congressional staffers had been editing their own entries, Griffith says he got curious and wanted to know whether big companies and other organizations (like Diebold, Pfizer, and the CIA) were doing things in a similarly self-interested vein....

Law librarians like their jobs, but vendors are a problem

[<http://www.law.com/jsp/llf/PubArticleLLF.jsp?id=1186650119943>]

Today's law library is tightly integrated with the rest of the firm. It's vital for finding case law and for finding new business. LawFirmInc.'s sixth annual survey of law-firm librarians reveals that they're continuing to move beyond legal research and into marketing and competitive intelligence, computer training, and knowledge management projects. But while job satisfaction rates remain high, headaches come from the vendors who sell access to electronic research tools....

Book circulation per public-library user since 1856

[<http://www.galbithink.org/libraries/circulation.htm>]

FCC Senior Economist Douglas A. Galbi reviewed existing studies of library circulation statistics to show that from 1856 to 1978 users borrowed an average of 15 books per year from U.S. public libraries, but the rate has since dropped by 50%. He writes: "The growth of audiovisuals circulation, estimated at 25% of total circulation in 2004, accounts for about half of this decline. These figures depend on estimates and disparate samples of libraries with varying circulation and user accounting methods. Nonetheless, it suggests that historically established institutions significantly stabilize borrowing behavior."...

## Ask the ALA Librarian

---

Q. Mixed in with some donations dropped off at our library recently was an older title with a bookplate that says "War Service Library—This book is provided by the people of the United States through the American Library Association for the use of the soliders and sailors." What is the significance of this?

A. The bookplate— sometimes a label—is one of several versions affixed to books furnished to sailors and soldiers by the American Library Association during World War I. In 1917 [<http://wikis.ala.org/professionaltips/index.php/1910s>], ALA established the Committee on Mobilization and War Service Plans (later the War Service Committee). ALA's wartime program, known as the Library War Service [[http://wikis.ala.org/professionaltips/index.php/Library\\_War\\_Service](http://wikis.ala.org/professionaltips/index.php/Library_War_Service)], was directed by Herbert Putnam, Library of Congress, and later by Carl H. Milam. Between 1917 and 1920, ALA mounted two financial campaigns and raised \$5 million from public donations; erected 36 camp libraries with Carnegie Corporation funds; distributed approximately 10 million books and magazines; and provided library collections to 5,000 locations. Continuing byproducts of this effort are the American Library in Paris [<http://www.americanlibraryinparis.org/>] and military libraries all over the country and the world. The work is carried on by librarians who are members of the Federal and Armed Forces Libraries Round Table [<http://www.ala.org/template.cfm?Section=fafllrt>]. ### [Indigenous knowledge matters at IFLA Conference in South Africa](#)

The 73rd World Library and Information Congress of the International Federation of Library Associations and Institutions (IFLA) convened August 19 in Durban, South Africa, with a new emphasis on indigenous knowledge and oral history in relation to "Libraries for the Future," the conference theme. The five-day conference offered some 3,100 delegates from 116 nations an opportunity to witness firsthand the transformations that have occurred in South African libraries and in the nation itself since the end of Apartheid in 1994....

### [CILIP calls on government to intervene in UK library decline](#)

The Chartered Institute of Library and Information Professionals, Britain's professional library association, has asked UK Culture Secretary James Purnell to use his legal authority to stop local councils from further degrading public library service. In an August 8 letter, CILIP Chief Executive Bob McKee wrote that a number of council authorities were planning drastic staff reductions and even turning over libraries to inexperienced community groups in an effort to save money....

### [Cambridge contacts U.S. libraries over Alms for Jihad](#)

Cambridge University Press has requested some American libraries that own the 2006 book *Alms for Jihad: Charity and Terrorism in the Islamic World* by J. Millard Burr and Robert O. Collins to either remove it from their shelves or add an errata sheet. In an August 15 letter to libraries, Intellectual Property Director Kevin Taylor said that CUP intends to "take every reasonable measure to ensure that readers who may consult this book in the future are made aware of its erroneous statements and to ensure that this defamation is not perpetuated."...

### [Bedford trustees ousted over opposing outsourcing proponent](#)

In the latest development over a controversial proposal to privatize the Bedford (Tex.) Public Library, the city council voted out three members of the library board August 14 after Councilman Charles Orean charged them with "character assassination." Orean serves as liaison between the council and the library board, and board members had accused him of a conflict of interest because he has been pushing for the outsourcing while serving as liaison....

### [Saugus inches back to full-time hours](#)

The Saugus (Mass.) Public Library must expand its hours to 50.4 per week by September 3 or it will have to repay a \$1.1-million grant to the state. Although the library closed indefinitely May 24 after voters rejected a tax-override proposal in April, the town set aside \$277,000 at its June 25 meeting for the library to reopen for 15 hours with eight part-time staff. Trustees later expanded the hours to 18.5—still a long way from its objective coming due in less than three weeks....

### [Waukesha County nixes fair funding again](#)

The absence of four supervisors at an August 14 Waukesha County (Wis.) Board of Supervisors meeting has cost the 16-member federated county library system an additional \$345,000 in long-sought additional revenue. The second time in four years that the funding-formula modification has been defeated by elected officials, the proposal would have shifted 13 cents per \$1 of property taxes for library capital expenses from Waukesha County towns containing libraries to people living in communities without a library....

### [No restriction on \*Fallen Angels\* in Idaho](#)

A committee that reviews school library books that some parents think are inappropriate will recommend that the Coeur d'Alene, Idaho, school board place no restrictions on two titles. The committee, made up of parents, teachers, administrators, a librarian, and a student, recommended August 20 that no restrictions be placed on *Fallen Angels* by Walter Dean Myers and *I Know Why the Caged Bird Sings* by Maya Angelou.

Three other titles that drew complaints by parent Mary Jo Finney, who has children in middle school and high school, are still under review....

## Tech Talk

### [Are you ready for virtual worlds?](#)

Google, Second Life creator Linden Lab, IBM, and a bevy of additional companies are moving toward the day when you can stroll around a 3D Web using a virtual replica of yourself that you've created. They are working to establish technical standards, open to all programmers, that would allow the entire internet to become a galaxy of connected virtual worlds. As you walk by a sale at a virtual jeans store, web cameras in the real store let you see how crowded it actually is, in case a popular item is selling out. Your avatar, set to your body's measurements, tries on the jeans and spins around to show them to your pals....

Michael W. Muchmore writes: "If you've ever had an email inbox clogged with attachments from friends or coworkers, you've probably experienced an inbox slowdown or run up against its storage limit. Maybe you've tried to send or receive a humungous file through email, but the system wouldn't even allow your oversized attachment to be delivered. Web services that let you avoid these problems have arrived on the scene, and some of them don't require any tech savvy and won't cost you anything."...

### [Worth remembering: ALA in New Orleans.](#)

Judith Faust, business and economics librarian at California State University, East Bay, submitted this remembrance of Annual Conference in New Orleans after Hurricane Katrina. She writes: "As we pass the 2nd anniversary of Hurricane Katrina, I'm reminded that I have never been prouder of 'my' association than the day in November 2005, three months after the hurricane hit, when word came out that the ALA was going to meet its original commitment to hold the June 2006 Annual Conference in New Orleans, and that two days would be set aside for librarian volunteers to work on community service projects. As a librarian in the San Francisco Bay Area who had already been back to New Orleans to help my parents and sister with their homes, my eyes welled up when I heard the news, knowing how important this would be for the city's economy. I was ecstatic for New Orleans and fiercely proud of ALA."...

Cambridge University Press has requested some American libraries that own the 2006 book *Alms for Jihad: Charity and Terrorism in the Islamic World* by J. Millard Burr and Robert O. Collins to either remove it from their shelves or add an errata sheet. In an August 15 letter to libraries, Intellectual Property Director Kevin Taylor said that CUP intends to "take every reasonable measure to ensure that readers who may consult this book in the future are made aware of its erroneous statements and to ensure that this defamation is not perpetuated."

In the latest development over a controversial proposal to privatize the Bedford (Tex.) Public Library, the city council voted out three members of the library board August 14 after Councilman Charles Orea charged them with "character assassination." Orea serves as liaison between the council and the library board, and board members had accused him of a conflict of interest because he has been pushing for the outsourcing while serving as liaison....

#### Saugus inches back to full-time hours

[<http://www.ala.org/ala/alonline/currentnews/newsarchive/2007/august2007/saugusinch.cfm>]

The Saugus (Mass.) Public Library must expand its hours to 50.4 per week by September 3 or it will have to repay a \$1.1-million grant to the state. Although the library closed indefinitely May 24 after voters rejected a tax-override proposal in April, the town set aside \$277,000 at its June 25 meeting for the library to reopen for 15 hours with eight part-time staff. Trustees later expanded the hours to 18.5—still a long way from its objective coming due in less than three weeks....

The absence of four supervisors at an August 14 Waukesha County (Wis.) Board of Supervisors meeting has cost the 16-member federated county library system an additional \$345,000 in long-sought additional revenue. The second time in four years that the funding-formula modification has been defeated by elected officials, the proposal would have shifted 13 cents per \$1 of property taxes for library capital expenses from Waukesha County towns containing libraries to people living in communities without a library....

The Bill and Melinda Gates Foundation's Global Libraries initiative presented its 2007 Access to Learning Award of \$1 million on August 20 to the Northern Territory Library, a regional public library system based in Darwin, Australia. The award, given at the International Federation of Library Associations and Institutions conference in Durban, South Africa, honors NTL's innovative approach to bringing computer and internet technology to remote indigenous communities. NTL's groundbreaking Our Story database allows local people to preserve and share their cultural heritage by archiving digital recordings and photographs on library computers. Microsoft will donate \$224,000 in software and technology training curriculum to upgrade NTL's 300 computers....

#### Public Perception

How the World  
Sees Us

“Bad information can spread like kudzu. A newspaper or magazine might print incorrect information, and then someone researching the topic picks up that bad information and uses it in a story or on a website. The process repeats until bad information blankets the Web.

“If this is a concern, try something really radical: Go to a library. Trained reference librarians have access to expensive commercial databases you can't affordably visit. And they have old-fashioned reference books.”

From the CentenniAL Blog

Worth remembering: ALA in New Orleans.

[[http://blogs.ala.org/AL100.php?title=worth\\_remembering&more=1&c=1&tb=1&pb=1](http://blogs.ala.org/AL100.php?title=worth_remembering&more=1&c=1&tb=1&pb=1)] Judith Faust, business and economics librarian at California State University, East Bay, submitted this remembrance of Annual Conference in New Orleans after Hurricane Katrina. She writes: “As we pass the 2nd anniversary of Hurricane Katrina, I’m reminded that I have never been prouder of ‘my’ association than the day in November 2005, three months after the hurricane hit, when word came out that the ALA was going to meet its original commitment to hold the June 2006 Annual Conference in New Orleans, and that two days would be set aside for librarian volunteers to work on community service projects. As a librarian in the San Francisco Bay Area who had already been back to New Orleans to help my parents and sister with their homes, my eyes welled up when I heard the news, knowing how important this would be for the city’s economy. I was ecstatic for New Orleans and fiercely proud of ALA.”...

Ask the ALA Librarian

Q. I just read in the ALA Washington Office’s District Dispatch blog [[http://blogs.ala.org/districtdispatch.php?title=make\\_sure\\_you\\_and\\_your\\_community\\_are\\_prepared&more=1&c=1&tb=1&pb=1](http://blogs.ala.org/districtdispatch.php?title=make_sure_you_and_your_community_are_prepared&more=1&c=1&tb=1&pb=1)] that 70% of libraries do not have a disaster plan—and we’re one of them! Where can I get help in writing one?

A. There are a number of resources available to you. That same posting lists several web-based resources for disaster readiness [[http://wikis.ala.org/professionaltips/index.php/Disaster\\_Readiness](http://wikis.ala.org/professionaltips/index.php/Disaster_Readiness)]. Be sure to work with your local government and your state library, as your plan needs to work in concert with those developed for larger areas. Some state libraries or regional consortia will have resources of their own. The Indiana State Library [<http://www.statelib.lib.in.us/www/isl/ldo/pol/plpolicies.html>], for example, has a disaster plan template available. SOLINET’s Preservation Field Service Program [[http://www.solinet.net/preservation/preservation\\_templ.cfm?doc\\_id=71](http://www.solinet.net/preservation/preservation_templ.cfm?doc_id=71)] has extensive resources available for its members, as do other regional networks. There are also workshops, such as an online one from SOLINET [[http://www.solinet.net/workshops/ws\\_details.cfm?doc\\_id=3004&WKSHPID=12DDP](http://www.solinet.net/workshops/ws_details.cfm?doc_id=3004&WKSHPID=12DDP)] or a tailored on-site workshop from the Northeast Document Conservation Center [<http://www.nedcc.org/education/offerings.php>]. Again, check with your local consortium, state association, or state library to see what might be available in your area—or to see what would be entailed in bringing one of the workshops from ALCTS [<http://www.ala.org/ALCTSTemplate.cfm?Section=alcts>], NEDCC, or SOLINET to your area. ### [Vancouver library staff serve as they strike](#)

Five weeks into a strike over pay equity issues that city officials say could continue for months, Vancouver (B.C.) Public Library staff are keeping busy on the picket line with music, lectures, and public service. "It's very difficult to take the library out of the library worker," union President Alex Youngberg said. Staffer Todd Wong has entertained fellow members of CUPE Local 391 by performing on his accordion, and he has organized performances or readings by poets, choirs, and authors. ### [Tax rollback strains Broward's joint-use model](#)

In implementing a 9% property-tax rollback triggered by the Florida legislature this spring, Broward County commissioners have run into a significant roadblock: the county's six-year-old joint-use agreement with Nova Southeastern University to share the collections and services of the NSU Davie campus's Alvin Sherman Library, Research, and Information Technology Center. Instead of agreeing to BCL Director Robert Cannon's request that the county's \$5.5-million annual support of Sherman be reduced by \$575,000, NSU has asked for \$940,000 more per year because library records indicate that more than 50% of its patrons are not affiliated with the university....

### [New Jersey borough sues its library for patrons' names](#)

The borough of Bloomingdale, New Jersey, filed a lawsuit August 3 in state Superior Court over its public library's refusal to provide the names and addresses of all its users. The borough council wanted demographic information on patrons so that it could close the library and negotiate a less expensive contract with neighboring Riverdale to provide library services. However, Bloomingdale Free Public Library

### [Schwarzenegger budget a major disappointment for libraries](#)

Shortly after noon on August 24, California Gov. Arnold Schwarzenegger signed the 2007-08 state budget, 52 days late. Suffering significant cuts in an attempt to achieve a "zero deficit" budget were two major library programs: the Public Library Foundation and the Transaction Based Reimbursement Program, both reduced by \$7 million. Many libraries will feel the pinch; in [Marin County](#), about \$114,000 will be missing from the library system's \$13-million budget, said Carol Starr, director of county library services....

### **Public Perception** How the World Sees Us

**"Library administrators often are left scrounging for funding as tax dollars are spent on law enforcement, levees, and other important needs. That's unfortunate, because some of the most professional, visionary, and caring people are working at libraries."**

The former finance director for the Ann Arbor (Mich.) District Library again escaped a prison sentence August 28 after turning over money he posted for a jail bond and agreeing to have his wages garnished. Donald G. Dely, 61, was convicted in 2000 of embezzling \$119,387 from the library from 1997 to 2000. Since then, he has been accused of repeatedly violating the terms of his probation by failing to repay the money. He still owes the library \$91,827....

### [Spanish National Library director resigns after map loss](#)

The director of Spain's national library, 74-year-old prize-winning author Rosa Regás, resigned from her post August 27, saying she did not have the confidence of the nation's new culture minister, César Antonio Molina. Her resignation comes two days after the national library announced the theft of two maps from the Greek geographer Ptolemy's *Cosmographia* printed in 1482, but Regás said her decision to quit had nothing to do with the disappearance of the maps. Her left-wing opinions have won her criticism from Spain's conservative opposition....

The recently opened main branch of the Amsterdam Public Library was robbed the night of August 26 by several masked men who overpowered three security guards at gunpoint. Library Director Hans van Velzen said the men bound and blindfolded the guards, destroyed surveillance cameras, and set off the library sprinklers, causing some water damage. The guards were locked up for several hours, but managed ultimately to free themselves and call police. It is still unclear what the thieves were after....

Andrew Pace writes: "Bowker Syndetics now has an interesting catalog-enhancement product called [ICE \(Indexed Content Enrichment\)](#). What if you could have all the enrichment *and* index it with your MARC data? New catalogs, such as AquaBrowser, Endeca, Primo, and Encore, will certainly help this idea along, but we need more research. Indexing first chapters, reviews, tables of contents, flyleaves, and annotations, and turning media awards and fiction files into faceted navigation elements does not necessarily improve relevance ranking. It can provide recall where there was none before, but relevance is something different. And how will any of this compare with full-text (especially book-length text) relevance ranking?"...

Instead of agreeing to BCL Director Robert Cannon's request that the county's \$5.5-million annual support of Sherman be reduced by \$575,000, NSU has asked for \$940,000 more per year because library records indicate that more than 50% of its patrons are not affiliated with the university....

Second Life hype vs. human needs [<http://hhptf.org/article/377/second-life-hype-vs-human-needs>]  
John Gehner writes: “Last year, 85% of Illinois counties experienced an increase in poverty. I haven’t yet looked how the other 49 states compare. But it’s disappointing at times to think that some of the best and brightest information professionals are devoting their substantial talents to the denizens of Second Life, a virtual world founded on leisure time, rather than a real world with millions of people struggling for a Better Life every day.”...

Gail Borden systems are &#8220;go&#8221; for September 5 space talk

[<http://www.gailborden.info/LivewithISS.html>]

For the first time ever on September 5, kids in a library will talk directly to the International Space Station. If all goes as planned, youth from the Gail Borden Public Library District in Elgin, Illinois, will get approximately 10 minutes to speak directly to NASA astronaut Clay Anderson (right) as he glides overhead—horizon to horizon—on the space station orbiting 200 miles above the earth. Thanks to the library’s “Space: Dare to Dream” exhibit and some local help, the library was granted a rare Amateur Radio on the International Space Station contact....

Old librarians don&#8217;t die . . .

This collection of clever aphorisms (MP3 file) on how various types of librarians don't die was written and performed by law librarians at the University of Minnesota. As they say, "Law librarians don't die, their statute of limitations just runs out."...

Disco dancing for peace in the biblioblogosphere

[<http://www.libraryman.com/blog/2007/08/20/disco-dancing-for-peace-in-the-biblioblogosphere/>]

Libraryman Michael Porter took JibJab's "Starring You [[http://www.jibjab.com/starring\\_you/](http://www.jibjab.com/starring_you/)]" disco video and pasted his and Michael Gorman's faces on the freestyling duo. He writes: "Think of the promos libraries could do with a carefully planned marketing program using something like this (perhaps letting patrons stick themselves in a famous book setting, etc?). I must confess that upon seeing the results I couldn't help but wonder 'should I have just read a chapter or two in a book instead of making this?' Naaaah, who am I kidding, this was time well spent!"...

Another Library Man answers questions in Modesto

[<http://www.modbee.com/opinion/community/story/54059.html>]

Brad Barker, librarian at Mark Twain Junior High School in Modesto, California, has a new (potentially recurring) column in the Modesto Bee where he provides answers, some flippant, others informative, to such questions as: "Q: If the famous royal library at Alexandria hadn't been burned in ancient times, wouldn't human civilization be advanced hundreds of years ahead of where we are today? A: Yes, we'd all have flying cars like the Jetsons, and we'd never have invaded Iraq."...

## Ask the ALA Librarian

Q. I saw your news item

[<http://www.ala.org/ala/online/currentnews/newsarchive/2007/august2007/browardjoint.cfm>] about strains in the agreement for a joint use facility at the Nova Southeastern University/Broward County Library Alvin Sherman Library, Research, and Information Technology Center. How common are such arrangements?

A. Such arrangements are more common in countries, such as Sweden or Australia, where they enable library service in thinly populated areas. Alan Bundy, in his Joint-Use Libraries: The Ultimate Form of Cooperation (PDF file, [<http://www.library.unisa.edu.au/about/papers/jointuse.pdf>] 2003), sets the rate at 40% of libraries in Sweden. In the U.S., the number is much lower. A key to success seems to be a well-planned agreement, covering issues as enumerated in Report of the Standing Committee on Joint-Use Libraries, (PDF file

[[http://www.ccla.lib.fl.us/docs/reports/joint\\_use.pdf](http://www.ccla.lib.fl.us/docs/reports/joint_use.pdf)]) prepared January 30, 1996, at Florida's College Center for Library Automation. The Bundy article also has a checklist, as do the many other references on joint use libraries

[<http://wikis.ala.org/professionaltips/index.php/Joint-Use>] we've gathered for "Joint-Use Libraries: A Bibliography" (ALA Library Fact Sheet #20

[<http://www.ala.org/ala/alalibrary/libraryfactsheet/alalibraryfactsheet20.cfm>]). See the ALA Professional Tips wiki [[http://wikis.ala.org/professionaltips/index.php/Joint\\_Use\\_Facilities](http://wikis.ala.org/professionaltips/index.php/Joint_Use_Facilities)] for more....
