AUCTION NO. 101
MAY 17, 2014

AMOSKEAG MAY 17, 2014 - SALE NO. 101 - SILENT

TERMS AND CONDITIONS OF SALE

ONLINE CATALOG

Sale #99 will be our first auction which has no printed Silent Auction Catalog.

While we know all enjoy or full color live auction catalogs, we increasingly feel that in this digital age, a printed silent auction catalog is not only un-necessary but also an additional draw on our natural resources.

The entire catalog will viewable, searchable and printable online by visiting our website. In addition to the benefit having the catalog be searchable, we will also be able to publish color photographs in an online catalog and we will be able to "convert" the printing time to writing time enabling us to include more items in the auctions.

The silent catalogs run between 70 and 100 pages generally and many people bid on only a handful of items. Customers will be able to search the catalog, find the items they are interested in and print those select pages and bring them to the office with them to make additional notes during preview. Bid forms are also downloadable and can even be filled out online and emailed.

We understand that people generally are resistant to change and because our consignor's interests are paramount, we will monitor silent auction activity and we will listen to all of those with respectful comments, suggestions and ideas.

GENERAL STATEMENTS

- The Silent Auction is by absentee bidding only. Absentee bidders must register by filling out and signing an absentee bid sheet.
- The highest bidder acknowledged by the auctioneer shall become the owner upon the fall of the hammer. The auctioneer has sole discretion in the case of a dispute among bidders.
- Amoskeag Auction Company, Inc. has taken great care in the preparation of the descriptions in this catalog. Although we believe everything in the descriptions to be true, we do not guarantee any part of any description. We recommend that the bidders view the items in person and form their own opinions as to condition, originality, origin, etc. Amoskeag Auction Company, Inc. will consider all requests for refunds. If a customer is unhappy with a purchase we will be happy to discuss a remedy with them.
- Amoskeag Auction Company, Inc. reserves the right to reject any bid in order to protect our consignors interests.
- Bidding on any item in the sale indicates the bidder's full acceptance and understanding of all terms and conditions of sale.

PAYMENT POLICY

- Amoskeag Auction Company, Inc. will accept cash, check, MasterCard, Visa, and American Express as payment for items purchased by those customers who attend the sale. Amoskeag Auction Company, Inc. reserves the right to demand cash or hold merchandise until funds are collected in full. **THERE WILL BE A \$35.00 CHARGE FOR ALL RETURNED CHECKS.**
- There will be a Buyer's Premium of 17.5% added to all purchases. A discounted Buyer's Premium of 15% will apply to all purchases paid by cash or check.

GUIDELINES FOR FIREARM PURCHASES

- All Federal, State and Local firearms laws will be observed. FFL holders may take possession of any firearm on day of sale when they present a signed copy of their Federal Firearms License. New Hampshire residents over the age of 21 may take possession of any firearm on day of sale providing the proper paperwork is filled out and the transfer has been approved either through the NH State Police or the FBI NICS System. While most NICS and State approvals are immediate, approvals could take up to 3 days. Most non-residents may take possession of long guns on day of sale after completing the proper forms and successfully completing a NICS check; modern handguns will need to be shipped to an FFL holder in the buyer's home state. Buyer is responsible for any and all shipping charges and all items must be paid for on day of sale. Bidders should be familiar with their local and state laws.

Firearms are marked as follows:

ANTIQUÉ - no paperwork required

C&R - for firearms that fall under the ATF Curio & Relics licensing and if purchased by a person with a "C&R License" no paperwork is required. **NOTE:** Items that meet the age requirements but have been altered from their original configuration may NOT be delivered on a C&R License.

Firearms that are not marked with one of these notations are considered to be "MODERN" and all proper paperwork is required unless you are an FFL Dealer.

WARNING

Amoskeag Auction Company, Inc. **does not** warranty the safety of any article it sells. Therefore, we recommend that, before you use any firearm, purchased here or anywhere else, you have it examined by a qualified gunsmith to determine whether or not it is safe to use.

RESULTS FOR THE SILENT AUCTION WILL BE AVAILABLE WEDNESDAY, MAY 21, 2014.

1000. **SMITH & WESSON 32 TOP BREAK DOUBLE ACTION REVOLVER** serial #39277, 32 S&W, 3 1/2" ribbed round barrel with an about very good bore which shows strong evident rifling but with light pitting. The metal surfaces retain about 50-60% original nickel, the flaked areas toning to a dull pewter and oxidized brown patina. The triggerguard shows some strong original blue, also with some light surface oxidation. The hammer shows vivid color case-hardening while the trigger has toned somewhat to a pewter brown. The checkered S&W monogram hard rubber grips rate very good plus, they are scratch-numbered to the gun. The main-spring and hammer have been removed from the gun but they are included. Overall a good too near very good antique Smith top break for parts or restoration. (36332-104) {ANTIQUE} (100/200)

1001. **JP SAUER & SON BOXLOCK DOUBLE SHOTGUN** serial #182493, 12 ga., 27" barrels choked I.C. and modified with bright about excellent bores showing some very sparsely scattered very light pinprick pitting. The barrels retain about 90% mottled dark gray-blue fading later blue, the left tube with a very minor ding 6" from the muzzle. The frame is a dull pewter gray with some sparse brown oxidation freckling and light silver flaky case-hardening. The frame shows some very good quality light scroll and banknote filigree engraving. The checkered round knob pistolgrip buttstock and splinter style forend rate good to near very good showing an old refinish which has left the checkering mostly flat-topped and the metal slightly proud in areas. The ebony inlay is missing from the forend tip and the length of pull at the butt to the grooved horn buttplate is 13 3/8"; drops are 1 3/4" and 3 1/8". The barrel lock-up is loose exhibiting both lateral and vertical play; the top lever currently has about 1/4" of play in it. A very good German boxlock overall needing some mechanical attention to be put back in play for October birds. (36599-36) {C&R} (250/450)

1002. **ROLLIN WHITE PIVOT BREECH SINGLE SHOT POK-ET PISTOL** serial #107, 38 RF, 5" octagon barrel with a poor bore.

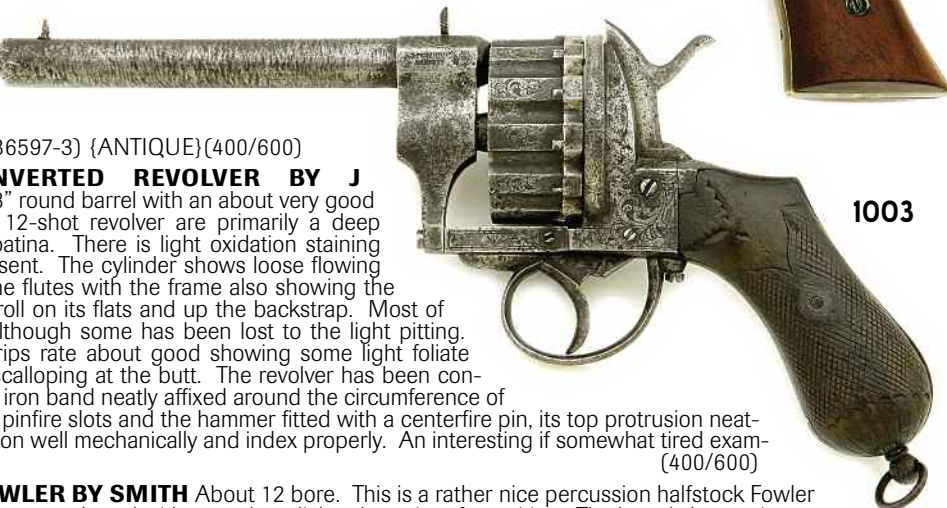

The iron surfaces are primarily, mottled dull pewter gray and darker gray-blue patina. The breechblock shows a number of impact marks on its left flat and the barrel shows evidence of a light cleaning, there are still remnants of pinprick pitting in areas. The brass frame is a tarnished goldenrod patina showing evidence of a light cleaning which has left behind some minor dings and handling marks. The extractor is present, its actuating piece appears to be a later, slightly short, replacement. The smooth walnut grips rate very good with much original varnish, the left grip perhaps showing a light cleaning, they are un-numbered. The gun will need some mechanical attention as it will not hold on cock. A good to about very good example piece overall. (36597-3) {ANTIQUE}{400/600}

1002

1003. **BELGIAN CENTERFIRE-CONVERTED REVOLVER BY J CHAINEUX** serial #1, .38 CF, 5 7/8" round barrel with an about very good bore.

The metal surfaces on this 12-shot revolver are primarily a deep pewter gray and speckled brown patina. There is light oxidation staining and overall light pinprick pitting present. The cylinder shows loose flowing scroll engraving between each of the flutes with the frame also showing the same good quality loose flowing scroll on its flats and up the backstrap. Most of the engraving is still fully present although some has been lost to the light pitting. The checkered European walnut grips rate about good showing some light foliate carving at their cheeks with incise scalloping at the butt. The revolver has been converted to centerfire by having a nice iron band neatly affixed around the circumference of the rear of the cylinder covering the pinfire slots and the hammer fitted with a centerfire pin, its top protrusion neatly trimmed. The gun seems to function well mechanically and index properly. An interesting if somewhat tired example overall. (36597-1) {ANTIQUE} (400/600)

1003

1004. **PERCUSSION HALFSTOCK FOWLER BY SMITH** About 12 bore. This is a rather nice percussion halfstock Fowler with 32" part octagon part round damascus barrel with turned medial at the point of transition. The barrel shows nice contrasting light gray and a darker gray-brown pattern nearly its full-length. There is a lightly engraved long iron upper tang and the back action lock shows loose sprays of light engraving on lockplate and hammer, it is marked only "Smith". There is an under-barrel rib with 2 simple iron thimbles and a lightly ribbed tailpipe. The long tang triggerguard has a pineapple front extension and very light engraving on the bow, the buttplate tang also with some very light engraving. The walnut stock rates about very good as neatly refinished showing a stable repair to a crack from the triggerplate upwards through the lock then rearward to the tang. The lock functions well and there is a replacement ramrod from the period of use. (36288-121) {ANTIQUE} (250/400)

1005. **U.S. MODEL 1903 RIFLE BY ROCK ISLAND ARSENAL** serial #308971, 30-06, 24" 8-29 dated SA barrel with a very good plus to near excellent bore which shows just some light frosting in the grooves. The metal surfaces are an overall pewter gray patina with remnants of light oxidation and the bottom metal showing light pinprick pitting. The smooth pistolgrip field replacement stock rates very good and is very dark with oil and preservative soaking, showing overall minor dings and handling marks. The flat upper surface of the bolt knob is DC pencil-marked "8941" however, the 4 could easily be a poorly-executed European 7 with the slash through the center. The gun was packed in cosmoline, much of which has now been removed but it will still need a judicious cleaning. The rifle comes with a Certificate of Authenticity from the Civilian Marksmanship Program dated 2002, along with an instruction manual and shipping ticket. The shipping box is included however it shows moderate mildew and should likely be discarded. (36518-1) {C&R} (500/700)

1006. **INTERNATIONAL FLARE SIGNAL COMPANY MODEL 52 FLARE PISTOL** serial #PT9753, 37 mm, 8" barrel with an oxidized bore. The steel barrel is an overall faded brown patina showing some very light pinprick pitting nearer the muzzle. The heavy brass frame is a dull ocher patina showing some minor oxidation and light dings. The left side of the barrel lug is serial numbered and dated Nov. 1942. Both grips are correctly marked and show some minor wear, the S-shaped lanyard ring is intact, no lanyard is present. The tinned surfaces of the hammer and top latch rate very good with a dull gray patina, the trigger has flaked on its left side showing brown oxidation. Lockup is tight and the gun seems to work properly. (36578-5) {NON-GUN} (100/200)

1007

1007. **U.S. MODEL 1903 MARK 1 RIFLE BY SPRINGFIELD ARMORY** serial #1100524, 30-06, 24" 7-42 dated SA barrel with a very good plus to near excellent bore which shows some minor frosting within the grooves. The barreled action retains 90% fading gray parkerizing with some minor dings and handling marks. The bottom metal is a dark gray-blue showing remnants of some scratches and scarring. The smooth walnut field replacement pistolgrip stock rates good showing a 1" crack to the rear of the upper tang and matching 3" cracks at the rear of the triggerguard emanating through the pistolgrip, also with the overall expected minor dings and dents. The top surface of the bolt knob has been cleaned and the number "0524" hand-stamped. The rifle comes with a Certificate of Authenticity from the Civilian Marksmanship Program dated 2002, along with an instruction manual and shipping ticket. The shipping box is also included however it is moderately mildewed and in a state of delamination and should be discarded. (36518-2) {C&R} (500/700)

1008. **U.S. COLT MODEL 1860 ARMY PERCUSSION REVOLVER** serial #60702, .44 cal., 8" barrel with a poor bore. The gun is an overall oxidized brown patina with pewter undertones showing some light and some moderate oxidation,

some light and some moderate pitting and a number of minor dings and handling marks. The brass grip frame is a dull tarnished goldenrod patina. The one-piece walnut grip rates about very good and is unmolested showing light left and right-side cartouches, the left side with a chip missing at the butt. There are no real remnants of the cylinder scene visible however all of the visible numbers are matching. Due to the oxidation the gun will not disassemble so numbering on the wedge, arbor and grip cannot be discerned. Lowering the loading lever reveals a tiny Social Security number scratched just ahead of its milled recess, it is very unobtrusive. The gun needs mechanical attention as the trigger is broken, likely its spring is as well as it will not catch the hammer. An interesting, near relic, martial 1860 Army overall. (36488-3) {ANTIQUE} (500/700)

1008

1009. **INTERNATIONAL FLARE SIGNAL COMPANY MODEL 52**

FLARE PISTOL serial #24020, 37 mm, 8" barrel with an oxidized bore. The steel barrel is an overall gray patina showing some oxidation staining and light pitting. The heavy brass frame is a dull ocher patina showing some minor scratches and dings. The right side of the barrel lug is serial numbered and dated December 1943. Both grips are correctly marked and show some minor wear, the S-shaped lanyard ring is intact, no lanyard is present. The tinned surfaces of the trigger, hammer, and top latch have flaked and faded revealing the gray gunmetal beneath with oxidation on the latch. Lockup is tight and the gun seems to work properly. (36387-54) (NON-GUN) (100/200)

1009

1010. **GERMAN K98K BAYONET BY E. & F. HORSTER & CO. OF SOLINGEN** 10" blued blade with a 15 1/4" overall length. The bayonet rates excellent overall with much original blue on the blade. It is serial numbered "6032e" and maker coded "44 asw" with Waffenamts stamps near the pommel. The brown phenolic resin grip scales rate about excellent. The hilt itself has toned primarily to brown showing one small spot of light pitting which was lightly cleaned and shows some cold-applied blue. The scabbard has overall light pitting and is a dark gray patina. It is numbered "608b" and property marked "S. 178K" showing a few dings and dents near the tip ball. A very nice example overall (36599-65A)

1011. **JAPANESE ARISAKA TYPE 30 BAYONET BY TOKYO/KOKURA ARSENAL** 15 3/4" blued blade with a 20" overall length. The blade rates excellent retaining about 50% original blue with nice factory grind and polish marks. The ricasso is marked with the Tokyo/Kokura arsenal marking. The hilt features a sharply forward-curving quillon and is primarily an oxidized brown patina. The Asian hardwood grip scales rate very good with some very light bruising. Included is what is likely the original scabbard. The scabbard is an overall soft oxidized brown patina with some traces of blue beneath, showing one nick on its rear edge. Included is a very good suspension frog with tight seam stitching showing some light drying but still mostly supple and flexible; the heads of the brass rivets have popped off the front, doubtless due to verdigris. Really a very nice example overall. (36559-1A)

1012. **U.S. KRAG-JORGENSEN BAYONET** 11 3/4" bright blade with a 16 1/4" overall length. The blade shows a couple very light oxidation spots and is "U.S." marked on its obverse ricasso with the reverse ricasso being dated "1903". The crossguard is a dull pewter gunmetal gray with some moderate oxidation and pitting, the pommel is similar with some of the pitting more likely heavy rather than moderate. The walnut grip scales rate very good. The included scabbard is intact and retains about 40% original blue, also showing a few spots of moderate, and one area of heavy, pitting. An attractive example nonetheless. (36195-4A)

1013. **U.S. M 1904 HOSPITAL CORPS BOLO KNIFE** 12" lobe-shaped blade with a 17 1/4" overall length. The blade is a dull gunmetal gray with overall a very light oxidation staining. The obverse ricasso is marked "U.S./33677" while the reverse ricasso is "SA/(ordnance bomb)/1913" marked. The S-curve guard is a raw umber patina. The one-piece walnut grip rates very good with some very minor dings and impact marks. The included leather scabbard rates about very good with some minor, and some moderate flaking along the leading face. The seam stitching is near fully intact showing an about 1 1/2" separation at the very tip. The throat shows some light dirt and oxidation and rates very good, the hanger retaining some good original blue. The rear is Rock Island Arsenal marked as well as "4ACNY" and numbered 67. A respectable late model 1904. (36562-12)

1014. **LOT OF COLT GOVERNMENT MODEL MAGAZINES** This lot consists of 2 blued factory 7-round magazines for the 45 ACP 1911A1 Government Model-style pistols. Both magazines are stamped with the Rampant Colt trademark on their base as well as "Colt/45 Auto" and a small trademark c. The magazines rate excellent with only very light handling marks, one with a small spot of oxidation. (36605-1B)

1015. **LUGER ACCESSORY LOT** This lot consists of a single modern magazine and two modern pairs of walnut grips. The blued-steel magazine has a molded plastic base retained by 2 roll pins. The follower as well is molded black plastic. The magazine rates about very good overall. The grips are both fully checkered walnut, one very coarsely, the other identical to original checkering. Both pairs rate excellent, the coarsely checkered pair appears brand-new, the other pair appears as though it may have been fitted to a gun at some point. (36599-10)

1016. **LUGER MAGAZINE** This lot consists of an original bright-bodied magazine with aluminum base. The magazine body retains most of its original plating with only minor wear and a checkered thumb piece. The aluminum base is numbered "3121" with a "+" marking and a Waffenamt 83 stamp. The follower as well is plated and shows some very light oxidation. (36534-7A)
1017. **U.S. MODEL 1911A1 HOLSTER AND BELT** This lot consists of a GI leather holster, green web belt and 1st World War-era magazine pouch. The holster is not maker marked and features a slightly light "U.S." embossed impression on its flap. It exhibits overall minor scuffing and light crackling with light crackling on the flex point of the flap. The seam stitching is tight overall and there is only light verdigris present. The green web belt features aluminum or zinc belt catches with stamped sheet metal keepers. It rates about very good and is maker marked however the name is not discernible. The last item is a khaki-colored dual magazine pouch with slightly puckered bottom seams. The flap shows some light scuffing and ingrained dirt while the interior shows some rust staining from contact with no-longer-present magazines. The mag pouch rates about very good overall. An attractive holster-belt-pouch rig. (36605-1A)
1018. **OAK AND LEATHER RIFLE CASE.** This quality 10" x 26" case is covered in brown leather with reinforced leather corners showing a few stains and scuffs. There is a leather handle with brass fittings and the lid remains unattached but ready to be installed with the included three brass hinges and screws. The interior is lined with green felt and has a compartment for a 24" barrel, one for the action and stock, a covered accessory compartment, a tapered open accessory compartment, and provision for two 7/16" snap caps. The oak frame appears to be new and the interior is in excellent condition. The only thing needed is a lock. (115677-3A)
1019. **OAK AND LEATHER GUN CASE.** A quality 10" x 30" case tightly covered in heavy brown leather with reinforced leather corners showing a few scuffs. There is a leather handle attached with steel fittings and leather strap retainers on both sides of the front and back. The lid is unattached but ready to be installed with hinges and screws supplied. The interior is lined in green felt and has a compartment for up to 28 1/2" over/under barrels and for stock and action. There is an open tapered accessory compartment, a covered accessory compartment, and a slot in the oak partition for a cleaning rod. Included are two leather straps with buckles for securing the case and two steel snap locks to be mounted on the exterior. A nice well made case. (115677-3B)
1020. **OAK AND LEATHER GUN CASE.** This 9 1/2" x 34 1/2" case is made with tightly fitting tan leather showing a few scuffs. It has a leather handle with steel fittings, two brass keyed locks (no key), and leather strap retainers on both sides front and back. The interior is lined in green felt and has a 32 3/4" single barrel compartment, an open compartment for stock and action, two tapered open accessory compartments and includes two leather straps for securing the case and three green felt-wrapped spacers for custom fitting. A solid case for a single barrel shotgun or rifle. (115677-3C)
1021. **LEG-O-MUTTON LEATHER BREAKDOWN SHOTGUN CASE.** Made from textured light brown leather this case will accommodate up to 30" barrels. There is a leather handle with shoulder strap and a tan felt liner with barrel partition having a separate sleeve for a forearm, all in good shape. The leather trim on the opening end shows tattering and drying, but overall the case is in good condition with solid seams and covering. (116372-8)
1022. **SMITH & WESSON BOX AND GALCO HOLSTER.** The blue cardboard box is labeled for a S&W model 442 .38 Special and remains in good condition with liner and owner's manual. The Galco Speed Paddle Holster shows some scuffs but remains in good condition. (115705-28A)
1023. **OAK HANDGUN PRESENTATION CASE.** This quality solid oak case measures 15 1/2" x 9 1/2" and is fitted with a full length piano hinge and brass keyed lock. There is a brass plaque inlaid into the lid engraved "Valley Gun Distributors, Inc., Million Dollar Club, 1989". The interior is lined in burgundy velvet and is French fitted for a 5" barreled revolver. It remains in excellent condition. Included is one key and a cardboard box with separated corners. A handsome case. (115905-2)
1024. **LOT OF DOSKOCIL GUN CASES.** This lot consists of two 26" x 13" x 5" tan plastic foam lined cases with double handles and double locks. A key is supplied with each. Very good condition. (115865-276)
1025. **DOSKOCIL GUN GUARD PLASTIC GUN CASE.** This case measures 52" x 11" and has an embossed bugling elk on both sides. The black textured plastic shows a few scuffs and some soiling and there are four keyed locks (no key) and double handles. The foam liner displays a little soiling but is in good shape. (114922-135)
1026. **LOT OF GUN CASES.** There are four cases in this lot. Three of the cases are Fieldline tactical soft cases made of heavy black polyester with web handles and padded corduroy liners and measure 36" x 11". The fourth case is Plano Protector plastic pistol case measuring 16" x 11 1/2" x 6" with molded handle, two snap locks, and a foam liner. All are just about new. (116332-143A)
1027. **LOT OF AMMUNITION.** This lot consists of a partial box of 33 Winchester Ranger law enforcement 9mm Parabellum hollow points, one full box of Remington 9mm Parabellum 124 grain metal jacket cartridges, one full box of Remington .32 Long rimfire cartridges in a tattered green and red box, a bag of 25 .32 rimfire shorts, and an envelope containing two .32 long rimfire cartridges and one Henry 44 rimfire cartridge. The older ammo shows some tarnish. (115986-4)
1028. **BARREL LOT.** This lot consists of a 30" Davenport damascus shotgun barrel (single) in 16 ga. choked improved modified which shows light to moderate pitting. It has been polished bright and displays some oxidation spotting. (115677-7)
1029. **BARREL LOT.** This lot consists of a 29" Mauser 1898 stepped barrel in 7mm with some fouling in the chamber area but with strong rifling. It has been polished bright and exhibits some tarnishing. (115677)
1030. **BARREL LOT.** This lot consists of an 1893 Marlin part octagon part round barrel in 32-40 measuring 26" with bright excellent bore. The barrel retains 80% blue with scattered scratches and dings with silvering of the edges of the barrel flats and muzzle. (115677-5)
1031. **BARREL LOT.** This lot consists of a Remington Model 11 shotgun barrel in 12 ga, 28" choked improved modified with bright bore showing a bulge about half way down. The barrel retains about 70% blue exhibiting dings and nicks with a few spots of oxidation around the muzzle. (115677-4)
1032. **GUN CASE BY DOSKOCIL.** This tan plastic foam lined case measures 18" x 14" x 4 1/2" and is equipped with double keyed locks and handles. The corrugated foam interior is excellent. There is no key. (114360-2)
1033. **IVER JOHNSON "HAMMER FORGED" BOXLOCK DOUBLE SHOTGUN** serial #29804, 16 ga., 30" barrels choked improved modified and full with bright excellent bores. The barrels display a mottled pewter patina with brown freckling and some light oxidation on the under rib. The frame exhibits more of the same mottled pewter color showing lots of brown staining. It is marked "Hammer Forged" on the left side with the company name and address on the right and a replacement pin has been crudely installed in the frame. The pistolgrip stock and splinter forearm rate good to very good having scattered scratches and dings over a thin varnish showing some flaking and chipping with a small crack on the right side of the grip and displaying well defined but soiled cut checkering. There is a lever release for the forearm and the stock has hard rubber Iver Johnson gripcap and buttplate, the length of the stock measuring 14 1/4". The gun features double triggers, extractors, and an automatic safety. The action is slightly loose but it functions fine. A good candidate for some restorative effort. (116395-2) {C&R} (300/500)

1034. **STOEGER COACH GUN DOUBLE SHOTGUN** serial #C654377-11, 20 ga. (3"), 20" raised matted rib barrel choked light modified and improved modified having bright excellent bores. The metal surfaces display 97% dark blue with an occasional oxidation speck and light scratches. The pistolgrip stock and beavertail forearm rate about excellent showing a few handling marks over a strong varnish and exhibiting clean cut checkering on both the grip and forearm. The forearm has a lever release and there is a grooved hard rubber buttplate installed providing a length of 14 1/4". The gun is equipped with double triggers, extractors, and an automatic safety. Included is the original cardboard box with plastic liner containing an owner's manual, hanging tag, and NRA brochure. A good cowboy or home defense gun. (116363-14) (200/300)
1035. **TED WILLIAMS MODEL 300 SEMI AUTO SHOTGUN** serial #Q43799, 12 ga., 26" ventilated rib barrel with an adjustable choke device fitted and a bright very good bore showing some faint ripples approaching the muzzle. The barrel retains 95% dark blue with oxidation spotting around the breech and toward the muzzle and the frame exhibits more of a matte blue finish with some light blemishes on the left side. The pistolgrip stock and forearm rate very good displaying light dings and scratches with some light water stains over a smooth dry thin varnish and exhibiting slightly worn and soiled press checkering. There is an aluminum gripcap with bright embossed center and a factory recoil pad is fitted providing a length of 14". (116363-23) (150/250)
1036. **LOT OF POWDER FLASKS.** This lot consists of 4 flasks. First is a Dixon copper flask measuring 7 1/2" tall and about 3 1/2" at the swell with a simple "bush" pattern decoration. It has a graduated brass charger for 3 1/2 to 4 1/2 drams and there are two suspension rings affixed to either side. It shows some tarnishing and discoloration. The second is an unmarked fluted brass flask measuring 7" tall and 3 1/2" wide at the swell displaying a dark tarnished exterior with a couple of dents in one side. The brass charger is unmarked and there are two suspension rings affixed to each side. Third is an unmarked fluted copper flask measuring 5 1/2" high and about 3" wide at the swell with standing seam. It shows dark tarnish and the charger is unmarked and the spring is corroded but functional. Fourth is a large plain copper flask marked "Batty" and 1854 measuring 9" tall and 4 3/4" wide at the swell. It has an adjustable brass charger showing some corrosion around the base but it is functional. There are two suspension rings attached to each side. (113135-314A)
1037. **LOT OF POWDER FLASKS.** This lot consists of 7 assorted flasks. First is a Dixon marked leather-covered flask measuring 7 1/2" tall and about 3 3/4" at the swell. It shows scuffs and some flaking but the seams are good. The adjustable brass charger functions fine although shows some light corrosion. Second is a plain unmarked copper flask measuring 6 1/2" tall and 3 1/2" wide at the swell showing dents and scratches with an adjustable brass charger which has a broken spring and stripped threads. There are two suspension rings on each side. Third is an unmarked zinc flask measuring 5 1/4" tall and 3" at the swell showing oxidation over 60% of its surface. There is a metal cap for the charger and two suspension rings are soldered to each side. Fourth is a plain zinc flask with standing seams marked Hazard on the screw stopper measuring 6" tall and 4" wide showing areas of oxidation. It has a fixed charger with the aforementioned stopper and there is an old braided cord with tassels affixed to a ring on each side. Fifth is a Dixon copper flask with "bush" pattern decoration measuring 6 1/4" tall and 3" wide showing tarnish and a couple of dents. The flask has a brass adjustable charger which is stuck and a broken top spring. Sixth is an embossed zinc flask with running deer encircled by leaf and vine motifs showing tarnishing, the exception being the brass adjustable charger. The charging spring is broken but it functions. There is a suspension ring on one side, the other being broken off. Seventh is copper flask believed to be a Dixon with embossed leaf and vine motif showing a mostly tarnished surface with a few dents. There is an adjustable brass charger which functions stiffly and has a broken top spring and suspension rings are affixed to each side. And, in addition, there is a brass shot pouch charger which shows moderate corrosion but functions fine. (113135-314B)

1047. **POLY U.S.A. NORINCO TYPE 56 CHINESE SKS SEMI-AUTO RIFLE** serial #21002728C, 7.62x39mm, 20 1/4" barrel with an excellent, bright bore. The barrel rates excellent and has retained about 97% of its factory blue finish. The receiver rates very good with an acquired mottled gray finish, while the receiver top cover rates excellent retaining 95% plus of its factory blue finish with light marks from handling and wear; the bolt displays some minor brown oxidation. The smooth wood top handguard rates excellent with some handling evident, while the pistolgrip stock rates very good exhibiting more widespread signs of having been handled. The rifle features sling mounts and a Chinese folding spike bayonet; comes with a cleaning rod. (136400-1) (300/500)

1048. **MOSSBERG MODEL 590 SLIDE ACTION SHOTGUN** serial #P070403, 12 Ga., 20" barrel choked cylinder with an excellent, bright bore. The barrel rates excellent and retains roughly 97% of its factory parkerized finish with some minor handling marks. The receiver rates excellent and retains about 97% of its factory blue finish with some slight signs of handling. The black synthetic forend and pistolgrip stock both rate excellent. The shotgun features a vented recoil pad, sling mounts, bayonet lug, ghost ring sights, and a heat shield. (136403-2) (200/400)
1049. **REMINGTON MODEL 11-A SEMI-AUTO SHOTGUN** serial #192334, 12 Ga., 28" barrel choked cylinder with an excellent, bright bore. The barrel rates very good, retaining about 90% of its factory blue finish but with some handling marks and oxidation spotting present. The receiver rates very good and retains about 90% of its factory blue finish but exhibits signs of handling and some oxidation development which is limited to the top portion of the receiver. The smooth wood beavertail forend and pistolgrip stock both rate very good and display various dings, scratches, and scuffs. The rifle features a recoil mitigating buttpad in a somewhat deteriorated state. (136363-1) {C&R} (300/500)
1050. **WINCHESTER MODEL 1897 PUMP SHOTGUN** serial #56819, 12 Ga., cut-down 20" un-choked barrel with an excellent bore. The metal surfaces rate very good and have acquired a mottled gray finish with some light brown speckling, with scarce factory blue finish remaining in certain protected areas. The smooth wood pistolgrip stock rates excellent with only a very few minor dings. The smooth wood forend rates good with substantial cracking along its length, particularly along the right side, but nonetheless remaining fully functional. The shotgun features sling mounts and comes with a military style 1 1/4" leather sling. (136321-11) {C&R} (175/275)
1051. **MOSSBERG 500 PUMP SHOTGUN** serial #H166933, 12 Ga., 18" cylinder bore barrel with an excellent, bright bore. The barrel rates excellent and retains about 97% of its factory blue finish, with some slight signs of wear present and a noticeable grind mark on the muzzle. The receiver rates excellent and has retained about 98% of its factory blue finish, with several minor light scratches from previous handling. The ribbed wood forend rates excellent with a couple of extremely minor dings, while the smooth wood stock rates excellent and exhibits nominal lights dings and scratches. The shotgun features a recoil mitigating buttpad and sling mounts. (136381-15) (200/300)
1052. **TED WILLIAMS MODEL 300 SEMI-AUTO SHOTGUN** serial #Q43799, 12 Ga., 28" barrel with an excellent, bright bore and adjustable choke. The ribbed barrel rates very good, retaining about 95% of its factory blue finish but with some oxidation present toward both ends of the barrel and features a choke. The receiver also rates very good with some light oxidation present on the left side of the receiver. The checkered wood beavertail forend rates excellent with negligible faint dings, while the pistolgrip stock rates very good with several various dings, scuffs, and shallow scratches. The shotgun features a recoil mitigating buttpad. (136363-23) (200/300)
1053. **ITHACA MODEL 37 PUMP SHOTGUN** serial #281130, 16 Ga., 27 1/2" barrel choked modified with an excellent, bright bore. The barrel rates excellent and retains 97% plus of its factory blue finish with some faint signs of oxidation beginning to develop. The receiver rates excellent retaining about 98% of its factory blue finish with similarly faint signs of light oxidation; the factory engravings on both sides of the receiver have held up very well. The ribbed wood forearm rates excellent, with the checkered wood pistolgrip rating very good as a result of numerous, albeit light, ding and scratches. (136372-7) (200/300)
1054. **KESSLER WESTCHESTER "BUFFALO BILL CODY" BOLT ACTION SHOTGUN**, 12 Ga., 28" barrel choked full with bright, lightly oxidized bore. The barrel rates very good and retains approximately 98% of its factory blue finish, but displays a fairly long and noticeable scratch along its underside. The receiver rates excellent and retains 98% plus of its factory blue finish. The smooth wood pistolgrip stock rates very good but exhibits a relatively long crack located on the underside of the forend as well as a few other extremely minor dings and scuffs. The rifle features a recoil mitigating buttpad and comes with a single 2 shell magazine. (136272-4) {C&R} (50/100)
1055. **WINCHESTER MODEL 1400 RANGER SEMI-AUTO SHOTGUN** serial #N1108038, 12 Ga., 28" barrel choked improved cylinder with a very good bright bore, but showing signs of wear. The ventilated ribbed barrel rates excellent as it has retained about 97% of its factory blue finish with some isolated instances of minor oxidation development. The receiver rates excellent having retained about 98% of its factory blue finish with some small light scratches and signs of wear around the chamber. The checkered wood forend and pistolgrip stock both rate excellent with only a few minor faint scratches and dings. (136363-3) (200/300)
1056. **WESTERN FIELD M550AR PUMP SHOTGUN**, 12 Ga., 28" barrel choked improved cylinder with a very good, bright bore. The ventilated rib barrel rates very good, having acquired a mottled gray finish with moderate brown patina and some minor instances of its factory blue finish in certain protected areas. The receiver rates good with an acquired mottled gray finish, and some minor factory blue finish remaining toward the receiver's extremities. The engravings on both sides of the receiver have been considerably faded and extensive noticeable handling marks are present particularly along the receiver's left side. The checkered wood forend rates excellent with only a few minor signs of previous handling, with the pistolgrip stock rating very good with numerous noticeable signs of handling and wear. The shotgun features a recoil mitigating buttpad. (136300-2) (75/150)
1057. **RUGER 10/22 SEMI-AUTO RIFLE** serial #112-69191, 22 LR, 18 1/2" barrel with a very good, bright bore. The metal surfaces rate very good plus, having retained about 90% of their factory blue finish, but exhibit a few noticeable scratches and minor light oxidation along the length of the barrel, as well as some instances of wear on the receiver. The smooth wood pistolgrip stock rates very good but does possess several examples of scratches, scuffs, and dings; as well as wear along the edges of the metal buttplate. The rifle does not include any magazine. (136418-11) (100/200)
1058. **RUGER 10/22 SEMI-AUTO RIFLE** serial #248-73875, 22 LR, 18 1/2" barrel with a very good, bright bore. The stainless steel barrel rates very good and remains bright overall; however, the barrel does exhibit some sparse scattering of faint oxidation development. The alloy receiver, trigger group, and barrel band all rate very good, but do show some cases of slight discoloration. The checkered black plastic skeletonized pistolgrip stock rates very good plus with only extremely minimal signs of previous handling. The rifle features a mounted Simmons 4x32 scope with lens covers; the rifle comes with a single 10 round rotary magazine. (136416-40) (150/250)
1059. **HAMILTON NO. 27 BREAK OPEN RIFLE**, 22 RF, 15" barrel with an excellent, bright bore. The barrel rates very good as it demonstrates major loss of its factory blue finish, having since acquired a mottled brown-gray tint, and exhibiting minor pitting along the right side. The frame rates very good, although it has lost much of its factory blue finish, having similarly acquired a mottled brown-gray tint with light gray tint along edges; the frame also exhibits some light scratching and dings. The original stock and forearm have been replaced with plywood counterparts. The smooth wood forearm rates very good as there are negligible faint dings and is somewhat loose on the gun; the straight stock rates very good but shows numerous lights dings and scratches, the stock also lacks a buttplate. Originally, the triggerguard would have extended further and connected to the stock, but a portion of the guard has broken off rearward from the screw connecting it to the frame; but nonetheless the guard remains securely attached to the rifle. (136403-3) (50/75)
1060. **DAVENPORT BREAK OPEN TAKEDOWN SHOTGUN** serial #483, 12 Gauge, 32" barrel with a bright, moderately oxidized bore. The barrel rates good and displays extensive brown patina as well as extensive examples of moderate loss of finish and exhibition of unprotected metal; the factory markings remain visible and intact but near illegible stemming from the condition of the barrel. The frame rates very good but retains none of its factory original finish, instead is entirely covered in brown patina. The hammer spur has broken off, but is still capable of being cocked (albeit with some difficulty). The checkered wood Schnabel forearm and pistolgrip stock both rate good as they exhibit extensive noticeable scratches, dings, and some chips; the stock also exhibits loss of much of its varnish, giving the stock a very rough appearance. In addition, a crack is visible along the top right of the stock where the wood meets the frame, as well as in the left side of the forearm, parallel to the barrel. (136229-325) (20/60)

The checkered walnut stocks have added finish and a few light dings and scratches present. The schnabel tipped forearm rates very good and has a 3" sliver missing from the left leading edge while the pistolgrip buttstock rates near excellent and has a few hairline cracks at the base of the upper tang. The take-down barrel is frozen in place and cannot be removed by hand. An about very good example overall. (46264-22) {C&R} (75/150)
1400. **C.S. SHATTUCK AMERICAN SIDE SNAP SINGLE BARREL SHOTGUN** serial #2196, 16 ga., 32" barrel that is choked modified and has a very good bore with light pitting. The metal surfaces are a mottled gray and brown with light handling marks and scattered specks of light oxidation present. The frame has some traces of original case colors still visible. The barrel has an integral forearm base extension which is chipped along the lower edge. The walnut stocks rate about very good and feature a splinter forearm and pistolgrip buttstock. The buttstock has several cracks through the wrist area and has a replacement dog's head hard rubber buttplate. The action appears to function correctly but the barrel sits a bit loose in the frame. A unique design where the lever acts as the triggerguard as well, a good to about very good example overall. (46264-13) {ANTIQUÉ} (100/200)
1401. **HOPKINS & ALLEN BOXLOCK DOUBLE SHOTGUN** serial #32671, 12 ga., 30" barrels choked modified in each with bright lightly frosted bores. The barrels exhibit a brown patina with light oxidation staining and the frame displays a pewter patina with mottled brown discoloration on the front and bottom. The pistolgrip stock and splinter forearm rate good to very good with small dings and scratches over a strong factory varnish and show coarse but robust checkering showing some soiling. There is a nice hard rubber fluted gripcap and a "sunburst" pattern hard rubber buttplate providing a length of 14". The gun is equipped with double triggers, extractors, an automatic safety, and the forearm has a push button release. Not a bad old gun. (116288-76) {C&R} (150/250)
1402. **SWISS VETTERLI MODEL 1881 BOLT ACTION RIFLE SPORTERIZED** serial #213194, 41 Swiss RF, 20 1/2" shortened barrel with a dark bore. The metal surfaces bear an overall brown patina with scattered light pinprick pitting, fine oxidation staining and light handling marks. The straight grip walnut stock and forearm rates fair measuring 6 3/4" from the muzzle with numerous handling marks and an added gloss finish; the buttstock has been lightly sanded at the toe and is a bit shy of the metal and only light evidence of the cleaning rod channel remains at the tip. The magazine tube has been shortened and the cap no longer present, the front and rear sights are crude homemade replacements and the rear sling swivel has been removed. A fair condition sporterized model 81 Vetterli rifle. (56257-29) {ANTIQUÉ} (75/150)

1403. **U.S. MODEL 1902 OFFICERS SWORD** 32" blade with three-quarter-length unstopped fullers. Blade is oxidized overall with most of its plating intact but showing overall very tiny oxidized spots. Obverse and reverse show martial and foliate panoplies with "e pluribus unum" Federal Eagle with riband and U.S. The ricasso is un-marked. The hilt rates about very good with minor oxidation, the pommel showing some faint traces of brass at the terminus of the guard; the outer branch of the bow slightly misshapen. The synthetic finger-groove grip rates very good and appears to be hard rubber. An incorrect, slightly too-large scabbard with a thin crack at the throat is included. (34395-3)
1404. **U.S. MODEL 1860 STAFF AND FIELD OFFICERS SWORD BY MC LILLEY** 36 1/2" overall length with a 30" blade. The straight double edged blade is diamond in cross section and is mostly bright with only some very light oxidation staining and discoloring. The martial etching on both sides of the blade is still very crisp with the reverse ricasso having the makers name and address, the obverse ricasso with a small bear stamp. The sword features a federal eagle with panoplies of flags on the obverse counterguard with a federal shield on the folding reverse counterguard. There are generous traces of original gilt on most of the hilt with the pommel cap showing toning to ocher on the worn section. The shagreen grip is fully intact as is the wire wrap. No scabbard is included. A very nice example overall. (34299-53B)
1405. **BPI- NEW FRONTIER WIND RIVER MAGNUM INLINE MUZZLELOADING RIFLE** serial # 61-13-099443-03, 50 cal, 25" barrel with very good rifled bore. The metal surfaces retain 60% blue showing scratch marks and oxidation spotting overall. The black synthetic pistolgrip stock rates very good having a few scratches with a grooved rubber buttplate "enhanced" by electrical tape. There are sling rings on the toeline and on the forend and the gun is equipped with a Tasco 3X - 9X scope mounted on blocks. A synthetic ramrod and black nylon sling are included. (116054-17) {ANTIQUE} (50/100)
1406. **CONTEMPORARY SPANISH ARTILLERY SWORD** 30 1/2" overall length with 26" single-edge lightly curved blade. The blade is an overall pewter gray patina and is marked on its reverse "M Fabrica De Toledo 1840/Made in Spain"; it certainly is not an antique however (it is much newer than 1940 never mind 1840). The cast brass hilt shows some remnants of gold paint and has a simple forward-curving quillon and d-shaped guard with cast integral ribs in the grip. (34299-53C)
1407. **MARLIN MODEL 1898 SLIDE ACTION SHOTGUN** serial #6267, 12 ga., 28" plain barrel choked cylinder with bright very good bore. The top of the barrel is matted its full length and it exhibits a mottled pewter and brown patina with some oxidation spotting. The frame displays a dark brown surface showing some scattered oxidation spotting. The pistolgrip stock and grooved slide handle rate good having dings and scratches with a tiny hairline crack at the top of the wrist all over a drying and slightly crazed finish. There is a worn grooved hard rubber buttplate present providing a length of 13 1/2". The action functions fine. (116277-6) {C&R} (75/150)
1408. **ITHACA MODEL 37 SLIDE ACTION SHOTGUN** serial #157173, 16 ga., 28" plain barrel including the Poly-Choke device having a bright excellent bore. The metal surfaces exhibit 95% blue showing scattered oxidation specks and fading of the edges of the frame and the frame is embellished with the standard birds and dog scenes. The pistolgrip stock and grooved slide handle rate very good showing a few minor dings and scratches over a flat oil finish. There is a grooved factory buttplate installed providing a length of 14" and a hard rubber grip cap is present. The gun functions fine and would make a great affordable tool for the uplands. (116256-5) (100/200)
1409. **DAVIS WARNER ARMS AJAX DOUBLE SHOTGUN** serial #E5404, 12 Gauge, 30" barrels with excellent, bright bores. The barrels rate excellent, retaining about 97% of their factory blue finish with only slight wear, predominantly found toward the break. The frame rates excellent with much of the factory case-hardened finish retained, although beginning to develop into more of a gray tint. The smooth wood forend and pistolgrip stock both rate very good, with only a few dings and a slight chip in the stock on the upper left where it meets the frame. The shotgun features double triggers. (146287-162) {C&R} (150/250)
1410. **HOPKINS & ALLEN DICTATOR SPUR TRIGGER REVOLVER** serial #4746, .32 RF, 2 3/4" round barrel with oxidized bore. The metal surfaces exhibit 70% nickel finish with nicks and scratches and showing oxidation spotting, particularly on the cylinder and around the cylinder opening. The frame is embellished with leaves and dotted line scroll while the cylinder shows some leafy marks with stippled rings and the barrel has three leaf clovers on each side. The checkered hard rubber bird's head grips rate very good displaying a little light soiling. The action functions but does not lock up. (116287-13) {ANTIQUE} (100/200)
1411. **AMERICAN STANDARD TOOL HERO PERCUSSION POCKET DERINGER** serial #32473, .34 cal. percussion, 2" round barrel with an about very good lightly oxidized bore. The barrel is primarily a gun metal gray with some light brown oxidation staining and overall minor dings and handling marks, also with overall pinprick pitting; the hammer and trigger have also toned to brown. The frame has tarnished now to a dull goldenrod patina with overall minor dings and handling marks, most prevalent on the frame flats. It is marked on its left side "A.S.T.C." with "Hero" beneath it. The bag-shaped rosewood grips rate near very good showing numerous light dings and handling marks. The arm functions well mechanically. (36229-683) {ANTIQUE} {Elliot Riggs Collection} (175/275)
1412. **SMITH & WESSON .32 HAND EJECTOR THIRD MODEL REVOLVER** serial #297335, 32 Long, 4 1/4" barrel with a slightly oxidized bore. The metal surfaces retain about 96% of their factory nickel finish, with a faint turn ring on the non-recessed, six shot cylinder. The checkered wood grips rate very good. (146313-3) {C&R} (350/500)
1413. **AMERICAN STANDARD TOOL COMPANY 22 CALIBER POCKET REVOLVER** serial #14136, 3 1/8" ribbed octagon barrel with a poor bore. The barrel and cylinder are primarily a dull pewter and brown patina with some scattered oxidation staining. The barrel marking is still evident and there are only traces of the cylinder scene visible. The flat brass frame has toned to a dull ocher patina with some minor dings and handling marks scattered about its surface; the barrel as well has some very light bite marks from a vise on the left and right of the lug. The smooth walnut grips rate good and fair, the left grip missing a chip at its rear edge with prominent dents on its butt. Barrel-to-frame fit is good with only slight vertical play and the gun seems to function mechanically, albeit somewhat loosely. (36229-61) {ANTIQUE} (175/275)
1414. **HARRINGTON & RICHARDSON SAFETY HAMMERLESS TOP BREAK REVOLVER** serial #98095, 38 S&W, 3 1/4" barrel with a bright fine bore. The metal surfaces retain about 90% original nickel flaking along the edges and backstrap also showing some spots of light pitting and surface oxidation. The checkered hard rubber target logo grips rate very good showing light wear and ingrained dirt. (56251-12) {C&R} (75/150)
1415. **HOPKINS & ALLEN X. L. DOUBLE ACTION REVOLVER**, serial #8159, .38 CF, 5" octagon barrel with bright gray frosted bore with strong rifling. The metal surfaces exhibit 70% nickel finish with scratches, nicks, and scattered oxidation spotting, particularly on the right side of the frame and around the cylinder opening. Top strap markings include the maker's name, patent dates, model, and caliber. The checkered hard rubber grips rate very good having a little light edge wear and there is a lanyard ring affixed to the bottom of the grip which appears to be factory done. The action is a little loose and out of time but operates well. (116288-25) {ANTIQUE} (150/250)
1416. **HOOD SPUR TRIGGER POCKET REVOLVER** serial #14783, 22 RF, 2 1/2" octagon barrel with bright gray moderately frosted bore. The metal surfaces exhibit 80% nickel finish with some cloudy spots and scattered oxidation specks. The frame is embellished with a simple shaded foliate engraving and various lines and symbols are applied to the remaining metal. The smooth ebony grips rate good displaying fine scratches and a tiny hairline crack in the upper left grip panel all over a lightly flaking finish. The hammer spring is broken and the pistol does not cock or fire. (116287-7) {ANTIQUE} (75/150)

1417. **HOPKINS & ALLEN XL DERRINGER PISTOL** serial #1584, .41 RF, 2 9/16" octagon barrel having a gray oxidized bore with visible rifling. The metal surfaces exhibit a pewter patina with an area of nickel finish remaining on the left side of the frame, most having flaked off and some pinprick pitting is evident on the right side of the frame. The rosewood bird's head grips rate good plus showing dings and scratches over a thinning dull finish. The action functions although the hammer does not hold on full cock. Still an interesting 19th century pistol. (116287-28) {ANTIQUÉ} (200/400)
1418. **HOPKINS & ALLEN XPRT SINGLE SHOT DERINGER** serial #919, .22 RF, 2 1/4" round barrel having a bright gray bore showing some frosting. The barrel displays a pewter patina with some brown highlights having a few nicks and dings, and the remaining metal exhibits about 70% nickel showing flaking edges and some oxidation specks. The rosewood bird's head grips rate good displaying scratches and dings over a dull finish. This gun has a unique swiveling breechblock and functions quite well, if a little stiff. (116287-14) {ANTIQUÉ} (150/250)
1419. **HARRINGTON & RICHARDSON 32 TOP BREAK BICYCLE MODEL SPURLESS HAMMER REVOLVER** serial #313601, 32 CF, 2" barrel with a very good bore with a couple of small spots of pitting. The metal surfaces on this second model revolver retain 80-85% original blue with scratches and impact marks, spotty freckling and oxidation; the hard rubber grips rate very good with some wear to the checkering and base of the grips. The frame, cylinder and barrel are numbered alike. This revolver needs mechanical attention, the hammer spring is broken. (126251-13) {C&R} (75/150)
1420. **RANDALL MODEL 1 ALL-PURPOSE FIGHTING KNIFE** This knife measures 10 3/4" overall with a 6" tool steel clip point blade equipped with a notched thumb rest. The blade has some light scuffs and scratches from being lightly sharpened and remains bright overall with a small spot of freckling on the reverse side of the blade which is also etched with a previous owner's name. The exposed nut Duralumin buttcap and nickel silver double guard remains bright overall with some areas of light staining on the guard from sheath storage. The stacked leather washer handle rates excellent and is centered between fading red, white and blue leather washer spacers. Knife includes a Johnson roughback model A leather sheath with gray combination Crystolon hone in pocket having a few light stains and scuffs. (56020-R368) (300/500)
1421. **RANDALL MODEL 11-4 ALASKAN SKINNER FIXED BLADE KNIFE** This knife measures 8 1/4" overall with a 4" Tommy Thompson-designed tool steel skinning blade equipped with notched thumb serrations. The blade remains unsharpened and bright with a few specks of faint freckling on the obverse side of the blade. The brass single hilt remains bright with a few spots of light tarnishing and there are a few light scuffs in the exposed nut Duralumin buttcap. The stacked leather washer handle rates excellent and is centered between red, white and black leather washer spacers. Knife includes a Johnson roughback leather sheath with hone in pocket and previous owner's initials written in ink above the handle strap. (56020-R349) (300/500)
1422. **RANDALL MODEL 14 ATTACK KNIFE WITH MODEL 18 GRIND** This special order "Attack" knife measures 12 1/4" overall with a 7 1/2" stainless steel spear point blade equipped with a 2 3/8" sharpened false edge and saw tooth top edge similar to the Randall Model 18. The blade remains unsharpened and bright as does the oblong stainless steel hilt. The finger groove black micarta handle rates excellent and is equipped with an aluminum lined lanyard hole. Knife includes a Johnson roughback model C leather sheath with hone in pocket. An excellent special order model 14 Randall. (56020-R318) (300/500)
1423. **LOT OF PEWTER 1911 GRIPS** Cast by Pilgrim Pewter Inc., showing the designs of Sid Bell to include a raised relief bison on the left panel and an eagle clutching a shield, arrows, and olive branch on the right. The grips show some light handling marks near the corners but remain in excellent condition. (106335-18)
1424. **GERMAN P.08 LUGER PISTOL BY DWM** serial #6003m, 9 mm, 4" barrel with a very good bore which shows strong rifling but with minor frosting in the grooves more prominent near the throat. The metal surfaces retain about 90% original blue, the loss is due primarily to even fading on the barrel, high edges and contact point wear. There is sparsely scattered light surface oxidation present in some areas and a few spots of very light pinprick pitting. The straw parts have faded primarily to gray on the left side of the gun showing some very good color on the ejector and magazine release on the right side. All of the visible numbers are matching including the firing pin. The firing pin shows a repaired nose and the milled recess in the bolt itself into-which the firing pin retainer keys, has broken out rearward, no doubt due to some catastrophic failure that broke the firing pin and has resulted in the left side front of the toggle link being cracked (basically this means the firing pin retainer does not keep the firing pin in the bolt recess). Currently the gun will not fire. The checkered walnut grips rate good to perhaps very good with some minor flattening of the points, more prominent on the left grip, they are stamp-numbered to the gun. Included is one bright-bodied wood base magazine marked only "Germany" with the body of the magazine showing a number of dents and wrinkles. Overall a good 1916-dated Luger which needs some professional attention. (36188-6) {C&R} (275/375)
1425. **SMITH & WESSON MODEL 5903 SEMI-AUTO PISTOL** serial #TYC8693, 9mm, 4" barrel with an excellent bore. This pistol retains 97% of the original blue and anodized finishes with some silvering at the muzzle and on the high edges. There are a few light oxidation blemishes on the slide and a few very light scratches. The wrap around plastic grips are in near excellent condition with one prominent scratch on the rear of the grip. The pistol features three dot adjustable sights and a slide mounted safety/de-cocker. Three magazines are included with pistol. Two of the fourteen round magazines are stainless steel and the third is a blue finish. A De Santis double shoulder holster rig is included. It consists of a horizontal #83 holster, a #A24 double magazine pouch and a brown suede shoulder harness. The snap for a tie down strap (not included) on the holster has partially pulled off and needs replacement. Overall, the pistol and holster are in nice condition and would be a great concealed carry outfit. (86188-1) (275/375)
1426. **RUGER LC380 SEMI-AUTO PISTOL** serial #323-65064, 380 ACP, 3" barrel with a bright excellent bore. This is a new-in-the-box pistol in 99% plus condition featuring a blued steel slide and synthetic frame with integrated grips. It comes with its original factory box, one single magazine, Ruger pistol rug, lock, and manual. (126188-16) (275/375)
1427. **MOSSBERG 500A PUMP SHOTGUN** serial #K942418, 12 Ga., 28" barrel with an excellent, bright bore. The ventilated ribbed barrel rates excellent and has retained about 97% of its factory blue finish. The receiver rates excellent, retaining about 98% of its factory blue finish with negligible signs of wear around the chamber. The checkered wood forend and pistolgrip stock both rate excellent with only a few minor faint dings. The shotgun features a recoil mitigating buttpad. (136619-1) (200/300)
1428. **SMITH & WESSON SIGMA MODEL SW40C SEMI-AUTO PISTOL** serial #PAL5368, 40 S&W, 4" barrel with an excellent, bright bore. The metal surfaces retain 98% original blue with a few light handling marks. The synthetic frame with integrated grip rates excellent. The pistol comes with a single 10 round magazine, loaded chamber indicator, manual, and factory original box. (146610-2) (300/400)
1429. **UNMARKED BELGIAN PERCUSSION SINGLE BARREL FOWLER** About 11 bore, 36" part octagon part round barrel with a turned medial at the point of transition and a fair oxidized bore. The barrel is an overall deep brown patina with light oxidation nearly it's full-length, the top flat shows a Belgian proof mark. The lockplate is unmarked and is a dull pewter patina with oxidation overall, the hammer is an oxidized brown. There are iron ramrod thimbles and tailpipe with a simple iron triggerguard and buttplate. The European Walnut buttstock rates about very good with minor handling marks and dings from the years, coarse checkering and a 12" crack along the left side of the forearm area. The lock is mechanically functional however the hammer is very loose on the lock as the hammer screw is an improper replacement. An excellent hanger for above the fireplace. (35134-3) {ANTIQUÉ} (200/400)

1430. **LOT OF BAIT CASTING FISHING RODS** There are three rods total, all with removable handles. The first is a Heddon Pal serial #3151 measuring 5' made of steel painted tan with soiled cork grip and includes a canvas case marked "True Temper". The second is a Heddon Pal Deluxe serial #260-6 measuring 6' made of brown colored fiberglass with soiled cork grip and includes a vinyl case marked "Heddon Deluxe". The third is a Heddon Pal yellow fiberglass rod with soiled cork grip measuring 5' and includes a canvas case marked "True Temper". All are serviceable rods. (116282-8,9,10)
1431. **CROSSMAN MODEL 760 POWERMASTER AIR RIFLE** .177/BB repeater airgun This pump-action gun has a black cast action, plastic pistolgrip stock and forearm, and metal barrel and air chamber showing a few oxidation spots. It is equipped with a blade front sight and an open rear sight. Overall rating very good. (115798-648)
1432. **DAISY RED RYDER CARBINE** This is a lever-cocking air rifle, caliber .175/BB, has blued metal surfaces turning mostly brown with oxidation spotting. The wood stock and forearm rate good showing scuffs and dings still retaining thin varnish. The buttstock is slightly loose. The gun is equipped with a small blade front sight, a simple non-adjustable rear sight, and a saddle ring with rawhide lace. Gun seems to function. (115538-1)
1433. **DAISY MODEL 96 CARBINE** .175/BB caliber. This lever-cocking carbine is little used, displaying 98% of the barrel and action blue showing some flaking on the front of the lever. The wood Monte Carlo stock and beavertail forearm rate very good exhibiting a few scuffs and scrapes over a strong varnish. The plain wood butt has been crudely etched with the name "Steve". Sights include a blade front and adjustable rear. Included is a paper pamphlet titled Daisy B-B Rifle Instruction Program dated 1959. (115660-9)
1434. **DAISY 853 POWERLINE TARGET AIR RIFLE** .177 caliber. The black painted metal surfaces retain 98% finish and the target style pistolgrip stock rates very good showing a few scratches over a thin varnish. The rifle is equipped with a plastic buttplate adjustable for length and sights include a globe front sight and a receiver sight mounted on a grooved receiver. In addition there is a faux muzzle-brake and a simple metal loop is installed on the cocking lever providing a hand stop. Overall a neat target gun. (115798-644)
1435. **DAISY POWERLINE 880 AIR RIFLE** .177/BB caliber. The metal surfaces on this lever-cocking rifle retain 95% of a black finish showing a few scratches and dings on the barrel. The plastic Monte Carlo pistolgrip stock displays a nice faux wood figure and rates very good with a few dings and showing some white staining along the lower edge of the right hand cheekpiece. There is a black gripcap and grooved buttplate installed. The gun is equipped with a ramp mounted front blade sight, an adjustable open rear sight, and a cross bolt safety. (115800-54)
1436. **STEVENS MODEL 15 BOLT ACTION SINGLE SHOT RIFLE**, .22 RF, 22" barrel with bright very good bore showing just a touch of frosting. The barrel displays a mottled black painted surface with some scattered oxidation spots and the bolt and bolt handle exhibit a gray patina with oxidation freckling. The pistolgrip stock has an amateurishly carved deer on the left side, a dog's head on the right side, and is crudely checkered on the grip. The forend has a two-piece hard rubber handguard tacked in place and is also crudely checkered. There is a hard rubber buttplate installed which is crudely checkered as well and the gun is equipped with a blade front sight and adjustable rear sight. (116380-12) (25/50)
1437. **ITHACA MODEL 37 FEATHERLIGHT PUMP SHOTGUN** serial #371523630, 12 Ga., 28" barrel with an excellent, bright bore. The barrel rates excellent, retaining about 98% of its factory blue finish with isolated minor light oxidation accumulation around the front sight. The receiver rates excellent having retained 98% plus of its factory blue finish with no discernible signs of diminished condition stemming from either handling or wear; the factory engravings on both sides of the receiver have held up very well. The checkered wood forend rates excellent; while the pistolgrip stock rates very good as a few faint dings, scratches, and scuffs are present, as well as wear and a slight chip exhibited on the buttplate. The shotgun features a red fiber optic front sight. (136356-D28847) (150/250)
1438. **LOT OF DAISY AIR RIFLES** Two; first is a Model 99 with the Rogers Arkansas address on the barrel. The metal surfaces retain about 80% of their original finish with loss due to oxidation staining and scattered scratches. The two piece wooden stocks rate very good to near excellent with the expected light scratches and dings with scattered flakes in the varnish. Second is a Co2 300 air rifle with Rogers Arkansas address on the barrel. The metal surfaces retain 95% of their original blue with spots of light oxidation staining with several small scratches throughout. The two piece checkered simulated wood thumb hole style stock rates excellent showing crisp points on the checkering and a few light scratches scattered around the butt. (105458-13,14)
1439. **LOT OF AIR RIFLES** Includes two Daisy .177 cal rifles. First is a Powerline 860 with checkered plastic simulated wood stock in very good condition. The metal surfaces retain 90% of their original painted finish with some loss due to oxidation along the top of the barrel. Second is a Powerline 880 with diamond-checkered plastic simulated wood stock in very good condition. (105458-11,12)
1440. **SMITH & WESSON MODEL 1 1/2 SINGLE ACTION REVOLVER** serial #14222, 32 S&W Short, 3" barrel with a lightly pitted bore. This revolver retains about 96% of its original nickel finish with a cloudy area on the backstrap below the hammer and some scattered, light oxidation blemishes. The hard rubber grips are correctly numbered to the gun as are, the latch and cylinder. The grips are the early variety with no Smith & Wesson logo and rate near excellent overall. This particular model has a strain screw in the front of the grip frame. The revolver still times and locks up perfectly, and there is no play between the frame and barrel. (86492-20) {ANTIQUE} (150/350)
1441. **FREEDOM ARMS FA-S-22-LR BUCKLE / REVOLVER COMBINATION** serial #A42309, 1 1/8" barrel with an excellent bore. The brushed stainless steel surfaces are in excellent condition and rate 99% overall with a few light scattered scratches. The black Micarta grips are in near excellent condition with light handling wear. This mini single action revolver comes with a cast metal belt buckle with "Freedom Arms" across the bottom in raised motif and a cast outline of the mini-revolver to fit into. A stud on the side of the revolver locks into a catch on the buckle and a button below releases it. All state and Federal laws must be adhered to regarding attachment of pistol to buckle. (86506-2) (200/400)
1442. **BERETTA MODEL 948 SEMI-AUTO PISTOL** serial #056604N, 22 LR, 3 1/4" barrel with an excellent bore. This pistol retains 99% of its original blue and anodized finishes with the frame drifting to an amber color. The checkered black plastic grips show some light handling wear but rate near excellent overall. A single magazine with finger extension floorplate is included. Also provided is an original factory box with a torn flap on one end. The box contains an original factory manual that will be a hard read as the cover is in English but the contents are in Italian. This pistol has seen limited use and would make a nice plinking and practice gun. (86229-244) (150/250)

1441

1443. **REMINGTON MODEL 1100LT-20 LIGHTWEIGHT SEMI-AUTO SHOTGUN** serial #M972926K, 20 ga, 25" ventilated rib barrel with an excellent bore that features an aftermarket screw-in choke system. The metal surfaces retain about 99% of their original factory blue finish with light handling marks and scratches evident. The gloss finished walnut buttstock and forend are in near excellent condition with light dents and handling wear visible. The aftermarket choke system that was installed involved swaging the end of the barrel slightly giving the barrel a two-step appearance at the muzzle. It was then threaded to take what appears to be a copy of the Winchester Winchoke screw-in choke tube. One choke marked .610 (Improved Cylinder) is provided with the shotgun. The choke features a knurled section for screwing it in by hand and holes for a spanner wrench. The ivory front bead has broken off but the bead base is still present. Also provided is a 2 1/2" long aftermarket fiber optic bead front sight that attaches by means of two small magnets making removal quick and easy. This is a nice lightweight shotgun that has upland bird hunting written all over it. (86393-59) (300/500)
1444. **REMINGTON MODEL 1100 SEMI-AUTO SHOTGUN** serial #265114V, 12 ga, 25" ventilated rib barrel with an excellent bore that features an aftermarket screw in choke system. The metal surfaces retain about 93% of their original factory blue finish with most of the loss due to silvering of the lower receiver from carrying the shotgun and some dispersed light handling wear. The gloss finished walnut buttstock and forend are in very good to excellent condition with several areas of flaked-off finish on the right side of the buttstock accounting for most of the loss; there are also some random scratches and dents. The aftermarket choke system that was installed involved swaging the end of the barrel to a slightly larger diameter giving the barrel a two-step appearance at the muzzle. It was then threaded to take what appears to be a copy of the Winchester Winchoke screw in choke tube. One choke marked Improved Cylinder is provided with the shotgun. The choke features a knurled section for screwing it in by hand and holes for a spanner wrench. This shotgun has seen some honest use but, remains in very good condition and ready for more days afield. (86393-58) (250/450)
1445. **REMINGTON SHOTGUN BARREL LOT** This lot consist of a 12 gauge Remington Model 1100 ventilated rib shotgun barrel. The full choke barrel has an excellent bore and retains about 95% of its original polished blue finish. There is some oxidation at the muzzle end of the barrel and an isolated spot on the chamber. (86416-41A)
1446. **SAVAGE FOX MODEL FA-1 SEMI-AUTO SHOTGUN** serial #SA12617, 12 Ga., 28" ventilated rib barrel with an excellent bore and fixed modified choke. The blue and anodized metal surfaces of this shotgun are in excellent condition with about 99% remaining. The checkered walnut stock and forend are also in excellent condition exhibiting light handling wear. This is a nice condition shotgun ready for the field. (86407-2) (175/275)
1447. **ITHACA MODEL 37 FEATHERLIGHT SLIDE ACTION SHOTGUN** serial #464283-2, 16 Ga., 28" plain barrel with an excellent bore with a modified fixed choke. This shotgun retains about 98% of its original factory finish with faint silvering of the high edges with light handling and operational wear also present. The walnut stock is in near excellent condition with light handling wear and a few light dents detected. Overall, this is a nice condition Ithaca exhibiting light usage. (86429-4) (300/500)
1448. **MOSSBERG 600AT "PREMIER HUNTER" SLIDE ACTION SHOTGUN** serial #H600310, 12 ga., 28" plain barrel with an excellent bore with an improved cylinder choke (the barrel is marked modified). The metal surfaces retain about 98% of their original blue and anodized finishes with some scattered light silvering visible on the edges of the receiver. The hardwood stocks are in near excellent condition with a few scattered light scratches. The recoil pad is in excellent condition. The buttstock is loose but that is a quick fix. (86474-2) (150/250)
1449. **FABARMS FP6 SLIDE ACTION SHOTGUN** serial #6003184, 12 ga., 28" ventilated rib barrel with screw-in choke and an excellent bore. The Mossy Oak Break-Up finish on the metal surfaces and stocks are in excellent condition with about 99% remaining. The rubber recoil pad also rates excellent. This shotgun comes equipped with sling swivel studs, FABARMS "Tribore" barrel and one modified screw in choke is provided. (86470-7) (200/400)
1450. **WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #1001485, 12 ga., 26" ventilated rib barrel with an excellent bore that features a screw-in aftermarket choke. The aftermarket choke system that was installed involved swaging the end of the barrel to a slightly larger diameter giving the barrel a two-step appearance at the muzzle. It was then threaded to take what appears to be a copy of the Winchester Winchoke screw in choke tube. The barrel has also been professionally ported but it is uncertain who did the work. The metal surfaces have been re-blued into a dull satin finish with some original pits still visible under the new finish. This 1946-manufactured shotgun retains about 99% of the new finish with a few light scratches present. The walnut buttstock and forend have been refinished and are in very good to excellent condition with some scattered light dents, scratches and handling wear present. There is a very fine 1" crack visible on the left wrist by the receiver. The ventilated rubber recoil pad is also in excellent condition but, the fit is slightly proud of the wood and it is marked John W. Knope. One improved cylinder screw-in choke is provided and it is marked .715 on the side. This Model 12 refinish has given it a new lease on life and should make for a nice hunting companion. (86393-64) (300/500)
1451. **ITHACA MODEL 37 FEATHERLIGHT DEERSLAYER SLIDE ACTION SHOTGUN** serial #371355038, 12 ga., 20" barrel with an excellent bore featuring adjustable rifle sights with fixed improved modified choke. About 97% of the original factory finish remains with random scratches present on the receiver, and light handling and operation marks are also visible. The walnut buttstock and forend are in near excellent condition with only light handling wear noted. The ventilated recoil pad is in excellent condition and the gun is equipped with sling swivel studs. The Ithaca Deerslayer always had a reputation as a great deer gun. (86393-23) (200/300)
1452. **ITHACA MODEL 37 SLIDE ACTION SHOTGUN** serial #182363, 12 ga., 28" plain barrel with an excellent bore with a fixed modified choke. The original polished factory blue finish is in very good to excellent condition with a scattering of light scratches visible on the receiver and other metal surfaces and rate 96% overall. The walnut buttstock and corncob forend are in very good condition with random scratches and scuff marks detected. There is also an approximately 1 3/8" long, fine line crack on the left side of the pistolgrip that extends from the receiver. (86473-22) (150/250)
1453. **CUSTOM WINCHESTER MODEL 12 SLIDE ACTION SHOTGUN** serial #1719969, 12 ga., 20" barrel with an excellent bore, fixed full choke and rifle sights. The factory barrel of this 1959 manufactured shotgun has been shortened to 20", a separate but permanently affixed full choke installed and a Remington adjustable ramp rear sight installed. The front sight consists of a William's ramped sight base with a 1/16" brass bead sight installed. The metal surfaces retain about 99% plus of their professionally applied blue finish with a few light scattered scratches present. The walnut straight grip buttstock and grooved round bottom forend are in near excellent condition and have been professionally refinished. A nice thick ventilated recoil pad has been installed on the buttstock. The fit is proud of the wood in several locations but a good fit overall. This should make a nice deer gun for those states with mandatory "shotgun only" areas. (86393-36) (300/500)
1454. **SMITH & WESSON MODEL 3000 SLIDE ACTION SHOTGUN TWO BARREL SET** serial #FB80442, 12 ga., 18" "Riot" barrel with a fixed "police cylinder" (improved cylinder) choke and an excellent bore. The second barrel is a 30" plain barrel with fixed full choke and an excellent bore. The factory blue finish on the metal surfaces is in excellent condition with about 99% remaining and some light scratches are present. The painted surfaces on the folding metal buttstock are in excellent condition with about 99% remaining. The black synthetic forend and pistolgrip are in excellent condition. Also included with this shotgun is a five round buttstock ammunition carrier. (6416-43) (300/500)

1455. **SMITH & WESSON SIGMA MODEL SW380 SEMI-AUTO PISTOL** serial #RAE9812, 380 ACP, 3" barrel with an excellent bore. The black finish on the slide and the polymer frame are in excellent condition with an overall rating of 99%. The pistol is packaged in a factory hard case and it contains two magazines, special takedown and assembly tool, manual, and paperwork. (86393-180) (200/300)
1456. **RUGER NEW MODEL BLACKHAWK REVOLVER** serial #36-04375, 357 Magnum, 6 1/2" barrel with an excellent bore. The blue and anodized surfaces are in near excellent condition with about 98% remaining. The cylinder has a visible turn ring and there are a few scattered light scratches present on the metal surfaces. The smooth factory walnut grips are in near excellent condition with a few light dents visible and feature a silver Ruger phoenix medallion. The revolver includes and original two piece factory box and some paperwork. Blackhawks in this caliber have long been a favorite of sportsman and shooters. (86393-191) (300/500)
1457. **MOSSBERG MODEL 185-D BOLT ACTION SHOTGUN** 20 ga., 26" barrel with excellent bore with a Mossberg screw on choke system. The blued metal surfaces exhibit considerable freckling and oxidation with about 50% of the original blue finish remaining. The remainder of the metal surfaces have oxidized to a brown hue. The hardwood stock is in fair to good condition with numerous dents, dings, scratches and some splitting around the crossbolt screw on the right side of the stock. The action still functions and the shotgun is provided with one Mossberg improved cylinder screw on choke and a two round detachable box magazine. (86357-S17272) (C&R) (25/50)
1458. **RUGER MODEL P-85 SEMI-AUTO PISTOL** serial #300-35859, 9mm, 4 1/2" barrel with an excellent bore. The matte black finish on the steel and aluminum surfaces is in near excellent condition with about 99% remaining. There are a few light scratches, scuff marks and handling blemishes present. The polymer grips are also in near excellent condition with a few light handling blemishes present. The pistol features a set of three dot sights, slide mounted de-cocker / safety and ambidextrous magazine release. The pistol is provided with two, fifteen round magazines, a manual and an original factory hard case. The factory safety modification recall has not been completed on this firearm. (86393-231) (250/350)
1459. **BERETTA MODEL 70 PUMA SEMI-AUTO PISTOL** serial #93268, 32 ACP, 3 1/2" barrel with an excellent bore. The blue and anodized surfaces are in excellent condition with about 99% of the finish remaining. The checkered, brown, wrap-around plastic grips are in like new condition. The pistol features fixed sights and cross bolt safety for cocked and locked carry. A correctly labeled factory box is included and it contains a magazine with finger extension base plate, bore brush and manual. (86393-207) (200/300)
1460. **COLT JUNIOR POCKET MODEL SEMI-AUTO PISTOL** serial #57251CC, 22 Short, 2 1/4" barrel with an excellent bore. Overall, this 1967 manufactured pistol retains about 99% of its original blue finish with just a few scant handling blemishes observed. The checkered walnut grips with silver Rampant Colt medallions are in excellent condition. The pistol has crisp and correct marking including the "Made in Spain for Colt" on the frame. The pistol includes one magazine and an original box. The box is very good to excellent condition with part of the end tag torn off and light scuffing visible on the edges. This little pistol appears to have seen very little, if any, use. (86393-224) (300/500)
1461. **COLT JUNIOR POCKET MODEL SEMI-AUTO PISTOL** serial #OD49316, 25 ACP, 2 1/4" barrel with an excellent bore. Overall, this "third model" pistol retains about 99% plus of its original blue finish. The checkered walnut grips with silver Rampant Colt medallions are in excellent condition. The pistol includes one magazine, manual, paperwork and a correctly marked original box in near excellent condition. The third models were made in the U.S. after the G.C.A. of 1968 forced Colt to stop importing the Astra made Junior models. This little pistol appears to have seen very little, if any, use. (86393-206) (300/500)
1462. **LOT OF OPTICS AND MACHINE GUN LINKS** This lot consists of two optical devices and one steel box. Included are one "Loca-Scope" in the original box with instructions. This mirrored device allows the user to locate two landmarks at once to aid in land navigation. The second optic consists of a pair of Chevalier Opticien of Paris binoculars that are in poor condition. The brass framed binoculars are missing the left objective lens assembly and the right exhibits a crack in the glass. The focus adjustment still functions. Included is a metal "Yankee Reflector-Flare" box that is in near excellent condition with light scratches and scuff marks. The box measures 8 1/2"x 3 3/8" x3 3/8" but is missing its original contents. It would make a great little "parts" box. Also included are approximately (25) 30 caliber steel, disintegrating, machine gun links with NATO cross. (85682-19C5)
1463. **STAR MODEL 45 FIRESTAR SEMI-AUTO PISTOL** serial #2143832, 45 ACP, 3 5/8" barrel with an excellent bore. This pistol retains about 99% plus of its original brushed electroless nickel Starvel finish. The black synthetic grips are in like-new condition and have rubbery texture similar to the Pachmayr grips. The pistol features three dot windage adjustable sights, ambidextrous thumb safeties that allow several modes of carry, and checkered front and back straps. Included is a factory hard box, a pair of six round magazines with Starvel finish, cleaning rod with brush, and a combination flat screw driver and Torx wrench tool. This would make a nice companion piece for the following Star Model 43. (86393-205) (300/500)
1464. **STAR MODEL 43 FIRESTAR SEMI-AUTO PISTOL** serial #2121715, 9mm, 3 3/8" barrel with an excellent bore. This pistol retains about 99% plus of its original brushed and matte electroless nickel Starvel finish. The black synthetic grips are in like-new condition and have rubbery texture similar to the Pachmayr grips. The pistol features three dot windage adjustable sights, ambidextrous thumb safeties that allow several modes of carry, and checkered front and back straps. Included is a factory hard box, a pair of seven round magazines with Starvel finish, cleaning rod with bore mop, and a combination flat screw driver and Torx wrench tool. This would make a nice companion piece for the preceding Star Model 45. (86393-208) (300/500)
1465. **COLT FRONTIER SCOUT BUNTLINE MODEL REVOLVER** serial #64326F, 22 S, L, LR, 9 1/2" barrel with an excellent bore. The blue and anodized metal surfaces of this aluminum-framed gun are in near excellent condition with about 97% remaining. There is some light silvering present at the muzzle, and on the high edges of loading gate and cylinder. The checkered plastic grips of this 1959-manufactured revolver are in very good condition with only light handling wear visible on the exterior but the frame stud holes on the grip panels have been repaired with some form of epoxy. The exterior appearance has not been affected by this repair. The Colt hardwood presentation box features a Colt logo on the cover and on the interior of the red satin lined lid. The bottom of the case is cut-out for the revolver and is lined with crushed red velvet. Overall, the case is in very good to excellent condition with some scattered light dents and scratches. (86393-170) (C&R) (300/500)
1466. **ROSSI MODEL 526 DOUBLE ACTION REVOLVER** serial #539276, 22 S, L, LR, 3" barrel with an excellent bore. The factory nickel finish is in excellent condition with about 99% remaining. The blued trigger and hammer also retain their full blue finish. The brown checkered plastic grips are in excellent condition. This little revolver includes a leather covered presentation case with the Rossi logo on the cover. The case is felt lined and is in very good to excellent condition overall. (86393-233) (75/175)
1467. **BAUER FIREARMS BAUER MODEL PISTOL** .25 ACP semi-auto pistol serial #147751, 25 ACP, 2 1/8" barrel with an excellent bore. The brushed stainless steel surfaces retain 99% of their original factory finish with a few light handling blemishes. The checkered hardwood stocks are in like new condition. The pistol includes a correct factory box, a six shot magazine, manual and paperwork. (86393-235) (125/275)
1468. **SEECAMP MODEL LWS .25 ACP SEMI-AUTO PISTOL** serial #3324, 25 ACP, 2" barrel with an excellent bore. The matte stainless steel surfaces are in near excellent condition but, exhibit light handling wear on the back and front strap areas for an overall rating of about 95%. The checkered black plastic stocks are in near excellent condition with a few light handling blemishes. The diminutive pistol includes an original factory box, a pair of seven round magazines, manual and paperwork. Seecamps were well known for their quality and reliability. (86393-212) (300/500)

1469. **HIGH STANDARD MODEL DM-101 DERRINGER PISTOL**, serial #D53264, 22 Rimfire Magnum, 3 1/2" barrels with excellent bores on both barrels. The factory nickel finish is in like new condition as are the black plastic grip panels. The pistol includes the original factory box containing a manual; paperwork and a Hidden Thunder Model .38 DER inside the pants holster. This would make a great backup or CCW pistol. (86393-209) (200/300)
1470. **HARTFORD ARMS CO. MODEL 1925 SEMI-AUTO TARGET PISTOL** serial #2191, 22 LR, 6 3/4" barrel with an excellent bore. Overall, the pistol retains about 95% of its non-original blue finish with most of the loss on the right rear side of the slide and frame. Oxidation blemishes that have been lightly cleaned have left these surfaces a mix of silver and brown with light to moderate pitting present. Some pits are still visible under the re-finished blue. The checkered hard rubber grips are in near excellent condition with some light handling wear present and a few scuff marks. A single two tone magazine is included with the gun and the slide is correctly numbered to the frame. (86393-300) {C&R} (300/500)
1471. **HARTFORD ARMS CO. MODEL 1925 SEMI-AUTO TARGET PISTOL** serial #4730, 22 LR, 6 3/4" barrel with an excellent bore. Overall the pistol retains about 98% of its non-original blue finish with most of the loss due to scattered light oxidation blemishes and pits. Some pits are still visible under the re-finished blue. The walnut grips have fourteen vertical grooves on each panel and rate near excellent overall. A single two tone magazine is included with the gun and the slide is correctly numbered to the frame. (86393-298) {C&R} (300/500)
1472. **CUSTOM HARTFORD ARMS CO. MODEL 1925 SEMI-AUTO TARGET PISTOL** serial #1181, 22 LR, 6 5/8" barrel with an excellent bore. Overall the pistol retains about 90% of its original blue finish. Handling wear has flaked the finish to a mottled mix of gunmetal gray and thinning blue on the grip frame, barrel and other areas. There is also a scattering of scratches, dents and burnished oxidation blemishes present. The unmarked custom checkered walnut grips are in very good condition and feature double thumb rest for ambidextrous use and extend below the frame about 1". They exhibit light compression damage to some of the diamond points especially on the lower portions of the grip and light to moderate handling wear. The single magazine displays considerable use and the floorplate has a 1" wooden extension that is contoured and checkered to match the grips. The magazine release has been modified to only apply friction to the rear of the magazine to retain it. Magazine removal is accomplished by simply pulling the magazine down and out. The slide is correctly numbered to the frame. The front sight has been changed to a bead and the rear sight is a fixed peep. (86393-297) {C&R} (250/450)
1473. **HARRINGTON & RICHARDSON MODEL 1900 SINGLE SHOT SHOTGUN** serial #121645, 12 ga., 30" Damascus barrel with an oxidized and pitted bore equipped with a cylinder bore choke. The metal surfaces of the receiver are a bright metal with a few light scratches, dents and blemishes. The Damascus barrel is a consistent gray color with some light handling and age blemishes, and the fit is slightly loose to the receiver. The forend has a number of dents and scratches present as does the buttstock. Both of them appear to have been refinished and there are a number of thin cracks visible in the wrist areas and a small chip of wood missing. The nice appearance of the shotgun in addition to just enough "character" makes this a great candidate for a "wall hanger". (86375-13) (25/75)
1474. **ITHACA LEFEVER LONG RANGE FIELD AND TRAP SINGLE SHOT SHOTGUN** serial #19855, 16 ga., 28" solid rib barrel with an excellent bore equipped with a fixed full choke. The receiver retains about 50% of its original blue finish with a gunmetal gray color remaining on the high edges. The barrel retains about 98% thinning blue finish with light scratches and handling wear present. The checkered walnut forend and buttstock are in near excellent condition with scattered light dents and handling blemishes present. Both stocks appear to have been re-varnished. Barrel to frame fit remains tight and the non-selective ejector and safety still work properly. (86393-39) {C&R} (200/400)
1475. **HI-STANDARD MODEL G-B SEMI-AUTO PISTOL** serial #325474, 22 LR, 6 3/4" barrel with a near excellent bore exhibiting one small area of pitting just forward of the chamber with the remainder of the barrel bright. The factory blue metal surfaces are near excellent condition with about 98% remaining. The bluing is starting to thin in the grip areas and there is some silvering and scratches on the rear of the slide. There is also some impact marks on and around the barrel catch pin which are most noticeable on the right side. The barrel-to-slide fit is slightly loose but the numbers correctly match the frame. The checkered brown plastic stocks are in excellent condition and feature an HS monogram on each panel. A single two tone magazine with a lightly bent floorplate lip is included with the pistol. (86393-303) {C&R} (300/500)
1476. **HI-STANDARD MODEL H-B SEMI-AUTO PISTOL** serial #292851, 22 LR, 6 3/4" barrel with an excellent bore. This New Haven Connecticut, second model pistol, retains about 90 - 95% of its original factory blue finish with some light silvering at the muzzle and the grip frame has flaked to a predominately gray color from handling. The checkered hard rubber grips feature a HS monogram and rate very good to excellent overall. The left panel has one small spot of flattened diamond points just above the bottom escutcheon and some scattered light wear on both. The slide is correctly numbered to the frame and the pistol includes a single magazine that is in near excellent condition. The rear sight has been replaced by a Micro adjustable sight and the front sight blade has been replaced with a Lyman ramp with a Lyman bead sight installed on the ramp. (86393-316) (250/350)
1477. **HIGH STANDARD BARREL LOT** This lot consist of one New Haven Connecticut-manufactured High Standard barrel for a first model lever series Sport King pistol or G-B model. The barrel is chambered for the 22 LR and is 4 1/2" long with an excellent bore. The barrel retains about 95% of its original bluing with light silvering at the muzzle and on the high edges. The number 3592 is scratch on the bottom of the barrel lug. (86393-387)
1478. **HIGH STANDARD MAGAZINE LOT** This lot consist of a single curved "humpback" magazine for a High Standard G-O First Model Olympic pistol. This rare magazine is in very good to excellent condition with light wear from usage and a small oxidation blemish toward the feed lips. (86393-308A)
1479. **HIGH STANDARD MAGAZINE LOT** This lot consist of a single curved "humpback" magazine for a High Standard G-O First Model Olympic pistol. This rare magazine is in very good to excellent condition with light wear from usage and a few scratches at the base. (86393-308B)
1480. **HIGH STANDARD BARREL LOT** This lot consist of one New Haven Connecticut-manufactured High Standard barrel for a first model lever series Supermatic pistol. This heavy barrel is chambered for the 22 LR and is 4 1/2" long with an excellent bore. The barrel retains about 97% of its original bluing with light silvering present at the muzzle and on the high edges. This barrel is grooved for weights and the groove filler is present but no weights are provided. (86393-313)
1481. **HI-STANDARD MODEL B SEMI-AUTO PISTOL** serial #21445, 22 LR, 6 3/4" barrel with an excellent bore. This pistol has been refinished and re-blued during its life cycle with about 99% of the new finish remaining. During the surface preparation some of the legend on the side of the barrel was partially washed out as is the sideplate hole above the trigger. The checkered hard rubber grips are in near excellent condition with random light scratches and scuff marks visible. A single, excellent condition magazine is included. (86393-324) (250/350)

1482. **CUSTOM RUGER MARK I TARGET SEMI-AUTO PISTOL** serial #15-05360, 22 LR, 3 1/2" heavy barrel with an excellent bore. The barrel has been shortened from its original 5 1/2" length and the metal surfaces have been bead blasted and given a dull blue finish with 99% remaining. The checkered Delrin plastic grips are in very good to excellent condition with light handling marks. This pistol was further modified with the addition of an over travel screw on the trigger and a screw inserted into the front of the triggerguard to limit reset travel. Lastly, the set screw to lock the adjustable rear sight in its dovetail has been replaced with a larger screw but should be easily replaced with a correct screw. A single Mk I magazine is provided. This was an obvious attempt to make the pistol more compact and should make a good, handy woods gun. (86393-288) (150/250)
1483. **CUSTOM RUGER MARK I TARGET SEMI-AUTO PISTOL** serial #13-44299, 22 LR, 5 1/2" heavy barrel with an excellent bore. This pistol retains about 99% of its original factory blue finish with light handling wear present. The checkered Delrin plastic grips are in near excellent condition with light handling marks observed. The adjustable rear has a white outline blade and the front sight is a red ramp. A single MK I magazine is provided with the pistol. The colored sights should be a real boon to hunting in the dark woods or in reduced light. (86393-198) (300/500)
1484. **H&K MAGAZINE LOT** This lot consist of one Heckler & Koch P7 M10 stainless steel magazine for the 40 S&W cartridge. The magazines are marked "P7 M10 - 40 S&W - JC". The magazine is in excellent condition. P7 M10 magazines are hard to find. (86393-165A)
1485. **H&K MAGAZINE LOT** This lot consist of one Heckler & Koch P7 M10 stainless steel magazine for the 40 S&W cartridge. The magazines are marked "P7 M10 - 40 S&W - JC". The magazine is in excellent condition. P7 M10 magazines are hard to find. (86393-165B)
1486. **COLT MODEL 1908 VEST POCKET HAMMERLESS SEMI-AUTO PISTOL** serial #400599, 25ACP, 2 1/4" barrel with an excellent bore. This 1934 pistol was refinished at some point in its life cycle and retains about 99% of the new dull blue finish. There are a few light oxidation blemishes noted plus there are some old pits visible under the new finish. The correct hard rubber grips are in very good to excellent condition with light handling wear observed. The grip screw has been replaced with an incorrect one on-which the head was ground down to help it fit better. The threads still protrudes slightly on the right grip panel. A single unmarked magazine is included with the pistol and the numbers on the slide correctly match the frame. The magazine safety does not function as one or more of the disconnect safety parts are missing. The grip safety and manual safety still function properly. This pistol will fire with the magazine removed! (86393-262) (300/500)
1487. **COLT VEST POCKET MODEL 1908 HAMMERLESS SEMI-AUTO PISTOL** serial #312692, 25ACP, 2 1/4" barrel with an excellent bore. This 1922 pistol was refinished at some point in its life cycle and retains about 99% of the new dull blue finish. The trigger retains some of its Nitre blue finish plus there are some old pits visible under the new finish. There is nick in the top of the slide by the extractor pin probably, caused during reassembly. The correct hard rubber grips are in very good condition with light handling wear observed and a small crack running from the right escutcheon to the rear of the panel. A single magazine with correct marking is included with little pistol. The numbers on the slide correctly match the frame. This would be a great starter gun for the beginning Colt collector or could be used for its original intended purpose of self-defense. (86393-263) (300/500)
1488. **SMITH & WESSON MILITARY & POLICE POST WAR HAND EJECTOR REVOLVER** serial #C60136, 38 Special, 2" pinned barrel with an excellent bore. This pre-model 10 revolver retains about 90% of the original factory blue finish. The high edges are silvering and the grip frame has thinned to a gunmetal gray with brown overtones from handling. The finish is starting to thin in other locations along with some scattered light scratches and the usual turn ring on the cylinder. The hammer and trigger retain strong case-hardened colors and all appropriate parts have correct matching serial numbers. The diamond centered checkered walnut grips of this round butt revolver are in very good to excellent condition with random dents, scratches and lightly compressed diamond points. (86393-289) {C&R} (250/350)
1489. **ARMALITE AR-7 EXPLORER ISRAELI PILOT'S SURVIVAL RIFLE** serial #92612-1, 22 LR, 16" barrel with an excellent bore. The painted surfaces of this importer marked and Costa Mesa California-made rifle are in near excellent condition with some slight silvering on the barrel in front of the barrel lock nut. There is also some thinning and flaking of the finish in the same areas and on the receiver. The Parkerizing on the collapsing wire stock is starting to silver from use were it slides in and out. The FAL pistolgrip is in near excellent condition with light handling blemishes. The bottom of the pistolgrip is hollow for storage of a survival or cleaning kit and retained in position with a rubber cap. This interesting piece of firearms history includes a pair of AR 7 magazines, canvas sling, an unused military cleaning kit, cheekpiece with no mounting hardware, 3 1/2" x 5" canvas pouch and a camouflage nylon two pocket gun case. (86393-142) (300/500)

1523. **ETHAN ALLEN VEST POCKET SWIVEL BREECH SINGLE SHOT DERINGER** serial #17106, 22 Rimfire, 2 1/4" barrel with a heavily pitted bore. There is barely any rifling left visible in the barrel due to the pitting. The brass frame is a pleasing goldenrod color with some darker areas of tarnish visible. The smooth walnut grips are numbered to the pistol as is the barrel. The grips have some light dents and scratches present but rate near excellent overall. (86393-333) {ANTIQUÉ} (300/500)
1524. **IVER JOHNSON THIRD MODEL SAFETY HAMMER REVOLVER** serial #J9612, 32 S&W, 4" barrel with a lightly pitted bore. The revolver is predominately a brown color with some scattered areas of bluing present in the protected areas. The hard rubber grips feature the Owl Head logo and rate about good to very good with light handling wear, unfortunately the left panel has a chip missing and signs of a previous repair. The cylinder is in need of professional services as the automatic ejector does not snap back in the open positions and the revolver cannot be closed. Previous attempts to close the revolver have resulted in two legs on the extractor star partially breaking off. (86393-361) {C&R} (20/40)

1525. **IMI UZI MODEL A SEMI-AUTO CARBINE ACTION ARMS** serial #SA35587, 9 mm, 16" shrouded barrel with a grease packed bore. The carbine has been disassembled and most of the parts have been packed in grease for long term storage. The folding stock, and plastic forearm are not present and it is not known if the all of the mechanical parts are complete either. Included are a bolt, firing pin, trigger assembly with grip and top cover. The parts remaining appear to be in excellent condition and with some time and degreasing this may end up to be a fun and useable carbine once again. A single 32-round magazine is included. (46492-1)(600/800)
1526. **SPRINGFIELD MODEL 1896 Krag-JORGENSEN BOLT ACTION BANNERMAN CARBINE** serial #95927, 30-40 Krag, 22" barrel with a near excellent bore that is lightly frosted in the grooves. The metal surfaces retain about 80% blue that is flaking to a smooth brown patina, the tang showing some dark color. The bolt and magazine plate both exhibit a mottled gray, the plate has traces of case color. The modified walnut, military stock rates very good to near excellent and has minor dings and scratches with one hairline crack evident behind the tang. The butt retains the steel buttplate with cleaning rod trap present which has turned mostly brown and sling swivels are present. There is a very faint "1898" dated cartouche on the left side of the stock and a more visible firing proof mark behind the triggerguard. The gun is equipped with a 1903 blade front sight and a 1902 rear tangent sight. Both Bannerman and DCM converted many of these rifles into "NRA" style sporting carbines in the 1920-30's but without a certificate from DCM it is difficult to say which did the conversion. This example is in near excellent condition. (46393-130) {ANTIQUE} (300/500)
1527. **CZ MODEL 527 BOLT ACTION RIFLE** serial #57377, 222 Rem, 24" barrel with a bright, excellent bore. The metal surfaces retain about 99% original blue that has a few light handling marks present. The checkered walnut stock has had a textured black, Rhino or Linex type finish applied but appears to rate excellent overall. There is no provision for sights, but mounted to the receiver by a set of factory rings is a Tasco World Class 6-24X44 adjustable objective riflescope. The scope features target knobs and has a fine crosshair with target dot reticle and excellent optics. The scope is equipped with a 3" sunshade and a set of screw-on lens covers. Included is a single detachable magazine. An excellent sporting or target rifle with a durable, weather resistant coating on the stock. (46518-15) (300/500)
1528. **U.S. M1 CARBINE BY INLAND DIVISION** serial #4941818, 30 Carbine, 18" Inland barrel dated "1-44" with an excellent bore. The metal surfaces are mostly a mottled gray and have some areas of brown patina and surface oxidation blending through. The walnut military grade stocks rate very good and have light dings and small chips. The wood has added finish and there are no markings present except for a very faint firing proof. The carbine is in the Type III configuration with bayonet lug and features an M2 round bolt. The parts are all mixed from various manufacturers and the barrel is Blue Sky import marked along the left side. A canvas sling and oil are included, no magazine is present. A near excellent example overall that should make a great shooter. (46529-4) {C&R} (350/550)
1529. **MOSSBERG MODEL 590 SLIDE ACTION SHOTGUN** serial #L090030, 12 ga., 20" cylinder bore ported barrel with a very good lightly oxidized bore. The metal surfaces retain about 90% original parkerized and anodized finish with light handling wear and small scratches and light tool marks throughout. The black synthetic stocks rate excellent. Shotgun is equipped with a set of factory ghost ring sights and includes a canvas GI sling. A very useable shotgun for home defense or for other tactical applications. (46518-34) (200/300)
1530. **LOT OF VINTAGE HENSOLDT BINOCULARS** (1) 6x30 binoculars, these compact binoculars have a black textured body with metal caps, plastic eyepieces, and a leather strap. 1531. **SAVAGE MODEL 1912 SLIDE ACTION RIFLE** serial #131040, 22 S,L,LR, 23 1/2" octagon barrel with an about very good bore that has moderate pitting throughout. The metal surfaces retain about 99% of a professionally applied blue finish that has some light handling wear and covers areas of light pitting. A few of the screws have minor slot damage. The grooved walnut forearm rates excellent while the pistolgrip buttstock features a crescent style buttplate and rates about very good with several repairs and it sits loose on the frame. Both the forearm and buttstock have a nice added oil finish. A single detachable magazine is included. Rifle has been completely disassembled and it is not known if all parts are present. The two-pieces of the take-down frame, buttplate and buttstock are all numbered alike. (46540-14) {C&R} (100/200)
1532. **REMINGTON MODEL 581 BOLT ACTION RIFLE** serial #1217872, 22 LR, 24" barrel with a very good bore that has some light pitting present throughout. The metal surfaces retain about 90% original blue and have a few light handling marks present and some minor loss and oxidation staining along the top of the barrel. The hardwood stock rates excellent and has a few light dings and some minor loss of the original varnish, possibly due to runoff from an aggressive cleaning agent. The sights and original magazine are intact. A near excellent example overall that should make a great plinker despite its noted issues. (46514-1) (75/150)
1533. **SAVAGE MODEL 1915 HAMMERLESS SEMI-AUTO PISTOL** serial #131740, 32 ACP, 3 3/4" barrel with a near excellent bore that is mostly bright but has a single medium sized pit about midway down. The metal surfaces retain about 85% original blue that has some minor flaking and areas of fine pinprick pitting throughout. The pistol has been equipped with a nice set of custom, smooth wood grips that are a good fit and comfortable to hold. A single magazine is included. A very good to near excellent example overall. (46562-2) (250/450)
1534. **REMINGTON MODEL 710 SPORTSMAN BOLT ACTION RIFLE** serial #71180602, 30-06, 22" barrel with a bright, excellent bore. The metal surfaces retain about 99% plus of original blue that has little if any signs of wear. The gray polymer composite stock rates excellent as well and has a few very light handling marks. There are no provisions for sights but rifle does have a Weaver style scope base mounted to the receiver. A single detachable magazine is included. A near new-condition example of these economical sporting rifles, only missing the original box and Bushnell scope to be considered to be in new-in-box condition and needs only a set of quality optics to be complete again. (46549-3) (200/300)
1535. **BROWNING AUTO 22 GRADE I SEMI-AUTO RIFLE** serial #01301PZ146, 22 LR, 19 1/4" barrel with a bright, excellent bore. The metal surfaces retain about 99% original polished blue that has a few light handling marks along the top of the receiver. The checkered walnut forearm rates excellent while the buttstock rates very good and has a small 1 3/4" long crack on the right side where the wood meets the rear of the receiver. Both have a few light dings and scratches. The original sights are intact. A near excellent condition example overall that was made by Miroku. (46521-1) (300/500)
1536. **STOEGER MODEL 2000 SEMI-AUTO COMBO SHOTGUN** serial #307376, 12 ga., 26 1/2" ventilated rib and 24 1/2" rifles sight barrels, both with screw-in improved modified and modified chokes respectively, with bright excellent bores. The metal surfaces retain about 97-98% original Real Tree Advantage camouflage coated finish that has some light handling wear along the edges. The synthetic stocks retain a similar finish and are in similar condition. The original box is included and contains the manual, choke wrench and three additional chokes: full, improved cylinder and cylinder. The ventilated rib barrel is equipped with an ivory bead front sight and is numbered to a different shotgun while the slug barrel is numbered to the receiver and features a fiber optic front sight. These quality European-made shotguns are designed using the Benelli inertia system and offer terrific performance and reliability without the higher price associated with Benelli shotguns. A terrific all-purpose deer and bird combination setup. (46549-5) (350/550)

1537. **WINCHESTER MODEL 69A TARGET BOLT ACTION RIFLE** 22 S,L,LR, 25" barrel that has an excellent bore. 1734. **LOT OF MILITARY ITEMS** This is a lot of approximately 20 survival related items including two flares by Standard Fusee Corp.; two complete U.S.-issued kits in correct transparent plastic cases, including one accompanied by an emergency signaling mirror (ESM/1) and completed in an O.D. green canvas pouch; an ESM/2 mirror with original sleeve; two multi-tooled pocket knives; a mosquito head net; an Acme Thunderer whistle; a protective plastic rifle sleeve; a U.S. issued AAF Manual 64-0-1 and two additional manuals. Additionally there is a one quart water bottle and a plastic cover for the .45 Colt Auto from the Army Air Force C1 survival vest; a WWII life raft plug, and other small miscellaneous items. The overall condition is near excellent. (73634-26A)
1735. **LOT OF MILITARY ITEMS** A wide range of mainly U.S.-issued supplies comprises this lot of approximately 30 items, many of which include several components. Examples are a fishing kit with instruction manual stamped "AN/D 207"; a gun cleaning kit marked "S 424 1945/S.M. 110"; a Corps of Engineers compass by Superior Magneto Corp. dated 7/45 and contained in the correct canvas pouch; a pen style flashlight; a nylon survival hat with full brim; an Aircrew Member first aid kit with stock number 8300-623715; five cotton particle masks; a factory sealed can marked "Emergency Parachute Ration"; two sealed boxes marked "U.S. Army Field Ration D"; two sealed packages marked "Malted Milk Tablets"; an unopened box marked "Spit Assembly Parts No. SGA 43-27"; a box marked "A. A. F. Classification No. 17-B" containing a knife and sheath by Western States Cutlery. Also included are other hard-to-find items such as tourniquets in their original box, one of which is marked "Braided Line Spanish Windlass Type", another, "U.S. Army Tourniquet and Forceps". Additional survival related items are two boxes containing Carlisle Model battle dressings; a second fishing kit, this one contained in the correct canvas pouch; a canvas pouch marked "Laird Schober/1944" with multiple pockets still containing original items including an unopened bottle of Eveready Insect Repellent and even a canister of lip balm. Attached to the pouch is a Carlisle first aid kit in its own correct pouch. Also included are items in their original packaging such as iodine swabs, sunburn cream, foot powder and shoe dubbing. Overall the lot is in near excellent condition. (73634-26B)
1736. **LOT OF UNIFORMS** This is a box filled with numerous military related garments. It is comprised of 13 jackets, 4 trousers, 3 shirts, and 3 ties and mounted on hangers. Most are U.S. Army Air Force related and contain correct buttons, medals and patches. The overall condition is very good to excellent. (73634-19A)
1737. **MILITARY SURVIVAL LOT** This is a U.S.-issued life raft with all components present and in the original canvas case marked "Raft Pneumatic, Type C-2" and dated March 15, 1945. Manufactured by Anderson Rubber Company, this hard-to-find item has some light stains on the OD green case with hooks experiencing light oxidation in some areas. The unused raft and accessories rate very good to excellent with some minor mildew. (73634-41A)
1738. **MILITARY SURVIVAL LOT** This lot consists of U.S.-issued life raft related gear to include a life vest dye marker; an emergency signaling mirror no. 40653; five life raft plugs of various sizes; a 1967-dated 5 Min. Red Railway Fuse and a factory sealed one man life raft reflector MX-137/A by Reed & Barton, dated June 26, 1945. Also included is an unused sail complete with mast and accompanied by original foil wrapper, and the last item is a weather apron measuring 45"x38" with a small area of mildew staining. Very good overall condition lot. (73634-41B)

1739. **MILITARY SURVIVAL LOT** First is a U.S. Aviator sea dye marker and an accompanying flare dated Oct., 1942. Next is a pair of white canvas moccasins with accompanying survival hat. Also included is a fishing kit with 13 separate components comprised mainly of various types of line and enclosed in original cloth pouch. The last item is a survival pack missing its back outer but still containing items such as the weather apron and first aid kit and in good to very good condition with moderate mildew in areas. The previous items rate about very good overall. (73634-41C)
1740. **MILITARY SURVIVAL LOT** This is a life vest measuring 19"x17" and weighing five lbs. that unzips to expose the enclosed survival supplies tucked into form-fitted sections in the flotation material. Some of the original items come with this lot. They include a signaling mirror, gauze bandage, spirit of ammonia, mosquito head net, flare; matches and tourniquet. The outer OD green canvas exhibits moderate ingrained dirt and stains and indications of use. The two zippers, though functional are missing their handles. The overall condition is near very good. (73634-41D)
1741. **LOT OF MILITARY ITEMS** This is a lot of U.S. Aviator equipment and comprised of three hard-to-find items. First is a life vest with part no. 42J465 and identical in design and construction to the one mentioned in the previous lot but this one appears unused with only light stains in isolated areas and includes no supplies. The zippers function perfectly and include their brass handles. The second item is a zippered leather case measuring 17"x12" and marked "Pilots" Navigation Kit/Air Forces/United States Army" in gold embossing. The tan canvas interior is comprised of several pockets, some still containing tools that were likely used by the 1st Lt. who signed the included Customs Declaration and dated Oct. 3, 1945. The case shows mild wear particularly at the corners and areas of scuffing. The last item is a zippered tan canvas case measuring 22"x13" with a large zippered front pocket marked "Bombardier's Case/Type E-1". The fully functional zipper opens the main section to expose a near excellent condition interior with several brass snap closure pockets. The dual leather handles are intact and the outer shows mild wear at the edges and light ingrained dirt. (73634-41E)
1742. **LOT OF WOOD CRATES** This lot consists of two wood crates by the American Cyanamid Company measuring 18"x12"x10" and featuring finger joint construction and bold black ID stampings. The lengths are marked "American Cyanamid Company/Explosives Department/30 Rockefeller Plaza/ New York 20, N.Y./ICC-14-65/High Explosives-Dangerous" and one end is marked "Explosives" in an oval within the striped bottom of the company's shield shaped logo. Each case rates about near excellent with a few dings and scrapes but remain visually appealing and are accented with interiors that have been painted brick red. (73634-45A)
1743. **LOT OF MILITARY ITEMS** This is an aviator's eye wear lot consisting of U.S.A.A.F. issued Type B-8 flying goggles by Polaroid in the original box with instruction booklet and eight shade lenses contained in the original cloth sleeve and instruction booklet. The leather goggles are quite stiff and exhibit light wear and moderate mildew staining. The light OD green box rates near excellent and features metal reinforced corners and is marked with Specification No. 3200. Also included is an unused pair of clear lens goggles with cloth frames and straps and contained in original paper wrap and outer sleeve. The last item is an apparently unused and excellent pair of OD Green metal goggles featuring hollow narrow horizontal slits on each side and comes complete with straps and padding. (73634-25A)
1744. **LOT OF MILITARY ITEMS** This lot is comprised of a U.S.A.A.F. issued Polaroid Aviation Goggle Kit. The goggles are marked as model 1065 and rate near excellent with lens, padding and straps intact. Included are eight additional interchangeable lenses in various shades and in similar condition. These items, along with an instruction booklet for model 1068 are contained in a compartmentalized brown cardboard Polaroid box rating good to very good with moderate wear and scuffing particularly along the edges. (73634-25B)
1745. **LOT OF MILITARY ITEMS** This lot consists of aviator's eyewear including goggles marked "A.A.F. Type B-8" that rate near excellent with light wear at the contact points and includes a light teal colored head strap. Currently mounted to the frame is a removable blue lens and included is an additional blue lens. These items are contained in an OD green hinged cardboard box with metal reinforced corners and labeled "Polaroid/Blind Flying Goggle Kit/Blue Orange Type/No. 1087" and in about very good condition with an ink written name, some staining and ingrained dirt mainly noticeable at the top teal colored label and some scuffing particularly at the corners. Next is an excellent pair of U.S. issued clip on wire framed green lenses in a brown vinyl case. The last item is a tan vinyl and cardboard case marked "American Polaroid Day Glasses" with a tear along the top rear. (73634-25C)
1746. **LOT OF UNIFORMS** Total of 21 separate pieces of mainly U.S.A.A.F. issued uniforms to include three coats, four caps, four jackets, two trousers, and six shirts. The overall condition is very good to excellent with a couple of the jackets retaining original pins and badges. (73634-3A)
1747. **LOT OF MILITARY GEAR** First is a group of 17 pieces of assorted canvas and web gear in about very good overall condition, examples of which are a sleeve marked "Cover, Spare Barrel M8", and a similar but longer example marked for an M8 barrel. Each has functional snap covers and leather reinforced muzzle ends. Other examples are a bag complete with straps and marked "US/ Mask, Protective, Field" and an "M-1918 Rope, Drag", with shoulder strap which was used for towing equipment. Also included is an apparently unused 20"x18" inflatable OD green canvas pillow likely used as a flotation device as it is similar in appearance to a jungle flotation bladder and features a metal air valve with a person's name stenciled on the front. The final items are a khaki colored pair of leggings with moderate mildew stains and a 108"x72" white sleeping bag liner with numerous small spots and stains but otherwise excellent condition. (73634-3B)
1748. **LOT OF MILITARY ITEMS** This is a group of small items that are mainly survival related. They include a complete and unused Snake Bite Outfit Pocket-Kit by A.E. Halperin in the original hinged tin box; a factory sealed tin marked "Gaff Hook Assembly"; a canister marked "Fogpruf Paste for Gas Masks" containing an unused cloth and unopened tube; an unused box marked "6 Iodine Swabs/ Item No. 91120" and dated March 4, 1943; an unused one quart water container in original but torn paper bag marked "Canteen, Plastic Vinylite/S. Buchsbaum & Co.", and an excellent metal pen flashlight marked "Type A-6B U.S." with clip and lanyard. Also included in this lot is a July 1995 dated flare marked "5 Min. Red Fusee" by Standard Fusee Corp., a small unmarked handheld signal mirror; a plastic OD green whistle marked "U.S.N. 1944" with lanyard and in excellent condition and a tubular U.S. Army marked brass whistle with chain lanyard also rating excellent. (73634-26C)
1749. **LOT OF MILITARY ITEMS** This lot consists of three items. First is an M2 Jungle First Aid Kit with what appears to be all original items, however the Frazier's solution has completely evaporated as has a small amount of iodine. The kit also includes a Gillette Knife Blade in the original box and an OD green tube of Boric Acid Ointment. The correct canvas case rates near excellent and is marked H. M. CO./1945. Also included is a U.S. Army Medical Dept. First Aid Jungle wood carry case measuring 18"x10"x5" and painted OD green with about 90% original white and red paint logos still present. The hinged lid opens to reveal two wood trays and the 15 compartment middle section still present. It also reveals some red stains presumably from some liquid. The top has only about 25% of the original instruction label remaining as it appears someone attempted to remove it with a scraper. The outer surface has some mildew spots and handling marks and the carry handle and snap closures are present and functional but the steel parts exhibit mild surface oxidation. Next is a pair of U.S. Survival Raft Paddles with reflective side that are structurally sound and show areas of grime and two small chips at the top of one of the handles. The cloth hangers remain intact. (73634-26D)
1750. **LOT OF COMPASSES** This lot consists of two desirable compasses in excellent condition. First is a nickel-bodied U.S.-marked Wittnauer that is fully functional. The front has faded somewhat but it remains a fine example of a WW II compass. The second is a brass-bodied U.S.-marked example by Schwab Wuischpard of New York that operates perfectly and exhibits a pleasing darkened patina. Attached is a string lanyard. (73634-26E)

1751. **LOT OF MILITARY ITEMS** This is a survival related lot consisting of an emergency flashlight by Acme marked "Type A-7" featuring vertical and horizontal bulbs and string cord; two emergency signaling mirrors, one Type ESM/1 and the other Type ESM/2, both in excellent condition with cords and in the original packaging; and an unused U.S.A.A.F Drinking Water Kit with original cord and currently reinforced with tape at some seams. Also included is 5 Min. Red Railway Fusee dated Nov., 1967, and a U.S.N. issued manual titled *Survival on Land and Sea*, and dated 1944. The 187 page manual remains structurally sound but has a moderately stained tan cover with a name written on the top left. The last item is a U.S. Army issued plastic whistle with cord. (73634-26F)
1752. **LOT OF MILITARY PILLOW COVERS** This lot might best be described as fabric dedications as many of the pieces are clad with warm messages and poems to loved ones. This collection of approximately 25 pieces of silk or rayon linen have very colorful arrangements and frill borders. Most of the messages include their origin, many being military outposts, examples of which are Camp Kilmer, Buckley Field, Fort Devens, and Camp Chaffee. The dimensions vary somewhat but the average is about 20"x 20". The overall condition is excellent. (73634-21A)
1753. **LOT OF MILITARY ITEMS** This is a lot of aviation equipment including a Grimes Model K-2 signal light lamp with original power cord and excellent condition Bakelite plastic body. Included are four attachable colored lenses rating excellent and contained in their own original hinged box in excellent condition and marked "N.A.F. 311389-6". (73634-43A)
1754. **LOT OF AVIATION INSTRUMENTS** Total of three items. First is an apparently unused and excellent condition Altitude Correction Computer contained in the original box and manufactured by Cruver Mfg. Co. It measures 8" in diameter and is calibrated to give "true altitude above a plateau from indicated values" according to the instructions posted in white text against a black surface on the rear of the device. The next item is also manufactured by Cruver and is a Computer True Airspeed A.C. Type G-1 and also appears unused and in excellent condition. It comes in the original box with War Dept. label date stamped May 1, 1945. The last item also rates excellent and appears unused, this one a Telex Model FDF-47 E-6B Computer measuring 10"x 4" and of alloy construction. Included is the original brown vinyl sleeve with the Telex logo embossed at the top. (73634-8A)
1755. **LOT OF MILITARY MANUALS** Total of 14 paperback, booklet style, and hardcover instruction and information-based WWII-era publications from the U.S. War Dept. and related branches with page totals ranging from 32 to 1145. Examples include *Compensation and Pensions*, *World War II, Handbook of First Aid*, *The State Defense Force Manual*, *Comparative Rules of the Road and How to Obey them*, and *The Bluejackets' Manual 1943*. A wide range of topics and some uncommon publications make up this lot that rates about very good overall with various levels of wear, ingrained dirt, and some with mostly minor tears. (73634-18A)
1756. **LOT OF MILITARY MANUALS AND PERIODICALS** Total of 14 WWII and mainly U.S Government-issued publications with titles such as *Personal Conduct for the Soldier*, *Handbook of First Aid*, *The Marine Noncommissioned Officer*, *Unit Rifle Marksmanship Training Guide*, *Mine Card GTA 5-21*, and *Field Wire and Field Cable Techniques*. There are three issues of 1944 dated *Quartermaster Training Service Journal* and a couple of parts list manuals for heavy duty Army vehicles. Page quantities range from the 43 to 180 and the conditions range from good to very good with some having price stickers attached. (73634-18B)
1757. **LOT OF MILITARY MANUALS AND BOOKS** Total of 11 WWII-era publications pertaining to the U.S.A.A.F., several being for training courses such as *Flight Engineering*, *Aircraft Propellers*, and *Aircraft Instruments*. Examples of titles are *What's that Plane: How to Identify American and Jap Airplanes*, and *Combat Air Forces of World War II (Army of the United States)*. Also included is a pocket-size issue of *The New Testament* with the Aviation Cadet insignia embossed on the brown pebble grain vinyl cover and the name and address of the cadet to whom it was issued written in the provided space on the inside front cover. The overall condition of the lot is good to very good. (73634-18C)
1758. **LOT OF MILITARY LITERATURE** Approximately 22 various types of WWII-era printed matter highlighted by pocket size copies of *The New Testament*, and *Jewish Holy Scriptures* issued by the U.S. Army. Also included is the *Fighting Forces Series* 267 page paperback Report on the Army: July 1, 1939 to June 30 1943, which serves as the biennial reports of Gen. George C. Marshall, Chief of Staff of the United States Army to The Secretary of War. Examples of other titles are *Basic Field Manual Automatic Pistol Caliber .45 M1911 and M1911A*, *The United States Marine: Essential Subjects*, and *The War Dictionary*. (73634-18D)
1759. **LOT OF WEB GEAR** This lot consists of approximately 35 pieces of web gear, mainly U.S. WWII era, including leggings, first aid pouches, a holster, a gas mask bag, belts and suspenders. The overall condition is very good to excellent. (73634-16A)
1760. **LOT OF MILITARY ITEMS** This is a lot of art-related items based mainly on WWII. First is an excellent condition collection of 17 prints by renowned aviation artist Ted Williams. Each one is an amazingly realistic and accurate full color drawing of a WWII aircraft with schematic-style drawings serving as a backdrop. Identification is provided on the backs of the 13"x10" dark blue canvases to which they are mounted, including some with squadron insignias in the form of adhesive stickers. Examples of models are Seversky P-35, Lockheed P-38 Lightning, North American P-51 Mustang, Grumman F8F Bearcat and Brewster F2A Buffalo. The next category is a group of seven framed illustrations based mainly on the German municipality of Mittenwald, with five being drawings depicting German soldiers in battle and the other two photographic prints of the area. They measure approximately 8"x6" each with glass covers, with five of wood construction and painted green and the other two gold embossed metal. Overall the condition is very good and structurally sound but there are mildew stains present. Next is a group of about twenty excellent condition 13"x10" color prints depicting different eras of the U.S. soldier. There is also a collection of seven prints by Arthur Beaumont forming the *Guardians of Our Ocean Ramparts: Ships of the U.S. Navy from the National Geographic Magazine* and dated September 1941. These magnificent color drawings measure 10"x6", each with descriptive captions and bound on white boards measuring 16"x12". A couple show some liquid staining as does the original cardboard sleeve. Next are three excellent condition 1943 dated color advertisements featuring illustrations of U.S. GI's, consisting of two from Chesterfield cigarettes that include a patriotic theme as they request for the purchase of bonds and stamps and the other by Coca-Cola declaring the enjoyment it provides to U.S. troops. Each measures 14"x10" and is bound to a sturdy corrugated cardboard backing. The last item is a 15"x11" framed black and white photographic image of a member of the U.S. 10th Mountain Division travelling on skis and carrying an M1 Garand rifle and backpack. The silver painted wood frame is intact. There are mildew stains visible under the Plexiglas cover and frame. (73634-22A)
1761. **LOT OF HOLSTERS** This is a lot of three U.S. leather military pistol holsters. First is an M-3 with strap and marked Enger-Kress that shows only light wear and crisp markings. The leather is somewhat stiff with a few scuff marks and verdigris present on metal parts that have stained areas on the back. The stitching is strong and the overall condition is about very good plus. The second is an M-1916 rating good plus with some cracking evident and an overall very stiff texture particularly at darkened areas where it appears to have made contact with a harsh liquid, which may have caused the loss of stitching at the belt loop. The interior shows average wear and the hanger and lanyard are present. Lastly is an M-1942 marked "Fink" in about very good condition with scuffing mainly along the front, average overall wear, and some verdigris along the metal parts. The U.S. logo is still strong and the top loop and hanger are intact as is the bottom brass loop. (73634-39A)
1762. **HOLSTER LOT** This is a brown leather flap holster for the Japanese Type 26 revolver with strong leather and light scuffing in isolated areas. The stitching is tight but worn in some areas. The pouch, straps and all hardware are firmly intact and verdigris is present around the brass. There is light to moderate white mildew staining on about 30% of the leather surfaces. The cleaning rod is present. Overall the holster shows below average wear and rates about very good. (73634-39B)

1763. **LOT OF MILITARY CLOTHING** This lot consists of a rare WWII armored flyers vest complete with armored apron and all straps and components. Together they weigh 25 lbs. with a 32" front and 20" back. The outer material is OD green nylon exhibiting mild white mildew staining, a few scattered brown spots and light red stains from dye transfer resulting from contact with the red tug strap which when pulled caused separation of lift dots which allowed the armor to fall away. The interior is lined in white corduroy and most of its surface has some combination of mild mildew staining and ingrained dirt, and also has a red stain on the apron, this one more expansive as it runs along a few creases. Despite the discoloration, the outfit shows little wear. Both the apron and vests have weight stamps and retain their tags identifying them as manufactured by Fashion Frocks Inc. (73634-37A)
1764. **LOT OF UNIFORMS** This is an assortment of WWII-era military clothing, mainly U.S. Army, with the majority of cotton, but some wool. Included are 6 pair of trousers, 9 garrison caps, 1 pair of wool and leather gloves, 13 shirts, 3 jackets and a pair of Bauer Winter Flying Suit Pants, made of insulated nylon. The overall condition is very good to excellent. (73634-33)
1765. **LOT OF FOOTWEAR** This lot consists of 7 pairs, all different models, of WWII-era U.S.-issued footwear in good to very good condition overall, complete with laces, straps and buckles with some showing mildew stains and in various levels of wear. The models are combat service, laced leather waterproof, type 1 service shoe, jungle boot, winter A-6A conversion flying shoe, and an 18" tall pair of brown leather boots with regular lace configuration but also lacing at the exterior sides of the tops. Also included are three OD green boot laces in original wrap. (73634-46A)
1766. **LOT OF FOOTWEAR** This lot consists of a pair of unused and excellent condition U.S. Legging Top Leather Field Boots. It is rare to find WW II era boots in this state. The 17" tall brown leather boots come complete with the original laces and all three straps and buckles. The General Shoe size 8 and stock code stamps are still legible on the interior as are the B.F. Goodrich markings on the wear free soles. Also included is a pair of Type 1 Service Shoes rating near very good with light mildew stains. (73634-46B)
1767. **LOT OF MILITARY GEAR** This is an unmarked pack board similar in construction to a Yukon Pack board but with only three horizontal boards that are slightly contoured. It measures 33"x19" and weighs five lbs. It consists of a khaki colored canvas cover and straps. All components are intact and this uncommon pack shows light wear and areas of ingrained dirt but overall rates very good to near excellent. (73643-29A)
1768. **LOT OF MILITARY EQUIPMENT** This is one U.S. Army Signal Corps Code Training Set AN/GSC-T1 by McElroy Mfg. Corp., with serial no. 00. The mechanism is enclosed in its OD green wood carry case with steel reinforced edges and measuring 17"x10"x14" with the entire unit weighing 44 lbs. The top of the case bears the Signal Corps insignia, each side retains the carry handle and closure snap and the back retains the locking mechanism for the hinged top that opens to reveal all the original power cord, dials and components with the exception of one fuse cap. The operating packing instructions plate is still intact, there is no headset included and the unit has not been tested for operation, but structurally it is in near excellent condition overall. (73634-14A)
1769. **LOT OF MILITARY EQUIPMENT** This lot consists of three U.S.-issued Blitz Cans, also referred to as Jerry Cans including two with clamp lids and steel bodies painted OD green of which about 90% remains, there are areas of surface oxidation and a few spots with white and other shades of green paint. These two cans are marked at the top: "Monarch 44", the other "Cavalier 44" which also reveals moderate oxidation at the bottom. The third flat sided 5 gallon can has a screw-on cap with chain and has been painted red with about 70% remaining as a result of flaking which is currently occurring. The bottom is painted OD green and is marked "Wheeling/20 5 44". All three cans reveal mild interior oxidation and light dirt and grime particularly at the tops. (73634-46C)
1770. **LOT OF MILITARY EQUIPMENT** This is a WWII-era Army cot with dark green canvas backing and wood legs that fold for easy transport. When unfolded it measures 74"x27"x16" and 38"x9"x5" in its folded state. The overall condition is excellent with some minor stains to the canvas and light contact wear on areas of wood. The two end braces are not present. (73634-29B)
1771. **LOT OF MILITARY EQUIPMENT** This is a 1945 or 1946-dated Army cot with a 72"x26" canvas surface and stands 19". When folded it measures 38"x9"x5". The OD green canvas rates excellent other than a large liquid stain near the middle. The wood frame also rates excellent and the unit comes with two additional 31" wood pieces that attach as end braces. The steel hinges are showing small areas of surface oxidation. (73634-29C)
1772. **LOT OF LONG GUN CASES** This lot consists of two leather hard cases. First is an M-1938 Rifle Scabbard for the M-1 Garand marked "US J.O.M.D. 1942", measuring 30"x8" with 6" brass tunnel and all straps and hardware intact with snaps showing verdigris. The stitching remains strong as does the brown leather which shows a few handling marks including a gouge about 8" from the muzzle end, some white mildew staining, and other small areas of discoloration. The interior shows virtually no wear but has some spots of mildew. A complete and very good condition M-1938 scabbard. The second item is a Winchester leg-o-mutton case marked "15W/M1907" measuring 27"x7" with a tan leather body exhibiting whitish mildew staining on about 60% of its surface and areas of fading. The lid retains a legible Winchester stamp and all stitching with the hinge straps showing wear and the onset of cracking. About 70% of the stitching on the muzzle has torn but is repairable and the carry handle is present and functional, as is the sling attachment hardware. The sling is not present. The red velour interior is lightly faded and the compartment separator slides easily and the muzzle base shows heavy contact wear, cracking and a one inch hole. Overall the piece rates about good to near very good. (73634-44A)
1773. **LOT OF WOOD CRATES** This lot consists of three empty U.S. ammunition crates. The first measures 19"x7"x13" with a functional cord rope carry handle attached to the metal hinged lid. The front of the crate is marked "S4F1A/10 GRENADES, RIFLE/SMOKE YELLOW/STREAMER,M23A1/10-CTGS, RIFLE GRENADE, CAL30 M3/CTGS GRENADE, AUX M7/3 LAUNCHER POSITIONING CLIPS/WT 36/CU0.89/LOADED 6-54 LOT OAP-12-28. The back retains most of a shipping label showing shipment from Seneca Army Depot to Fort Devens Warehouse. The box rates near excellent with a small chip at the lid near the front closure, areas of minor fading, wear and ingrained dirt. The interior retains original packing blocks. The second crate has dimensions of 16"x12"x8" and retains about 96% of its original brown paint with yellow stencil on four sides reading "2000 CARTRIDGES/PISTOL BALL CALIBER .45 M1911/IN CARTONS/AMMUNITION LOT NUMBER/FRANKFORD ARSENAL 632". The near excellent condition box features carry inlets and a screw-on lid that attaches by way of the six original screws which remain intact, no nuts are present. One side of the interior has some calculations written in lead pencil. The last item measures 28"x14"x6" with a metal hinged lid with dual closure clips and stacking boards. The lid is stamped in black: "AMMUNITION FOR CANNON WITH/ILLUMINATING PROJECTILES/R4HMA/LOT RD-8-42". The front is marked "3 SHELL ILLUMINATING M301A1/W FUZE TIME M84 81 MM MORTARS" and the sides each feature the original cord rope carry handles. Near excellent condition overall. (73634-9A)

1774. **LOT OF POSTERS** This is a collection of ten U.S. WWII based posters beginning with three 24"x18" excellent condition gloss wall posters pertaining to General George S. Patton including the portrait by Czedekowski of Patton in full uniform with sidearm and interesting articles on the back; a black and white close up with color graphics depicting a famous quote; and a color example with the general bearing combat helmet and the back featuring text of "Patton's Address to His Troops". Next is a similar sized print titled Giant-Killers with a caption reading "Elco PT...World's Fastest Combat Vessel". Copyright 1943 Electric Boat Co., New York. The color print depicts a ferocious naval battle depicting a couple examples in the foreground taking on a much larger enemy vessel. The sheet has light fading and a seven inch tear at the right side. Next is a 20"x14" poster by the U.S. Government Printing Office dated 1942 titled "Buy U.S. War Stamps and Bonds" and showing an illustration courtesy of Ladies Home Journal of a mother and daughter applying stamps to a book. It is lightly faded with a three inch tear at the top. Next are two color 22"x16" posters from the U.S. Forces Command based on the U.S.A.A.F, the first being a representative display of 100 aircraft squadron insignia and dated 1988, the other dated 1990 and featuring 48 examples of WW II aircraft nose art. Next is a large, (44"x29") Nov. 23, 1943 dated example of Approved War Dept. Graphic Training Aid 5-6 (50) Chart No. 50 and titled "To Disarm Secondary Fuzes in German Tellermines" from Mines and Booby Traps Section II, German and Hungarian. It lists the five steps along with large close-up black and white photos. Very good condition with three folding creases and areas of ingrained dirt and some liquid stains on the back. Next is a 20"x16" print of side and frontal views of a Consolidated B-24 Liberator, by Barry Louweral. The last item is a 36"x24" glossy black and white period poster stating that the sixth war bond drive is now in its fifth week alongside of the Fighting Angels logo and featuring large close ups of members. The condition is excellent. The posters and prints in this lot are in rolled up form. (73634-42A)
1775. **LOT OF MILITARY GEAR** This is a rig consisting of a belt with attached holster, canteen and magazine pouch. The M-1936 Pistol Belt is OD green with crisp "US" and "Masco Awnings" stamps with the date stamp obscured by one of the snaps, which like all the brass hardware rates excellent, as does the canvas, showing only minor dirt spots. The M-1916 Pistol Holster marked "Enger-Kress" rates about very good with leather showing various shades of brown and some blackish spots from poor storage or direct contact with liquid. The stitching is strong with areas of white mildew and the snaps show moderate verdigris. The belt loop, hanger and leather lanyard are all present and intact and the U.S. logo is still crisp. The interior shows virtually no wear and the holster has very few light handling marks. The M-1942 Canteen rates excellent retaining 99% black enamel with only a small handling mark at the bottom which is marked "U.S./REP/1942". It comes complete with cap and chain and is enclosed in a nonmatching aluminum cup and faded canvas cover with very good U.S. stamp and also stamped "MADE RITE L.R. CO./1942" with snaps, hanger and a good amount of ingrained dirt and small liquid stains. The O.D. green two pocket 1923 pattern magazine pouch rates excellent with crisp "U.S." and "Boyle/1942" stamps and light oxidation on the back snap. It contains two steel unmarked magazines for the 1911 rating excellent but have the initials "AKM" scratched on one side and base of each. (73634-12A)
1776. **LOT OF MILITARY GEAR** This is a rig consisting of a belt, holster, canteen, magazine and first aid pouches. The O.D. green, "US" stamped M-1936 Pistol Belt rates near excellent with surface oxidation on some of the hardware and a few small brown spots on the canvas. The brown leather flap holster formed for a semi auto pistol is unmarked with scattered handling marks particularly at the top of the flap, the hanger and snap displaying verdigris. The leather is supple with wear mainly on the inner flap. The two pocket excellent condition OD green magazine pouch for the M1 Carbine is stamped "Gen S. Corp./1943" and has a crisp U.S. stamp. It currently houses two 15 round .30 cal. magazines by Bridgeport Metal Goods with light wear and areas of surface oxidation and pitting. The 1941 dated first aid pouch manufactured by Burlington Mills, Inc. also rates excellent and exhibits crisp stamps and houses an empty metal Carlisle Model can retaining 90% OD green paint with areas of pitting. (73634-12B)
1777. **LOT OF MILITARY HEADWEAR** This lot consists of a total of 21 pieces. Included are a variety of mainly U.S. WW II era items such as garrison caps, service caps, campaign hats, field caps, a winter hat, and a camo helmet cover. Very good to excellent overall condition. (73634-15A)
1778. **LOT OF MILITARY GEAR** This lot consists of two canvas U.S.A.A.F. Flight Bags. The first one measures approximately 24"x20" when in carry (folded) mode. It features large auxiliary pockets at both its front and rear. Both have dual leather straps that are present but brittle and the top has an intact carry handle, but the shoulder strap is torn and nearly all is missing. The khaki-colored canvas surface displays mild to moderate staining and some areas have become misshaped from storage. One of the side pockets is stamped in large text "JOEL B. HILL/01100592/1ST. LT. CE". The overall condition is about good plus. The second bag is in considerably better condition and shows very little wear at all. It is almost identical in construction to the one described above but is OD green in color with all leather straps present but brittle, with the top leather strip that acts as a binding showing wear marks particularly on one edge. The canvas surface shows light ingrained dirt and other light stains and one of the pockets bears an 8"x5" patch with the U.S. Army Aviation insignia. (73634-32A)
1779. **LOT OF MILITARY GEAR** This is a lot of two WWII U.S. Plywood Packboards measuring 24"x16"x3" with OD green surfaces, original canvas back supports, suspenders, and tie cords. The first is by American Seating Co. and date stamped "1-20-44" rating near excellent with one upper corner showing a top layer losing adhesion and minor wear marks and white spots on the frame and canvas. The second is by Blue Lion Cabinet Co. and date stamped "June 22, 1944" and also rates near excellent overall with light wear along the edges of the frame and the back support. Attached to it is an OD green one compartment haversack with straps and buckles that rates near excellent with the beginning of a one inch tear at the top and areas of light ingrained dirt. Also included is an attached M-1912 pistol belt with wear along the top and a first aid pouch for a Carlisle kit. (73634-14A)
1780. **LOT OF MILITARY GEAR** A total of 21 pieces of canvas WWII-era U.S. issued bags, packs, and pouches including five large duffel bag sized, gas mask bags, and two paratrooper signal panel sleeves. The overall condition is about very good. (73634-13A)
1781. **LOT OF MILITARY GEAR** A total of 17 pieces of mainly U.S. WWII-issue comprised mainly of belts but also includes an M8 spare barrel cover, suspenders, and bandoleers. Very good to excellent overall condition. (73634-34A)
1782. **LOT OF MILITARY TOOLS** First is a U.S.A.A.F. Emergency Aircraft Axe measuring 15"x8" with correct rubber handle marked "42 D 8331" and exhibiting two strips of reflective white tape applied. There are wear marks along the blade but very sound structurally. Next is a U.S. Ice Pick Axe measuring 37" in length with the 11" steel head showing mild to moderate oxidation with pitting evident in some areas. A rare item in near very good overall condition. Next is an Italian WWII shovel and bayonet sharing original green carrier with strap securing the pair together. The shovel measures 22" in length with an 8"x6" square blade showing light wear and oxidation and the M.1891 Carcano bayonet with ribbed scabbard measures 17" in overall length with the blade exhibiting very little wear and a pleasing brown patina throughout most of the surface. Next is an apparently unused and excellent condition M-1918 rope drag with shoulder strap by Jay-Dee and dated 1943. The last item is an M-1910 Pick Mattock with OD green canvas carrier, 17", handle and head dated 1944. The condition is very good to excellent. (73634-39C)
1783. **MILITARY LOT** This is an Italian shovel and bayonet sharing original green leather carrier with strap securing the pair together. The shovel measures 22" in length with an 8"x6" square blade showing light wear and oxidation and the M. 1891 Carcano bayonet with ribbed scabbard measures 17" in overall length with the blade exhibiting very light wear and a pleasing brown patina throughout most of its surface. The overall condition is very good. (73634-39D)

1784. **MILITARY LOT** This lot consists of two items pertaining to the M-1 Carbine. First is a Carbine carrying bag that shows light wear and a few minor stains over its OD green body with good U.S. stamp. It measures 36" long with a fully functional zipper with canvas handle, and leather reinforcements showing wear and scuffing. The correct sling is present, showing only a minor liquid stain. Near excellent overall. The second item is an M-1 Carbine leather scabbard with a stiff leather body exhibiting numerous shades of brown over its surface as well as several areas of mildew spots. The stitching is strong and the sling is present but showing a slight tear where it contacts the loop and it has somewhat weakened through the years as the scabbard is marked "U.S./J.O.M.D./1944/E.N.S. All hardware is present including sling buckle hanger and aluminum bolt tunnel showing a few minor wear marks. Near very good overall. (73634-27A)
1785. **LOT OF AMMUNITION CANS** This lot consists of nine U.S. WWII era .30 cal. size metal ammunition cans with original green paint with the exception of one repainted black and marked as a repacked lot. The overall condition is near very good with a few showing various levels of oxidation. (73634-9A)
1786. **LOT OF AMMUNITION CANS** This lot consists of a total of six U.S. WWII-era military cans ranging in condition from good plus to near excellent. There are five 50 cal. size and one measuring 14"x10"x4" and painted gray with excellent yellow stenciling. It was originally packed with 20mm for use in the M139 gun. An uncommon box with some oxidation and staining common for boxes of the period. (73634-9B)
1787. **LOT OF MAPS** First is a 26"x22" excellent condition sheet prepared by G-3, 100th Infantry Division titled "Finale" and divided into two halves, with the left half comprised of copies of three memos issued by Commanding Generals regarding fighting in Heilbronn, Germany and a colored logistical map of the area making up the right side. Next is a map measuring 29"x22" when unfolded, by the U.S. Army Map Service for use by the U.S.A.A.F. and dated August 1942. It is categorized as an Aeronautical Chart and is numbered "(234) Oskol River", located in Russia and the Ukraine. The chart rates near excellent with notes written by the officer to whom it was issued. The next item is titled Military Map of the United States and issued by Union Pacific Railroad. One side has a 1942 copyright and shows the continental U.S., depicting the locations of all air fields, bases, and stations, naval bases, and army camps, forts and posts. The reverse side, dated 1945 shows an alphabetical listing of the posts with corresponding railroad station and post office. It folds neatly to 9"x4" from its unfolded 32"x18". Another interesting item included in this lot is a map titled Road Map of France, dated 1944 by the U.S. Army Map Service that pulls out to 65"x19" and is actually comprised of two separate sheets adhered to provide the entire country by way of dividing the north and south into individual sections and requiring the reader to flip the map around to switch sections. The map is enclosed in its folded configuration in the original 11"x5 1/2" Europe Road Map Series sleeve which it was once glued to but has come undone. Next are four sheets by Bernard Picture Co. Inc. measuring 12"x9", each depicting a continent or hemisphere. The text is in Latin and the maps and full color borders give this a centuries-old feel. The last two maps in this lot are topographical maps of areas of Germany in 1944 originally written in German but translated to English by the Allied Forces. The black and white maps measure 22"x20" and rate near excellent. Also included is a 1960-dated item from the U.S. Government Printing Office titled Mine Card GTA 5-21. The four page tan colored, 7"x4" card provides information for eight different mines and rates excellent condition-wise. (73634-14A)
1788. **LOT OF LEATHER ITEMS** 11 items total including three unmarked brown holsters, a TT33 Tokarev holster, U.S. M-3 Pistol Holster by Boyt, a brown belt with two dual section ammunition pouches, a 10"x5" zippered brown leather pouch with a large U.S. navy logo at its center, a tan ammo pouch, an unmarked 12"x9" carry bag with shoulder strap, a pistol belt with shoulder strap, and a military trousers belt. The overall condition is very good. (73634-30A)
1789. **LOT OF MILITARY GEAR** The U.S. WWII-era is the focus of this lot of three items that includes a life preserver dated 1940 and manufactured by Atlantic-Pacific Mfg. Corp. This rare vest is designed to encompass the entire chest and upper back region and constructed of eight flotation blocks enclosed in white canvas showing ingrained dirt, some liquid stains and a couple of minor tears. All straps are present and firmly attached and the item shows very little wear. The second item appears unused and is a Jungle Flotation Bladder with OD green canvas surface measuring 15"x9" with 5" of black rubber tubing protruding from the top center. The Philadelphia Q.M. Depot stamp is a bit smudged at the date area but appears to read "AUG. 27,1942". The last item is an apparently unused and excellent condition OD green plastic sleeve measuring 50"x8" and marked "Type II Cover, Waterproof-/Rifle or Carbine" and dated 6-27-44. (73634-41F)
1790. **LOT OF MILITARY CLOTHING AND GEAR** This is a collection pertaining mainly to items issued by the U.S.A.A.F. circa WW II. Included is a full size, excellent condition and apparently unused OD green blanket, a K-1 Flight Suit, a Type C-1 Emergency Sustenance Vest, a pair of Type 8 Alpaca lined Flight Trousers, a M-1943 Jungle Pack, and an unused pair of Type Q-1 Electric Flying Shoe Inserts complete with attached plug in devices. Other cold weather items are a pair of insulated OD green canvas boot covers with leather soles and measuring 14" in height, an excellent pair of Type A-12 Winter Flying Mittens, an unused pair of Type 1 Trigger Finger Insert Mittens, two winter caps, a wool OD green shirt, an American Red Cross wool face mask and neck coverage hat, and one wool leg warmer. Also included are two pairs of trousers, a shirt, two neckties, two pairs of socks 12 Garrison caps and a 1942 dated Type A-3 Gunner's Safety Belt with spring attachment. The overall condition is near excellent and the items retain a mild odor resulting from storage using dichlorobenzene. (73634-38A)
1791. **LOT OF MILITARY CLOTHING AND GEAR** This lot consists mainly of WWII era items issued by the U.S.A.A.F. including an A-11 Flying Helmet complete with cups to accept headphones, a B-6 Flying Helmet, an A-9 Flying Helmet and a rare and excellent condition OD green carry pack dated 1945 by International Latex Corp. constructed around a non-removable and expandable plastic water bottle with a cloth covering and complete with chain and cap. Other interesting items include a M-1942 Mackinaw, which is double breasted and blanket lined, a pair of Wet Weather Trousers made with synthetic coated material and complete with suspenders, a pair of OD green bib-and-brace winter trousers with suspender straps, a camo patterned bib, a money belt, an OD green barracks type bag measuring 24"x14", a Type B-2 Mechanics Apron, an American Red Cross sweater vest, and a jacket issued to a Major. Also included are two shirts, three trousers, three neck ties, a pair of socks, an individual sock and glove, seven Garrison caps, and two berets. The overall condition is near excellent and the items retain a mild odor caused by the use of dichlorobenzene for storage purposes. (73634-38B)
1792. **LOT OF MILITARY CLOTHING AND GEAR** This is a mainly U.S.A.A.F. themed lot consisting of a Type A-11 Flying Trousers, a pair of Type A-9 Flying Trousers, a sleeping bag liner, four carry bags/packs, one jacket, two pairs of socks, an individual sock, a thermal undershirt, a pair of cotton shorts, two shirts, and one pair of trousers. Other period items are one beret, four garrison caps, one B-1 Flying Cap, an A-9 Flying Helmet, one WWII Winter Cap, an A-4 Mechanics Cap, a face mask, a pair of Winter Flying Gloves, a pair of suspenders, two neckties and a linen MP banner measuring 18"x4". The overall condition is near excellent with the items experiencing a mild odor from dichlorobenzene. (73634-38C)
1793. **LOT OF MILITARY GEAR** This lot consists of two pack systems. First is a Yukon Packboard with a wooden frame covered in canvas marked "W.L. Dumas Mfg. Co./1943". The 31"x15"x3" piece rates about near very good with the wood showing wear and slight loss at the top corners, the OD green canvas having faded somewhat and displaying light ingrained dirt and a small liquid stain. The leather reinforcements show various shades of green and the hooks exhibit oxidation in spots. The unit remains structurally sound and retains the original straps. The second is a Framed Rucksack marked "Lichtenberger-Ferguson Co./1943" and in excellent condition complete with tubular frame. The unit comes with three outer pockets with leather straps and all straps present. (73634-40A)

1794. **MILITARY SURVIVAL LOT** The first item is a U.S. Type B-4 Life Preserver. The pneumatic vest issued to air crews measures 26"x12" with a May 6, 1943 manufacture date and the yellow cotton outer exhibits light ingrained dirt and grime stains throughout nearly the entirety of its stiff surface. All components are present. The other item is a U.S.M.C. Flotation Bladder measuring 15"x11", complete with strap and rubber tube, and the green canvas body exhibiting moderate mildew staining. (73634-11A)
1795. **LOT OF MILITARY GEAR** This is a lot of three U.S. WW II winter military items. First is a pair of army snow shoes in near excellent condition with the canvas parts showing areas of dirt stains. The oval shaped 20"x9" wood frames show only minor handling marks and all buckles and straps are present. Next is a pair of Extreme Weather Mittens complete with snap in insulated inserts. This is the variation with the dark wool tops, tan leather gripping area and green cotton wrist/forearm section. This pair shows light wear and moderate ingrained dirt on the leather. The last item is a pair A-9 Winter Flying Gloves rating about good to very good with a couple holes in the leather, mild mildew staining and light cracking. The zippers are still fully functional. (73634-17A)
1796. **MILITARY SURVIVAL LOT** The first item is a rare U.S. Life Preserver Belt by the Firestone Tire and Rubber Co. and dated Oct. 21, 1942. It comes complete with all hardware and rubber tubes and the khaki colored outer canvas has some minor stains but the 54"x12" belt is in near excellent condition with virtually no wear or handling marks. The other item in this lot is also a life preserver, this one being a U.S. Type B-4 life vest with yellow cotton outer stamped with a 1944 date and showing scattered stains but very little wear. All components are present. (73634-11B)
1797. **LOT OF MILITARY GEAR** This is a lot of three U.S. WW II cold weather military items. First is a pair of 1942 dated oval shaped snow shoes measuring 21"x10" with the wood frames in great shape. The mesh is strong and tight but the leather straps have deep creases at the slots and wear at contact points. The second item is a pair of Extreme Weather Mittens with insulated inserts snapped in. They feature brown wool tops, tan leather palms, and green cotton upper area. They are in very good to excellent condition overall with the tan leather exhibiting light ingrained dirt. The last item is a pair of A-9A Winter Flying Gloves with the index finger and thumb having separate sections. Near very good condition with mild to moderate wear and ingrained dirt. (73634-17B)
1798. **RARE MILITARY ITEM** This is a U.S. Signal Corps PG-102/CB Pigeon Container with carry handle, upper and lower steel snaps and wire mesh floor. Also included are two M-210 Message Books, a tissue pad for map overlays, feed tray, ten PG-67 plastic message containers, and two, likely original, pencils. All items are unused with the message books showing some liquid and mildew stains. The top lid opens to a one inch deep section containing the accessories and revealing the entire instruction label and ID plate still fully attached to the inner lid. The 13"x8"x9" structure holds two pigeons. It is unused and the OD green surfaces have only minor handling marks and areas of light grime and the metal parts have areas of oxidation. The canvas carry handle is fully intact. (73634-24A)
1799. **LOT OF MILITARY CLOTHING** This is a pair of U.S. Army Air Forces Type B-1 Aircraft Mechanics Trousers in size large by S.H. Knoff Mfg. Co. The bib and brace style trousers made of sheep shearing and were produced for use by mechanics while working on aircraft during the winter months of WW II. The dark brown shell is brittle and has a few tears and holes, the largest being what appears to be a cutout 3"x3" section at the lower left leg. The trousers are equipped with two horsehide patch pockets for tools and intact suspenders and buckles but the zippers are nonfunctional. The liner and shell show areas of dirt and wear. The overall condition of this hard-to-find item is about good plus. (73634-20A)
1800. **LOT OF MILITARY CLOTHING** This is a U.S.A.A.F. Type D1 Flying Jacket in size medium and manufactured by I. Spiewak & Sons. The shearing jacket shows wear marks over about 15% of the dark brown outer shell, the stitching is intact as is the fully functional zipper with handle. Very good condition overall with lining displaying traces of dirt and wear. (73634-20B)
1801. **LOT OF MILITARY CLOTHING** This is a U.S.A.A.F. Type B-3 Winter Flying Jacket with thick liner and two tone brown hide shell. This example retains about 75% of its insignia on the upper left sleeve. The overall condition is good to very good with the somewhat stiff hide experiencing cracking and displaying a few small tears and moderate wear marks. The zipper, buckles and straps on this desirable piece are all present and functional. (73634-20C)
1802. **LOT OF MILITARY CLOTHING** First is a pair of U.S.A.A.F Electric Flying Trousers for the Type F-3A Suit. This example is a size medium regular and manufactured by General Electric. Excellent condition bib style pants with a small tear at the knit cotton cuff of the right leg. Item is OD green in color and of what feels like nylon comprising its shell exhibiting isolated areas of fading. This rare item comes complete with cord and plugs. Another item in this lot is an Electrically Heated Jacket For Type F-3 Suit, of the same size, color, materials and manufacturer as the trousers. Excellent condition also with light fading in areas. Both garments appear unused. The last items are a pair of G.E. leather gloves specifically designed to accompany the F2 or F3 suits. (73634-20D)
1803. **LOT OF MILITARY CLOTHING** Included in this lot are the following OD wool items: field jacket, two trousers, one with belt, and full length overcoat bearing U.S.A.A.F buttons, a service coat, and shirt. Also included are a matching black jacket and trousers set. Also included are two neckties. The lot is in excellent overall condition. (73634-15B)
1804. **LOT OF MILITARY CLOTHING** Included are the following U.S. Army items: eight shirts, 1 skirt, 2 trousers, one undershirt, 3 handkerchiefs, 1 camo face veil, 1 cap, 1 pair of socks, 1 pair of wool gloves and one pair of extreme cold weather mittens. The overall condition is very good. (73634-15C)
1805. **LOT OF MILITARY CLOTHING** First is a M-1938 HBT OD One-Piece Suit in excellent condition, dated 1941 and complete with belt. The second item is also a one piece work suit, this one a U.S.A.A.F. Type A-4 rating very good with a few grime stains and buckle showing some oxidation. The next item is a Wet Weather Parka rating near excellent with buckles and draw string present. Next is a two piece canvas snow camo suit rating excellent with areas of minor dirt stains. Also included is an excellent cloth hood, a one piece poplin hood and shoulder cover. (73634-11C)
1806. **LOT OF MILITARY GEAR** This lot consists of a two man, OD green U.S. Tent Shelter dated 1941 by Colorado Tent and Awning Co. The condition is near excellent with a few minor stains. Included are ten original pins, two 3 piece poles and a guy rope. Also included with the lot is full size U.S.-issued OD green wool blanket, an OD green netted tent or cot enclosure, a pullover head and face net, and another with cotton head coverage. These items are in excellent overall condition. (73634-10A)
1807. **LOT OF MILITARY GEAR** First is an M-1944 wool sleeping bag that appears unused and in excellent condition and measuring approximately 70"x18". This is the older variation with the shorter zipper, which on this example works perfectly. Second is a U.S.-issued two man tent shelter by Colorado Tent & Awning Co. and dated 1941. The OD green canvas shows a few stains and some ingrained dirt but overall very good plus. There is no hardware present. The next item is a large netted shelter suitable for covering a cot. Also included is a U.S. marked waterproof sleeping bag cover with a small tear and light mildew in areas. The last item is a face and head net in unused condition. (73634-10B)
1808. **LOT OF MILITARY GEAR AND CLOTHING** Included in this lot is a rare U.S. WWII resin coated poncho in excellent condition with all snaps and drawstring present. This is the early coated-cotton version, OD green in color and measuring a whopping 60 inches wide and 40 inches tall. Next is a black leather jacket by L.L. Bean that resembles a G1 Flying Jacket. The size large, regular, piece rates very good with mild wear and a strong fully functional zipper. The third item is an excellent netting suitable for keeping mosquitos out of an enclosed area about the size of a cot. Also included is a full size U.S. issued wool blanket, a large apparently unused tan vinyl tarp and an OD green mosquito head net. (73634-10C)

1809. **LOT OF MILITARY GEAR** This lot is made up of several WWII U.S.-issued items connected to a M-1923 cartridge belt dated 1943 with virtually no wear but displaying sun fading in areas and light verdigris on some snaps. Attached to it is a factory sealed excellent condition Carlisle Model First Aid Packet by Conray Products contained in an excellent 1945-dated pouch by Dubuque Awning & Tent Co. Also hanging from the belt is an M-1910 canteen with cup, chain and cap marked "U.S.-43" with M-1910 cover showing ingrained dirt and liquid stains but a good "U.S." stamp and light wear. Also part of this rig is a M-1928 Haversack Marked "Morton M. Rose/1942" currently holding a U.S. issued wool blanket, a mess kit complete with utensils and an entrenching tool with oxidation on steel parts and wear on the wood. The overall condition of this grouping is very good to excellent. (73634-14B)
1810. **LOT OF MILITARY GEAR** This is a parachute harness that appears unused and in excellent condition and OD green in color. The stamp appears to read "PART NO. 5016859/FASHION TRUCKS INC./DATE OF MFG. 6 52". Also included are six various harness straps, and three additional straps. Also included is a 15"x14" khaki colored and canvas shelled cushion marked "A-N PARACHUTE SEAT CUSHION/47565-1 MAR 1943/JULIUS KAYSER CO./CONT.42-22059-P" rating very good with minor stains and wear. 1813. **LOT OF MILITARY PATCHES** This lot consists of approximately 200 patches based mainly on the U.S. Army Air Forces. Many are contained in a full size binder containing 13 clear display sleeves, each capable of displaying nine patches. Also included is a framed wall display with Plexiglas face and measuring 21"x17" and currently displaying 17 of the patches. The third display piece is a 24"x18"x4" wood display box also with a clear plastic front and featuring a hinged top. The patches are in excellent overall condition. (73634-7A)

1813

1814. **LOT OF MILITARY MEMORABILIA** This is a lot of approximately 16 various items proclaiming fondness and honor for mainly the U.S.A.A.F. and the U.S. military in general. Included are five mounted pennants, caps, linen items, a greeting card, and a large vinyl sign. The overall condition is near excellent. (73634-5A)

1815. **LOT OF MILITARY MEMORABILIA** A total of approximately 350 pins, medals, ribbons and other small items comprises this lot of a mainly U.S. Army Air Force theme. Also included is a 20"x11"x10" plastic display case. The overall condition is excellent. (73634-5B)
1816. **LOT OF MILITARY MEMORABILIA** This lot consists of a wide range of small WWII-era items including about 40 matchbooks, a 1943-dated trophy awarded for air service, some plaques, an ash tray, and an Air Training Command lighter. Also there are belt buckles, pins, powder compacts and ear rings, bracelet, a necklace and other items. Very good to excellent condition overall. (73634-5C)
1817. **LOT OF MILITARY MEMORABILIA** This is a grouping of predominantly WWII-era items including currency, rosters, a Europe road map, booklets, patriotic wall decorations, patches, photographs, framed award certificates, and two small plaques honoring POW's. Also included is a small 39 page hardcover book *The Risen Soldier*, by Francis J. Spellman; c. 1944 The Macmillan Co. and a service album from Fort H.G. Wright N.Y. The overall condition of the lot is very good to excellent. (73634-2A)
1818. **LOT OF MILITARY ITEMS** This is a lot of approximately 20 small items that pertain mainly to WWII survival. Some examples are a tourniquet, two first aid dressings with pouch, Swedish Pimple, U.S. Navy signal cards, a sewing kit, signal mirrors, Fogpruf Paste, and a hand saw. Very good to excellent condition overall. (73634-6A)
1819. **LOT OF MILITARY ITEMS** This lot consists of mainly U.S. WWII-era first aid supplies. First is a hinged metal first aid box measuring 9"x5"x3" and currently housing items such as tourniquets, iodine, tweezers, compress, and ammonia inhalants. The box rates very good, retaining the original instruction label, and about 90% OD green surface and white ID paint. Next is an 8"x5" khaki colored dual snap canvas pouch with strong "U.S." and "H&P/11-18" stamps and currently holding three items: a factory sealed pack of sublimated gauze, a box with a triangular compressed bandage and a small first aid dressing. Next is a sealed bandage packet contained in a green canvas pouch. Also included is a jungle pack dated 1944 and housing a sealed Carlisle Model tin and an empty black plastic vial for matches. The last item is an empty but excellent condition Carlisle pouch with a 1942 dated stamp. The overall condition of the lot is very good. (73634-6B)
1820. **LOT OF MILITARY ITEMS** This lot focuses on U.S.-issued optical equipment and consists of a pair of Sun, Wind and Dust Goggles, unused and in the original wrapper and box that also includes a sealed envelope of neutral gray plastic lenses. Another set of goggles in this lot is the N-2 or all Purpose Goggle, this example rating near excellent and part of kit No. 1021A including cloth case with instructions and three auxiliary lenses in designated pockets. Also included in the original factory box are three additional lenses. Another is M-1944 Goggles with amber lens and in excellent condition and there are two individual framed lenses as well. Next is a soft case marked "Ronson" and containing five pair of unused, colored aviation lenses. Also included is an optical device by Bushnell, an empty Khaki colored binoculars case, a hard plastic case containing correct aviators glasses with damage to one lens and frame, and a U.S. Army Air Forces Aerial Dead Reckoning Computer with manual and protective sleeve. The last item is a Rocket Launcher Face Mask, unused and in original box. The overall condition of this lot is near excellent. (73634-1A)
1821. **LOT OF MILITARY ITEMS** This lot consists of four M15 Grenade Launcher Sights, unused in the original cosmoline wrap and with instruction sheet and contained in carrying case. Next are two cleaning rods in their original case. The first one is marked "Case, Cleaning Rod, M1-CG573A". The second, "Case, Cleaning Rod, M1/C6573". Also included is a brass cleaning rod in canvas case and an empty cleaning rod case marked M15. The cleaning rods rate very good to excellent. (73634-8B)

1822. **LOT OF MILITARY GEAR** This is a lot containing aviator equipment. First is a DH-132 Helmet Shell with matching padded liner with earphones, cable and microphone attached. About very good plus with wear marks to outer shell. The second item is a Hand Microphone No. 4A with cord. Next are two microphones complete with switches and shoulder straps. An additional unused shoulder strap is included as is an additional T-17 microphone with steel body, an extra cord, and a set of earphones with cable. In addition there is a sealed package marked "Microphone T-30", an M 33 Light Instrument, a Signal L M-308-Lamp, and two U.S. marked flashlights. The overall condition is very good. (73634-21B)
1823. **LOT OF MILITARY GEAR** This is a Pararaft M-641 manufactured by U.S. Rubber Co. of Woonsocket R.I. and dated 8/31/45. This survival raft measures approximately 62"x38" when deflated and is a deep yellow color with an teal colored bottom. It appears unused but has some areas of stains, mainly ingrained dirt and comes complete with carbon dioxide canister and rubber tube. Also included for transportation and protection is a U.S. issued Duffel Bag. The lot rates near excellent overall. (73634-27B)
1824. **AIRPLANE PROPELLER LOT** This single wood propeller measures 44" in length and features a six bolt configuration. The wood surfaces retain about 92% original brown finish and the edges are experiencing light wear in areas and a couple of minor chips. This nice looking propeller bears only one marking: "9439" near the bolt holes. (73634-41B)
1825. **MILITARY LOT** This lot consists of a WWII parachute with included pack stamped "Type A-4" and dated Dec. 1944. The white nylon parachute appears to be free of tears and holes and rates excellent overall with a few spots of grime. The parachute and pack are contained in a light OD green canvas Aviator's Kit Bag with both carry handles intact, fully functional zipper and outer shell showing light wear and a moderate amount of stains from ingrained dirt and liquid. (73634-27C)
1826. **LOT OF MILITARY EQUIPMENT** This lot includes two parachute harnesses with the first one being a tan/OD green color and marked "Type B-2A" and "Aerial M.T.C.L.I.C.N.Y." The second harness is brown and unmarked, both rate excellent with straps included. Next is a 22"x12" U.S. back pad marked 42D2013 and rating near excellent with a few minor stains. The last item is a U.S. parachute pack stamped "AN 6510-1" and dated "Apr. 20 1944". The OD green canvas shows areas of mild edge wear and rust colored stains. (73634-27D)
1827. **LOT OF MILITARY GEAR** First is an excellent U.S. M-1944 wool sleeping bag with an extra outer shell also in excellent condition. Next is a small area shelter with netting and lastly two wool blankets. All items are U.S.-issued and in excellent condition. (73634-9C)
1828. **LOT OF MILITARY EQUIPMENT** This lot consists of three items. First is a folding wood table painted OD green with no visible markings with plywood top measuring 36"x24" and standing 28" with mild wear and edges showing small chips. The underside is experiencing some mildew/grime. The table comes with the original strap used for its folded state. The accompanying OD green wood folding chair is in better overall condition with a few handling marks. It stands 30" tall with a 15"x15" plywood seat. Both items exhibit an uneven paint job. The last item is a near excellent wood and khaki canvas folding seat measuring 17" tall with a 13"x12" seating area. (73634-4B)
1829. **LOT OF MILITARY MEMORABILIA** This is a lot of Nazi-related items. First is a group of nine vinyl records containing German war songs and patriotic music. The 33 1/3 r.p.m. records rate excellent overall and with the exception of one, are scratch free. Each is contained in its correct sleeve and cover. The covers exhibit some edge wear and areas of discoloration. Next is a Mauser K98 cleaning kit with pull through chain, oiler, two brushes and tool. Lid interior is marked "CUX", exterior "CNX" and the metal surfaces retain about 90% original finish. Next is a 16" leather strap with buckle and marked "Cyrus I. Harvey" centered around two swastikas. The last item is a silver painted alloy wall plaque in the form of the Nazi logo of the eagle above the swastika. Excellent condition. (73634-7B)
1830. **LOT OF MILITARY ITEMS** This is a mainly Italian based lot. First is a WWII Italian canteen with gray wool outer liner showing very light wear and original green web shoulder strap rating excellent as well. The interior shows no signs of use and the unit is complete with correct cap and chain. Next are two Carcano dual pocket pouches with all loops, straps and snaps intact. The pouches are attached to a correct leather belt, also holding a Carcano bayonet belt frog. Also attached to one of the pouches is a matching shoulder strap. This grayish green leather rig rates very good to excellent overall with light wear and some white mildew stains on the frog. Next are two similarly colored large (8"x4") magazine pouches with loops and hardware attached. The pouches exhibit moderate mildew and some edge wear. Also included is a similarly colored wood ammunition box with carry handle and functional snap closure. The box retains 90% original green/gray paint on the outer surfaces outside of the bottom which is virtually void of any paint. The box measures 13"x5"x8". The next item is a 1918 dated booklet written in Italian. The gray colored cover reads "Tavole Dei Distintivi Di Grado Per Gli Ufficiali". Containing approximately 30 pages, the booklet details uniform badges and insignia for the period. There is also a portrait of a young and uniformed Benito Mussolini measuring 17"x13". The German printed, color and glossy image shows a few small tears and creases. The last item is a 1932 dated program for a testimonial dinner for Cavaliere Joseph C. Johnson, in New Haven CT headlined by the state governor and congressman. Very good condition with light dirt and liquid stains. (73634-42C)
1831. **LOT OF MILITARY GEAR** Total of 33 pieces of primarily U.S. WWII web gear, pouches, headwear, and leggings. Some examples are three garrison caps, a three pocket grenade carrier, pouches for snout-type and lightweight service masks, two pistol belts, and a four compartment Signal Corps pack containing a Message Book M-210 in its appropriate pocket, as-is the original translucent yellow plastic graph sleeve with attached protective canvas cover. The overall condition is very good to excellent. (73634-16B)
1832. **LOT OF MILITARY GEAR** Total of approximately 30 pieces of a variety of U.S. issued gear and clothing. Some notable examples are a Spec. AN-H-15 Flying Helmet, a vest with front and rear pockets and stamped "Ammunition Bag/M2", an excellent condition and apparently unused WWI Watering Bucket with bottom rope supports and an 11" diameter, Extreme Cold Weather Mittens with liners, a service gas mask pouch, and a pistol belt. Very good to excellent condition overall. (73634-16C)
1833. **LOT OF MILITARY ITEMS** This lot consists of approximately 40 items, mainly U.S. WW II related. Some examples of this very diversified group are a steel framed haversack, a canister marked "57MM Rifle/Container M167A2", an M-1941 canteen cup with smaller cup enclosed, an entrenching tool, several Extreme Cold Weather Mittens, and a Sleeping Bag Hood. Also included are two tent spikes, shoe laces, pouches, a duffel bag, an overseas cap, and a pistol belt. Very good to excellent condition lot. (73634-16D)
1834. **MILITARY LOT** This is a 1944-dated U.S. Army Signal Corps Switchboard BD-72 in the original wood carry case exhibiting a white stencil that reads "Shulton-Monroe Squadron/Civil Air Patrol". The board is made accessible by way of two hinged snaps, one on each side of the 25"x10"x12" case. The unit retains its handset with cord still attached as well as the 12 cords that tucked neatly under the switchboard. All switches and components appear to be present. In addition the unit retains a 1944-dated label that reads "Tropicalized/Per. Sig. C. Spec. 71-2202A". The top of the case has a lid that opens the entire length and half of the width to reveal numbered ground terminals. Still firmly attached are two steel carry handles, one on each side, and a shoulder strap to carry the 65 lb. unit. The wood case retains about 92% OD green paint and exhibits a few handling marks and small chips. Overall the condition of this hard-to-find item is very good to excellent. (73634-39B)
1835. **MILITARY LOT** This is a 1948-dated U.S. Fiber Record Chest. This uncommon item, essentially a portable field desk, has a metal reinforced outer shell/carry case painted OD green and a structurally sound, three section fiberboard interior composed of two wider sections abutting a taller narrower section to their left. The varnished wood surfaces exhibit an uneven patina and areas of stains and wear. The two side snaps are present and intact as is the leather carry handle, however the top main snap is missing. The outer case retains about 85% finish with nearly all the loss at the top which has had contact with some liquid. The overall condition is very good. (73634-9C)

1836. **MILITARY LOT** This lot consists of a foot locker filled with clothing. First is an apparently unused but white mildew-laden raincoat. Next is a Type B-11 Winter Flying Jacket featuring alpaca insulation and a fur-lined hood and in excellent condition apart from cuff wear. Also included is an unmarked green parka rating very good and a duffel bag with very light wear and white mildew in isolated areas. In addition there is a light green cold weather undershirt rating near excellent. The last two items are in excellent condition: an OD barracks bag and a wool overseas cap. The fiberboard and metal reinforced foot locker retains about 95% OD green finish over its 31"x17"x13" surfaces with all snaps and handles present. The center snap is quite bent, there is no key or inner drawer present. The interior shows light wear in areas. (73634-9D)
1837. **LOT OF ARTWORK** This is a collection by the Editors of Life, titled "The First World War: A Portfolio of Eight Battle Paintings". Each of the prints in this complete group of eight measures 22"x16" and fit snugly in the original cardboard portfolio sleeve dated 1964. Eight separate artists are represented. The dynamic color prints depict battles on land, air and sea and rate near excellent overall with some faded edges and rounded corners. Also included is a four page brochure providing a brief overview of each work. A rare and beautiful ensemble. (73634-2B)
1838. **LOT OF ARTWORK** The first item is a framed photo dated 1906 by Underwood and Underwood depicting a formal outdoor military gathering of U.S. soldiers from that period. The scene includes a large field with approximately 200 soldiers and officers standing in ranks, including some on horseback. The background is comprised of dozens of white tents and several large buildings. The photo measures approximately 20"x8" with a small area of the image of the sky missing as a result of water damage. The image is contained in a 25"x13" wood frame with glass glazing and cardboard backing. Very good overall condition. The second item is a WW II-era 19"x19" printed silk or rayon pillow cover with edging frills and embroidery, and proclaiming: "Army Air Corps/Greetings from Maxwell Field". The colorful and decorative piece is shrink-wrapped to a foam backing and remains in excellent condition. The last item is a 26"x16" wood sign with bold yellow text over a brick red background stating "Military Reservation/No Trespassing". There are no other markings on the very good condition sign showing a few minor handling marks and dirt. (73634-2C)
1839. **LOT OF ARTWORK** This is a U.S. Navy themed lot. The first item is a print of an image used at the U.S.S. Constitution Museum of a sailor in uniform with a young boy gazing at "Old Ironsides". This painting by an artist whose signature is not quite discernable includes in large text "Heritage" serving as the foreground as does the bottom right corner with "Navy" displayed in white on a navy blue background. The painting in this instance is enclosed in a blue wood frame with a particle board backing with pull out stand and was used for recruiting purposes, evidenced by the label posted at the top which reads "U.S. Navy Recruiting Station/94 Elm Street/New Haven, Conn". The print and frame exhibit areas of light dirt but overall the condition is very good to excellent. Next is a group of 12 lithographs commissioned by the Naval History Division, dated 1966 and titled "Uniforms of the United States Navy 1776-1898". Measuring 20"x16", these color drawings by H. Charles McBarron include brief identification captions and are in excellent condition as they were properly stored in the included original sleeve with corrugated cardboard support sheet, and shipping envelope. Also included is the original booklet providing detailed information on the uniforms illustrated in this collection. A rare find, particularly in this condition. The next item is a print dated 1942 of the Destroyer U.S.S. Gridley by Gordon Grant. The color image portrays the vessel traversing choppy seas with other ships in the background and fighter planes overhead. The rendition is enclosed in a 21"x19" wood with Plexiglas glazing. Near excellent condition with some scattered light spots of dirt or grime. The last item is a print by Robert L. Benney titled "Mission Accomplished" with a 1942 copyright date by Electric Boat Company, New York and a caption that reads "U.S. submarine catches a close-up of Jap carrier it torpedoed". The carrier referenced is shown engulfed in flames as it sinks with planes falling off and sailors fleeing for their lives, some on life rafts shown in the foreground, not far from the sub's periscope hovering above the surface. This dramatic print measures 24"x19" and is protected by a clear plastic wrap taped to a cardboard backing. The item rates very good to excellent with small spots of discoloration and light impressions. (73634-2D)
1840. **SIGNAL AND AIR PISTOL LOT** First is a Webley and Scott No. 1 MK 5 Signal Pistol with serial # 148575, 5 3/4" barrel, with silver grips and a repainted black frame and barrel with "11" painted in white on the barrel. Gun requires mechanical attention and rates good plus overall with areas of grip wear and loss of paint. Included is a correct canvas holster and straps with light wear and moderate staining. The other item in this lot is a Daisy No. 118 Target Special air pistol rating good plus with about 80% oxidation staining and pitting to its metal surfaces. (73634-22A)
1841. **HOLSTER AND TOY PISTOL LOT** First is an actual size die-cast pistol replicating a Colt 1911. This toy has no moving parts and its metal surfaces are painted flat black, of which 97% remains. As it is actual size, it fits perfectly in its accompanying real U.S. M-3 Pistol Holster with shoulder strap. Holster exhibits light wear inside and out, with lower strap loop beginning to separate from the body. U.S. and Enger-Kress markings are somewhat worn but still legible. Also include is a cap gun mimicking a percussion style pistol and measuring 6" in overall length with a gold finished metal body and brown plastic stock. Trigger is marked "Japan" and toy seems to function properly. (73634-22B)
1842. **HELMET LOT** One U.S. Army WWII Tankers Helmet with OD green fiber dome and tan leather liner and ear protectors. The dome which features ten vent holes is strong with support band firmly in place. Helmet retains only the right side of the chin strap but the neck guard and ear protectors are present as is the canvas strap that connects the ear protectors by way of a channel running through the neck guard. The leather liner shows mild to moderate wear, a couple of blackish spots, and isolated areas beginning to crack. The skull protection area shows some scuffing but retains 97% finish and the neck guard is experiencing extensive flaking and currently retains about 60% OD green finish. The front band is intact with strong stitching. All snaps are present. Overall the condition rates about good to very good. (73634-23A)
1843. **HELMET LOT** This lot consists of an Italian M35 Tanker's Helmet in excellent condition. This helmet was likely never issued as it shows only the slightest wear and the stamps on the liner are very crisp, however this example stamped size 57 exhibits a year of manufacture stamp that was applied inaccurately resulting in a date difficult to discern (possibly 1963). The seven flap tan liner does exhibit a small spot of grime but is otherwise excellent. The chin strap, like the entire outer surface is black, and has a buckle that shows traces of light oxidation, the holes retain their original shape, again supporting the possibility of this never being issued. The symmetrical fiber shell has a few very minor wear marks and the padded brow bumper shows a small white blemish. The left side of the leather skirting tends to retain an upward slope from storage. A hard-to-find item in excellent condition. (73634-23B)
1844. **HELMET LOT** This is a U.S. M5 Flak Helmet used by bomber crews during WWII, showing virtually no wear but with indications of exposure to humidity. The OD green steel dome exhibits a blotchy uneven patina with very few wear marks or scratches. The interior of the dome shows scattered brown spots of oxidation forming. The canvas webbing is strong and fully intact with only a small liquid stain at the end of the back strap. The tan leather sweatband is free of any blemishes worth mentioning. The tan leather chinstrap has the beginnings of some minor cracks and some whitish mildew stains. The overall condition is about very good to near excellent. (73634-23C)
1845. **HELMET LOT** One M5 Flak Helmet issued by the U.S.A.A.F. to bomber crews during WWII, complete with ear flaps, chin strap and inner webbing. The steel dome and ear flaps retain about 90% OD green finish with scattered areas and combinations of blackish mildew staining, light surface oxidation, wear marks, and dirt. The front exhibits non-discernable remnants of white stencil markings and below them, some roughly inscribed images in the likeness of stars. The interior dome exhibits more pronounced oxidation, with pitting occurring in isolated spots, including the left ear flap where the pad is no longer present, the right pad remains intact. The canvas webbing is also intact, showing light wear and spots of light whitish mildew. The canvas chinstrap shows dirt and oxidation stains, likely from contact with the buckle which is experiencing moderate oxidation. The overall condition of this uncommon helmet is very good. (73634-23D)

1846. **HELMET LOT** This lot consists of one British WWII Mk II helmet with an OD green dome exhibiting surface scratches, oxidation spots and retaining about 97% original paint. The interior has areas of grime and dirt attached to the metal surface. The black rubber liner shows only light wear with stiff brown leather cross straps with a white "58" still a strong stamp. The OD green chinstrap shows little wear and light discoloration in isolated spots. Also included is a homemade green yarn outer webbing. The overall condition is very good. (73634-23E)
1847. **LOT OF HELMETS** This lot consists of two U.S. helmets. First is an M-1917A1 that retains the original WWI chinstrap loops, an example of the converted helmets by McCord Radiator Co. The mottled OD green, rough textured surface exhibits a light white film in some areas and a more pronounced white area on the right side, a result of paint runoff from what was intended to be a vertical line. The front of the outer dome is marked "0-173" in black stencil. The soft leather lining shows mild wear, ingrained dirt, and a patch of blue dye or paint at the front. Also present is the identification hand written in what appears to be black paint: "Private Edwin Dorp 32 229 192". The second helmet is an M-1 with outer surfaces retaining about 85% OD green finish and exhibiting scuffs, wear, dirt and oxidation staining with the top center beginning to show faint pitting. The inner fiberglass shell rates excellent. The canvas lining has light dirt and is marked AM Stay Co. The leather sweatband shows little wear. Both the canvas and leather straps are present and intact. The overall condition of the lot is very good. (73634-23F)
1848. **HELMET LOT** This is one British M-1944 helmet with metal surfaces retaining about 97% dark brown finish with silvering occurring along the brim edge. The black rubber liner shows only light wear as does the light khaki colored chin strap. The top padding exhibits some white mildew and the outer dome has a few scratches, handling marks, traces of oxidation and some narrow black streaks that appear to be of paint. The overall condition is near excellent. (73634-23G)
1849. **HELMET LOT** This lot consists of one German M40 Helmet with single decal. The outer surfaces retain about 60% of a mottled dark green paint with loss due mainly to oxidation, including pitting in several areas. There are also handling marks and some spots of what appears to be spilled brick red paint. The decal is moderately worn off. The interior exhibits only about 20% finish remaining with moderate oxidation occurring, predominantly in the upper two thirds. All that remains of the interior parts are the liner band and buckles. The overall condition is about good plus. (73634-23H)
1850. **LOT OF HELMETS** This lot consists of two U.S. M-1 helmets. The first one has a rough OD green textured painted surface with some scratches, scuffs, spots of grime, and a two inch dent towards the top of the front. The interior fiber shell has a light film of dirt at the liner level and up, a small streak of light green paint at the brim and wear marks at the edge. The green canvas strap, dated 1945, shows light wear as does the leather sweatband. Very good condition overall. The second item is painted a glossy OD green and designated for a Captain and includes two additional white stripes running horizontally around two thirds of the outer surface. Another distinguishing feature is a yellow under coating that is exposed in isolated spots. The outer shell also shows several scratches, wear marks, areas of dirt, and a black streak along the top. The interior reveals that no liner is present, with remnants of glue remaining as well as mild oxidation. The chin strap and only the right buckle are present. The condition rating of the second helmet is good to very good. (73634-23I)
1851. **HELMET LOT** This is one British Motorcycle Rider's Helmet featuring a dark brown textured finish with light scratches throughout most of its surface and silvering along the edge. The "BMB" marked leather sweatband and felt lined brown leather ear flaps show light wear. The brass buckle and snap are excellent and the padding, leather, and white canvas webbing are strong. The overall condition is near excellent. (73634-23J)
1852. **HELMET LOT** One U.S. M-1917 Helmet exhibiting a mottled textured OD green outer dome with the lower section somewhat whitish. It also shows several tan scuff marks and silvering along the edge. The interior retains the leather, and string lining as well as the felt material, minus a small tear, at the top. Also present is the original label reading: "Tighten Cord/And Adjust Net to Fit the Head". There is also handwritten in ink on the label: "26th. Div.-103rd./D.E.F." These components along with the brown leather chinstrap show light wear and brittleness. The inside of the brim shows runoff paint and is marked "Z E29" and the chinstrap is handwritten "Capt. Gendron U.S. Inf." Overall very good condition. (73634-23K)
1853. **LOT OF MILITARY EQUIPMENT** This lot consists of 12 empty feed trays for the Italian Breda MG Model 37. Each 10 1/2"x3 1/2" tray will hold 20 rds. of 8mm (8x59 Breda) and overall retain about 95% parkerized finish with some experiencing oil and grime. They are accompanied by a correct wood carry case with metal reinforced edges, dual leather carry straps, and OD green painted surface exhibiting some scrapes on the wood area and light oxidation and flaking on the metal. This is a rare find in very good to near excellent overall condition. (73634-9D)
1854. **LOT OF MILITARY EQUIPMENT** This is an inert U.S. M2-2 Portable Flamethrower in excellent condition and apparently unused. Overall the components retain approximately 99% OD green finish. The left gasoline tank has a two inch dent at the bottom and there are a few scattered very light scratches. The lot comes complete with frame, both large gasoline tanks, nitrogen tank, and wand. Item weighs approximately 45 lbs. Also included is an unused canvas pouch measuring 15"x7" and stamped "Tool Kit For Portable Flame Thrower M2-2". (73634-16D)
1855. **LOT OF AMMUNITION CRATES** This lot consists of two empty wood ammo crates. The first one has a face that reads in yellow: "350 RDS/7.62MM BALL L2A2/IN CHR MK3/ IN BDR MK3/1." The 16"x5"x9" brown box is constructed of wood with metal reinforced edges and includes the original inner metal can minus the tear-off lid. The can rests in place by way of the included side and top braces. The case retains the original Safety Class 6 warning sticker for explosives, bold ID markings on top and front, and the sealing tape that reads "FID/RG". The outer box exhibits some minor scratches, pitting on areas of edges and dirt mainly on the lid. The inner can is clean and all hinges are present. The second crate measures 16"x10"x7" with a charcoal gray original paint serving as a backdrop to ID markings that include "1200 CARTRIDGES CAL. 45/IN CARTONS/T2AAF/BALL 1911" This information is provided on the front in bright yellow with a repack date of Dec. 6, 1944. The box is constructed with wood reinforcements on either end that double as carry handles. There are stamps on each side as well as the top and all are strong. The wood surfaces retain about 95% paint, with some loss occurring due to a couple of small chips on the sides, with scattered spots of mildew and dirt. The screw-on lid is accompanied by all four screws in place, both cross members and three wing nuts. The overall condition of the lot is very good. (73634-9D)
1856. **MAGAZINE LOT** This is a rare snail drum magazine for the German MG34 and MG42. Also called a basket magazine, it holds 50 rds. This example appears unused and retains about 97% original light green paint with minor handling marks. The top is marked "797 40/9957 o". This is a hard to find item in excellent condition. (73634-44A)
1857. **LOT OF MILITARY ITEMS** This group encompasses a wide range of items including a fuze setter marked "M23" with all text and increments still strong and an area of oxidation but otherwise excellent. Next are two red metal triangular warning signs for mine fields with lots of condition. Next is a group of six decorative brass pieces made from cartridge shells including a pair of candle holders, salt and pepper shakers, a paperweight in the image of the Tower of Pisa and marked "Italy 1945", and a 22" rod constructed of a string of shells. Very good condition with the rod showing isolated tarnish and oxidation. Also included is a can of U.S. issued Shoe Dubbing, an OD green device marked "Model No. 142/Dust Gun-1944", and a U.S. Navy Star Finder and Identifier No. 1202-C with dial, seven plates, instruction sheet and leather storage sleeve. Also included is an unused U.S. Grenade Launcher Sight, M15 in the original cosmoline wrap and with instruction sheet and canvas pouch with oxidation on snaps. Other items in this diverse lot are a head space gage for .50 B.M.G., canvas slippers in a pouch marked "Iwo Jima 1945", a U.S. WW II brass oiler with leather pouch, gun rack clips, gun cleaning patches, a kamikaze headband, a pair of quick detachable sling swivels in factory sealed package, a six oz. whiskey flask made in England, an HKS model 10-A speed loader in unopened package, eight unused steel bolts with nuts, two fishing reels and a few other small items. (73634-8C)

1858. **LOT OF MILITARY ITEMS** First are three empty mortar tubes marked "Sabot 60mm" in a correct three compartment OD green canvas carry case marked "U.S." and "Victory Canvas Co. 1944". The case has faded somewhat and exhibits some white mildew spots and light wear but is free of holes and tears. It features a padded inner compartment bottom, shoulder strap, and loop attachments. The intact buckles and straps are experiencing oxidation. The black cardboard tubes with metal end caps are near excellent with areas of light discoloration and dirt. The next item is a U.S. WW II base plate for a 60 mm mortar and includes the lock arm. The OD green steel plate exhibits light surface oxidation and dirt in isolated areas but overall the condition is near excellent. Also included in this lot are two unmarked collapsible OD green bipod extensions measuring 26" when fully extended and in very good condition with minor wear and oxidation. (73634-45B)
1859. **LOT OF BAYONETS** This lot consists of four bayonets. First is a British No. 4 MK II with a broken tip and mild wear with correct scabbard showing light wear and areas of oxidation pitting. The second item in this group is French M. 1892 Second pattern with an overall bright blade with areas of grime and mildew at the tip and moderate surface oxidation at the ricasso. The guard, tang and pommel all exhibit nearly complete oxidation coverage and the grip is intact with mild wear and fading. The correct scabbard exhibits moderate surface oxidation and pitting. Next is a Japanese Type 30 Arisaka with a guard that is bent inwards and a blade showing moderate pitting. The grip is missing and the frame exhibits total oxidation coverage. The included scabbard retains about 20% finish with the balance consisting of various levels of oxidation. The last bayonet is an Italian M. 1938 fixed rating about good with moderate pitting in several spots. The grips are well worn and exhibit a crack at the guard and there is no scabbard. Also included is a very curved 16" long leather kukri style scabbard with brass hardware and leather belt loop and in very good condition. (73634-28A)
1860. **LOT OF 22 RIMFIRE AMMUNITION** Five boxes total: (1) Remington Hi-Speed Kleanbore red and green box containing 50 rds. of 22 short. The box rates very good overall with light scuffs and torn rounded edges and the cartridges rate excellent; (1) Remington DuPont green and red box containing 33 rds. of Kleanbore standard velocity 22 LR. The box rates very good with lightly rounded corners and edges and the cartridges rate excellent; (1) Remington U.M.C. green and red dog bone box containing 38 rds. of Kleanbore lubricated 22 LR. The box rates good overall having darkened with age, separated but enclosed endflap and rounded edges and corners and the cartridges rate about very good overall with light oxidation on the lead projectiles and brass cases; (1) Remington Hi-Speed Kleanbore faded red and green box containing seven rds. of assorted 22 LR cartridges and eight rds. of 22 LR rat-shot. The box rates poor with a split cover and missing detached endflaps, the cartridges rate very good overall; (1) Western Super-X yellow and red box containing 32 rds. of 22 LR rat-shot. The box rates fine with light scuffs and dirt staining and the cartridges rate excellent. (56229-A15-18)

1939. **ARSENAL REFINISHED GERMAN MODEL 98K BOLT ACTION RIFLE** serial #27001, 8 mm Mauser, 23 1/2" barrel with a strongly refurbished, although lightly frosted bore. The arsenal grade refinished barrel is marked AV, denoting that it was produced by Vereinigte Deutsche Metallwerke AG rates very good, having retained about 97% of its arsenal reblued finish over some slight pitting. The Gustloff Werke receiver and bolt assembly similarly rate very good, also having retained about 97% of arsenal reblued finish over slight pitting. The receiver is marked "bcd 4*" denoting the abbreviation for Gustloff Werke and what was likely the year of manufacture which has since faded and been lost; however, research would seem to indicate that the rifle was originally produced in 1941. The triggerguard is also subject to some pinpoint pitting under the layer of arsenal rebluing. The smooth wood pistolgrip stock rates near very good, however there are several chips and scuffs, as well as the wood conveying a relatively rough texture; the stock also displays the initials "T.H." lightly etched into the rear section on the right side of the stock and highlighted by what appears to have been a black marker. The rifle features a hooded front sight and sling mounts; comes with a leather sling and cleaning rod. Overall this is a very good example of an arsenal refurbished Model 98k and would likely prove an adequate and economical shooter or hunting rifle despite its flaws. (136403-4) (C&R) (200/400)

The parkerized receiver rates very good but exhibits a few minor scratches as well as some faint silvering along edges. The bolt assembly rates very good plus, though having lost much of its blued finish as a result of use-related wear. The smooth wood stock and forend both rate very good, but do exhibit several minor light dings and scratches. The metal buttplate exhibits some light oxidation as well as numerous scratches; likely from attempts to open the butt trap, which does still open with effort. The forend has been cut down to just above the middle barrel band to make for a lighter, sporterized configuration. The rifle features a Simmons 3-9x power scope with duplex reticle and crisp optics on an S&K mount above the receiver. The scope rates very good plus but does exhibit some minor extremely faint scratching, as well as some loss of blue from the scope rings. The rifle also features sling mounts; comes with a camouflage patterned nylon sling and a single 10 round magazine. (136578-23) (200/300)
2017. **MARLIN MODEL 336 LEVER ACTION RIFLE** serial #70106548, 30-30 WCF, 20" barrel with a very good, although lightly oxidized bore. The barrel rates near excellent, retaining about 97% of its factory blue finish. The receiver rates very good plus as it retains roughly 95% of its factory blue finish, but does convey indication of extensive handling associated with prior use. The action exhibits rather stubborn cycling, but is by no means inoperable. The rifle features an extended hammer spur. The smooth wood forend and pistol-grip stock rate very good, but exhibit numerous dings, scuffs, and scratches. The stock features an imbedded medallion in the right side of the stock which denotes, and is corroborated by the serial number, that the rifle was manufactured Marlin's 100th year of production (1970). The rifle features a Universal Standard 4x32 scope with fine crosshair reticle and crisp optics and comes with a set of transparent lens covers; the scope rates very good plus but does show a few marks along the scope body. The black forend tipped checkered walnut Monte Carlo stock rates near excellent with only extremely negligible faint handling related marks present. The stock features a Remington recoil pad. The rifle features sling mounts but does not feature any sights. (136612-1) (300/500)
2026. **WEATHERBY VANGUARD BOLT ACTION RIFLE** serial #VS269999, 300 Weatherby Mag., 24" barrel with an excellent, bright bore. The barrel rates excellent as it has retained about 99% of its factory matte blue finish and exhibits a few extremely light signs of wear. The receiver rates excellent, likewise retaining about 99% of its factory matte blue finish and lacking any discernible signs of damage or wear. The rifle's fluted bolt rates near excellent only exhibiting expected wear as associated with prior use. The "tan with black spiderwebbing" fiberglass Monte Carlo stock rates excellent, with the only noticeable damage being a minor light scuff mark along the upper right portion of the stock forend, parallel to the barrel. The stock features a Weatherby recoil pad. The rifle features sling mounts but does not feature any sights, however the receiver has been factory drilled and tapped for the installation of a scope and includes mount, although lacking scope rings. (136602-17) (350/550)
2027. **WINCHESTER MODEL 12 TAKEDOWN PUMP SHOTGUN** serial #1648109, 16 Ga., 26" barrel with an excellent, bright bore. The barrel rates very good, although much of the factory blue finish has faded to a sort of gunmetal gray tint. There are numerous minor light scratches over the course of the barrel's surfaces, in addition an isolated area of light pitting is present along the right side. The barrel included is not original to the frame as its unique serial number denotes that it was produced in 1942, while the frame was not produced until 1957. The receiver likewise rates very good and exhibits an acquired gunmetal gray finish. The receiver exhibits numerous minor light scratches and silvering along edges, as well as moderate pitting covering the right side. The smooth wood forearm and pistol-grip stock both rate very good, but exhibit numerous light scratches, dings, and some minor scuffs and scrapes. There is also what appears to be a shallow crack in right side of the forearm. The rifle features an installed post-manufacture adjustable choke with bead-type sight. (136573-6) (250/450)
2028. **CZ MODEL 452 ZKM SCOUT BOLT ACTION RIFLE** serial #826829, 22 LR, 16" barrel with a bright, near excellent bore. The barrel rates excellent as it retains about 99% of its factory blue finish and no discernible marks or wear. The parkerized receiver rates near excellent, retaining 97% plus of its factory finish but exhibiting a few extremely faint scratches as well as some isolated instances of silvering. The smooth wood stock rates near excellent with the only cases of damage being a slight area of scuffing rear of the bolt and some etching along the left side located below the rear portion of the receiver. The rifle features a hooded front and adjustable rear sights. The rifle comes with a single shot adapter, but is missing the 5 round that would have originally come with the rifle. (136518-31) (150/250)

2029. **RUGER 10/22 SEMI-AUTO RIFLE** serial #248-73875, 22 LR, 18 1/2" barrel with an excellent, bright bore. The stainless steel barrel rates very good plus as it has retained about 91% of its factory finish, but it does exhibit some moderate wear, particularly along the underside of the barrel. The front sight block exhibits some moderate oxidation accumulation. The aluminum alloy receiver, trigger-guard and barrel band all rate near excellent and show no discernible damage. The checkered black polymer skeletonized pistol-grip stock rates near excellent and only exhibits some minor, extremely faint marks. The rifle features a folding leaf rear sight and comes with a single 10 round rotary magazine. The rifle also includes a Simmons 4x32 scope with a duplex reticle and clear, crisp optics; comes with lens covers. (136416-40) (200/300)
2030. **ITHACA MODEL 37 PUMP SHOTGUN** serial #281130, 16 Ga., 28" barrel with an excellent, bright bore. The barrel rates very good, retaining 90% plus of its factory blue finish but exhibiting extremely faint oxidation development. The receiver rates very good and has retained about 93% of its factory blue finish as well as maintaining both of its factory engravings; however, the receiver does exhibit some minor pinprick pitting along the left side as well as extremely faint oxidation, additionally there are a few light scratches on the left side. The smooth wood forearm rates excellent with negligible faint wear; while the checkered wood pistol-grip stock rates very good, although exhibiting numerous light dings and scratches as well as a crack in the right side of the stock extending from the receiver area. The rifle features a bead front sight. (136372-7) (200/400)
2031. **BALLARD SINGLE SHOT SPORTING RIFLE BY BALL & WILLIAMS** serial #2293, .44 RF, 24 1/2" octagon barrel with an about good bore showing strong rifling with pitting evident, predominately toward the breech. The metal surfaces of the barrel show even brown patina overlaid with older textured surface oxidation. The top flat is marked "BALL & WILLIAMS/WORCESTER MASS", with "BALLARD'S PATENT/NOV. 5 1861" appearing on the right adjacent flat and "MERWIN & BRAY AGT'S/NEW YORK" on the left adjacent flat. The frame shows as dark mottled gray brown with silvering on the high edges. The lever and split type breech block show as pewter gray mottled with patches of brown oxidation. The initials "HMX" have been filed into the bow of the lever and appear as a period addition. The walnut stock and forend are in good condition, showing some original finish with numerous older dark impressions and usage marks scattered across the wood surface. A 1" crack is apparent at the upper tang. The rifle wears a blade front sight and a military carbine type flip rear sight. Overall a good example of these early manual extractor Ballard rifles. (146572-1) {ANTIQUE} (300/500)
2032. **PERCUSSION COAT PISTOL BY SHARPE OF LONDON**, .54 caliber, 5" octagon barrel with a lightly oxidized bore. The barrel shows a mottled brown surface turning to silver at the edges and overlaid with an added coat of clear varnish. British proofs are visible on the left barrel flat, with the top flat marked "LONDON". Older pitting is visible around the nipple and bolster. The lock and hammer show as smooth mottled gray brown and bear simple leaf engraving with borders. The square-cornered triggerguard is similarly engraved and features a simple pineapple finial. The English walnut stock is in about good condition with strong checkering and numerous dings and impressions across the surface. A glued 2" crack is visible on the left side, traveling from the breech through the sideplate escutcheon. A horn forend tip is present, showing a later coat of varnish, now loose and peeling. The ramrod fits well and appears to be of the period, with a turned brass tip. (146393-353) {ANTIQUE} (200/300)
2033. **WHITNEY WOLVERINE SEMI-AUTO PISTOL** serial #29368, 22 LR, 4 5/8" barrel with an excellent bore. The metal surfaces show about 95% original dark gray phosphate finish with the black plastic barrel shroud showing as gloss black and bearing the white WHITNEY logo. Light scuffs and surface marks are visible on both surfaces. The checkered brown plastic grips are in excellent condition with no chips or cracks. Included is one original magazine. Overall a good example of these less-than-beautiful pistols. (146393-290) (200/300)
2034. **CHILEAN MODEL 1895 MAUSER BOLT ACTION RIFLE BY LOEWE** serial #G3311, 7mm Mauser, 29" barrel with a bright excellent bore. The metal surfaces of the barrel and receiver retain 85-90% smooth original blued finish with the loss due to patches of heavy pitting on the muzzle forward of the front barrel band, now cleaned and showing a dark cold blue finish that is not obtrusive. Pitting is also evident on the front sight blade as well as on the ramrod tip. The receiver bears a crisp Chilean crest as well as the Loewe Berlin manufacturer marking on the left side rail. The triggerguard and floorplate show a smooth dark gray blue surface, also showing a later touch up with cold blue. Bright fire blue is still visible on the bolt release, magazine follower, and rear sight elevator. The bolt remains in-the-white with a bright polished surface and shows scattered light freckled oxidation spots, predominately on the bolt knob. All visibly numbered parts are matching, including the ramrod. No import marks are visible. The walnut stock is also correctly numbered and remains in near excellent condition with strong original finish and a crisp Chilean crest visible on the left side of the buttstock. Numerous rack marks and light impressions are scattered across the wood surface. Included is a correct but non-matching bayonet with a bright unsharpened blade and a correct but well-worn scabbard. Overall this is very nice Chilean Mauser, all matching with a great bore and marred only by the areas of pitting at the muzzle. (146599-64) {ANTIQUE} (300/500)
2035. **WALTHER MODEL 9 VEST POCKET SEMI-AUTO PISTOL** serial #623072, .25 ACP, 2" barrel with an excellent bore. The metal surfaces retain 85% smooth original blue with the loss due light thinning on the grip frame and silvering on the edges of the slide. The checkered black plastic grips with round medallions are in excellent condition with no apparent chips or cracks. The pistol appears to function correctly. Included is one original Walther marked magazine. Overall an excellent example of these diminutive little pistols. (146393-272) {C&R} (300/400)
2036. **WINCHESTER MODEL 63 SEMI-AUTO RIFLE** serial #90479, 22 LR, 23" barrel with a bright excellent bore. The metal surfaces retain 98% of a later dark olive bead-blasted parkerized finish. The left side of the barrel has been drilled and tapped to accept a side mount for the R.A. Litschert "Spot-Shot" scope now in place. Both the mount and the scope have been parkerized to match the rifle, with the front bell of the scope remaining black. The scope appears functional with slightly cloudy optics. The walnut forend and buttstock are in near excellent as-cleaned condition, showing a smooth surface with a few minor scuffs and usage marks. The forend has been relieved on the left side of the barrel channel to allow fitting of the scope mount. The original magazine tube is retained within the buttstock. The rifle wears a blade front sight with brass bead, with the rear sight dovetail now vacant. Overall a nicely refinished Model 63 that should make a good shooter. (146599-37) (400/600)
2037. **US MODEL 1884 TRAPDOOR SPORTER** serial #425103, 45-70 Govt., 25 1/2" barrel with an about good bore showing strong rifling with moderate pitting throughout. The metal surfaces of the barrel have faded to a mottled blue brown patina, with numerous dings and scuffs across the surface. The receiver, breechblock and lock show dark brown patina mottled with gray. The triggerguard shows evidence of an early nickel plated refinish now flaking to brown patina, while the single barrel band shows a later bright nickel refinished surface. Quick release swivels have been added to the triggerguard and to the barrel via an oversized barrel clamp with rubber shim. The walnut stock has been "sporterized" by cutting off the forend 2 1/2" forward of the barrel band, with the remaining cleaning rod channel still visible. The wood remains sound with no visible cracks, and shows numerous impressions and dings across the surface. A diamond-shaped white faux ivory medallion with the initials "EB" has been let into the left of the stock. The rifle wears a blade front sight with brass bead, and a Buffington type rear sight. (146599-44) {ANTIQUE} (200/400)

2038. **US NAVAL BOARDING PIKE LOT** This lot consists of one 1830's-era U.S.-marked naval boarding pike with wood shaft. The pike head shows a mottled brown surface patina with areas of older bright metal still visible under a coat of yellowed varnish. The point is rectangular in cross section and measures 5 1/2" from point to the base of the flats. One flat bears a "U.S" marking, with the adjacent flat being marked "N.Y.W" for "Naval Yard Washington". The forged iron pike head measures 8 1/2" to the base of the socket, and has an overall length of 16" including mounting straps. The light hardwood (possibly Ash) staff remains in excellent condition and appears as a possible original, measuring 85" from socket to ball end, and tapering from 1 1/2" at the socket to 1 3/16" just forward of the ball, with tight riveted wood-to-metal fit. The wood surface shows about 40% coverage of older white paint, now flaked with age and giving the whole pike a wonderful period appearance. Overall a scarce and very appealing U.S. Naval marked pike dating to the post-War of 1812 period. (146387-56) (500/700)

2038

2039. **US MODEL 1905 FENCING MUSKET** This lot consists of one U.S. fencing musket consisting of a Model 1884 Trapdoor rifle with hammer removed and thumb piece/breech block latch ground flush with the lockplate. The metal surfaces show an even dark brown patina with dings and impact marks across the surface. The walnut stock remains solid with numerous chips, dings and fencing marks that tell of hard training use. The SWP cartridge remains faintly visible. Overall length from butt to muzzle measures 43 1/2". The bayonet appears as a Model of 1912, consisting of a spring steel blade showing a 1/4 twist and being mounted to the barrel via two cross pieces rather than a socket. Both mounting screw holes are now vacant. The original leather blade cover with padded tip is intact,

showing a dry abraded surface and tight stitching just starting to loosen at the base. Overall a very good example that shows appealing wear commensurate with hard military use. (146387-28) {ANTIQUÉ} (400/600)

2039

2040. **FIREARMS INTERNATIONAL "PRE-BRONCO" SINGLE SHOT RIFLE** serial #B5352, 22 LR, 16 1/2" barrel with a bright excellent bore. The metal surfaces of the barrel and simple swivel breech action retain 90% original blue overlaid with spotted light pin-prick surface oxidation as well as a few scattered light scuffs and scratches. The cast zinc solid frame and skeleton buttstock show 90% original deep maroon crinkled enamel surface. A few scratches are present showing the grey base metal through the crinkled paint finish, most notably on the upper surface adjacent to the rear sight. While not visually apparent, the blued steel tube forming the bottom section of the buttstock remains in place, but is loose with damaged threads. The action functions and locks up tightly. The rifle is equipped with a simple eared blade front sight as well as an even simpler single blade rear sight. A nice example of these interesting little Firearms International guns that preceded Garcia's later "Bronco" model. This example, having a serial number but no Bronco name, can be dated to 1969-70. (146601-21) (200/400)

2041

2041. **WINCHESTER MODEL 61 SLIDE ACTION RIFLE** serial #104367, 22 S, L, LR, 22" round barrel with a bright excellent bore. The metal surfaces retain 95-97% original blue with the loss due to a hint of silvering at the muzzle as well as scattered light surface scratches. Several light dings are noted on the bottom edges of the non-grooved receiver. The walnut buttstock and grooved long forend are in excellent plus condition with clean original finish and showing only a few very light impressions and storage marks. The rifle wears a blade front sight with silver bead and an adjustable rear sight with elevator intact. Manufactured in 1948, this is a very fine Model 61 that will please both the collector as well as the shooter. (146586-D29194) {C&R} (500/700)

2042. **PERCUSSION DOUBLE SHOTGUN BY PERKINS**, 16 bore, 28 1/2" damascus barrels with gray bores showing patches of light oxidation. The metal surfaces of the barrels show gray patina evenly interspersed with brown damascus twist pattern. The breech is adorned with two silver bands and shows dark brown patina with patches of older pitting surrounding the nipples, which appear as later replacements. The barrels are mounted with a wide flat rib marked "LONDON" in an engraved foliate surround, and also bears a somewhat crude silver inlay showing a stag and doe in simplistic habitat. A single nickel silver bead is mounted at the muzzle, and is highlighted with a silver inlay displaying an arrow pointing in the direction of fire. The barrels bear British proofs, and appear sound. Two ramrod pipes are mounted, with the brass tipped ramrod appearing of the period if not original. The iron furniture and back action locks bear foliate engraving and show old brown patina peppered with fine pitting and wearing to pewter at the tang and triggerguard. The locks are marked "T. Perkins" and are functional with the hammers showing firing erosion and small chips at the faces. The walnut buttstock features checkering at the wrist, now worn nearly smooth, and features a simply engraved nickel silver tailpipe, wedge escutcheon, as well as a spare nipple trap inlet into the toe of the stock. The stock remains solid with a pleasing worn surface showing numerous older dark impressions and usage marks. Overall a nice old shotgun that shows evidence of use but not abuse. (146599-22) {ANTIQUÉ} (300/500)

2043. **MEXICAN MODEL 1910 BOLT ACTION CARBINE** serial #16494, 7mm Mauser, 18" barrel with a dark bore about good bore. Metal surfaces show 85% smooth reblued surface, silvering at the muzzle and high edges and overlaid with light freckled oxidation. The receiver bears a fully visible Mexican national crest and 1932 manufacture date. The bolt is matching and shows an as-cleaned bright surface. The stock has been lightly sanded and shows several tight age cracks emanating from the butt. No import marks are evident. The carbine wears an eared blade front sight and military leaf rear sight graduated to 1400 meters and showing a slightly bent adjustable blade. No cleaning rod is present. Included is a period military sling. In overall good condition. (146599-66) {C&R} (200/300)

2044. **CHILEAN MODEL 1895 BOLT ACTION SHORT RIFLE BY LOEWE** serial #C2936, 7mm Mauser, 21 3/4" barrel with a good bore showing strong rifling with frosting within the grooves. The metal surfaces of the barrel, receiver, floorplate, and triggerguard show a smooth older reblued surface now thinning to brown and silvering at the edges. The receiver bears a Chilean crest now only faintly visible, as well as the Loewe manufacturing address at the left side rail. Scuffs and usage marks appear scattered across all metal surfaces. No import marks are evident. The non-matching bolt remains in-the-white and shows a later polished surface with freckled older oxidation at the bent bolt handle and bolt knob. The smooth walnut stock has been lightly sanded, with only a faint shadow the Chilean crest remaining. Surface dings and usage marks appear across the surface with a glued repair at the toe, as well as a glued crack at the rear of the forend iron. Both repairs are well done and appear solid. The cleaning rod remains intact. The rifle wears an eared blade front sight and military leaf rear sight graduated to 1400 meters. In overall good plus condition, this Model 1895 Short Rifle should make a nice shooter. (146599-71) {ANTIQUÉ} (150/250)
2045. **SPANISH MODEL 1916 BOLT ACTION SHORT RIFLE** serial #3003, 7mm Mauser, 21 3/4" barrel with an about good, dark bore showing strong rifling with fine pitting throughout. The metal surfaces show a smooth reblued surface overlaid with lightly peppered specks of oxidation, as well as scattered light scuffs and usage marks. The receiver bears the Oviedo Arsenal marking as well as manufacture date of 1913, indicating the use of a Model 1895 carbine receiver at the time of arsenal conversion to the Model 1916. No import marks are evident. The matching bolt (safety lever non-matching) shows a later polished bright surface, with the bent bolt handle showing light brown oxidation with light pitting visible at the knob. The smooth walnut stock is correctly numbered and shows a lightly sanded surface with numerous impressions and usage marks scattered across the surface. A 1" crack is visible at the wrist, emanating from the upper tang. The cleaning rod remains intact. The rifle wears an eared blade front sight, as well as the tangent leaf rear sight and buttstock mounted sling bar indicative of the second pattern Model 1916 Short Rifle. In overall good plus condition. (146599-70) {C&R} (150/250)
2046. **SPANISH MODEL 43 BOLT ACTION SHORT RIFLE** serial #EA34915, 8mm Mauser, 23 3/4" barrel with a dark frosted bore showing strong rifling. The metal surfaces of the barrel and receiver show 85% arsenal blue finish now wearing to silver at the high edges and having numerous scuffs and usage marks visible across the surface. No import marks are apparent. The receiver bears a strong Spanish Air Force crest on the forward ring. The triggerguard extension is correctly numbered, with the floorplate showing a non-matching number and aging to blue brown patina. The matching bolt retains 50% blue finish with the loss due to areas of bright contact wear caused by cycling of the bolt. The extractor shows a plum brown refinished surface. The dark walnut stock remains in near excellent condition showing a smooth un-sanded surface overlaid with period dings, impressions, and evidence of use. The cleaning rod remains intact. The rifle wears an eared blade front sight and a tangent leaf rear sight graduated to 2000 meters. Included are an unmarked bayonet and scabbard as well as a military style leather sling of modern manufacture and a spare extractor not tested for fit. Overall a pleasing example with unusual Spanish Air Force marking. (146599-68) {C&R} (300/500)
2047. **BSA MARTINI MODEL 12/15 SINGLE SHOT RIFLE** serial #P67567, 22 LR, 29" heavy barrel with a bright excellent bore. The metal surfaces of the barrel and receiver retain about 80% thinning original blue now toning to dark brown and freckled with light peppered oxidation over most surfaces. The receiver bears the BSA stacked arms logo on the left side, with an importer marking stamped on the right side. The breechblock and lever retain traces of case-hardened color. The hardwood forend and pistolgrip buttstock are later replacements and remain in good condition with a smooth dark brown finish showing scattered light impressions and usage marks. The buttstock features a cheekpiece for a right handed shooter and is slightly loose on the receiver with a somewhat poorly fitted checkered black plastic buttplate. The rifle is fitted with a Parker-Hale #FS22 interchangeable disc target front sight as well as a Parker-Hale #7A international target style aperture rear sight. While the replacement stocks are somewhat crude, this old BSA has a great bore as well as a great set of sights and is likely still a tack driver. (146610-7) (200/400)
2048. **HAENEL KK SPORT MODEL BOHLERSTAHLE MODEL SINGLE SHOT RIFLE** serial #4084, 22 LR, 28 3/16" octagon barrel with a bright excellent bore. The metal surfaces of the Bohlerstahl barrel and Haenel marked frame show a somewhat crudely executed reblued finish overlaid with light oxidation spots and fine scratches. Buffing marks and rounding of the sharp edges are apparent on all surfaces. The barrel features a matted top flat with flush quarter rib and has been drilled and tapped on both right and left flats forward of the frame, with the left flat holes now crudely filled and filed flush. The rifle now wears a Weaver G4 scope mounted to the right flat. The scope shows clouded optics with non-functioning adjustments. The original schuetzen style diopter rear sight is missing, as is the original blade insert for the ramp mounted schuetzen front sight. The finely checkered walnut buttstock and forend are original, showing a refinished surface with a loose and poorly fitted repair at the toe. A blued steel grooved buttplate is present. The rifle remains fully functional and would likely be quite accurate if a suitable alternative to the current optics could be devised. (146586-D29014) (200/400)
2049. **US MODEL 1898 KRAG SPORTER BOLT ACTION RIFLE** serial #60654, 30-40 Krag, 24" barrel with a dark heavily worn bore. All metal surfaces show a dark blue refinished surface overlaid with textured brown oxidation, turning to deeper pitted orange oxidation in the area of the barrel band and adjacent to the barrel channel. The bolt has escaped with a bright cleaned surface and freckled pinhead pitting on the refinished extractor. The smooth walnut stock has been cut 1 1/2" forward of the barrel band, and shows a smooth lightly sanded surface with no apparent cracks. The rifle wears a sporting ramp front sight with an added dovetail mounted adjustable sporting rear. The screw mounting holes for the original military rear sight remain vacant. Overall a shootable Krag sporter that might have another Maine deer season left in it. (146601-22) (100/200)
2050. **WINCHESTER MODEL PRE-'64 MODEL 94 LEVER ACTION CARBINE** serial #1824467, 20" barrel with a bright excellent bore. The metal surfaces of the barrel and magazine tube retain 20-30% original factory blue in protected areas near the muzzle and around the rear sight, with the remainder thinned to pewter gray and freckled with areas of older pinprick surface oxidation. The frame shows evidence of an earlier cleaning, now showing as gray metal toning to brown. Vertical wire brush marks are present but not obtrusive. The smooth walnut stock is in excellent condition with strong original varnish showing some flaking and a few scattered light impressions. No cracks are apparent, and the original checkered steel buttplate is intact. The rifle is equipped with the original front sight with hood, as well as the original adjustable sporting rear with elevator intact. A solid, serviceable deer rifle with a great bore, manufactured in 1952. (146540-13) {C&R} (300/500)
2051. **THOMPSON CENTER HAWKEN PERCUSSION RIFLE** serial #K161859, .50 caliber, 28" octagon barrel with an excellent bore. The metal surfaces of the barrel show 98% bright high polish blue surface, with the loss due to a very few light oxidation speckles. The lock retains virtually all of the original case-hardened color. The walnut stock shows a smooth varnished surface and features brass furniture now toning to ochre and showing one missing patchbox screw. The ramrod is missing the threaded brass tip. The rifle wears the originally supplied Thompson Center blade front and adjustable rear sights. Assembled from a kit as indicated by the K serial number prefix, this rifle displays excellent quality and workmanship. (146543-10) {ANTIQUÉ} (150/250)

2052. **STOCK INSPECTION STAMP OF SPRINGFIELD ARMORY MASTER ARMORER ERSKINE S ALLIN** This is one of the personal inspection stamps that Erskine Allin used in his capacity as Master Armorer at Springfield Armory to stamp the final inspection cartouche on the left side of all the arms he inspected. The stamp is quality-made of heavy brass stock measuring 1 1/2" long by 3/4" wide by 1/2" thick. The stamp tapers nicely down to accommodate the oval stamping die with intertwining "ESA" initials of Mr. Allin. The tapered section, where one would naturally grasp the stamp is neatly hand file-cut. The impact surface at the butt shows some peen marks as one would expect, with the edges neatly beveled, doubtless dressed numerous times over the years. The die itself is soldered to the body of the stamp. Erskine Allin worked his way up through the ranks at Springfield Armory starting as an apprentice in 1829 being appointed master armorer in 1853. Included with the stamp is a letter on the Springfield Armory letterhead congratulating the owner on his find and giving a short narrative about Erskine Allin. Overall a very nice and exceptionally rare piece of American arms-making history, doubtless used daily by one of Springfield's most prolific inspectors. (36387-53)

2053. **LOT OF WINCHESTER ADVERTISING** This is an original enameled metal Winchester-Western advertising sign, the "Sportsman's Game Guide" for metallic cartridges. The left side of the sign shows different types of game: varmint, big-game, heavy and dangerous game with depictions of the quarry mentioned. To the right of these are a selection of Winchester-Western cartridges showing available grain weights and bullet styles. The very bottom of the view shows images of the Winchester model 70 rifle and model 94 carbine. The sign itself rates about excellent with a few minor scuffs and a few very minor scratches, one corner showing some very light wrinkling. The rear features a cardboard back with a string suspension cord which is intact. The sign measures 23" wide by 28 1/4" tall. A very attractive wall-hanging for the Winchester enthusiast or really any gun room. (36512-11)

2054. **LOT OF WINCHESTER ADVERTISING** This is an original enameled metal Winchester-Western advertising sign, the "Sportsman's Game Guide" for shot shells. The left side of the sign shows different types of game: waterfowl, upland game birds, small game and other game, along with depictions of the quarry feathered and furred. On the chart to the right each animal is delineated, geese, ducks, grouse, etc., rabbit, even fox and black bear. Shell and shot size are given as well as suggested chokes. The bottom of the sign shows a selection of Winchester shotguns from the Super X Model 1 to the Model 101 Pigeon Grade and the slide and semi-models as well. The sign rates about excellent overall with some minor scuffs, light dirt and a handling mark or two from the years. The rear features a cardboard back with a string suspension cord which is intact. The sign measures 23" wide by 28 1/4" tall. A nice sign with some neat depictions that would certainly draw attention in any Winchester collection or gunning room. (36512-11A)

2055. **LOT OF REMINGTON ADVERTISING** This lot consists of a Remington metal banded poster "Know Your Remington Shotguns and Shotgun Shells". Prominently featured are the Remington 1100, 870 and 3200 model shotguns. The poster mentions gauges, chokes, Remington shotgun actions, the difference between ventilated and plain barrels as well as barrel lengths. The difference between rifle and shotgun are explained and there is a table of shot size suggestions along with which brand of Remington shell to use for different types of game ranging from all manner of feathered quarry to furred game right up through black bear. Remington's Power Piston wads are explained as are chamber lengths and different pellet and shot sizes are shown as well. Overall the depiction is still bright and in very good shape. The poster consists of the normal paper stock which had a mylar overlay, with metal bands for hanging at each end. This has been affixed to a piece of common cardboard which is now starting to delaminate slightly along its lower edge, possibly from light exposure to moisture. A very seldom-encountered poster these days that really should be professionally conserved. (36512-11B)

REMINGTON 3200 OVER AND UNDER SHOTGUN

Remington REMINGTON-UMC

GREAT GUNS DESERVE GREAT AMMUNITION. WE MAKE BOTH.

2056. **LOT OF SMITH & WESSON ADVERTISING** This lot consists of three in-store posters from the late 1980's advertising Smith & Wesson firearms line and their "No-Bull" advertising campaign. The large poster measures 23"x39" and shows the entire product line of 44 S&W revolvers and "second gen." auto-pistols. The poster shows some small wrinkles but is overall very good plus. The next item is the "No-Bull" S&W warranty program obviously aimed at Taurus from back when their ad campaigns were decidedly more hostile than today. The poster measures 18"x24" and rates about excellent. Last is a cut-away view of the S&W model 469/669 auto-pistol. The poster measures 18"x24" and rates about excellent. Each has small pin marks at their corners but overall a neat lot of older S&W posters you don't often encounter these days, they really should be properly framed and displayed. (36512-12)

2056

2057. **LOT OF EDGED WEAPONS** This lot consists of two items. First is a machete marked "Conquistador" by Andrews Co. of Stamford Conn. measuring 23" in overall length with an 18" blade showing mild wear, a layer of dried grease over much of its surface, and scattered surface oxidation. The black plastic grip shows light wear and handling marks. It is accompanied by a mismatching green canvas scabbard with light wear with loop and hanger intact. The other item is a U.S. Camillus Sword Brand MK2 Fighting Knife measuring 12" in overall length with a 7" bright blade showing various levels of surface oxidation in isolated areas. The brown leather grip exhibits a mottled patina and light wear. Included is a correct brown leather scabbard rating near very good with areas of discoloration, and strong stitching. The belt loop and grip strap are present but the snap does not function perfectly. (73634-28B)

2058. **BELGIAN BRITISH BULL DOG REVOLVER**, 44 Centerfire, 2 5/8" barrel with a pitted and oxidized bore. The metal surfaces are even gunmetal gray with scattered freckling and pin prick pitting. The grips are unmarked real ivory with a small chip missing from the toe of the left panel. They have mellowed to a nice cream and coffee coloration and there is evidence they have shrunk over time. Finally, there are a few tiny age and stress marks around the escutcheons. There is a five pointed star / R proof mark on the upper front of the frame and another mark on the lower left that is a not distinguishable. There is a Liege proof on the cylinder. The "H" in the word British appears to be over stamped. The action still functions but, the single action may need some attention. (86393-362) {C&R} (75/175)

2059. **BELGIAN BRITISH BULL DOG REVOLVER**, 44 CF, 3 1/4" barrel with an oxidized bore. The revolver retains about 99% of its reapplied blue finish. Many of the marks and the light engraving have been washed out by over-enthusiastic metal preparation for the re-blue. The grips are unmarked real ivory that still fit the gun well and have a nice cream color with coffee-colored streaks present. The grip maker never drilled the grip panels for the retention pin at the top and they tend to pivot out of alignment. This should be a fairly easy fix. There is a Liege proof on the cylinder and the upper left frame is marked F&C BtIs with most of the marking washed out. The revolver still fully functions. (86393-363) {C&R} (75/175)

2060

2060. **COLLECTOR'S MASTERPIECE EDITION G.I. JOE TOY SOLDIER** This new-in-box "Masterpiece Edition" features the familiar G.I. Joe trademark on the front with a depiction of "Joe" running with his Garand. The interior of lid has a short narrative on the history of G.I. Joe and explains the included book and of course "Joe" himself. In the right-side compartment is Joe along with his dog tag and hat; also a manual in the form of a U.S. Army field manual. The included book on Joe is by G.I. Joe creator John Levine with assistance from writer John Michlig and explains Joe's whole history from inception to adoption to the Hasbro line to the iconic toy he is today. The book and Joe rate excellent and are still-sealed in their original packaging. The outer cover shows a couple very minor scuffs but otherwise rates excellent. This 1996 offering is "volume 1", the G.I. Joe Army edition. Three other offerings were to be made, the Action Sailor; the Action Marine and Action Pilot. Depictions of these other offerings are seen on the rear of the box along with an identical depiction of Joe seen on the cover. A very seldom-encountered collectible in excellent plus overall condition. (36512-15)
2061. **BELGIAN SAFETY LEVER BULL DOG REVOLVER** serial #8932, 38 CF, 2 1/2" octagonal barrel with an excellent bore. This revolver retains about 99% of its blue finish on the barrel and cylinder and the case-hardened colors on the frame are quite robust with some light fading to gray on the lower right side of the frame. The birds head grips are walnut with light checkering on the back of the panels and the remainder being smooth. The grips are not correctly hand numbered to the gun but, are in near excellent condition with light dents and handling wear present. The trigger and hammer have been engine turned and exhibit light handling and operational wear. The revolver is equipped with a lever-operated safety on the left side of the frame and a lanyard ring on the butt. The revolver has Belgian proofs and * / W controller of proof marks. A very nice condition Bull Dog style revolver that is still fully functional. (86393-326) {C&R} (100/200)
2062. **BELGIAN BULL DOG STYLE REVOLVER**, 44 CF, 2 3/4" barrel with a lightly oxidized and pitted bore. The metal surfaces have been cleaned to pewter color with some scattered light oxidation blemishes present. The checkered walnut grips are in good to very good condition with moderate handling wear observed and the diamond points exhibiting moderate wear. The revolver is Belgian proofed on the cylinder with the only markings on the frame being a six pointed star / Z inspectors mark. The action does not properly function and is in need of professional attention. (86393-364) {C&R} (25/75)
2063. **REMINGTON-ELLIOT RING TRIGGER DERINGER PISTOL** serial #11705, 32 RF, 3 5/8" barrels. All four barrels on this unique pistol are in good to very good condition with light oxidation and pit present in each. The metal surfaces are devoid of any finish and are predominately a brown hue with the occasional blue finish present in protected areas. The smooth hard rubber grips are in very good condition with moderate handling wear and light denting at the bottom. There is play between the frame and barrels but the firing mechanism is still fully functional. (86393-343) {ANTIQUÉ} (300/500)
2064. **FRANCISCO ARIZMENDI IDEAL SEMI-AUTO PISTOL** serial #8118, 25 ACP, 1 7/8" barrel with an excellent bore. This pistol retains about 90% of its factory bluing with most of the loss to the top of the slide from a mottled mix of gunmetal gray and brown with scattered light pitting. The hard rubber grips are in very good condition with light to moderate handling wear. The pistol is marked: Pistolet Automatique "Ideal" with proof marks below it. Included is a single magazine. (86492-21) {C&R} (100/200)
2065. **MANHATTAN FIREARMS PEPPERBOX PISTOL** serial #116, .31 cal. percussion, 4" barrel. All six bores of the single rotating barrel exhibit light to moderate oxidation. This pistol is gunmetal gray with some bluing and thinning bluing present around the protected areas of the triggerguard and frame. There are a few pits present on the metal and varying degrees of slot screw damage on the screws. The smooth walnut grips are in very good condition with light to moderate scattered dents visible and they appear to have reapplied varnish. The hammer is marked Manhattan Firearms with a New York address. The barrel, frame, grips mainspring and hammer have correct matching serial numbers. This little gem still functions and is a nice representative sample of a Manhattan pepperbox. (86393-354) {ANTIQUÉ} (350/550)
2066. **UNMARKED EUROPEAN FLOBERT SINGLE SHOT PISTOL**, 5mm Rimfire, 8 1/4" barrel with moderate to heavy corrosion present in the bore. The metal parts are a mottled mix of brown and gunmetal gray with some light scattered pits at hand. The tang, barrel screw escutcheon, finger spur triggerguard and butt cap are accented with light scroll and dot engraving. The walnut stock is in good to very good condition with a pair of arched dual grooves running down each side of the grip ending with the matching buttcap and featuring a Schnabel forend. The stock has several large dents behind the tang and a 1/2" scuff to the left of the tang. There are two fine cracks on the forend of the stock. (86393-380) {C&R} (150/250)
2067. **SPANISH PERCUSSION COAT PISTOL MARKED EIBAR**, 62 cal. percussion, 2 1/2" barrel with an oxidized smooth bore. The metal surfaces appear to have been cleaned and are a fairly even pewter color with some random light pits and dark staining. The light engraving and other marks remain strong but, lightly washed out from the cleaning. The walnut stock is in good condition with scattered light dents and scratches. There is a crack running from the lock plate screw escutcheon to the barrel channel. The lock does not cock back more than 1/2" but, remains fully functional. A steel ramrod is included. (6393-329) {ANTIQUÉ} (100/200)

2068. **EUROPEAN SINGLE SHOT PERCUSSION PISTOL** serial #216, 38 cal. percussion, 7 1/8" smooth bore barrel with a near excellent barrel exhibiting faint oxidation. The barrel retains about 98% of its brown finish with case-hardened colors on the breech plug, lock plate and other furniture remaining strong with some light scattered fading noticed. The full length walnut stock is in good to very good condition with numerous dents, scuffs, scratches present and a small crack running from the barrel channel down through the lock screw escutcheon on the left side. The only markings observed are the serial number situated on the inside of the triggerguard. A wood ramrod is included. (6393-330) {ANTIQUE} (150/250)
2069. **MEDITERRANEAN FLINTLOCK COAT PISTOL**, 48 cal., 5" barrel with a corroded smooth bore. The metal surfaces are predominately a brown color with scattered pits and some isolated silvering from cleaning. The barrel has eight assorted geometric shaped brass inserts with heavily worn crude engraving running up the barrel. The full length stock is in fair condition with random scratches, nicks dents and handling wear. The pistolgrip has two cracks running around the circumference with four pins on the left side and three on the right side installed to help repair the cracks. The stock has also shrunk away from the butt cap at the base. A steel ramrod is included and the frizzen spring appears weak and in need of attention. (86393-332) {ANTIQUE} (50 150)
2070. **MAKAROV SEMI-AUTO PISTOL BY IMEZ** serial #BCK1311, 380ACP, 3 11/16" barrel with an excellent bore. The barrel appears to have some tool marks just forward of the chamber that were smoothed out during manufacture. The dull nickel finish is in excellent condition with about 99% remaining. The wrap-around rubber grips are also in excellent condition. This importer marked pistol includes a single magazine and an inside-the-pants holster. (86599-5) (150/250)
2071. **LLAMA SMALL FRAME SEMI-AUTO PISTOL** serial #655099, 22LR, 3 11/16" barrel with an excellent bore. This pistol retains about 98% of its factory bluing with light silvering on the high edges and some isolated pitting. The checkered plastic grips are in near excellent condition with some light handling wear observed. This small frame pistol features a windage adjustable sight, ventilated rib and 1911A1 controls. Included with the pistol are a Doskocil hardcase and a pair of magazines. (86599-7) (200/400)
2072. **STEVENS MODEL NO 35 OFFHAND SINGLE SHOT PISTOL** serial #38478, 22 S, L, LR, 6" barrel with an excellent bore. This pistol retains about 97% of its original dull blue finish with moderate silvering of the high edges and the smooth walnut stocks display very light handling wear. The hammer has been modified with the addition of a bead of weld on the rear to limit overtravel when cocking. There is a slight amount of play between the barrel and frame. (86588-7) {C&R} (300/500)
2073. **SAVAGE-STEVENS SHORT MAGAZINE LEE ENFIELD NO.4 MK I* BOLT ACTION RIFLE** serial #C1396, 303 British, 25" barrel with bright excellent two groove bore. Manufactured under Lend Lease program in 1942 receiver is marked "U.S. Property" with import marks. Exposed metal surfaces retain approximately 75% original thinning black arsenal finish with silvering on high edges. Standard length hardwood buttstock, lower forend and two piece upper forend rate excellent with minimal surface blemishes. Military leaf rear sight and dovetail front sight with protective ears are provided one detachable magazine is included. (116518-29) {C&R} (250/350)
2074. **HERBERT SCHMIDT LIBERTY 8 MODEL SINGLE ACTION REVOLVER** serial #50745, 22LR, 4 3/4" barrel with excellent bore. Metal surfaces retain 95% original blue/black thinning on the grip straps cylinder and barrel near the muzzle. There are a number of small nicks and handling marks visible throughout and minor damage to two screw heads. The two piece molded plastic checkered grips are in excellent condition showing no blemishes. Fixed sights are provided. This gun was manufactured in Germany as marked on the bottom of the barrel and the right grip. There is limited information available on this lot. (116562-11) (100/200)
2075. **SAVAGE-STEVENS SHORT MAGAZINE LEE ENFIELD NO.4 MK I* BOLT ACTION RIFLE** serial #98C0410, 303 British, 25" barrel with bright excellent bore. Manufactured under Lend Lease program this receiver is marked "U.S. Property" and has a flaming bomb stamped on the left side. Exposed metal surfaces retain approximately 98% original black arsenal finish with minimal silvering on high edges of receiver. Standard length hardwood buttstock, lower forend and two piece upper forend rate fine with a number of impact marks and abrasions concentrated on the buttstock. The rear upper forend piece is grooved to improve handling. The buttplate with trap is brass. Military Mk III leaf rear sight and dovetail front sight with protective ears are provided one detachable magazine is included. (116518-23) {C&R} (275/375)
2076. **ISHAPORE MODEL 2A1 BOLT ACTION RIFLE** serial #N8667, 7.62x51mm, 20" barrel with bright excellent bore. Exposed metal surfaces retain 99% plus original black arsenal finish. Two piece bolt with natural matte finish also in excellent condition. Manufactured in India at the Ishapore Arsenal receiver marked RFI and dated 1966. Long hardwood buttstock, lower forend and two piece upper forend rate excellent plus with minimal handling marks over original satin finish. Military leaf rear sight redesigned and graduated for new round. Dovetail front sight with combination bayonet lug sight protection similar to older SMLE rifles. Detachable ten round magazine included. (116518-16) (300/400)
2077. **SWISS VETTERLI MODEL 1878 BOLT ACTION RIFLE** serial #163159, 10.4x42mmR, 33" barrel with very good bore showing pitting in the grooves. Metal surfaces retain approximately 95% original blue finish with numerous visible areas of surface oxidation. Bolt handle as left bright has turned an oxidized plum brown. Receiver is marked Waffenfabrik Bern M:78 and all marked components correctly serial numbered. Iliion N.Y." in the reverse fuller, the lettering is soft along the edges and the last "Y" is missing. The metal surfaces are a mottled gray that is mixing with areas of light pitting. The wood grips are later replacements and grip features a hooked quillion guard. An about very good example overall. (46129-7C)
2159. **LOT OF BAYONETS** This lot consists of two, unmarked Czech model VZ 24 style Mauser bayonets with scabbards. Each measures 16 3/4" long and have 11 1/2" blades. Both have a mottled gray appearance, one has areas of light pitting, surface rust and a large missing chip in one of the grips. The other has light dings and minor dents to the wood. The included steel scabbards each have a few light dings, one has a moderately flaking enamel finish the other is a mottled gray. Both are in very good condition overall. (46129-7)
2160. **JAPANESE SWORD LOT** This lot consists of a set of three Japanese style Samurai swords with stand. First is the Katana which sits on top and measures 38" long with a 28" blade. Next is the smaller Wakizashi which is 29" and has a 20" blade. Finally is the Tanto, the smallest of the group, which measures 19" and has a 12" blade. All three have green grips and scabbards, the grips have a green and white wrap and gold colored pommels, tsubas, throat and tips. The tip is chipped on the Wakizashi scabbard and is missing on the Tanto. The stand is painted black. A very good to near excellent example of these decorative Samurai swords. (45298-2)

2161. **KNIFE LOT** This lot consists of a Ceremonial Spider dagger with stand. Measuring 13 1/4" long overall this almost scarab-looking fantasy knife features a 7 1/2" double edged blade with a long, thin pike in center that runs the entire length. The body has a skull head design and bug-like abdomen with a large set of pincers for a guard and blades at the tips of the legs. The knife fits securely into a circular base with a web designed pattern. An excellent example that will make an interesting centerpiece for your fantasy knife display. (45298-50)
2162. **KNIFE LOT** This lot consists of three fantasy knives with sheaths from Frost Cutlery. First is a Gil Hibben inspired knife that measures 15 1/2" long with an 8" blade. The dragon-esque shaped knife has a black and hard chrome grip and a black nylon sheath with sharpening stone. Second is an unmarked Bowie style knife that measures 15" long and has a 9" blade with serrations along the spine. The grip has an African lion design on either side with ethnic designs along the guard and pommel. It also includes a black nylon sheath. Third is called "The Beast" and is a similar design to the second knife in this lot. It measures 13" long with a 7 1/2" blade that also serrated along the spine. The grip has a brass lion shaped ring guard with composite insert and includes a black nylon sheath and the original box. All three are in excellent condition. (45298-5C)
2163. **KNIFE LOT** This lot consists of three fantasy knives from the Frost and Chipaway cutleries, each with a sheath. First is the Frost Cutlery knife which measures 17 3/4" long and has an 11 1/2" blade and green laminate wood grip. The stainless steel blade has long "shark's teeth" serrations along the spine and has a swept guard and pommel guards as well. A black nylon sheath is included. The second is a similar designed knife by Chipaway that measures 17 3/4" long with a 10 1/2" blade. The knife features a rainbow colored laminate wood grip with brass plated guard and pommel. A green leather sheath is included, the retention snap is broken. The third knife has more similar features to the second and has a 13" upswept, double edged blade with wide serrations along both sides and measures 19 1/2" overall. It too has the rainbow laminate wood and brass plated grip and includes a black nylon sheath. (45289-5A,K,N)
2164. **KNIFE LOT** This lot consists of three similarly designed fixed blade knives with black nylon sheaths from Frost Cutlery. The first measures 15 3/4" with a 9 1/2" fantasy blade with serrations down the spine and an overall shark-like design. The second measures 16" with a 9" blade with a slimmer style and finer serrations. The third is a Flying Falcon and measures 13 5/8" long with an 8 1/2" long blade. Each knife has a brown laminate wood grip of similar construction, but each is shaped slightly differently. All three are in excellent condition. (45298-5B,E,F)
2165. **WORD LOT** This lot consists of three fantasy short swords by Frost Cutlery. First is a Dragon Custom that measures 22 1/2" long and has a 14" curved, flame-like blade. The dragon's head grip has a red laminate wood center and dragon guards. Included are the original box and black nylon sheath. Next is a Little Gladiator sword that measures 20 1/4" long and has a 14 1/2" chromed blade. The grip has simple Greek and Roman style designs. Included are the original box and composite bodied scabbard. Third is an ornate short sword that measures 25 1/2" long with an 18 1/2" double edged, stainless steel blade. The grip has medieval and Egyptian style designs, while the scabbard has more of an oriental look. All three are in excellent to like new condition. (45298-5K,L,M)
2166. **KNIFE LOT** This lot consists of three sporting style fixed blade knives. First is a Bowie-styled knife with sheath with a coffin-style grip and measures 14" long overall and has a 9 1/4" stainless steel blade with an etched caribou design. The blade has a few spots of very light surface oxidation and has a jugged bone grip with lightly tarnish brass guard, liners and spacers. A leather sheath is included. Second is an 11" long knife with a 6 1/2" stainless steel clip point blade in similar condition. The knife has laminate wood grips and minor abrasions to the brass. It too includes a leather sheath. Lastly is a Frost Cutlery blacktail deer hunter knife with nylon sheath and in the original box. The knife measures 9 3/4" long and has a 5 1/2" drop point matte steel blade. The knife features orange colored laminate wood grips and is in like-new condition. The first two knives are made in Pakistan the third is a product of China. (45298-5D,G,J)
2167. **CAVALRY LOT** This lot consists of a brown leather standard or flag holder. The boot measures 10 1/2" long and has a tapered opening with an about 1" inside diameter opening. The bottom flap is marked "Made In England" and has a loop which may be to secure to a stirrup strap. The top strap has some light crazing and is stiff and will need proper oiling before use. There are remnants of a smaller strap from the top of the boot that is now missing. An excellent example otherwise. (45535-6A)
2168. **LOT OF MILITARY RIFLE AMMO POUCHES** This lot consists of (8) military stripper clip pouches. Each pouch is constructed of brown leather with two pockets per pouch measuring approximately 6"x4 1/2". These pouches are WWII era issue, most probably Czech. The exterior leather surfaces exhibit wear consistent with age with no markings visible. The stitching remains sound. Each pocket features a top flap with brass stud closure. The reverse features two leather belt straps and a metal D-ring for harness attachment. This lot is in very good condition overall and will make an excellent addition for the hunter or collector. (66129-4B4)
2169. **LOT OF MILITARY RIFLE AMMO POUCHES** This lot consists of (8) military stripper clip pouches. Each pouch is constructed of brown leather with two pockets per pouch measuring approximately 6"x4 1/2". These pouches are WWII era issue, most probably Czech. The exterior leather surfaces exhibit wear consistent with age with no markings visible. The stitching remains sound. Each pocket features a top flap with brass stud closure. The reverse features two leather belt straps and a metal D-ring for harness attachment. This lot is in good to very good condition overall. (66129-4B6)
2170. **LOT OF AMMUNITION** This lot consists of a bandoleer with six pockets containing (10) five round stripper clips of 7x57mm Spanish round nose ammunition. The head stamp exhibits "PS/1920". The exterior metal surfaces exhibit varying degrees of tarnish with some cartridges exhibiting small amounts of verdigris. This ammunition will make a nice addition for the ammunition collector. (66129-4A3)
2171. **LOT OF 8 MM MAUSER AMMUNITION** 205 rds. of military ball ammunition total: (85) rds. brass case and (120) rds. of steel case cartridges, both loaded in five round stripper clips. The ammunition rates fine to near excellent with light tarnish on the cases. (56378-12A)
2172. **LOT OF AMMO CRATES** (1) M2 ball wooden ammo crate measuring approximately 15"x10 1/2" with black lettering still clearly visible denoting contents. The crate also exhibits the flaming bomb denoting ordnance and Springfield Armory symbols. This crate contained 30-06 ammo on five round stripper clips inside bandoleers. The exterior exhibits scuffs and the occasional bruise consistent with age. The lid is absent, with this lot in very good condition overall; (1) empty wooden ammo crate measuring approximately 15 1/2"x8 1/2". The crate's exterior has light overall wear and exhibits black paint with yellow stenciled lettering addressed to the Century Arms in St. Albans, VT. The crate features two rope handles with the lid absent. This lot is in very good condition overall and would make an excellent storage bin for the reloader or collector. (66129-4 A8,A4)
2173. **OLD LEATHER TAKEDOWN SHOTGUN FOLDING CASE** This case is the old style two part case where one part houses up to a 30" barrel and forearm and the other holds the action. The action side shows lots of scuffs and marks with a hole evident at the bottom whereas the barrel sleeve is actually in very good condition with a clean surface and reinforced toe. The fleece lining is flat but intact in the barrel sleeve but it is more worn away in the action compartment. All the straps and buckles are good including the handle. A neat old case which could easily be resurrected. (114420-2)
2174. **CABELAS TAKEDOWN GUN CASE** This green canvas case provides two padded fleece lined compartments, one for up to 30" barrels and the other for the stock and action. The bottom is reinforced with leather and there is a leather carry strap with zippered opening. The case shows some very light soiling but remains in very good condition. (115783-2)
2175. **LEATHER LEG-O-MUTTON BREAKDOWN SHOTGUN CASE** This solid leather case will take up to a 30" over/under or side by side barrel. The exterior shows scuffs and stains with lightly frayed edges and some flaking but remains solid. The strap which holds the cap in place is broken but the carry handle and carry strap are present showing some frayed edges and dry leather. The interior is unlined and has a solid leather partition to separate barrels and stocked action. A classic American gun case. (114299)

2176. **LEATHER DOUBLE ENDED SHOTGUN CASE** This case measures 33"x8" and has a compartment for up to a 32" barrel on one end and a compartment for a stock and action on the other, both with leather covers secured by leather straps. The brown exterior shows some scuffs and edge wear but remains in very good condition. There is a leather covered handle and rings for a shoulder strap. A handy case for a break down shotgun. (116393-389E-2)
2177. **COLT COLLECTORS LOT** This lot consists of two Colt 1996 catalogs; one "Firearms," one "Colt Wear and other Collectibles" along with the corresponding retail and dealer price lists and a "valued dealer" letter from Colt. A full-color Colt Custom Gun Shop catalog is included along with price list and ordering instructions. Also is a point-of-sale promotional placard announcing "Free Cleaning Kit". This stand-up placard also comes with 5 claim forms to receive your Colt cleaning kit after the purchase of any Colt O-frame pistol, along with the dealer letter about the program. The next item is really cool...it is a Christmas card from Colt to their warranty service center, personally signed by the four Colt Customer Service reps at the time; postmarked Dec. 18, 1990. Also included are two sew-on Colt patches; one oval with the Colt logo, white blue and gold, the other circular with Rampant Colt surrounded by "Colt's Firearms Hartford Conn." in identical colors. The next item is a Colt button, also from the shot show, in 198?. Button has the Colt logo in white lettering against a blue field on the upper half while the lower half reads in red and blue lettering "Made Only in the USA" against a white background. There is a blue and red ribbon suspended below this. Lastly is a nice metal Rampant Colt tie-tack, pewter in color in a plastic storage box. Overall a nice little lot for the Colt collector with some unique items for the enthusiast. (36512-5F)
2178. **LOT OF GUN ADVERTISING** Gun company catalogs from Marlin Firearms. This is a sealed box of Marlin 1994 sporting firearms catalogs. Top features the horse and rider with shotgun logo and the legend "Marlin America's Largest Riflemaker" with their North Haven CT address. The box rates excellent overall with shipping label intact. The 1994 catalog celebrated the 100th anniversary of what else?—The Marlin 1894. There is an image of the arm on the cover with a Philip Goodwin print of two voyageurs in a canoe, Marlin rifle leaning against the gunwale. This cataloger has no idea how many are in a box; perhaps 30? The box is 2 3/8" thick and as-mentioned is still sealed. A neat lot for the Marlin collector. (36512-5D)
2179. **LOT OF GUN ADVERTISING** Ammunition company catalogs from Winchester. A full sealed box of 1996 "Winchester Ammunition Product Guide" catalogs, quantity 50. Cover features an image of the Winchester Horse and Rider on a bone rawhide bolo tie with bone-tips, flanked by a Winchester Supreme rifle cartridge and shotgun and handgun cartridges. The box is excellent without shipping label and still sealed. A neat seldom-encountered lot for the true Winchester collector. (36512-5E)
2180. **DAVE HALL IMPROVED 6X37 SHOOTING KIT** This kit includes an assortment of sizers, seaters, cappers, decapper pins and other small tools in a green RCBS plastic box; (1) small allen wrench set; (1) chamber brush with wood handle; (2) boxes of Federal small rifle primers (one is partial); (1) handheld capper. (1) unknown T-handle tool; (1) plastic bag of bore brushes; (1) International Benchrest Shooter handbook; (1) partial box of bullets; (2) threaded round brass bars; (1) 7 3/4" muzzle protector cleaning tool; (2) wood handle turn screws and (1) unknown 10" aluminum rod with two cylindrical ends, one of which has a protective felt pad. Kit is housed in a metal Master Mechanic tool box. (56106-501) [Warren Greatbatch Collection]
2181. **MANN TEST BARREL** This is a 7 mm, 24" barrel with a bright excellent bore. Intended to be used in a Mann style test machine with a V-shaped barrel rest for the purpose of testing the accuracy and consistency of various bullet weights, powders and load combinations. The barrel is in-the-white fading to dark gray mainly on one side with scattered light freckling, handling marks and specks of fine pitting and oxidation staining. (56106-503) [Warren Greatbatch Collection]
2182. **LYMAN POLAROID TUBE SIGHT** The tube measures 16 3/8" only and retains 95-97% original blue with light handling marks, scuffs and a few specks of light oxidation. The tube sight is in very good condition overall and does not include the mounts, sight disc or inserts. A fair condition unmarked plain two piece cardboard box with scuffed torn edges, dirt staining and missing endflap, along with a separated instruction sheet with torn, stained edges is included. (56106-522) [Warren Greatbatch Collection]
2183. **QUALITY WARNER TOOL COMPANY SIGHT** This is a Warner Tool Company #1 fully adjustable aperture receiver sight. The sight is as-new and shows no evidence of ever having been mounted. It is numbered on its bottom "WTC/910-912". The sight comes with instructions and parts list and is in its original shipping box. There is a brass aperture adapter (bushing) in place, no aperture is present. An absolute top-quality target receiver sight for the serious competitive shooter. (36106-741) [Warren Greatbatch Collection] (250/450)
2184. **EUROPEAN SWISS STYLE BUTTPLATE** This older steel crescent shaped steel buttplate has a finial tipped semi-cylindrical toe that is covered in a crazed flaking leather wrapped in thin linen cord, the mounting hardware and heel tip are no longer present. The metal is a dark gray brown with a modest covering of light oxidation. Attached to the buttplate is an old tattered mailing label from Charles Pope to Ray Smith with canceled postage stamps. Fading but matching names are written on the buttplate in old white grease pencil. (56106-689) [Warren Greatbatch Collection]
2185. **VINTAGE UNMARKED POCKET REAMER** (1) unmaker older pocket reamer for military crimps and rough edges from primer pockets. In fine condition overall with a lightly turned wooden handle and brass ferrule. (56106-666) [Warren Greatbatch Collection]
2186. **COLT BARREL LOT** This lot consists of (1) Colt, first generation, Single Action Army barrel that has been reamed to a tapered smooth bore. The barrel tapers from approximately .470" at the rear to approximately .445" at the muzzle. The barrel still has the ejector rod stud attached and the front sight. There are no visible markings on the barrel and the threads appear in excellent condition. The finish is gunmetal gray with light oxidation blemishes, and scattered dents, dings and scratches. A good smoothbore barrel for an Antique-only S.A.A. (85896-11A)
2187. **G.I. BORE CLEANER LOT** This lot consists of (1) one gallon can of "Cleaner-Rifle bore (CR)" manufactured by R.M. Hollingshead Corp. of Camden, N.J. The paint and markings on the can are in near excellent condition with light oxidation present on the unpainted top, and light scratches and scuff present on the remaining surfaces. The can appears to be full or near full of the cleaner. The condition of the cleaner cannot be determined. (83081-GIS1)
2188. **LOT OF ANTIQUE SHOTHELL RELOADING TOOLS** This lot contains a 12 ga. Wood-handled roll crimping tool, a steel priming tool for 12 gauge, a powder measure with wooden handle marked "BGI CO." on the bottom, a screw-on choke device for a 12 gauge shotgun, and an unknown wooden handle device with round metal head. (115872-33)
2189. **BRASS AND BULLET LOT** This lot consists of a tin containing approximately 60, 230 grain flat point bullets measuring .337", 12 old tarnished brass cases in a smaller tin marked 33-40 Pope, 42 empty brass 32-40 Winchester and UMC brass showing heavy oxidation, 7 loaded 32-40 tarnished cartridges, and a decapping tool. (115161-7)
2190. **CARTRIDGE BOARD OF MISCELLANEOUS SHOT SHELLS** This 12"x16" heavy cardboard display case has 20 compartments done in a red velvet and holds 22 old shot shells. There are twelve 12 gauge paper shells from Remington, Winchester, American Eagle, J. C. Higgins, Peters, and one Polish shell. There is one 16 gauge Peters cartridge, one .410 Remington Peters plastic cartridge, one unmarked paper case dummy shell, and seven 20 gauge cartridges from Remington, Peters, Canuck, Federal, and one Rottweil. This case has a glass cover and there is plenty of room for more shells. (115300-15)

2191. **RIFLE STOCK LOT.** Lot includes a modified checkered wood pistolgrip stock for bolt action rifle. The stock rates good, demonstrating substantial faint scratching and dings, as well as some instances of scuffing. The checkering along the forend rates near excellent, but the original pistolgrip checkering remains negligibly intact. The wood comprising the pistolgrip area has been whittled down to a rough condition with wood putty present along the grip area on the right side. The stock does not include a buttplate or pad, but does come with a canvas gun sleeve. (135045-8)
2192. **H. M. POPE HEAVY RIFLE BARREL** This 22 RF barrel measures 30" long and 1" in diameter with a bright excellent bore. It exhibits a brown and gray patina with a few scratches. The top of the barrel has a pair of half-moon scope mount slots at the breech and another pair about 7" up the barrel and it is stamped "H. M. Pope" between them. The bottom of the barrel has 4 drilled and tapped holes in a 1 1/2" line and is marked "250, 25/0, 8/10/11", and "H. M. Pope". (116020-B1)

2193

2193. **A. H. FOX TOY DOUBLE GUN.** This toy gun was made by the Fox Gun Company in Philadelphia around the mid to late 1920's. The 16" barrels retain about 50% of a flaking black paint showing scattered oxidation spotting and the frame and forearm exhibit 60 to 70% of a more subdued black paint which is also flaking with spots of oxidation. On the bottom of the stamped metal frame is "A. H. Fox Gun Company, Phila, PA., U. S. A., Pats Pend on Gun and Shell". The wood stock is carved with a round knob grip and has a 12" length of pull to a plain wood butt. It rates very good showing scattered dings and scratches with chipping evident around the action. The gun has two operable triggers and top lever and comes with two metal cartridges about 20 gauge in diameter and 3 5/16" long in size which are tarnished. The gun was made to fire wooden pellets. It does not cock. A rare piece of American gun history. (116418-16) (250/450)
2194. **CONTEMPORARY BRASS BATTY PEACE POWDER FLASK** This flask measures 7 1/2" long and 4" wide and is embossed with a heraldic eagle, clasped hands, and US on a stand of arms on both sides. The flask shows some heavy tarnish around one of the suspension loops and some lighter tarnish on the same seam below. The charger is straight without markings and the cut-off and spring work fine. (114048-13A)
2195. **HOLSTER LOT** This lot consists of 6 leather holsters including a French Police MAS Model 1950 black leather holster in excellent condition, a Marbles 10 1/2" flap holster showing scuffs and stains with some repaired belt loop fasteners, an unmarked 11" leather flap holster with worn tooled border showing some staining, a tooled leather Black Sheep 10 1/2" holster with strap in good condition, an 8" Red Head holster with strap showing some scuffs, and a small custom leather open top holster with leather lacing in good condition. (116372-9)
2196. **LOT OF THREE HOLSTERS** This lot consists of one Smith & Wesson black nylon right hand holster for a semi auto pistol measuring 7" overall in excellent condition, a small black quality leather holster with strap measuring about 6" overall in very good condition, and a tooled leather Redhead brand right hand holster with strap measuring 8" overall and showing a few scuffs and some edge wear. (116363-60)
