Office of Fossil Energy

List of Electric and Gas Utilities Covered
in 1991; Notice

DEPARTMENT OF ENERGY

Office of Fossil Energy

[Docket No. FE-R-79-43B]

Electric and Gas Utilities Covered in 1991 and Requirements for State Regulatory Authorities to Notify the Department of Energy

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice.

SUMMARY: Sections 102(c) and 301(d) of the Public Utility Regulatory Policies Act of 1978 (PURPA) require the Secretary of Energy to publish a list, before the beginning of each calendar year, identifying each electric utility and gas utility to which titles I and III of PURPA apply during such calendar year. The 1991 list is published here as two separate tabulations. Appendix A lists the covered utilities by State and appendix B lists them alphabetically.

Each State regulatory authority is required, pursuant to sections 102(c) and 301(d) of PURPA, to notify the Secretary of Energy of each electric utility and gas utility on the list for which such State regulatory authority has ratemaking authority. In addition, written comments are requested on the accuracy of the list of electric utilities and gas utilities.

DATES: Notifications by State regulatory authorities and written comments must be received by no later than 4:30 p.m. on February 15, 1991.

ADDRESSES: Notifications and written comments should be forwarded to: Department of Energy, Office of Coal and Electricity, FE-52, 1000 Independence Avenue, SW., room 3F-070, Docket No. FE-R-79-43B, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Steven Mintz, Office of Coal and Electricity, Fossil Energy, Department of Energy, 1000 Independence Avenue, SW., Room 3F-070, FE-52, Washington, DC 20585 Telephone, 202/586-9506.

SUPPLEMENTARY INFORMATION:**I. Background**

Pursuant to sections 102(c) and 301(d) of PURPA, Public Law 95-617, 92 Stat. 3117 *et seq.* (16 U.S.C. 2601 *et seq.*), hereinafter referred to as the "Act," the Department of Energy (DOE) is required to publish a list of utilities to which titles I and III of PURPA apply in 1991.

State regulatory authorities are required by the Act cited above to notify the Secretary of Energy as to their ratemaking authority over the listed utilities. The inclusion or exclusion of any utility on or from the list does not

affect the legal obligations of such utility or the responsible authority under the Act.

The term "State regulatory authority" means any State, including the District of Columbia and Puerto Rico, or a political subdivision thereof, and any agency or instrumentality, which has authority to fix, modify, approve, or disapprove rates with respect to the sale of electric energy or natural gas by any utility (other than such State agency). In the case of a utility for which the Tennessee Valley Authority (TVA) has ratemaking authority, the term "State regulatory authority" means the TVA.

Title I of PURPA sets forth ratemaking and regulatory policy standards with respect to electric utilities. Section 102(c) of title I requires the Secretary of Energy to publish a list, before the beginning of each calendar year, identifying each electric utility to which title I applies during such calendar year. An electric utility is defined as any person, State agency, or Federal agency that sells electric energy. An electric utility is covered by title I for any calendar year if it had total sales of electric energy for purposes other than resale in excess of 500 million kilowatt-hours during any calendar year beginning after December 31, 1975, and before the immediately preceding calendar year. An electric utility is covered in 1991 if it exceeded the threshold in any year from 1976 through 1989.

Title III of PURPA addresses ratemaking and other regulatory policy standards with respect to natural gas utilities. Section 301(d) of title III requires the Secretary of Energy to publish a list, before the beginning of each calendar year, identifying each gas utility to which title III applies during such calendar year. A gas utility is defined as any person, State agency, or Federal agency, engaged in the local distribution of natural gas and the sale of natural gas to any ultimate consumer of natural gas. A gas utility is covered by title III if it had total sales of natural gas for purposes other than resale in excess of 10 billion cubic feet during any calendar year beginning after December 31, 1975, and before the immediately preceding calendar year. A gas utility is covered in 1991 if it exceeded the threshold in any year from 1976 through 1989.

In compiling the list published today, the DOE revised the 1990 list (54 FR 53802, December 29, 1989) upon the assumption that all entities included on the 1990 list are properly included on the 1991 list unless the DOE has information to the contrary. In doing this, the DOE took into account information included

in public documents regarding entities which exceeded the PURPA thresholds for the first time in 1989. The DOE believes that it will become aware of any errors or omissions in the list published today by means of the comment process called for by this Notice. The DOE will, after consideration of any comment and other information available to the DOE, provide written notice of any further additions or deletions to the list.

II. Notification and Comment Procedures

No later than 4:30 p.m. on February 15, 1991, each State regulatory authority must notify the Department of Energy in writing of each utility on the list over which it has ratemaking authority. Five copies of such notification should be submitted to the address indicated in the "ADDRESSES" section of this Notice and should be identified on the outside of the envelope and on the document with the designation "Docket No. FE-R-79-43B." Such notification should include:

1. A complete list of electric utilities and gas utilities over which the State regulatory authority has ratemaking authority;
2. Legal citations pertaining to the ratemaking authority of the State regulatory authority; and
3. For any listed utility known to be subject to other ratemaking authorities within the State for portions of its service area, a precise description of the portion to which such notification applies.

All interested persons, including State regulatory authorities, are invited to comment in writing, no later than 4:30 p.m. on February 15, 1991, on any errors or omissions with respect to the list. Five copies of such comments should be sent to the address indicated in the "ADDRESSES" section of this Notice and should be identified on the outside of the envelope and on the document with the designation "Docket No. FE-R-79-43B." Written comments should include the commenter's name, address and telephone number.

All notifications and comments received by the DOE will be made available, upon request, for public inspection in the Freedom of Information Reading Room, Room 1E-190, 1000 Independence Avenue SW., Washington, DC 20585, between the hours of 9 a.m. and 4 p.m. Monday through Friday, except Federal holidays.

III. List of Electric Utilities and Gas Utilities

Appendices A and B contain two different tabulations of the utilities that meet PURPA coverage requirements. As stated above, the inclusion or exclusion of any utility on or from the lists does not affect its legal obligations or those of the responsible State regulatory authority under PURPA.

Appendix A contains a list of utilities which are covered by PURPA. These utilities are grouped by State and by the regulatory authority within each State. Also included in this list are utilities which are covered by PURPA but which are not regulated by the State regulatory authority. This tabulation, including explanatory notes, is based on information provided to the DOE by State regulatory authorities in response to the December 29, 1989, Federal Register notice (54 FR 53802) requiring each State regulatory authority to notify the DOE of each utility on the list over which it has ratemaking authority, public comments received with respect to that notice, and information subsequently made available to the DOE.

The utilities classified in appendix A as not regulated by the State regulatory authority in fact may be regulated by local municipal authorities. These municipal authorities would be State agencies as defined by PURPA and thus have responsibilities under PURPA identical to those of the State regulatory authority. Therefore, each such municipality is to notify the DOE of each utility on the list over which it has rulemaking authority.

In appendix B, the utilities are listed alphabetically, subdivided into electric utilities and gas utilities, and further subdivided by type of ownership: investor-owned utilities, publicly-owned utilities, and rural cooperatives.

The changes to the 1990 list of electric and gas utilities are as follows:

Clifford P. Tomaszewski,
Acting Deputy Assistant Secretary for Fuels Programs, Office of Fossil Energy.
