

1949 Chrysler Town & Country

Highly regarded as the "most elegant Woody ever," the Chrysler Town & Country reflected the high style of the late 40s and early 50s, with its coveted convertible top and beautiful lacquered mahogany wood siding. After the Second World War, Chrysler introduced its all-new post-war styling - light and delicate decorative trim.

This classic Seafoam Green beauty in particular is powered by a 323 c.i. straight 8-cylinder, 135-hp engine and Fluid Drive transmission.

It's a real survivor, in very good condition and is certainly worthy of a detailed restoration - or simply enjoy it as it is. Only 1,000 Town & Country convertibles (and, oddly enough, 1 hardtop) were produced in 1949, and this one has just 87,736 original miles.

*Descriptions/info regarding vehicles is believed accurate based upon documentation available at time of posting which we will gladly share with you. We strongly encourage you to engage an independent motor vehicle inspection expert or service prior to purchase. All vehicles are subject to prior sale, sold "as is," without warranties of merchantability and/or fitness for a particular purpose.
