Ready for anything.

**READY**

**TO LEAD**

# Groundbreaking. Game-changing.

Over 120 years of leadership brought us to this. The Sprinter is an innovative van with a unique inspiration. It's not about us – it's about you. It's the van you would build. Modular. Customizable. Scalable. With hundreds of variations and solutions so you can create a vehicle that's ready to meet your needs today and tomorrow. It has the brawn to get the job done and the brains to help keep you safe, connected, and cost-efficient along the way. The Sprinter is ready for anything.

## OVER 120 YEARS OF VAN INNOVATION

**1896**

Benz company invents the motorized van, dubbed a "combination delivery vehicle."

**1929**

Introduction of the Mercedes-Benz L 1000 Express van.

**1956**

Mercedes-Benz introduces the L 319 and reinvents the light truck segment.

**1967**

Mercedes-Benz introduces a new large-capacity van, the L 406 D.

**1977**

Mercedes-Benz launches a new light van lineup, internally called the TN or T 1.

**1986**

Mercedes-Benz presents a new van range, internally called the T 2.

**1995**

The first-generation Sprinter Van launches in Europe and wins "International Van of the Year."

**2006**

The second-generation Sprinter enters the European market.

## MERCEDES-BENZ VANS COME TO THE US

**2010**

The Mercedes-Benz Sprinter enters the US market.

**2015**

The mid-size Mercedes-Benz Metris enters the US market.

**2018**

The Sprinter brings an entirely new concept to the large van segment.

**READY**

**FOR YOU**

# This is your van.

The Sprinter is the next chapter in your success story. We took the leader in safety to the next level with active and passive technology like Active Brake Assist<sup>1</sup>, and options such as Traffic Sign Assist,<sup>31</sup> ATTENTION ASSIST,<sup>2</sup> and the segment-exclusive Blind Spot Assist<sup>3</sup> with Rear Cross-Traffic Alert.<sup>4</sup> We refined the Sprinter's operating efficiency even more to help keep your total cost of ownership low, and gave you more flexibility by adding a turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed transmission as standard equipment.\*

The Sprinter's design evolution features a reshaped grille, fenders, lights, and rear window. The cabin area redefines comfort with ergonomic seats and a redesigned instrument cluster. The Sprinter takes connectivity into the future with an optional MBUX (Mercedes-Benz User Experience) Multimedia System<sup>16</sup> and advancements that include optional wireless internet access,<sup>21</sup> Live Traffic Information,<sup>17</sup> and the standard Mercedes-Benz Emergency Call System.<sup>15</sup> To monitor your operation, the B2B connectivity services ecosystem can help keep you in touch with your business like never before. The Sprinter is where innovative mobility solutions meet classic Sprinter advantages – for your benefit.

## ADVANCED CONNECTIVITY

## INNOVATIVE CONCEPT

## BOLD DESIGN

**READY**

**WITH PURPOSE**

# From South Carolina – The Sprinter

From performance and durability to capacity and cargo space, there are so many reasons why the Sprinter is a smart investment. But here's one more: our state-of-the-art, \$500 million facility in North Charleston, SC, is now home to up to 1,300 skilled workers committed to helping assemble one of the most advanced vehicles on the road today.

**READY**

**WITH SAFETY**

With safety,  
we're ahead from  
every angle.

When we built the Sprinter, we didn't just aim to set a new benchmark for vans – we set out to make one of the safest vans on the road, period. To accomplish this lofty goal, we brought all of our legendary knowledge, research, and development to the task. **Because in the end, when it comes to protecting you and your passengers from danger, no standard is too high.**

## SAFETY FEATURES

**ACTIVE BRAKE ASSIST<sup>1</sup>** This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning followed by initiating autonomous braking.

**ACTIVE DISTANCE ASSIST DISTRONIC<sup>5</sup>** This intelligent cruise control system senses traffic conditions and actively controls your speed to keep you at a safe distance.

**360° CAMERA<sup>6</sup>** When the Reverse gear is selected, this visual parking aid uses four digital cameras to generate various views of the vehicle's surroundings and show them in real time on the multimedia display.

**ATTENTION ASSIST<sup>2</sup>** helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

**BLIND SPOT ASSIST<sup>3</sup>** has Rear Cross-Traffic Alert (RCTA)<sup>4</sup> which employs automatic braking to avoid a collision with traffic crossing the vehicle's path (e.g., vehicles or pedestrians) when reversing.

**CROSSWIND ASSIST<sup>7</sup>** helps stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps ensure that your vehicle remains in its lane at highway speeds.

**HILL START ASSIST** briefly stops the vehicle from rolling backward or forward, giving you an extra level of safety and confidence when making a hill start. Hill Start Assist maintains brake pressure for approximately two seconds, so you can remove your foot from the brake pedal without rolling.

**ACTIVE LANE KEEPING ASSIST<sup>10</sup>** can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

With **RESCUE ASSIST<sup>SM</sup>** first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

**DRIVER AND PASSENGER AIRBAGS<sup>9</sup>** The driver and passenger front, thorax, and window airbags<sup>9</sup> help protect you and your passengers in the event of a collision. Sprinter airbags shown are from Model Year 2014.

**TRAFFIC SIGN ASSIST<sup>31</sup>** uses a camera to give drivers additional help with identifying speed restriction signs, No Passing zones, and No Entry signs.

**LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP)<sup>8</sup>** This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels, and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

**HIGHBEAM ASSIST<sup>SM</sup>** adjusts the high- and low-beam headlamps automatically, allowing for continuous adaptation to the prevailing traffic situation. The system helps ensure better and earlier recognition of the course of the road.

READY

FOR PERFORMANCE

# Ready to power your business.

Performance is about having the horsepower, torque, and hauling capabilities to handle whatever you have to do. The Sprinter gives you that confidence, and the flexibility to choose between two drivetrains. You can have turbocharged muscle and the convenience of gasoline in one package with a 4-cylinder turbocharged gasoline engine mated to an industry-leading 9G-TRONIC 9-speed transmission as standard equipment.\* And for diesel fans, there's 4-cylinder diesel and 6-cylinder diesel engines with a 7G-TRONIC 7-speed transmission.<sup>1†</sup>

A 3.0L V6 turbo diesel engine<sup>1†</sup> with 7-speed transmission is also available. If you don't want bad weather or road conditions to stop you from getting to work, go for the optional 4x4 drivetrain with on-demand 4-wheel drive.

*"...the tried-and-true 3.0-liter V6 turbo diesel...strong pulling power, good fuel economy, and proven longevity."*

— KELLEY BLUE BOOK'S KBB.COM<sup>†</sup>

<sup>†</sup> From 2014 Mercedes-Benz Sprinter 3500 Cargo Review on Kelley Blue Book's KBB.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc.

## THE EFFICIENCY OF DIESEL. THE CONVENIENCE OF GAS. IT'S YOUR CHOICE.

### 3.0L 6-CYLINDER TURBO DIESEL (V6)<sup>1†</sup>

CONFIGURATION: DOHC  
INDUCTION SYSTEM: Common-Rail-Direct-Injection (CDI)  
BORE/STROKE: 83.0 mm/92.0 mm  
HORSEPOWER @ RPM: 188 hp @ 3,800 rpm  
TORQUE: lb-ft @ RPM: 325 lb-ft @ 1,400-2,400 rpm  
TRANSMISSION: Automatic Transmission, 7G-TRONIC Plus

### 2.0L 4-CYLINDER DIESEL (I4)<sup>1†</sup>

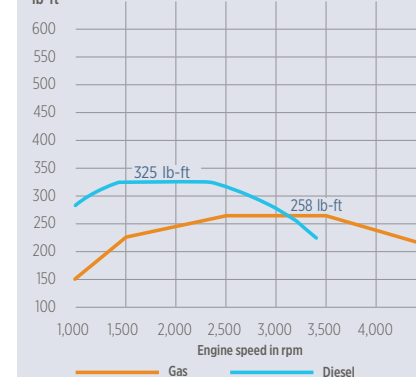

CONFIGURATION: DOHC  
INDUCTION SYSTEM: Common-Rail-Direct-Injection (CDI)  
BORE/STROKE: 83.0 mm/99.0 mm  
HORSEPOWER @ RPM: 161 hp @ 3,800 rpm  
TORQUE: lb-ft @ RPM: 266 lb-ft @ 1,400-2,400 rpm  
TRANSMISSION: Automatic Transmission, 7G-TRONIC Plus

### 2.0L 4-CYLINDER TURBO GASOLINE\*<sup>†</sup>

CONFIGURATION: DOHC  
INDUCTION SYSTEM: Bosch injection (200 bar)  
BORE/STROKE: 83.0 mm/92.0 mm  
HORSEPOWER @ RPM: 188 hp @ 5,000 rpm  
TORQUE: lb-ft @ RPM: 258 lb-ft @ 2,500-3,500 rpm  
TRANSMISSION: Automatic Transmission, 9G-TRONIC

Torque curve:  
Torque in lb-ft

## TORQUE: IT'S WHAT'S INSIDE THAT COUNTS.

Horsepower numbers are fine, but torque is what your van needs to get up to speed. What's also important is the rpm at which the peak torque numbers come in. Notice how the Sprinter's peak torque comes in at 1,400 rpm—just above an idle. This means that you'll be at peak torque quickly—and moving from a standing stop efficiently.

**READY**

**WITH EFFICIENCY**

# Higher satisfaction. Lower cost of ownership.

When you're looking at a commercial van, there are two cost factors to consider: the cost to buy it and the cost to own it. The Sprinter is designed to deliver cost effectiveness that lasts for years. Combine this with the van's legendary durability, and the Sprinter will keep your day-to-day costs down and your productivity up – ultimately helping your whole company run more smoothly.

In addition to lowering your total cost of ownership, the Sprinter helps keep drivers efficient and productive with amenities such as:

- Ergonomic seats with lowered sides and lumbar supports
- Comfortable pedal position
- Elimination of display reflections in windscreen
- Optimized noise reduction
- Increased steering wheel adjustability
- Multiple rear-step variations

## GASOLINE ENGINE

The Sprinter offers a turbocharged 4-cylinder gasoline engine with Direct Injection and 258 lb-ft of torque as standard equipment.\*

## EFFICIENT DIESEL ENGINES

### 6-CYLINDER DIESEL ENGINE (V6)<sup>11</sup>

With turbocharged power, 325 lb-ft of torque, and diesel fuel economy, the Sprinter's impressive 6-cylinder engine delivers power and durability in one compact package.

### 4-CYLINDER DIESEL ENGINE (I4)<sup>11</sup>

One of the most popular engine models in Sprinter history, the 4-cylinder diesel balances low fuel consumption, low emissions, and low noise and vibration levels with high torque and high elasticity at low speeds.

### 7G-TRONIC PLUS 7-SPEED AUTOMATIC TRANSMISSION

The low first gear and overdrive high gear in the Sprinter's 7-speed automatic transmission help you accelerate from a stop and conserve fuel on the highway.

### 9G-TRONIC 9-SPEED AUTOMATIC TRANSMISSION

This transmission is a first for the segment and features rapid response, a smooth transition between gears, and efficient highway driving.

### UP TO A 20,000-MILE SERVICE INTERVAL<sup>12</sup>

The Sprinter's Best-in-Class service intervals of up to 20,000 miles<sup>12</sup> for diesel and up to 15,000 miles<sup>12</sup> for gas keep you on the road, raising productivity and lowering the total cost of ownership.

**The Sprinter won the 2019 ALG  
Residual Value Award.<sup>13</sup>**

\*Gasoline engine not available on all models.

# READY

## WITH CONNECTIVITY

# Making your job easier.

Our **B2B connectivity solutions**<sup>14</sup> work harder to make your job easier—intelligently connecting drivers and vehicles to increase the efficiency of your business in the long run.

Our **connectivity solutions**<sup>14</sup> are standard on every eligible Sprinter.

### CONNECTIVITY SOLUTIONS FOR YOUR VEHICLE<sup>14</sup>

#### COMMUNICATION MODULE<sup>23</sup>

—standard in every Sprinter.

This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the permanently installed 4G LTE SIM card.

#### INTERFACES TO MANAGE YOUR VEHICLES REMOTELY

B2B connectivity<sup>14</sup> provides a comprehensive overview of your vehicle — by simplifying logistics and increasing productivity.

#### MERCEDES ME CONNECT APP<sup>22</sup>

—the direct line to the driver.

The driver can easily access valuable vehicle-related information.

### BENEFITS AT A GLANCE

#### FOR THE BUSINESS OWNER

- Increase overall business efficiency
- Pinpoint the location of your vehicle
- Integrate your vehicle data into fleet management systems
- Monitor your vehicle data effectively<sup>18</sup>

#### FOR THE DRIVER

- Effective assistance<sup>15</sup> in case of an emergency
- More efficient working procedures with remote access to upcoming maintenance information on the vehicle<sup>18</sup>

## Mercedes me connect

#### BENEFITS AT A GLANCE:

- **Mercedes me connect**<sup>20</sup> provides a quick snapshot of your mileage, fuel level, tire pressure, fluids, and more. Plus you can see your vehicle's location, and lock or unlock the doors at the touch of a button.
- **Enjoy maintenance and support with a personal touch.** From maintaining your vehicle to receiving help in the event of an accident, *Mercedes me connect*<sup>20</sup> provides an additional layer of comfort and safety.
- **The Mercedes me connect App**<sup>22</sup> provides an overview of your vehicle by housing your remote access services.<sup>19</sup> Download the app today, and take full advantage of your *Mercedes me connect*<sup>20</sup> services. Available on Android, iOS, and Apple Watch.

For more information, visit our website at <https://www.mbusa.com/en/mercedes-me-connect>

**READY**

**WITH INFOTAINMENT**

More than a van —  
a mobile workspace.

Spend just a moment with its state-of-the-art infotainment system, and you'll know that the Sprinter was built for you. All the options and controls are placed in "functional islands" and logically incorporated into the overall design of the Sprinter's cabin, making every action smooth, intuitive, and economical. The results are fewer driver distractions, and increased efficiency and productivity.

**THE SPRINTER  
INFOTAINMENT SYSTEM FEATURES:**

**CHARGING OPTIONS** are strategically located on the dashboard and include USB-C ports, wireless, and 12V chargers.

**LIVE TRAFFIC INFORMATION**<sup>16</sup> provides traffic data in real time for more efficient traveling to and from work.

**SMARTPHONE INTEGRATION FOR APPLE CARPLAY<sup>®</sup> AND ANDROID<sup>™</sup> AUTO<sup>24</sup>** as well as Bluetooth<sup>®</sup> capability are available in the Sprinter.

**WIRELESS INTERNET ACCESS**<sup>21</sup> provides a highly stable connection that allows for the use of mobile devices in the vehicle.

**MERCEDES-BENZ EMERGENCY CALL SYSTEM**<sup>15</sup> sends out an automatic emergency call for faster arrival of rescue services.

**7" AND 10.25" TOUCHSCREENS** Display screens that are activated via touch, voice control, or touch buttons on the steering wheel are available on the Sprinter.

**THE INNOVATIVE MBUX (MERCEDES-BENZ USER EXPERIENCE)** delivers content from navigation to entertainment, and includes optional LINGUATRONIC "Hey Mercedes" voice control and what3words, our geocoded map system.

**READY**

**FOR SUCCESS**

# Thousands of configurations. Unlimited potential.

**When we say the Sprinter is ready for anything, we mean that literally.**

Choose from thousands of features, configurations, and upfit solutions that give you the ability to build a van that's ready to work for you now, and prepared to carry your business into the future. It's the difference between a van that you merely drive and a van that is driven to help you succeed.

## SPRINTER CARGO

Sprinter Cargo Vans are available in 1500, 2500, 3500, 3500XD, and 4500 series.

## SPECIFICATIONS

# Maximum effort.

Whatever your work demands are, the Sprinter Cargo Van gives you the flexibility to create a configuration to meet your exact needs. The 1500 is a lighter-duty model that delivers big-time productivity. For serious hauling capability, the 4500 model will handle your heaviest jobs. There's also a 2500, a 3500, and a 3500XD model. Whichever you choose, the service intervals of up to 20,000 miles<sup>12</sup> for diesel and up to 15,000 miles<sup>12</sup> for gasoline will keep your productivity high and your cost of ownership low.

Available on the Single tire models, this wheel arch covering's square shape and flat top provide extra storage opportunities, as well as protection for the wheel arch.

The rear doors feature hinges with self-locking mechanisms.

LED strip lighting improves cargo-loading vision.

Pallet bracing and tie-downs help when hauling cargo with unusual sizes and shapes<sup>25</sup>

The Sprinter 4500 model sets the benchmark for payload capacity of up to 6,823 lbs.

## SPRINTER CREW

Sprinter Crew Vans are available in 2500, 3500, 3500XD, and 4500 series.

# Carrying you forward.

Once again, we've created a van to fulfill a specific need. The Sprinter Crew Van seats up to five, and still has room for material or cargo. To fulfill the need for power and desire for the convenience of gasoline, a 4-cylinder turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed transmission is standard equipment.\* A V6 turbo diesel engine<sup>11</sup> with a 7-speed transmission is also available.

## SPECIFICATIONS

The removable 3-seat bench is covered in durable upholstery and gives your crew a roomy, safe, and comfortable ride.

In addition to seating for up to five people, the Sprinter Crew Van features ample cargo space.

## SPRINTER PASSENGER

Sprinter Passenger Vans are available in 1500 & 2500 series.

## SPECIFICATIONS

# Seats 15. Stands alone.

Looking to carry more passengers? The Sprinter accomplishes that in a big way with seating for up to 15 people.\* USB-C ports can keep them connected, and the spacious rear storage area provides ample room for luggage. All the while, you'll know that they're protected by a level of safety only Mercedes-Benz can deliver.

The Sprinter Passenger Van offers seating for up to 15 adults.\*

An impressive interior standing height of up to 6'3" provides greater passenger comfort with plenty of room to move.

Roof air conditioning comes in two output levels, including a high-performance air conditioner.

The ergonomic rear seats have individual headrests and an available reclining option.

The maximum 69.8" floor width and generous legroom mean there's plenty of room to sit and stretch out.

## SPRINTER CAB CHASSIS/CUTAWAY

Sprinter Cab Chassis/Cutaway Vans are available in 3500XD & 4500 series.

# Ready for your future.

A successful future starts with a strong foundation. That's exactly what the Sprinter Cab Chassis/Cutaway gives you. From a box truck to a technologically advanced RV, its flat, unobstructed frame rails let you design virtually anything you'd like. Motivation for your plans comes from the powerful and efficient V6 turbo diesel engine<sup>11</sup> with a 7G-TRONIC Plus 7-speed automatic transmission.

## SPECIFICATIONS

Choose between the standard 3500XD model (GVWR of 11,030 lbs.) or the optional 4500 model (GVWR of 12,125 lbs.) and build the Sprinter Cab Chassis/Cutaway that works best for you.

The Sprinter's flat, unobstructed frame rails are the perfect place to bring your vision of the ideal business vehicle to life.

## SPRINTER 4x4

Sprinter 4x4 Vans are available in 2500 & 3500XD series.

# Make your own roads.

Whether you're on the job or off the main road, you can run up against situations you can't control, like bad weather or rough terrain. You can try and avoid them, or meet them head-on with the on-demand 4-wheel drive option. The Sprinter 4x4 features a higher wading depth, a low-range gear, and a standard V6 turbo diesel engine<sup>1</sup> that can power you through even the toughest conditions.

# 4x4

The Sprinter 4x4 option is available in select Cargo, Crew, or Passenger Van configurations.

## Get your concept up and running.

You have a concept in mind — let a Mercedes-Benz Vans MasterUpfitter build it for you. Our job is to help you find a van that is ready to fit your ultimate conversion needs. With the Best-in-Class cargo volume of the Sprinter, and the impressive 7,429 lbs. of payload of the Sprinter 4500 Cab Chassis/Cutaway, each Mercedes-Benz Van is a blank canvas on which you can create a design to meet your specific needs. Whether you are in need of a simple work van interior, a mobile veterinarian clinic, or the ultimate RV, Mercedes-Benz Vans is making you mobile and taking your business to new places.

Qualified Upfitters adhere to the Upfitting Guidelines to become part of the Mercedes-Benz Vans MasterUpfitter network. These upfitters are committed to the highest engineering standards and levels of customer satisfaction. Working with a MasterUpfitter gives you the flexibility to be creative and the assurance that Mercedes-Benz Vans is here to support your needs. **Find your MasterUpfitter today.**

## Your one stop for productivity.

You're the expert in your trade, and your van is the tool with which to get the job done. MasterSolutions™<sup>27</sup> allows you to quickly configure your van and order directly via your Mercedes-Benz Vans dealer to get you exactly the van you want right when you need it, so you can concentrate on finishing the job.

Build your van now or get inspired by visiting the [MasterSolutions™<sup>27</sup> Configurator](#).

MasterSolutions™<sup>27</sup> providers Auto Truck, Knapheide, and Drivege bring you a portfolio of turnkey solutions for your specific line of business—HVAC, Plumbing, Electrical, Telecommunication, Contracting, Delivery, Refrigeration, Food Services, and People Moving—all at a preferred price. These preconfigured solutions from industry-leading manufacturers are customized to fit your Mercedes-Benz Van. The ordering process is streamlined, and installation is simple: all MasterSolutions™<sup>27</sup> can be fitted directly as Ship-Thru, right next to our factory in South Carolina, which saves you time and ensures seamless integration, quick delivery, and consistent quality.

# Finance solutions.

Through Mercedes-Benz Financial Services, we offer a variety of financing products and solutions with flexible benefits tailored specifically to meet the needs of your business.<sup>28</sup>

For more information, visit [www.mbvans.com/sprinter/shopping-tools/finance-solutions](http://www.mbvans.com/sprinter/shopping-tools/finance-solutions)

### RETAIL LOAN

These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as aftermarket products, in one contract.

### FMV LEASE

A closed-end lease agreement is also known as a “walkaway lease,” since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.

### TRAC LEASE<sup>29</sup>

A Terminal Rental Adjustment Clause (TRAC) lease<sup>29</sup> doesn’t require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income. Owners are responsible for the residual value of the vehicle.

## We have your back.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you, it isn’t a van — it’s a tool you need to make a living.

For more information, visit [www.mbvans.com/sprinter/mercedes-van-parts-and-services](http://www.mbvans.com/sprinter/mercedes-van-parts-and-services)

### ROADSIDE ASSISTANCE<sup>30</sup>

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program<sup>30</sup> and expert advice 24/7 through the Mercedes-Benz Customer Assistance Center, providing you with peace of mind and help when you need it most.

### ServiceCARE — Service solutions built for you

Whether it’s a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

### Complete The all-inclusive service package

Service  Repair  Wear & Tear

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

### Extended Limited Warranty (ELW) More warranty. More certainty.

Service  Repair  Wear & Tear

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs, and without any deductibles, you get the benefit of predictable and attractive conditions.

### Maintenance (PPM) Keeping your van in top shape

Service  Repair  Wear & Tear

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

\* Gasoline engine not available on all models.  
<sup>1</sup> ULEV Emissions below 10,000 lbs.  
<sup>2</sup> SULEV Emissions above 10,000 lbs.

## ENDNOTES

TBD values to be updated at a later date.

- Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature, and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds, and additional information and warnings.
- Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST<sup>®</sup> may be insufficient to alert a fatigued or distracted driver, and cannot be relied on to avoid an accident or serious injury.
- Blind Spot Assist is a warning system only, and may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds, and additional information and warnings.
- Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity, or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips, and warnings.
- Active Distance Assist DISTRONIC<sup>®</sup> is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead, or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds, and additional information and warnings.
- 360° camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
- Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
- No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
- Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
- Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift, and cannot be relied on to avoid an accident or serious injury.
- Requires the use of ultra-low-sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content). The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit- /corrosion-related damages to the system (min. 6h, proven by EN 14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz Vans New Vehicle Limited Warranty does not cover damage caused by fuel standards not approved by Mercedes-Benz Vans.
- Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
- MY19 Sprinter won the 2019 ALG Residual Value Award in the Fullsize Commercial Van segment. ALG is the industry benchmark for residual values and depreciation data, [www.alg.com](http://www.alg.com).
- B2B connectivity is available for the Contiguous US, Hawaii, and Alaska with the MY21 Sprinter. Contact an authorized Mercedes-Benz Vans dealership for more information.
- When the Emergency Call System is triggered, the following data are automatically transmitted: vehicle identification number, GPS position, direction of travel, time of the emergency call, language setting, and number of occupants in the cab. The Emergency Call System is activated from the moment the vehicle is delivered to the customer following a sale. No separate terms of use have to be accepted. The Communication Module for Digital Services and the emergency call button are necessary for use of the Emergency Call System service. The availability of the service in addition to the integrated Communication Module for Digital Services (LTE) depends on the network coverage of the mobile network provider. The Communication Module for Digital Services (LTE) is not available in the US Virgin Islands or Puerto Rico.
- The information from this service is shown on the touchscreen of the multimedia system. Live Traffic Information can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system's audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area. Please follow all applicable federal, state, and local laws and restrictions.
- A valid subscription to Live Traffic Information is necessary to use Car-to-X Communication. Car-to-X Communication can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation, or the MBUX multimedia system with 10.25-inch touchscreen. Only the data of vehicles directly affected by the event and equipped with Car-to-X Communication are processed, therefore you may not always receive a timely warning of hazards through this system.
- The available data can vary according to the vehicle model. The tire pressure can only be shown on certain model configurations. Display of the AdBlue<sup>®</sup> level is only available in conjunction with the optional SCR Generation 3 emissions control and only available with diesel models.
- The Remote Control function via the Mercedes me connect App makes it possible for you to view the status of the doors and windows. The driver is also able to unlock the vehicle using a code via the Mercedes me connect App, and also check the status of and operate the auxiliary heater. This function is only available in conjunction with an optional auxiliary heater (hot-water heater).
- MBUSA reserves the right to change or discontinue B2B connectivity services and Mercedes me connect services at any time without prior notification or incurring any future obligation. See the terms of the B2B connectivity and Mercedes me connect Overview of Services.
- The wireless Internet in the Car is provided by AT&T and created via an integrated SIM card. A contract must be made with AT&T in order to access data services, and this contract can be made with the help of the MBUX multimedia system. A mobile device is required to complete enrollment. Mobile device will need to be connected to the WiFi Hotspot of the MBUX multimedia system by selection and PIN submission displayed in the MBUX multimedia system. Devices sold separately. Activation and deactivation of Internet in the Car is only possible via data contract with AT&T. Additional costs may apply depending on the amount of data used. In addition to a data contract with AT&T, either an MBUX multimedia system with 17.8 cm (7-inch) touchscreen and navigation, or satellite radio or the MBUX multimedia system with 26 cm (10.25-inch) touchscreen is required.
- In order to prevent distracted driving, the use of the Mercedes me connect App is not permitted while operating a motor vehicle. If used while operating a motor vehicle, there is an increased risk of endangering oneself and others. Please follow your local laws and restrictions.
- The availability of services in addition to the integrated Communication Module depends on the network coverage of the mobile network provider. The Communication Module (LTE) is not available in the US Virgin Islands or Puerto Rico. The Communication Module for Digital Services (LTE) is standardly equipped in the MY21 Sprinter.
- Apple CarPlay<sup>®</sup> is a product of Apple Inc. Android<sup>™</sup> Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content, and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges, and restrictions in user's wireless plan. Vehicle's factory audio/information interface, including COMAND<sup>®</sup> navigation, may not be used simultaneously with Apple CarPlay<sup>®</sup> or Android<sup>™</sup> Auto. When Apple CarPlay<sup>®</sup> or Android<sup>™</sup> Auto is in use, the steering-wheel voice control button accesses Siri<sup>®</sup> or Google voice recognition software for voice commands.
- Unsecured cargo can become hazardous in a collision. Always secure cargo.
- Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.
- MasterSolutions<sup>™</sup> program vehicles are custom, special-order-only vehicles modified by the MasterSolutions<sup>™</sup> provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the MasterSolutions<sup>™</sup> provider may apply. Details are available from your local dealer.
- Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon creditworthiness of customer.
- TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.
- The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
- Traffic Sign Assist is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.
