

2008 CHRYSLER  
300

CHRYSLER

ENGINEERED BEAUTIFULLY

It is a place where engineering and beauty come together. It embodies a convergence of craftsmanship with technology and functionality with design. Built to entice with every drive in the most natural of manners, it represents a passion for ingenious engineering and stunning style. Engineered beautifully, this is a vehicle unlike any other.

**THIS IS THE CHRYSLER 300.**

THE 2008 CHRYSLER 300 INCLUDES A  
LIFETIME POWERTRAIN LIMITED WARRANTY.

No deductible. See dealer for a copy of limited warranty and details.  
Non-Transferable. Not available on SRT and certain fleet vehicles.

300C in Bright Silver Metallic

# SRT8®

Blending power and precision, the 300C SRT8 is powered by the 6.1-liter SRT HEMI® V8 engine. With its engine block clad in original Hemi Orange, it pushes the envelope with 425 horsepower, 180-mph speedometer, and travels 0–60 mph in just over five seconds. The 300C SRT8 offers the refinement of a finely tuned fully independent four-wheel suspension, Brembo® Performance brakes with four-piston calipers, and a 5-speed AutoStick® transmission for sports-car handling dynamics. Race-inspired design cues abound as the SRT badging and road-gripping 20-inch forged aluminum wheels wrapped in available high-performance Goodyear F1 Supercar tires announce its presence. An available KICKER® SRT high-performance 13-speaker sound system with a 100-watt subwoofer and 322-watt digital amplifier adds audio performance, paired with the revolutionary MyGIG® Multimedia Infotainment System\* with Navigation, which bundles entertainment, traffic updates, and more in a brilliant package.

\*MyGIG in-dash DVD capability is not available in all states. See your dealer for details.

300C SRT8 in Brilliant Black Crystal Pearl

Using race-proven engine technologies, Chrysler SRT (Street and Racing Technology) powertrain engineers created the high-performance 6.1-liter SRT HEMI V8 with a formidable 425 horsepower and 420 lb-ft of torque. The instrument cluster features an available Reconfigurable Display for performance data such as 0–60 times,  $\frac{1}{4}$  mile, friction circle, and drift angle. Monochromatic bodyside molding and a new trunk lid add stylish touches to the exterior. SRT8 takes high performance to the next plateau with a luxurious cockpit featuring exclusive SRT leather-trimmed, microfiber suede-accented performance seats with bolstered sides.

300C SRT8 in Bright Silver Metallic

The 300C SRT8® puts other drivers on notice at first glance, with its signature wide-checked front grille and High Intensity Discharge (HID) projector headlamps. A high beltline, with body-color fascia and chin spoiler, complete this picture of the power elite. With an artfully balanced rear-wheel-drive platform and a wealth of luxury appointments, the SRT8 combines abundant power with forward technology, delivering nothing less than this eminently attainable super-sedan. Once you purchase a 300C SRT8, you are invited to the SRT Track Experience, a one-day driving course conducted by a professional driving school on select tracks. For more info, visit [www.SRTTrackExperience.com](http://www.SRTTrackExperience.com).

# 300C

The breathtaking performance, smooth handling, dramatic looks and luxurious appointments of the 300C were singled out in 2007 as a *Car and Driver* 10Best and 2007 *AUTOMOBILE Magazine* All-Star. The imposing power of the 5.7-liter HEMI® V8 engine includes a sophisticated Multi-Displacement System (MDS) that helps deliver 23 miles to the gallon\* on the highway without sacrificing performance. Handling dynamics are aided by available all-wheel drive and standard Electronic Stability Program (ESP)<sup>†</sup> with all-speed traction control and Brake Assist. High-tech innovations abound inside, from the standard Boston Acoustics® audio system to an available DVD-based GPS Navigation System and newly available SIRIUS Backseat TV.<sup>™</sup> SmartBeam<sup>™</sup> intelligent headlamps automatically adjust brightness and intensity for optimum nighttime visibility, while Adaptive Cruise Control (ACC)<sup>‡</sup> newly available for 2008, automatically adjusts in kind to moving traffic.

\*15 city/23 hwy, EPA est. mpg with MDS. Results depend on driving habits and conditions. †No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ‡ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions.

300C in Dark Titanium Metallic

Forward technology surrounds you inside, outside, and under the hood of the 300C. The newly available MyGIG® Multimedia Infotainment System\* with Navigation exclusively combines real-time traffic updates, hands-free communication, and multiple ways to save and play back music in high-quality audio. MyGIG is equipped with a 20GB hard drive for storing photos and over 1,000 digital music files, a USB port and MP3 capability. And you can operate it all by touch screen or voice commands. Designed around the hemispherical combustion chambers of the aluminum alloy heads from which it took its name, the 5.7-liter HEMI V8 engine was engineered utilizing three-dimensional computer-aided design. Its integrated Multi-Displacement System (MDS) switches seamlessly between eight cylinders and four as needed for improved fuel economy.<sup>†</sup> LED-illuminated front cup holders, newly available for 2008, help you find your drinks easily when driving at night, and for added convenience, LED lighting also illuminates the front and rear map pockets.

\*MyGIG in-dash DVD capability is not available in all states. See your dealer for details. †15/23 EPA est. mpg with MDS. Results depend on driving habits and conditions.

300C interior in Khaki/Light Graystone

Tortoiseshell-style accents on the door pulls, steering wheel and console set a sophisticated tone for a cabin as luxurious as it is spacious, with soft touch door armrests and center console with French seams. Standard memory driver seat and eight-way power adjustable front seats with leather trim and adjustable pedals raise the comfort bar, along with amenities like automatic dual zone temperature control and available heated rear seats. Available technologies include UConnect® Hands-Free Communication System. Within the high-tech interior of the 300C, beauty and efficiency coexist in perfect harmony.

300C instrument panel

The 2008 Chrysler 300C boasts a finely appointed interior with a distinctly handcrafted feel, starting with the leather-trimmed shift knob. Convenient steering wheel-mounted audio controls allow you to search channels safely, and command the standard Boston Acoustics® audio system with a 276-watt digital amplifier and available six-disc CD/DVD changer with MP3 capability. Opt for genuine California Walnut or standard tortoiseshell-style accents on the power tilt-and-telescope steering wheel and front and rear door pull handles, set off with Satin Silver trim and chrome accents throughout.

The programmable Electronic Vehicle Information Center (EVIC) can access up to 128 vehicle functions, including outside temperature and fuel economy readouts, a compass, and a mini-trip computer. A Homelink® Universal Transceiver keeps you in touch with remote control of up to three remote devices. Become accustomed to the available full-screen navigation system, another leading-edge technology in the service of safety, security, and convenience. New standard Remote Start can start your 300C from up to 300 feet away so you can create the perfect climate-controlled environment whether it is hot or cold outside.

## 300 SPECIALTY SERIES VEHICLES

The Chrysler 300 can be further customized with features to suit your personal style. The 300C SRT Design Group, the 300C Heritage Edition, and the Chrysler 300 W.P. Chrysler Executive Series were all engineered to expand on the power and luxury of the 300. Each model makes its statement with expressive trim and standout interior innovations. The world-class sedans of the 300 Specialty Series are designed to thrill drivers with their distinctive styling, exhilarating performance and perfectly poised handling. For color choices on all Specialty Series vehicles, see your local Chrysler dealer.

**Chrysler 300 W.P. Chrysler Executive Series.** The customized Chrysler 300 W.P. Chrysler Executive Series is six inches longer in length, providing six more inches of rear leg room. Choose from a host of optional features for tailoring the model exclusively to your needs, like creating a mobile office in the backseat with a writing table, footrests, two 12-volt power outlets, and available directional reading lamps. State-of-the-art entertainment options include a Rear Seat DVD Video Entertainment System (VES®) with SIRIUS Backseat TV.™

**300C SRT Design Group.** The SRT Design Group for the 300C adds more than just power. The 350 horsepower output from the 5.7-liter HEMI® V8 engine ensures high performance, while handling dynamics are boosted in kind — thanks to independent front and rear performance suspension, performance-tuned steering and unique 20-inch ultra-brite aluminum wheels. Performance suede microfiber-trimmed front seats and leather-wrapped steering wheel with perforated grip add race-inspired touches to the cabin.

**300C Heritage Edition.** The Heritage Edition includes the 5.7-liter HEMI V8 engine and is adorned with special badging, new Poplar Burl Wood interior accents, performance low-back Nappa leather-trimmed bucket seats, heated second-row seats and Berber floor mats. Also included is a MyGIG Multimedia Entertainment System\* paired with an eight-speaker Boston Acoustics® sound system (including subwoofer) with a 368-watt digital amplifier plus Dolby Pro Logic II Surround Sound. High-tech features surround you, from the available MyGIG® Multimedia Infotainment System\* with Navigation to standard Adaptive Cruise Control (ACC),† which adjusts speed as traffic flow changes.

\*MyGIG in-dash DVD capability is not available in all states. See your dealer for details. †ACC is a driver-convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions.

# LIMITED

There is seemingly no limit to the luxurious appointments that make the 300 Limited so extraordinary. The available California Walnut wood accents surround you with an environment as warm as the power heated front seats with their leather trim. Standard 18-inch chrome-clad wheels help you negotiate any road in a style that will soon become second nature. The abundant technology includes available MyGIG® Multimedia Infotainment System\* with Navigation, available Rear-Seat DVD Video Entertainment System (VES®) with new SIRIUS Backseat TV™ and available SmartBeam™ intelligent headlamps. Power and efficiency run hand in hand with the 250 horsepower 3.5-liter High Output V6 engine. More premium content includes electrochromic mirror, automatic headlamps, power passenger seat, express up and down front windows, dual-zone automatic temperature control, power adjustable pedals, available rain-sensing wipers and a reconfigurable information center. Steering wheel-mounted audio controls allow you to set the tone with an available 276-watt six-speaker Boston Acoustics® sound system. Available all-wheel drive adds even more confidence to an already assertive ride.

\*MyGIG in-dash DVD capability is not available in all states. See your dealer for details.

300 Limited in Light Sandstone Metallic

300 Limited is all about luxury. Making a formidable impression from any angle, the 300 Limited sets off its new deck lid with new rear taillamps. Once inside the 300 Limited you experience available California Walnut wood accents. Ultra-convenient touches abound, like available LED lighting for the front cup holders and front and rear map pockets. The available Rear-Seat DVD Video Entertainment System (VES®) has inputs for audio and video, sure to delight passengers on short or long trips, especially when they avail themselves of the rear-seat integrated center armrest, complete with two cup holders. In the 300 Limited, relaxation is the only requirement.

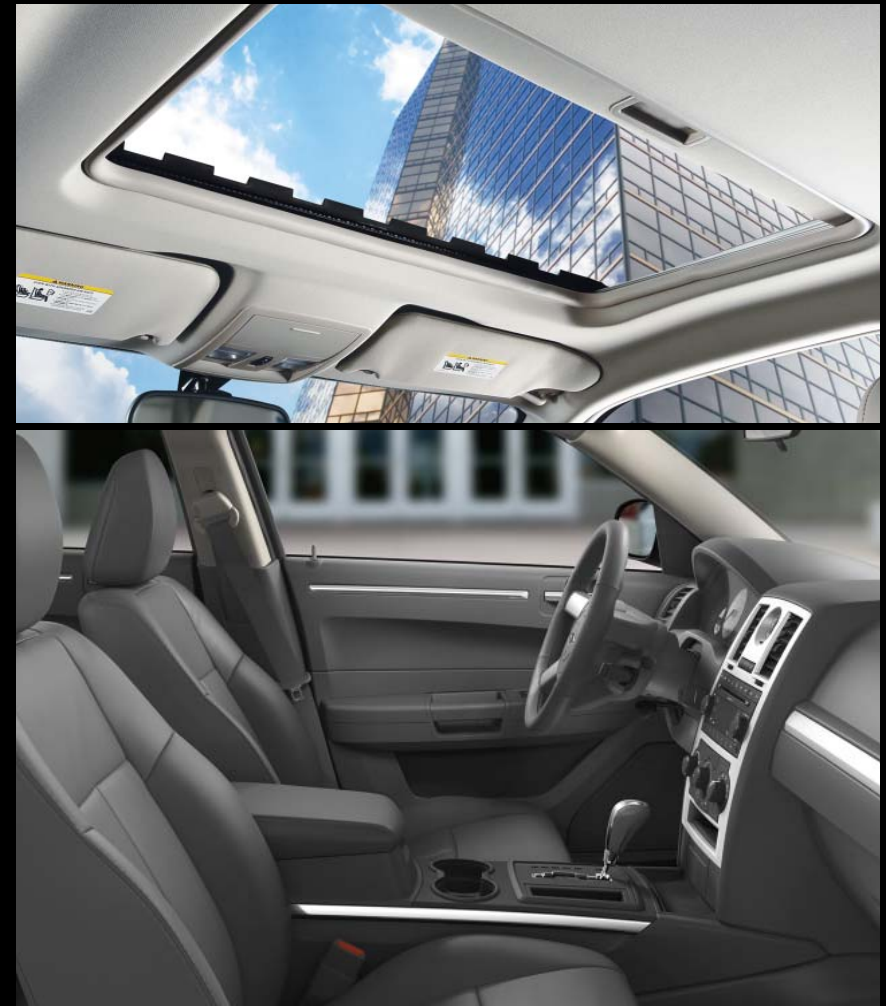

# TOURING

The formidable power of the 300 Touring is only part of the story. The robust 3.5-liter High Output 250 horsepower V6 engine provides that in full, with handling dynamics that hug virtually any road. Start with standard features like an antilock brake system (ABS) and an Electronic Stability Program (ESP)\* with Brake Assist and all-speed traction control. Such technologies are smoothly supported by a 5-link independent rear-wheel suspension, not to mention the available all-wheel drive, which includes a 5-speed AutoStick® transmission. 17-inch aluminum wheels, heated mirrors, fog lamps, chrome accents inside and out, and leather-trimmed seats provide even more must-have features. The available Comfort/Convenience Group is true to its name with heated eight-way power adjustable driver's and front-passenger seats, power adjustable pedals and one-touch up and down power front windows. Play your MP3s through the available 276-watt Boston Acoustics® sound system. Standard SIRIUS Satellite Radio offers over 130 channels of music, sports, news, weather and traffic updates.

\*Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws.

300 Touring in Bright Silver Metallic

300 Touring is a powerful performance sedan that even puts power behind its conveniences, with available power adjustable pedals and standard power-heated, power-adjustable exterior mirrors. Standard leather-trimmed seats, warmed by the available carbon-fiber heating elements, help you relax in the eight-way power driver's seat. To complete the picture of total empowerment, open the available moonroof to the open air. The available MyGIG® Multimedia Entertainment System\* with 20GB hard drive furthers the first-class feel of the 300 Touring's cabin.

\*MyGIG in-dash DVD capability is not available in all states. See your dealer for details.

# LX

Sleek styling, great handling, remarkable value — and that is only for starters. Every 300 model puts a high premium on safety with standard advanced multistage front air bags\* and a Tire Pressure Monitoring System. Inside, an auxiliary input for MP3 players complements the AM/FM radio and CD player. The standard 2.7-liter V6 engine delivers 178 horsepower with 18 city and 26 highway miles per gallon.† The Great American Series for 300 adds finesse with power heated body-color exterior mirrors, bodyside molding with chrome inserts and 17-inch aluminum wheels. Additional features include standard supplemental side-curtain air bags\* for front and rear outboard passengers, and front-seat-mounted side air bags.\* Electronic Stability Program (ESP)‡ with Brake Assist and all-speed traction control improves command of any road, while a 6-disc CD/DVD player with a six-speaker sound system provides quality entertainment.

\*Always sit properly in the seat with seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. †EPA est. mpg. ‡Always drive carefully, consistent with conditions. Always wear your seat belt and obey traffic laws.

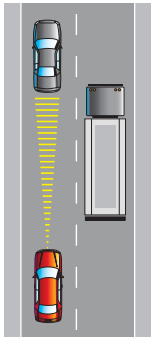

Great American Series in Cool Vanilla

Standard features on the 300 LX include air conditioning, a power driver's seat, tilt/telescoping steering wheel, and remote keyless entry. The AM/FM radio not only plays CDs but allows you to play your favorite external devices with an MP3 auxiliary jack. The opulent cabin gives front and rear passengers ample room to stretch out. The 17.2 cubic feet of trunk space is expanded with the 60/40 split-folding rear seats, accommodating a myriad of cargo sizes. Beautiful in close-up, step back from 300 LX and behold the dramatic design, from the long hood and striking high beltline to the standard 17-inch wheels.

# TECHNOLOGY

The automotive technology in the Chrysler 300 is the interface where brawn has finally met brain. This cutting-edge technology is all about system integration, allowing you to drive with confidence and command, providing comfort, relaxation, and state-of-the-art entertainment options, all the while keeping you informed about your vehicle's systems, in addition to traffic updates and directions.

► The **Adaptive Cruise Control (ACC)\*** is a system that can detect a vehicle directly in front, so it can then adjust the speed of your vehicle as traffic flow changes. It automatically adjusts cruise control speed so that you're always moving with traffic at a set distance. And in certain situations, it even warns the driver to apply the brakes manually. ACC uses LIDAR (Light Detection and Ranging) to detect other vehicles as far as 328 feet away. The driver can easily monitor the system from the Electronic Vehicle Information Center, as well as override it at any time. ACC is standard on 300C SRT8® and available on 300C.

► **MyGIG® Multimedia Infotainment System†** with Navigation is one of the biggest advances in car audio since the CD player, with its 20GB hard drive able to store over 1,000 digital music files. MyGIG also stores photos, maps and points of interest, and delivers traffic updates — operated by touch screen or voice command.

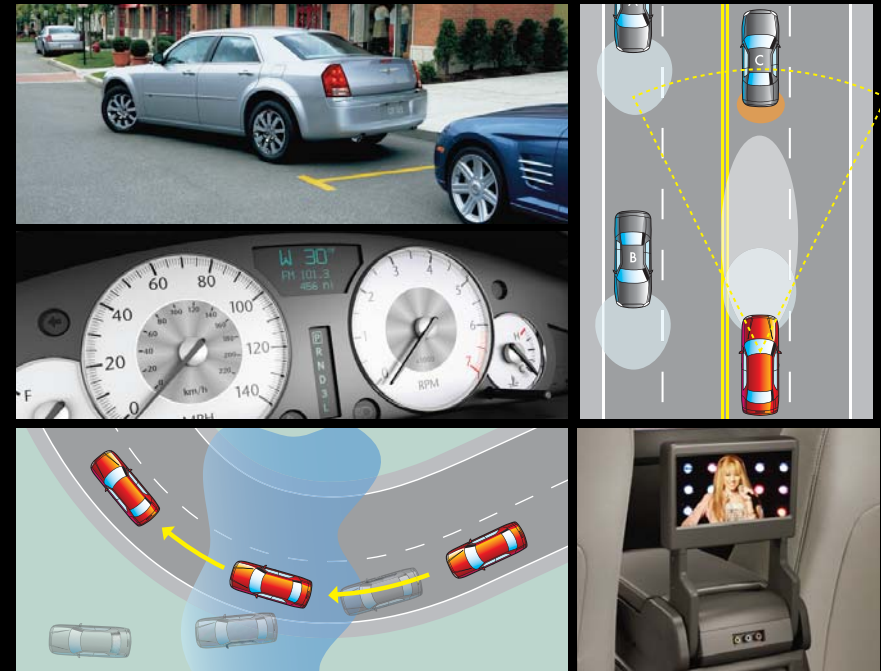

► The **JPEG photo viewer** allows you to customize the screen saver as if it were your personal home computer. Just import the images onto the MyGIG hard drive via the face-mounted USB port.

► **SIRIUS Satellite Radio†** delivers over 130 channels, including 100 percent commercial-free music, sports, news, talk, entertainment, traffic and weather. Factory-installed SIRIUS Satellite Radio includes a one-year subscription. For more information, go to [sirius.com](http://sirius.com).

► The available **UConnect® Hands-Free Communication System** is voice-activated so you can safely place calls while driving. All that is required is a Bluetooth® cellular phone. When equipped with UConnect, the Universal Customer Interface<sup>§</sup> (UCI) allows operation of your iPod® with the radio controls.

\*ACC is a driver-convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. †MyGIG in-dash DVD capability is not available in all states. See your dealer for details. ‡SIRIUS,™ SIRIUS Backseat TV,™ the SIRIUS dog logo and related marks are trademarks of SIRIUS Satellite Radio Inc. All rights reserved. ©2007 Viacom International Inc. All rights reserved. DISNEY CHANNEL and The DISNEY CHANNEL LOGO are trademarks of Disney Enterprises, Inc. and used with permission. Hannah Montana image is provided courtesy of Disney Channel. Not available in AK and HI. §Not available with Navigation.

For driving with confidence in nearly all conditions, 300 models are equipped with state-of-the-art technologies that help you keep control day or night, on the highway or in the city, even when parking. The available ParkSense® Rear Park Assist System\* uses sound waves to detect nearby obstacles, allowing you to monitor what is behind your vehicle with audio alerts to help grab your attention. Available SmartBeam™ intelligent headlamps automatically adjust intensity for optimum nighttime visibility. The available Electronic Vehicle Information Center (EVIC) provides a wealth of information on up to 128 vehicle functions. The available Electronic Stability Program (ESP)† with Brake Assist and all-speed traction control can correct the vehicle's course by automatically applying the brake and/or reducing engine torque. Brake Assist will apply maximum pressure to the brake booster if a panic braking situation is detected, and all-speed traction control helps provide directional stability. And for more entertainment options, new SIRIUS Backseat TV™ utilizes the roof-mounted antenna to bring in live digital programming from Nickelodeon,™ Disney Channel™ and Cartoon Network.™

\*Always check entire surroundings before backing up. †No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

## SAFETY AND SECURITY

Safety and security are built into every Chrysler 300 model from the ground up. Even when left alone, these vehicles help ensure peace of mind with security features like **remote keyless entry**, **Sentry Key®** and available **security alarm**.

- ▶ All 300 models use steel **Unibody safety cage** construction with dynamic **front crumple zones** built into the stiff body cage to absorb impact energy in the event of an accident. The energy-absorbing steering wheel and column are designed to minimize injuries that could occur in a frontal impact.
- ▶ **Advanced multistage front air bags\*** and newly available **front seat-mounted side air bags\*** with **supplemental front and rear side-curtain air bags\*** provide even better protection.
- ▶ **Rain-Sensing Wipers**, standard on 300C SRT8®, 300C and optional on 300 Limited, are activated via an infrared sensor when rain falls, adjusting wiper interval speed based on the speed of the vehicle and severity of the rain.
- ▶ Available **self-sealing tires** help to seal small tire punctures. A standard **Tire Pressure Monitoring System** alerts the driver to low tire pressure via a warning light in the instrument cluster or warning display in EVIC (if equipped).
- ▶ Available **exterior approach lamps** with supplemental turn signals, activated by the key fob, provide area light whenever you enter or exit.

\*Always use seat belts. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight.

## PERFORMANCE

The Chrysler 300 offers a wide range of capable engine options to suit a broad array of needs. They provide an outstanding combination of performance, fuel efficiency, exhaust emission control, quietness and durability. They are the product of cutting-edge engine technologies and the passion and commitment of dedicated automotive engineers. Whatever engine you choose, you will have all the power you need to reach your destination with unbridled confidence.

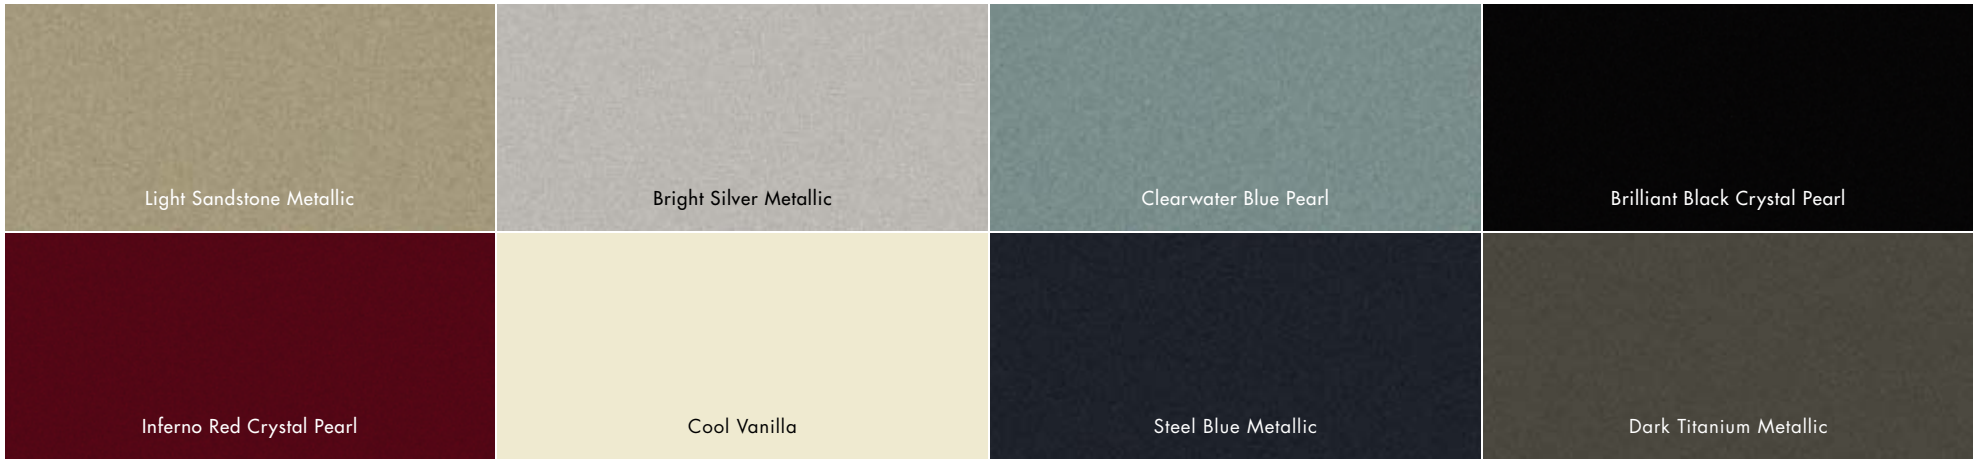

- ▶ The **6.1-liter SRT HEMI® V8 engine** in the 300C SRT8® is the most powerful engine in the 300 lineup, with 425 horsepower, 420 lb-ft of torque, and an engine block in original Hemi Orange. The SRT HEMI V8 was developed by increasing the bore of each cylinder, increasing compression ratio, redesigning the intake and exhaust system for better airflow, and increasing engine speed and endurance.

- ▶ The **5.7-liter HEMI V8 engine with Multi-Displacement System (MDS)**, standard on 300C, provides best-in-class\* 340 horsepower and 390 lb-ft of torque. It regulates between four and eight cylinders, as needed, for up to 11 percent better fuel economy at cruising speeds.† MDS allows the engine to seamlessly switch between four and eight cylinders. The engine idles on eight cylinders for maximum smoothness, uses all eight for acceleration and heavy loads, but uses only four cylinders when cruising even at 60 mph. The Fuel Economy Mode Display notifies the driver when in fuel-saver mode.

- ▶ The **3.5-liter High Output V6 engine**, standard on Limited and Touring, uses a dual-intake manifold for 250 horsepower and 250 lb-ft of torque.
- ▶ 300 LX has a **2.7-liter V6 engine** that combines a spirited 178 horsepower and 190 lb-ft of torque with the fuel efficiency of 26 highway mpg‡
- ▶ An **AutoStick® transmission** (standard on 300C SRT8, 300C and AWD models) allows either automatic or clutchless manual shifting.
- ▶ **All-wheel-drive system** — available on 300C, 300 Limited and 300 Touring — supplies power to both axles, delivering excellent balance and traction for improved control under difficult road conditions.

\*Based on 2007 Ward's segmentation. †15 city/23 hwy EPA est. mpg with MDS. Results depend on driving habits and conditions. ‡EPA est. mpg.

S = Standard. P = Included in package noted in parentheses. O = Optional.

<sup>(1)</sup>ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. <sup>(2)</sup>MyGIG in-dash DVD capability is not available in all states. See your dealer for details. <sup>(3)</sup>Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and weight. <sup>(4)</sup>No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the speedometer flashes, the driver needs to use less throttle and adopt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. <sup>(5)</sup>Always check entire surroundings before backing up. <sup>(6)</sup>Unleaded Mid-Grade fuel recommended; Unleaded Regular acceptable. <sup>(7)</sup>EPA est. mpg. <sup>(8)</sup>When properly equipped. <sup>(9)</sup>Based on LX dimensions. <sup>(10)</sup>Dimensions in inches unless otherwise noted.
