CHARGER // 2016

2016 DODGE CHARGER

THE QUICKEST, FASTEST AND MOST POWERFUL SEDAN. EVER.^{1*}

If history has taught us anything, it's to respect those who came before us and to never forget where we came from. Charger abides by these Golden Rules. Throughout its celebrated history, it has never lost sight of its iconic roots and never sacrificed the performance that enthusiasts thrive on. In fact, we've flexed our technology to deliver impressive combinations of power and fuel efficiency. The result is an enviable powertrain lineup that ranges from a 3.6L V6 that delivers best-in-class² V6 highway fuel economy to the 707-horsepower 6.2L Supercharged HEMI[®] SRT[®] Hellcat V8 — making Charger the quickest, fastest and most powerful sedan. Ever.¹

// Four potent available engines // Class-exclusive³ TorqueFlite[®] eight-speed automatic transmission // Best-in-class² V6 highway fuel economy of 7.7 L/100 km // Available 8.4-inch touchscreen — largest in its class³ // Offers the most technologically advanced all-wheel-drive (AWD) system in its class.³

*A note about this catalogue: all disclaimers and disclosures can be found on the back cover.

MORE

THAN ONE WAY TO MOVE YOU

Charger's driver-focused interior is stocked with race-inspired details, bold colours and retro-cued soft-touch surfaces. A genuine, one-piece stamped aluminum instrument panel bezel adds even more style to an interior that is dedicated to the details. Take control with the thick-rim three-spoke Sport steering wheel. Available paddle shifters with rev-matching capability bring track-inspired performance to the everyday drive. Seating for five ranges from premium cloth to supple Laguna leather. Standard dual-zone temperature control and available heated/ventilated front seats, heated rear seats and full-circumference heated steering wheel bring year-round comfort, in any climate.

From the outside, Charger's amped-up attitude is so fierce, it's impossible to ignore. The first glance sends chills. The second begs you to notice its low, lean profile and scalloped bodyside. Its imposing grille leaves no question where this retro-modern muscle comes from. Front to rear, Charger commands authority with projector headlamps accented by striking LED daytime running lamps, and the signature racetrack LED taillamp, making even the most discerning eyes take note.

SHIFT YOUR PERSPECTIVE

//// R/T WITH NEW BLACKTOP APPEARANCE PACKAGE SHOWN IN GRANITE CRYSTAL METALLIC.

ADD SOME: ATTITUDE

CHARGER SXT //// Everyone wants a cool car. One that causes a rubberneck reaction, a car so epic people stop and take selfies in front of it. That's why Charger SXT is loaded with sweet features and exceptional value. Available in either rear-wheel drive (RWD) or all-wheel drive (AWD), Charger SXT sports a standard 3.6L Pentastar™ Variable Valve Timing (VVT) V6 with 292 horsepower and 260 lb-ft of torque. The Gloss Black crosshair grille, LED fog lamps and 18-inch Satin Carbon aluminum wheels (RWD) or 19-inch polished aluminum wheels with Graphite pockets (AWD) add even more allure.

The interior welcomes drivers with Sport cloth heated front seats, including a driver's 12-way power seat with four-way lumbar adjust. Everyone will enjoy the sound flowing from six well-placed premium speakers and the powerful 276-watt amplifier. The Uconnect® 8.4 multimedia centre boasts a largest-in-class³ 8.4-inch touchscreen, as well as connectivity and infotainment features such as hands-free communication⁴ with Bluetooth® streaming audio and SiriusXM satellite radio with a one-year subscription⁵

RALLYE APPEARANCE GROUP //// Dial up Charger's track-proven performance with the Rallye Appearance Group on SXT. The 3.6L Pentastar VVT V6 kicks out 300 horsepower and 264 lb-ft of torque thanks to a unique cold-air induction system, sport-tuned exhaust and special engine calibration. A rear body-colour spoiler, performance suspension and 20-inch Hyper Black aluminum wheels with all-season performance tires add to its sporty edge. Unique exterior details, including an R/T-inspired front-end appearance with Gloss Black fascia appliqué and a rear Rallye badge, give it a lasting impression. Inside, die-cast paddle shifters flank the three-spoke Sport steering wheel, while the 10-speaker BeatsAudio™ premium sound system with subwoofer and 552-watt amplifier deliver a high-definition, studio-quality sound experience.

NEW BLACKTOP APPEARANCE PACKAGE //// When enough is never enough, opt for the new Blacktop Appearance Package on SXT and R/T models. Features include a sleek Gloss Black front fascia appliqué and 20-inch Gloss Black aluminum wheels. A Satin Black one-piece rear performance spoiler and blacked-out badging finish off the bolder exterior appearance. The striking interior is highlighted by the Gloss Black instrument panel and cluster accents, a performance steering wheel and premium floor mats with Tungsten accent stitching.

//// R/T ROAD & TRACK SHOWN IN GRANITE CRYSTAL METALLIC AND SXT WITH RALLYE APPEARANCE GROUP SHOWN IN TORRED.

A LEGACY OF POWER AND PERFORMANCE

SURE-FOOTED CONTROL // // // // Designed for excellent grip, efficiency and quick response to slippery conditions, Charger's available all-wheel-drive (AWD) system with automatic front axle disconnect is the most technologically advanced of any vehicle in its class.³ The intuitive system seamlessly transitions between rear-wheel drive (RWD) and AWD without driver intervention. When AWD is not required, the system automatically disconnects the front axle and opens the transfer case from the drivetrain to reduce friction and rotational mass. The result is best-in-class² AWD fuel economy.* The system is designed to proactively engage/disengage depending on road and environmental conditions, including when windshield wipers are turned on, when ambient temperature dips below approximately 4° C or when wheel-slip is detected. AWD is available on Charger SE and SXT models with the 3.6L Pentastar™ VVT V6 engine.

AGGRESSIVE STAYING POWER // // // // Every Charger is outfitted with standard safety features like Hill Start Assist, Ready Alert Braking, All-Speed Traction Control, Rain Brake Support and four-wheel antilock disc brakes that bring substantial braking power with Brake Assist. Charger's five-link independent rear suspension components are specifically engineered to deliver excellent body and wheel control, optimized road surface contact and engaging handling prowess.

*See chart on page 9 for full details.

BEST-IN-CLASS³ AWD

as efficient as

7.7

L/100 KM HWY*

////// 3.6L PENTASTAR™ V6 WITH VARIABLE VALVE TIMING (VVT), MAX 300 HP AND AS EFFICIENT AS 7.7 L/100 KM HWY.*

Not only is this powerplant an award-winning engine, it boasts 292 horsepower. Kick the ponies up to 300 with the available Rallye Appearance Group on SXT which includes Sport Mode, cold-air induction, sport-tuned exhaust and die-cast paddle shifters. Couple that with the standard class-exclusive³ TorqueFlite® eight-speed automatic transmission for a potent, efficient and responsive powertrain combination.

////// 5.7L HEMI® VVT V8 WITH 370 HP, 395 LB-FT OF TORQUE AND AS EFFICIENT AS 9.3 L/100 KM HWY.*

The legendary 5.7-litre HEMI VVT V8 not only releases a big dose of horsepower and impressive torque, but also 0 – 100 km/h acceleration times in the five-second range. The standard class-exclusive³ TorqueFlite eight-speed automatic transmission with steering wheel-mounted paddle shifters along with the four-cylinder mode FuelSaver Multi-Displacement System (MDS) help Charger deliver new levels of performance and efficiency.

////// 6.4L SRT® HEMI V8, 485 HP, 475 LB-FT OF TORQUE AND AS EFFICIENT AS 9.5 L/100 KM HWY.*

Standard on Charger R/T Scat Pack and SRT 392, the intensity of this HEMI V8 is capable of churning out a slick 485 horsepower and 475 lb-ft of torque across a wide rpm range. Charger SRT 392 accelerates from 0 – 100 km/h in the high four-second range, and covers the quarter mile in the high 12-second range. The robust, class-exclusive³ TorqueFlite eight-speed automatic transmission features rev-matching on downshifts.

////// 6.2L SUPERCHARGED HEMI SRT HELLCAT V8 WITH 707 HP AND 650 LB-FT OF TORQUE.

This is the baddest of the bunch. It assaults the asphalt with 707 horsepower and an unreal 650 lb-ft of torque. Paired with the class-exclusive³ TorqueFlite eight-speed automatic transmission, it delivers impressive street driving and maximum performance with 160-millisecond shifts and rev-matching on downshifts. The SRT TorqueFlite eight-speed automatic transmission is specifically engineered to deliver performance and withstand the groundbreaking power of the SRT Hellcat.

ENGINE	TRANSMISSION	HORSEPOWER	TORQUE (LB-FT)	L/100 KM (MPG)	
				CITY	HIGHWAY
3.6L Pentastar V6 — RWD	8-speed automatic	292	260	12.4 (23)	7.7 (37)
3.6L Pentastar V6 — AWD	8-speed automatic	292	260	12.8 (22)	8.6 (33)
5.7L HEMI V8 with MDS — RWD	8-speed automatic	370	395	14.8 (19)	9.3 (30)
6.4L SRT HEMI V8 with MDS — RWD	8-speed automatic	485	475	15.7 (18)	9.5 (30)
6.2L Supercharged HEMI SRT Hellcat V8 — RWD	8-speed automatic	707	650	17.6 (16)	10.7 (26)

*Based on 2016 *EnerGuide* fuel consumption ratings. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. For *EnerGuide* information, please ask your retailer or visit the Government of Canada website: www.vehicles.nrcan.gc.ca

485^{HP}

R/T SCAT PACK

//// Mined from the archives and loaded with a legendary 6.4-litre HEMI® V8, Charger R/T Scat Pack proudly wears the Scat Pack Bee on its Gloss Black grille. Built for performance, a large inlet and functional hood scoop transfers gulps of fresh air beneath the hood to efficiently cool the engine compartment. The 392 HEMI fender badges let onlookers know exactly what's under the hood. Available High Intensity Discharge (HID) headlamps and bulked-up 20x9-inch aluminum wheels amp up the track-infused design. Its rear heat extractors and one-piece Satin Black performance spoiler bear witness that this vehicle means business.

Move inside and you'll find race-inspired seats with the famed Scat Pack logo embroidered on either standard high-performance premium cloth or available Nappa leather trim with Alcantara® suede inserts. Standard Dodge Performance Pages can keep track of everything from lap and acceleration times to braking distances and G-forces. This real-time data can be displayed on either the 8.4-inch Uconnect® touchscreen or the 7-inch customizable in-cluster display centre nestled between the gauges. For an even greater degree of personalization, customizable settings can be accessed through the Uconnect touchscreen, giving the driver the ability to adjust steering feel, transmission shift points and throttle response.

707
HORSEPOWER

2016: SRT® HELLCAT

//// There's a reason that the only sounds out there are the incredibly aggressive exhaust notes floating from the pipes of the 6.2-litre Supercharged HEMI® SRT Hellcat V8. Push came to shove and it was time for everyone to either put up or keep quiet. We posted our numbers — a mammoth 707 horsepower and 650 lb-ft of torque — and not surprisingly, no one had anything left to say. Dodge Charger SRT Hellcat showcases unrivalled four-door performance that includes an NHRA-certified quarter-mile elapsed time of 11.0 seconds on street tires and 0 – 160 – 0 km/h in under 13 seconds. With numbers like these, Charger SRT Hellcat is the quickest, fastest and most powerful sedan. Ever! At delivery, SRT Hellcat owners are handed both a red and black key fob. The red key unlocks max horsepower while the black key enables a more conservative performance.

Standard SRT Drive Modes tailor the driving experience by controlling horsepower, transmission shift speeds, paddle shifters, traction control and suspension settings through the largest-in-class³ 8.4-inch Uconnect® touchscreen. Preconfigured Drive Modes include: Sport, Track and Default settings, while the Custom Mode allows the driver to configure his/her own unique driving experience. The Bilstein® Three-Mode Adaptive Damping Suspension on Charger SRT Hellcat provides selectable driving dynamics settings that adjust shocks and transmission shifts to suit any drive — Street Mode (sporty) to Sport Mode (firm) to Track Mode (firmest, max handling).

SRT Performance Pages equip drivers with a suite of performance feedback stats including timers, gauges and meters with real-time data for dynamic handling, braking, horsepower, torque and acceleration. With graphic displays and readouts available through the 8.4-inch touchscreen or 7-inch in-cluster display, SRT Performance Pages on the SRT Hellcat keep critical vehicle information at your fingertips, right down to detailed gauges for boost pressure and air-fuel ratio.

8.4-INCH TOUCHSCREEN — LARGEST IN ITS CLASS³

Turn up the tunes, phone a friend and get directions all from available Uconnect[®] offerings. It starts with the standard Uconnect 5.0 multimedia centre with 5-inch touchscreen. Or, opt for the available Uconnect 8.4 with largest-in-class³ 8.4-inch touchscreen and available navigation⁶. The perfect complement to the Uconnect systems is the standard 7-inch customizable display nestled between the gauges on the driver-centric instrument cluster. From here you get real-time information and vehicle status in full colour and with rich graphics. Receive visual notifications for available safety systems, as well as available turn-by-turn navigation⁶ directions.

Here are other ways the upgraded Uconnect multimedia centres keep you informed and connected. Available features include:

ENTERTAINMENT. Tune into SiriusXM satellite radio⁵ for dozens of commercial-free channels, with a new Tune Start feature that starts songs from the beginning when switching between favourite preset channels. Plug into USB connectivity, and check out Bluetooth[®] streaming audio to stream your favourite tracks from a paired, compatible device.

PHONE. Bluetooth pairing of multiple phones, contact syncing⁷, voice-activated hands-free calling⁴ and text messaging⁸. The system can also automatically synchronize up to 1,000 entries from your Bluetooth-compatible phone's address book⁹.

NAVIGATION⁶ Travel in the know, using this intuitive, user-friendly navigation system with turn-by-turn directions. Available 3D displays make travel easy with enhanced 3D imagery of landmarks, city models and digital terrain.

VOICE COMMAND⁴ Use your voice to do what used to be manual: select radio stations and available SiriusXM satellite radio⁵ channels, listen to text messages and send a preformatted response⁸ as well as make/receive calls and select destination entries with available navigation⁶. New for 2016, Siri[®] Eyes Free⁴ allows natural language voice commands with iPhone[®] 4S and later to send text messages, play music, set reminders, place phone calls and access turn-by-turn navigation⁶ directions.

CONTROLS. All your radio, touchscreen and steering-wheel controls are designed to be easy to find and easy to use. Adjust your seat or cabin temperature, select a music station or make a call without taking your eyes from the road. New for 2016 is the Drag and Drop Menu Bar — you can personalize your radio to have one-button access to the features that matter most.

HIGH-PERFORMANCE AUDIO. The available BeatsAudio[™] premium sound system is the ultimate audio experience. Specialized fully integrated speakers allow you to not only hear the music, but to feel it. The BeatsAudio system includes 10 premium speakers with subwoofer and 552-watt amplifier, meticulously tuned to play music the way the artist intended it to be heard. SRT[®] models feature the available 900-watt, 19-speaker Harman Kardon[®] audio system. The system uses GreenEdge[™] speaker and amplifier technology to deliver superior multi-dimensional sound quality and outstanding acoustics for all occupants. Reach the peak of your desired tuning through the available Uconnect system's 8.4-inch touchscreen, allowing music selections from your song library, radio and any compatible device.

//// OFFERS

70+

STANDARD / AVAILABLE
SAFETY & SECURITY FEATURES

Dodge Charger offers more than 70 standard and available safety and security features to help protect you on the road.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP⁹ // Automatically decreases preset cruise-control speed when approaching another vehicle in the same lane, or when another vehicle pulls into the same lane. The available system will accelerate to the preset speed when the vehicle in front speeds up or moves into another lane. Under certain traffic conditions, ACC can bring the Charger to a full stop without driver intervention.

FORWARD COLLISION WARNING (FCW) WITH ACTIVE BRAKING⁹ // Radar and camera technology work together to determine if your vehicle may be approaching an object or another vehicle too rapidly. If so, the available system prefills the brakes, then transmits audible and visual warnings for the driver to intervene; no driver response triggers brief brake application as a tactile alert. If the driver remains unresponsive and a frontal collision risk remains, brakes are applied to slow the vehicle before impact; the system can bring the vehicle to a full stop under certain conditions.

PARK-SENSE[®] REAR PARK ASSIST⁹ // When in Reverse at low speeds, ultrasonic sensors of this available system detect stationary objects. Audible chimes alert you when nearing objects, with a visual reference located in the 7-inch customizable in-cluster display centre.

PARKVIEW[®] REAR BACK-UP CAMERA WITH DYNAMIC GRID LINES⁹ // This available system displays an accurate visual reference of what is behind your vehicle when in Reverse. The dynamic grid lines adjust when the steering wheel is turned to assist drivers when manoeuvring into parking spaces or narrow areas.

LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST⁹ // With a forward-facing camera mounted inside the rearview mirror, this available system determines where the vehicle is positioned between road lines and monitors the vehicle's movement down the road. Should the vehicle begin to move onto either line without activating the turn signal, the LDW system will warn the driver through a slight vibration in the steering wheel. If nothing is done to correct the drift, the system can automatically realign the vehicle to its correct lane position.

BLIND-SPOT MONITORING WITH REAR CROSS-PATH DETECTION⁹ // Dual radar sensors constantly monitor driver blind spots, providing notification of an encroaching vehicle via illuminating icons on the sideview mirrors and by audible chime if the turn signal is activated. The available system includes Rear Cross-Path Detection, which monitors for vehicles and objects in the perpendicular path of the vehicle while in Reverse.

KEYLESS ENTER 'N GO[™] WITH PROXIMITY ENTRY // Keep the keys to your Charger in your pocket or bag and still gain access to your vehicle. Simply lift up on the door handle and the door will unlock. This standard feature also allows for the added convenience of push-button start.

REACTIVE FRONT HEAD RESTRAINTS¹⁰ // The driver and front-passenger reactive head restraints automatically move forward and upward in the event of a rear-end collision. They decrease the space between the head restraint and the occupant's head, which can help provide protection and minimize neck injury.

RAIN-SENSING WINDSHIELD WIPERS // Available sensors detect moisture on the windshield and automatically activate the wipers.

ELECTRONIC STABILITY CONTROL (ESC)¹¹ // Standard ESC enhances directional control and stability in various driving conditions and activates when the driver's desired path (based on steering-wheel position) differs from the vehicle's actual path. Charger's available 3-Mode ESC with Full-Off Mode allows the driver to control the traction dynamics.

WARRANTIES: 2016 Chrysler, Jeep, Dodge and Ram vehicles are backed by a 5-year or 100,000-kilometre fully transferable Powertrain Limited Warranty* with \$0 deductible plus 24-hour roadside assistance. SRT vehicles are backed by a 3-year or 60,000-kilometre fully transferable Powertrain Limited Warranty* with \$0 deductible plus 24-hour roadside assistance. Basic Warranty coverage is for 3 years or 60,000 kilometres.* Rust-through coverage on all body sheet metal is for 3 years. The Cummins Turbo Diesel engine is protected by a separate Limited Warranty, covering the engine for 5 years or 160,000 kilometres.* The EcoDiesel engine is backed by a 5-Year or 100,000-Kilometre fully transferable Powertrain Limited Warranty* with \$0 deductible plus 24-hour roadside assistance.

*Whichever comes first. Some conditions may apply. The 5-Year/100,000-Kilometre Powertrain Limited Warranty does not apply to vehicles sold for certain commercial uses. See your retailer for full details.

MOPAR VEHICLE PROTECTION: FCA Canada Inc. has a vested interest in your satisfaction and owner experience with your new vehicle. Mopar Vehicle Protection offers extended service and maintenance plans to help ensure you'll enjoy your vehicle for many years down the road — for just pennies a day. For more information on comprehensive vehicle coverage, see your local Chrysler, Jeep, Dodge and Ram retailer or call 800-465-2001.

DISCLAIMERS: 1 Fastest, quickest and most powerful claim based on Dodge Charger SRT Hellcat model. Excludes non-mass-production vehicles. Quarter-mile times based on NHRA-certified testing. 2 Based on the latest available competitive information, 2016 *EnerGuide* fuel consumption ratings and *WardsAuto* Large Regular Vehicle segmentation. Excludes other vehicles designed and manufactured by FCA US LLC. 3 Based on the latest available competitive information and *WardsAuto* Large Regular Vehicle segmentation. Excludes other vehicles designed and manufactured by FCA US LLC. 4 Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. 5 Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca 6 Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. 7 Phone must support Bluetooth Phone Book Access Profile (PBAP). 8 Preset voice-to-text messaging and incoming text message reading require a MAP-enabled phone. 9 This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. 10 Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. 11 No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions.
