

2009 Honda Element

More fun. More freedom. More flexibility.
From the inside out.

Take a close look at the redesigned Element. Start with the urethane-coated floor (just one of its dog-friendly features) shown on the cover. Now pull back a little. Check out its purposeful interior, updated grille and headlights, and the new wheels on EX. On every page, you take a few steps back, revealing more features, more functionality. Want an even wider view of what makes the 2009 Element unique? Turn the page.

Man's best friend's best friend.

down seats.

Element EX shown in Citrus Fire Metallic with Titanium Fabric.

elementandfriends.com

Zoom out.

The Element gets its power from a highly efficient¹ 2.4-liter i-VTEC[®] engine. Advanced features like variable valve timing and a Drive-by-Wire[™] throttle system ensure that power delivery is as smooth as it is responsive. Generating 166 horsepower, it gives you a towing capacity of 1,500 lbs,² so you can bring along even more of your fun.

Get a grip.

More adventurous drivers can let all four wheels do the work. Available on LX and EX, RealTime[™] 4-wheel drive senses front wheel slippage and then automatically sends power to the rear to help keep you on your way.

Responsible power.

The latest version of Honda's variable valve timing and lift electronic control not only makes for zippy action, but i-VTEC also boosts the Element's fuel efficiency.¹

Element EX shown in Polished Metal Metallic.

The Element's possibility-expanding powers can even enhance a night on the town. On EX and SC with automatic transmission, the available Honda Satellite-Linked Navigation System™³ with voice recognition provides listings on over 7,000,000 points of interest,* like restaurants and cultural venues.

Premium tunes.

The Element EX keeps things pumping with a 270-watt audio system featuring seven speakers, including a subwoofer. An MP3/auxiliary input jack and XM® Radio* let you really expand your listening options.

Digital fun.

Honda's new USB Audio Interface⁵ on navigation-equipped models gives you greater access to your digital music files. Plug in your compatible player and the system displays song information on the navigation screen and lets you use the vehicle's audio controls.

Keep it handy.

Because there's a place for everything, everything can be in its place. The new, larger overhead console on EX and SC is the perfect spot for things you need easy access to, like sunglasses, CDs and cell phones.

Drive responsibly. Some state laws prohibit the operation of handheld electronic devices while operating a vehicle. For safety reasons, always launch your audio application or perform any other operation on your phone or audio device only when the vehicle is safely parked.

iPod is a registered trademark of Apple Computer, Inc., registered in the U.S. and other countries. iPod not included.

*Some roads unverified. See the navigation system owner's manual for more details on coverage.

Element EX shown with Gray Fabric and available Honda Satellite-Linked Navigation System²

Expand your possibilities.

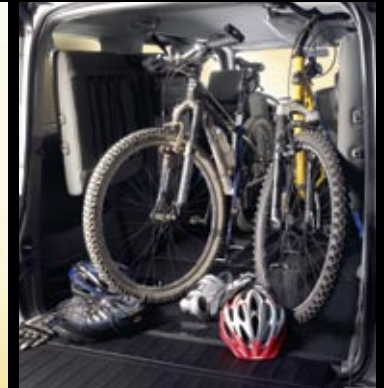

Safe and secure.

Leave the shifting to the Element's 5-speed transmissions. Tie-down anchors, cargo area hooks, multiple storage bins and driver-side seatback bungees (EX) make quick work of even the most unruly collection of gear. Tinted rear glass keeps the sun's rays, or prying eyes, off your stuff.

Open wide.

The Element's wide-opening side cargo doors and clamshell tailgate give you easy access to its 74.6 cubic feet of cargo area.* Built tough, the Element's wipe-down urethane-coated utility floor can take all kinds of abuse while its tailgate can support up to 440 lbs.

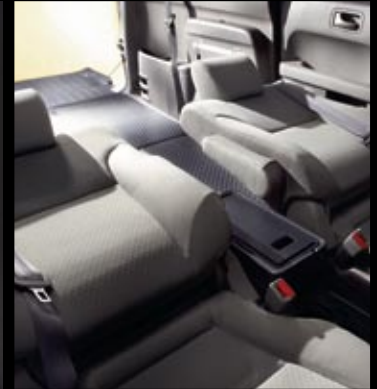

With its multiple seating configurations (64 to be exact), the Element is a case study in how to make the most of every square inch of interior space. Flip seats up, fold them down or take them out altogether to accommodate whatever the weekend activity calls for.

Element EX shown in Alabaster Silver Metallic with Gray Fabric and available Honda Satellite-Linked Navigation System²

The Element's versatile interior was designed with more than just cargo in mind. Its front and rear seats not only recline, but they can be folded back flat as well, letting you really stretch out between drives. And the water- and stain-resistant seat fabric (LX front, EX all) help make the Element a dog owner's second-best friend.

Chill out.

The Element EX's redesigned center console comes complete with a removable cooler. Just slide it out to take some beverages with you or to make room for extra-long items like a surfboard.*

*Honda reminds you to properly secure items stored in the cargo area.

Element EX shown in Alabaster Silver Metallic.

Unconventional. From any angle.

Shown with accessory fog lights.

Head turner.

Like its cousins the LX and EX, the Element SC also has a fresh look for 2009. Its redesigned SC-exclusive front grille, bumper and headlights, as well as a palette of new exterior colors, really help it stand out in a crowd. As if that were ever a problem for Element.

Every Element has "fun to drive" built right in. But the Element SC adds an extra dose of street smarts. Its 4-wheel independent suspension boasts stiffer springs and dampers, bigger sway bars and a lower ride height. Eighteen-inch alloy wheels and low-profile tires round out a ride that is as sporty as the SC's aggressive looks suggest.

Element SC shown in Midnight Red Pearl.

Plug in.

Along with the standard MP3/auxiliary jack and 12-volt power outlet located in the center console, SC models equipped with navigation also feature the new USB Audio Interface⁵ tucked out of sight in the glove compartment.

In the groove.

The 270-watt audio system plays MP3- and Windows Media Audio⁷ (WMA)-compatible CDs. Plus, you can get more than 170 channels of digital-quality sound with the Element SC's XM Radio⁴ receiver.

Think of it as the Element's alter ego. The SC has the same multi-purpose spirit, but a personality all its own. The exterior changes are just the beginning. Inside you'll find plenty of SC-only eye candy like a funky new seat fabric pattern, gloss piano-black trim and plush black carpeting. It's the perfect setting for some serious urban adventures.

Mood rings.

Backlighting the gauges and control knobs as well as accenting the shifter and SC-exclusive steering wheel, the SC's Copper interior trim really pops.

Element SC shown in Midnight Red Pearl.

An outlook on safety.

With standard features like side-curtain airbags, Vehicle Stability Assist™ (VSA®) and a Tire Pressure Monitoring System® (TPMS), as well as a new rearview camera display available on navigation-equipped models, it's evident the Element takes your safety seriously. In fact, it received 5 stars in NHTSA frontal- and side-impact crash tests.*

4-wheel anti-lock disc brakes (ABS).

The power-assisted ventilated front disc and solid rear disc brakes bring the Element to an authoritative stop. Brake Assist helps apply full brake force in some emergency situations. And Electronic Brake Distribution (EBD) helps balance braking forces depending on dynamic loading of the vehicle.

Six standard airbags.

The Element's full array of airbags includes dual-stage, dual-threshold front airbags, front side airbags with passenger-side Occupant Position Detection System (OPDS) and side curtain airbags with a rollover sensor.† In addition, front seat belts feature an automatic tensioning system that tightens the belts in the event of a moderate to severe impact.

Front airbags inflate and deflate in a fraction of a second.

Vehicle Stability Assist (VSA).

Standard on every Element, VSA employs sensors to monitor for oversteer or understeer. If needed, the system can adjust brake pressure at each wheel and/or reduce engine power to help restore the vehicle to its intended path.

Oversteer

Understeer

VSA

Unit-body construction.

Incorporating front and rear crumple zones, the Element's chassis is designed to minimize the amount of crash energy entering the passenger compartment. Side-impact door beams help provide optimal structural protection and help prevent cabin intrusion.

*Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). Model tested with standard side-impact airbags (SABs).

†Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in rear seat.

Element EX shown with Titanium Fabric and available Honda Satellite-Linked Navigation System³

From the inside out. From top to bottom. From back to front. Up close or from a mile away. No matter how you look at it, one thing is perfectly clear: the Element is one of a kind.

Element 4WD EX shown in Crystal Black Pearl.

Expand your perspective.

"We only have one future, and it will be made of our dreams." – Soichiro Honda

but as it could be.

For 60 years, Honda has encouraged

what is currently

possible. All for the purpose of

its associates to aim beyond

progressing human mobility.

This spirit has resulted in advances in environmental technology, like the hydrogen fuel cell FCX Clarity, that brings us closer to a future filled with blue skies. It guides us as we strive to exceed government safety regulations and has led to industry-changing

innovations on the ground, in the water, and, with the HondaJet," in the air. And it

pushes us to use premier

race circuits as testing grounds for our ideas. Moving forward, our minds are

open to new ideas, no matter

where they come from. Because you never know what will be until you discover what can be. dreams.honda.com

Element 4WD EX shown in Crystal Black Pearl, SC in Midnight Red Pearl and EX in Alabaster Silver Metallic.

Stylish. Through and through.

Over 25 years ago, Honda began assembling cars in the United States. Today, almost 4 out of 5 Hondas sold in the U.S. are assembled in North America. Many are developed here, too. And every Honda is a smart value thanks to timeless design, great reliability and extended maintenance intervals. Check out our Best Resale Value Awards⁹ from *Kelley Blue Book's* kbb.com, Best Overall Value Awards from IntelliChoice¹⁰ and – for the fifth year in a row – *Automotive Lease Guide's* prestigious Industry Brand Residual Value Award!¹¹

Want your own look? Ask your dealer about Honda Genuine Accessories. Like the spoiler and the roof attachment shown here, they're all designed to meet the same exacting standards as your new vehicle – a high-quality way to make your new Honda one of a kind.

Your dealer's team of trained technicians is at the ready to help keep your Honda in superb shape. All 2009 Honda vehicles – and any Honda Genuine Accessories installed at the time of purchase – are covered by the 3-year/36,000-mile New-Vehicle Limited Warranty.¹³ Plus, Honda cars and trucks are covered by a 5-year/60,000-mile Limited Powertrain Warranty, too.¹³ For more information or assistance, see your Honda dealer or please give us a call at 1-800-33-Honda.

Visit us at automobiles.honda.com

Get the latest photos, MSRPs, specs and more. You can “build” your own Honda, accessorize it – even ask for a dealer price quote, apply for financing and check dealer inventories online.

HONDA

Financial Services

Whether you buy or lease a Honda vehicle, Honda Financial Services can assist you with the process. Please ask your dealer which lease or purchase plan best suits your needs.

HONDA

Care

Honda Care® is a highly affordable, comprehensive vehicle and travel protection plan backed by Honda reliability, service and parts. Please see your dealer for all the details.

¹ Based on 2009 EPA mileage estimates, reflecting new EPA fuel economy methods beginning with 2008 models. Use for comparison purposes only. Do not compare to models before 2008. Your actual mileage will vary depending on how you drive and maintain your vehicle. ² Towing requires the addition of the Honda accessory trailer hitch and hitch ball. Refer to the owner's manual for additional towing information. ³ The Honda Satellite-Linked Navigation System is available on EX and SC automatic-transmission models in the United States, except Alaska. See your Honda dealer for details. ⁴ Required XM® Radio monthly subscription sold separately after 90-day trial period. Installation costs and other fees and taxes may apply after initial trial period, including a one-time activation fee. All fees and programming subject to change. Subscriptions subject to Customer Agreement available at xmradio.com. XM service only available in the 48 contiguous United States. The XM name is a registered trademark of XM Satellite Radio Inc. ⁵ The USB Audio Interface is used for direct connection to and control of some current digital audio players and other USB devices that contain MP3, WMA or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your dealer for details on compatibility. ⁶ Carrying too much cargo or improperly storing it can affect the handling, stability and operation of the vehicle. Before carrying any cargo, be sure to consult the owner's manual for load limits and loading guidelines. ⁷ Windows Media® Audio is a trademark or registered trademark of Microsoft® Corporation in the United States and/or other countries. ⁸ For optimal tire wear and performance, tire pressure should be checked regularly with a gauge. Do not rely solely on the monitor system. See your owner's manual for details. ⁹ Kelley Blue Book's kbb.com awarded Honda three Best Resale Value Awards for the 2008 Civic, the 2008 Civic Hybrid and the 2008 Odyssey. www.kbb.com/bra08.
