

2010 HYUNDAI\_GENESIS

If you're reading this brochure, chances are you're the kind of automotive enthusiast who, instead of simply opening your wallet and adding a status trophy to your garage, prefers to open something else: Your mind. It's a refreshing attitude that often leads you to discover truly rewarding experiences, from new and unexpected sources.

Like Genesis, from Hyundai.

Nobody was looking for Hyundai to build a luxury car that would challenge the automotive elite. But we did. Nobody expected us to benchmark the industry's best, then apply the art and science needed to meet those marks. But we did. Nobody thought we'd charm the pants off a jury of North America's most esteemed automotive journalists, or be named "The Most Appealing Midsize Premium Car" in 2009 by J.D. Power and Associates.<sup>1</sup> But we did.

And by doing what few people expected of us, we now find ourselves as a car company that a lot of people are starting to think about in a whole new way.

It's 2010. Welcome to Hyundai.

<sup>1</sup>The Hyundai Genesis received the highest numerical score among midsize premium cars in the proprietary J.D. Power and Associates 2009 Automotive Performance Execution and Layout Study.<sup>SM</sup> Study based on responses from 80,930 new-vehicle owners, measuring 245 models and measures opinions after 90 days of ownership. Proprietary study results are based on experiences and perceptions of owners surveyed in February-May 2009. Your experiences may vary. Visit [jdpower.com](http://jdpower.com).

GENESIS 3.8 IN TITANIUM GRAY METALLIC

# MEASURE GENESIS AGAINST OTHER LUXURY SEDANS. WE DID.

You don't half-heartedly enter the luxury performance sedan arena. Not if you expect to earn the respect of drivers whose passions are stoked by the mere mention of such criteria as power-to-weight ratios, torque curves, and skid pad results. Your all-aluminum V8 had better churn out 375 horsepower. Ours does. Your zero-to-sixty sprint had better be over in under six seconds. Ours takes 5.3 seconds.<sup>1</sup> Your skid pad results need to surpass 0.80 lateral g's. Ours pulls 0.87. Your passenger cabin had better be roomy. Ours bests every competitor in its segment in front head room and leg room. And your technology can't be a step behind. Ours includes the use of fiber optics, adaptive front lighting, 5-link front and rear suspension with Amplitude Selective Damping, and audio engineering by Lexicon.

So compare Genesis on the objective measures that get you a seat at the luxury sedan table. And if you find, as *Road & Track* did, that Genesis "puts power down like a BMW and rides like a Lexus,"<sup>2</sup> then by all means, move on to more subjective criteria. Like the aroma of a leather-trimmed interior. The sensations of a driver's seat that can cool or warm. And the sound of an engine as it reaches the sweet spot of its torque curve.

*Road & Track* May 2009

"The Genesis puts power down like a BMW and rides like a Lexus."

<sup>1</sup> *Car and Driver*, July 2009.

<sup>2</sup> *Road & Track*, May 2009.

LOAD

# DESIGNED TO MOVE YOU.

With a drag coefficient of just 0.27, Genesis achieves a remarkably efficient aerodynamic profile that aids fuel economy, enhances handling stability and reduces wind noise. But our designers wanted the shape of Genesis to be more than a technical achievement. They wanted its elegantly chiseled forms to convey strength and power. 18-inch Hyper Silver wheels produce an active sense of movement, even when standing still. A distinctive waterfall grill creates a powerful presence that marks its every detail. The result is a striking design aesthetic - an interpretation of the luxury sedan that is both progressive and timeless.

## ROOM FOR EVERYTHING BUT ARGUMENT.

With a total interior volume of 125.3 cubic feet, Genesis offers more room than a Bentley Arnage and a BMW 750i. But room alone does not define a luxury performance sedan. Detail does. And Genesis is nothing if not meticulously detailed. The soft feel and precisely stitched seams of its premium leather seats. The tailored leather-wrapped dash gracefully arcing beneath the windshield. The handsome woodgrain trim with metal accents. And the advanced technology that brings it all together for a sublime driving experience.

GENESIS 4.6 IN CASHMERE LEATHER

GENESIS 4.6 IN PLATINUM METALLIC

# AN EXTRAORDINARY 375-HP V8.

What has greater horsepower than a Lexus GS 460, an Audi A8 and an Infiniti M45? The 4.6-liter, all-aluminum V8 engine in the Hyundai Genesis. With 375 horsepower at 6,500 rpm and 333 lb-ft of torque at just 3,500 rpm, it's an engine that delivers the broad power band demanded by enthusiast drivers. It also gives Genesis an impressive 10.8 lb/hp power-to-weight ratio. And here's a nice bonus: It can safely run on both premium and regular fuel while still delivering a rush of adrenaline when you plant your right foot.<sup>1</sup>

<sup>1</sup> On regular unleaded fuel, Genesis 4.6L DOHC V8 engine produces 368 HP @ 6,500 rpm and 324 lb-ft of torque at @ 3,500 rpm.

# ARM 8,000 ENGINEERS WITH MORE THAN JUST A SLIDE RULE, AND THEY'LL REINVENT THE RULES.

Put some of the world's brightest engineering minds on the payroll. Give them state-of-the-art facilities to conduct research and development. And you're bound to break some of the old rules for creating a luxury performance sedan. Then again, we always believed rules were meant to be broken.

## ADVANCED 6-SPEED TRANSMISSIONS

Both V6 and V8 Genesis models feature a 6-speed automatic transmission with SHIFTRONIC® and lock-up torque converter for improved highway economy. The V6 has an Aisin® unit, while the V8 is mated to a ZF® model — two of the most respected brands in the world.<sup>1</sup>

## REAR-WHEEL DRIVE ARCHITECTURE

Rear-wheel drive allowed our engineers to place the front wheels farther forward and help Genesis achieve a nearly ideal 52/48 weight distribution. That's why the Genesis exhibits exceptionally neutral handling characteristics and linear steering performance.

## 290-HP 3.8L V6 ENGINE

The V6 Genesis models offers 290 horsepower and 264 lb-ft of torque — respectable figures in any company. But it's what that power feels like that's most impressive. Dual Continuously Variable Valve Timing, multi-point fuel injection and a variable intake system help optimize engine response at low and high rpm. A silent, maintenance-free timing chain ensures the V6 engine's power pours out smooth and quiet. And a ULEV classification means the Genesis V6 produces ultra-low emissions.

<sup>1</sup>ZF® is a registered trademark of ZF Friedrichshafen AG. Aisin® is a registered trademark of Aisin Seiki Co., Ltd.

# EXCEPTIONAL TORSIONAL RIGIDITY.

One of the engineering breakthroughs of Genesis is the ability of its body structure to reconcile the conflicting agendas of ride and handling. With 12-14% more torsional rigidity than a BMW 5 Series or a Lexus LS, Genesis can deliver laser-like steering and handling poise — while at the same time affording its occupants a ride of consummate composure.

## 5-LINK FRONT AND REAR SUSPENSION

Keeping a large, powerful sedan like Genesis planted firmly to the road takes a sophisticated suspension. Genesis uses the precisely tuned geometry of five separate links for both the front and rear wheels to help maintain optimal tire contact when cornering. How exceptional? Genesis pulls 0.87 lateral g's on the skid pad.

## SACHS® ASD<sup>1</sup>

Amplitude Selective Damping (ASD) is an advanced suspension control system that changes the reaction of the shock absorbers based on input from damper sensors on each wheel. The sensors "feel" the road, reading the undulations and bumps and instantly adjusting the damper settings to produce a firm yet predictable response.

To the Genesis driver, this translates into a comfortable ride without sacrificing handling stability or control. ASD also optimizes road-surface contact to help maintain the best connection between the road and the tires for maximum grip.

No wonder Lexus, BMW and Mercedes-Benz use the same technology.

<sup>1</sup>SACHS® is a registered trademark of ZF Friedrichshafen AG.

# SEIZE CONTROL, EFFORTLESSLY.

The Multimedia Controller lets you command a wide variety of functions, including audio, navigation and telecommunication. It also allows you to access the Driver Information System, where you customize a myriad of settings to your liking, from moving the seat and steering wheel for easy entry, to whether door locks "click" when they engage.

## PROXIMITY KEY

Genesis comes standard with Proximity Key. Keep this key comfortably in your pocket or purse, and you can still lock and unlock the doors with just the push of a button on the door handle. You won't need to insert a key to start Genesis, either. Its engine comes to life with push-button start.

## ADAPTIVE FRONT LIGHTING SYSTEM

Imagine you're driving on a curvy road at night. Wouldn't you like a split-second more to see what's coming up ahead: A pothole? A deer? A fallen rock? That's the idea behind our adaptive headlights. This lighting system can adjust the headlight's beam to match the vehicle's steering angle. The superior illumination around turns alerts you to objects or potential road hazards sooner, for improved safety when driving at night.

## REAR CAMERA WITH PARKING SENSORS

With a rear camera and a series of sensors in both the front and rear bumpers, Genesis drivers are alerted to potential hazards when backing out of parking spaces or driveways. If the system senses the presence of objects such as a light pole or another car, it sounds an intermittent warning beep within the cabin that increases in frequency the closer you get to the object. The system's effectiveness is augmented by the rear-view camera, which allows the driver to see below eye level when backing up.

#### COOLED AND HEATED DRIVER'S SEAT

The driver's seat in the Hyundai Genesis is not only heated for those chilly mornings. It's also equipped with a cooling function that helps keep you comfortably cool when the cabin temperatures are warm.

#### INTEGRATED BLUETOOTH®

This system features integrated operation through the navigation and audio systems, as well as voice-activated calling.<sup>1</sup>

#### HD RADIO™

Built-in HD Radio technology gives you crystal-clear, CD-quality sound from your local radio stations as well as extra local FM channels with more music, news and sports. You'll enjoy on-screen text such as song titles and artists' names, all without a subscription.

## PREMIUM NAVIGATION

Genesis guides you via an advanced navigation system featuring an 8-inch VGA monitor and map data with points of interest stored on a 40 GB hard drive. A speech dialog system lets you enter addresses by speaking them. And XM NavTraffic® satellite traffic information — available through a complimentary 90-day subscription — provides real-time traffic updates right on your screen.<sup>2</sup> So you can avoid delays and get to your destination as quickly as possible.

#### LEXICON® DISCRETE AUDIO

The Lexicon name is revered among audiophiles. Genesis features the Lexicon 7.1 Discrete audio system with an 11-channel, 528-watt digital amplifier and 17 speakers. The result is among the most immersive audio experiences ever available in an automobile. Besides Genesis, Rolls Royce is the only other car to offer it.

#### XM® SATELLITE RADIO

Enjoy 170 digital channels from coast to coast, including the biggest names in commercial sports and talk.<sup>2</sup>

#### INPUT JACKS

Two auxiliary input jacks are available for connecting portable music such as an iPod® to the audio system. There's a stereo mini jack and a USB port. iPod integration is enabled when used with the available accessory cable.<sup>3</sup>

<sup>1</sup>The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Hyundai is under license. Other trademarks and trade names are those of their respective owners. <sup>2</sup>XM® Satellite Radio and XM NavTraffic® require XM subscription sold separately after complimentary introductory period. All fees and programming subject to change. XM NavTraffic only available in select markets. See your dealer for details. XM service only available in the 48 contiguous United States. The XM name is a registered trademark of XM Satellite Radio Inc. All other trademarks are property of their respective owners. <sup>3</sup>iPod is a registered trademark of Apple Inc.

GENESIS 4.6 IN PLATINUM METALLIC

# EIGHT AIRBAGS. FIVE STARS. A SINGULAR COMMITMENT.

Genesis comes standard with some of the most advanced safety technologies available. From eight airbags<sup>1</sup> to an ultra-high-strength steel body, to passive safety systems that help protect you in the event of an accident, to active systems that help you avoid them in the first place, Genesis was engineered as if lives depended on it. Because they do.

In government crash tests, Hyundai Genesis received five stars, the highest safety rating. These included tests of crash performance in frontal collision, side impact and rollover situations.

<sup>1</sup>The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.

# ESC SAVES LIVES.

The NHTSA estimates that if every car were equipped with Electronic Stability Control (ESC), 35% of all single-vehicle accidents could be avoided.<sup>1</sup> That's why every Genesis comes equipped with ESC. It monitors such factors as wheel speed, steering angle and lateral g-forces. When ESC senses a skid is imminent, it adjusts brake and throttle inputs to help keep your Genesis on its intended path.

#### ANTI-LOCK BRAKES

The Anti-lock Braking System (ABS) that's standard on Genesis is intended to help the driver maintain steering control during emergency braking situations. Electronic Brake-force Distribution maximizes the brake pressure at each wheel to further improve braking performance.

#### TRACTION CONTROL

For greater control in treacherous driving conditions, Genesis uses an advanced Traction Control System (TCS) that senses wheel spin during acceleration. Engine power is reduced and/or braking pressure is applied to the wheel that is slipping, effectively re-routing power to the wheel that has greater traction.<sup>2</sup>

#### ELECTRONIC ACTIVE HEAD RESTRAINTS

Whiplash is one of the most common injuries in a rear-end collision. Which is why the front-seat head restraints in Genesis are active — designed to move forward instantly on impact to help reduce the likelihood of a severe neck injury. And because they are electronic, they react faster than mechanical systems, increasing their effectiveness.

#### BRAKE ASSIST

Studies show that drivers frequently don't apply brake pedal pressure hard enough, or quickly enough, in a panic stop. Brake Assist senses emergency braking situations, and immediately applies maximum braking pressure to help shorten the vehicle's stopping distance. Because a few extra feet can sometimes make all the difference.

#### HID XENON HEADLIGHTS

They're auto-leveling and significantly brighter than conventional lamps for better visibility.

<sup>1</sup> Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will effect whether ESC can help prevent loss of control. See Owner's Manual for details.

<sup>2</sup> The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

GENESIS 4.6 IN PLATINUM METALLIC

# AMERICA'S BEST WARRANTY.

What does a warranty say about a car? Well to us, it says we have the utmost confidence in its quality — so much so, that we're willing to stand behind our vehicles long after you've driven off the dealer's lot. Think about our 10-year, 100,000-mile powertrain warranty.<sup>1</sup> Ten years ago, people thought the internet was a passing fad. That's a pretty long time.

## AMERICA'S BEST WARRANTY

## 2010 GENESIS\_FEATURES

### SAFETY FEATURES

	GENESIS 3.8	GENESIS 4.6
Electronic Stability Control (ESC) with Traction Control System (TCS)	S	S
4-wheel Anti-lock Braking System, Electronic Brake-force Distribution (EBD), Brake Assist	S	S
Advanced Driver and Front Passenger Airbags (SRS) with Occupant Classification System (OCS)	S	S
Front and Rear Side-impact Airbags (SRS), seat-mounted	S	S
Front and Rear Side-curtain Airbags (SRS), roof-mounted	S	S
Electronic Active Front Head Restraints	S	S
3-point Seatbelts, all seating positions; front seatbelt pretensioners, force limiters, adjustable belt anchors	S	S
Tire Pressure Monitoring System (TPMS)	S	S
Front and Rear Crumple Zones	S	S
Anti-theft System with Engine Immobilizer	S	S

### EXTERIOR FEATURES

Automatic Headlights	S	S
High Intensity Discharge (HID) Xenon Auto-leveling Headlights	T	T
Adaptive Front Lighting System (auto-cornering)	T	T
Front Fog Lights	S	S
Solar Control Glass	S	S
Dual Folding Heated Power Side Mirrors with Turn Signal Indicators	S	S
Proximity Key Entry	S	S
Rain-sensing Windshield Wipers	P	S
Front and Rear Parking Assistance Sensors	T	T
Rearview Camera	PN	S
Lower Bodyside Chrome Trim	–	S

### INTERIOR FEATURES

Power Tilt-and-slide Sunroof with One-touch Open/Close and Sliding Sunshade	P	S
Dual Front Automatic Temperature Control with Outside Temperature Display	S	S
Auto-defogging Windshield with Humidity Sensor	P	S
In-dash Navigation System with Touchscreen Display and XM NavTraffic®	PN	S
In-dash Navigation System with Multimedia Controller, Driver Information System (DIS) and XM NavTraffic®	T	T
Lexicon® Surround Sound Audio with 14 Speakers	P	S
Lexicon 7.1 Discrete Surround Sound Audio System with 17 Speakers	T	T
In-dash 6-disc CD Changer	P	–
In-dash 6-disc DVD Changer	T	T
Turn signal lever – EZ Lane Change Assist	S	S
XM® Satellite Radio <sup>1</sup>	S	S
iPod® / USB and Auxiliary Input Jacks	S	S
Leather-wrapped dashboard and door trim inserts	P	S
Smart Cruise Control	T	T
Integrated Bluetooth® hands-free phone system	S	S

## 2010 GENESIS LINE UP

3.8

### STANDARD FEATURES INCLUDE:

- 3.8L DOHC V6 with 290HP
- 6-speed automatic with SHIFTRONIC®
- 4-Wheel disc brakes with Brake Assist
- Electronic Stability Control (ESC) with Traction Control System (TCS) and Anti-lock Braking System (ABS)
- Dual front airbags, front and rear side-impact airbags, and roof-mounted side curtain airbags
- Electronic active front head restraints
- Fog lights
- Automatic headlights
- 17" Alloy wheels with P225/55R17 tires
- Acoustic laminated windshield and front windows
- Power heated body-colored side mirrors with turn signal indicators
- Leather seating surfaces
- Heated front seat
- Power front seats
- Cruise control
- Electroluminescent cluster gauge
- Proximity key with electric push button start
- Leather-wrapped, tilt steering wheel with audio controls
- Dual automatic temperature control
- Electrochromic auto-dimming inside rearview mirror
- HomeLink® integrated transceiver
- iPod®/USB and auxiliary input jacks
- Bluetooth® hands-free phone system
- Carpeted floor mats

### OPTIONAL GENESIS 3.8 PACKAGES:

- **Premium Package (P):**
  - Power tilt-and-slide glass sunroof / Ultra-premium leather seating surfaces / Tailored leather-wrapped dash & door trim inserts / Integrated memory system (IMS) / Power tilt-and-telescopic steering wheel / Power rear sunshade / Lexicon® 14-speaker surround sound audio, 6-disc CD-changer, HD Radio® / Rain-sensing wipers with auto defogging windshield
- **Premium Navigation Package (PN):**
  - Requires Premium Package Plus:
  - 18" Hyper Silver alloy wheels with P235/50R18 tires / DVD navigation system with touchscreen and XM NavTraffic® (90-day trial) / Rearview camera / Deletes HD Radio® Technology and 6-disc CD-changer

### Technology Package (T):

- Requires Premium Package Plus:
  - Lexicon® 17-speaker 7.1 discrete audio system / Navigation system with 6-disc DVD changer and XM NavTraffic® (90-day trial) / Driver Information System (DIS) with multimedia controller / Bluetooth® hands-free phone system with integrated display / Smart cruise control / Electronic parking brake with automatic vehicle hold / HID Xenon, adaptive (auto-cambering) headlights / 18-inch Hyper Silver split-spoke alloy wheels with P235/50R18 tires / Rearview camera / Front & rear parking assistance system / Cooled driver seat

4.6

### INCLUDES STANDARD GENESIS 3.8 FEATURES PLUS:

- 4.6L DOHC V8 with 375HP (premium fuel) / 368HP (regular)
- ZF® 6-speed automatic transmission with SHIFTRONIC®
- 18-inch Hyper Silver split-spoke alloy wheels with P235/50R18 tires
- DVD navigation system with touchscreen and XM NavTraffic® (90-day trial)
- Chrome lower bodyside moldings
- Ultra-premium leather seating surfaces
- Tailored leather-wrapped dash & door trim inserts
- Power tilt-and-slide glass sunroof
- Power tilt-and-telescopic steering wheel
- Integrated memory system (IMS)
- Lexicon® 14-speaker surround sound audio
- Rearview camera
- Illuminated door sill plates
- Woodgrain-trimmed leather steering wheel
- Electrochromic auto-dimming side mirrors
- Power rear sunshade
- Rain-sensing wipers with auto defogging windshield

### OPTIONAL GENESIS 4.6 PACKAGE:

- **Technology Package (T):**
  - Lexicon® 17-speaker 7.1 discrete audio system / Navigation system with 6-disc DVD changer and XM NavTraffic® (90-day trial) / Driver Information System (DIS) with multimedia controller / Bluetooth® hands-free phone system with integrated display / Smart cruise control / Electronic parking brake with automatic vehicle hold / HID Xenon, adaptive (auto-cambering) headlights / Rearview camera / Front & rear parking assistance system / Cooled driver seat
