

CITROËN C1

CITROËN C1

SMALL WHERE IT MATTERS, BIG WHERE IT COUNTS. PERFECTLY ADAPTED TO LIFE ON THE CITY STREETS, THE CITROËN C1 IS ULTRA-ECONOMICAL, SAFE AND NOW MORE STYLISH THAN EVER WITH TWO BRAND NEW MODELS IN THE RANGE.

AMAZINGLY COMPACT, THE CITROËN C1 MAKES LIGHT WORK OF TIGHT SPACES AND TRICKY MANOEUVRES, BUT IT'S BIG WHERE IT COUNTS – ON ECONOMY AND THE ENVIRONMENT. THIS IS A CAR THAT SHARES YOUR PRIORITIES!

CITROËN C1

STYLISH, SIMPLE, EFFORTLESS.

FORM AND FUNCTION ARE IN PERFECT HARMONY WHEREVER YOU LOOK ON THE CITROËN C1.

THE CURVES AND FORMS AND TECHNOLOGY THAT MAKE IT UNIQUELY DISTINCTIVE, ALSO MAKE IT EASY, FUN AND SAFE TO TRAVEL IN. FROM THOSE SHORT OVERHANGS AND ROBUST BUMPERS TO THE CLEVERLY PLACED CLEAR CONTROLS, THE DETAILS MAKE A WORLD OF DIFFERENCE.

Vital driving controls are grouped closely around the steering wheel for fingertip control, so the driver can concentrate on the main event – driving. An amazingly tight turning circle and standard variable power assisted steering also makes the Citroën C1 perfectly adapted to nipping about in the city, whilst the clear and bold speedometer really adds to the sense of fun.

> LIGHT FANTASTIC

Elevated rounded headlamps make the Citroën C1's characterful face instantly recognisable, while the daytime-running LEDs, standard on Edition and Platinum, give a dazzlingly cool stare. Front fog lights come as standard on the Platinum completing the refreshing, dynamic look.

> CONNECT NOW

Let the Citroën C1 talk to your phone or MP3 through this simple dashboard Bluetooth® system and USB socket, standard on Platinum or optional on Edition, leaving you to concentrate on the road.

> GO WITH THE FLOW

Even the cabin's air vents harmonise with Citroën C1's curvy themes – nothing interrupts the flow!

> OUTSIDE IN

A stylish flourish – the upper door panels are painted to match the chosen exterior colour.

FREEDOM IN COMFORT. COMPACT, AGILE AND DESIGNED TO RAISE A SMILE EVERY TIME YOU JUMP IN, THE CITROËN C1 INSPIRES A SENSE OF FREEDOM, EVEN ON THE BUSIEST CITY STREETS.

WHAT'S THE SECRET? A MIXTURE OF VIBRANT STYLING, PRACTICAL THINKING AND PURE VERSATILITY IN ONE UNIQUE PACKAGE.

› HIGH VOLUME

The boot of the Citroën C1 transforms from a useful 139 litres under the parcel shelf, right up to 751 litres with the rear seats folded down. This is still a capacious 712 litres on 3-door models. The large rear window is also a wide opening tailgate for optimum access.

› IT'S ELECTRIC

As you would expect, front electric windows are standard on Edition and Platinum for complete convenience.

› MUSIC NON-STOP

A CD Player is standard, and in addition you can plug your MP3 player into the front panel.

› IN THE DETAILS

Even the shape of the main air conditioning switch, standard on Edition and Platinum models, echoes the dashboard design and the whole car's vibrant persona.

› SUPERSTORE

The Citroën C1 has plenty of storage compartments spread between the dashboard, centre console and doors – there are two situated immediately above and below the CD player for really easy access.

› HIDDEN ASSETS

Two cup holders and a 12 volt socket are concealed under the centre console.

SAFE AND ENVIRONMENTALLY SOUND.

IT'S NO SURPRISE THAT AN INNOVATIVE,
EFFICIENT CITY CAR HAS GREAT
ENVIRONMENTAL CREDENTIALS, BUT AT
99G/KM, CITROËN C1 GOES EVEN FURTHER...

MANUAL MODELS PRODUCE CLASS DEFINING CO₂ EMISSIONS OF JUST 99G/KM AND CAN REACH UP TO 74.3MPG ON THE EXTRA URBAN CYCLE, AND EVEN AROUND TOWN THEY WILL RETURN 55.4MPG. EFFICIENCY IS ENGINEERED IN EVERYWHERE.

> NO COMPROMISE PROTECTION

Despite its ingenious compactness, there is nothing minimal about Citroën C1's safety features, with a massively strong passenger compartment and carefully engineered crumple zones, its entire structure is designed to protect.

> LOOKING AFTER EVERYONE

Powerful ABS and Electronic Brakeforce Distribution (EBD), Emergency Braking Assistance (EBA), driver's and front passenger's airbag, Electronic Stability Programme (ESP), front lateral and curtain airbags and ISOFIX child seat anchorage points on the rear split/folding 50/50 seats are all included as standard across the range. With the addition of remote control central locking, standard on Edition and Platinum models, this is a city car that looks after itself and you, whilst minimising its environmental impact.

PERSONAL CHOICE. THE CITROËN C1 COMES IN THREE DISTINCT FLAVOURS AND TWO BODY STYLES. WHICHEVER FEELS RIGHT, YOU WILL BE CHOOSING A GREAT CITY CAR WITH PERSONALITY TO SPARE.

VT. STREETWISE AND STYLISH.

STEP INTO THE CITROËN C1 VT AND THE VIEW IS INSTANTLY DIFFERENT. NARROW BUSY STREETS LOOK WIDER. PARKING SPACES APPEAR AND GAPS IN THE TRAFFIC SEEM TO GROW. YOU CAN MAKE THE MOST OF IT ALL, THANKS TO THE CLEVER VARIABLE POWER ASSISTED STEERING THAT ADAPTS TO EVERY NEW TWIST AND TURN.

> TOMTOM CHOICE

Choose from two TomTom Start 20 models. Both Start 20 UK & ROI and Start 20 Europe include plenty of great features such as 4.3" high quality touch screen, IQ routes and advanced lane guidance.

> 1 MUDFLAPS

Contoured front and rear mudflaps protect bodywork and enhance safety in poor weather.

> 2 ALLOY WHEELS

Add your personal touch with our alloy wheel range. These alloys have been designed and developed featuring a bold design with clean lines, alloy wheels are one of the few parts that can profoundly affect a vehicle's appearance.

> 3 REAR SPOILER

This rear spoiler accentuates the vehicle's posture on the road and reinforces the vehicle's personality by giving it even more dynamism and style.

> 4 SUNROOF

If you love the feel of the outdoors whilst motoring, a tilt and slide manual sunroof is available to get you closer to nature.

> 5 PARKING SENSORS (FRONT & REAR)

Parking becomes stress-free with Citroën's front and rear parking sensor kit, which is subtly integrated into your new Citroën C1's bumpers.

> 6 ROOF BARS

Citroën roof bars have been designed to allow for the most secure moving of your luggage, bicycles or roof boxes etc. Our quality testing programme guarantees that not only do they look good but that you can use them with complete confidence too.

EFFICIENCY MINUS COMPROMISE. CITROËN HAS CREATED FUELEFFICIENT VEHICLES WITHOUT SACRIFICING DRIVER ENJOYMENT FOR SOME TIME. THE LATEST ADVANCES TAKE THIS FINE BALANCE FURTHER STILL...

WITH THE PROVEN CREDENTIALS AND ENVIRONMENTAL PERFORMANCE OF CITROËN HDi DIRECT INJECTION ENGINES AS INSPIRATION, e-HDi ADDS NEW TECHNOLOGY, SUCH AS A SMOOTH, SIMPLE STOP & START SYSTEM AND ETG GEARBOX. STOP & START PUTS THE ENGINE INTO IDLE MODE AS YOU DECELERATE AND STOPS ALTOGETHER AS YOU COME TO A HALT. THE MOMENT YOU TAKE YOUR FOOT OFF THE BRAKE, IT RESTARTS SILENTLY AND WITHOUT VIBRATION. THE RESULTS ARE A DRAMATIC REDUCTION IN BOTH FUEL CONSUMPTION AND CO₂ EMISSIONS, COMBINED WITH RESPONSIVE PERFORMANCE WHEREVER YOU GO.

We've also been equipping more of our vehicles with more environmentally friendly breakthroughs, such as our Efficient Tronic Gearbox (ETG), which boasts impressively greener credentials, with less pollution and up to 5% more economy than a conventional manual gearbox system. In addition, Citroën has expanded the use of the exceptionally efficient, self-regenerating Diesel Particulate Filter System in our models. Cleaner, greener driving without taking away from the drive – that's what you can continue to expect from Citroën.

> PURE TECHNOLOGY

Demonstrating Citroën's commitment to Créative Technologie, PureTech engines provide increased power with lower fuel consumption and emissions by adopting a smaller and lighter three cylinder configuration constructed of pressure-cast aluminium. In conjunction with low friction component coatings, improved air and fuel flow and optimised combustion, this allows engines to offer more power, better fuel economy and significantly lower CO₂ emissions.

> AIRDREAM – A BENCHMARK

Citroën's environmental commitment and advanced efficiency are perfectly illustrated by Airdream. It's a benchmarking scheme that has three demanding criteria which a vehicle must achieve before it can wear the name. Firstly it must emit no more than 140g/km CO₂. Secondly it must be produced at a plant that meets the rigorous ISO 14001 certification and also it must be 95% recoverable. Only e-HDi, electric or Hybrid4 engined Citroëns currently qualify. It's no surprise that Citroën is one of the leaders in Europe for low CO₂ emissions.

> ELECTRIFYING. HOWEVER YOU LOOK AT IT

Forget what you know about electric cars. Citroën Survolt concept combines undiluted glamour with advanced sporting dynamics, then adds a 100% electric drivetrain. Outside, LED lights, voluptuous curves, two-tone charcoal and fuchsia paintwork, and a race-inspired rear spoiler meet your gaze. Inside, a stunning blend of curved chrome, swooping glass, high technology and organic forms welcomes you to an entirely new place. But this is no simple styling exercise. At heart, Survolt is even more radical, because although it is designed to thrill, it is powered purely by silent, efficient, clean electricity.

GLOSSARY

› ANTI-LOCK BRAKING SYSTEM (ABS)

Computer-controlled braking assistance designed to prevent the wheels from locking under extreme braking. This enables the car to continue being steered and therefore controlled during this braking incident. The Citroën C1's ABS system is further enhanced with EBA and EBD.

› ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

A conventional ABS system cannot account for any of the four wheels wanting to lock more quickly than the others (for example, two of the wheels may be on snow and two on tarmac). EBD reads the deceleration rate of each wheel individually and applies the ABS principles accordingly.

› EMERGENCY BRAKING ASSISTANCE (EBA)

As drivers we find it difficult to instinctively brake very hard, but this is often what is needed in those rare emergency situations. The EBA system recognises our 'attempt' to brake hard and in combination with the ABS and EBD systems instantly applies the maximum stopping power possible.

› CORNERING STABILITY CONTROL (CSC)

When braking on a bend, the weight applied to the wheel on the inside of the turn is less than the weight applied to the wheel on the outside of the turn. If the braking pressure is identical on the wheel on the inside of the turn and on the wheel on the outside of the turn, the vehicle tends to move straight ahead, therefore under-steering. The CSC function distributes the pressure on the right and left wheels in such a way as to slow the vehicle down while guaranteeing its steerability.

› CONNECTING BOX

Integrated Bluetooth® hands-free phone function with USB socket and jack to plug in a portable MP3 player.

› VARIABLE POWER ASSISTED STEERING

A system that provides extra power assistance for a vehicle's steering at low speeds (such as turning a sharp corner) and less assistance during high-speed situations.

› FRONT SEAT BELT PRE-TENSIONERS

In the event of a crash, a pre-tensioner will tighten the seat belt almost instantaneously. This reduces the load on the occupant in a violent crash. Like airbags, pre-tensioners are triggered by sensors in the car's body, and use explosively expanding gas to drive a piston that retracts the belt. Seatbelt pre-tensioners also lower the risk of 'submarining', which is when a passenger slides forward under a loosely worn seat belt.

› RADIO DATA SYSTEM (RDS)

A traffic information on FM radio, allowing the station name and other information to be transmitted alongside audio information.

› ELECTRONIC STABILITY PROGRAMME (ESP)

This is computer-controlled traction assistance and is provided primarily through the braking systems. The ESP's control unit constantly compares where the driver intends going (through the position of the steering wheel) with where the vehicle is actually going and, if necessary, makes speed corrections to each wheel individually through braking or engine torque to keep the vehicle 'in line'.

› ISOFIX

A standardised and more simple method for installing child seats, each seat is 'clicked' into place via a three point system. On the Citroën C1, Isofix is installed on the outer rear seats.
