

The Power to Surprise

2017
K900

K 900

MADE FOR [DISTINCTION]

Why follow a well-worn path when you can create a path of your own? That mode of thinking applies to the way you select a truly ground-breaking luxury automobile. It also describes how Kia Premium pursued its reinvention of luxury driving – a pursuit that reaches its ultimate expression in the 2017 Kia K900. It's the rear-drive performance luxury sedan that embodies a fresh and unpretentious approach that's sure to heighten your enthusiasm. Highlights include everything from the supremely confident performance of the available 420-horsepower⁷ 5.0L Gasoline Direct Injection (GDI) V8 engine to such top-tier amenities as the concert-hall sound quality of the premium Lexicon Discrete Logic 7^{®4} surround-sound audio system. The exquisite craftsmanship of the glove-soft Nappa leather trim and genuine wood trim accents rounds out the experience with exceptional refinement. In the 2017 K900.

INTERNATIONAL MODEL SHOWN. Some features may vary.

IT LEADS BY EXAMPLE.

When you're entering uncharted territory, you need to have a singular sense of direction. Kia knew exactly how it wanted to transform performance luxury driving to deliver on "The Power to Surprise". The results are on vivid display in the K900, beginning with its evocative design. The superbly balanced, extended wheelbase rear-drive platform provides a solid foundation for the scintillating performance of the 311-horsepower 3.8L GDI V6 engine or the available 420-horsepower⁷ 5.0L GDI V8. The robust power is complemented by the K900's precision shifting eight-speed automatic transmission with its shift-by-wire gear selector. When you get behind the wheel of the K900, you're certain to share Kia's genuine passion for performance.

**INNOVATIVE
TECHNOLOGY —
NOW ON YOUR RADAR.**

Kia never uses technology for technology's sake. The objective is simply to take full advantage of the latest advances to provide you with a smarter way to drive. The K900 is equipped with an impressive array of systems that help monitor the driving environment while relaying real-time information to you instantaneously. Innovative features include Advanced Smart Cruise Control, Lane Departure Warning System and Rear Cross-Traffic Alert.¹ In addition, there's Blind-Spot Detection with Lane Change Assist,¹ which uses radar to help detect vehicles that you may not otherwise see. Onboard radar — yes, a new era in luxury driving is already here.

THE FULL PICTURE.

The better the information flow between you and the car, the more intuitive your driving. The K900 uses innovative systems to heighten your awareness, while minimizing distractions. The best example is the Heads-Up Display (HUD) instrumentation. This technology enables you to see important information, such as vehicle speed, projected onto the windshield – so your sights can remain fixed on the road ahead. An available 360° Camera Monitoring and Parking Guide System¹ offers another example of technology that helps you anticipate and manage your driving. Yet another helpful heads up.

Vehicle as shown available only with special order on V8 Elite model.

INTELLIGENT

Drill down further into K900's use of advanced technology and you'll discover how these systems work intelligently to help you simplify many common, yet complex functions. Whether parallel parking, merging with city traffic, or regulating your speed with the aid of the standard Advanced Smart Cruise Control, K900 helps make it easier to perform many of driving's more challenging tasks.

HEADS-UP DISPLAY¹

The Heads-Up Display (HUD) projects information like speed, navigation route, Blind-Spot Detection and Advanced Smart Cruise Control status onto the windshield glass in the driver's line of sight. The display's brightness adjusts automatically to outside lighting changes and the display's positioning on the windshield can be changed to suit your preferences.

360° CAMERA MONITORING¹

Available 360° Camera Monitoring uses four cameras located at the front, rear and sides to provide a view all the way around the vehicle. This helps enhance driver visibility when manoeuvring into parking spaces.

BLIND-SPOT DETECTION WITH LANE CHANGE ASSIST¹

Mirror-mounted radar systems allow for Blind-Spot Detection with Lane Change Assist to detect if your vehicle is moving out of its lane without signalling and provides you with audible and visual warnings.

ADVANCED SMART CRUISE CONTROL¹

Advanced Smart Cruise Control uses radar to maintain a predetermined distance from the vehicle directly ahead, automatically slowing or accelerating your K900 as appropriate.

INNOVATIVE

Innovation is all about challenging the status quo. It starts by probing and questioning. It ends up with inventions that leave the past behind. Examples abound in the K900. Who says gear changes must use a mechanical link? Kia's engineers developed a shift-by-wire shifting system that's purely electronic. Or how about available doors that gently close themselves? That's the innovative science of automotive engineering as practised by Kia.

VOICE-COMMAND NAVIGATION³

Featuring a vivid 9.2 inch colour LCD screen, the convenient voice-command navigation system delivers quick access to vehicle and road information.

DRIVER INFORMATION SYSTEM CONTROL

A control dial with direct access buttons and intuitive operation provides easy access to a range of systems, including entertainment and voice command navigation functions.

LEXICON^{®4} AUDIO SYSTEM

A premium 900 watt Lexicon Discrete Logic 7^{®4} surround-sound system with 17 speakers and a 12 channel digital sound processor provides extraordinarily clear, balanced audio entertainment that driver and passengers may enjoy to the fullest.

POWER TRUNK (SMART OPEN) & POWER PULL-IN DOORS

For maximum convenience with minimal effort, the power closing trunk and available power pull-in doors gently close themselves. The power-closing trunk reverses operation when an object is sensed that prevents proper closing.

REAR CROSS-TRAFFIC ALERT¹

The Rear Cross-Traffic Alert warns the driver of crossing traffic when your K900 is in reverse by activating audible and visual alerts to help reduce the potential of a collision.

LANE DEPARTURE WARNING SYSTEM¹

The Lane Departure Warning System is designed to detect if your K900 is moving out of its lane without the turn signal being activated. If that occurs, the advanced system alerts you with a combination of audible and visual warnings.

AUTONOMOUS EMERGENCY BRAKING SYSTEM¹

This system is designed to detect and monitor vehicles traveling ahead of you. It then automatically applies the brakes if it determines a crash is imminent, helping to avoid a collision or mitigate the effects of a collision if it cannot be avoided.

ADAPTIVE FRONT LIGHTING SYSTEM

For optimal visibility while driving at night, the Adaptive Front Lighting System (AFLS) works with the High-Intensity Discharge or available LED headlights to deliver a varying beam pattern based on vehicle pitch and steering angle.

THIN-FILM TRANSISTOR LCD CLUSTER

Using advanced Thin-Film Transistor (TFT) technology, the available 312 mm (12.3 inch) high-definition Supervision cluster features precise graphics and gives the driver a range of information with exceptional clarity.

POWER-FOLDING OUTSIDE MIRRORS

You can easily fold in the outside mirrors using a door-mounted control or the key fob. The mirrors also feature auto-dimming, integrated perimeter approach puddle lamps, along with lighting around the driver's door handle, for nighttime convenience.

SHIFT-BY-WIRE GEAR SELECTOR

A sleek electronic gear selector delivers fast, smooth gear changes thanks to advanced shift-by-wire technology that replaces any mechanical link between the gear selector and the transmission.

SOUND-INSULATING LAMINATED GLASS

For a remarkably quiet and luxurious drive, the windshield and front- and rear-door windows feature specially laminated sound-insulating glass. It incorporates two distinct layers of thin film on each side of the windows' insulating centre layer.

CONNECTS WITH MUCH MORE THAN THE ROAD.

One trip behind the wheel of the K900 will reveal its highly responsive brand of performance. The suite of onboard navigation and entertainment systems are equally responsive to your input. All K900 models are equipped with Kia's multimedia interface, combining a dynamic display, brilliant graphics and speech recognition technology³ for precise control of multiple systems and their functions.

DRIVER INFORMATION SYSTEM CONTROL

A control dial with direct access buttons and intuitive operation provides easy monitoring of a wide range of onboard systems.

MEDIA AND MUSIC INTEGRATION

The interface provides hands-free connectivity for your Bluetooth®-enabled cell phone⁶. It also supports digital music streaming from your iPod^{®5} or other USB-connected music sources, as well as the system's internal hard drive. Your music is accompanied by extra-large album artwork on the screen.

FRONT AND REARVIEW CAMERA DISPLAYS¹

The multimedia interface automatically displays a high-resolution image from either the vehicle's front or rearview cameras. Like an extra set of eyes, they show you what you might not see in the rearview mirror or below the hood-line in front of you.

360° CAMERA MONITORING¹

An available 360° Camera Monitoring system uses four cameras located at the front, rear and sides to provide a view around the vehicle. This helps enhance driver visibility when manoeuvring into parking spaces.

PREMIUM AUDIO SYSTEM INTEGRATION

The multimedia interface is fully integrated with K900's premium Lexicon^{®4} Audio System – a concert-hall quality system featuring 17 precisely positioned speakers, including a subwoofer, centre channel speaker, in addition to an external amplifier.

ONBOARD NAVIGATION³

K900's standard onboard navigation system is also fully integrated with the multimedia interface. Call up a destination or find a point of interest and the K900 will lead you there.

A high-angle, wide shot of a car's interior, showcasing the front and rear seats. The seats are upholstered in dark leather with a prominent diamond-quilted pattern on the seat cushions and backrests. The center console and door panels also feature this quilted leather. Wood trim accents are visible on the dashboard, steering wheel, and door panels. The steering wheel has a three-spoke design with wood and leather. The dashboard includes a large infotainment screen displaying a navigation map. The overall aesthetic is one of luxury and craftsmanship.

THE GENIUS IS
IN THE DETAILS.

Superior craftsmanship and meticulous attention to detail combine to create a truly luxurious interior. In K900, you'll appreciate how the elegance of its design is enhanced by the selection of available high-end materials, such as supple, premium Nappa leather trim and genuine wood trim accents. Exceptional interior spaciousness and a three-zone climate-control system translate into first-class comfort at every seating position. In addition, extensive interior sound insulation dramatically reduces road noise so you and your passengers can enjoy a quiet ride in absolute comfort. Clearly, the more detailed your knowledge of K900, the deeper your appreciation.

A SEAT RESERVED EXCLUSIVELY FOR YOU.

1. HEATED AND AIR-COOLED SEATS

Enjoy optimal comfort year-round thanks to heated front and rear seats with multiple temperature settings, in addition to air-cooled front and available air-cooled rear seats.

2. POWER SEAT CUSHION EXTENSION

A power-adjustable driver's seat cushion extension provides extra support and allows drivers to select their own personalized comfort settings.

3. REAR-SEAT CENTRE CONTROLS

A control panel allows convenient adjustment of the second-row climate system and the power rear-window sunshade – as well as the rear seats' heating and available cooling.

4. POWER REAR-WINDOW SUNSHADE

Rear passengers can create a cooler temperature zone thanks to a power rear-window sunshade and manual rear side-window shades.

5. PANORAMIC SUNROOF

The panoramic sunroof lets the sunshine and fresh air into the cabin. It includes a power-retractable sunshade for enhanced convenience.

6. MULTI-DIRECTIONAL ADJUSTABLE FRONT SEATS

You're invited to personalize your seating position with the multi-directional, power adjustable front seats that include memory settings for driver and passenger.

It's not just any driver's seat – it's yours. K900's multi-directional, power-adjustable driver's seat fully adapts to your preferences for an extraordinarily high level of comfort. Rear-seat passenger comfort is equally uncompromising, going far beyond the expected. Available rear-seat luxuries include power-reclining adjustability, ventilation and aviation style headrests. Available multi-zone lumbar support, as well as thigh and torso cushioning provide added personalization. It's a form of luxury that recognizes everyone's individuality.

SAFETY – THE GUIDING PRINCIPLE.

A comprehensive approach to safety is a fundamental starting point for any elite luxury automobile. K900's array of advanced safety systems is sure to exceed even your highest expectations. The guiding principle is to help you avoid a collision by maintaining control, even in some of the most severe driving conditions and emergency situations. That is achieved by the integration of a series of advanced control technologies – from Electronic Stability Control (ESC) to Electronic Brake Force Distribution (EBD). They don't only enhance your control, but also your peace of mind.

INTERNATIONAL MODEL SHOWN. Some features may vary.

ELECTRONIC STABILITY CONTROL (ESC)

ESC provides improved directional stability, helping you maintain better control in difficult driving situations. During emergency manoeuvres, it can control the engine and brakes to help keep your K900 on your intended course.

HILL-START ASSIST CONTROL (HAC)

To help keep your K900 from rolling backward when starting from a complete stop on a steep hill, the HAC system automatically holds the brake pressure for two seconds after you take your foot off the brake pedal. That gives you plenty of time to move your foot to the accelerator pedal.

ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

To help maintain more consistent braking as vehicle loads and weight distribution change, EBD adjusts the front-to-rear brake pressure balance.

ELECTRONIC PARKING BRAKE

For your convenience, the electronic parking brake automatically releases when you shift out of Park.

BRAKE ASSIST SYSTEM (BAS)

If BAS detects emergency braking, based on how quickly you step on the brake pedal, it instantly applies full braking force. This helps shorten your overall stopping distance and helps you maintain control.

INTERNATIONAL MODEL SHOWN. Some features may vary.

EIGHT ADVANCED AIRBAGS

Dual front airbags, full-length side curtain airbags and front and rear seat-mounted side airbags comprise a sophisticated system managed by advanced sensors that can even respond in certain rollover situations.

AIRBAG & SEAT BELT SENSORS

The system monitors the severity of certain impacts, the presence of a front passenger and seat belt use, and then controls airbag inflation accordingly.¹

FRONT SEAT BELT PRETENSIONERS

Pretensioners were designed to tighten the front seat belts in the event of certain collisions, helping to reduce the likelihood of injuries.

SIDE-IMPACT DOOR BEAMS

All doors are reinforced with extremely strong but light steel beams to help absorb impact energy and deflect side-impact force. The K900's A and B pillars are also reinforced to help strengthen the body of the vehicle.

FRONT & REAR CRUMPLE ZONES

Front and rear crumple zones are specially engineered to help absorb and dissipate impact energy, helping to preserve the structural integrity of the entire passenger compartment in certain collisions.

REAR CHILD-SAFETY DOOR LOCKS

Rear child-safety door locks help prevent the doors from being opened accidentally, which is important when small children are passengers. With the doors in the locked position, they can only be opened from the outside.

BETTER EQUIPPED. BETTER PROTECTED.

Occupant protection was given the priority it deserves in K900 through a comprehensive series of passive safety systems that help to minimize injuries when a collision proves unavoidable. The body structure also helps to maintain the integrity of the passenger compartment, with front and rear crumple zones, in addition to side-impact door beams. It's the equipment you need to take to the road with genuine peace of mind.

Some features may vary. Vehicle as shown available only with special order on V8 Elite model.

Delivering world-class quality.

Kia is committed to producing exceptional vehicles with superb quality and reliability to suit your driving needs. From compact to crossover, every Kia delivers an extraordinary combination of precision engineering, outstanding performance, innovative features, and advanced safety systems.

Telluride concept

STUNNING DESIGN

Under the direction of renowned President and Chief Design Officer Peter Schreyer — Kia vehicles have captured worldwide attention for their interior and exterior styling, which represents the collaborative work of designers who have created a look that makes every Kia recognizable at first sight. Today, the lineup consists of vehicles that fill owners as well as Kia's designers with pride.

EXTENSIVE RESEARCH AND DEVELOPMENT

Kia's R&D procedures are rigorous and exhaustive. At proving grounds around the world, vehicles undergo unrelenting tests. A world-class wind tunnel provides testing in winds up to 200 km/h. Utilizing heavy-rain-and-snowfall testing chambers and a road simulator, Kia puts its vehicles through punishing tests as part of a commitment to develop exceptionally durable and safe vehicles.

IMPRESSIVE WARRANTY PROGRAM

Kia engineers are passionate about producing vehicles that are exceptionally well-designed and reliable. Their dedication to

quality and attention to detail give Kia the confidence to back every model with an outstanding warranty program.

TAKING ON THE COMPETITION

The Kia Racing team is dedicated to competing against world-class competition — and winning. That dedication is part of Kia's belief that the knowledge gained in competition can be applied to the entire Kia lineup to provide you with vehicles that perform beyond your expectations. The Kia Racing team includes championship-winning drivers with proven track records. Be sure to look for Kia in the winner's circle at racetracks across North America in the future.

KIA CANADA AND DAVID HEARN — PARTNERS IN THE GAME OF GOLF.

He is one of Canada's elite golfers and a fixture on the PGA Tour. David Hearn is also a proud ambassador of the game — and proudly represents Kia Canada both on and off the course. David isn't just a dedicated golfer, he's also a devoted family man who was looking for a world-class vehicle to transport his family in style, comfort and safety. "I am thrilled to continue my partnership with Kia, representing the company in Canada and in the golf space," said Hearn. "Kia is a car that I trust personally, with the style and quality I need for both myself and my family. As much as I love golf, my family is what matters most. It is important for me to partner with a quality company like Kia."

PREMIUM

A NEW LUXURY EXPERIENCE.

Kia Premium is prestige and privilege for a new era, celebrating the enjoyment of owning and driving a Kia luxury vehicle and defining a new experience: **Luxury Liberated.**

It embodies every aspect of luxury, including the Kia Premium ownership experience delivered through an exclusive network of certified Kia Premium dealers.

As a registered Kia Premium customer, you will receive a complimentary Premium Rewards Membership that provides exclusive advantages to enhance the performance and prestige of your driving experience.

5-Year/100,000-km worry-free, no-charge scheduled maintenance*

Your Premium Kia has been designed to need as little maintenance as possible. This means that regularly scheduled maintenance is now more significant to obtaining the highest level of performance, safety and reliability in your Premium Kia.

True to the luxury vehicle class, your new Kia Premium vehicle ownership includes complimentary scheduled maintenance.

This includes 5 years/100,000 km of:

SERVICE A: Oil and oil filter change/multi-point inspection (MPI)

SERVICE B: Oil and oil filter change/cabin air filter change/tire rotation/MPI

SERVICE C: Oil and oil filter change/cabin air filter change/engine air filter change/tire rotation/MPI

SERVICE D: Oil and oil filter change/cabin air filter change/engine air filter change/tire rotation/MPI/automatic transaxle fluid change

Premium ownership care & warranty coverage

1-YEAR/20,000 KM of service adjustments covering consumable items such as light bulbs, wiper blades, fuses, brake pads

5-YEARS/100,000 KM of worry-free comprehensive warranty covering virtually the entire vehicle

5-YEARS/UNLIMITED KM of anti-perforation coverage on body sheet metal defects in material and workmanship

8-YEARS/130,000 KM of major emission component coverage that guarantees your Kia luxury car will conform to government emission regulations

Courtesy vehicle & concierge shuttle

Complimentary car wash with every premium service visit

Worry-free, year-round roadside assistance

Anywhere in North America through the first 5 years or 100,000 kilometers of ownership

Premium rewards points

Nationwide preferential rates on car rentals

Premium service centre hotline

Contact the Hotline at 1-855-343-0522 from Monday to Friday, 8:30 am to 5:30 pm, Eastern Time.

*Services are alternating in a predetermined sequence (A, B, A, C...) with service D occurring once at 96,000 km. Any maintenance work specifically requested by you or recommended by an authorized Kia Dealer in addition to the items listed above is not covered. Any items discovered during the Multi-Point Inspection process that may require replacement are not covered – unless specifically listed above or covered under the original vehicle warranty. All wear items such as but not limited to: brakes, rotors, wiper blades, bulbs etc. are specifically excluded. The new vehicle warranty is transferable; however, the scheduled maintenance is non-transferable.

KIA | Genuine Parts & Accessories

Kia Accessories are built to the same high standards of quality as your vehicle. That means they fit right, work right, and look great.

Trunk Rear Bumper Protector

Wheel locks

Accessory wheels

ENDNOTES

1. Please note that your vehicle may not be equipped with all features described. This also applies to safety-related systems and functions. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving and are not a substitute for safe driving practices. Some features may have technological limitations. For additional information regarding the various features, including their limitations and restrictions, please refer to your vehicle's Owner's Manual. 2. SiriusXM® satellite radio service includes 3 month trial and is available in the 10 provinces and three territories of Canada, and the 48 contiguous states of the U.S. Monthly subscription sold separately after three trial months. 3. When equipped with the navigation system, French voice commands may be limited. 4. ©2014 Harman International Industries, Inc. All rights reserved. Lexicon is a unit of Harman International Industries, Inc. Lexicon, the Lexicon logo, Logic 7 and the Logic 7 logo are registered trademarks of Lexicon, Inc., a Harman International company. 5. iPod® is a registered trademark of Apple, Inc. 6.
