

2015 MAZDA5

mazda

IT DEFINES ITS CATEGORY BY DEFYING CONVENTION.

Leave it to Mazda to create a people mover that defies convention. With its innovative styling and dynamic design, the 2015 MAZDA5 brings a whole new meaning to form and function. It's as nimble as it is roomy and as fun as it is practical. As versatile as vehicles twice its size, MAZDA5 is the one vehicle that refuses to be categorized because it refuses to limit itself to being just one thing. And drivers and passengers agree: The MAZDA5 is a segment of its own.

ONE SPIN AND YOU'LL FORGET IT SEATS SIX.

Sleek, sporty and ingenious, the MAZDA5's attention to craftsmanship is the mark of an innovative category leader. Dynamic handling starts with an advanced 2.5 L, DOHC engine that delivers a pump-friendly 8.2 L/100 km highway (5-speed automatic transmission).* Plus the Electro-Hydraulic Power-Assist Steering, tight 11.2 m turning circle and race-inspired dynamics make it one of the most outstanding, agile six-passenger vehicles to maneuver down the highway. The MAZDA5 - about as far from a conventional six-passenger vehicle as you can get.

*Estimated fuel economy on the Mazda5 with automatic transmission based on Government of Canada's approved 5-cycle testing method. Your actual fuel consumption may vary depending on how, where and when you drive. For comparison purposes only. For more information on 5-cycle testing, visit mazda.ca/5cycle.

/ ENGINE PERFORMANCE /

An advanced MZR 2.5 L DOHC engine with variable valve timing enables the MAZDA5 to deliver both spirited performance and up to an enviable 8.2 L/100 km highway*. The MAZDA5's advanced Electrohydraulic Power Assist Steering uses hydraulic pressure from a pump driven by an electric motor that works independently of the car's engine, resulting in increased fuel economy, improved pin-point steering power and enhanced agility.

/ SMOOTH HANDLING /

Standard lightweight aluminum alloy wheels help reduce unsprung weight, improving handling. Four-wheel independent suspension provides a smoother, more responsive ride, while four-wheel anti-lock brakes maintain steering control during emergency situations.

*“Perfect for the urban family who isn’t
always able to find parking spaces for
land yachts.”* – Autobyte!, January 2013

WE THINK NOT.**

From seating that contours every curve in your body, to automatic climate controls that mean comfort inside no matter what it's like outside, to the latest technological touch points that let you stay focused on the road, every feature is crafted to put comfort and convenience at your every command.

CARPE CARPOOL.

We're fans of legroom, headroom, elbowroom and a little extra room. Three rows, six seats and a generous 2,768 L of passenger space have never been this accommodating or versatile. Both centre and rear rows feature elevated "theatre-style" seating for a better view. And both second-row reclining captain's chairs provide inboard and outboard armrests as well as nearly six inches of back-and-forth travel for extra leg-stretching comfort. The available heated front seats* and standard automatic climate control system create and maintain a comfortable atmosphere for you and every one of your passengers.

*Standard on the GT model.

/ CLEARER VISION /

Available Xenon (HID) headlights* and halogen fog lights† brighten your view, providing enhanced nighttime illumination.

/ ACTIVE SAFETY /

The available Tire Pressure Monitoring System* monitors air pressure in real time and automatically alerts you before one or more tires become critically low. Standard Dynamic Stability Control* modulates the throttle and brakes when a sudden loss of traction is detected to help keep the vehicle stable during a turn. The standard Traction Control System detects any loss of traction, and then adjusts the throttle to provide the drive wheels with a better grip on the road and more sure-footed acceleration during difficult driving conditions.

/ ADVANCED BRAKING TECHNOLOGIES /

Every MAZDA5 comes equipped with standard power-assisted 4-wheel disc brakes and a wide range of advanced braking features. The Anti-lock Brake System pulses the brakes several hundred times a second, preventing wheel lock so the driver can make controlled stops. Electronic Brake Force Distribution monitors pedal pressure and vehicle weight to determine how much force to apply to the front and rear brakes, while Brake Assist automatically increases braking pressure, thereby reducing stopping distance in emergency situations.

COMES FULLY EQUIPPED WITH OBSESSIVE SAFETY DISORDER.

You can never be too prepared for the unexpected. At Mazda, we're overprotective. Our engineers equipped the MAZDA5 with a comprehensive arsenal of standard safety features to help protect your most precious cargo.

/ AIR BAGS /

Six air bags* come standard on every MAZDA5. Advanced dual front air bags use inflators with both crash zone and driver's seat/passenger's seat weight sensors. Dual side air bags and dual side air curtains provide coverage for all three passenger rows.

/ STRUCTURAL SAFETY /

Stronger and safer yet lighter, every MAZDA5 uses Mazda's "Triple H" construction system that reinforces the floor, sides and roof, resulting in a safe, secure structure around the driver and passenger compartments. Its high-tensile steel reinforcements increase the strength of critical body areas and enhance basic structural integrity, as well as improve overall handling and provide increased impact protection.

/ CHILD SAFETY /

Child safety seat anchors are built into the second-row seats to help safely secure your most precious passengers. Both third-row seats are equipped with child safety seat tether anchors.

*Dynamic Stability Control is not a substitute for safe driving practices. Always wear your seat belt and secure children in the rear seats in appropriate child restraints. †Standard on the S model.
