

2006 SUBARU
FORESTER

2006 SUBARU FORESTER

THINK. About innovating. About safety. About uniting everything you want from a car with everything you need in an SUV. In engineering vehicles that go beyond the expected, we never stop thinking. To create new driving experiences. To design a vehicle to meet all your real-world demands. And to be true to what makes a Subaru, a Subaru.

Forester 2.5 XT Limited shown with Anthracite Black leather.

The Subaru Forester Its intelligent size and remarkable versatility redefines what a sport utility vehicle can do. Its safety scores have no equal. Its balanced and more powerful boxer engines, surefooted Symmetrical All-Wheel Drive and agile handling combine to take the SUV to new levels of drivability. Together, they all add up to provide the most valuable asset of all—peace of mind.

2.5X

2.5X

Motivated by a stout 173-horsepower engine and offering extravagant flexibility with generous cargo capacity, the Forester 2.5X is only modest in its price point.

2.5X | Premium Package

Along with all the convenience of the 2.5X, this optional package (shown above) has many additional features like an oversized moonroof, alloy wheels, automatic climate control and heated seats.

2.5X | L.L.Bean® Edition

With unique leather-trimmed upholstery, wood and leather-wrapped steering wheel and a durable cargo-area lining, it's as stylish as it is versatile. And it comes standard with a 4-speed automatic transmission.

2.5XT

2.5XT | Limited

The Forester flagship, with 230 turbocharged horsepower, leather-trimmed upholstery and luxurious features such as a premium audio system and panoramic moonroof.

Forester 2.5X L.L.Bean® Edition shown in Regal Blue Pearl/Steel Gray Metallic.

In everything you do, there is confidence.

FEEL.

In going where you want to go.

In being ready for whatever the road may hold.

In arriving in style.

Comfort

The Forester brings new levels of control not just on the road, but also over your environment. Its spacious cabin, complete with utility, convenience and premium features, lets you govern your surroundings to your exact preferences. Choose the upscale cloth upholstery or the luxury of leather. Find your ideal driving position with the available 8-way power driver's seat and take the chill off the morning frost with dual-stage seat heaters. Feel the beat from the available in-dash six-disc CD changer. And let your passengers enjoy the improved rear-seat comfort. Because every journey is enhanced when the family is content.

Panoramic moonroof The wide-open sky, available at the touch of a button. Significantly larger than conventional sunroofs, the available panoramic moonroof lets the sunshine and fresh air in for both the front and rear passengers. Enjoy the outdoors without leaving your car.

L.L.Bean® Edition Like its namesake, ruggedness meets stylishness. Inside the dual-toned exterior are seats trimmed in supple Desert Beige leather with perforated Alcantara® on the seat bolsters, L.L.Bean embossing, and a wood and leather-wrapped shifter handle and MOMO® brand steering wheel.

Automatic climate control Just set it and drive. It's easy to find the most comfortable environment for you and your passengers with available automatic climate control, which automatically adjusts the heat or air conditioner to maintain your chosen temperature. The air filtration system keeps harmful particles out, and seven fan settings let you customize the airflow.

Forester 2.5X L.L.Bean Edition shown with Desert Beige leather/Alcantara.

Versatility

Inside the intelligently proportioned exterior is an interior just as thoughtfully designed. The ample, flexible space helps you carry the accoutrements of your busy life, and then some. Start with the spacious cargo area with low liftover height. Follow up with rear seats that are split 60/40 for greater versatility. A wide array of storage bins, pockets, tiedowns and hooks lets you organize and secure. And it comes with a roof rack that holds up to 150 lbs. Go ahead, bring everything you need.

Multifunction center console
Flip its lid, and rear-seat passengers get two extra cupholders. The dual-tiered center console also provides a 12V power outlet and a sliding armrest.

Cargo-area under-floor storage
Under the cargo-area floor, you'll find a compartmentalized tray that's perfect for small items prone to sliding around. And they're kept out of sight, away from prying eyes.

Cargo-area nets These accessory nets stretch to accommodate and secure such loose items as helmets, balls and shoes—things that would otherwise clutter up and move around in the storage space. Use four individual nets to line the front, rear and sides of the cargo area, or store them in the side bins when not in use. Tiedowns on the floor and hooks on the sides let you further customize your storage options and provide a handy anchor for grocery bags, maximizing the full potential of the versatile cargo area.

Subaru Boxer Engine

Press the accelerator to get outstanding power, along with a healthy dose of innovation. At the heart of the Forester is our legendary SUBARU BOXER engine, with pistons laid flat in horizontal opposition. Used in every Subaru, this design lowers the center of gravity, providing more precise handling while increasing durability and reducing vibration. Balance. Stability. Power. It's what makes a Subaru, a Subaru.

The roots of Subaru heritage lie in the aviation industry. It is only fitting, then, that the boxer engine was initially developed for use in aircraft—chosen and prized for its compactness, superior performance, inherent smoothness and reliability. It's a design that Subaru has used in its automobiles for almost 40 years, and remains the only configuration worthy of meeting our standards.

Less vibration The 180-degree boxer engine layout allows the pistons to move in exact horizontal opposition, effectively negating the vibrations of the opposing pistons. The result is smooth, seamless power delivery throughout the rev range.

Better balance The SUBARU BOXER engine's lightweight, compact design lets the engine fit lower in the chassis, providing a lower center of gravity that greatly improves handling and safety. Body roll is reduced during cornering, stability is improved and control maintained.

Performance

Forester engines are rally-proven for remarkable reliability. Constructed of aluminum-alloy for reduced weight and time-tested durability. Enhanced with i-Active Valve Lift System in the 2.5X and Active Valve Control System in the 2.5 XT Limited for increased horsepower and a broader torque curve. And they use Electronic Throttle Control (ETC) for a more precise response to your right foot. With such exceptional engines to motivate the Forester, imagine how the Forester will motivate you.

2.5 X The naturally aspirated four-cylinder engine makes 173 horsepower for spirited acceleration, while providing a superior fuel economy of 22 city/29 highway mpg.¹

2.5 XT The functional hood scoop is the only external hint to the thrill that awaits you. Fortified by an intercooled turbocharger that raises horsepower to 230 and torque to 235 lb-ft, the 2.5 XT Limited delivers proven acceleration that rivals or bests that of many sports cars. They'll never see it coming.

¹ With 5-speed manual transmission.

Symmetrical All-Wheel Drive

All-wheel drive isn't unique. But Symmetrical All-Wheel Drive is. Its ideal balance ensures stability and poise. And its efficiency at transmitting power ensures greater grip and quick response to slippage. Providing more than just safety on slick roads, it delivers intensified performance on any road. All-wheel drive is not just our heritage, it is our passion.

Forester 2.5X shown in Garnet Red Pearl with optional Premium Package and accessory roof-mounted square crossbars with ski/snowboard attachment.

Subaru offers two advanced All-Wheel Drive (AWD) systems in the Forester. With their symmetrical layout, power flows directly from the engine to the wheels for more efficient response to any slippage. Should the road surface suddenly change, the Forester instantly redirects power from the wheels that slip and delivers it to those with greater grip. Maximum adhesion. More control. Enhanced safety.

5-speed manual transmission For those who prefer to shift on their own. Fully synchronized to deliver smooth and precise shifts, our manual transmission also features a Hill Holder system to help minimize rolling backwards on inclines.

4-speed automatic transmission This smooth-shifting unit offers a Standard mode to maximize the Forester's impressive fuel economy, a Sport mode for peak performance and an adaptive feature for better drivability on hills.

Continuous AWD Under normal conditions, power is split 50/50 between the front and rear wheels. Should wheel slippage occur, the viscous-center locking differential of the manual transmission automatically helps transfer power to the wheels with the most amount of traction.

Active AWD Paired with the available automatic transmission, the Active AWD system monitors parameters like wheel slippage and vehicle speed, adjusting power to the front or rear wheels with the most traction. This computer-controlled system anticipates and actually seeks to maintain optimal adhesion.

We didn't stop with the AWD system. Every drivetrain component and every chassis part has been engineered to optimally blend safety, performance and comfort. From the precise rack-and-pinion steering to the 4-wheel disc brakes¹ and independent suspension, it's all geared toward providing driving pleasure with no compromise on the confidence-inspiring security that defines the Forester.

Heavy-duty raised suspension Unlike most SUVs, the Forester provides nimble and agile handling thanks to its car-bred, SUV-optimized 4-wheel independent suspension. With revised geometry for 2006, it provides quicker response to steering input and a smoother ride, yet its ground clearance of 8.1 inches (7.9 in. for 2.5 XT Limited) is comparable to many truck-based SUVs.

Self-leveling rear suspension Exclusive to the Forester 2.5X L.L.Bean[®] Edition, this system features self-adjusting rear struts that react to load weight to maintain optimum vehicle ride height. The result is consistent ground clearance and enhanced balance overall, even when you've filled its considerable space with gear. Or taken advantage of its 2,400-lb towing capacity.

¹ Not available on base Forester 2.5X.

Forester 2.5 XT Limited shown in Steel Gray Metallic.

Safety

Increased visibility
Tall greenhouse increases field of vision.

Active head restraints
Help protect against whiplash.

Five Star Safety Rating for front and side impact collisions.¹

– National Highway Traffic Safety Administration

Daytime running lights
For increased visibility to other drivers.

Ring-Shaped Reinforcement Frame
Greater energy absorption in collisions.

Low placement of boxer engine
To minimize intrusion into passenger cabin.

Symmetrical All-Wheel Drive
For improved traction and agility.

Side-impact air bags
Help protect during side-impact crashes.

4-wheel independent suspension
For increased handling limits.

Accident Avoidance The least dangerous accident is the one that never happens. With this in mind, we've enhanced the Forester with numerous technologies to help keep you out of harm's way, like 4-wheel antilock disc brakes (ABS) with Electronic Brake-force Distribution (EBD) to increase stopping power.¹ And of course, our trademark Symmetrical AWD and lower center of gravity work in concert with the four-wheel independent suspension and rigid chassis for nimbleness and agility to help avoid danger. At Subaru, every innovation is designed with your safety in mind.

Impact Protection We never rest in our enduring effort to devise better ways to protect passengers. In Forester, the results are features like seatbelts with front pretensioners and load-limiters, crumple zones, side-impact beams and a Ring-Shaped Reinforcement Frame around the cabin to help better absorb the impact of a crash. And a full array of air bags offers protection for the front and sides.² Since its introduction, the Forester has consistently received the highest crash-test scores in its class.

Control Standard full-time AWD automatically adjusts power to all four wheels, helping to maintain greater traction, no matter what the road surface or the weather has in store. Unlike 2-wheel-drive vehicles, which may be prone to understeer or oversteer, AWD helps you maintain better control of your Forester.

Electronic Brake-force Distribution Working in conjunction with the 4-wheel Antilock Braking System, EBD maximizes stopping power by optimally apportioning power front to rear under heavy braking.

Side-impact air bags Mounted in the front seats to help provide the best protection no matter what your ideal seat position is. Designed to help protect both your head and torso, they helped the Forester achieve the highest crash-test safety scores in Insurance Institute for Highway Safety (IIHS) testing.³

Active head restraints In the event of a rear-end collision, the active front-seat head restraints provide another layer of protection by automatically moving forward to cradle your head to help minimize the possibility of whiplash.

¹ Not available on base Forester 2.5X.

¹ Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. ² Always wear seatbelts. Children should be properly restrained in the rear seat. ³ For more information, contact the Insurance Institute for Highway Safety or visit their website at www.iihs.org.

Accessories

Outfit your Subaru to be as unique as your adventures. Backed by a 3-year/36,000-mile limited warranty,¹ Genuine Subaru Accessories give you the ability to take everything—and anything—you need.

Turbo Boost Gauge Illuminated turbo boost gauge mounts conveniently to side of steering column.

Cargo Tray Help protect the carpeted floor from your muddy gear with this rugged tray that lines the cargo area.

Autodimming Mirror with Compass When bright headlights from the rear are detected, the rearview mirror automatically darkens to reduce glare. Also includes electronic compass.

Available accessories

- Crossbar Set (Square)
- Roof-mounted Bike Attachment
- Roof Cargo Carriers
- Kayak Carrier
- Trailer Hitch
- Hitch-mounted Bike Attachment
- Cargo Bin
- Compartment Separator/Dog Guard
- Severe Weather Companion
- Cargo-area Spotlight
- Autodimming Rearview Mirror with Compass and HomeLink®
- Security System Shock Sensor
- 6-disc In-dash CD Changer
- Upgraded Speakers
- Tweeter Speaker Kit
- Subwoofer/Amplifier
- Leather Shift Knobs
- All-weather Mats
- Hood Protector
- Front Bumper Underguard

For a complete list of available accessories, log on to www.subaru.com

Heavy-duty Roof Cargo Basket

Shown with fork-mounted bike carrier and front-wheel holder (each sold separately). Accommodates up to 100 pounds. Vehicle also shown with splash guards and rear bumper cover.

¹ Accessories backed by 3-year/36,000-mile New Car Limited Warranty when installed at time of vehicle purchase. For complete details on warranty coverage and exclusions, see your Subaru dealer or log on to www.subaru.com

Ownership

Enjoying your Subaru for years to come—that's the promise of our comprehensive warranties and roadside assistance program. It's a fact attested by the nearly 97% of Subaru vehicles sold in the past 10 years that are still on the road today.¹ It's the confidence you feel when you get behind the wheel.

New Car Limited Warranty 3 years or 36,000 miles, whichever comes first.

Wear Item Limited Warranty 3 years or 36,000 miles, whichever comes first.

Powertrain Limited Warranty 5 years or 60,000 miles, whichever comes first.

Rust Perforation Limited Warranty 5 years, unlimited mileage.

The Subaru Roadside Assistance Program covers all 2006 Subaru vehicles during the first 3 years or 36,000 miles, whichever comes first. By calling the toll-free number in the Owner's Information Kit, Subaru owners can take advantage of any of the following benefits:

- 24-hour Roadside Assistance, seven days a week, 365 days a year, throughout the United States.
- Emergency Towing Service to the nearest authorized Subaru dealer.
- Emergency Roadside Assistance for jump starts, gasoline (up to two gallons), flat tire change, emergency lockout service (lost key or key is locked in the vehicle) and emergency fluid replacement.

Subaru Added Security[®] could be the most important option you choose. Protect your investment with a Subaru Added Security extended service contract—the **only** one backed by Subaru of America, Inc. Ask your salesperson for coverage details and assistance in selecting the plan that's best for you, up to 7 years or 100,000 miles.

SYMMETRICAL ALL-WHEEL DRIVE

Continuous All-Wheel Drive	Models equipped with 5-speed manual transmission utilize a viscous-type locking center differential and limited-slip rear differential. ¹ Torque distribution normally configured at a 50/50-split front-to-rear. If wheel speed differs between front and rear axles, the system helps distribute power to the wheels with the most traction.		
Active All-Wheel Drive	Models equipped with 4-speed automatic transmission utilize an electronically controlled variable multiplate transfer clutch and viscous-type limited-slip rear differential ¹ to distribute power to where traction is needed. Sensors monitor parameters such as wheel slippage, throttle position and braking to help determine torque distribution to the wheels with optimum traction.		

CHASSIS

Steering	Engine-speed-sensing variable power-assisted rack-and-pinion. Turns lock-to-lock: 3.0. Turning circle: 34.8 ft. (2.5 XT Limited: 35.4 ft.).

Daytime Running Lights (DRL)	●	●	●

OPTIONAL EQUIPMENT

4-speed adaptive electronic direct-control automatic transmission	○	●	○
2.5X Premium Package:	○	–	–
16 x 6.5" 8-spoke aluminum-alloy wheels, 4-wheel disc brakes with Electronic Brake-force Distribution (EBD), Viscous-type limited-slip rear differential, Panoramic power-sliding glass moonroof with auto-open/close feature, Body-color door handles, Heated larger body-color side mirrors with integrated turn signals, Windshield wipers de-icer, Dual-stage heated front seats, 8-way power adjustable driver's seat with manually adjustable lumbar support, Perforated leather-wrapped steering wheel, shifter and parking-brake handle, Automatic climate control system, In-dash 6-disc CD changer			

● Standard ○ Optional – Not available

¹ Limited-slip rear differential not available on base Forester 2.5X.

² Optional as part of 2.5X Premium Package only. See optional equipment listing above.

³ Available as an accessory. See your dealer.

⁴ The Supplemental Restraint System (SRS) (air bags) affords the driver and the front passenger additional protection in moderate to severe frontal and side-impact collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon bag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in the rear seat.
