DRIVE IT ANYWHERE

Whatever the road throws at you, the Vitara rises to the challenge, thanks to the ALLGRIP 4-wheel Drive system*. ALLGRIP lets you adapt to varying conditions at the turn of a dial, whilst automatically optimising fuel efficiency and safety.

Auto mode prioritises front-wheel drive for optimum fuel efficiency in everyday conditions, switching to 4WD if wheelspin is detected.

Sport mode will actively engage 4WD based on accelerator inputs, to make driving more responsive along country lanes.

Snow mode is your answer to powder, ice, rain and mud – giving crucial traction and stability when the conditions demand it.

Lock mode engages permanent 4WD to help you drive out of deep snow or mud.

ALLGRIP rolls exhilaration, peace of mind, and economy into one. After all, why should you have to choose?

*Optional extra on GLX models only

LOVE THE DRIVE

Not only is the Vitara a stunningly designed, advanced SUV, it has a 1.6 litre petrol or diesel engine providing plenty of power while minimising emissions and saving fuel. So the Vitara doesn't just look great on the road, it is also hugely economical to drive.

SAFETY WITH STYLE

Vitara has a total of seven airbags to protect occupants in the event of a collision, as well as intelligent active safety technology like ESP® (Electronic Stability Program) and Radar Brake Support*. This technology uses a front mounted radar to detect other vehicles or obstacles ahead and brakes automatically to help avoid or reduce damage from a collision. This is a stylish SUV where safety doesn't come as an afterthought.

- 7 Airbags
- ABS with EBD and Brake Assist function
- ESP® (Electronic Stability Program)
- ISOFIX child seat anchorages
