ŠKODA

The ŠKODA Octavia

WHATCAR?
**Car of the
Year 2015**
Best family car

Effective: January 2015

WHATCAR?
**Car of the
Year 2015**
Best family car

Welcome to the Octavia

After eight years of success, the second generation of the Octavia is making way for the third generation, a car that pushes the boundaries of technology, safety, space and efficiency like no ŠKODA before it.

Available in both hatch and estate, the Octavia is more spacious and luxurious than its predecessor and is full of clever technology to provide the most comfortable and dynamic driving experience yet. All this is packaged elegantly into the timeless angles and lines showcasing ŠKODA's new design language.

Now raising the bar for sporty hatches the world over is the Octavia vRS. High performance TSI and TDI engines offer phenomenal torque whilst the vRS's best ever fuel economy figures means that power doesn't compromise efficiency. With class leading space, fresh technology and aggressive styling, it's undoubtedly Octavia and unmistakably vRS.

Read on to learn how the Octavia can fit perfectly into your life, and the reasons it was awarded **'Best family car'** by **What Car?** magazine for the second year running.

Rewriting the rules,
changing the game.

Model shown is Octavia Hatch Elegance with optional Brilliant Silver metallic paint, chrome window surround, park assist, Bi-Xenon headlights with AFS and LED daytime running lights, cornering front fog lights and LED rear lights

“We look for the combination of light and shadow, that attracts not only the brain, but especially the heart.”

Jozef Kaban, ŠKODA Chief Designer

Model shown is Octavia Estate Elegance with optional Brilliant Silver metallic paint, chrome window surround, silver roof rails, park assist, Bi-Xenon headlights with AFS and LED daytime running lights, cornering front fog lights and LED rear lights

Design

With strong lines and sharp angles, the Octavia's design promises to remain timeless and elegant in years to come. Whilst the broad fascia brings a strong road presence, the streamlined side profile hides the cavernous space within.

Proudly wearing ŠKODA's new black and chrome logo, the interplay of light and darkness continues throughout the exterior of the car. The strong, dynamic shoulder line is complimented by the unique flourish at the base of the window line, creating the shape of an aeroplane tail fin on the hatch, which hints towards the advanced technology found inside.

The vRS has been designed with performance in mind and differentiates itself from rest of the Octavia range. The rear spoiler, front and rear diffusers and twin stainless steel exhaust pipes, along with striking Bi-Xenon head lights with LED daytime running lights, all hint at the performance capability of the vRS.

Precise and dynamic

EXTERIOR

- BI-XENON HEADLIGHTS
- CORNERING FOG LIGHTS
- ADAPTIVE FRONT LIGHT SYSTEM
- PRECISE AND ELEGANT

Clear halogen headlights and broad fog lights can be upgraded to **Bi-Xenon headlights** with **AFS** (adaptive front light system), cornering fog lights and LED daytime running lights. The Octavia Laurin & Klement and vRS feature Bi-Xenon headlights with AFS and LED daytime running lights as standard.

Bi-Xenon headlights. The optimal illumination of the Bi-Xenon headlights is enhanced by the AFS which changes the light setting depending of the car's speed and weather conditions. Bi-Xenon headlights provide 2.5 times the illumination of halogen headlights.

Telescopic front headlight washers. Standard on Scout, Elegance, Laurin & Klement and vRS, optimise your front lights' range by keeping the front panels clean of dirt and debris.

LED rear lights. The two rear bands of light creating the distinctly ŠKODA "C" shape can be enhanced with LED's. Standard on Laurin & Klement and vRS and optional on SE, Scout, GreenLine and Elegance.

Ice scraper. All Octavias come with an ice scraper in the lockable fuel filler cap.

Dynamic lines. The Octavia hatch's unique rear window line reflects the line of an aircraft's tail fin, just a nod to the advanced technology that lies within. The window surround on all trim levels is black, with chrome surround as standard on Laurin & Klement.

Uncompromising comfort

Steering wheels. Height and reach adjustable, high quality leather steering wheels are standard across the Octavia range, with controls for the radio and telephone standard on Scout, Elegance, Laurin & Klement and vRS. For an added sporty feeling and drive a 3 spoke Supersport steering wheel is available. On models equipped with DSG, paddles can also be ordered, allowing you to control both entertainment and gear shift.

Air conditioning. Depending on trim, your Octavia will either be equipped with manual air conditioning or dual-zone air conditioning with humidity control. Dual-zone allows the driver and front seat passenger to set different temperatures for optimal comfort whilst the humidity sensor directs the airflow as required to keep the windscreen fog free.

INTERIOR

- HIGH QUALITY SEATING
- LEATHER STEERING WHEELS
- AIR CONDITIONING
- INNOVATIVE STORAGE

The average Briton spends **3 years** of their life in their car[†]. Don't compromise on comfort. The Octavia's high quality interior and ergonomic design will let you focus on the drive and enjoy the journey.

For maximum comfort on long journeys, both **front and rear armrests** are available*. The adjustable front armrest is combined with a **handy storage box**, whilst the rear armrest features **adjustable cup holders** and also **load-through access into the boot**.

Adjustable driver's seat. To allow you to get as safe and comfortable as possible, your Octavia will have a height adjustable driver's seat. The different trim levels then have additional features (some standard, some optional) such as height adjustable passenger seat, lumbar support, electric adjustments and materials ranging from durable cloth through to sumptuous leather.

* Front: standard on all trims excluding S. Rear: standard on Scout, Laurin & Klement, Elegance, vRS and estate SE, optional on hatch SE and hatch GreenLine.

† Source The Telegraph, 2011.

SPACE

- MORE LEG ROOM
- CLEVER STORAGE SOLUTIONS
- CLASS LEADING LUGGAGE SPACE
- LONGER WHEELBASE

Within the Octavia's sleek design is hidden class leading **luggage space**. The hatch boasts **590 litres*** of space, all easily accessible through the large hatch boot opening. This phenomenal space becomes cavernous with the rear seats folded down, expanding to **1,580 litres***. The estate offers **610 litres*** of space with seats up and **1,740 litres*** with seats down. To help secure your cargo in this vast boot, a number of **nets and fixings** are available.

Leg room. With a wheelbase 108mm longer than the previous generation, passenger space has been further maximised, ensuring your rear-seat passengers have more knee room than in any other car in the same segment – a perfect environment for business associates or growing families!

Simply Clever optional features. Those with an active family are sure to appreciate the waste bin that slots in the door panel, or the double-sided boot floor, offering a carpeted side and a waterproof non-slip side.

Innovative storage solutions. As ŠKODA drivers have come to expect, the Octavia is full of Simply Clever storage areas and designs to offer you solutions that fit your life. For example, a safety vest holder is standard on Elegance whilst the overhead sunglasses storage comes with every SE.

Class leading space

Model shown is Octavia Hatch Elegance with ivory alcantara upholstery, optional Brilliant Silver metallic paint and wood inserts

* Volume is 20 litres less when a spare wheel is fitted.

INFOTAINMENT

- CAPACITIVE TOUCH SCREENS
- PROXIMITY SENSORS
- SOUND SYSTEMS
- USB CONNECTION
- BLUETOOTH®+
- TRIP COMPUTERS

The all-new infotainment systems on the Octavia are a significant step forward in the field of multimedia systems. The car stereo, navigation system and trip computer are no longer standalone devices, but are wrapped up in one system giving the driver access to the vehicle setup, drive assistant systems and comfort functions through a single device. Proximity sensors recognise when a hand is moving toward the touchscreen and bring up the function buttons ready to be used, whilst intuitive swiping and pinching movements allow the user to scroll menus and zoom into maps easily.

Device connectivity.

All Octavias come with a USB and aux-in socket so you can play music from your mp3 player through the car's speakers. With many players, the USB will allow you to control the device through the car's touchscreen system and also to charge. Should you wish to control an Apple device through the touchscreen, you can either use Bluetooth® to stream or swap the USB and aux-in for an optional Mitsumi Apple connectivity socket.

Bolero

Amundsen

Columbus

Innovative technology

Bluetooth® connectivity to make hands-free calls and stream music is standard across the Octavia range. Unlike the previous generations this Bluetooth® system is capable of remembering up to 20 Bluetooth® devices that have been previously paired including 4 phones. The internal phone book can store 2,000 contacts for each phone, with up to 5 numbers for each contact - ensuring your social life really is at your fingertips. For those who want an upgraded reception or struggle with battery life, Bluetooth®+ is available.* By placing your phone in the special Bluetooth®+ compartment in front of the gear stick, the signal is boosted through the car's aerial, benefiting reception and prolonging battery life.

Trip computers. A number of trip computer options are available in the Octavia range. The comprehensive trip computer on S trim which details fuel consumption, average speed and distance until the fuel tank is empty is enhanced to Maxi DOT in the SE, GreenLine and vRS trim. Maxi DOT with its larger display provides additional information such as the oil temperature and details of the vehicle's status as well as the ability to display phone, audio, assistant system or navigation data. Elegance, Scout and Laurin & Klement trims feature a colour Maxi DOT showing clearer, colour displays.

Sound system. For those who love their music, the standard 8 speaker sound system on the Octavia can be upgraded to a Canton sound system* which adds a central speaker to the dash and a subwoofer in the boot. Canton also adds a digital equaliser and sound level controls allowing spacial optimisation for all or individual occupants, vehicle noise cancellation and when added in combination with a Columbus satellite navigation, the ability to play Dolby 5.1 surround sound. Canton sound system is standard on Laurin & Klement.

Smart protection

SAFETY

- CREW PROTECTION ASSISTANT
- FATIGUE SENSOR
- 7 AIRBAGS
- PREFILLED BRAKING SYSTEM
- ESC
- FRONT ASSIST

The Octavia features **7 airbags** as standard, located at the front, front side, curtain and driver's knee area. Should you wish, you can also add rear side airbags with Crew protection assistant..

Crew protection assistant uses information from the car's braking and electronic systems to recognise when there is a high chance of a collision. If this is detected, the front seatbelts will tighten and the sunroof and windows will close (leaving a 55mm gap) to help keep the car's occupants in the optimum position for airbag deployment and reduce items flying into the car. Sporty drivers who prefer to desensitise the Crew protection assistant can change these settings on their touchscreen display.

Front assist. Standard on Elegance and Laurin & Klement is Front assist. This safety system works using a radar sensor located in the lower front grille which monitors the area in front of car and evaluates the distance, direction and speed of all nearby objects. Using predefined algorithms it decides whether these objects pose a potential risk of collision and alerts the driver (with a tone and on the Maxi DOT initially and then a warning jolt of the brakes) if the distance to the object is insufficient. If the driver takes insufficient action to brake, the car will brake itself, all the way to a standstill if needed. This system can be turned off by the driver using the touchscreen display.

Fatigue sensor. Standard from SE is a Driver fatigue sensor. This monitors the movement of the driver through the steering wheel and if the driver begins to display signs of tiredness, the car will audibly alert the driver with a tone and show a break recommendation alert on the Maxi DOT.

Automatic post collision braking system (MKB). In the event of a crash, the Automatic post collision braking system, standard on all Octavias, will be activated. This recognises when an impact has occurred and brakes the car to prevent it being uncontrollably propelled into oncoming traffic, reducing the risk of further crashes. The car will brake to 6mph and also activate the hazard and brake lights.

Prefill, a smart element of the ESC system is the prefill feature. Your Octavia will recognise when your foot has been abruptly lifted off the accelerator and anticipates that this may be followed by a sharp depression of the brake pedal. To prepare for this braking, the car automatically increases pressure in the brake system by "prefilling" the brake hydraulics with fluid. It also brings the brake pads closer to the discs. This speeds up the braking effect for optimal stopping.

ESC (Electronic stability control) is standard in the Octavia and delivers a number of systems to help maintain the car's stability in braking and emergency situations. For information on all the features within the ESC system, please see page 50.

DRIVING ASSISTANT SYSTEMS

- INTELLIGENT LIGHT ASSISTANT
- PARK ASSIST
- KESSY
- LANE ASSIST

Intelligent light assistant*. Using a camera mounted behind the rear view mirror, the Intelligent light assistant* monitors light levels and determines what level of lighting is required. The car then turns on the headlights or if required, the high beams. Should another vehicle's lights be spotted by the camera (either in front or moving in the opposite direction) or the light levels improve sufficiently, the car will automatically turn down the high beams. To activate this function the headlight switch must be sent to "auto" and the left stalk on the steering column be moved forwards.

The oncoming vehicle is outside the area monitored by the Intelligent light assistant.

The oncoming vehicle is now in the area monitored by the Intelligent light assistant, but still far away enough that the high beams need not be dipped.

The oncoming vehicle is now so close that its driver could be dazzled, so the Intelligent light assistant automatically switches to low beam.

The oncoming vehicle has left the area monitored by the Intelligent light assistant for more than a second, so the car switches to high beam again.

Keyless Entry and Start System (KESSY) can be added to the Octavia to allow the driver to lock and unlock the car and start and stop the engine without having to insert or even handle the key. As long as the key is within 1.5m of the sensor, the system will work and a number of clever features ensure you can check the lock, prevent you from locking the key inside and stop unwanted access.

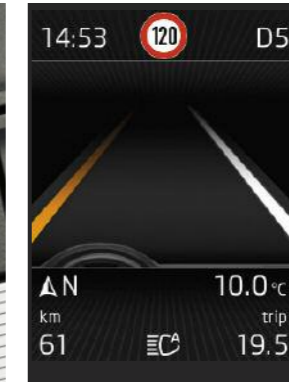

* Standard on Elegance and Laurin & Klement, optional on SE, GreenLine, Scout and vRS.

Please note that all assistant systems are a driver's aid and do not replace human judgement. The driver must be in full control of the vehicle at all times and has full responsibility for the car.

Intelligent assistance

Driving mode selection. Standard from SE, Driving mode selection allows the driver to adapt the car's behaviour to their preference or needs. Four driving modes are available; normal, sport, eco and individual (allowing the driver to configure their own settings). The car will then adapt the engine torque, accelerator sensitivity, power steering, headlight control (where AFS is fitted), DSG transmission, and air conditioning to suit the profile selected.

Lane assist*. The Lane assist uses the camera behind the rear view mirror to recognise lane markings and help keep the driver within the lane, preventing drifting and potential collisions. When adequate lane markings are identified the dashboard light will turn green and the car will be kept in the centre of the lane, even through corners, with small corrections of the steering wheel. Should the driver wish to move out of the lane, the system will recognise the indicator and movement and allow the corrections to be overridden. The system can be deactivated partially or fully using the touchscreen display.

Performance mode selection. The Driving mode selection has been further enhanced for vRS with the introduction of a Performance Sound Generator. When the vRS mode button is selected this will also change the car's sound generator levels. It spreads vibrations directly through the vehicle body and windscreen. The frequency and volume is dependent on the mode selected, rotation speed, car speed and accelerator position.

Park assist. For those wishing to make both parallel parking and bay parking easier than ever, Park assist can be added to the Octavia and is standard on Laurin & Klement. With a press of a button, the system will begin searching for a parking space in a line of cars or other obstacles. When a suitable space is found (the car's length + 60cm is all the space needed), the car will steer itself into the space whilst the driver controls the pedals. This system will now also steer the car out of a line of cars from its parking space and with two presses of the same button, the car will search for and manoeuvre into a bay parking space.

* Standard on Scout, Laurin & Klement and vRS, optional on SE, GreenLine and Elegance.

SAFETY & SECURITY

Cornering front fog lights

ŠKODA Green Future forms an integral part of our corporate philosophy. This is reflected in our efforts to keep reducing fuel consumption and consequently CO₂ emissions and no more so than as displayed by our GreenLine models.

The **Octavia GreenLine** is powered by the **1.6 TDI CR 110PS DPF** and achieves a combined consumption of **88.3 mpg** and a CO₂ emission level of just **85 g/km**.

A **GreenLine badge** can be found on the front grille.

The **GreenLine logo** can be found on the rear of the car.

Low rolling resistance tyres.

The Octavia GreenLine III has 16" Velorum Alloys as standard. These lighter alloy wheels with low rolling resistance tyres have a higher prescribed air pressure to reduce friction.

The **Start-Stop system** standard across the Octavia range, automatically switches off the engine, for example while waiting at the traffic lights. By pressing the clutch pedal the engine automatically restarts.

Energy recovery further assists this by enabling effective use of the car's kinetic energy for battery recharging.

For offers visit skoda.co.uk/offers

* Please see page 51 for further details on VED and OTR.

Please note that rear mudflaps are not available on GreenLine.

Personalisation with ŠKODA Genuine Accessories

Rubber boot mat - This heavy duty rubber load liner fits perfectly into the boot of the Octavia providing a protective layer to the boot. This boot liner is waterproof, easy to clean and quick to install or remove. **£64**

Netting system - This practical 3-piece netting system for the boot of the car will help to stop items from moving around in the vast boot. Invaluable for keeping shopping in place or separating lighter and heavier items. Available in red or black. **£44**

Door sill covers (Alu silver) - Not only do these sill guards protect your Octavia from scuffs whilst getting in and out of the vehicle, they also add an extra touch of style. **£105**

Decals (hatch) - Your car's exterior colour is not the only way to express your individuality. These decals add a finishing flourish for a sporty vibe. Now also available in silver. **£126**

Front mud flaps - Mudflaps aren't just about cleanliness. They prevent stones, grit and road spray from ruining your precious bodywork. This custom design is moulded to fit snugly into the contours of the wheel arches, helping to ensure your paintwork stays tip-top. Works well in conjunction with the standard fit rear mudflaps. **£63**

18" Turini alloy rim - Alloy wheels are a simple way of making an individual style statement that speaks volumes about you. Also available in silver. **£210**

Black mirror covers - Enhance the look of your Octavia with these decorative mirror covers. **£43**

Chrome boot strip (hatch) - A touch of chrome always says "quality" and this trim is no exception, making the rear view of your vehicle even more attractive. **£85**

Roof Bars (hatch) - Roof bars to increase your carrying capacity or to add a bike carrier. **£183**

Protective loading strip - This strip, available in aluminium or black, protects the loading edge and is an essential accessory for those who frequently transport objects that might scratch or dent this area. **£59**

These products are ŠKODA Genuine Accessories. You can also find information on the complete assortment of accessories at your authorised ŠKODA retailer. Prices include VAT.

Price includes fitting.

Infotainment devices

The Octavia delivers a significant step forward in the field of multimedia systems. While the car radio and navigation components continue to form the core of the multimedia system, it is now much more interconnected with the car itself. The car stereo, navigation system and trip computer are no longer standalone devices, but are wrapped up in an infotainment or multimedia information system (MIB). This system gives the driver access to the vehicle setup, drive assists and comfort functions via a single device.

ŠKODA Solutions. Your journey, your choice.

ŠKODA Finance like to do things a little differently, that's why for many years we've specialised in providing simple and convenient funding options for ŠKODA drivers. It's what we know.

ŠKODA Solutions, the personal contract plan, is all about you; a flexible, competitive fixed-rate plan designed around you and your budget, putting you firmly in the Octavia driving seat.

Solutions is different because you defer a proportion of the car's value until the end of the agreement, giving you significantly lower monthly repayments than if you'd taken out a loan...ever heard of a bank being so imaginative?

Solutions is totally flexible. You get to choose the size of your deposit (from as little as one monthly payment), and a repayment period which suits you and at the end of the term you have 3 options to choose from.

- 1  Part-exchange the car for a new ŠKODA on a new Solutions contract.
- 2  Pay the optional final payment so that you own the car.*
- 3  Circumstances changed? Return the car to us (subject to terms and conditions).

DEPOSIT

As little as one repayment

BALANCE

A flexible repayment period (18-42 months)

OPTIONAL FINAL PAYMENT

3 choices at the end of the agreement

ŠKODA Finance also offers hire purchase, contract hire and service and maintenance plans.

Speak to your ŠKODA retailer for your personalised quotation today

*Subject to payment of the option to purchase fee. An offer of finance depends on certain conditions. Subject to status. Available to 18's and over in the UK only.

ŠKODA Finance. ŠKODA Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Free Insurance for 3 years.

No-one likes to think about their ŠKODA being damaged in an accident. But if it was you'd no doubt want it repaired to ŠKODA standards, by a ŠKODA trained technician using only ŠKODA genuine parts. Would your motor insurance provider guarantee to do that? We didn't think so...

That's why we came up with Ensurance - ŠKODA's free accident and repair cover.

Ensurance works alongside your existing comprehensive motor insurance policy, no matter who you are insured with, to help get you back on the road as smoothly as possible. Better still, it's free for three years and is available on both new and older models.

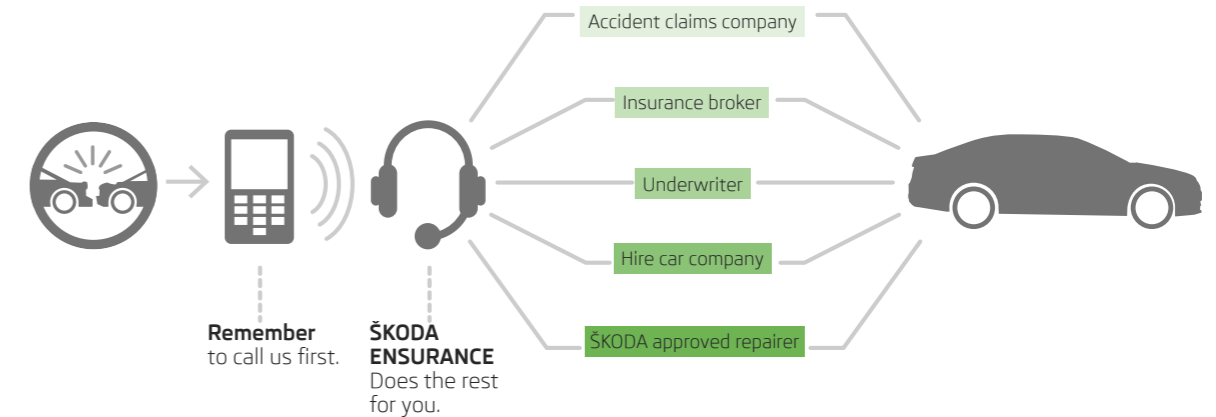

Your free Ensurance cover includes:

- > Guaranteed use of a ŠKODA approved repairer, ŠKODA trained technicians and the use of genuine ŠKODA parts and paints
- > A dedicated Claims Manager who will look after your entire claim from start to finish
- > Help to recover any uninsured losses with our Legal Expenses Cover
- > An Online claims tracker so you can keep up to date with the status of any claim

To benefit from Ensurance you'll need to activate your free cover which takes less than a minute.

We hope you don't ever have to use your policy but it's nice to know it's there - just in case.

Remember to call us first, Ensurance will help deal with the rest...

Your car is **guaranteed** to be repaired by a ŠKODA Insurance approved repairer. Only **genuine** ŠKODA parts **will be used**.

For more information and to take out cover today visit skoda-ensurance.co.uk

ŠKODA Insurance motor insurance is sold, underwritten and administered by Allianz Insurance plc.

Owning a ŠKODA

We make sure it's easy, fun, and stress-free.

ŠKODA customer service is officially award-winning. We have been voted Number 1 in four of the last five Auto Express Driver Power Surveys.

Network capability
 You can enjoy our award-winning customer service through our network of around 165 Authorised Repairers.

As a ŠKODA customer, you will be looked after by your retailer from the moment you walk through the door and throughout the life of your ŠKODA. Your new Octavia will be serviced and maintained to the highest standards by specially trained ŠKODA technicians. And when you need a spare part, you'll be happy to know that most are held in stock, or can be ordered within 24 hours.

The ŠKODA Customer Promise is a commitment from our retailers to offer:

- > Care and consideration for you and your car
- > A flexible and convenient service
- > Expertise and attention to detail
- > A clear explanation of our work

Roadside Assistance
 A three year, European-wide, unlimited mileage ŠKODA Assistance policy comes free of charge with every new ŠKODA.

There's a team of specially trained Technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown. They'll even help you if you fill up with the wrong fuel, lose your car keys, or get a puncture.

Warranty
 When you buy your new ŠKODA through our authorised retailer network, it is automatically covered by a three year, 60,000 mile manufacturer's warranty.

There's no mileage limit on the warranty in the first two years and for additional peace of mind there's a 12 year body protection warranty.

You can even extend your warranty to four or five years, see the option page for prices and page 51 for further details.

Warranty cover from new			
First 2 years	First 3 years	4-5 years	Up to 12 years
Unlimited mileage	3 years or 60,000 miles, whichever is sooner	Optional Extended Warranty	Body Protection Warranty

Further information
 You can find lots of additional information about owning a ŠKODA on our website at skoda.co.uk. Our retailers are always happy to help with any questions, backed up our dedicated Customer Service Centre. We look forward to hearing from you soon.

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

Elements of the ABS System :-

- Dual Rate Vacuum Brake Boosters**: increases brake effort under emergency braking conditions.

- EBC**: Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.

- EBD** (aka EBV): Electronic Brake Distribution automatically distributes different pressures to the front and rear brakes to stop the rear wheels from locking up under heavy braking. It also compensates for loaded and unloaded vehicles therefore doing away with the need for a Load Sensing Valve on the rear axle.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

DPF: Diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

Bi-Xenon lights: Bi-Xenon lights produce about 2.5 times the light of standard Halogen lights with 35% less energy consumption.

CR: all of the Octavia’s diesel engines are built on a system of Common-Rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines available previously and significantly reduce emissions.

AFS: Adaptive front light system is a feature of Bi-Xenons and allows the light beam to adapt to the car’s speed, direction and the weather conditions. Urban driving emits a shorter, wider beam whilst faster driving emits a longer beam. Cornering function sees the beam turn up to 15 degrees in direction of the steering wheel’s turn. The beam will also adjust according to car load, acceleration and wet weather to prevent dazzling oncoming vehicles.

ESC: Electronic Stability Control is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESC constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESC reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine’s output.

Elements of ESC system:-

- ASR**: Anti-slip regulation traction control ensures the Octavia’s stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

- MSR**: the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.

- EDS**: the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

- HBA**: Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.

- DSR**: Driver Steering Recommendation – in a crisis situation it helps the driver stabilize a skid by making a slight intervention in the steering.

- ESBS**: Electronic Stability Brake System – targeted interventions in the braking process improve the handling of a car as it brakes when passing round a bend and keeps it from veering.

- XDS**: XDS provides neutral balance in dynamic driving when accelerating through corners. By applying a slight braking pressure on the inner wheel, torque is increased on the outer wheel. This prevents wheel spinning and reduces any tendency to under steer, allowing the driver to experience a more agile, precise and calming driving experience with better traction out of bends.

Warranty

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers.

Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, ignition adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

- Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
- Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer’s guidelines.
- Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
- Damage caused by an accident.
- Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
- Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, loss of personal effects or income are not recoverable under the terms of the warranty.

Service Intervals

When you order your Octavia, you can choose whether your car is on a fixed or a flexible service regime. Your retailer will help you decide which regime suits how your car will be driven, enabling your car to stay in the best possible shape.

Fixed regime: Service every 10,000 miles or one year (whichever comes first). This is recommended if the vehicle is likely to be used in the following way:

- > Driven fewer than 10,000 miles per annum **and/or**
- > Mainly short journeys, drive mostly in towns or cities **and/or**
- > High vehicle loading/towing and frequent hill climbs **and/or**
- > Heavy accelerating and braking, using high revs

Flexible regime: Sensors in the engine detect when a service is needed. You will be informed of this by a service light which will show at any point between 9,000 and 20,000 miles, up to 24 months (whichever comes first).

The flexible service regime is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly and mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from ŠKODA. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

ŠKODA Ensurance

Ensurance from ŠKODA Insurance is sold and administered by Lawshield UK Limited, registered in England number: 3360532 (registered office: Lawshield House, 850 Ibis Court, Lakeside Drive, Centre Park, Warrington, Cheshire, WA1 1RL) and underwritten by UK General Insurance Limited on behalf of Ageas Insurance Limited, registered in England number: 354568 (registered office: Ageas House, Tollgate, Eastleigh, Hampshire, SO53 3YA).

For details of our full range of insurance products visit insurewithskoda.co.uk. For a quote call us free on 0800 316 8025. Lines are open Monday to Friday 8am – 9pm and 9am – 5pm on Saturday.

ŠKODA Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, registered in England number: 2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). ŠKODA Insurance motor insurance is sold, underwritten and administered by Allianz Insurance plc, registered in England number: 84638 (registered office: 57 Ladymead, Guildford, Surrey GU1 1DB). Both organisations are authorised and regulated by the Financial Conduct Authority (FCA), whose registration numbers are 311988 and 121849 respectively. Authorisation details can be checked on the FCA’s register at www.fca.org.uk or by contacting the FCA on 0800 111 6768. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

Calculating your tax liability

To find out how much tax you will pay, simply take the P11D value, then multiply this figure by the BIK percentage. Then simply multiply this figure by 20% or 40% depending on the level of income tax that you pay.

Please note if your employer provides you with free fuel, this is treated as an additional taxable benefit.

For more information on company car taxation please visit the HM revenue and customs website hmr.c.gov.uk

BIK calculation example - Octavia Hatch S 1.6 TDI CR 105PS DPF

P11D value	£18,520.00
Company Car BIK tax based on CO ₂ emissions level 15%	£555.60
Taxable BIK (for 2014/2015 tax year) 15% of £18,520	£2,778.00

Annual company car tax (2014/15)	
20% Income Tax 20% of £2,778.00	£555.60
40% Income Tax 40% of £2,778.00	£1,112.20

Monthly company car tax (2014/15)	
20% Income Tax £555.60 divide by 12 months	£46.30
40% Income Tax £1,112.20 divide by 12 months	£92.60

An offer of finance depends on certain conditions. Subject to status. Indemnities may be required. Available to people over 18 in the UK only. ŠKODA Finance.

Band	CO ₂ (g/km)	First 12 Months ¹	Standard VED ²	OTR (Recommended On The Road)
A	Up to 100	£0	£0	Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.
B	101 – 110	£0	£20	
C	111 – 120	£0	£30	
D	121 – 130	£0	£110	
E	131 –140	£130	£130	VED (Vehicle Excise Duty)
F	141 – 150	£145	£145	All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO ₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO ₂ figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.
G	151 – 165	£180	£180	
H	166 – 175	£290	£205	
I	176 – 185	£345	£225	
J	186 – 200	£485	£265	
K	201 – 225	£635	£285	
L	226 – 255	£860	£485	
M	Over 255	£1,090	£500	

¹ First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2014. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Edition:UK 1st April 2014. VAT is calculated at 20%. Please confirm figures with your ŠKODA Retailer.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 50.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On the Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2014/2015.

The information in this brochure referring to specification, design, equipment, material and external appearance relates to the time at which this brochure was printed. Whilst every effort is made to ensure its accuracy, the information in this brochure is not binding and is subject to alteration. Some illustrations in this brochure depict left hand drive models, with both standard and optional equipment shown. Please confirm exact specifications, prices and colour availability with your SKODA retailer who will be notified of any specification changes as they occur.
