Škoda. Manufacturer of happy drivers.

Welcome to the new
Superb Hatch and Estate

So you've read a little about some of the new Superb's features, but what else do you need to know about the new Superb?

The Superb is a car with history dating from the 1930s. The original Superb's design was luxurious and elegant both inside and out, built to appeal to the world's leaders and royalty. New Superb takes its sumptuous design cues from its earliest predecessor and builds on these strengths.

The Škoda design philosophy is to produce cars offering the best of both worlds – world class engines, smooth transmissions and high specifications, wrapped in distinctive, elegant and practical bodies.

The new Superb takes this philosophy and develops it. It's the first car ever to have a boot which can be opened as a hatch or a saloon. It has more rear legroom than many prestige chauffeur cars, and some nifty technological advances such as AFS (adaptive front light system), touch screen technology and park assist.

The new Superb range is also joined by the frugal Superb GreenLine, with emissions of just 129g/km meaning that luxury needn't cost the earth.

Now, building on the considerable strengths of the award winning hatchback the Superb Estate is the largest and most luxurious car to ever wear the Škoda badge.

So now the introductions over, why not have a look at the new Superb in a little more detail?

Škoda really does manufacture happy drivers.

What does being a happy driver mean to you? Here at Škoda, our goal is to ensure that anyone who experiences a Škoda has a happy experience. Right from the design stage, through the buying experience, to the after sales service, we want our customers to be happy with their Škoda vehicle.

The happiness of our customers is central to all we do here at Škoda, and that's no empty claim - we've been in the top 5 of the JD Power customer satisfaction survey for the last 14 years! Don't take our word for it though, come into a showroom and experience this for yourself.

Škoda. Manufacturer of happy drivers.

Škoda Superb Estate key features

Luggage compartment lighting

The boot of the Superb Estate contains some thoughtful features to make life a little easier. Two fixed lights on the inside of the tailgate illuminate the inside of the boot when open, whilst the parcel shelf retracts when touched, so you can load bags without having to put them down.

Handy light

A handy LED light positioned on the inside of the boot, illuminates the large luggage area when the tailgate is opened. The light can also be removed and used as a torch. It has a magnetic back so that it can be attached in any position on the car in case you ever need to light a specific area in the dark.

Partition system

The Superb Estate features a very functional partition and tether system (standard on SE and Elegance). Two aluminium plates run the length of the boot and have an extendable bar to keep large items in place with a tether system to keep smaller items stowed to one side. Both the bar and tether system are removable.

Electrically controlled fifth door

The Superb Estate is available with an optional electrically operated boot. At the touch of a button - either beside the gearstick, on the key fob (press and hold for 2 seconds) or on the boot itself, the boot will open automatically.

When you have finished loading, press the button on the inside of the tailgate and the boot will close. This system has a clever feature for when you may park somewhere with a low ceiling - the height of the boot opening can be pre-set so you don't have to worry about any unwanted scrapes and dents.

Škoda Superb Hatch key features

Incredible space

The Superb has an enormous 595 litres of usable space in the boot. With the seats down, the Superb offers an astonishing 1,700 litres of space. Passengers benefit from enormous amounts of legroom, more than even an S Class Mercedes.

Twindoors (Hatch only)

Twindoors is Škoda's revolutionary boot opening mechanism which allows the boot to be opened in two different ways; as a hatch or as a saloon at the simplest touch of a button. This gives you great versatility and more practicality compared to a standard hatchback or saloon car.

Park assist

Optional on all Superb's, park assist is an innovative system that uses a set of ultrasonic sensors placed at various points around the car to judge the suitability of parking space before assisting in the parking manoeuvre itself.

Touchscreen Technology

There are two systems available on new Superb both with touchscreen; the 'Bolero' with integrated 6 CD changer and SD card reader (standard on SE) and the 'Colombus' satellite navigation unit with a 30Gb hard drive and SD card reader (standard on Elegance). Each of these systems reduce the physical number of buttons on the dashboard, using an innovative and easy to follow interface. They allow the driver to control features within the car, as well as displaying information regarding the vehicle such as parking sensors, heated seats and external temperature etc.

OTR (Recommended On The Road)

* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current Škoda UK stock. The VED bands are shown in the table opposite.

¹ First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2010. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your Škoda retailer. Edition: UK May 2009. VAT is calculated at 17.5%. For fuel consumption data, please refer to page 18.

Urban*	38.2 (7.4)	n/a	40.9 (6.9)	36.7 (7.7)	37.7 (7.5)	37.7 (7.5)	35.3 (8.0)
Extra Urban*	57.7 (4.9)	n/a	60.1 (4.7)	55.4 (5.1)	58.9 (4.8)	54.3 (5.2)	53.3 (5.3)
Combined*	48.7 (5.8)	n/a	51.4 (5.5)	47.1 (6.0)	48.7 (5.8)	46.3 (6.1)	44.8 (6.3)
CO ₂ emissions g/km*	153	n/a	145	158	151	159	165

Tank

Fuel tank content - 60 litres

Fuel - Lead-free petrol with RON 95 or Lead-free petrol with RON 91[†].

Body type - 5door, two compartment, 5 seater

Drag coefficient Hatch - C_w 0.30

Drag coefficient Estate - C_w 0.32

Official fuel consumption for the Superb range in mpg (litres/100km):

urban 19.2 (14.7) - 44.8 (6.3);

extra urban 36.2 (7.8) - 70.6 (4.0);

combined 27.7 (10.2) - 57.7 (4.9).

CO₂ range 129 - 237 g/km

[†] Lower efficiency when using lower RON petrol.

PD - Pumpe Düse

CR - Common Rail

Technical glossary

ABS: the Anti-lock Braking System prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

AFM: records and assesses all available data about the journey and uses them to optimize the ESP system's reactions, which can thus be adapted to any driving style and the current vehicle payload.

ASR: Anti-Slip Regulation traction control ensures the Superb's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road-holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

DSR: Driver Steering Recommendation – in a crisis situation it helps the driver stabilize a skid by making a slight intervention in the steering.

EBV: Electronic Brake Variator – ensures optimal brake force distribution between the front and rear axles.

EDL: the Electronic Differential Lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

ESBS: Electronic Stability Brake System – targeted interventions in the braking process improve the handling of a car as it brakes when passing round a bend and keeps it from veering.

ESP: Electronic Stability Programme is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESP constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESP reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

HBA: Hydraulic Brake Assistant – speeds up the brake effect in cases of hard braking.

MBA: the Mechanical Brake Assist system increases brake effort under emergency braking conditions through a dual rate servo.

MSR: the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

Xenon lights: the Xenon lights produce about 2.5 times the light of standard Halogen lights with 35% less energy consumption.

DPF: diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

Customer services

Talk to us on 08457 745 745

No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of customer care advisors to see if they can help. The call centre is open from 8.30am-5.30pm. If you're calling out of hours, then a message can be left and you'll be contacted back.

Peace of mind with a Škoda warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed dealer network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner.

Your Superb also benefits from a 3 year paint warranty and 12 year anti-perforation warranty.

A network that's here to help

With 14 years in the top 5 of JD Power's customer satisfaction survey, our network of approximately 125 retailers knows how to treat a customer. You can be sure that as a Škoda customer, your retailer will look after you from the moment you walk through the door, throughout the life of your Škoda. Your Superb will be serviced and maintained to the highest standards by specially trained Škoda technicians. And when you need a spare part you'll be happy to know that most are held in stock, or can be ordered within 24 hours. So if top class customer satisfaction is what you're after, the Škoda network will be there for you.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from Škoda. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

If your Škoda's in trouble, rely on Škoda Assistance

Completely free of charge, every new Škoda is covered by Škoda Assistance, provided by the RAC through a dedicated team. This cover lasts for 3 years. So if you ever break down, you can use the freephone number to call out someone who really knows about Škoda cars to help. This service is even available in Europe, so you don't need additional breakdown cover when you're driving on the continent.

Financing your Škoda

We all know that times are hard, so Škoda Finance specialises in providing funding solutions for Škoda drivers. Regardless of whether you're a private or business user, you can choose from a range of funding options

Finance products available are:

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Škoda Finance products you can choose a fixed-cost maintenance plan designed to help you budget accurately. No matter what finance product you choose, your local Škoda retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs. Škoda Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of retailer fitted accessories? A separate accessories brochure can be found at your local retailer, or can be ordered by phoning our call centre, or by going on-line at www.skoda.co.uk.

Škoda Insurance

We want you to start enjoying your new car from day one and thanks to Škoda Insurance complimentary seven day cover, you can. Call free on 0800 316 7895 (lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away.

Visit www.insurewithskoda.co.uk for details of the full range of insurance products available. Here you can also get a quote for your annual car insurance and buy it online too. All of our insurance products are designed to make your experience of owning your Škoda as happy as possible.

Škoda Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230. Škoda Insurance is sold, underwritten and administered by Allianz Insurance plc registered in England number 84638. Registered office 57 Ladymead, Guildford, Surrey GU1 1DB. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are authorised and regulated by the Financial Services Authority. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.
