

THE NEW ŠKODA
KAROQ

ŠKODA
SIMPLY CLEVER

WHAT IS ŠMART?

Is it just a word? Just a label? Just a category?

No. It's more. Much more.

ŠMART is intuition, turning intelligence into value
And taking it to the streets

Making small feel big
Making inexpensive feel awesome

Making performance and comfort sync like never before

After all, who would say 'no' to feeling good?

ŠMART is owning your ride
Instead of having it own you

High quality without the high price tag
In a car you really really want to drive

ŠMART is a status you expect
because you've earned it

And will do so year after year after year

Performance + Reliability + Safety + Quality + Value

That's what ŠMART is
ŠKODA ŠMART

ONE SIZE FITS ALL ADVENTURES

Sometimes, big ideas are found in unexpected places. That's exactly what you'll discover in our all-new compact SUV, the ŠKODA KAROQ. It's a car that isn't just made for the life you lead today, but designed for all of tomorrow's adventures too.

On the surface, ŠKODA's crystalline design language is striking from every angle, embodying sleek precision that is echoed on the inside as well.

Within, the KAROQ features advanced connectivity and safety systems, coupled with a trove of ŠMART features cementing the versatility of this powerhouse.

It's a sentiment that resounds with many: the KAROQ is the winner of What Car? Car of the Year Award 2018 and Best New Design by leading German automobile magazine *Auto motor und sport*. It's a true example of our philosophy of making beautifully designed cars that are as much a joy to drive now as they were back when we started.

BEAUTY, IN EVERY DETAIL

Even as it draws upon the intricately sculpted lines found in Czech crystal, the ŠKODA KAROQ embodies its own sense of breathtaking refinement. Through its purposeful yet head-turning design, the KAROQ commands double-takes anywhere you drive it.

FRONT VIEW

The KAROQ takes on a reassuringly powerful stance, one that's attributed to its distinctive front grille, sharply-cut halogen headlights and LED daytime running lights. This keeps the KAROQ rightly conspicuous for safety reasons, all while capturing the admiration of others.

SIDE VIEW

While the angular wheel arches and protective sill covers make an authoritative statement about the KAROQ's bold character, the interplay of light and shadow defined by ŠKODA's distinctive design language creates a phenomenal display of emotion and grace.

REAR VIEW

The signature wedged-shaped rear lights, paired with distinctive C-shaped illumination, is a nod to Czech crystal glass-making tradition; an elegance that's also brought to life through an illuminated license plate and crystalline accents bordering the rear lights. Completing the rear are cat's eye reflectors housed deep in the rear bumper, which clearly distinguish the KAROQ from anything else on the road.

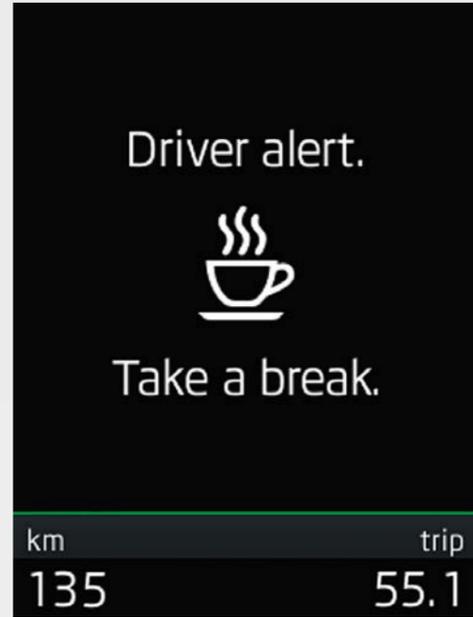

SETTLE IN YOUR COMFORT ZONE

Wielding the KAROQ to its fullest potential requires assurance and confidence. That's where its safety systems come in – a suite of features that lend you utmost comfort and peace of mind, no matter the distance.

KESSY

For keyless ignition and switching off the engine.

DRIVER ALERT

This clever assistant evaluates data from the power steering sensors to detect any driver fatigue behaviour. In such cases, the Maxi DOT display warns the driver to take a break.

7 AIRBAGS

Front driver and passenger airbags, side airbags, head airbags and driver knee airbag are equipped in the car to ensure the safety of all passengers. The passenger airbag located in the dashboard can be deactivated when a child seat is installed on the front seat.

CRUISE CONTROL

In addition to maintaining the preselected speed, cruise control enables you to increase or reduce speed without using the pedals.

DEVELOP AN INSTANT CONNECTION

The KAROQ's intuitive infotainment system ensures you're well connected anywhere. It syncs seamlessly with your devices, providing easy access to all the apps that you love.

SMARTLINK

SmartLink delivers an elegant connection between car and smartphone by supporting Apple CarPlay, Android Auto and MirrorLink technologies.

BOLERO

The Bolero radio with 8" touchscreen display offers a USB/AUX-in connection, SD card slot, Bluetooth, SmartLink system and 8 speakers.

ROOM FOR LIVING LARGE

Whether you're packing in luggage, pets, friends or family; there's room to fit it all in, and comfortably too. Others call it versatility, you'll call it the KAROQ.

SPACE

Its long wheelbase measuring 2,638 mm lends the KAROQ an imposing stance from the outside, all while offering passengers a generous 68 mm of legroom. The boot holds 521 litres of luggage space, which expands to a spacious 1,630 litres when the rear seats are folded down.

SMART HAS IT SORTED

Clever makes the most of any space, big or small. Which is why you'll find plenty of surprisingly nifty compartments to keep everything effortlessly tidy, from phones to refreshments – or even your super secret snack stash.

GLOVE COMPARTMENT
Thanks to the air-conditioned storage compartment, you have the perfect place to store chilled refreshments.

JUMBO BOX

This spacious storage compartment housed in the front armrest can also hold drinks and coin holders.

PERFORMANCE GOLD

Modern, dynamic and economical, that's the beating heart that drives this beast. Solid engineering delivers unparalleled performance that makes the KAROQ feel at home in the city, just as it does in the wild.

ENGINE

The 1.5 TSI 110kW engine comes equipped with Active Cylinder management Technology (ACT), an advanced system that deactivates 2 cylinders when not in use; effectively reducing fuel consumption. Its drivetrains are turbo-charged direct injection units that feature start-stop technology and brake energy recovery, all of which make driving considerably economical.

HOOKS

The robust foldable hooks, located on the sides of the luggage compartment, make your bags easier to transport and more secure.

STYLE

BESPOKE STROKES

The KAROQ Style takes customisation to a whole new level. Its exceptional level of personalisation, coupled with a suite of added assistance features, creates a ride that's truly yours and yours alone.

INFOTAINMENT PERSONALISATION

The infotainment system allows multiple drivers to set rides to their preferences. Adjustable elements include the driver seat, air conditioning, radio and navigation system. The KAROQ comes with three keys, which unlock the car to the respective driver's saved settings.

DRIVER SEAT WITH BUILT-IN MEMORY

The electronically-adjusted driver seat with built-in memory can store three different seat and external side-view mirror positions.

CANTON SOUND SYSTEM

Enjoy absolute sound clarity, whether it's music or the spoken word, on the Canton Sound System. An immersive experience comes courtesy of 10 speakers, including one in the dashboard and a subwoofer in the luggage compartment.

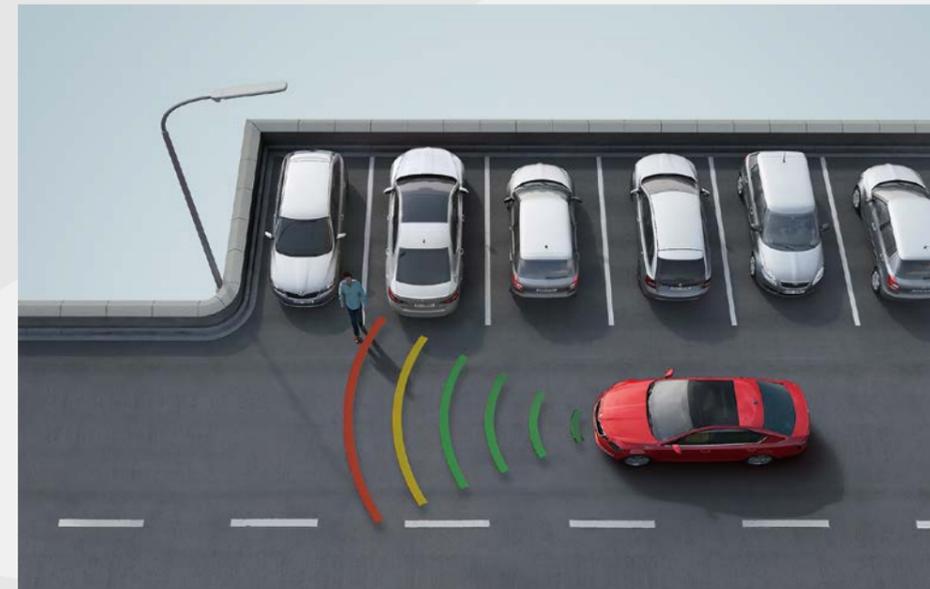

ELECTRONIC BOOT LID

The boot opens and closes at a touch of a button on the remote control or on the driver's door, a feature that comes in handy during unfavourable weather. The door's position can also be adjusted to suit your needs.

WELCOME LOGO

LEDs located on the underside of the front doors illuminate the entry area with the ŠKODA inscription.

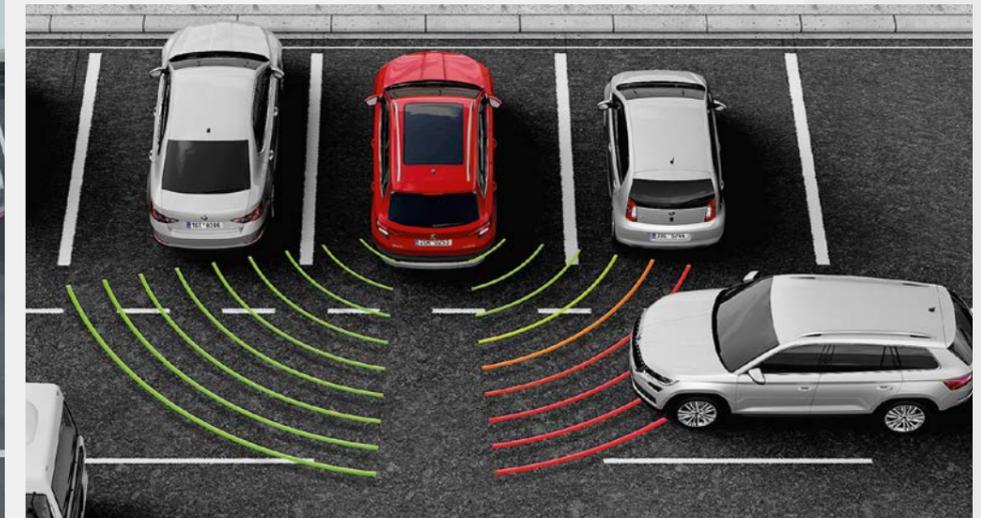

FRONT ASSIST

Front Assist warns the driver of an impending collision at speeds between 5 and 210 km/h, activating automatic partial braking or emergency braking if necessary. The City Emergency Brake and Predictive Pedestrian Protection complements Front Assist in urban traffic by monitoring obstacles or pedestrians ahead.

PHONE BOX + WIRELESS CHARGING

This practical phone compartment, located in front of the gear stick, creates an amplified signal for your mobile device. While driving, it'll charge your phone wirelessly.

BLIND SPOT DETECT + REAR TRAFFIC ALERT

Using radar sensors in the rear bumper, Blind Spot Detect monitors the blind areas behind and beside the car. Based on the distance and speed of the surrounding vehicles, it decides if the driver should be warned. Using the same sensors, Rear Traffic Alert helps the driver reverse safely from a parking space or even engage the brakes automatically if it detects imminent danger.

LOADS OF FLEXIBILITY TO BOOT

There are little limitations as to what the KAROQ can handle - whether it's your family's luggage today or bulky furniture tomorrow, this is one ride that's highly adaptable to your evolving needs.

To gain larger luggage area, remove one or two rear seats completely. This process is easily performed by one person - no tools required.

One of the many possible options is to remove the middle rear seat.

VARIOFLEX

The VarioFlex rear seating system allows you to independently manipulate the three separate rear seats for greater flexibility. Either fold each one down, or remove them completely to expand the luggage area; which offers you up to 1,810 litres when you remove them all.
