The Touareg. Faster, lighter, more efficient than ever before.

Model shown is SE with optional 19" 'Girona' alloy wheels, panoramic sunroof and metallic paint.

Model shown is Escape with optional 20" 'Metropolitan' alloy wheels, Bi-xenon headlights and metallic paint.

Scales the ups and downs
of life effortlessly.

Adventure, fun and trendsetting style – that's what you can look forward to in the Touareg. Its superior off-road capabilities mean there isn't anywhere it's afraid to go. And whatever the terrain, exceptional levels of interior comfort ensure you'll always travel in the lap of luxury.

Offering the ultimate in off-road style is the Touareg Escape. Its increased approach angle of 26 degrees ensures it can scale hills, gradients and embankments without the bumper ever touching the ground. And with increased fuel tank capacity of 100 litres, it means you can stray as far from the beaten track as you wish.

Meet the Touareg Hybrid.

The Touareg Hybrid is the first production hybrid vehicle from Volkswagen. It has an innovative EURO 5 compliant 3.0 litre V6 TSI engine with 333 PS and a parallel hybrid drivetrain. A 31 kW electric motor is positioned between the petrol engine and the 8 speed auto tiptronic gearbox, which allows you to drive on the electric motor alone with no emissions, up to a speed of about 31mph. Alternatively, it can provide a noticeable power boost to the petrol engine when required in situations such as overtaking manoeuvres. It can even help accelerate the Touareg Hybrid from 0 to 62mph in just 6.5 seconds, faster than many hot hatches.

Best of all, none of these benefits come with a compromise, as the off-road and towing credentials of the Touareg are unaffected by the hybrid system. In fact, it is the first hybrid off-road vehicle with a trailer load limit of 3.5 tonnes. Its Combined fuel consumption* is an impressive 34.4mpg and it emits just 193g/km of CO₂ while the petrol engine is in use. Which means, no matter how dirty your Touareg gets off-road, it's far cleaner than ever before.

* Find information about fuel consumption and CO₂ emissions on pages 62-63.

Model shown is Hybrid with optional 19" 'Salamanca' alloy wheels, Adaptive Cruise Control (ACC) and metallic paint.

Model shown is R-Line V8 with optional Pure White paint.

GOOD LOOKS AND INTELLIGENCE. THE PERFECT COMBINATION.

At last, an SUV that's as quick on the uptake as it is off the mark. That's the Touareg, delivering intuitive intelligence alongside exceptional performance. Adaptive Cruise Control (ACC) keeps you at a set distance to the vehicle in front and changes your speed accordingly, even to a complete standstill if necessary. Lane assist is camera controlled, while Side scan is radar controlled, these intelligent devices will not only warn you should your vehicle drift from its lane, but also warns you of vehicles that you may be unaware of in your blind spots. Traffic Sign Recognition is a camera controlled system with visual warning for traffic and road signs. Optional on all models.

Adaptive Cruise Control (ACC) is standard on R-Line V8 and optional on all other models. Lane assist and Side scan are optional on all models. Traffic Sign Recognition is optional on all models as part of the Driver's Assistance Pack.

Exceptional build quality and intelligent engineering.

Interior shown is SE with optional Area view, 'Dynaudio' soundpack, air suspension CDC (Continuous Damping Control) and 'Nappa' leather with front climate seats.

Think Blue.

Sustainability + Ingenuity.

'Think Blue' is Volkswagen's promise to create progressive, environmentally friendly products and processes. So from our concepts to our designs, from our fabrics to our machines, from our buildings to our water supply, from our engines to the open road we can help shape a more sustainable future. We have already started by creating BlueMotion cars and efficient BlueMotion Technologies that save you money and reduce emissions.

Think Blue.
Smart ideas for sustainable driving.

=

Start/Stop technology saves fuel and therefore cuts emissions by automatically switching off the engine when the car isn't in motion.

+

Brake energy recuperation system saves fuel by making the most of energy that's usually lost when you brake.

+

Turbocharged engines deliver more power when you need it and use less fuel when you don't.

+

Low rolling resistance tyres save you fuel by reducing the friction between the tyre and the road, meaning it takes less energy – and less fuel – to go further.

+

Purpose built BlueMotion cars. BlueMotion cars include the full range of BlueMotion Technologies as well as an aerodynamically optimised design to reduce wind resistance and increase efficiency. The ultimate way to Think Blue.

BlueMotion Technologies*

BlueMotion

*BlueMotion Technologies are available on all Volkswagens, excluding Phaeton, and vary between models.

Model shown is Escape with optional 20" 'Metropolitan' alloy wheels, Bi-xenon headlights and metallic paint.

EXTERIOR.

Powerful, dynamic and charismatic, the Touareg is more stylish and more streamlined than ever before. Its characteristic Volkswagen front grille and headlights radiating quality and elegance, its sleek bodylines conveying power and speed and its distinctive rear lights leave a lasting impression, especially at night.

The Touareg Escape's exterior design emphasises its outstanding off-road capabilities, featuring an increased approach angle of 26 degrees, matt chrome underbody protection at the front and rear, and specially designed off-road lower side underbody protection, also in matt chrome. At the rear, a distinctive diffuser and chrome round twin exhaust tailpipes complete the impressive off-road look, adding a real sense of style.

The **panoramic glass sunroof** reaches beyond the rear seats, giving an uninterrupted view of the sky above and filling the interior with natural light. This extra dimension of light and space creates a wonderfully relaxing interior ambience. Easily opened at the push of a button, allowing fresh air to enter and circulate, there is also an integrated sunblind, providing protection against the heat of the sun. The front glass panel can be elevated by 31mm and, as well as being completely opened, can easily be adjusted to a further seven opening positions. Standard on all R-Line and optional on all other models.

Heat insulating rear tinted glass from the B pillar backwards is 65% light absorbing, significantly reducing heat within the rear passenger compartment on hot days and offering more privacy. Standard on all R-Line and optional on all other models.

Electric door mirrors can be folded in, individually adjusted and heated from the inside. On the driver's side, the mirror is concave for a better overall view.

Roof rails allow you to transport bulky objects and are available in black finish on Escape models or matt chrome finish on all other models.

'Metropolitan' 9J x 20 inch alloy wheels with 275/45 R20 tyres add a touch of elegance. Optional on SE, Escape and R-Line models.

ALLOY WHEELS.

The range of standard alloy wheels has been carefully chosen to complement the exterior styling of every Touareg. However, if you wish to add a touch of individuality and personality, a selection of optional 19, 20 and 21 inch alloy wheels are also available, each design robust and hard-wearing, with anti-theft wheel bolts and chrome-plated wheel bolt covers. Optional 20 and 21 inch alloy wheels combine high strength with reduced weight for improved performance and efficiency.

'Karakum' 8J x 18 inch alloy wheels with 255/55 R18 tyres are eye-catching and bold. Standard on Escape models.

'Everest' 8½J x 19 inch alloy wheels with 265/50 R19 tyres add a very distinctive look. Standard on Hybrid models, optional on SE models.

'Pikes Peak' 9J x 20 inch alloy wheels with 275/45 R20 tyres deliver real individuality. Optional on SE, Escape and R-Line models.

'Tarragona' 9J x 20 inch alloy wheels with 275/45 R20 tyres and anti-theft wheel bolts create an exclusive look. Standard on R-Line, optional on SE models.

'Mallory' 9½J x 21 inch alloy wheels with 275/40 R21 tyres and anti-theft wheel bolts complement the R-Line styling. Standard on R-Line V8, optional on R-Line models.

'Girona' 9J x 19 inch alloy wheels with 265/50 R19 tyres add a touch of real style. Optional on SE models.

'Salamanca' 9J x 19 inch alloy wheels with 265/50 R19 tyres add a sporty look. Standard on SE models, optional on Escape and Hybrid models.

HOME FROM HOME

EVEN IN THE REMOTEST LOCATION.

Interior shown is SE with optional 'Dynaudio' soundpack and 'Nappa' leather with front climate seats.

Ergonomically designed for total convenience, the electrically heated leather trimmed multifunction steering wheel enables you to operate the radio, Bluetooth telephone connection and multifunction computer without taking your hands off the wheel. Standard on all R-Line and optional on all other models.

Phones must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

For a more exclusive look, the leather trimmed multifunction steering wheel can optionally feature 'Burr Walnut' wood trim and decorative inlays. Also available with 'Vavona' wood trim and decorative inlays.

INTERIOR.

The finest materials, exceptional craftsmanship and the most up-to-date equipment. That's what you can expect to find inside the Touareg, designed to provide the highest standards of luxury, convenience and functionality.

The centre console features an **electronic parking brake with auto hold function**, which replaces the conventional parking brake, ensuring the vehicle stops safely when fully laden on gradients up to and exceeding 30 per cent. It also features a luxurious, leather trimmed gear knob. Interior shown is R-Line with optional air suspension CDC (Continuous Damping Control).

The **two-piece front centre armrest** features a handy storage compartment and can be either folded and moved forward or backward individually from both the driver's and front passenger's side.

Two **cup holders** are conveniently located in the front centre console.

Interior shown is R-Line V8 with optional air suspension CDC (Continuous Damping Control), 'Nappa' leather and Pure White paint.

Thanks to the **modular design of the rear seating area**, each rear seat can be moved lengthways by 160mm and the backrest inclined to three different angles, ensuring a flexible load-through facility, which is very useful when transporting skis or other long objects. The rear centre armrest contains two cup holders, for the convenience of the rear passengers.

The rear backrest can be split and folded for additional flexibility. When folded down completely, it creates a generous **luggage compartment of up to 1,642 litres**. On R-Line V8 and Hybrid models, the rear backrest can be remotely unlocked using a switch in the boot to make loading just that little bit easier.

Double sun visors protect the driver and front passenger from glaring sunlight to both the front and the side.

6-way manually-adjustable front seats in 'Cricket' leather upholstery enable you to adjust seat height, backrest incline and length positions. Standard on SE, Escape and R-Line.

12-way electrically-adjustable front comfort seats in 'Vienna' leather upholstery enable you to find the optimum driving position for total comfort. Standard on R-Line V8 and Hybrid. Four-way adjustable front head restraints are standard on R-Line V8 models.

The **climate function** for the driver's and passenger's front comfort seats regulates the ventilation of the seat surfaces, backrests and side bolsters, and are equipped with three different settings to suit your individual requirements.

Some parts of leather interior will contain artificial leather.

12-way electrically-adjustable front sports seats in stylish Titan Black Alcantara with 'Nappa' leather seat centre sections provide maximum comfort and support for the driver and front passenger even when cornering. Seat height, backrest incline, length position, seat incline and lumbar support can all be individually adjusted, while side bolsters in the backrests are noticeably more defined than in the comfort seats and four-way head restraints allow you to adjust height and length. Also includes memory function for the driver's seat and door mirror, heated front seats and heated windscreen washer jets. Optional on all models. No cost option on R-Line V8 and Hybrid. Memory Pack is standard on R-Line V8 and Hybrid models.

Luxurious **'Nappa' leather 12-way electrically-adjustable front comfort seats with climate function** and four-way adjustable front head restraints ensure total comfort for the driver and front seat passenger. Seat height, backrest incline, length position, seat incline and lumbar support can all be individually adjusted, while side bolsters in the backrests are equipped with air cushions that can be electro-pneumatically adjusted. Also includes heated front seats and heated windscreen washer jets. Optional on all models.

Also available but not shown: luxurious Titan Black or Espresso **'Nappa' leather 12-way electrically-adjustable front comfort seats** and four-way adjustable front head restraints ensure total comfort for the driver and front seat passenger. Seat height, backrest incline, length position, seat incline and lumbar support can all be individually adjusted. Also includes heated front seats and heated windscreen washer jets. Optional on all models.

R-Line models are only available in Titan Black leather upholstery.

Electrically heated outer rear seats are also available as an option to allow rear seat passengers to enjoy the same level of comfort as the driver and front seat passenger. Optional on all models.

The **cargo management system** features a telescopic rod that divides the surface lengthways and diagonally, and safely secures loads with a tensioning belt fixed to rails. An additional tensioning belt, attached to the right side trim, helps secure small and bulky loads. When transporting dirty objects, the boot area can serve as a concealed trough, although it can be used as a level loading area when required. Optional on all models except Hybrid.

The **reversible boot mat** protects the boot floor from dirt and can be used on either side, with a choice of velour on one side and dimpled plastic on the other.

For securing luggage in the rear, a **cargo net** on the boot floor attaches to the load lashing rings and holds items securely, ensuring that nothing in the luggage compartment slides around. Optional on all models as part of the cargo net and boot space mat pack.

The **luggage cover** conceals the contents of your luggage compartment, ensuring privacy and protection from the sun, and can be opened with a one-touch operation for total convenience.

The driving experience offered by the Touareg is unique for such a large SUV. Thanks to a combination of highly innovative technologies, no other vehicle of its type provides such a high level of ride comfort, dynamism, efficiency and off-road ability.

ENGINES,
RUNNING GEAR
AND GEARBOX.

Escape models feature the intelligent **4XMOTION** four wheel drive system for optimal traction, while a centre and rear differential lock coupled with low gear ratios ensure maximum control at low speeds, so that even extreme cross-country journeys become a simple exercise for the Touareg. The vehicle adjusts to the driving situation via a 5-level control, while a 100 litre capacity fuel tank extends its range even further.

Air suspension CDC (Continuous Damping Control) enables you to select either Normal, Comfort or Sport drive settings, depending on the style of drive you require. Thanks to automatic self-levelling and ride height adjustment, along with speed-related CDC (Continuous Damping Control), the Touareg provides a unique combination of on- and off-road properties. Uneven ground, for example, rides smoothly in 'Comfort' mode, while the 'Sport' programme offers increased agility and, when away from paved roads, provides up to 300mm of ground clearance allowing you to overcome extreme obstacles. To ensure easier and more convenient loading and unloading, the vehicle rear can also be lowered from the standard height by up to 60mm. Optional on all models.

Optional Air suspension CDC (Continuous Damping Control) is in lieu of standard lowered sports suspension on all R-Line models.

Model shown is SE with optional 20" 'Metropolitan' alloy wheels, heat insulating rear tinted glass, Adaptive Cruise Control (ACC), Bi-xenon headlights and metallic paint.

With a phenomenal climbing capability of up to 35 degrees, the Touareg masters even extreme precipices with ease. Although always check what's over the summit before you begin, as you'll be looking straight at the sky on such a steep incline.

A wading depth of up to 580mm with optional air suspension CDC (Continuous Damping Control) ensures the Touareg crosses water with ease. But remember – always drive in direction of the flow and keep going continually towards the opposite bank. And always avoid bow waves.

Completely at home on gradients of up to 35 degrees, the Touareg drives safely even on sloped roads. However, if the road inclines too steeply, do not brake, simply steer the vehicle quickly in the direction of the slope line in order to arrest the slide and keep going safely.

Quite capable of handling a 25 degree angle of approach (26 degrees on the Escape) and a 26 degree angle of departure; ridges, embankments and hills make driving in the Touareg great fun.

Easily able to handle a ramp angle of up to 16 degrees, the Touareg provides ample ground clearance. However, watch out for pot holes or soft subsurfaces beyond the obstacle, as they might reduce your ground clearance.

Figures shown are for all models except Escape.

TOUAREG WITH BLUEMOTION TECHNOLOGY.

The Touareg is equipped with BlueMotion Technology as standard, featuring a sophisticated package of innovative measures designed to reduce fuel consumption and emissions significantly. This includes a choice of two highly efficient diesel engines: the 3.0 litre V6 204 PS and the 3.0 litre V6 245 PS.

The **Start/Stop function** enables you to drive far more economically than normal by cleverly switching off the engine when your vehicle is stationary. When approaching a red light, simply keep your foot on the brake until the vehicle has come to a stop and the engine will switch off automatically. As soon as you remove your foot from the brake pedal, the engine automatically switches on again. Meanwhile, **recuperative braking**, helps to store energy that would otherwise have been lost during braking, boosting the alternator's voltage to recharge the battery during deceleration and braking phases, and helping to save fuel. An intelligent thermo-management system is also at work, ensuring the operating temperature of the engine and gearbox is reached a great deal more quickly, which also helps to reduce fuel consumption. Standard on all V6 TDI models.

TOUAREG HYBRID.

Model shown is Hybrid with optional 19" 'Salamanca' alloy wheels, Adaptive Cruise Control (ACC), Area view and metallic paint.

The Touareg Hybrid represents a milestone in drive technology, combining a V6 TSI engine and electric motor to deliver breathtaking running performance along with surprisingly low fuel consumption. In just electric mode, it enables you to pull away with very little noise and no emissions, but with both working together, it generates immense power, giving you a whole new driving experience, while producing lower CO₂ emissions of just 193g/km*. As you'd expect from a Touareg, it's also robust and resilient, both on- and off-road, which has to be a winning combination.

* Find information about fuel consumption and CO₂ emissions on pages 62-63.

Innovative technology ensures a highly efficient ratio of performance to fuel consumption in the Touareg Hybrid. A state-of-the-art EURO 5 compliant 3.0 litre V6 TSI engine with 333 PS forms the basis, linked to a **hybrid drivetrain**, which utilises a 31 kW electric motor positioned between the petrol engine and 8 speed automatic tiptronic gearbox. This gives you a purely electric drive up to 31mph, lowering the combined fuel consumption to just 34.4mpg on the Combined fuel cycle*. When both drives work in parallel, however, it delivers an exceptional power boost, releasing up to 580 Nm of torque and accelerating from 0 to 62mph in just 6.5 seconds. Which means you enjoy great fuel savings without any compromise on performance.

* Find information about fuel consumption and CO₂ emissions on pages 62-63.

The smarter SUV packed with intelligent technology.

The Touareg Hybrid switches to the most suitable drive mode without any intervention from the driver. The engine control unit co-ordinates the operation of all the different components, regulating the power supply according to the driving situation, and ensuring optimum use of electrical energy.

Hybrid technology is carefully assembled to ensure the highest levels of robustness and passenger safety. The different modes of the hybrid drive and the load condition of the high voltage battery are displayed on the RNS 850 touch-screen navigation/DAB radio system's audio display. The electric engine is located between the combustion engine and the automatic gearbox. The energy store, on the other hand, is located in the rear area in the spare wheel well, in a secure and protective casing.

The **'Hybrid'** badge on the vehicle rear, front grille, side skirt chrome strips and centre console insert makes it clear you are driving one of the most innovative vehicles around.

SAFETY

Numerous intelligent safety systems help keep your Touareg safely on the road, or off-road as the case may be, ensuring you are well prepared to tackle any adventure. In the unfortunate event of an accident, all occupants are optimally protected by a whole range of passive safety features, including the exceptionally rigid vehicle body.

Image shown is for illustration purposes only and may not necessarily reflect UK specification.

In the case of a rollover, special **rollover sensors** determine within a fraction of a second whether to trigger the belt tensioners and curtain airbags.

Hill start and hill descent assist as well as a highly efficient electronic parking brake with auto hold function ensure vehicle safety when going up and downhill.

Up to two **child seats** can be fitted easily and safely to the outer rear seats using the Isofix fixings attached directly to the vehicle's body.

A **comprehensive airbag system** for the driver and passengers includes front seat side impact and curtain airbags, offering maximum protection to all occupants. On the driver's side, a knee airbag is optionally available, as are rear seat side impact airbags and rear seat belt tensioners as part of the **Airbag pack**. The front seat passenger airbag can easily be deactivated if required using a control switch in the glove compartment.

Front fog lights with a static cornering function provide intense illumination, ensuring better visibility and safe driving in thick fog, snow or heavy rain.

The **Bi-xenon headlights** feature dynamic curve lighting and static cornering function, providing better illumination of the road ahead on bends and when turning. Daytime running lights, rear tail lights and rear number plate lights utilise LED technology to ensure your vehicle is more visible and give your Touareg its characteristic look. Light distribution of the dipped beam is matched to speed, so that a longer light beam is emitted for improved illumination when the vehicle is driven faster. Headlight washers will also ensure they remain free of dirt. Standard on all R-Line and Hybrid models and optional on all other models.

The ESC (Electronic Stability Control) synchronises the ABSPlus (Anti-Lock Braking System), EDL (Electronic Differential Lock) and ASR (Traction Control) to compensate for under or oversteering and maintain vehicle stability. The towing stabilisation device also uses the ESC sensors in order to keep your Touareg stable when weaving or fishtailing while pulling large trailer weights.

A warning symbol lets you know if the **three-point seat belts** on the front seats have not been fastened.

The **ABSPlus (Anti-lock Braking System)**, not only improves steering during emergency braking, but is specially designed for off-road vehicles and shortens the braking distance on loose ground, such as sand, gravel or grass, by up to 20%.

HBA (Hydraulic Brake Assist) applies full brake pressure more quickly in a reflex or emergency stop situation.

The **rain sensor** is automatically activated in bad weather and adjusts the frequency of the windscreen wipers according to the intensity of the rain.

The **electronic tyre pressure monitoring system** keeps you informed about the air pressure of each tyre via the multifunction display, warning you of any changes. This enables you to maintain optimum tyre pressure, increasing the lifespan of the tyres and reducing fuel consumption.

COMFORT AND CONVENIENCE.

The Touareg is built for extremes, both on- and off-road. But whatever the terrain, you can enjoy the highest standards of comfort and convenience, thanks to an abundance of features and optional extras, designed to make driving as easy as possible.

The 7 inch multifunction colour display keeps you informed throughout your journey, providing various pieces of information on the large TFT high resolution screen. For example, navigational directions can be displayed in colour, along with journey data, average fuel consumption, range left in tank, exterior temperature and more.

Front and rear parking sensors give an acoustic and visual warning via the navigation/DAB radio system's display if your vehicle gets too near an object while parking. Optional on Escape and standard on all other models.

Bluetooth telephone connection for HFP (Hands Free Profile) enabled telephones allows you to use your compatible mobile phone without taking it out of your pocket. Operation can take place using either the RNS 850 touch-screen navigation/DAB radio system display, the leather trimmed multifunction steering wheel or via voice control with settings and functions easily read on the multifunction display.

Phones must be Bluetooth HFP (Hands Free Profile) compatible, please contact your authorised Volkswagen retailer for specific phone compatibility.

Adaptive Cruise Control (ACC) and the radar sensor controlled Front Assist system adapt your speed to that of the vehicle ahead and maintain a constant distance set by the driver. If Front Assist detects you are getting too close to the vehicle in front, it will warn you in two stages: visually and acoustically, and will then automatically start braking using the City emergency braking system, to a standstill if necessary. Standard on R-Line V8 and optional on all other models.

Please note: when the ACC system is switched on, the driver is still fully responsible for watching their speed and distance to the vehicle in front. This assistance system should not be used on winding roads and in adverse weather conditions or heavy rain.

Side scan helps you if you want to change lane safely at speeds of over 37mph. Sensors in the rear of the vehicle monitor the traffic and should they detect any road users in your blind spot, the system will warn you via a warning light within the door mirror housing and an audible warning within the vehicle. Optional on all models and includes a leather trimmed, heated steering wheel on SE, Escape and Hybrid models. Alternatively, optional on all models as part of the Driver's Assistance Pack.

Lane assist warns you if your vehicle drifts out of its lane at speeds of 40mph and above, and operates via a camera located between the roof console and the rear-view mirror. If the camera detects your vehicle is leaving a marked lane, it will warn you by vibrating the steering wheel. Lane assist is optional on all models in conjunction with Side scan. Alternatively, optional on all models as part of the Driver's Assistance Pack.

Side scan, and Lane assist and Side scan are available as options on all models and include a leather trimmed, heated steering wheel on SE, Escape and Hybrid models. Alternatively, optional on all models as part of the Driver's Assistance Pack.

The **Traffic Sign Recognition** system informs you of current speed limits and other Government warning signs that may be effective during your journey. The system receives a signal from each applicable road sign and sends a visual message to the driver via the navigation system. Traffic Sign Recognition forms part of the optional Driver's Assistance Pack. Please note: this is only an assistance system and may not recognise all traffic signs. It is still the driver's responsibility to comply with the Highway Code and road sign information.

The Touareg's **Driver's Assistance Pack** is designed to increase comfort as well as vehicle safety and includes **Adaptive Cruise Control (ACC)**, which adjusts the speed of your vehicle to that of the vehicle in front and gives a two stage warning if you get too close: firstly, either visually or acoustically, and secondly, with a short braking movement, preparing you for a possible emergency stop. **Lane assist** warns you via steering wheel vibrations if your vehicle unintentionally leaves a marked lane. **Side scan** utilises rear radar sensors to monitor the flow of traffic, giving you a visual warning via an indicator light in the door mirror housing if it detects a vehicle in your driver's blind spot as you change lanes. **Traffic Sign Recognition** is a camera controlled system with visual warning notifying the driver of speed restrictions and warning signs. The optional Driver's Assistance Pack on SE, Escape and Hybrid models includes an electrically heated leather trimmed steering wheel for further comfort and style. When specified with Escape models, the pack also includes **front and rear parking sensors** (ultrasonic, optical and audible). Parking sensors are standard on all models except Escape.

The **electric tailgate** can be opened and closed easily and conveniently from the driver's seat via a sensor in the front door, using the remote key or a button inside of the tailgate. Standard on all R-Line and Hybrid, and optional on all other models. On SE and Escape models, the optional electric opening and closing tailgate can include **hands free electric tailgate opening and keyless entry/keyless start**.

The **keyless entry/keyless start system** enables you to enter your vehicle and even start the engine using a button in the centre console, without taking the key out of your pocket. Standard on all R-Line and Hybrid, and optional on all other models.

Hands free electric tailgate opening uses a sensor beneath the rear bumper, so having your hands full while trying to open the tailgate is no longer a chore. Optional on SE, Escape and Hybrid models.

12V sockets are located in the centre console, front centre armrest compartment, rear centre console and luggage compartment.

The **ambient lighting pack** provides soft, low-level lighting when the headlights are switched on, providing an even greater feeling of spaciousness and relaxation, enabling the driver to operate the controls quickly and easily. The package includes LED front footwell and reading lights, warning lights in the front doors and reflectors in the rear doors, and light strips below the decorative inserts in the front doors. Light intensity can be adjusted easily using the dimmer switch. Optional on all models. Image shown features Memory pack which is optional on all models in conjunction with leather upholstery.

The **automatic dimming interior rear-view mirror** detects if a following vehicle's headlights are too high and dims the mirror accordingly.

When set to Auto, the **dusk sensor** automatically switches on the dipped beam headlight when it detects diminishing or fading light.

The manually operated **rear side window sunblinds** provide comfort for your rear passengers offering protection from strong sunlight. Optional on all models.

Area view comprises front, rear and side cameras, providing a 360 degree exterior view transmitted to the RNS 850 touch-screen navigation/DAB radio system's display. Different view points include the area directly in front of your Touareg from a bird's-eye view, or the 'cross traffic view', enabling you to see around the left and right hand corner to an angle of over 90 degrees from the front-most point of the vehicle. Optional on all models.

Area view also includes **trailer hitch assist**, which shows the area directly behind the vehicle from a bird's-eye view and makes manoeuvring with and attaching a trailer much easier.

Area view's **rear-view camera** gives you a view of the area behind your Touareg and transmits a picture directly to the navigation/DAB radio system's colour screen. Superimposed lines indicate the path you should take when reversing, ensuring you avoid obstacles below eye level.

The **automatic coming/leaving home lighting function** illuminates the surrounding area around the Touareg, making getting in and out of the vehicle safer and easier.

A **control panel in the boot**, which is standard on R-Line V8 and Hybrid models, enables you to remotely unlock the rear backrest. In addition, it provides controls for the operation of the optional towbar and, when the optional air suspension CDC (Continuous Damping Control) is specified, controls the rear of the vehicle so it may be lowered for easy loading and unloading.

The **central locking system** enables all doors to be locked and unlocked from the driver or passenger seat quickly and safely using a switch on the inside door handle. In the case of an accident the integrated crash sensor automatically opens the door locks.

The **remote central locking**, via the Touareg's key allows you to open door locks from a distance at the touch of a button.

The **keyless entry and keyless start system** enables you to open and start the Touareg without taking the key out of your pocket. Standard on all R-Line and Hybrid and optional on all other models.

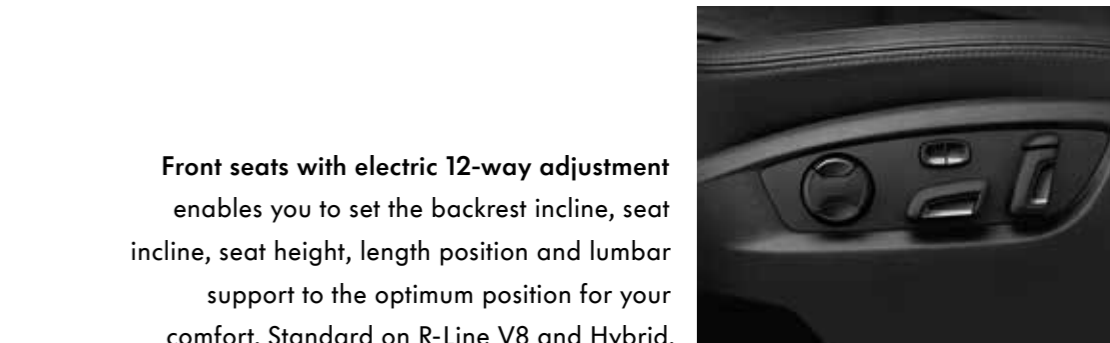

The **Memory pack** electrically stores the seat settings for the driver's seat and exterior door mirrors. The preferred positions can be restored at the touch of a button. Standard on R-Line V8 and Hybrid models. The **Memory pack plus** stores the settings of the driver's and front passenger's seats, exterior door mirrors and steering column. Memory pack and Memory pack plus are optional on all models in conjunction with leather upholstery.

Cruise control is operated via a separate steering column switch and maintains pre-selected speeds from 19mph upwards, helping you to relax on longer journeys.

Cruise control also includes a **Driver Alert system**, which detects when the driver is becoming tired and recommends taking a break, this is achieved by monitoring driving behaviour and alerting the driver via a visual and audible warning.

Front seats with electric 12-way adjustment enables you to set the backrest incline, seat incline, seat height, length position and lumbar support to the optimum position for your comfort. Standard on R-Line V8 and Hybrid.

The **headlight washer system** sprays at high pressure onto the exterior of the light for maximum illumination – particularly useful after cross-country trips. Optional on SE models and standard on all other models.

MULTIMEDIA.

Whether you wish to take the most direct route or the scenic detour, you can be sure your journey will be enjoyable and relaxed, thanks to the Touareg's off-road ability and innovative RNS 850 touch-screen navigation/DAB radio system.

To ensure you reach your destination quickly and safely, your Touareg is fitted with an **RNS 850 touch-screen navigation/DAB radio system**, complete with 8 inch colour TFT high resolution display, integrated 60 GB hard disk with preloaded navigation data and two SD card readers. The voice-activated system includes a 7 digit postcode search functionality and displays the surrounding area with 3D landmarks. At the touch of a button, the radio system can be operated from the leather trimmed multifunction steering wheel.

The off-road display of the RNS 850 touch-screen navigation/DAB radio system simplifies orientation when driving cross-country with its compass and height displays. The steering wheel turning guide is also very helpful when driving on loose ground. Standard on all models.

The state-of-the-art 'Dynaudio' soundpack with digital sound processor, ten channel amplifier, ten low natural resonance speakers and two central speakers produces a full, resonant sound – and a staggering 600 watts of musical performance. It's also equipped with dynamic driving noise compensation. Optional on all models. Available but not shown is an optional DVD changer mounted in the luggage compartment.

The **AUX-in multimedia socket** in the front centre armrest, enables you to play external audio devices such as an iPod or MP3 player through the RNS 850 touch-screen navigation/DAB radio system.

Alternatively, you can use the **MDI (Multi Device Interface)** with iPod connection cables including the latest generation Lightning to 30-pin adaptor, which offers iPod connectivity, allowing you to select and play audio files through the RNS 850 touch-screen navigation/DAB radio system.

AIR CONDITIONING.

Wherever you are in the world, from Mediterranean beach to Alpine ski resort, you will always enjoy your chosen temperature in the Touareg, thanks to the latest electronic climate control systems.

Climate control – 2Zone electronic air conditioning enables the driver and front passenger to each select their preferred temperature setting. The system recognises the intensity of the sunlight as well as the outside temperature and adjusts accordingly. Automatic air recirculation prevents unpleasant outside odours, such as exhaust fumes when reversing, from entering the cabin. Standard on all models.

Climate control – 4Zone air conditioning with automatic air recirculation is optionally available enabling individuals in both rows of seats to select their preferred temperature setting. Ventilation speed and distribution can also be individually adjusted. Rear passengers are able to set their required temperature using their own control panel and there are also adjustable vents in the rear centre console. The system also uses residual heat from the already running engine to provide additional warmth in the passenger compartment. Optional on all models except Hybrid.

Only in conjunction with optional auxiliary parking heater on R-Line V8 models.

The **auxiliary parking heater** can be activated via remote control from up to 600 metres away, ensuring warm seats, clear vision and no steamed-up windows before you get in the Touareg, providing greater comfort and safety on cold winter days. The auxiliary heater and ventilation system can also be controlled or pre-programmed via remote control or via the navigation/DAB radio system. Also included is an increased fuel tank capacity of 100 litres which extends its range even further. Optional on all models except Hybrid.

Paint.

Nature has millions of colours. Here are just a few of them. These complex paint finishes give those components their unmistakable final appearance of quality.

† No cost option on R-Line models.

■ Standard
□ Optional at extra cost

There's a Volkswagen for all of us.

Nippy city run around? Luxurious executive saloon? Open-top cruiser? Whatever it is you're looking for, we probably have it. From the iconic Beetle and Golf GTI to the up! and ultra-efficient BlueMotion Polo, there's a Volkswagen for everyone.

If you're thinking you might like to try a different Volkswagen, take a look at the selection below to see what else we have. There are 21 models in our range, so there's bound to be at least one that catches your eye.

Efficient

Our BlueMotion models benefit from innovative energy-saving technology that helps you optimise fuel consumption and reduce harmful emissions. This includes low rolling resistance tyres and improved aerodynamics, accompanied with advanced engines and gearboxes. Choose from the BlueMotion Polo, Golf or Passat.

However, BlueMotion Technology can be found across our range where automatic Start/Stop technology and brake energy recuperation is standard on the majority of our engines, helping you to save more money by being more efficient.

Sporty

Scirocco: As exciting to drive as it is to look at. Style, performance and power.

You will also find our sporty gene in the iconic Golf GTD, GTI and R. Or for something more refined and elegant, there's the Eos too.

Spacious family cars

Sharan: The ultimate in convenience with sliding rear doors, and enough space for the whole family. And their luggage. And the dogs.

If it's space you're after, then you might also like to consider the Tiguan, Golf Estate, Touran and Passat Estate.

Style

Beetle: The original icon. And still the most unique way to make a fashion statement.

For more fun with the top down, why not consider Beetle Cabriolet, Golf Cabriolet or Eos.

City run around

up!: The ideal city car. Efficient, fun and surprisingly spacious, with that trademark Volkswagen solidity.

If you're looking for something slightly more spacious, then why not consider the up!'s bigger sibling, the Polo. City run around efficiency with more versatility and even more space can be found on the iconic Golf – winner of 'World Car of the Year 2013'.

Executive

Volkswagen CC: Perfectly turned out high-tech, executive luxury. A contemporary, stylish and innovative coupé.

All the luxury you need can also be found in the top of the range Phaeton, and executive comfort in the Passat Saloon and Jetta.

4x4

Touareg: The SUV just got smarter. True four by four capability off-road, and smooth, luxurious and powerful when on it. Features four wheel drive technology, '4MOTION', as standard for optimum road grip, stability and control.

Go anywhere, do anything in our four wheel drive alternatives: Tiguan and Passat Alltrack.

To see these models and configure your ideal Volkswagen, visit: www.volkswagen.co.uk

NOTES

- 01)** The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02)** Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68kg) and luggage (7kg) in line with EU directive 95/48.
- 03)** With increasing altitude the engine performance diminishes. From 1,000m above sea level and for every 1,000m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.

- 04)** Fully compatible with 5% bio diesel in accordance with EN590 Standard.
- 05)** The size of the fuel tank is approximate and therefore it may be possible to add a greater amount of fuel than the size of the tank specified, due to the space in the filler neck.
- 06)** Fuel consumption and CO₂ figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. More information is available on the Volkswagen web site at www.volkswagen.co.uk and at www.vca.gov.org.
- 07)** The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

The ownership experience.

Owning and driving a Touareg is an extremely rewarding experience. It's not just the performance, build quality, comfort and practicality that satisfies, the level of after-sales support is exemplary. To deliver such high levels of service, we've introduced a network of specialist service outlets, all having the necessary specialist equipment and high levels of skills required to look after your car.

Within each specialist service outlet we have introduced a new team member. Licensed Technicians meet the highest standards within their field for professionalism, skill and knowledge. Our aim is to make buying and looking after your car more enjoyable.

When it comes to servicing, we appreciate that it may be more convenient for us to visit you. So, whether you're at home or the office, one quick and easy phone call is all it takes to arrange for a convenient collection and delivery.

Naturally, we'll provide you with a replacement Volkswagen and we have also set up a dedicated telephone line for Touareg owners.

Our Luxury Car Support Centre is open six days a week, and is a single point of contact for Touareg owners.

Comprehensive cover from Volkswagen Roadside Assistance.

Your Touareg is covered by the excellent support service of Volkswagen Roadside Assistance for the first three years after registration. This is a 24 hour, 365 days a year pan-European emergency home and roadside recovery service manned by professional multilingual staff. It's not just there for the unlikely event of a breakdown, Volkswagen Roadside Assistance can ease the uncertainty following an accident or the inconvenience should you run out of fuel or lose your keys. You will benefit from a priority response following your call to our dedicated team of support staff.

Volkswagen Roadside Assistance provides many benefits and complete peace of mind. For example, should you be in the unfortunate situation of a breakdown, we'll arrange overnight accommodation or onward travel for you and your passengers. In addition, there's an Accident and Legal Helpline.

Terms and conditions apply. Please see your authorised Volkswagen retailer for details and brochure.

Stylish, refined, sophisticated.

Model shown is SE 3.0 litre V6 TDI 245 PS with optional 20" 'Metropolitan' alloy wheels, Bi-xenon headlights and metallic paint.

VOLKSWAGEN SERVICE.

The Volkswagen Warranty. Three-year Warranty. All Volkswagen passenger cars come with a three-year/60,000 miles warranty, which protects your car against the failure of most technical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty*. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty. The paintwork of the Touareg is covered against manufacturing defects for a period of three years. Naturally, the Touareg must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty. The internal body sections and panels of the Touareg are covered against rusting through from the inside for a period of 12 years. Naturally, the Touareg must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Extended Warranty. If you order the Volkswagen Extended Warranty as an option when buying your new Touareg, then you get the 100% Volkswagen Warranty and you can continue to enjoy comprehensive Volkswagen protection against many unforeseeable repair costs. Designed to your needs, you can purchase an extra one or two year's warranty up to a maximum of five years or 90,000 miles.

Approved Accessories. A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen Approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Tax Free Sales. For full details, please contact your authorised Volkswagen retailer.

Service Intervals. Volkswagen are pleased to offer you a choice on how your Touareg is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Fixed Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Fixed Service are as follows:

- Oil change service – Every 10,000 miles/1 year (whichever is soonest).
- Interval service – Every 20,000 miles/2 years (whichever is soonest).
- Inspection service – Every 40,000 miles/3 years (whichever is soonest).

The Flexible Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the Flexible Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement.

Please consult your authorised Volkswagen retailer or repairer for full details.

Volkswagen Insurance[‡]. We want you to start enjoying your new car from day one and thanks to Volkswagen Insurance complimentary seven day cover, you can. Call free on 0800 316 7892 (lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away.

[‡] Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR.

Registered in England number 2835230. Volkswagen Insurance is sold, underwritten and administered by Allianz Insurance plc

registered in England number 84638. Registered office 57 Ladymead, Guildford, Surrey GU1 1DB. Volkswagen Financial Services

Volkswagen Insurance. Get three years' Volkswagen Insurance cover for free.

Another great benefit of being a Volkswagen driver. If your Volkswagen was damaged in an accident, wouldn't you want it fixed by a Volkswagen trained technician using only genuine Volkswagen parts? Insurance is Volkswagen's accident and repair cover which does exactly that. It works alongside your main comprehensive motor insurance policy no matter who you are insured with, to make sure you get the quality repair and service you would want. If you're involved in an accident or your car is stolen, just one call to us and we'll look after your claim from start to finish ensuring your Volkswagen is restored to the highest standard.

Activate your cover and benefit from:

- A guarantee that your Volkswagen will be repaired in a Volkswagen Insurance approved repairer, by Volkswagen trained technicians, using only genuine Volkswagen parts and paints.
- A dedicated Claims Manager available 24-hours a day to manage your claim, liaising with your insurer and the repairer, so you don't have to.
- Help to recover any uninsured losses using our Legal Expenses Cover.
- Online claims tracking so you can keep up to date with the status of any claim.

Volkswagen Insurance is free to all Volkswagen customers for three years and it only takes a minute to get cover.

Volkswagen Finance[‡]. Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local authorised Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

[‡] Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends

on certain conditions. Available to people over 18 in the UK only.

Approved Used Cars. Confidence, peace of mind, reassurance. These are the virtues of buying an Approved Used car because every car has, or is supported by:

- Multipoint inspection
- Comprehensive reconditioning and valeting
- Mileage verification
- Vehicle validation check
- Volkswagen Approved Warranty
- Volkswagen Roadside Assistance¹
- 30-day/1,000 miles exchange policy²

¹ Cars up to three years old are covered by Volkswagen Roadside Assistance. This can be purchased separately for cars over three years old.

² Terms and conditions apply, please ask for full details.

And for Approved Used Volkswagens, a service history check and certificate are also provided. When it comes to buying a used car, it's important that you can be confident in its mechanical condition, mileage and history. The Volkswagen Approved Used scheme should help put your mind at ease. Every Approved Used car for sale will have passed a rigorous inspection, and any problems found will have been rectified before the car is made ready for sale. For your extra peace of mind, it will be covered by a 12-month warranty and a 30-day/1,000 miles exchange policy.

CO₂ Emissions. Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced.

The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.
