

VOLVO
S60

VOLVO

for life

A man and a woman are laughing together in a social setting. The man is on the left, leaning towards the woman on the right. They are both smiling broadly, showing their teeth. The background is slightly blurred, showing other people and what appears to be an outdoor or semi-outdoor event space.

“Cars are driven by people. The guiding principle behind everything we make at Volvo therefore is, and must remain, **safety!**”

Assar Gabrielsson. A Volvo founder.

This is the S60. A revolutionary Volvo to challenge every staid notion of the European Sports Sedan. It rewards your passion for driving while it quietly complements the successful achievement of your personal goals. It is in all ways a sophisticated driver's sedan engineered to embrace the road.

*S60 T5 shown with optional Cold Weather Package
(standard in Canada).*

Responsive. Expressive. And confident. The S60 is a high performance sports sedan of well-bred character. The available turbocharged 247 horsepower five-cylinder engine and five-speed Geartronic transmission power an incredibly satisfying driving experience. Its sculptured good looks and powerful stance please you on another level. S60 tastefully reflects all the best of the new era of Volvo design. It is striking in a category heretofore dominated by a select few Teutonic competitors.

Inside the S60, every detail has been focused on the driver's next move. From the analog dials and digital displays to every switch and button, each has been engineered for maximum utility and minimum distraction. The driver's seat is designed and eminently adjustable with lumbar support and power assist with three-position memory.* Every detail of the S60 cockpit has been meticulously engineered to give you control and feedback that is instantaneous and unfiltered.

*S60 T5 interior shown with optional equipment.
See your Volvo Retailer for details.*

**Optional 2.4*

Inside the cabin of this beautifully crafted sports sedan, fit and finish are fanatically perfect. Everything is right. From the solid width and thickness of the steering wheel to the perfect positioning of the shifter, your driver's instincts are attended to. The tilt and telescoping steering wheel adjusts to your exact preference while, front and back, the seats have been perfectly matched for overall comfort. The T5's exclusive Sport Seats provide additional side bolster and support in both front and rear seats. A Dual Zone Electronic Climate Control System (ECC)* with removable pollen filters maintains an ideal cabin atmosphere. An advanced air quality system is available as an option.

**ECC not available on 2.4 model in U.S.*

*S60 T5 interior shown with optional equipment.
See your Volvo Retailer for details.*

Both rear and front passenger seats can be folded forward to afford nearly eight feet of continuous long load pass-through space for special hauling.

The unique T5 Sport Shift with the 5-speed manual transmission is angled for precise response and driver feedback.

AUDIO

Let the music move you. With the S60, high tech sound engineering advances audio quality to a new level. Computers actually map the system's sound performance, using sophisticated software to create the ideal listening environment. As a result, with Volvo's standard full logic AM-FM stereo cassette system, sounds resound perfectly through six precisely matched and balanced speakers. A dual diversity antenna ensures clear reception wherever you wander. And for audiophiles, Volvo's audio option includes a Dolby® Pro-Logic Surround Sound System with an in-dash CD that can accommodate four discs. A 300-watt amplifier and 13 perfectly matched Harman Kardon loud speakers are also included.

A. The optional Volvo Electronic Navigational System can take you anywhere with precise audio and visual directions. Its liquid crystal display retracts into the top of the dashboard. Controls are incorporated into the steering wheel for ease of operation.

B. Built-in audio system controls let you change a radio station or adjust a sound level without taking your hands from the wheel (2.4T, T5 only).

A
B

The S60 breaks through the preconceived notion of the European sports sedan in dramatic style. Its design signature embodies all the excitement of the S80 in an inspired new profile that expresses sedan proportions in a sleek new coupe roofline and body. On the road it's a highly evolved edge to the wind. In the night light its round lines and crisp detail make a sophisticated statement about good taste, modern classics, and the arrival of the new Volvo design movement.

S60 T5 shown with optional 17-inch alloy wheels.

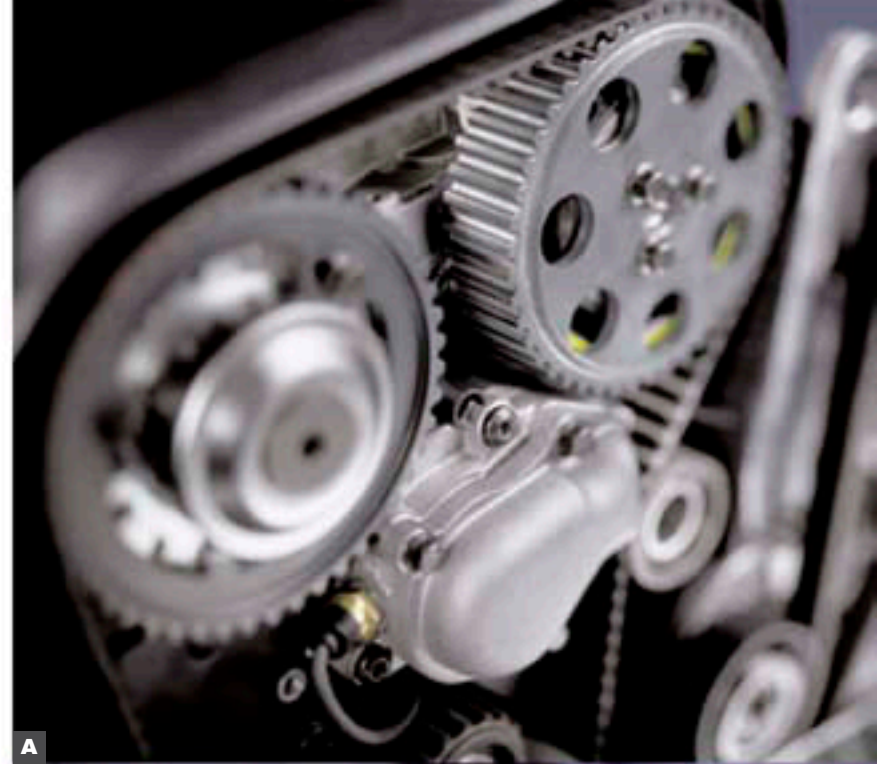

Power-assisted rack and pinion steering, front MacPherson struts, rear multilink suspension, and front and rear stabilizer bars put the road under your direct control. The optional **T5 Sport Suspension** recalibrates the chassis components with thicker front and rear stabilizer bars and shock absorbers reset for performance damping. This suspension set-up, when matched with the optional **17-inch alloy wheels** and 45 series tires, helps the S60 T5 redefine its performance class with a lesson in handling and acceleration that will be noted in automotive circles around the world.

When the weather turns wet, the S60's optional **traction control systems** can afford the driver greater control in adverse conditions. **Stability Traction Control (STC)** will detect a slipping wheel and instantly employ the computerized **ABS braking system** to slow the spinning wheel until it

regains traction. **Dynamic Stability Traction Control (DSTC)** enhances the STC function by electronically incorporating the STC spinning wheel data with driver steering input and the course of the vehicle. It then gently activates the brakes at an individual wheel as needed to help keep you on your intended course. Both systems operate in milliseconds before you are even aware of the situation.

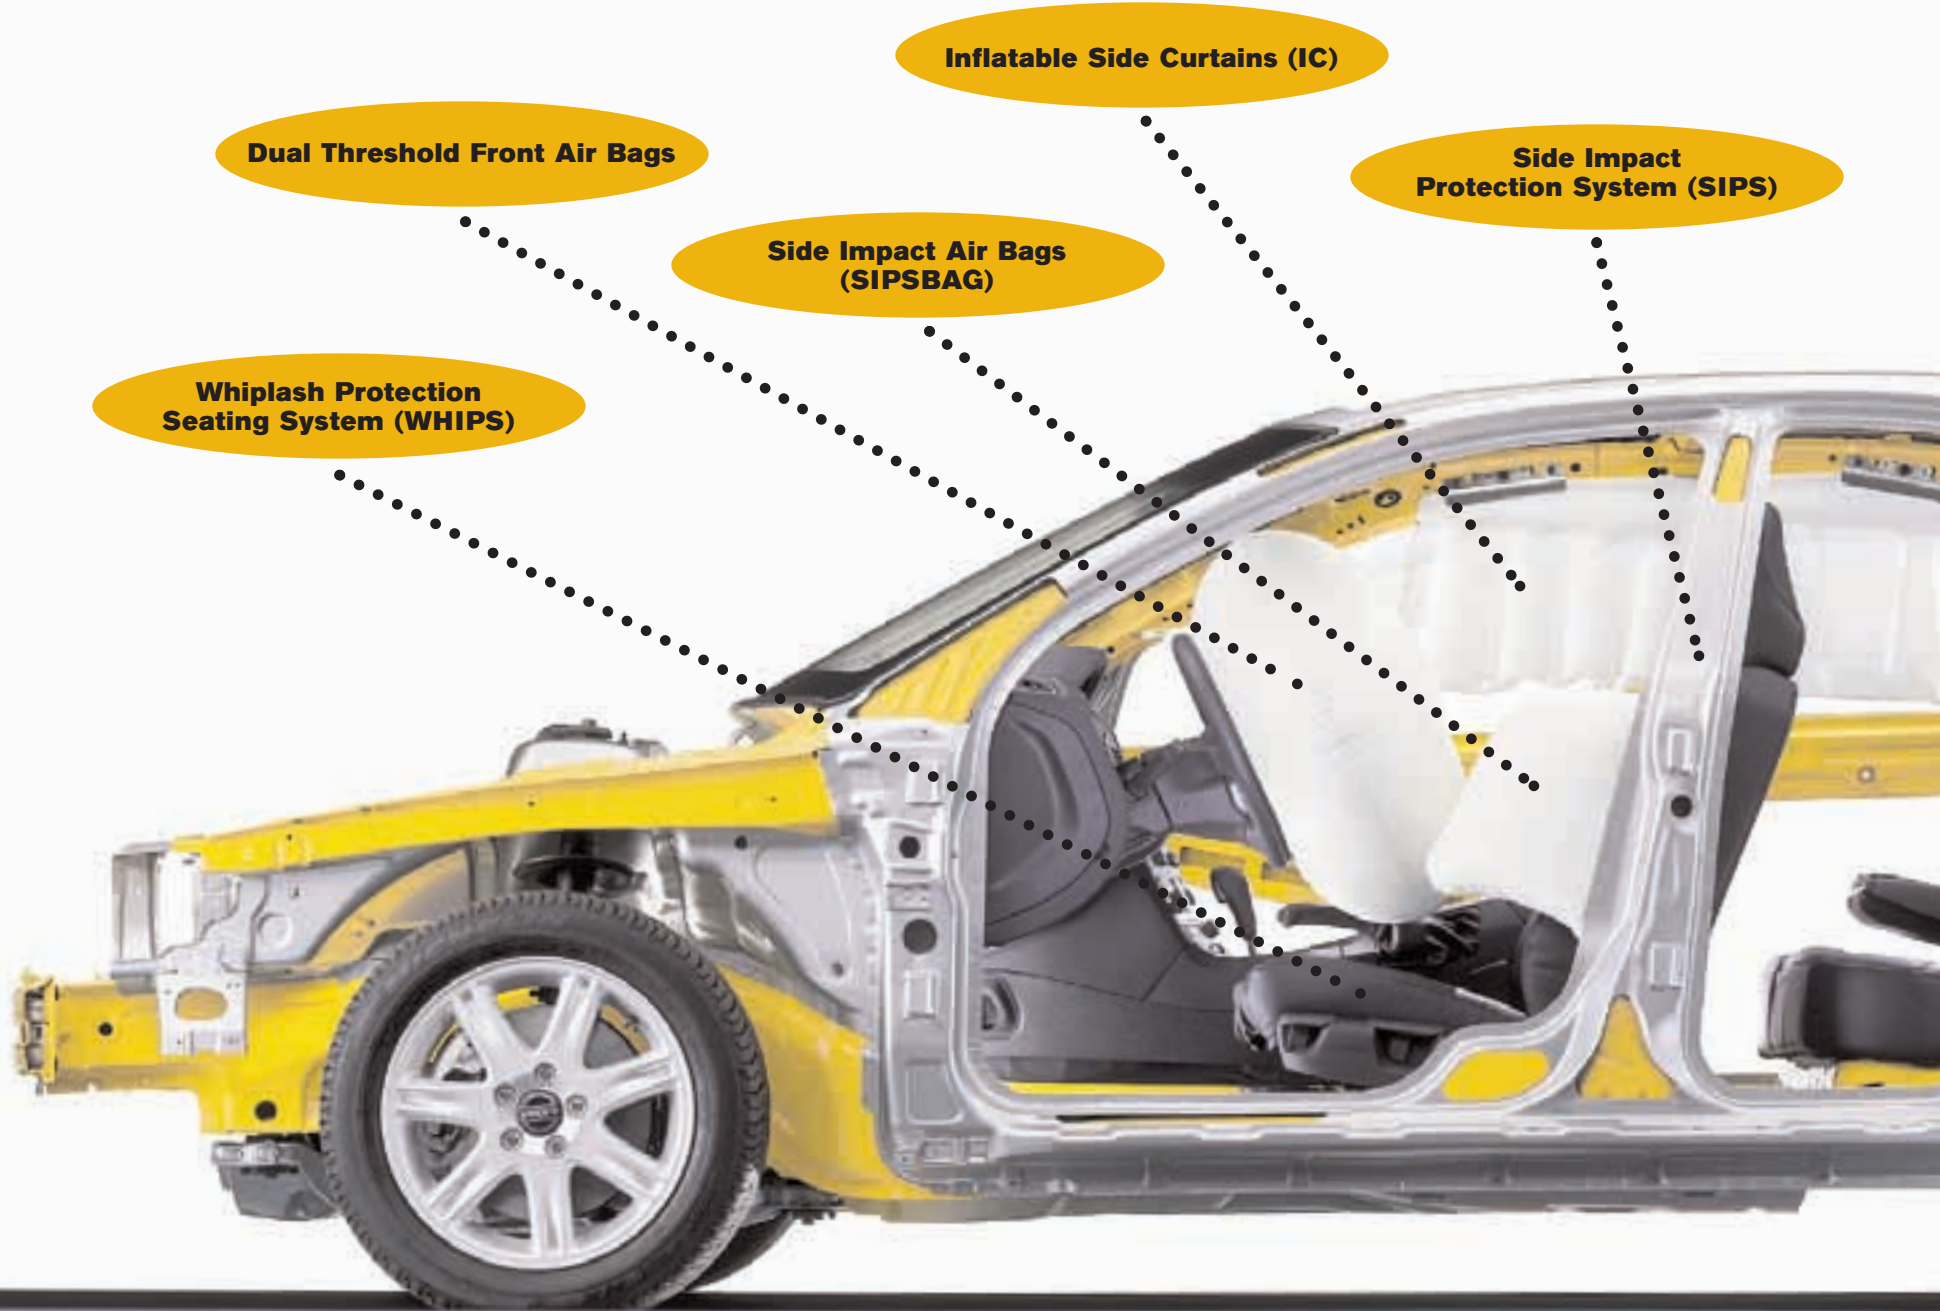

A. Volvo's dynamic 5-cylinder double overhead camshaft engines are the heart of S60 performance. Rated from 168 to 247 hp, they all provide excellent response and spirited torque.

B. The optional Geartronic 5-speed automatic transmission can be shifted manually as well as automatically, giving you the freedom to enjoy the road as you see fit. It is available as an option on turbocharged engines.

Dual Threshold Front Air Bags

Inflatable Side Curtains (IC)

Side Impact Protection System (SIPS)

Side Impact Air Bags (SIPSBAG)

Whiplash Protection Seating System (WHIPS)

High Strength Steel Passenger Safety Cage

ISO-FIX Compliant

Front & Rear Energy Absorbing Structure

Look in the dictionary under “Safety.” There should be a picture of a Volvo. The S60 is all about safety. Everything – engine, steering, brakes, suspension, even details like a rear fog lamp and optional headlamp washers and wipers that improve vision – is functionally integrated to improve safety. It all works together to give you the tools to avoid an accident. But if an accident is unavoidable, Volvo has a Plan B. The body of the vehicle is designed to help protect occupants as much as possible. Here are some of the steps Volvo takes for that:

- **High Strength Steel passenger safety cage.**
- **Energy absorbing structure** with beams that direct energy away from the passenger cage.
- **Transverse engine position** helps distribute crash energy.
- **Dual Threshold Front Air Bags** for driver and front passenger. Dual stage air bags deploy differently and with different force depending upon the severity of the crash and whether the seat belts are being used.
- **3-point safety belts with pre-tensioners** on all five seating positions.
- **Collapsible 3-stage steering column.**
- **Anti-submarining seat design** to prevent sliding under the safety belt.
- **Whiplash Protection Seating System (WHIPS).**
- **Padded head restraints** on all five seats.
- **Protected, strategically positioned fuel tank.**
- **Side Impact Protection System (SIPS)**, patented by Volvo, provides additional structural support.
- **Side Impact Air Bags.**
- **Inflatable Side Curtains (IC).**
- **Energy absorbing** door materials.
- **ISO-FIX compliant.**

WHIPLASH PROTECTION SEATING SYSTEM

Volvo's Whiplash Protection Seating System (WHIPS)

represents an extraordinary automotive safety design advancement. This system, unique to Volvo, is designed to provide markedly **better protection** from neck and back injuries in the event of a rear impact.

Based on exhaustive study of body geometry and accident dynamics, WHIPS is designed to diffuse the violent energy transfer resulting from a rear impact that often produces serious **neck and back** trauma.

Should an S60 be struck from behind, the front seat backrest and head restraint move backwards in parallel while the occupant's head and upper torso are evenly, firmly and uniformly supported. The backrest is designed to then tip backwards to help prevent the damaging forward whiplash movement.

INFLATABLE SIDE CURTAIN

Since introducing the three-point seat belt almost 40 years ago, Volvo has consistently advanced the cause of automotive safety design with technological breakthroughs and patented concepts. The **Inflatable Side Curtain (IC)** represents another in this proud line of achievements.

IC widens the scope of Volvo's patented Side Impact Protection System (SIPS) technology to new levels of personal occupant protection. This third stage of the SIPS concept is designed to provide **increased protection** from head injuries for **front and back seat** door-side occupants.

In a side impact, IC, in 25 thousandths of a second, inflates a protective curtain that extends from the windshield pillar to the rear pillar. This **protective curtain** has been shown to absorb as much as 75% of the energy exerted by the head when it is thrown to the side.

IC offers an additional benefit beyond helping to **protect the head** area from an impact. It also reduces the risk of an occupant being partially thrown out through a side window. IC, together with the SIPS structural protection and SIPS Air Bags, represents what may be the most comprehensive side impact protection of any production automobile in the world.

PERSONAL SECURITY

At Volvo, your safety has always come first. This philosophy extends well beyond the design integrity of every car we build to the important security details that protect you as you pursue everyday activities in your car. Finally, it also embraces your safety on your way to and from your car.

A

A. The remote, keyless 2-step central locking system features a rolling code that makes it impossible for thieves to copy. The key fob includes a trunk release, Approach Lighting button, and alarm with panic button.

B

B. With Volvo's Approach Lighting, side mirror lights, interior lamps and parking lights come on automatically with the remote control and illuminate your entry into the car.

C

C. A flip of the high beam lever and Volvo's Home Safe Lighting will leave the headlights on for an additional thirty seconds as you find your way safely to your front door.

WE CHOOSE TO MAKE A DIFFERENCE WITH VOLVO ENVIRONMENTAL CARE.

Volvo is one of the most environmentally responsible car companies in the world. This has come about because more than 25 years ago, Volvo made the responsible choice – to adopt a holistic approach to the environment and find ways to reduce the environmental impact of the vehicles we make.

This outlook is exemplified in our commitment to automotive excellence, and is one of our core values – Safety, Quality and Environmental Care.

We are convinced that it is possible to be environmentally responsible and produce better cars at the same time.

Volvo drivers apparently think so, too. Their support of our efforts continues to be reflected in the steady increase in Volvo sales worldwide.

In the United States, environmental concerns affect many areas of daily life, and much legislation has been passed to help ensure that environmentally harmful substances affecting air, water, soil, and living things are reduced to low levels. Volvo not only supports these efforts, but has often shown others how a systematic, long-term effort can pay handsome environmental dividends.

Today, Volvo is seen as one of the industrial leaders in environmental care. Over the past two-and-a-half decades, we have continually examined every aspect of the design, development, use and recycling of a car. In hundreds of practical applications, we have reduced or eliminated the use of harmful substances in every phase of the manufacturing process and have placed similar requirements on our suppliers.

With Tomorrow in Mind.

The ECRIS (Environmental Car Recycling in Scandinavia) research project concluded in May 1998 after four years of work. Based on the experience gathered from the project, Volvo is now making recycling an integral part of the product development process. The Volvo Cars' strategy for recycling-friendly design is based on four main elements. These are, in order of priority: to avoid the use of hazardous materials and substances; to facilitate the drainage and dismantling of environmentally hazardous materials; to minimize the resources used in production; and to design components so as to facilitate material recycling.

A Holistic Approach.

In our product development, we use a highly sophisticated system, EPS (Environmental Priority Strategies), in product design, which has been primarily developed by Volvo, the Swedish Environmental Research Institute and Chalmers University of Technology, Gothenburg, Sweden. This is a computerized life-cycle assessment tool that shows how a certain component affects the environment throughout its entire life cycle, from raw materials extraction through manufacture and use, to waste disposal.

95% Purification.

In Volvo cars, an effective catalytic converter eliminates up to 95% of the carbon monoxide, hydrocarbons and nitrogen oxides in the engine exhaust emissions, compared with uncontrolled levels. Official tests conducted in accordance

with U.S. and Canadian Governmental Requirements have shown that the emissions are practically as clean after 50,000 miles (80,000 km) as they are when the car is new – quality and environmental care go hand-in-hand.

Restrictions on Hazardous Chemicals.

We have drawn up a black list of chemical compounds that have been eliminated from production and a grey list of compounds that are to be avoided and that, in many cases, are already being phased out. These lists, which include such substances as CFCs and asbestos, apply both at Volvo and among our suppliers. We have also achieved a drastic reduction in the use of PVC. We use waterborne paints in order to minimize the emissions of solvents.

Made for Recycling.

All new Volvo models contain certain recycled materials. To facilitate recycling, all plastic components that weigh more than 1.76 oz. (50 g) are labeled according to international standards.

Environment at Volvo Cars of North America, Inc.

Volvo Cars of North America's environmental activities include issues such as environmental training for staff at the company and at Volvo Retailers, issuing a world-first Environmental Product Declaration for the Volvo S80 and S/V40 (see it at www.volvocars.com) and creating an environmental education web site for high school science teachers,

www.environment.volvocars.com

Volvo's holistic approach to Environmental Care affects every phase of our operations, from recovery of waste heat from a neighboring oil refinery to encouraging driving styles that conserve fuel and reduce emissions. Here are just a few of our achievements.

- 1972** Volvo becomes first automaker to declare environmental commitment at United Nations Conference on the Environment.
- 1976** Introduction of Lambda Sond® and the three-way catalytic converter, a unique sensor that eliminates approximately 95% of regulated emissions (hydrocarbons, oxides of nitrogen and carbon monoxide).
- 1983** Volvo introduces its first Environmental Policy.
- 1989** Volvo updates its Environmental Policy.
Reduces solvents in corrosion protection materials.
- 1990** All new Volvos are asbestos-free.
- 1991** Our Torslanda paint shop eliminates toxic solvents by implementing an effective waterborne paint system.
- 1992** Volvo introduces the ECC prototype (Environmental Concept Car).
- 1993** Volvo eliminates harmful CFCs from all cars.
- 1996** Volvo tests fleet of Bi-Fuel (methane and gasoline) cars in the U.S.
- 1997** Volvo announces Environmental Specifications for 1998 models available in the United States.

Volvo's Dialog on the Environment program
(Training for Volvo Cars of North America employees).
- 1998** Volvo introduces a world-first Environmental Product Declaration certified by third party. Available at:
www.volvocars.com
- 1999** The vast majority of model year 2000 cars are LEVs (Low Emission Vehicles).
- 2000** PremAir® radiator is introduced on certain models.

 Ozone  Oxygen

PREMAIR®

As part of our global environmental commitment, the new S60 features the Volvo PremAir® radiator system. It helps reduce ground level ozone as you drive. PremAir can best be described as coating on the radiator that actually turns ground level ozone into oxygen as air flows through it. At high temperatures, almost 75% of this ozone is converted into oxygen.

*PremAir® is a registered trademark of Engelhard Corporation.

A PLEASURE TO OWN

Volvo is committed to rewarding your choice of vehicle with a superior ownership experience.

Volvo's New Car Warranty for 2001 provides comprehensive coverage for 4 years/50,000 miles/80,000 km. Additional warranties provide coverage for corrosion protection, seat belts, air bags, supplemental restraint system, emission systems, spare parts replacement and **Genuine Volvo Accessories**. A 12 month/12,000 mile/20,000 km adjustment period is included. Consult the Warranty Information booklet for details.

Volvo On Call provides emergency roadside assistance 24 hours a day anywhere in North America. Should a question pertaining to your Volvo arise and your Retailer is unable to provide an answer, **Volvo Customer Support** can be contacted at 1-800-458-1552 (U.S.) or 1-800-663-8255 (Canada).

Professional Volvo service is ensured through the **Volvo Service Support Network** of authorized Volvo Retailers. Here, factory-trained technicians, skilled in the latest Volvo technology, using **Genuine Volvo Parts**, maintain your Volvo to the highest standards.

The Volvo Increased Protection Plan (VIP) offers the ultimate support program for total peace of mind. VIP provides protection against unexpected mechanical repairs well beyond the expiration of the vehicle's standard warranty.

For those wishing to combine their vacation with the purchase of a new Volvo, the **Volvo Overseas Delivery Program** affords you the opportunity to pick up your new Volvo in Europe.

Volvo Finance North America (VFNA) and **Volvo Car Financial Services Canada** (VCFSC) make acquiring a new Volvo a simple and convenient process. Working exclusively through authorized Volvo Retailers, VFNA and VCFSC strive to provide you with an unsurpassed level of service. Our **Volvo Value Leasing** and **Volvo Value Financing** products offer a broad array of choices and the freedom to create the plan that best fits your lifestyle. Nobody knows more about leasing or financing Volvos than we do.

The **Volvo Personal Shopper** (VPS) is dedicated to providing you with a whole new level of shopping convenience. Whether you'd like help identifying the Volvo model that best fits your lifestyle, detailed information on any Volvo model, or a comparison against the competition, VPS is there to help. We can even arrange a Guest Drive for you at your nearest Volvo Retailer. So make the most of your shopping time and call the Volvo Personal Shopper at 1-800-550-5658 (U.S. only).

S60 FEATURES/NORTH AMERICA

ISO-FIX compliant

Driver and front passenger supplemental restraint system (dual-threshold air bag)

Side Impact Air Bag for driver and passenger front seats

Inflatable Side Curtains (IC)

Side Impact Protection System (SIPS)

Whiplash Protection Seating System (WHIPS)

Seat Belts: five 3-point inertia reel, with automatic pre-tensioners

Five padded head restraints (center rear adjustable)

Anti-Lock Braking System (ABS)

Daytime Running Lights

Rear fog light

Safe Approach and Home Safe Lighting Systems

Immobilizer, encrypted ignition key with rolling code and auto relock

Security system with siren and battery back-up

Two-step remote entry, central power door locks

Rear-door child safety locks

Adjustable lumbar support

Dual Zone Climate Control with pollen filter

Ventilation outlets on B-pillar

Power windows with driver and passenger auto-down/up and anti-trap feature

Power/heated rearview mirrors

Illuminated vanity mirrors

Plush floor mats

Tilt/telescopic steering wheel

Front and rear 12 volt power outlets

2 front cup holders in center console

Fold-down rear center armrest

60/40 split folding rear seat

Full-logic AM/FM stereo cassette, six speakers with dual diversity antenna

Outside temperature gauge

15 x 6.5 inch alloy wheels

Heated front seats (Canada only)

Headlight wiper/washer (Canada only)

Dual Zone Electronic Climate Control (ECC) (2.4, Canada only)

168 hp engine

5-speed manual transmission

PACKAGES & OPTIONS/U.S.

2.4T Includes:

- ▶ 197 hp turbocharged engine
- ▶ 5-speed automatic transmission
- ▶ Steering wheel with cruise and audio controls
- ▶ Dual Zone Electronic Climate Control (ECC)
- ▶ Power driver's seat
- ▶ Power glass sunroof (Canada only)
- ▶ Leather trimmed gearshift knob
- ▶ 16 x 6.5 inch alloy wheels

T5 Includes:

- ▶ 247 hp turbocharged engine
- ▶ 5-speed manual transmission
- ▶ Stability Traction Control (STC)
- ▶ Front fog lights
- ▶ Full logic AM/FM stereo cassette, In-dash CD, eight speakers
- ▶ Dual Zone Electronic Climate Control (ECC)
- ▶ Leather trimmed steering wheel
- ▶ Leather trimmed gearshift knob
- ▶ Leather trimmed parking brake handle
- ▶ Front/rear Sport Seats
- ▶ Driver and passenger power seats
- ▶ Power glass sunroof (Canada only)
- ▶ Homelink
- ▶ Trip computer
- ▶ Electrically folding rear headrest (optional U.S.)
- ▶ Auto dimming rearview mirror
- ▶ 16 x 7 inch alloy wheels

S60 2.4/2.4T Premium Package:

- ▶ Leather seating surfaces
- ▶ Leather trimmed steering wheel
- ▶ Simulated wood trim inlays
- ▶ Power glass sunroof with auto open/close, sunshade, anti-trap feature
- ▶ Power driver's seat (standard 2.4T)
- ▶ Power passenger seat (not available 2.4)
- ▶ In-dash CD
- ▶ Rear shelf speakers (not available 2.4)

S60 Touring Package:

- ▶ Electrically folding rear headrest
- ▶ Cup holder in dash
- ▶ Grocery bag holder (trunk)
- ▶ Homelink/garage door opener (standard T5)
- ▶ Laminated side glass
- ▶ Air quality sensor (not available 2.4)
- ▶ Auto dimming mirror (standard T5)
- ▶ Trip computer (standard T5)
- ▶ Outside mirrors with memory function (not available 2.4)

Cold Weather Package:

- ▶ Stability Traction Control (STC) (standard T5)
- ▶ Heated front seats
- ▶ Headlamp wiper/washer

Factory Options:

- ▶ Metallic paint
- ▶ Power glass sunroof with auto open/close, sunshade, anti-trap feature
- ▶ Leather seating surfaces
- ▶ Electrically folding rear headrest
- ▶ Rear integrated cup holders (2.4)
- ▶ Dynamic Stability Traction Control (DSTC)
- ▶ 4 CD in-dash system (requires Touring Package)
- ▶ Geartronic auto transmission (2.4T, T5)
- ▶ T5 Sports Suspension (T5)
- ▶ Volvo Navigational System
- ▶ 17 x 7.5 inch alloy wheels (2.4T, T5)
- ▶ 16 x 6.5 inch alloy wheels (2.4)
- ▶ 16 x 7 inch alloy wheels (2.4T)

PACKAGES & OPTIONS/CANADA

SPECIFICATIONS

7 x 16 in. alloy, "Metis"
215/55/16 tires
(standard T5, option 2.4T)

7.5 x 17 in. alloy, "Tethys"
235/45/17 tires
(option 2.4T, T5)

6.5 x 16 in. alloy, "Mimas"
205/55/16 tires
(standard 2.4T, option 2.4)

6.5 x 15 in. alloy, "Lysithea"
195/65/15 tires
(standard 2.4)

S60 2.4/2.4T Premium Package:

- ▶ Leather seating surfaces
- ▶ Leather steering wheel
- ▶ Simulated wood trim inlays
- ▶ Power driver's seat (2.4)
- ▶ Power driver and passenger seats (2.4T)
- ▶ In-dash CD
- ▶ Rear shelf speakers (not available 2.4)

S60 Touring Package:

- ▶ Electrically folding rear headrest
- ▶ Cup holder in dash
- ▶ Grocery bag holder (trunk)
- ▶ Homelink/garage door opener
- ▶ Auto dimming mirror
- ▶ Trip computer
- ▶ Outside mirrors with memory function (not available 2.4)

S60 Security Package:

- ▶ Laminated side glass
- ▶ Air quality sensor

Factory Options:

- ▶ Metallic paint
- ▶ Power glass sunroof with auto open/close, sunshade, anti-trap feature (2.4)
- ▶ Leather seating surfaces
- ▶ Stability Traction Control (STC) (2.4, 2.4T)
- ▶ Dynamic Stability Traction Control (DSTC) (2.4T, T5)
- ▶ 4 CD in-dash system (requires Premium Package)
- ▶ Geartronic auto transmission (2.4T, T5)
- ▶ Volvo Navigational System
- ▶ T5 Sports Suspension (T5)
- ▶ 17 x 7.5 inch alloy wheels (2.4T, T5)
- ▶ 16 x 6.5 inch alloy wheels (2.4)

ENGINES:

2.4

2.4 Liter, 5 cylinder, DOHC

Horsepower (SAE net): 168 @ 5900 rpm
Torque (ft./lbs., SAE net): 170 @ 4500 rpm
Compression ratio: 10.3:1

2.4T

2.4 Liter, 5 cylinder, DOHC, exhaust-driven turbocharger with intercooler

Horsepower (SAE net): 197 @ 6000 rpm
Torque (ft./lbs., SAE net): 210 @ 1800 rpm
Compression ratio: 9.0:1

T5

2.3 Liter, 5 cylinder, DOHC, exhaust-driven turbocharger with intercooler

Horsepower (SAE net): 247 @ 5200 rpm
Torque (ft./lbs., SAE net): 243 @ 2400 rpm
Compression ratio: 8.5:1

TRANSMISSIONS:

5-speed manual transmission with synchromesh on all speeds and reverse (2.4, T5)

5-speed microprocessor-controlled automatic with lock-up torque converter, Winter mode (2.4, 2.4T)

5-speed Geartronic microprocessor-controlled automatic with "Auto-Stick" function, Winter mode (optional 2.4T, T5)

SUSPENSION:

Front: MacPherson strut with asymmetrically mounted coil springs, hydraulic shock absorbers, 23.5 mm stabilizer bar

Rear: Multilink independent with coil springs, hydraulic shock absorbers, 19 mm stabilizer bar, cast aluminum subframe

T5 Sport: Recalibrated front/rear shock absorbers, 24 mm front/21 mm rear stabilizer bar

STEERING:

Power-assisted rack-and-pinion
3.2 turns, lock to lock

BRAKES:

Four-wheel, power-assisted disc brakes
T5 performance braking system (T5 only)
Four-channel Anti-Lock Braking System (ABS)
Electronic Brake Distribution (EBD)

DIMENSIONS AND WEIGHTS:

Wheelbase	106.9 in.	271.5 cm
Overall length	180.2 in.	457.6 cm
Overall height	56.2 in.	142.8 cm
Overall width	71.0 in.	180.4 cm
Front track	61.1 in.	155.1 cm
Rear track	60.9 in.	154.8 cm
Interior: total volume (EPA)	133.9 cu. ft.	3.79 m ³
Cargo capacity: Rear seat up	13.9 cu. ft.	.39 m ³
Rear seat folded	36.5 cu. ft.	1.03 m ³
Curb weight	3,230-3,468 lbs.	1,465-1,573 kg

S60 INTERIOR SELECTIONS

Understated. Elegant. Classic. These terms all apply to the design aesthetic of the Volvo S60 cabin. In a driver's world, it is a place of comfort and focus. Every detail has been well thought out and fully enacted by engineers who have dedicated all of their efforts to your safety and driving pleasure. Fabrics, leathers and materials of the highest quality combine to create an environment where time spent is time thoroughly enjoyed.

Green is beautiful.

Volvo has long been a strong proponent of the color green. This year, as part of our continuing commitment to the environment, we are taking advantage of advanced printing techniques to print our color choices directly on this page. This eliminates the need for chemically treated color chips and saves an enormous amount of energy and resources. Additionally, the paper used is recycled and 100% recyclable. Now just reading about your Volvo is a more environmentally friendly act. Importantly, so is driving one.

Note: Because of occasional variations in printing, consult your Volvo Retailer to ensure that the color choice you make is correct.

Specifications, features and equipment shown in this catalog are based upon the latest information available at the time of publication. Volvo Cars of North America, Inc., and Volvo Cars of Canada Ltd. reserve the right to make changes at any time, without notice, to colors, specifications, accessories, materials and models.
