

All-New
CADENZA

The Power to Surprise

CADENZA Enter the virtuoso

A provocative grille. Captivating headlamps. Tasteful chrome. Sculpted intakes. A new face on the street is ushering in a new era of luxury.

Substance and beauty
are deeply rooted in technology

Behold a virtuoso among today's sedans. Deploying smart technology, thrilling performance and undeniable allure that begins with a new concave grille inspired by classic motorsport, the all-new Cadenza gives new meaning to modern luxury.

Its athletic grace
is palpable from a distance

A sweeping profile. A contour line that flows from headlamp to taillamp.
A longer wheelbase. And rear quarter glass that now extends past the door.
The lines say it all. This is a luxury sedan built for dynamic performance.

Its soul emerges
and yearns for the road

The view of the Cadenza that best captures its road-taming spirit is the one you'll never observe for yourself. Because you'll be busy at the wheel reveling in its robust powerplant and nimble suspension.

A parting glimpse of automotive design perfection

The Cadenza even knows how to make a dramatic exit. The broad, chrome-accented deck lid conveys stability and class, while the rear profile flows gracefully down to the subtle spoiler, offering a lasting impression of a sedan that stands out from the crowd.

CADENZA puts luxury in the spotlight

A sweeping profile, broad hood and trunk lid, and discreet, high-mounted headlamps and taillamps with dramatic LEDs. The Cadenza makes its presence known with both subtlety and opulence.

Clean, simple lines
put the mind and the body at ease

The interior of the all-new Cadenza sets a new standard for luxury with a cleaner, more elevated arrangement of instruments around an analog clock. Its refined interior design and high-grade materials convey substance and tranquility.

Head-Up Display (HUD) Key driving information is projected in vivid color onto the windshield in the driver's line of sight. Displayed contents are customizable and brightness is automatically adjusted according to the intensity of light outside.

Supervision cluster with 7" color screen A tasteful, intelligently designed and customizable supervision cluster provides outside temperature and other essential vehicle and trip information.

Conventional cluster The standard instrument cluster shows vehicle and trip data through an attractive, ergonomically optimized 3.5" monochrome display.

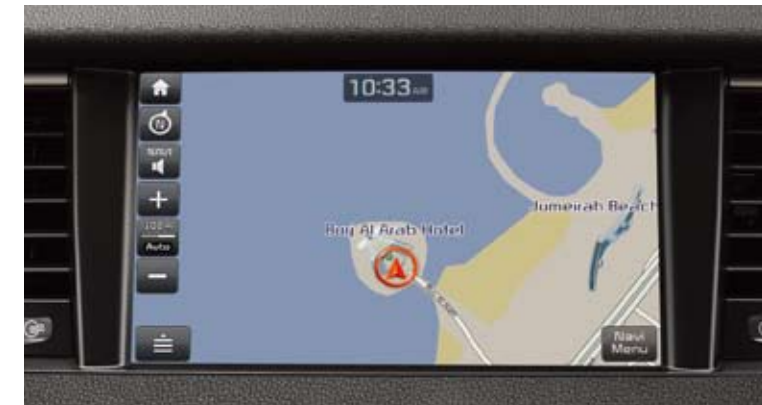

Bluetooth hands-free Built-in Bluetooth® connects your compatible mobile devices for music streaming and hands-free mobile communication.

Harman/Kardon premium sound system An available Harman/Kardon premium sound system features an external amplifier that powers 12 speakers including an 8" subwoofer (pictured below).

harman/kardon®

Wireless smartphone charger Charge a compatible mobile phone wirelessly on the charging pad located on the front center console bin. The display shows orange while charging and turns green when charging is complete.

8" color screen navigation system The multi-language navigation system includes a high-clarity 8" TFT-LCD screen, real-time traffic information (where available), back-up camera display and a shark-fin antenna.

Paddle shifters Positioned at your fingertips behind the steering wheel, paddle shifters add a sporty dimension to your driving pleasure. Lightning-quick gear changes immerse you in the world of high-performance driving.

All the data you need with the least possible distraction

The Cadenza keeps a wealth of information on hand, but intelligently filters out all but the essentials you need to stay focused on the road ahead. Instruments are intuitively positioned so that the driver's line of sight always remains priority number one.

An expansive space
where the journey becomes the reward

With more front seat headroom and rear legroom, high-quality interior trim, and upholstery choices like Nappa leather with supple quilting, the Cadenza's spacious interior is both relaxing and inspiring.

Immerse yourself in a true oasis of comfort

Behold the building blocks of the perfect ride, from your seat's position, the armrest beside you and the view above you to the soft textures at your fingertips and even the thoughtful way the variable-speed power windows smoothly open and close.

Panoramic sunroof The electrically controlled three-piece panoramic sunroof adds an airy openness to the interior ambience.

Rear seat comfort and convenience The Cadenza offers rear passengers firm, comfortable seats with plenty of headroom and legroom. Door window shades offer privacy and protection from the sun, while the center armrest includes not only drink holders, but also a power outlet and audio controls that let passengers adjust the audio settings for the rear of the cabin.

Ventilated seats Ventilated front seat cushions and seat backs provide soothing airflow to keep you cool on hot days.

Power driver's seat with cushion extension The 14-way power driver's seat offers an electric seat-cushion extension that lifts and slides forward from the front of the seat for added leg support and comfort.

Hassle-Free, Enjoyable Driving

DRIVE WISE is Kia's new ADAS (Advanced Driver Assistance System) technology initiative dedicated to the future of driving pleasure as well as occupant and pedestrian safety. It seeks to eliminate fatigue and tedium from daily driving by automating routine tasks such as finding more efficient routes, detecting potential hazards, providing intuitive alerts, and intervening when necessary to help avoid potential collisions. DRIVE WISE technologies even help drivers maintain a safe distance from vehicles in front, manage blind spots, and handle tight parking spaces and other stressful challenges. By taking care of the hassles of driving, DRIVE WISE promotes safety, happiness and peace of mind.

Using the latest sensor technology and intelligent data processing of Kia's state-of-the-art driver assistance system, the Cadenza helps you stay aware of your position on the road and the movement of the vehicles around you, while even taking actions to protect you in dangerous situations.

Responsive protection
for occupants and others on the road

Smart Blind Spot Detection (SBSD) SBSBD uses radar sensors to monitor your blind spots, and alerts you if it detects a vehicle encroaching into those areas. Going beyond earlier BSD systems, when a vehicle approaches the blind spot while the Cadenza is veering into the approaching car's lane, SBSBD actively applies brake pressure to the outside front wheel to help keep the Cadenza in its lane.
* SBSBD will be available as an optional feature in the second half of 2016.

Lane Change Assist (LCA) LCA issues visual alerts on the side mirrors if it senses a vehicle approaching rapidly from behind in adjacent lanes.

Rear Cross Traffic Alert (RCTA) When you back out of a parking spot or driveway, RCTA gives you a warning if it detects any cross traffic in the lane the vehicle is entering.

Advanced Smart Cruise Control (ASCC) ASCC uses a radar sensor at the front of the vehicle to monitor the distance between your Cadenza and the vehicle ahead. To maintain a predetermined safe distance, it will apply the brakes, and even stop the car, until the vehicle ahead proceeds.

Lane Departure Warning System (LDWS) LDWS uses a camera mounted at the top of the windshield to monitor lane markings, and alerts you if the vehicle deviates from the lane when the turn signal has not been activated.

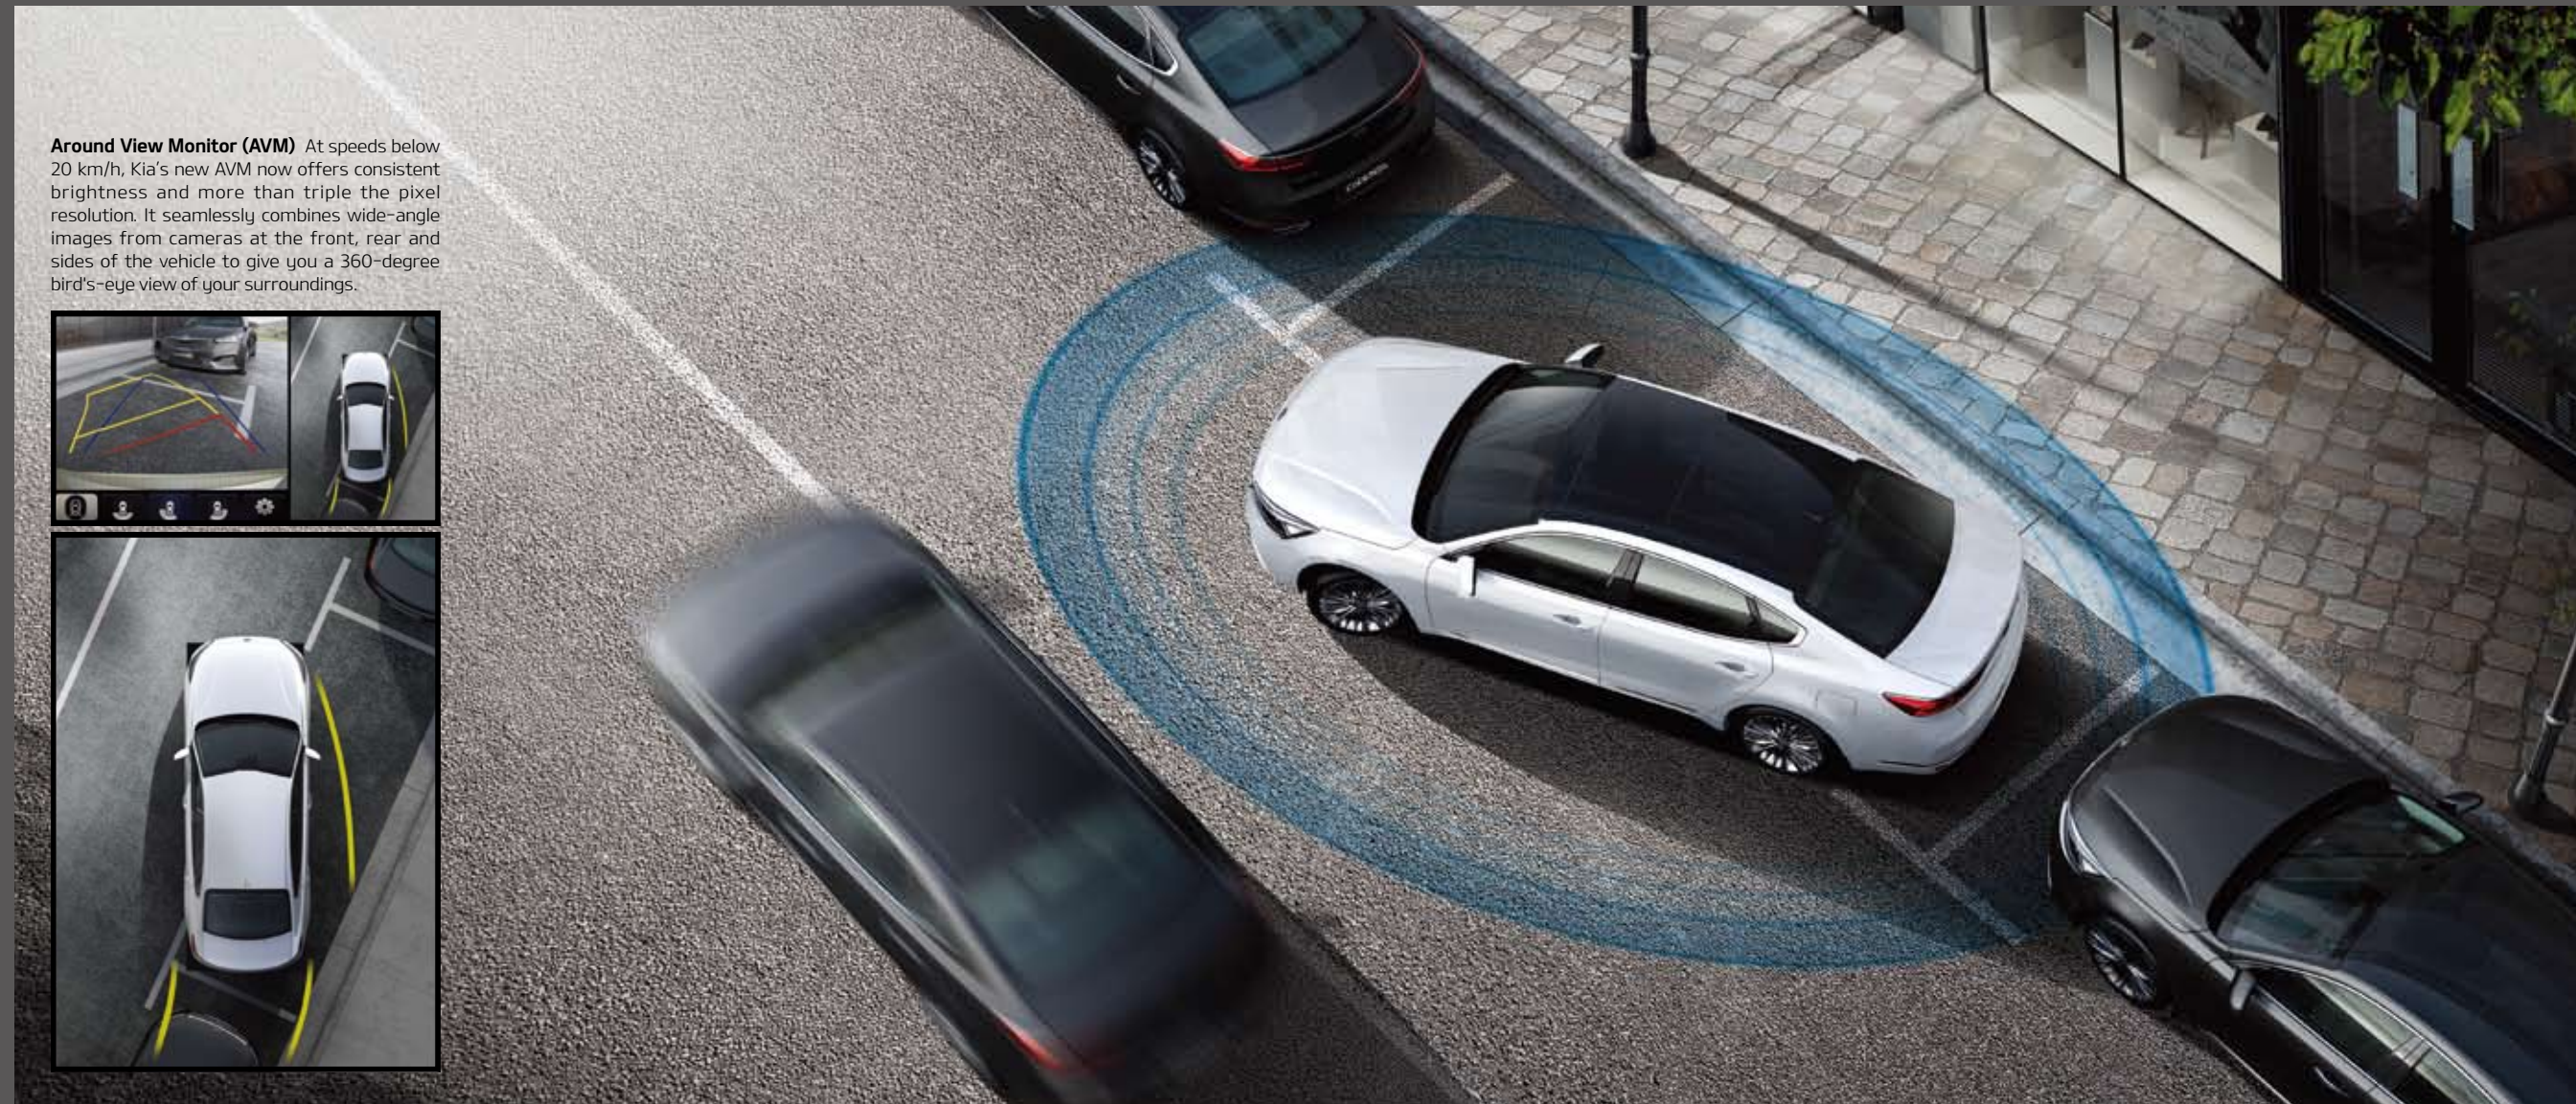

* LDWS will be available as an optional feature in the second half of 2016.

Like an extra set of eyes, DRIVE WISE gives you vital information, including visual cues, to help you maneuver safely in almost any driving and parking situation.

Technology to the rescue with eyes all around you

Around View Monitor (AVM) At speeds below 20 km/h, Kia's new AVM now offers consistent brightness and more than triple the pixel resolution. It seamlessly combines wide-angle images from cameras at the front, rear and sides of the vehicle to give you a 360-degree bird's-eye view of your surroundings.

There's nothing passive
about our commitment to safety

Thanks to the latest innovations in metals and adhesives, the Cadenza offers a ride that handles stress with grace, as well as a vastly improved safety cage that has been tested in countless crash simulations and actual collision tests.

51% AHSS application

The all-new Cadenza uses more than 51% Advanced High Strength Steel (AHSS), which is more than a 100% increase from the previous model. This equates to phenomenal body rigidity, enhancing cabin protection as well as dynamic performance.

18 zones with hot-stamped components

The new Cadenza features hot-stamping of components in 18 core stress areas, a 260% increase over the previous model. The strengthened body structure helps provide improved crash protection.

110m of structural adhesive

With more than six times as much structural adhesive applied compared to the previous generation, the Cadenza is more rigid yet lighter, and features improved noise, vibration and harshness.

9 airbags for unsurpassed protection

To help protect occupants and potentially reduce injuries in the event of a collision, the Cadenza offers driver, front passenger, two front-side, two rear-side, and two side-curtain airbags, as well as a driver's knee airbag.

8-speed automatic transmission A lighter, more durable, 8-speed automatic transmission is paired with the 3.3 GDI engine. Additional gears offer more power on tap and better efficiency covering more speed ranges.

6-speed automatic transmission An efficient 6-speed automatic transmission is dynamically matched to the 3.3 MPI engine's characteristics. The results are smooth shifts and confident acceleration.

Lambda 3.3 GDI engine Max. power of 284 ps @ 6,400 rpm, peak torque of 34.3 kg · m @ 5,200 rpm

Lambda 3.3 MPI engine Max. power of 270 ps @ 6,400 rpm, peak torque of 32.4 kg · m @ 5,300 rpm

Leaner and meaner with smooth sophistication

Quiet and fuel-efficient, the two engines available on the Cadenza offer bracing mid- and low-range torque. Each is teamed up with a state-of-the-art automatic transmission to offer rousing acceleration and remarkably smooth gear changes.

The romance begins
and lasts long after the drive has ended

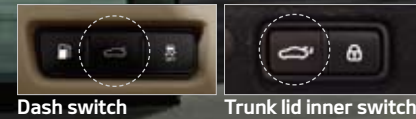

Confidence and competence make for an invigorating drive. With its intelligent take on luxurious motoring, the Cadenza engages you long after you've parked it for the night. But there's no need to worry as tomorrow is another day and another drive.

Luxury is where function meets fascination

The all-new Cadenza is available with a wealth of intriguing and useful features designed to enrich your life. Combining value, ingenuity and enjoyment, they add up to class-leading luxury.

Power trunk system The all-new Cadenza is available with a powered trunk lid that opens fully when the dash button or smart key is activated. Buttons inside the lid allow for hands-free closing and locking of the trunk. Includes the smart trunk system.

Smart trunk system No longer worry about juggling groceries, luggage and umbrellas. Set the trunk lid to open automatically when the smart key is in the detection area for at least three seconds.

Air curtain The aerodynamic air dam below the front bumper helps manage airflow to reduce drag, while also helping to cool the front brakes.

Headlamp washers Headlamp washers help to keep the headlamp covers free of mud, ice and road dust, helping to ensure optimum beam brightness for maximum visibility.

Projection-type (bulb) fog lamps Projection beam fog lamps mounted on the air dam intakes help provide better visibility in foggy or overcast conditions.

Rain sensors Located behind the rear view mirror, intelligent sensors automatically activate the wipers when rain drops are detected on the windshield.

Auto defogger system Sensors detect any condensation forming on the inside of the front windshield and automatically turn on the defogger for maximum visibility and safety.

Power rear sunshade A convenient one-touch mechanism raises or lowers the automatic rear glass curtain for better privacy while helping keep the cabin cool in the summer heat.

Integrated Memory System (IMS) IMS allows you to store seat and side mirror position preferences for two drivers.

Auxiliary and USB connections Flash drives and other compatible audio devices can be connected via 3.5 mm (analog) and USB ports.

Rear door sunshades Retractable manual rear-door window sunshades help passengers and stowed cargo stay cool on sunny days.

Electric Parking Brake (EPB) Apply the parking brake simply by pushing a button so that you never have to worry again about whether or not it's properly engaged.

6" color touchscreen audio The 6" TFT-LCD touchscreen audio system displays artist and track names and can be controlled with the tap of a finger. The system offers MP3 compatibility.

Rear view camera The rear view camera adjusts its guide lines based on the steering angle, giving you even more peace of mind when backing up or parking in tight spaces.

Variable front power windows Power windows start and finish opening and closing at lower speeds for a quieter, gentler motoring experience.

Tire Pressure Monitoring System (TPMS) TPMS keeps track of the pressure of each tire and informs you which tire is in an under-inflated state.

Dual-zone Full-Auto Temperature Control A standard dual-zone full-auto temperature control system gives the driver and front passenger separate controls for temperature and fan speed.

Visual and tactile pleasures

A choice of sophisticated interior colors and materials help create a relaxing and upscale cabin ambience. Make the Cadenza a reflection of your inner desires.

Wood Garnishes

Black Interior

Quilted Nappa Leather

Nappa leather with quilting offers comfortable support, and the console and upper dash are finished with real stitching. The doors and dash feature Black Pearl woodgrain trim with a luxuriously iridescent 2-layer grain pattern.

ECO dynamics

Whether you love getting out into the great outdoors, or simply enjoy living in a more sustainable balance with the ecosystem, you have found a soulmate in Kia Motors.

Environmental preservation and social responsibility are top priorities at Kia, and we back up our commitment with tangible actions. Our EcoDynamics sub-brand, established in 2009, designates the most eco-friendly cars within each Kia model range that showcase our new fuel-stretching and emission-cutting technologies such as hybrid, plug-in hybrid, electric and hydrogen fuel cell powertrains. We are also building a clean production system, raising the resource recovery rate, designing vehicles

with the disposal phase in mind, and increasing energy efficiency. Meanwhile, we are adopting more and more environmentally friendly materials in our cars, selected for their composition, biodegradability and bio-inspired technology. For example, to reduce our carbon footprint, we are replacing oil-based materials with plant-based materials wherever possible.

As you can see, we at Kia Motors are committed to finding fundamental solutions to cutting energy consumption and combatting climate change. If you feel the same way about preserving the environment and ensuring a brighter future for the younger generation, then we have just the vehicle for you.

The Power to Surprise

Kia is the newest and most exciting force of change in the automotive world and we are ready to change the way you feel and think about driving. More than just a promise, we are committed to making driving a true pleasure for customers across the globe. With youthful and dynamic styling and the latest in advanced technologies, Kia cars are turning heads the world over with the power to surprise. From the Picanto to the Mohave, Kia offers a full lineup of sedans, SUVs and MPVs that are not only practical and stylish but downright exhilarating to drive. Keep your eyes on Kia because our best has yet to come.

About Kia Motors Corporation

Kia Motors Corporation (www.kia.com) - a maker of quality vehicles for the young-at-heart - was founded in 1944 and is Korea's oldest manufacturer of motor vehicles. Over 3 million Kia vehicles a year are produced in 10 manufacturing and assembly operations in five countries which are then sold and serviced through a network of distributors and dealers covering around 180 countries. Kia today has over 50,000 employees worldwide and annual revenues of over US\$44 billion. It is the major sponsor of the Australian Open and an official automotive partner of FIFA - the governing body of the FIFA World Cup™. Kia Motors Corporation's brand slogan - "The Power to Surprise" - represents the company's global commitment to surprise the world by providing exciting and inspiring experiences that go beyond expectations.
