HOME FROM HOME

From ambient lighting to heated seating, the KAROQ's premium interior features a host of intelligent elements that make you feel instantly at home.

VIRTUAL COCKPIT

10.25" digital display which replaces the traditional instrument dials and can be customised with five views (Classic, Basic, Extended, Modern and an additional Sports view for SportLine trim).

INTERIOR LIGHT PACK

Selecting the KAROQ's LED ambient lighting is anything but a black and white decision. From the understated to the brilliantly bold, 10 colour options are available.

ELECTRIC SEAT

Upon entering the car the driver's electric seat with memory function recognises the vehicle key used and automatically adjusts to your preferred seating position.

CANTON SOUND SYSTEM

Premium German sound engineering, tailor-made to your KAROQ. The CANTON Sound System delivers powerful clarity from 10 speakers around the car.

Models shown are not UK specification. Some of the equipment shown is optional.

THE GREAT ESCAPE

Whether heading out on an urban adventure or embracing the extreme, the KAROQ delivers all the performance you need. Simply buckle up your seatbelt, select your driving mode and see where the unknown takes you.

FOUR-WHEEL DRIVE

The 4x4 system is designed to smoothly distribute the torque between front and rear axles automatically, to help you maintain control and stability.

DIRECT SHIFT GEARBOX (DSG)

The seven-speed DSG automatically adapts to your driving style, whilst taking road conditions into account. It reduces the strain on the engine and stress to the driver, by deciding when to change gear, leaving you free to concentrate on the journey.

DRIVE MODE SELECT

Featuring Normal, Sport and Eco mode, plus Individual mode to truly meet all your needs. All-wheel drive versions also offer an additional Snow and Off-road mode, designed specifically for low-traction conditions.

Models shown are not UK specification. Some of the equipment shown is optional.

CONNECTIVITY TO GO WHEREVER YOU GO

By enabling you to be fully online on the move, the KAROQ helps you stay connected wherever your adventure takes you. Thanks to its smart assistance systems, you'll also know the best places to park, shortcuts to take and routes to avoid.

STAY CONNECTED

The new ŠKODA Connect system turns the KAROQ into a fully interconnected car. Infotainment Online provides satellite navigation, traffic reports and calendar updates. The system also offers convenient gesture control to make navigating menus and lists easier while on the move. With Proactive Services the car will contact your ŠKODA Retailer to arrange a service. [Click here to go to ŠKODA Connect.](#)

SMARTLINK+

SmartLink+ enables you to connect your smartphone through the infotainment system with Apple CarPlay™ and Android Auto™ as standard across the range.

NAVIGATION SYSTEM

The Columbus satellite navigation with 9.2" touchscreen display and integrated Wi-Fi will get you from A to B, but why stop there? With its Bluetooth® and Wi-Fi capability, it offers more connectivity on-the-go.

EMERGENCY CALL

Activated by pressing a red button placed in the roof headlining, Emergency Call provides immediate contact with the emergency services. In the event of a crash, the call is made automatically to ensure you get the help you need.

Images shown may not be UK specification. Some of the equipment shown is optional.

HIGHLY ACCOMMODATING

Maximising space has always been ŠKODA's way. It's why the car's flexible rear seats can be configured to your precise journey requirements, while the cleverly designed storage compartments and adaptable boot space ensures everything you need is always close at hand.

SPACIOUS STORAGE

Several spacious storage compartments have been included in the interior. Some are also air-conditioned, making it perfect for storing chilled refreshments.

UNIBAG

Designed for transporting skis or a snowboard, the Unibag fits perfectly in the rear of the KAROQ when the middle seat backrest is folded down. Best of all, two rear passengers can still relax in total comfort.

JUMBO BOX

Featuring reversible cup holders, the Jumbo Box will also store your gadgets, house keys and cards.

FOLDABLE TABLES

Built into the backrests of both front seats, the foldable tables with drink holders can be used for more than just your refreshments.

AHEAD OF THE PACK

The KAROQ continues the ŠKODA tradition of providing vast space and versatility. For those looking to pack even more into their adventure, simply take advantage of the VarioFlex seating system and remove the rear seats to create even more space.

Models shown are not UK specification. Some of the equipment shown is optional.

BIG IDEAS COME IN ALL SIZES

While the KAROQ's state-of-the-art features impress at every opportunity, it's often the simplest ideas you'll appreciate the most. Like being able to open the boot by just waving your foot, or finding a hidden ice scraper in the fuel filler cap ready for winter.

ELECTRICALLY FOLDING TOW BAR

Activated by a switch in the boot, the KAROQ's foldable tow bar ensures it is safely hidden when not required.

VIRTUAL PEDAL

On-hand when none of yours are free. Simply use a 'kick motion' underneath the luggage compartment to effortlessly open the boot.

REAR-VIEW CAMERA

Hidden under the boot handle, the rear-view camera makes light work of reverse parking, with an integrated washer to keep obstacles visible.

CHILD SAFETY LOCKS

With a quick push of a button, you'll enjoy the peace of mind that comes from knowing the youngest passengers onboard aren't going anywhere.

Models shown are not UK specification. Some of the equipment shown is optional.

ALWAYS ON THE LOOKOUT

It's always helpful to have an extra set of eyes on the road. It's why you'll find a number of smart assistant systems, ready to protect you and your passengers from any unseen dangers.

Images shown may not be UK specification. Some of the equipment shown is optional.

BLIND SPOT DETECT

An extra set of eyes on the road that monitors the blind spots allowing you to manoeuvre safely.

REAR TRAFFIC ALERT

Included as part of the Blind Spot Detect system, this assistant helps you reverse safely from a parking space when visibility is restricted. It can also activate the brakes automatically if an imminent collision is detected.

ADAPTIVE CRUISE CONTROL

Using a radar on the front grille, this feature keeps you a safe distance from the vehicle in front and enables you to maintain a constant speed without using the pedals.

LANE ASSIST

Helping you stay in the intended lane of travel, Lane Assist uses a camera to detect road markings, and supports steering if you veer too close to the edge.

YOUR KAROQ, YOUR WAY

Make all your adventures exciting with the latest tech, and your touring easier and practical with our extensive range of KAROQ accessories.

ROOF BOX AND ROOF BARS

By using the roof box in conjunction with our aluminium roof bars, you solve a common problem when transporting large, awkward objects such as skis, snowboards, pushchairs and golf bags that don't fit into the luggage compartment of a fully seated car. With its spacious 380 litres of volume, it can comfortably carry up to 120 kg in total stability.

BICYCLE CARRIER FOR A TOWBAR

This rack can carry two bicycles and is extremely sturdy, easy to fit and easy to use – you simply need to lift the bicycle up a little to secure it in place.

MULTIMEDIA HOLDER AND ADAPTER

This clever holder allows tablets between 115 and 195mm to be viewed both vertically and horizontally. It can also be tilted forwards, backwards or sideways by up to 30° and can be rotated 360°, making versatile viewing for your rear passengers.

NEXTBASE 522GW DASH CAM AND GO PACK

Recording in 1440p HD, the new Nextbase 522GW Dash Cam now packs even more features into the UK's most popular dash cam brand, including built-in Amazon Alexa, HD touchscreen and Intelligent park mode - which begins recording when any physical vehicle movement is detected, keeping your vehicle safe when parked.

REAR SEAT PROTECTION AND DOG SAFETY BELT

Forget worrying about the cleanliness of your car, particularly when transporting your pet. This easy-to-clean seat protector is sufficiently sized to cover the back seats. It is waterproof, washable and has an anti-slip treatment for your pet's safety. The safety belt keeps your dog safe and is available in a variety of sizes.

Images are for illustrative purposes only. Please ask your ŠKODA Retailer for further information. All the above accessories can only be added to the vehicle after production at a ŠKODA Retailer and some may include an additional fitting cost.

PROTECTION PACK

A walk in the woods or a day at the beach – it's great for the soul but not for your interior. Protect your KAROQ and save money with our Protection Pack. The pack includes front and rear mudflaps, double-sided boot liner and textile or rubber floor mats – all for a special pack price.

MUDFLAPS

Mudflaps prevent stones, grit and road spray from ruining your precious bodywork. This custom design is moulded to fit snugly into the contours of the wheel arches.

FLOOR MATS

These quality mats will keep your carpeted floors looking pristine. Thanks to quick release floor poppers, they won't slip around beneath your feet. They come in textile fabric but rubber versions are also available for the more outdoorsy types.

DOUBLE-SIDED BOOT LINER (VARIOFLEX)

No matter how mucky things get, it's good to know that there's a boot liner to match it. This clever liner comes with an all-weather texture on one side with a textile reverse. They're quick to fit and remove, and all come with a 5cm raised edge to keep in dirt and make mucky boots a thing of the past.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock.

Vehicle Excise Duty (VED) is correct at time of publication, but this may alter to reflect any change in the applicable VED rate.

* This rate applies to diesel cars tested to real driving emissions step two (RDE2) standards

** This rate applies to diesel vehicles that do not meet the real driving emissions step two (RDE2) standards - this rate currently applies to all ŠKODA diesel models.

Note: Vehicles with a list price exceeding £40,000 (including factory installed options, delivery charge, number plates and VAT) will pay an additional £325 plus the standard rate VED from year 2 to, and including, year 6. After the 6th year only the standard rate VED will apply.

BiK CALCULATION EXAMPLE

Based on
KAROQ SE 1.0 TSI 110PS

P11D value		£22,495.00
Company car BiK tax based on CO₂ emission level		29%
Taxable BiK (for 2020/2021 tax year):	29% of £22,495.00	£6,523.55
Annual company car tax (2020/21)		
20% income tax	20% of £6,523.55	£1,304.71
40% income tax	40% of £6,523.55	£2,609.42
Monthly company car tax (2020/21)		
20% income tax	£1,304.71 divided by 12 months	£108.73
40% income tax	£2,609.42 divided by 12 months	£217.45

Company car tax is based on the vehicle's carbon dioxide (CO₂) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. The table above will help you calculate your tax liability.

P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2020/2021.

ŠKODA Financial Services

ŠKODA Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs.

We specialise in providing simple and convenient funding options for drivers. The Solutions Personal Contract Plan offers a flexible, fixed-rate plan designed around your budget, by deferring a proportion of the car's value until the end of the agreement. This means a significantly lower monthly repayment compared to a loan or hire purchase agreement, so you can have more car for your money or just reduce the size of your repayments.

You choose the size of your deposit, from as little as one monthly payment, and a repayment period that suits you. At the end of the term, there are three options:

1. Part exchange your car for a new ŠKODA on a Solutions contract.
2. Pay the optional final payment to own the car.
3. Return the car (subject to terms and conditions).

ŠKODA Financial Services also offers hire purchase, contract hire and service and maintenance plans. Speak to your ŠKODA Retailer for your personalised quotation today.

T&Cs apply. ŠKODA Financial Services.

Annual Car Insurance with the ŠKODA 3 Year Fixed Price Commitment

You can't always predict what life has in store, but with ŠKODA 3 Year Fixed Price Car Insurance you can relax knowing the cost of your car insurance won't increase each year. With ŠKODA Car Insurance, you're not tied in for the three years, so if you decide you no longer want cover, you can simply let us know before your cover renews. If you choose to renew cover annually, the premium will be fixed for two consecutive renewals. If you make an amendment to your policy the premium at your next renewal will change, and this will be fixed for the remaining renewal periods. The fixed price commitment will no longer apply if you or a named driver gain a motoring conviction or make a claim (excluding windscreen claims), and the fixed price commitment does not apply to optional additional products and/or Insurance Premium Tax changes.

Service intervals

When you order your KAROQ, you can choose whether your car is on a fixed or a flexible service regime. Your ŠKODA retailer will help you decide which regime suits how your car will be driven, enabling your car to stay in the best possible shape.

Fixed regime: service every 10,000 miles or one year (whichever comes first).

This is recommended if the vehicle is likely to be used in the following way:

- > Driven fewer than 10,000 miles per annum.
- > Mainly short journeys, driven mostly in towns or cities.
- > High vehicle loading/towing and frequent hill climbs.
- > Heavy accelerating and braking, using high revs.

Flexible regime: Sensors in the engine detect when a service is needed. A service light will show between 9,000 and 20,000 miles or up to 24 months (whichever comes first).

The flexible service regime is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly and mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.
