

SEAT ALTEA XL

Autoemotion

IF SOME CARS ARE FAMILY-FRIENDLY
THIS ONE INVITES THE FAMILY OVER FOR TEA AND CAKE.

With its clever use of space, high roofline and multi-positional seats, the SEAT Altea was born ready. As the name suggests, the Altea XL is longer. And with its extra 123 litres of space the

new Altea XL shares all of the Altea's qualities, and then some. It's a car that welcomes the family with open doors.

IT'S NOT JUST THE CAR THAT'S LONGER.

The Altea XL's colour range has been extended (inside and out). The wheel range has been extended too. Like the headlights, the grill and front bumpers have been redesigned.

Naturally, a roof-rack is still standard. You see, as well as being longer, the Altea XL is a car with more up top.

HEADLIGHTS THAT RUN IN THE FAMILY.

As with all SEAT headlights, you have the option to choose Bi-Xenon, which is brighter than conventional halogen light, and consequently less tiring for the driver's eyes. Those headlights

come with an Adaptive Front-lighting System (AFS) and Daytime Running Lights (DRL), whilst foglights include a Cornering Function (more about all those later). Heated side mirrors are

electrically-adjustable, folding neatly into 'parking position' (and out of harm's way). The wipers are just as well-trained – when not in use they discreetly disappear into the front pillars.

Should you decide to do a disappearing act of your own one weekend and head for the mountains, it's good to know that the new Altea XL now comes with the option of four-wheel drive.

SINCE THE ALTEA XL IS ALL ABOUT OPTIONS,
WE COULDN'T LEAVE OUT THE OPTION OF FOUR-WHEEL DRIVE.

When things change outside, optional four-wheel drive keeps fuss levels to a minimum. Inside, things take on a rarified air. With its high roofline, the Altea XL offers more front headroom than any other car in its class. For legroom in the back, again, this five-seater is out in front – thanks

to rear seats that can be moved 160 mm. Of course, where kids are concerned, there's something even more important than knee room, and that's elbow room. Which is why the Altea XL comes with SEAT's very own 'Anti-squabble Zone' (put another way, that means an unrivalled amount of space between

the rear passengers). If battle-lines need to be drawn, it's a relief to know that they can fold down the armrest/table, complete with cup-holders. Front seats are fitted with fold-down 'airplane-style' seat-back shelves. Rear backrests are adjustable, allowing the kids to kick back after a hard day's play

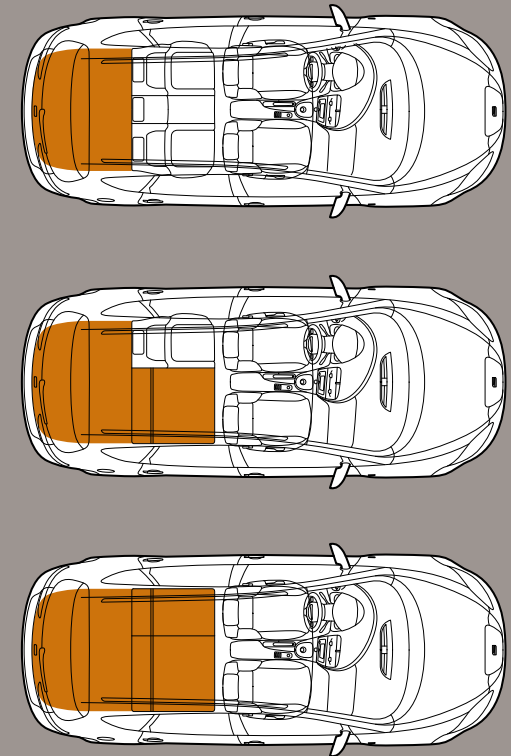

– the perfect excuse, we thought, for 'one touch' electric windows all around (with all this talk about generous amounts of space, it's only fitting that their design is known as anti-squeeze).

PLENTY OF ROOM FOR IMAGINARY FRIENDS.

Multi-positional seats provide the optimum configuration to suit your needs.

Three-way, split-folding seats.

The Altea XL's additional 18.7cm equals an extra 123 litres of space, giving it a 532 litre boot capacity in total (one of the largest in its class). But here's where the XL excels.

The rear seats can be positioned in a variety of ways to suit both kids and cargo. Need that extra bit of room in the boot? Shift one, two or all three of the seats forward by up to 160 mm (they also

slide backwards by the same amount). Whichever way you slice it, the Altea XL is fully flexible.

NOW THAT YOU'RE A FAMILY MAN
IT'S NOT ALL ABOUT YOU, YOU, YOU ANYMORE.
IN THEORY.

You're a family man now. Responsible. Considerate. Always thinking of others' needs before your own. So remember that you're not, repeat not, thinking of buying the Altea XL because of a multilink rear axle that contributes to best-in-class roadholding

credentials. Neither are you seduced by that marvelous piece of engineering we call an 'agile' chassis. Highly rigid and finely tuned, it turns the steering, brakes, transmission and body into a single, responsive unit that instantly transforms

your every intention into a precise manoeuvre. Much wiser to talk instead about anti-lock brakes. And electromechanical power steering, which ensures that steering is light at low speeds and stiffened at higher speeds, giving a more precise,

sporty feel that connects driver and road. Safer to mention an electronic limited-slip differential, linked to an Electronic Stability Programme (ESP) – if a wheel starts slipping, ESP compensates and stops it from doing so, significantly improving grip.

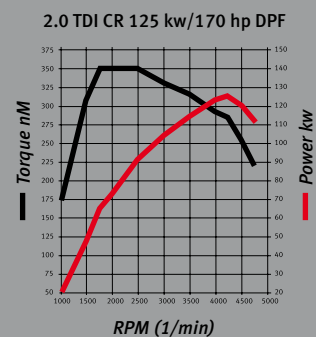

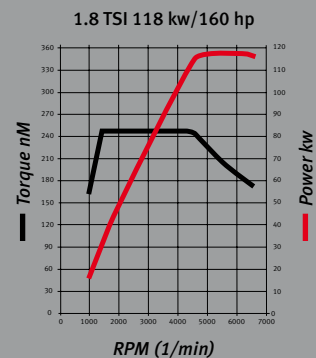

The result is greater agility, safety and comfort, particularly in the curves. Like we said. Responsible.

THE ALTEA XL RANGE IS A BIT LIKE THE FAMILY OUTING.
YOU ALWAYS FIND YOU HAVE MORE THAN YOU THINK.

Petrol models include the 160 hp 1.8 TSI, available with 7-speed DSG.

The 170 hp 2.0 TDI comes with a Diesel Particle Filter (DPF). It also comes with Common Rail engineering, which makes things quieter, smoother and more efficient.

	City driving (l/100 km)	Extra city driving (l/100 km)	Ponderable consumption (l/100 km)	CO ₂ Mass emission Ponderable (g/km)
PETROL				
1.4 63 kw/85 hp	8.8	5.4	6.7	159
1.4 TSI 92 kw/125 hp	8.3	5.3	6.4	152
1.6 75 kw/102 hp	10.1	6.0	7.5	178
1.8 TSI 118 kw/160 hp	9.3	5.8	7.1	165
1.8 TSI 118 kw/160 hp DSG	9.0	5.6	6.8	159
DIESEL				
1.9 TDI 77 kw/105 hp	6.8	4.5	5.4	142
1.9 TDI 77 kw/105 hp DPF	6.4	4.5	5.2	139
1.9 TDI 77 kw/105 hp DSG + DPF	7.7	5.0	6.0	159
1.9 TDI 77 kw/105 hp DPF 4WD	7.7	5.0	6.0	159
2.0 TDI 103 kw/140 hp	7.7	4.8	5.9	157
2.0 TDI 103 kw/140 hp DPF	7.5	5.1	6.0	159
2.0 TDI 103 kw/140 hp DSG	7.7	5.1	6.0	162
2.0 TDI 103 kw/140 hp DSG + DPF	7.8	5.2	6.2	164
2.0 TDI CR 125 kw/170 hp DPF	7.4	4.7	5.7	149

The Altea XL may be longer at the back, but we've also ensured that it doesn't fall short up front. Extra kick is provided by Turbo Stratified Injection, found in the 6-speed 125 hp 1.4 model as well as in the 6-speed 160 hp 1.8 version.

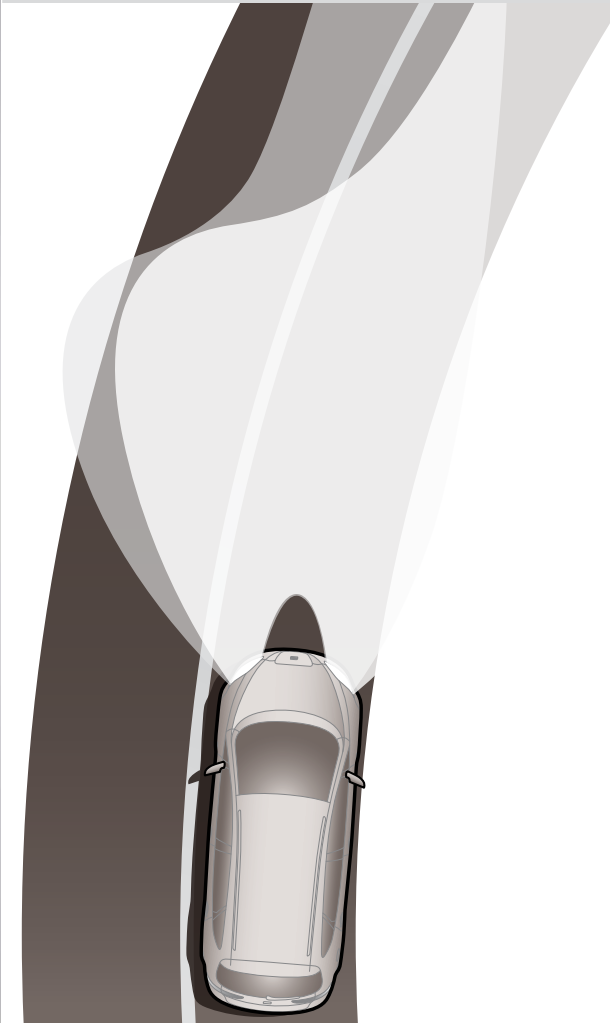

The last is also available with a unique 7-speed Direct Shift Gearbox (DSG). With steering wheel-mounted paddle controls, DSG enables you to change gear in a blink. DSG is also available with the 6-speed 140 hp 2.0 TDI, and the 105 hp

1.9 TDI, as is a Diesel Particle Filter (DPF), which, as the name suggests, helps to reduce emissions. DPF is standard with the manual 170 hp 2.0 TDI. But this model also benefits from something else – Common Rail engineering, which makes things

quieter, smoother and more efficient. Finally, for those who flicked straight to this page and have joined us late, the Altea XL now comes with the option of four-wheel drive in the form of the 105 hp 1.9 TDI.

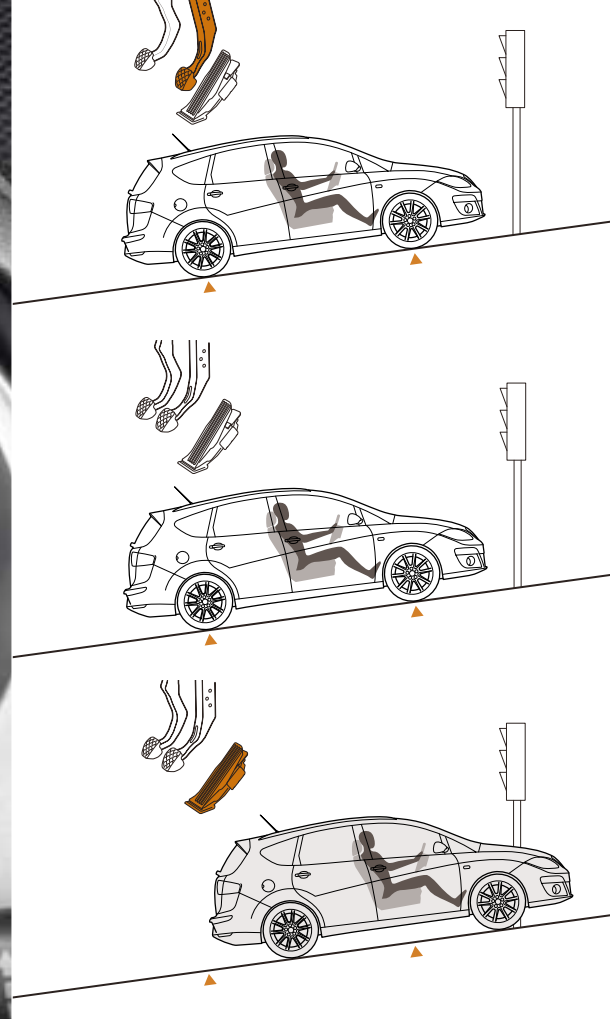

Bi-Xenon headlights with AFS follow the movements of the steering wheel, providing illumination where you need it most.

TECHNOLOGY-WISE, THE ALTEA XL COMES WITH JUST ABOUT EVERYTHING YOU COULD WISH FOR. EXCEPT MAYBE AN ANTI-TANTRUM DEVICE.

New instrument cluster with white graphics. A gear-shift indicator ensures either a more sporty drive or maximum efficiency.*

Hill-Hold Control prevents you from rolling downhill before the clutch is engaged.

Until that magical day comes we can promise something else designed to prevent things from becoming over-heated – two-zone Climatronic comes as standard in the Style and Sport, allowing you and your passenger to

select your own perfect temperature. The Style and Sport models include cruise control as standard too. You also have the option of Hill-Hold Control, which stops you from rolling down a slope the moment before the clutch is engaged.

A gear-shift indicator*, depending on what mode (and mood) you are in, ensures either a more sporty drive or maximum efficiency. There are light sensors, rain sensors and parking sensors. Headlights that can see around curves,

and foglights that can see around corners. Give us some more time on the anti-tantrum device.

** Only available in EU5 Engines*

An Optical Parking System (optional) provides visual reference on the multi-function screen.

Remote-controlled door mirrors.

IT KNOWS WHEN DUSK IS FALLING.
IT KNOWS WHEN RAIN IS FALLING.
IT'LL EVEN HELP YOU PARK.

In designing the Altea range we've made every effort to anticipate your needs. So when dusk starts to fall, you won't have to turn on the headlights – they'll come on automatically*. When the first drops of rain hit the windscreen, the wipers know it's time to go to work. When parking, you'll have the option of front and rear

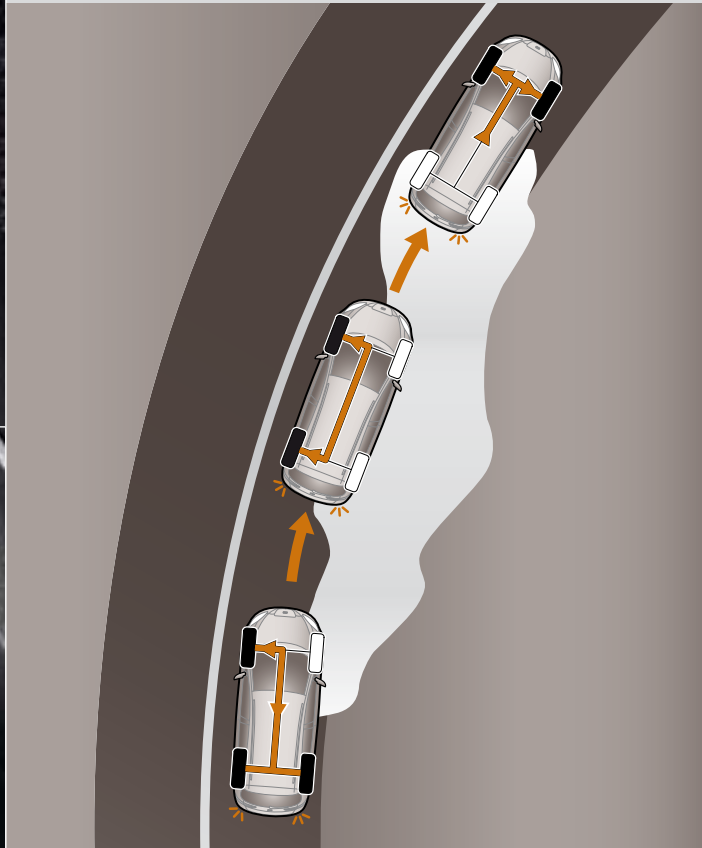

iPod®, MP3 and USB-friendly.

Touchscreen SEAT Media System 2.0.

New multi-function steering wheel with optional cruise control.

If a wheel starts slipping, the Electronic Stability Programme (ESP) compensates, significantly improving grip.

Parking Distance Control (PDC), which emits a sonic signal in case you're getting a little too close to the car next to you. If you have the SEAT Media System 2.0 you'll even have the option of an Optical Parking System, which gives you visual reference on the Multi-Function display. The new, multi-function steering wheel includes integrated

(and upgraded) Bluetooth®, which incorporates a handy agenda function. The instrument cluster (with fancy new white graphics) is also new. As is the touchscreen navigation system, complete with SD card slot and 5" colour screen. In the Style and Sport models those in the back row are treated to a fold-down 7" monitor with

DVD and video game capability and fully integrated iPod® connectivity**. Music-wise too, things are iPod® friendly**. And MP3-friendly. And there's a CUP (combined USB port/AUX-in). After all, even a car as clever as this one can't anticipate how you like your music.

* Optional.

**connected by special cable, available as an accessory

Front storage compartments include a centre console and stowage bins under the seats.

FAMILY-FRIENDLY IT MAY BE.
BUT CHAOS-FRIENDLY IT'S NOT.

Rear storage spaces include seat-back pouches and a centre console.

Yeah, things can get messy from time to time, but we've tried to give you a fighting chance against outright chaos breaking out. In addition to the storage cases in the front and rear centre consoles there are storage compartments under

the front seats. And pouches on the driver and passenger backrests. In the boot, we thought adjustable webbing, fixing hooks and a double floor might help too.

IT'S READY FOR WHATEVER THE CONDITIONS THROW AT YOU.

So we've established that the Altea can cope with whatever life throws at it. How does it cope with whatever the road throws at it? Again, anticipation is at the heart of our philosophy. Bi-Xenon headlights with AFS follow the movements of the steering wheel, providing illumination where you need it most.

Corner lights serve a similar purpose – activated by the indicator signal, they illuminate the area in the direction you intend to turn. They also make you more visible to oncoming drivers. For extra peace of mind, optional Bi-Xenon headlamps feature Daytime Running Lights (DRL). So what else keeps trouble at bay? An evermore sophisticated

ESP system works in tandem with an evermore sophisticated Traction Control System (TCS) – the newest version of which uses sensors in the Anti-lock Braking System (ABS) to prevent wheelspin at lower speeds as well as higher ones. That’s enough three-letter acronyms for one page. Well, just one more. EBA stands for Emergency

Brake Assist, and its trick is to provide maximum braking power from the shortest pedal movement. Just as cleverly, an anti-dazzle rear-view mirror prevents headlight glare from the car behind. The XL of course, is part of the Altea family – which won four Euro NCAP stars for ‘Child Occupant Protection’ and five for ‘Adult Occupant Protection’

(the highest evaluation there is). iSOFix – which enables two child seats to be anchored directly to the chassis – is standard. So are six airbags – two front, two side, two curtain (two optional rear thorax airbags protect passengers on the lateral seats). The front passenger airbag can be disconnected to prevent injury to an infant.

And to prevent injury to all five passengers, the three-point seatbelts are pre-tensioned – if braking is forceful, a limiter eases the belt’s tension.

SEAT ALTEA XL

- 15" steel wheels with 195/65 R15 tyres including hubcaps Saona
- Tinted windows
- 2 cupholders in central console for front seats + 2 cupholders for rear seats
- 3 spokes steering wheel
- Driver and passenger sunvisor with covered mirror
- Rear seat backrest in 3 pieces (central with table function & 2 cupholders)

- Rear seat with adjustable backrest inclination
- Passenger side net on floor carpet (only Left Hand Drive)
- 160 mm movable rear seats
- Box in central console with two level storage facilities
- Storage bin in rear central console
- Curtains in rear doors
- 12V plug in central console (front & rear)

- Electric mirrors with manual parking position
- Power front windows with antisqueeze
- Power locking + comfort with remote control
- Courtesy light and map lights with dim function
- Illuminated boot and glovebox
- 6 airbags and iSOFix in rear seats
- ABS + TCS
- Dynamic steering response (DSR)

- Height adjustable front seat belts with tensioners and load limit
- Seat belt warning system on driver seat
- Multilink rear axle
- Tyre fit

Some of the images are not included in the standard equipment.

SEAT ALTEA XL REFERENCE

- 15" steel wheels with 195/65 R15 tyres including hubcaps Saona
- Double and visible exhaust pipe (single in < 120 hp)
- Exterior mirrors and door handles in body colour
- Tinted windows
- 2 cupholders in central console for front seats + 2 cupholders for rear seats
- 3 spokes steering wheel

- Driver and passenger sunvisor with covered mirror
- Driver height adjustment
- Rear seat backrest in 3 pieces (central with table function & 2 cupholders)
- Rear seat with adjustable backrest inclination
- Passenger side net on floor carpet (only Left Hand Drive)
- 160 mm movable rear seats

- Box in central console with two level storage facilities
- Storage bin in rear central console
- Curtains in rear doors
- Climatic
- Radio CD MP3+ AUX-in + 6 speakers
- 12V plug in central console (front & rear)
- Board computer with autonomy
- Electric mirrors with manual parking position

- Power front windows with antisqueeze
- Power locking + comfort with remote control
- Courtesy light and map lights with dim function
- Illuminated boot and glovebox
- 6 airbags and iSOFix in rear seats
- ABS + TCS
- Dynamic steering response (DSR)
- Height adjustable front seat belts with tensioners and load limit

- Seat belt warning system on driver seat
- Multilink rear axle
- Tyre fit

Some of the images are not included in the standard equipment.

SEAT ALTEA XL STYLE

- 16" alloy wheels Enea with 205/55 R16 tyres
- Double and visible exhaust pipe (single in < 120 hp)
- Exterior mirrors and door handles in body colour
- Tinted windows
- 2 cupholders in central console for front seats + 2 cupholders for rear seats
- Gearknob and 3 spokes steering wheel with controls in leather
- Gearshift indicator*
- Paddles in steering wheel with DSG (except 1.9 TDI 105 hp)
- Illuminated driver and passenger sunvisor with covered mirror
- Driver and passengers seat height and lumbar adjustment
- Rear seat backrest in 3 pieces (central with table function & 2 cupholders)
- Rear seat with adjustable backrest inclination

- Passenger side net on floor carpet (only Left Hand Drive)
- 160 mm movable rear seats
- Box under front seat
- Box in central console with two level storage facilities
- Storage bin in rear central console
- Curtains in rear doors
- Climatronic

- Radio CD MP3 + 6 speakers + CU P (combined USB port/AUX-in)
- 12V plug in central console (front & rear)
- Cruise control and board computer with autonomy
- Electric and heated mirrors with electric parking position
- Power front windows with antisqueeze
- Power locking + comfort with remote control

- Front fog with cornering lights
- Courtesy light and map lights with dim function and illuminated rear dome lights
- Illuminated boot and glovebox
- 6 airbags and iSOFix in rear seats
- ABS + TCS
- Dynamic Steering Response (DSR)
- Height adjustable front seat belts with tensioners and load limit

- Seat belt warning system on driver seat
- Multilink rear axle
- Tyre fit

*Some of the images are not included in the standard equipment. * Only available for EU5 engines.*

SEAT ALTEA XL SPORT

- 17" alloy wheel Aroa with 225/45 R17 tyres
- Double and visible exhaust pipe (single in < 120 hp)
- Exterior mirrors and door handles in body colour
- Dark green tinted windows
- 2 cupholders in central console for front seats + 2 cupholders for rear seats
- Gearknob and 3 spokes steering wheel with controls in leather
- Gearshift indicator*
- Paddles in steering wheel with DSG (except 1.9 TDI 105 hp)
- Illuminated driver and passenger sunvisor with covered mirror
- Driver and passengers seat height and lumbar adjustment
- Rear seat backrest in 3 pieces (central with table function & 2 cupholders)

- Rear seat with adjustable backrest inclination
- Passenger side net on floor carpet (only Left Hand Drive)
- 160 mm movable rear seats
- Sport seats with specific upholstery
- Box under front seat
- Box in central console with two level storage facilities
- Storage bin in rear central console

- Curtains in rear doors
- Climatronic
- Radio CD MP3 + 6 speakers + CUP (combined USB port/AUX-in)
- 12V plug in central console (front & rear)
- Cruise control and board computer with autonomy
- Electric and heated mirrors with electric parking position

- Power front and rear windows with antisqueeze
- Power locking + comfort with remote control
- Front fog with cornering lights

SEAT SERVICE®.

Insurance. Whether you have bought your SEAT with a finance plan or are leasing it, with Premium light, you can ensure good value vehicle insurance with set premiums. No time-consuming search, no costly comparisons, but everything in one place. Your SEAT Authorised Service will calculate best value premiums that give you comprehensive insurance coverage. From third party insurance with unlimited cover to fully comprehensive insurance and inclusive third party, fire and theft.

Accessories. If you want to tailor your SEAT to your personal tastes, your SEAT Authorised Service can offer you a very large selection of original accessories from a child seat to a luggage rack. Each part is especially made to fit the measurements of your own SEAT and tested to meet the highest quality standards.

Warranty. No matter what kind of mileage you cover in your new SEAT, the new car warranty from your local SEAT Authorised Service gives you comprehensive coverage world-wide. You also get warranty on all our original parts, accessories and labour—all this, of course, without any mileage limit.

5 YEARS SEAT Service® Mobility. From the moment you buy your new SEAT in the EU you will enjoy the benefits of SEAT Service® Mobility and the wide range of services it provides – and this up to five years. For the first two years after purchase your new SEAT is automatically covered with the SEAT Service® Mobility without additional costs. If you wish to continue with this comfortable service you can extend the SEAT Service® Mobility up to five years while realising each prescribed Inspection Service at our SEAT Service Partner network.

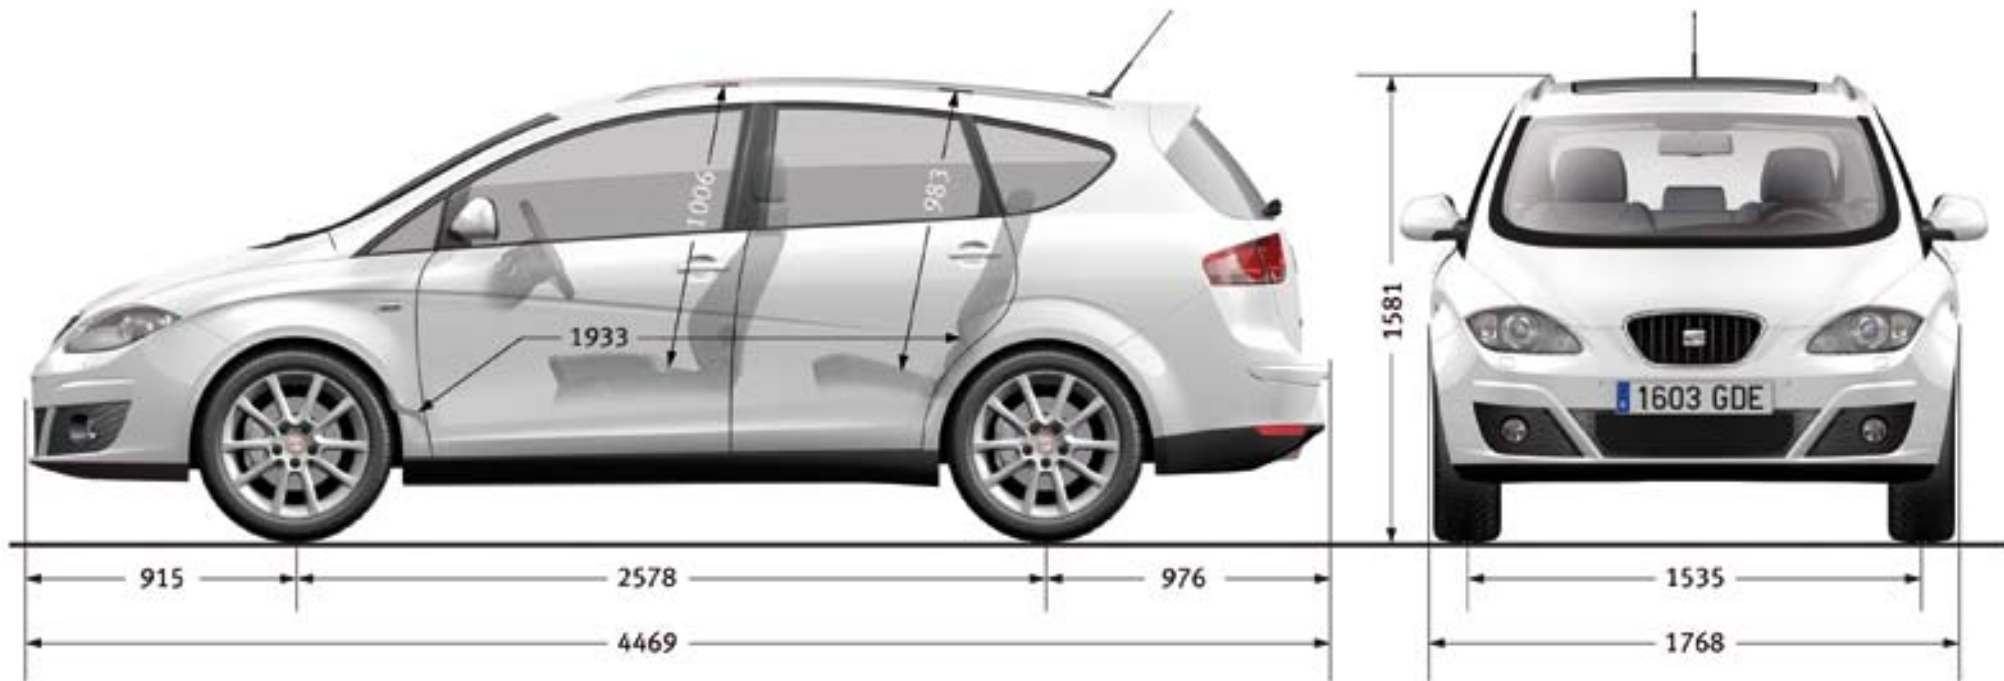

SEAT Service® Mobility is valid from doorstep and in every country of the European Union as well as in neighbouring countries. SEAT Service® Mobility offers you assistance services in any situation that leads to the immobility of your SEAT due to breakdown and makes it impossible for you to continue your journey. Of course assistance services are also offered if immobility occurs after an accident, theft and even lack of fuel. SEAT Service® Mobility will always find the best solution for your requirements and needs. If it is a replacement car you need, a transport home for you and your passengers or the stay in a hotel.

Finance. There are many good reasons to buy a SEAT and at least as many good reasons to finance your car with SEAT. Instead of buying your car outright you can take advantage of one of the many attractive loan options with pre-agreed conditions from the SEAT -Bank (a subsidiary of Volkswagen Bank GmbH). A finance plan with low monthly repayments throughout the entire loan period opens up many different possibilities: You can either give your car back at a certain time, lengthen the finance plan, or buy the car at an agreed point of time. Or instead of buying your car, you could just as well lease it with SEAT Leasing (a subsidiary of Volkswagen Leasing GmbH). The choice is yours.

12-year warranty. We want you to enjoy your SEAT for as long as possible. That's why we offer a 12-year anti-corrosion warranty. This SEAT model comes with a fully galvanised body, making it impervious against anything the elements can throw at you.

SEAT
SERVICE®

SEAT is committed to a policy of continuous product development and reserves the right to make changes to specifications, colours and prices without notice. The information in this brochure can therefore be given as guidance only. While SEAT makes every effort to ensure that specifications are accurate at the time of publication (15.04.2009), you should always check with your authorised SEAT Partner for the latest information. Due to limitations of the printing process the colours reproduced in this brochure may vary slightly from the actual paint colour and material. This vehicle and all its parts, as well as the original spares, were designed according to the Legal Regulations governing the prevention and minimisation of Environmental Impact, through the use of recycled/recyclable materials, with measures taken to achieve suitable recycling for the conservation and improvement of environmental quality.
